2. A concerted effort will be made to collect any unauthorized subsidy benefits received by the recipient.

3. Corrective actions will be taken upon advice of the Regional Attorney of the Office of General Counsel.

List of Subjects in 7 CFR Part 1951

Account servicing, Grant programs-Housing and community development, Loan programs-Housing and community development, Reporting and recordkeeping requirements, Rural areas, Rent subsidies, Subsidies.

Therefore, as proposed, Chapter XVIII, Title 7, Code of Federal Regulations, is amended as follows:

PART 1951—SERVICING AND COLLECTIONS

1. The authority citation for Part 1951 continues to read as follows:

Authority: 7 U.S.C. 1989; 42 U.S.C. 1480; 5 U.S.C. 301; 7 CFR 2.23; 7 CFR 2.70.

Subpart O—Servicing Cases Where Unauthorized Loan(s) or Other Financial Assistance Was Received—Community and Insured Business Programs

2. Section 1951.711 is amended by revising paragraph (b)(3) to read as follows:

§ 1951.711 Servicing options in lieu of liquidation or legal action to collect.

* * * * *

(b) * * *

(3) *Unauthorized subsidy benefits received.* When the recipient was eligible for the loan but should have been charged a higher interest rate than that in the debt instrument, which resulted in the receipt of unauthorized subsidy benefits, the case will be handled as outlined in this paragraph. The recipient will be given the option to submit a written request that the interest rate be adjusted to the lower of the rate for which they were eligible that was in effect at the date of loan approval or loan closing. (See Exhibit C of this subpart for interest rates (available in any FmHA office)). FmHA servicing officials will make a concerted effort to collect all unauthorized subsidy benefits from the recipient and will contact the Office of General Counsel in each case for advice in accomplishing corrective actions.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Ch. I

[Summary Notice No. PR–88–15]

Petition for Rulemaking; Summary of Petitions Received and Dispositions of Petitions Issued

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of petitions for rulemaking received and of dispositions of prior petitions.

SUMMARY: Pursuant to FAA's rulemaking provisions governing the application, processing, and disposition of petitions for rulemaking (14 CFR Part 11), this notice contains a summary of certain petitions requesting the initiation of rulemaking procedures for the amendment of specified provisions of the Federal Aviation Regulations and of denials or withdrawals of certain petitions previously received. The purpose of this notice is to improve the public's awareness of, and participation in, this aspect of FAA's regulatory activities. Neither publication of this notice nor the inclusion or omission of information in the summary is intended to affect the legal status of any petition or its final disposition.

Petitions for Rulemaking

Docket No.: 25505.

Petitioner: Flight Attendant Services, Inc.

Regulations Affected: 14 CFR Parts 121 and 135.

Description of Petition: The petition, if granted, would add new sections to the Federal Aviation Regulations to require Part 121 and 135 certificate holders to carry on each passenger-carrying aircraft, in easy readible view of each passenger, the "Passenger Awareness Check (PAC)" adhesively displayed in direct view of each passenger.

Petitioner's Reason for the Rule: The petitioner asserts that the purpose of this petition is to enable passengers to be consciously aware of the emergency procedures mentioned in the preflight demonstration and to be responsible for their own safety in the event an authorized crewmember is unavailable to assist them in the event of an emergency.

DATE: Comments on petitions received must identify the petition docket number involved and must be received on or before February 17, 1989.

ADDRESS: Send comments on any petition in triplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC–10), Petition Docket No. _____, 800 Independence Avenue, SW., Washington, DC 20591.

FOR FURTHER INFORMATION: The petition, any comments received, and a copy of any final disposition are filed in the assigned regulatory docket and are available for examination in the Rules Docket (AGC–10), Room 915G, FAA Headquarters Building (FOB 10A), 800 Independence Avenue, SW., Washington, DC 20591; telephone (202) 267–3132.

This notice is published pursuant to paragraphs (b) and (f) of § 11.27 of Part 11 of the Federal Aviation Regulations (14 CFR Part 11).

VOL 53 ISS 243 DE 19 1988 UMI

Issued is Washington, DC, on December 13, 1988.

Denise Donohue Hall,

Manager, Program Management Staff, Office of the Chief Counsel.

14 CFR Part 71

[Airspace Docket No. 88-ASO-23]

Proposed Revision of Transition Area; Alabaster, AL

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to revise the Alabaster, AL, transition area by adding an arrival area extension. The extension would provide airspace protection for aircraft executing a new Nondirectional Radio Beacon (NDB) Runway 33 Standard Instrument Approach Procedure (SIAP) being developed for the Shelby County Airport. Also, this action would correct the geographic position coordinates for the Bessemer Airport.

DATE: Comments must be received on or before January 29, 1989.

ADDRESSES: Send comments on the proposal in triplicate to: Federal Aviation Administration, ASO-530, Manager, Airspace and Procedures Branch, Docket No. 88-ASO-23, P.O. Box 20636, Atlanta, Georgia 30320.

The official docket may be examined in the Office of the Regional Counsel, Room 652, 3400 Norman Berry Drive, East Point, Georgia 30344, telephone: (404) 763-7646.

FOR FURTHER INFORMATION CONTACT: James G. Walters, Airspace Section, Airspace and Procedures Branch, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320; telephone: (404) 763-7646.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy aspects of the proposal. Communications should identify the airspace docket and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Airspace Docket No. 88-ASO-23." The postcard will be date/time stamped and returned to the commenter. All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available for examination in the Office of the Regional Counsel, Room 652, 3400 Norman Berry Drive, East Point, Georgia 30344, both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRM's

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Manager, Airspace and Procedures Branch (ASO-530), Air Traffic Division, P.O. Box 20636, Atlanta, Georgia 30320. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedure.

The Proposal

The FAA is considering an amendment to § 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to revise the Alabaster, AL, transition area. An arrival area extension is required to provide airspace protection for aircraft executing a NDB RWY 33 SIAP being developed for the Shelby County Airport. Also, this action will correct the geographic position coordinates for the Bessemer Airport. Section 71.181 of Part 71 of the Federal Aviation Regulations was republished in FAA Handbook 7400.6D dated January 4, 1988.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation safety, Transition area.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as follows:

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

1. The authority citation for Part 71 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1354(a), 1510; Executive Order 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.69.

§ 71.181 [Amended]

2. Section 71.181 is amended as follows:

Alabaster, AL [Amended]

By deleting the existing description and substituting the following: "That airspace extending upward from 700' above the surface within a 7-mile radius of Shelby County Airport (Lat. 33°10'41" N, Long. 86°47'01" W.); within 3.5 miles each side of the 168° bearing of the Calera RBN (Lat. 33°07'06" N., Long. 86°46'02" W.), extending from the 7-mile radius area to a point 11 miles south of the RBN; within a 6.5-mile radius of Bessemer Airport (Lat. 33°18'46" N., Long. 86°55'32" W.); excluding that portion which coincides with the Birmingham, AL, transition area."

Issued in East Point, Georgia, on December 9, 1988.

William D. Wood,

Acting Manager, Air Traffic Division, Southern Region.

14 CFR Part 71

[Airspace Docket No. 88-ASO-21]

Proposed Revision to Transition Area; Lake City, SC

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to revise the Lake City, South Carolina transition area. The Nondirectional Radio Beacon (NDB) Standard Instrument Approach Procedure (SIAP) originally proposed based on the 192° bearing from the Evans Radio Beacon (RBN) was never developed. A new NDB SIAP has been developed predicated on the 288° bearing of the Evans RBN. This amendment would delete the arrival area extension along the 192° bearing and add a new extension on either side of the 288° bearing of the Evans RBN. This action is necessary to afford airspace protection for aircraft executing the new SIAP.

DATE: Comments must be received on or before January 23, 1989.

ADDRESSES: Send comments on the proposal in triplicate to: Federal Aviation Administration, ASO–530, Manager, Airspace and Procedures Branch, Docket No. 88–ASO–21, P.O. Box 20636, Atlanta, Georgia 30320.

The official docket may be examined in the Office of the Regional Counsel, Room 652, 3400 Norman Berry Drive, East Point, Georgia 30344, telephone: (404) 763–7646.

FOR FURTHER INFORMATION CONTACT: Melvin Brock, Airspace Section, Airspace and Procedures Branch, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320; telephone: (404) 763–7646.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy aspects of the proposal. Communications should identify the airspace docket and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Airspace Docket No. 88–ASO–21." The postcard will be date/time stamped and returned to the commenter. All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available for examination in the Office of the Regional Counsel, Room 652, 3400 Norman Berry Drive, East Point, Georgia 30344, both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRM's

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Manager, Airspace and Procedures Branch (ASO–530), Air Traffic Division, P.O. Box 20636, Atlanta, Georgia 30320. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11–2 which describes the application procedure.

The Proposal

The FAA is considering an amendment to § 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to revise the Lake City, South Carolina transition area by deleting an existing arrival area extension and adding a new extension to provide airspace protection for aircraft executing a new SIAP. Section 71.181 of Part 71 of the Federal Aviation Regulations was republished in FAA Handbook 7400.6D dated January 4, 1988.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation safety, Transition area.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as follows:

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

1. The authority citation for Part 71 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1354(a), 1510; Executive Order 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97–449, January 12, 1983); 14 CFR 11.69.

§ 71.181 [Amended]

2. Section 71.181 is amended as follows:

Lake City, South Carolina [Amended]

By removing the existing description and adding the following: "That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of the Lake City Municipal C J Evans Field Airport (lat. 33°51'14" N., long. 79°46'08" W.); within 3 miles each side of the 283° bearing from the Evans RBN (lat. 33°51'21" N., long. 79°45'58" W.), extending from the 6.5-mile radius area to 8.5 miles west of the RBN; excluding that portion which coincides with the Kingstree, S.C., Transition Area."

Issued in East Point, Georgia, on December 9, 1988.

William D. Wood,

Acting Manager, Air Traffic Division, Southern Region.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[Region II Docket No. 86; FRL–3493–8]

Approval and Promulgation of Implementation Plans; Revision to the State of New York Implementation Plan for Ozone

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: This notice announces that the Environmental Protection Agency is proposing to approve a revision to the New York State Implementation Plan (SIP) for ozone. This revision was prepared by the New York State Department of Environmental Conservation pursuant to a SIP commitment to implement appropriate actions in order to reduce statewide

VOL
53

243
DE
19
1988
UMI

ozone levels as required under section 110 and Part D of the Clean Air Act. Today's notice proposes to incorporate into the New York SIP a revised regulation, Part 230, "Gasoline Dispensing Sites and Transport Vehicles," which will reduce volatile organic compound emissions due to motor vehicular refueling at certain gasoline stations in the New York City metropolitan area.

DATES: Comments must be received by January 18, 1989.

ADDRESSES: All comments should be addressed to: William J. Muzynski, P.E., Acting Regional Administrator, Environmental Protection Agency, 26 Federal Plaza, New York, New York 10278.

Copies of the SIP revision are available at the following addresses for inspection during normal business hours: Environmental Protection Agency, Air Programs Branch, Room 1005, 26 Federal Plaza, New York, New York 10278. New York State Department of Environmental Conservation Division of Air Resources, 50 Wolf Road, Albany, New York 12233.

FOR FURTHER INFORMATION CONTACT: Raymond Werner, Acting Chief, Air Programs Branch, Environmental Protection Agency, 26 Federal Plaza, New York, New York 10278, (212) 264–2517.

SUPPLEMENTARY INFORMATION:

Background

In its most recent comprehensive State Implementation Plan (SIP) revision for ozone, which was submitted to the Environmental Protection Agency (EPA) on February 2, 1984 and approved by EPA on June 17, 1985 (50 FR 25173), New York State committed to adopt regulations, where required, for source categories covered by EPA's Control Techniques Guidelines (CTGs) and to make various regulatory revisions to provide additional volatile organic compound (VOC) emission reductions. In April 1985, New York adopted revisions to the State regulations contained in its SIP. These revisions to Title 6 of the New York Code of Rules and Regulations (NYCRR) promulgated a new Part 230, entitled "Gasoline Dispensing Sites and Transport Vehicles." Part 230 required gasoline stations in the New York City metropolitan area (NYCMA, comprised of New York City and Nassau, Suffolk, Westchester and Rockland Counties) whose annual throughput exceeds 120,000 gallons to install Stage I vapor control systems to collect the fugitive gasoline vapors which are emitted when the station's gasoline storage tanks are refilled. EPA's proposed approval of this regulation appeared in the **Federal Register** on June 13, 1986 (51 FR 21577).

The State Submittals

On July 9, 1987 and April 7, 1988, New York State submitted to EPA adopted revisions to Part 230, effective June 26, 1987 and March 3, 1988, respectively. These revisions, which are the subject of today's notice, add to Part 230 requirements for the control of gasoline vapors resulting from the refueling of vehicle fuel tanks at gasoline service stations. Because emissions due to the bulk loading and unloading of gasoline are controlled at every point during its shipment (i.e., from storage and loading facilities to the tank truck, and from the tank truck to the service station storage tank), the control of the emissions due to the refueling of vehicles at gasoline service stations is the next logical step.

When vehicle fuel tanks are refilled, the air inside the tank is displaced and forced out into the atmosphere. This air is heavily saturated with VOCs and, therefore, contributes to the ozone problem. The control systems required under Part 230, known as Stage II controls, are those certified by the New York State Department of Environmental Conservation (NYSDEC) as being able to capture at least 90 percent of this vapor laden air before it enters the atmosphere. Part 230 also initiates a certification program to collect data to be used in determining which facilities are subject to the requirements of Stage II and/or Stage I. Under this certification program, all existing service stations will be required to apply for and obtain a State Certificate to Operate. Similarly, all new or modified gasoline stations will be required to apply for and obtain a State Permit to Construct.

The additional adopted revisions to Part 230, which were submitted to EPA on April 7, 1988, expressly move the compliance dates of Part 230 forward by nine months from the dates contained in the July 9, 1987 submittal. These expedited compliance dates are required in order for the State to comply with the decision issued by the U.S. District Court, Southern District of New York, in the case of the *Natural Resources Defense Council et al. v. NYSDEC et al.* Therefore, existing service stations with an annual throughput of gasoline exceeding 500,000 gallons must install State II controls and be in compliance by July 1, 1988; stations with an annual throughput between 250,000 and 500,000 gallons would have until July 1, 1989 to comply. Stage II controls are not required for existing service stations with an annual throughput of gasoline less than 250,000 gallons, or at service stations in New York City with storage tanks installed before January 1, 1970 and which have a capacity of less than 2,000 gallons. However, all service stations constructed or "substantially modified" (as defined in the State's rule) and located in the NYCMA, regardless of their annual throughput of gasoline, which be subject to both Stage I and Stage II controls.

Findings

EPA finds that the adoption of Stage II controls in Part 230 meets New York's SIP commitment. The design of the State II program submitted by the State is substantially equivalent to the program committed to in the SIP, both in nature and emission reductions. The VOC reductions associated with this regulation were necessary for the State to demonstrate attainment of the ozone standard. EPA notes, however, that there could be some confusion with respect to the availability of records showing the quantity of gasoline delivered to the site. Specifically, the State should clearly require that the records of all gasoline deliveries should be kept at the service station, so that they are readily available at the time of an inspection. In addition, wherever possible the State should use a uniform beginning date for the twelve-month period of recordkeeping when determining the applicability of Part 230 to service stations.

Part 230 contains a variance provision which permits the Commissioner of the NYSDEC to accept alternative controls when a facility is unable to comply because of economic or technical infeasibility. In this regard, it should be noted that EPA cannot recognize any variance or alternate requirement until it is submitted by the State for approval as a SIP revision.

EPA is soliciting public comments on its proposed action. Comments will be considered before taking final action. Interested parties may participate in the federal rulemaking procedure by submitting written comments to the address noted at the beginning of today's notice.

Conclusion

EPA is today proposing to find that the revisions to Part 230 of the NYCRR adequately fulfills the SIP commitment made by the State.

This notice is issued as required by section 110 of the Clean Air Act, as amended. The Administrator's decision regarding the approval of this plan revision is based on its meeting the

requirements of section 110 of the Clean Air Act and 40 CFR Part 51.

Under 5 U.S.C. section 605(b), I certify that this SIP revision will not have a significant economic impact on a substantial number of small entities. (See 46 FR 8709.)

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

40 CFR Part 228

[FRL–3492–8]

Ocean Dumping; Proposed Site Designation; Gulf of Mexico; Pensacola, FL

AGENCY: U.S. Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA today proposes to designate a new Ocean Dredged Material Disposal Site (ODMDS) in the Gulf of Mexico offshore Pensacola, Florida, i.e., the Pensacola (offshore) ODMDS, as an EPA-approved ocean disposal site for the disposal of dredged material. This proposed action is necessary to provide an acceptable ODMDS option for anticipated future disposal of restricted suitable dredged material.

The Pensacola (offshore) ODMDS is located outside of Florida State waters and is restricted to disposal of predominantly fine-grained dredged material from the greater Pensacola, Florida, area that meets the Ocean Dumping Criteria, but is not suitable for beach nourishment or disposal in the existing, EPA-designated Pensacola (nearshore) ODMDS located closer to shore. The Pensacola (nearshore) ODMDS is restricted to suitable dredged material with a median grain size of >0.125 millimeters (mm) and a composition of <10% fines.

Review comments on the Final Environmental Impact Statement (FEIS) for this proposed action are not addressed in this Proposed Rule but will be addressed in the subsequent Final Rule. Comments on this Proposed Rule will also be addressed in the Final Rule.

DATE: Comments must be received on or before January 18, 1989.

ADDRESSES: Send comments to: Frank M. Redmond, Chief, Wetlands and Coastal Programs Section, Water Management Division, U.S. Environmental Protection Agency, 345 Courtland Street, NE., Atlanta, Georgia 30365.

The file supporting this proposed designation is available for public inspection at the following locations:

EPA Public Information Reference Unit (PIRU), Room 2904 (rear), 401 M Street SW., Washington, DC 20460.

EPA/Region IV, 345 Courtland Street, NE., Atlanta, Georgia 30365.

FOR FURTHER INFORMATION CONTACT: Reginald G. Rogers, 404/347–2126.

SUPPLEMENTARY INFORMATION:

A. Background

Section 102(c) of the Marine Protection, Research, and Sanctuaries Act (MPRSA) of 1972, as amended, 33 U.S.C. 1401 *et seq.* ("the Act"), gives the Administrator of EPA the authority to designate sites where ocean disposal may be permitted. On December 23, 1986, the Administrator delegated the authority to designate ocean disposal sites to the Regional Administrator of the Region in which the sites are located. This proposed site is in Region IV and the designation is being made pursuant to that authority.

The EPA Ocean Dumping Regulations (40 CFR Chapter I, Subchapter H, § 228.4) indicate that ocean disposal sites will be designated by promulgation in this Part 228. A list of "Approved Interim and Final Ocean Dumping Sites" was published on January 11, 1977 (42 FR 2461 [January 11, 1977]). Interested persons may participate in this Proposed Rulemaking by submitting written comments within 30 days of the date of this publication to the address given above.

B. Environmental Impact Statement Development

Section 102(2)(C) of the National Environmental Policy Act (NEPA) of 1969, as amended, 42 U.S.C. 4321 *et seq.*, requires that Federal agencies prepare an Environmental Impact Statement (EIS) on proposals for legislation and other major Federal actions significantly affecting the quality of the human environment.

The object of NEPA is to build careful consideration of all environmental aspects of proposed actions into the agency decision-making process. While NEPA does not apply to EPA activities of this type, EPA has voluntarily committed to prepare EISs in connection with ocean disposal site designations such as this (see 39 FR 16186 [May 7, 1974]). EPA, in cooperation with the U.S. Army Corps of Engineers (COE) and the U.S. Navy, has prepared a Draft Environmental Impact Statement (DEIS) and FEIS entitled "Designation of a New Ocean Dredged Material Disposal Site, Pensacola, Florida." This Proposed Rule and the pending Final Rule are procedural follow-ups to the EIS. This Proposed Rule includes excerpts from the EIS. The EIS may be used as reference, especially for literature citations, which are not cited herein.

The proposed action discussed in the EIS is the designation of a new ODMDS offshore Pensacola, Florida. The purpose of this proposed action is to designate, on a permanent basis, a new environmentally-acceptable ODMDS as an ocean option for the disposal of restricted suitable dredged material. The need for ocean disposal is determined on a case-by-case basis as part of the process of issuing permits for ocean disposal.

The COE and EPA evaluate all dredged material disposal projects in accordance with the EPA criteria given in the Ocean Dumping Regulations (40 CFR Parts 220–229), the COE regulations (33 CFR 209.120 and 209.145), and any applicable State requirements governing consistency with the State's Coastal Zone Management Program (the Pensacola (offshore) ODMDS is located outside Florida State waters). The COE also issues permits to all applicants for transport of dredged material intended for disposal after compliance with the same regulations is determined. The COE also undergoes a public review process for its own disposal actions. EPA has the right to disapprove any ocean disposal project if it believes that all provisions of MPRSA and the associated implementing regulations have not been met. Although State permits may be required for dredging activities, they would not be needed at the Pensacola (offshore) ODMDS since the disposal site is located outside Florida State waters.

The Notice of Intent to prepare an EIS was published in the **Federal Register** on January 29, 1988 (53 FR 2640 [January 29, 1988]).

On June 10, 1988, the Notice of Availability of the DEIS for public review and comment was published in the **Federal Register** (53 FR 21914 [June 10, 1988]). The public comment period on the DEIS closed July 25, 1988. Distribution of the DEIS resulted in

some mailing returns; attempts were made to redistribute such returns.

The Notice of Availability of the FEIS for public review and comment was published in the **Federal Register** on September 23, 1988 (53 FR 37044 [September 23, 1988]). The public comment period was to close on October 24, 1988, but was extended by EPA to November 14, 1988 (see announcement in the **Federal Register** in 53 FR 44658 [November 4, 1988]). The FEIS addressed the comments received on the DEIS. Distribution of the FEIS also resulted in some mailing returns; attempts were again made to redistribute such returns. Also, replacement pages for Appendix B in the FEIS were distributed to the FEIS mailing list addressees at the end of the original FEIS review period (original review period was extended to allow some review time for Appendix B replacement pages). Review comments received by EPA on the FEIS by the close of the extended review period will be addressed in the Final Rule, which will be published subsequent to issuance of this Proposed Rule. Comments received by EPA include technical comments by Florida State University concerning the original Appendix B relative to currents off of Pensacola, Florida; by the Minerals Management Service of the Department of the Interior; by the Sports Fishing Institute; and by the State of Florida. Any review comments on this Proposed Rule will also be addressed in the pending Final Rule.

The EIS discusses the need for the designation of the Pensacola (offshore) ODMDS. EPA is proposing the designation of the new ODMDS off Pensacola, Florida, to accommodate the Navy's anticipated disposal needs for predominantly fine-grained dredged material that meets the Ocean Dumping Criteria, but is not suitable for beach nourishment or disposal in the existing, EPA-designated Pensacola (nearshore) ODMDS (that site is restricted to disposal of suitable sandy dredged material). The U.S. Navy has proposed to establish a new homeport at Pensacola for the aircraft carrier *USS Kitty Hawk* and one naval reserve patrol craft. The *USS Lexington*, currently based at Pensacola, will be moved to Corpus Christi, Texas as part of the overall Gulf Coast Strategic Homeport Project. The proposed project will require deepening of the existing channel to the Naval Air Station (NAS) at Pensacola. Approximately 4.1 million cubic yards (mcy) of new work dredged material from the turning basin and channel is initially proposed for disposal in the new ODMDS.

In the future, the ODMDS could also be used for disposal of maintenance material dredged from the Navy's channel, the Pensacola Harbor Ship Channel or private dredging projects, provided the material meets the criteria specified in MPRSA. Additional Section 103 permit review would be required prior to the use of the new ODMDS for any dredged material other than the initial 4.1 mcy proposed for disposal. Additional dredged material testing and NEPA documentation may also be required. Only material that meets the Ocean Dumping Criteria and is not suitable for beach nourishment would be placed in the site.

The EIS also examines ocean disposal site alternatives to the proposed action. Three alternative sites (Sites "A", "B" and "C") located in the mid-Continental Shelf area were initially selected for study. All three sites were located within an economically and operationally feasible radius (20 miles) from Pensacola Pass. The sites chosen for detailed investigation, Sites "B" and "C", covered approximately 19 square miles each. This area was considered large enough that an ODMDS could be located within the area.

Alternative Site "A" is located within Florida State waters, as defined by the State of Florida (10.36 statute miles). Alternative Site "A" is a four mile area located approximately 13 statute miles southwest of Pensacola Pass in depths of 60 to 70 feet. During the initial evaluations, this site was eliminated because it had no apparent environmental advantages, would be more expensive to use than either of the two other alternative sites because it was farther from Pensacola Pass, and was adjacent to Alabama State waters which would complicate the coordination process.

Alternative Site "B" is also located within Florida State waters, as defined by Florida. The northern side of the site is approximately seven statute miles southeast of Pensacola Pass. Depths in the area range from 60 to 87 feet and the bottom is generally classified as compacted sand. This site was not selected because one permitted and two existing artificial reefs were located within the site and one existing and one proposed reef were located east of the site (i.e., downstream of the predominant current direction).

Alternative Site "C", the preferred site, is located seaward of State waters, as defined by Florida, with the exception of a small portion of the northwest corner. The northern side of Site "C" is approximately 11 statute miles south of Pensacola Pass. Depths in the area range from 60 to 95 feet and the bottom is generally classified as compacted sand and shell hash.

The proposed action is the final designation of a new ODMDS for Pensacola located within the preferred alternative Site "C". This ODMDS is located entirely outside of State waters. A numerical dispersion model (Disposal From An Instantaneous Dump: DIFID model), available at the U.S. Army Engineer Waterways Experiment Station, was used to simulate the disposed material as it descends through the water column and spreads over the ocean bottom under varying hydrodynamic conditions. The results of all the model simulations indicated that 100% of the sand and silt/clay clumps fell to the bottom within less than 100 seconds of the beginning of the disposal operation. In addition, the simulations indicated that this material fell directly beneath the barge, regardless of the input data, describing the oceanographic conditions of the site. The actual deposits of each of these solids fractions were different in that the sand tended to cover a large area of bottom at a lesser thickness than did the silt-clay clumps. The non-cohesive silts and clays did not behave in a similar fashion with a large percentage of these particles remaining suspended in the water column after disposal. Depending upon the ambient conditions, these particles can be transported from the dump location as a turbidity plume. The area affected by the plume varies greatly, depending primarily upon the type of material disposed. The area with suspended solids concentrations of more than 10 parts per million (ppm) would cover approximately 300 acres, 90 minutes after discharge, under worst-case conditions, i.e., 95% silt-clay. Since approximately 93% of the 4.1 mcy to be disposed can be classified as sand or silt/clay clumps, a management plan was devised to utilize this material to form a submerged containment (a horseshoe-shaped berm) into which the non-cohesive material would then be disposed. The model results, the management plan, and the comments received on the DEIS were used to define the actual coordinates of the area to be designated as the ODMDS. For additional details on the model and the management plan, see Appendices H and I of the FEIS, respectively.

C. Coastal Zone Management and Endangered Species Coordination

EPA has concluded that the proposed designation of the Pensacola (offshore)

ODMDS is consistent with the Florida Coastal Zone Management Program to the maximium extent practicable as required by Section 307 of the Coastal Zone Management Act. EPA has included its coastal zone consistency determination as Appendix I in the FEIS. Review comments on EPA's consistency determination will be addressed in the Final Rule.

D. Endangered Species Coordination

Pursuant to Section 7 of the Endangered Species Act, coordination with the National Marine Fisheries Service (NMFS) and the U.S. Fish and Wildlife Service (FWS) was conducted regarding this site designation relative to adverse effects to any endangered species under NMFS and FWS jurisdiction. By letter to the U.S. Navy dated February 18, 1987 (see FEIS, pg. 7–6), the FWS concurred in the Navy's determination that the Navy's Pensacola Homeport Project would have no adverse effect on Federally-listed threatened or endangered species under FWS jurisdiction in the Pensacola area. Additional concurrence from FWS specifically relating to the proposed designation of an ODMDS offshore Pensacola, Florida was requested by EPA in a letter dated September 13, 1988, and concurrence was received by letter dated October 4, 1988. Also, the NMFS reaffirmed concurrence in the COE's determination that this site designation would have no adverse effects on threatened or endangered species under their jurisdication by letter dated December 14, 1987 (see FEIS, pg. 7–5). Verification that this concurrence is relevant to the proposed designation and is still valid was obtained by EPA during a telephone conversation on September 1, 1988, with Dr. Terry Henwood, Fisheries Biologist, of the NMFS Southeast Regional Office in St. Petersburg, Florida.

E. Proposed Site Designation

The proposed Pensacola (offshore) ODMDS is located approximately 11 statute miles south of Pensacola Pass and occupies an area of approximately six square statute miles. Water depths range from approximately 65 to 80 feet. The Pensacola (offshore) ODMDS proposed for final designation is located entirely outside of Florida State waters and is defined by the following coordinates:

30°08'50" N.,	87°19'30" W.;
30°08'50" N.,	87°16'30" W.;
30°07'05" N.,	87°16'30" W.;
30°07'05" N.,	87°19'30" W.

F. Regulatory Requirements

Pursuant to the Ocean Dumping Regulations, 40 CFR Part 228, five general criteria are used in the selection and approval for continuing use of ocean disposal sites. Sites are selected to minimize interference with other marine activities, to keep any temporary perturbations by the disposal from causing significant impacts outside the disposal site, to permit effective monitoring to detect any perturbations from the disposal, and to detect any adverse impacts at an early stage. Where feasible, locations off the Continental Shelf and other sites that have been historically used are to be chosen. If, at any time, disposal operations at a site cause unacceptable adverse impacts, EPA will take appropriate measures to mitigate the impact or terminate disposal at the site. The proposed site conforms to the five general criteria except for the preference for historically-used sites and sites located off the Continental Shelf. EPA has determined, based on the information presented in the EIS, that no environmental benefit would be obtained by selecting a site off the Continental Shelf instead of the site in this proposed action. Also, in this case, the site that has been historically used in the area had already been permanently designated by EPA as the Pensacola (nearshore) ODMDS and is restricted to disposal of suitable sandy dredged material as defined earlier. A new ODMDS at Pensacola was therefore selected. This new Pensacola (offshore) ODMDS, which is being proposed for permanent designation herein, will complement the existing Pensacola (nearshore) ODMDS since it may be used for disposal of suitable fine-grained dredged material as defined earlier.

The general criteria are given in § 228.5 of the EPA Ocean Dumping Regulations, and § 228.6 lists 11 specific criteria used in evaluating a proposed disposal site to assure that the general criteria are met. EPA established these 11 criteria to constitute an environmental assessment of the impact of the site for disposal. The characteristics of the proposed site are reviewed below in terms of these 11 criteria.

1. Geographical Position, Depth of Water, Bottom Topography, and Distance From Coast [40 CFR 228.6(a)(1)]

The boundary coordinates of the site are given above. The Pensacola (offshore) site is approximately 11 statute miles form the nearest beach and encompasses an area of approximately six square statute miles. Water depths at the site range from approximately 65 to 80 feet. Bottom topography in the site is relatively flat and geneally slopes to the southeast. The sand sheet in the immediate vicinity thins to the east with limstone karst topography becoming more predominant in this area. This site has been located on sandy bottom to avoid corals and other invertebrates that occur on rocky outcroppings at depts of 80 feet and more.

2. Location in Relation to Breeding, Spawning, Nursery, Feeding, or Passage Areas of Living Resources in Adult or Juvenile Phases [40 CFR 228.6(a)(2)]

The site is located 11 statute miles from Pensacola Pass, an area which is valuable in the maintenance of both adult and juvenile living resources. A large number of species are estuarine dependent during spawning and nursery cycles. Barrier island passes and vegetated shallow estuaries, such as Pensacola Bay, are important in the life cycle of these estuarine-dependent species for spawning, feeding, and migration. Since the site as 11 statute miles from Pensacola Pass, migratory passage through the pass will not be affected. The distance from important nursery and feeding areas is even greater since these areas are located within the estuary. In addition, the site is not located near any known major breeding or spawning areas.

3. Location in Relation to Beaches and Other Amenity Areas [40 CFR 228.6(a)(3)]

Pensacola area amenities will not be affected, based on the location of these amenities in relation to the disposal site and the dominant current patterns. Beach and shore-related amenities of Santa Rosa Island, Perdido Key, Gulf Islands National Seashore, Fort Pickens, and the Fort Pickens Aquatic Preserve are located approximately eight to 11 statute miles north of the site and perpendicular to the direction of net current transport.

The disposal site is approximately two miles west of the nearest known artificial reef (Escambia County #7) and three miles west of a permitted reef site. Two sites being considered for proposal as artficial reef sites are located within the ODMDS and two sites are located east and southeast of the eastern boundary of the site. Since the predominant currents are towards the west, the use of the ODMDS would not impact the known or permitted reef sites or those proposed for establishment that are outside the ODMDS. The proposed

reef locations within the site would be impacted by designation and use of the ODMDS. This impact is not considered significant since these are only two of over twenty proposed reef locations in the vicinity of the ODMDS.

In addition, there are other areas within this general region which would be suitable for establishment of artificial reefs. In addition, proposed site management and monitoring plans have been developed to control impacts outside the boundaries of the site. The proposed site management and monitoring plans are presented in Appendices G and I of the FEIS, respectively. Site management is also discussed in Section G of this Proposed Rule.

4. Types and Quantities of Wastes Proposed to be Disposed of, and Proposed Methods of Release, Including Methods of Packing the Waste, if Any [40 CFR 228.6(a)(4)]

The initial 4.1 mcy of material that is to be disposed at the ODMDS will be the result of construction of the U.S. Navy's Pensacola Homeport Project at Pensacola. This dredged material will be predominantly fine-grained sand, silt, and clay material that is not suitable for beach nourishment or disposal at the existing Pensacola (nearshore) ODMDS. This material will be transported to the site and discharged by hopper dredge, hopper barge, or dump scow. In the future, additional fine-grained material may also be disposed at the ODMDS, but this is not known at this time. Both Federal and non-Federal applicants may use the site if relevant regulations are satisfied.

Materials may not be approved for ocean disposal unless the criteria in the Ocean Dumping Regulations, 40 CFR Part 227, have been met. Bioassays of the material to be initially disposed indicate no significant adverse effects to marine organisms. although slight heavy metal enrichment of chromium, mercury, and zinc exists, the levels are not high enough to initiate the capping of the disposed dredged material with clean sand or to prevent the proposed designation of this ODMDS.

5. Feasibility of Surveillance and Monitoring [40 CFR 228.6(a)(5)]

The location and water depth of the ODMDS will not pose any special problems for surveillance or monitoring. Surveillance of the site could be conducted by either aircraft or surface vessels. Periodic environmental monitoring will commence upon site designation and will continue as long as the site remains active. General monitoring objectives for the site include bathymetric measurements to identify shoaling or mounding areas, sediment mapping to determine distribution of disposal material at the ODMDS, water quality sampling and analysis, and bottom sampling and analysis to identify sediment and invertebrate characteristics. EPA is authorized to make appropriate steps to mitigate the impact or terminate disposal at the site, should significant adverse environment impacts be found during monitoring periods.

Site monitoring and management plans for the Pensacola (offshore) ODMDS are proposed in Appendices G and I, respectively, of the FEIS and in the "Site Management" section (G) of this Proposed rule. Some modifications of these proposed plans are possible based on site use and greater understanding of the site. Substantive modifications would be coordinated with appropriate Federal and State aencies. In general, the existence, magnitude, and implementation of management and monitoring plans for this site are dependent upon funding, monitoring data results, and coordination between EPA, the U.S. Navy, the COE, and the State of Florida.

6. Dispersal, Horizontal Transportation and Vertical Characteristics of the Area, Including Prevailing Current Direction and Velocity, if Any [40 CFR 228.6(a)(6)]

Current within the disposal site are longshore and wind driven with speeds of 30 centimeters per second (cm/sec) or less, 70% of the time (measued maximum of 62 cm/sec). It is unlikely that the suspended sediments will be transported onshore from these currents since the site is 11 statute miles offshore in the Gulf and the dominant net transport is to the west, parallel to the coast. These currents are basically wind and storm driven.

The material to be disposed on site will primarily be fine-grained material that will be more easily eroded and transported than the existing ambient sediments. Current velocities of 20 cm/sec will erode clay-sized particles and are expected 65% of the time over the disposal site. It is also expected that over time the clays and fine-grained sediments will become scattered by these currents and that the site will be fortified by sand and shell. Over time, the site should become consolidated and more difficult to erode. However, as indicated earlier, dredged material disposed at the ODMDS will be somewhat contained due to the proposed construction of a horseshoe-shaped berm at the site (see Appendix I of FEIS).

The disposal site is located approximately 11 statute miles offshore and covers an area of about six square miles. It is expected that disposal operations at this site will have a negligible impact on the circulation and mixing of the Shelf waters due to the relatively small area of coverage when compared to the Continental Shelf near Pensacola.

7. Existence and Effects of Current and Previous Discharges and Dumping in the Area (Including Cumulative Effects) [40 CFR 228.6(a)(7)]

Since the Pensacola (offshore) ODMDS is a new (as opposed to an interim) site, there have been no known previous discharges of dredged material at this site. The EPA-designated Pensacola (nearshore) disposal site is the closest ODMDS in the area. Disposal at the nearshore site is limited to sandy material containing less than ten percent silt-clays. No long term or irreversible effects of disposal at this site have been reported.

Effects of disposal operations include temporarily increased turbidity, localized mounding, possible release of trace metals and/or chemicals, and the smothering of some benthic organisms. These impacts are not considered significant.

8. Interference With Shipping, Fishing, Recreation, Mineral Extraction, Desalination, Fish and Shellfish Culture, Areas of Special Scientific Importance and Other Legitimate Uses of the Ocean [40 CFR 228.6(a)(8)]

Commercial shipping, commercial and recreational fishing, recreational activities, and some scientific investigations occur throughout the nearshore region. Hopper dredges, tugs and scows must operate in shipping lanes when dredging and traveling to and from the disposal site; however, intermittent use of a site should not impede commerical shipping traffic within the shipping channels. Hazards to navigation are lessened by use of the U.S. Coast Guard's Area Vessel Traffic System, extra caution and awareness by the captains of hopper dredges, and the Corps of Engineers Navigation Bulletins to mariners with dredging schedules.

A section of the ODMDS overlaps a portion of a shipping safety fairway. Actual disposal at the ODMDS within the fairway is projected. However, by letter to EPA dated September 6, 1988, the Commander of the New Orleans District Coast Guard has stated that "I find no reason to object to the establishment of "Site C" and encroaching on the fairway as long as a

minimum navigable water depth of 65 feet is maintained." (The proposed ODMDS is located within Site "C", the alternative area studied.) The safety fairway is located in the deepest (eastern) portion of the ODMDS, which ranges to a maximum depth of approximately 80 feet. A minimum water depth of 65 feet will be maintained.

Commercial and recreational fishing occurs, but it is not geographically limited to the vicinity of the proposed site. However, the disposal site represents only a small portion of the total fishing area available. Offshore Pensacola, commercial and sportfishing operations for finfish center primarily around hard bottom, artificial reef, and wreck areas. The proposed Pensacola (offshore) ODMDS has a sandy bottom; therefore, disposal activities should not interfere with these finfish fishing activities in the area. However, the predominantly sandy bottom area associated with the ODMDS do support shrimp. Local commercial fishing for shrimp is mainly targeted toward pink and rock shrimp. Little or no recreational fishing for these species exists in the area.

Other recreational activities in the nearshore region include boating and scuba diving. With the possible exception of wrecks inshore, the areas near the site do not have unique features that would attract visitors. Intermittent use of the site for disposal operations should not interfere with occasional recreational use of the areas.

Mineral resources would not be significantly affected since there are no active or inactive oil or gas leases within six miles of the ODMDS. Most oil and gas leasing has occurred in the Destin Dome area to the east of the ODMDS. Designation and use of an ODMDS and mineral exploration are considered compatible uses; therefore, potential future use of the ODMDS for these activities should not be in conflict. Although the EIS indicated that mineral extraction is also considered a compatible use, on-site extraction would realistically be difficult. Potential extraction in adjacent areas or even potential on-site extraction of oil and gas from adjacent areas (directional drilling) would be possible, however.

No mineral extraction, desalination projects, or fish and shellfish culture occur in the vicinity of the proposed site. Intermittent use of the site should not interfere with scientific investigations which may be conducted in the area, nor should dredged material disposal substantively interfere with any other legitimate uses of the ocean.

9. The Existing Water Quality and Ecology of the Site as Determined by Available Data or by Trend Assessment or Baseline Surveys [40 CFR 228.6(a)(9)]

The baseline surveys that were conducted during 1986–87 show that the water quality and environmental characteristics of the disposal site are typical of the northern Gulf of Mexico. Circulation and mixing of the water column within the disposal site directly affect water quality (e.g., dissolved nutrients, trace metals, dissolved oxygen, pH, and suspended sediments). These currents are wind and storm driven and run parallel to the coast.

More than 900 species of diatoms and 400 species of dinoflagellates are found in the Gulf of Mexico. Diatoms are the major component of phytoplankton except during periods of red tide or in silica-depleted waters when dinoflagellates become more abundant. In nearshore waters, copepods dominate the zooplankton populations. Typically, plankton populations are most abundant during spring and summer.

Fish, shrimp, and squid dominate the nekton community and are typical of the species found in the Gulf of Mexico. Several of the species reported are both recreationally and commercially important, although the dominant fish at the site, cusk eels, are not. The fish that are both recreationally and commercially important consist primarily of snapper, grouper, and amberjacks. These fish are mainly found in areas of hard bottom or artificial reefs, neither of which exist at the disposal site. Pink and rock shrimp are the most dominant crustaceans with pink shrimp increasing in abundance during the fall.

The benthic community of the proposed site is dominated by polychaetes, comprising over 50% of the individuals collected, and a few mollusks and arthropods. The organisms present are typical of sand or sand/shell hash bottoms. The abundance, diversity, and distribution of benthic organisms is directly related to the sediment texture.

Sediments were analyzed for heavy metals, PCBs, pesticides and nutrients, and were found to be either below minimum detection levels or in very low concentrations.

10. Potentiality for the Development or Recruitment of Nuisance Species in the Disposal Site [40 CFR 228.6(a)(1)]

It is expected that some change in the benthic species composition will occur due to the disposal of finer-grained dredged material at the site.

No evidence exists to suggest that the species occurring from recolonization would be considered nuisance species. Fecal coliform bacteria may be entrained in the dredged material but establishment of bacterial colonies is not expected due to ambient salinities at the site.

11. Existence at or in Close Proximity to the Site of Any Significant Natural or Cultural Features of Historical Importance [40 CFR 228.6(a)(11)]

No historically important cultural or natural features exist within the vicinity of the site.

G. Site Management

Site management of the Pensacola (offshore) ODMDS is the responsibility of EPA and the COE. The COE issues permits to all applicants for ocean disposal and undergoes a public review process for its own disposal actions; however, EPA assumes overall responsibility for site management.

Currently a Memorandum of Understanding (MOU) between the COE/South Atlantic Division and EPA/Region IV is being developed and is to establish a monitoring framework for ODMDSs in the Region IV area, which is to lead toward site-specific monitoring plans for individual ODMDSs. In the case of the Pensacola (offshore) ODMDS, a proposed site-specific monitoring plan and a proposed site management plan are already developed and presented in Appendices G and I, respectively, of the FEIS. Since specifics of these proposed plans are not presented herein, the FEIS should be consulted for such specifics. Plan concepts presented in the FEIS include an electronic verification system or visual surveillance that will report actual disposal information, sediment mapping to determine distribution of disposal material at the ODMDS, construction of a horseshoe-shaped berm within the ODMDS to help contain disposal material, bathymetric measurements to assess mounding of disposal material, water quality sampling and analysis of various parameters, and benthic sampling and analysis of sediments and benthos.

Some modifications of the proposed plans presented in the FEIS are possible as greater understanding of the site develops. Substantive modifications would be coordinated with appropriate Federal and State agencies. For example, revisions may be required based on monitoring data results and comparison of those data to the DIFID dispersion model. Techniques may also vary or be upgraded. These plans are furthermore dependent on funding, which is via an annual budget and is

VOL 53 ISS 243 DE 19 1988 UMI

therefore undermined for each following year. In general, the existence, magnitude, and implementation of the management and monitoring plans for this site are dependent upon funding, monitoring data results, and coordination between EPA, the U.S. Navy, the COE, and the State of Florida. Nevertheless, EPA believes that site plans are needed and that the plans in the FEIS are reasonable proposals for the Pensacola (offshore) ODMDS.

If evidence of significant adverse environmental effects outside the Pensacola (offshore) ODMDS boundaries is discovered, EPA will take appropriate measures to mitigate the impact or terminate disposal at the site. Conversely, if monitoring results exhibit no significant impact outside the ODMDS boundaries, monitoring may be discontinued or less frequent.

Related to site monitoring, EPA plans to test for tributyltin (TBT) in sediment samples from dredged material from Pensacola Harbor that would be projected for disposal at the ODMDS.

H. Proposed Action

The designation of the proposed Pensacola (offshore) ODMDS as an EPA-approved disposal site for suitable dredged material is being published as Proposed Rulemaking. Overall management of this site is the responsibility of the Regional Administrator of EPA/Region IV. The EIS provides information indicating that the proposed ODMDS may appropriately be designated for use. Interested persons may participate in this Proposed Rulemaking by submitting written comments within 30 days of the date of this publication to the address given above.

It should be emphasized that if an ocean disposal site is designated by EPA, such a site designation does not constitute EPA's approval of dredging projects or actual disposal of dredged material at the site. Before ocean disposal of dredged material at the site may commence, EPA and the COE must also evaluate the proposed dumping in accordance with the criteria in section 227 of the Ocean Dumping Regulations. In any case, EPA has the right to disapprove the actual disposal, if it determines that environmental concerns under the Act have not been met.

The Pensacola (offshore) ODMDS is not restricted to disposal use by Federal projects; private applicants may also dispose suitable dredged material at the ODMDS once relevant regulations have been satisfied. This site is restricted, however, to disposal of predominantly fine-grained dredged material from the greater Pensacola, Florida area that meets the Ocean Dumping Criteria, but is not suitable for beach nourishment or disposal in the existing, EPA-designated Pensacola (nearshore) ODMDS. The Pensacola (nearshore) ODMDS is restricted to suitable dredged material with a median grain size of >0.125 mm and a composition of <10% fines.

I. Regulatory Assessments

Under the Regulatory Flexibility Act, EPA is required to perform a Regulatory Flexibility Analysis for all rules which may have a significant impact on a substantial number of small entities. EPA has determined that this proposed action will not have a significant impact on small entities since the site designation will only have the effect of providing a disposal option for dredged material. Consequently, this proposal does not necessitate preparation of a Regulatory Flexibility Analysis.

Under Executive Order 12291, EPA must judge whether a regulation is "major" and therefore subject to the requirement of a Regulatory Impact Analysis. This proposed action will not resut in an annual effect on the economy of $100 million or more, or cause any of the other effects which would result in its being classified by the Executive Order as a "major" rule. Consequently, this Proposed Rule does not necessitate preparation of a Regulatory Impact Analysis.

This Proposed Rule does not contain any information collection requirements subject to Office Management and Budget review under the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.*

List of Subjects in 40 CFR Part 228

Water pollution control.

Dated: December 9, 1988.

Lee A. DeHihns III,

Acting Regional Administrator.

In consideration of the foregoing, Part 228 of Subchapter H of Chapter I of Title 40 is proposed to be amended as set forth below.

PART 228—[AMENDED]

1. The authority citation for Part 228 continues to read as follows:

Authority: 33 U.S.C. 1412 and 1418.

2. Part 228 is proposed to be amended by adding to § 228.12 paragraph (b)(72) a Ocean Dredged Material Disposal Site for Region IV as follows:

§ 228.12 Delegation of management authority for interim ocean dumping sites.

* * * * *

(b) * * *

(72) Pensacola, Florida: Ocean Dredged Material Disposal Site—Region IV.

Location:

30°08'50" N.,	87°19'30" W.;
30°08'50" N.,	87°16'30" W.;
30°07'05" N.,	87°16'30" W.;
30°07'05" N.,	87°19'30" W.

Size: Approximately 6 square statute miles.

Depth: Ranges from approximately 65 to 80 feet.

Primary Use: Dredged Material.

Period of Use: Continuing Use.

Restriction: Disposal is restricted to predominantly fine-grained dredged material from the greater Pensacola, Florida area that meets the Ocean Dumping Criteria, but is not suitable for beach nourishment or disposal in the existing, EPA-designated Pensacola (nearshore) ODMDS. The Pensacola (nearshore) ODMDS is restricted to suitable dredged material with a median grain size >0.125 mm and a composition of <10% fines.

[FR Doc. 88-28956 Filed 12-16-88; 8:45 am]

BILLING CODE 6560-50-M

LEGAL SERVICES CORPORATION

45 CFR Part 1609

Fee-Generating Cases

AGENCY: Legal Services Corporation.

ACTION: Proposed Rule.

SUMMARY: This proposed regulation would amend Part 1609 of the Legal Services Corporation's ("Corporation" or "LSC") regulations, 45 CFR Part 1609, governing fee-generating cases to require that the sum of all attorneys' fees received by a recipient be credited towards the recipient's LSC annual grant. Also, the requirements for a recipient to find that other adequate representation is not available in a fee-generating case would be amended to require use of local bar referral services whenever available.

Section 1007(b)(1) of the Legal Services Corporation Act of 1974, as amended, 42 U.S.C. 2996(f)(b)(1) provides that no funds made available by the Corporation may be used with respect to any fee-generating case except in accordance with guidelines promulgated by the Corporation. The provision contemplates that recipients would concentrate their resources on matters where representation of an eligible client is not otherwise available from the private bar. Contingent fee cases and cases in which a fee shifting provision is available are often attractice to private bar members. The proposed changes are intended to reinforce LSC's objective that such cases should be proffered to the private bar first.

Moreover, because any fees obtained constitute incidental benefits of the litigation, by definition, the proposed rule would treat such receipts as a windfall which would be credited towards the grant funds to be paid to the grantee during the following quarter.

DATE: Comments may be submitted on or before January 18, 1989.

ADDRESS: Comments may be submitted to the Office of the General Counsel, Legal Services Corporation, 400 Virginia Avenue, SW., Washington, DC 20024–2751.

FOR FURTHER INFORMATION CONTACT: Mr. Timothy B. Shea, General Counsel, Office of the General Counsel, (202) 863–1823.

SUPPLEMENTARY INFORMATION:

Section 1609.1

Section 1609.1 is proposed to be amended in order to make clear that the restrictions apply to subrecipients as well as to recipients.

Section 1609.2

Section 1609.2 is proposed to be amended to state specifically that actions brought under a contract or a statute providing for the shifting of fees are considered fee-generating cases. Referring such cases to the local referral service will give private attorneys the opportunity to undertake representation in the matters.

Section 1609.3

Section 1609.3 is proposed to be amended by adding "or any non-public funds" to the existing provision that a recipient shall not use "funds received from the Corporation" for fee-generating cases. This revision would make clear that prohibitions of this regulation on the acceptance of fee-generating cases apply to private non-LSC funds as well as Corporation funds. Because representation in fee-generating cases is prohibited by both section 1007(b)(1) of the Act and 45 CFR Part 1610, the change would render LSC regulations consistent.

The section is also proposed to be amended to include a presumption that all attorneys' fees are for representation in cases undertaken using LSC funds or non-public funds, unless proven otherwise. This presumption is reasonable because the recipients are in a better position than the Corporation to establish and maintain the requisite recordkeeping, and also because the vast majority of recipients receive most of their funding from the Corporation and private sources. In addition, this presumption would relieve recipients of having to maintain documentation of cost allocation for each case and would also result in administrative convenience for recipients and the Corporation.

Section 1609.4

Section 1609.4 is proposed to be amended in order to state that a recipient may not undertake representation in a fee-generating case unless other adequate representation is unavailable and the recipient's executive director, pursuant to policies adopted by the recipient's governing body, has approved the undertaking.

Currently, § 1609.4(a)(1) deems other adequate representation to be unavailable when a case has been rejected by the local lawyer referral service *or* by two private attorneys. This amendment would eliminate the either/or proposition by requiring that recipients first attempt to refer fee-generating cases to a local lawyer referral service. Only in the event that a local lawyer referral service does not exist in the recipient's service area should referral be made to at least two private attorneys who have experience relevant to the case. The Corporation believes that recipients should first use a lawyer referral service, if one exists, in order the reinforce impartiality in the referral of potential fee-generating cases to private attorneys. Referral services, which are operated by local bars in nearly every jurisdiction, normally keep up-to-date lists of attorneys and their specialties and are likely to be successful in matching eligible clients in fee-generating cases with attorneys willing to represent them. These changes would reinforce the policy that recipients devote their resources to matters in which representation is not available by the private bar.

Further, recipients would be required to maintain documentation of the attempted referrals in the case file. Maintaining documentation of attempted referrals is not expected to be a burden.

Section 1609.4(b) is proposed to be amended in order to delete the exemption from referral for cases in which recovery of damages may be ancillary and not the principal object of an action for equitable or other non-pecuniary relief. Because numerous statutes permit payment of attorney's fees for prevailing parties in suits for equitable or non-pecuniary relief, see, for example, 28 U.S.C. 2412 (Equal Access to Justice); 5 U.S.C. 552 (Freedom of Information Act); 42 U.S.C. 1988 (Civil Rights); 29 U.S.C. 216 (Fair Labor Standards Act); and 15 U.S.C. 2073 (Consumer Product Safety Act), private attorneys are often willing to represent clients in such matters with the expectation of being awarded fees after prevailing in the case. The change would merely require that such cases first be proffered to the private bar through a referral service. This change would not place any disproportionate burden on recipients, as referrals to a lawyer referral service or to two private attorneys are simply accomplished.

Section 1609.4 is also proposed for revision to require a recipient's director to give prior written approval pursuant to the policies adopted by the recipient's governing body before a fee-generating case could be undertaken even after the requisite rejection by the referral service or private attorneys.

Because recipients generally should not be representing clients in fee-generating cases, any exceptions to this rule should be undertaken only after review and specific approval by the director in accordance with policies adopted by the recipient's governing body. The proposed revision sets forth criteria a governing body should establish for deciding whether or not representation in a fee-generating case should be undertaken. As with any decision on case acceptance, a recipient must consider each case to determine if it falls within the recipient's priorities and allocation of resources.

Section 1609.5

A new § 1609.5(c) is proposed in order to confirm the Corporation's position on the acceptance of attorney's fees in cases seeking retroactive benefits under Titles II and XVI of the Social Security Act. Although recipients may under section 1609.4 accept these cases without first attempting a referral to a private attorney, a recipient may not accept a fee for such representation when the fee is deducted from an award of subsistence benefits. This has been the Corporation's longstanding position, based on the 1977 amendments to the LSC Act, wherein representation in benefit cases by recipients without prior attempted referral was specifically approved. P.L. 95–222; 42 U.S.C. 2996f(b). However, Congress clearly intended that recipients not deduct attorneys' fees from the client's retroactive benefit award. S. Rep. 95–172, 95th Cong., 1st Sess., 15–16; *reprinted in* 123 CONG. REC. 33027 (daily ed. October 10, 1977) (Statement of Sen. Nelson).

Section 1609.6

The proposed changes to § 1609.6 would require each recipient to file a quarterly report as to the amount of attorneys' fees received by the recipient. The recipient would also show on the

VOL 53 ISS 243 DE 19 1988 UMI

report any attorneys' fees received by a subrecipient in cases funded by the recipient as well as fees for co-counseling. This amount would then be credited towards the recipient's LSC funding for the next quarter and would be deducted by the Corporation from the recipient's subsequent monthly funding checks. The Corporation has ample authority in making decisons concerning the funding of recipients to consider the availability of other resources. *See e.g., National Clearinghouse v. Legal Services Corp.*, 674 F. Supp. 37 (D.D.C. 1987), *aff'd* C.A. 88–7027 (D.C. Cir. filed Oct. 21, 1988) (*per curiam*).

The Corporation wishes to maintain its established policy of encouraging recipients to seek attorneys' fees in appropriate cases. The policy is based, in part, on congressional recognition that attorneys' fees awards further the purpose of encouraging private enforcement of important public policies by enabling injured parties to obtain counsel. Under the proposed change, programs arguably may have less incentive to pursue cases that may result in an attorneys' fees award; however, program priorities and case acceptance practices should be based foremost on individual client needs rather than on the potential benefit to the program in the form of attorneys' fees. Recipients should not use the likelihood or probability of a fee award as a consideration in their selection of cases.

The Corporation also believes that this change in policy would not discourage recipients from filing actions under statutes providing attorneys' fees to prevailing parties. Recipients, of course, would continue to receive support from the Corporation, regardless of any potential fee award under these statutes.

Sums credited to recipients would free up funds previously appropriated for basic field grants. Given a line item funding formula such as provided in section 605 of Public Law 100–459, 102 Stat. 2223, such sums would be allocated to field programs as supplemental grants for that year, granting the largest share of funds to programs with the lowest funding per person. Thus, this change would promote general equalization of funding. If recipients continue to receive attorneys' fees as they have in the past, the Corporation should be able to supplement the grants of the lower per capita funded programs by a total of approximately $6 million a year, which represents two percent of the total amount granted by the Corporation to basic field programs.

List of Subjects in 45 CFR 1609

Legal services.

For reasons set out above, 45 CFR 1609 is proposed to be amended as follows:

PART 1609—FEE GENERATING CASES

1. The authority citration for Part 1609 continues to read as follows:

Authority: Sec. 1007(b)(1) Legal Services Act of 1974, as amended (42 U.S.C. 2996f(b)(1)).

2. Section 1609.1 is revised to read as follows:

§ 1609.1 Purpose.

This part is designed to insure that recipients and subrecipients do not compete with private attorneys and, at the same time, to guarantee that eligible clients are able to obtain appropriate and effective legal assistance.

3. Section 1609.2 is revised to read as follows:

§ 1609.2 Definition.

"Fee-generating case" means any case or matter which, if undertaken on behalf of an eligibile client by an attorney in private practice, reasonably may be expected to result in a fee for legal services from an award to a client, from public funds, or from the opposing party. Any action brought on behalf of a client under a contract or statute with a fee-shifting provision is considered a fee-generating case.

4. Section 1609.3 is revised to read as follows:

§ 1609.3 Prohibition.

No recipient shall use funds received from the Corporation or any non-public funds to provide legal assistance in a fee-generating case unless other adequate representation is unavailable. It shall be presumed that all cases undertaken by a recipient are undertaken using LSC or non-public funds. A recipient may rebut this presumption with contemporaneous documentation showing that a case was otherwise funded. All recipients shall establish procedures for the referral of fee-generating cases.

5. Section 1609.4 is revised to read as follows:

§ 1609.4 Authorized representation in a fee-generating case.

(a) Recipients are authorized to provide representation in fee-generating cases if other adequate representation is determined to be unavailable and the executive director has approved the undertaking of the case in writing pursuant to written policies adopted by the recipient's governing body.

(b) Other adequate representation is deemed to be unavailable when:

(1) The recipient has determined that free referral is not possible because:

(i) The case has been rejected by the local lawyer referral service or, if there is no lawyer referral service operating in the recipient's service area, by two attorneys in private practice who have experience in the subject matter of the case. The recipient shall maintain contemporaneous documentation of the requisite rejections in the case file;

(ii) Neither the referral service nor any lawyer will consider the case without payment of a consultation fee. The recipient shall maintain contemporaneous documentation of such refusal in the case file; or

(iii) Emergency circumstances compel immediate action before referral can be made, but the client is advised that if appropriate, and consistent with professional responsibility, referral will be attempted at a later time; or

(2) Inclusion of a counterclaim requesting damages is necessary for effective defense or because of applicable rules governing joinder of counterclaims; or

(3) A court appoints a recipient or an employee of a recipient pursuant to a statute or a court rule or practice of equal applicability to all attorneys in the jurisdiction; or

(4) An eligible client is seeking benefits under Subchapter II of the Social Security Act, 42 U.S.C. 401, et seq., as amended, Federal Old Age, Survivors, and Disability Insurance Benefits; or Subchapter XVI of the Social Security Act, 42 U.S.C. 1381, et seq., as amended, Supplemental Security Income for Aged, Blind, and Disabled.

(c) The governing body of a recipient shall adopt written policies to guide the director of the recipient in determining whether to approve action in such cases which will require the director to:

(1) Verify that other adequate representation is unavailable as required by § 1609.4;

(2) Determine how the case conforms with the recipient's priorities in resource allocation; and

(3) Document the executive director's consideration of the above listed factors and maintain such documentation and written approval in the case file.

6. Section 1609.5 is amended by adding paragraph (c) and the introductory text is republished to read as follows:

§ 1609.5 Acceptance of fees.

A recipient may seek and accept a fee awarded or approved by a court or administrative body, or included in a settlement, if:

* * * * *

(c) The fee is not deducted from the award to the client in connection with any claim for statutory benefits permitted by Section 1007(b)(1) of the Act and § 1609.4(d) of these regulations.

7. Section 1609.6 is revised to read as follows:

§ 1609.6 Accounting for attorneys' fees.

Any recipient who has been awarded fees shall submit a quarterly report due April 15, July 15, October 15, and January 31 of each year on a form approved by the Corporation, which shall state all attorneys' fees received by the recipient during the previous quarter. The quarterly report shall also include all attorneys' fees received by a subrecipient in all cases funded by the recipient. All such sums received by a recipient after the effective date of this rule shall be credited towards the recipient's LSC grant for the succeeding quarter and the sums shall be deducted from the recipient's monthly funding checks.

8. Section 1609.8 paragraph (c) is revised and the intoductory text is republished to read as follows:

§ 1609.8 Applicability.

Nothing in this part shall prevent a recipient from:

* * * * *

(c) Acting as co-counsel with a private attorney when the case meets standards set forth in § 1609.4, and accepting part of any fees that may result from a shared case when the requirements of §§ 1609.5 and 1609.6 are met.

Timothy B. Shea,

General Counsel.

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Order No. 400]

Resolution and Order Approving the Application of the Puget Sound Foreign-Trade Zone Association for a Special-Purpose Subzone for Tacoma Boatbuilding Co. in Tacoma, WA

Proceedings of the Foreign-Trade Zones Board, Washington, DC

Resolution and Order

Pursuant to the authority granted in the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a–81u), the Foreign-Trade Zones Board has adopted the following Resolution and Order:

The Board, having considered the matter, hereby orders:

After consideration of the application of the Puget Sound Foreign-Trade Zone Association, grantee of Foreign-Trade Zone 86, filed with the Foreign-Trade Zones Board (the Board) on January 27, 1988, requesting special-purpose subzone status for the shipyard of Tacoma Boatbuilding Company in Tacoma, Washington, within the Tacoma Customs port of entry, the Board, finding that the requirements of the Foreign-Trade Zones Act, as amended, and the Board's regulations would be satisfied, and that the proposal would be in the public interest, if approval is subject to certain conditions, approves the application subject to the following conditions: (1) any steel mill products including steel plate, angles, shapes, channels, rolled sheet stock, bars, pipes and tubes, classified under Schedule 6, Part 2, Subp. B, TSUS, and not incorporated under merchandise otherwise classified, and which is used in manufacturing shall be subject to Customs duties in accordance with applicable law, if the same item is then being produced by a domestic steel mill; and (2) in addition to the annual report, Tacoma Boatbuilding Company shall advise the Board's Executive Secretary as to significant new contracts, with appropriate information concerning foreign purchases otherwise dutiable, so that the Board may consider whether any foreign dutiable items are being imported for manufacturing in the subzone primarily because of subzone status and whether the Board should consider requiring Customs duties to be paid on such items.

The Secretary of Commerce, as Chairman and Executive Officer of the Board, is hereby authorized to issue a grant of authority and appropriate Board Order.

Grant of Authority to Establish a Foreign-Trade Subzone for the Tacoma Boatbuilding Company Shipyard in Tacoma, Washington

Whereas, by an Act of Congress approved June 18, 1934, an Act "To provide for the establishment, operation, and maintenance of foreign-trade zones in ports of entry of the United States, to expedite and encourage foreign commerce, and for other purposes," as amended (19 U.S.C. 81a–81u) (the Act), the Foreign-Trade Zones Board (the Board) is authorized and empowered to grant to corporations the privilege of establishing, operating, and maintaining foreign-trade zones in or adjacent to ports of entry under the jurisdiction of the United States;

Whereas, the Board's regulations (15 CFR 400.304) provide for the establishment of special-purpose subzones when existing zone facilities cannot serve the specific use involved, and where a significant public benefit will result;

Whereas, the Puget Sound Foreign-Trade Zone Association, grantee of Foreign-Trade Zone No. 86, has made application (filed January 27, 1988, FTZ Docket 7–88, 53 FR 3907) in due and proper form to the Board for authority to establish a special-purpose subzone at the shipyard of Tacoma Boatbuilding Company in Tacoma, Washington;

Whereas, notice of said application has been given and published, and full opportunity has been afforded all interested parties to be heard; and

Whereas, the Board has found that the requirements of the Act and the Board's regulations would be satisfied if approval is subject to the conditions stated in the resolution accompanying this action;

Now, Therefore, in accordance with application filed January 27, 1988, the Board hereby authorizes the establishment of a subzone at the shipyard of Tacoma Boatbuilding Company, designated on the records of the Board as Foreign-Trade Subzone No. 86A at the location mentioned above and more particularly described on the maps and drawings accompanying the application, said grant of authority being subject to the provisions and restrictions of the Act and the regulations, and those stated in the resolution accompanying this action, including the requirement that foreign basic steel mill products shall be subject to Customs duties prior to admission into the subzone if the same item is then being produced by a domestic mill, and also to the following express conditions and limitations:

Activation of the subzone shall be commenced within a reasonable time from the date of issuance of the grant, and prior thereto, any necessary permits shall be obtained from Federal, State, and municipal authorities.

Officers and employees of the United States shall have free and unrestricted access to and throughout the foreign-trade subzone in the performance of their official duties.

The grant shall not be construed to relieve responsible parties from liability for injury or damage to the person or property of others occasioned by the construction, operation, or maintenance of said subzone, and in no event shall the United States be liable therefor.

The grant is further subject to settlement locally by the District Director of Customs and District Army Engineer with the Grantee regarding compliance with their respective requirements for the protection of the revenue of the United States and the installation of suitable facilities.

In witness whereof, the Foreign-Trade Zone Board has caused its name to be signed and its seal to be affixed hereto by its Chairman and Executive Officer or his delegate at Washington, DC, this 6th day of December, 1988, pursuant to Order of the Board.

Foreign-Trade Zones Board.

Jan W. Mares,

Assistant Secretary of Commerce For Import Administration, Chairman, Committee of Alternates.

Attest:

John J. Da Ponte, Jr.,

Executive Secretary.

BILLING CODE 3510–DS–M

National Institute of Standards and Technology

Workshop on Implementation of Markings for Toy, Look-Alike and Imitation Firearms; Public Meeting

AGENY: National Institute of Standards and Technology, Commerce.

ACTION: Notice of public meeting.

SUMMARY: The National Institute of Standards and Technology (NIST) announced a workshop to discuss implementation issues related to a new law concerning the marking of toy, look-alike, and imitation firearms. The new law, section 4 of the Federal Energy Management Improvement Act, (Pub. L. 100–615), provides that "it shall be unlawful for any person to manufacture, enter into commerce, ship, transport, or receive any toy, look-alike, or imitation firearm unless such firearm contains, or has affixed to it, a marking approved by the Secretary of Commerce".

DATE AND TIME: The workshop will be held on February 9, 1989, starting at 10:00 a.m.

ADDRESS: The workshop will be held in the Green Auditorium, Administration Building, National Institute of Standards and Technology, Gaithersburg, Maryland.

FOR FURTHER INFORMATION CONTACT: Stanley Warshaw, Associate Director, Industry and Standards, Room A600, Administration Building, Gaithersburg, Maryland 20899, telephone number (301) 975–4000.

SUPPLEMENTARY INFORMATION: Section 4 of the Federal Energy Management Improvement Act, (Pub. L. 100–615), provides that "it shall be unlawful for any person to manufacture, enter into commerce, ship, transport, or receive any toy, look-alike, or imitation firearm unless such firearm contains, or has affixed to it", a "blaze orange plug inserted in the barrel" or such other marking as may be approved by the Secretary of Commerce. Section 4 also permits the Secretary of Commerce to waive this requirement for any imitation firearm that will be used only in the theatrical, movie or television industry.

The workshop will be utilized to develop the specifics of the marking and the exceptions or alternative requirements, if any, that might need to be prescribed for such toy, look-alike, or firearms as water pistols, air soft guns firing nonmetallic projectiles, and so on. The use of existing voluntary standards such as ANSI Z53.1, entitled *Safety Color Code for Marking Physical Hazards*, will also be considered.

Date: December 13, 1988.

Raymond G. Kammer,

Acting Director.

BILLING CODE 3510–13–M

National Conference on Weights and Measures; Meeting

AGENCY: National Institute of Standards and Technology, Commerce.

ACTION: Notice of meeting.

SUMMARY: Notice is hereby given that the Interim Meetings of the National Conference on Weights and Measures will be held January 9 through January 13, 1989, at the National Institute of Standards and Technology, Gaithersburg, Maryland. The meeting is open to the public.

The National Conference on Weights and Measures is an organization of weights and measures enforcement officials of the States, counties, and cities of the United States, and private sector representatives. The interim meetings of the conference, as well as the annual meeting to be held next July (a notice will be published in the **Federal Register** prior to such meeting),

brings together enforcement officials, other government officials, and representatives of business, industry, trade associations, and consumer organizations to discuss subject that relate to the field of weights and measures technology and administration.

Pursuant to section 2(5) of its Organic Act (15 U.S.C. 272(5)), the National Institute of Standards and Technology acts as a sponsor of the National Conference on Weights and Measures in order to promote uniformity among the States in the complex of laws, regulations, methods, and testing equipment that comprises regulatory control by the States of commercial weighing and measuring.

DATE: The meeting will be held January 9–13, 1989.

Location of Meeting: The National Institute of Standards and Technology, Gaithersburg, Maryland.

FOR FURTHER INFORMATION CONTACT: Albert D. Tholen, Executive Secretary, National Conference on Weights and Measures, P.O. Box 3137, Gaithersburg, Maryland 20878. Telephone: (301) 975–4009.

Date: December 14, 1988.

Raymond G. Kammer,

Acting Director.

BILLING CODE 3510–13–M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Announcement of Import Limits for Certain Cotton, Wool, Man-Made Fiber, Silk Blend and Other Vegetable Fiber Textiles and Textile Products Produced or Manufactured in the Republic of Korea

December 13, 1988.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs establishing limits for the new agreement year.

EFFECTIVE DATE: January 1, 1989.

Authority: Executive Order 11651 of March 3, 1972, as amended; Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854).

FOR FURTHER INFORMATION CONTACT: Kimbang Pham, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 377–4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port or call (202) 566–8041. For information on embargoes and quota re-openings, call (202) 377–3715.

SUPPLEMENTARY INFORMATION: A copy of the current bilateral textile agreement between the Governments of the United States and the Republic of Korea is available from the Textiles Division, Bureau of Economic and Business Affairs, U.S. Department of State, (202) 647–1998.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States Annotated (see **Federal Register** notice 53 FR 44937, published on November 7, 1988).

The letter to the Commissioner of Customs and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

James H. Babb,

Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

December 13, 1988.

Commissioner of Customs,

Department of the Treasury, Washington, D.C. 20229

Dear Mr. Commissioner: Under the terms of Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854), and the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as further extended on July 31, 1986; pursuant to the Bilateral Textile Agreement of November 21 and December 4, 1986, as amended and extended, between the Governments of the United States and the Republic of Korea; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended, you are directed to prohibit, effective on January 1, 1989, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton, wool, man-made fiber, silk blend and other vegetable fiber textiles and textile products in the following categories, produced or manufactured in the Republic of Korea and exported during the twelve-month period which begins on January 1, 1989 and extends through December 31, 1989, in excess of the following restraint limits:

	12-mo restraint limit
Category Group I:	
200, 201, 218–220, 222–229, 300–326, 360–363, 369–0,[1] 400, 410, 414, 464–469, 600–607, 611–622, 624–629, 665–669 and 670–0,[2] as a group.	383,750,352 square meters equivalent.
Sublevels within Group I:	
200	350,653 kilograms.
201	1,364,071 kilograms.
218	10,670,739 square meters.
219	7,304,194 square meters.

649	539,254 dozen.
650	19,742 dozen.
659-C [15]	213,947 kilograms.
659-H [16]	1,156,353 kilograms.
659-S [17]	145,197 kilograms.
Group III:	
831-844 and 847-859, as a group.	18,048,753 square meters equivalent.
Sublevels within Group III:	
835	27,407 dozen.
836	76,242 dozen.
840	116,734 dozen.
Group IV:	
845	2,315,056 dozen.
846	810,701 dozen.
Group VI:	
369-L [18] and 670-L/870, [19] as a group.	57,943,626 square meters equivalent.
Sublevels within Group VI:	
369-L	244,235 kilograms.
670-L/870	16,106,039 kilograms of which not more than 13,449,014 kilograms shall be in Category 670-L.

[1] In Category 369-0, all tariff numbers except 4202.12.40.00, 4202.12.80.20, 4202.12.80.60, 4202.92.15.00 and 4202.92.60.00.
[2] In Category 670-0, all tariff numbers except 4202.12.80.30, 4202.12.80.70, 4202.92.30.20, 4202.92.30.30 and 4202.92.90.20.
[3] In Category 229-F, only tariff numbers 5608.11.00.00, 5608.19.10.10 and 5608.19.10.20.
[4] In Category 669-C, only tariff numbers 5607.49.30.00 and 5607.50.40.00.
[5] In Category 669-P, only tariff numbers 6305.31.00.10, 6305.31.00.20 and 6305.39.00.00.
[6] In Category 669-T, only tariff numbers 6306.12.00.00, 6306.19.00.10 and 6306.22.90.00.
[7] In Category 340-Y, only tariff numbers 6205.20.20.15, 6205.20.20.20, 6205.20.20.46, 6205.20.20.50 and 6205.20.20.60.
[8] In Category 359-H, only tariff numbers 6505.90.15.30 and 6505.90.20.60.
[9] In Category 459-W, only tariff number 6505.90.40.60.
[10] In Category 640-D, only tariff numbers 6205.30.20.10, 6205.30.20.20, 6205.30.20.30, 6205.30 20.40, 6205.90.20.30 and 6205.90.40.30.
[11] In Category 640-DY, only tariff numbers 6205.30.20.10 and 6205.30.20.20.
[12] In Category 640-0, only tariff numbers 6203.23.00.80, 6203.29.20.50, 6205.30.10.00, 6205.30.20.50, 6205.30.20 60, 6205.30.20.70, 6205.30.20.80 and 6211.33.00.40.
[13] In Category 640-OY, only tariff numbers 6205.30.20.50 and 6205.30.20.60.
[14] In Category 641-Y, only tariff numbers 6204.23.00.50, 6204.29.20.30, 6206.40.30.10 and 6206.40.30.25.
[15] In Category 659-C, only tariff numbers 6103.23.00.55, 6103.43.20.20, 6103.49.20.00, 6103.49.30.38, 6104.63.10.20, 6104.69.10.00, 6104.69.30.14, 6114.30.30.40, 6114.30.30.50, 6203.43.20.10, 6203.49.10.10, 6204.63.15.10, 6204.69.10.10, 6211.33.00.10 and 6211.43.00.10.
[16] In Category 659-H, only tariff numbers 6502.00.90.30, 6504.00.90.15, 6504.00.90.60, 6505.90.50.60, 6505.90.60.60, 6505.90.70.60 and 6505.90.80.75.
[17] In Category 659-S, only tariff numbers 6112.31.00.10, 6112.31.00.20, 6112.41.00.10, 6112.41.00.20, 6112.41.00.30, 6112.41.00.40, 6211.11.10.10, 6211.11.10.20, 6211.12.10.10 and 6211.12.10.20.
[18] In Category 369-L, only tariff numbers 4202.12.40.00, 4202.12.80.20, 4202.12.80.60, 4202.92.15.00 and 4202.92.60.00.
[19] In Category 670-L, only tariff numbers 4202.12.80.30, 4202.12.80 70, 4202.92.30.20, 4202.92.30.30 and 4202.92.90.20.

Imports charged to these cateogory limits, except Categories 439 and 839, for the period January 1, 1988 through December 31, 1988 shall be charged against the levels of restraint to the extent of any unfilled balances. In the event the limits established for that period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this directive.

The 1988 levels are subject to adjustment according to the provisions of the Bilateral Textile Agreement of November 21 and December 4, 1986, as amended and extended, between the Governments of the United States and the Republic of Korea.

The conversion factors are listed below:

Category	Conversion factor
333/334	33.0
433/434	35.2
633/634/635	34.1
638/639	12.96

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

James H. Babb,

Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-DR-M

DEPARTMENT OF EDUCATION

[CFDA No. 84.031A, CFDA No. 84.031G]

Notice Inviting Applications for Designation as an Eligible Institution for Fiscal Year 1989 for the Strengthening Institutions Program and the Endowment Challenge Grant Program

Purpose: Institutions of higher education must meet specific statutory and regulatory requirements to be designated as eligible to receive funds under the Strengthening Institutions Program and the Endowment Challenge Grant Program.

Deadline for Transmittal of Applications: January 27, 1989.

Applications available: December 27, 1988.

Eligibility information: Under section 312 of the Higher Education Act of 1965, as amended (HEA), an institution of higher education qualifies as an eligible institution under the Strengthening Institutions and Endowment Challenge Grant Programs if, among other requirements, it has a high enrollment of needy students, and its Educational and General (E&G) expenditures are low per full-time equivalent undergraduate student (FTE) in comparison with the average E&G expenditure per FTE student of institutions that offer similar instruction. The complete eligibility requirements are found in 34 CFR 607.2 through 607.4 of the Strengthening Institutions Program regulations.

Enrollment of Needy Students: Under 34 CFR 607.3, an institution is considered to have a high enrollment of needy students if—

(1) At least 50 percent of its degree students received financial assistance under one or more of the following programs: Pell Grant, Supplemental Educational Opportunity Grant, College Work Study, or Perkins Loan Program; *or* (2) The percentage of its undergraduate degree students who were enrolled on at least a half-time basis and received Pell Grants exceeded the median percentage of undergraduate degree students who were enrolled on at least a half-time basis and received Pell Grants at comparable institutions that offer similar instruction. To quality under this criterion, an applicant's Pell grant percentage must be *more than* the threshold for its category provided on the table in this notice.

E&G Expenditures Per FTE Student: An applicant should compare its average E&G expenditure/FTE student to the average E&G expenditure/FTE student for its category of institution contained in the table in this notice. If

the applicant's average E&G expenditure for 1986–87 is *less than* the threshold for its category, the applicant meets this eligibility requirement.

The applicant's E&G expenditures are the total amount expanded by the institution during the base year for instruction, research, public service, academic support, student services, institutional support, operation and maintenance, scholarships and fellowships, and mandatory transfers.

The following table identifies the relevant median Pell Grant percentages and the average E&G expenditures per FTE for the 1986–87 base year.

	Median Pell Grant percentage	1986–87 average E&G per FTE student
2-year public institutions	20.38	$4,443
2-year non-profit private institutions	26.21	5,069
4-year public institutions	21.04	8,376
4-year non-profit private institutions	21.73	9,905

Waiver Information: Applicants unable to meet the high needy student enrollment requirement and/or the low E&G expenditure requirement may apply to the Secretary for waivers of these requirements under various options described in 34 CFR 607.3(b) and 34 CFR 607.4(c) and (d) respectively.

For the purpose of § 607.3(b)(2), under which an applicant must demonstrate that at least 30 percent of the students it served in base year 1986–87 were students from low-income families, "low-income" is defined as an amount which does not exceed 150 percent of the amount equal to the poverty level as established by the U.S. Bureau of the Census. The following table sets forth the low-income levels for various sized families.

For the purposes of this waiver provision, low-income families are identified according to the following:

Size of family [1]	Gross annual family income must be less than [2]
1	$8,040
2	10,860
3	13,680
4	16,500
5	19,320
6	22,140
7	24,960
8	27,780

[1] For all families with more than 8 members, add $2,820 for each additional member.

[2] Add 15 percent for Hawaii and 25 percent for Alaska to the figures in Family Income Column.

Source: U.S. Department of Health and Human Services as published in the **Federal Register** of February 11, 1986, 51, No. 28, pages 5105–5106.

In reference to the waiver option specified in section 607.3 (b)(4) of the regulations, information about "metropolitan statistical areas" may be obtained by contacting: National Technical Information Services, Document Sales, 5505 Port Royal Road, Springfield, Virginia 22161, or call (703) 487–4650. Title: METROPOLITAN STATISTICAL AREAS, 1986 #PR86–139742.

Applicable Regulations: Regulations applicable to the eligibility process include: (a) the Strengthening Institutions Program, 34 CFR Part 607; (b) the Endowment Challenge Grant Program Regulations, 34 CFR Part 628; and (c) the Education Department General Administrative Regulations, 34 CFR Parts 74, 75, 77 and 78.

For Applications or Information Contact: Strengthening Institutions Program Branch, Division of Institutional Development, U.S. Department of Education, 400 Maryland Avenue, SW., Room 3042, ROB#3, Washington, DC 20202–5335, Telephone: (202) 732–3314.

Program Authority: 20 U.S.C. 1057 and 1065a.

Dated: December 14, 1988.

Kenneth D. Whitehead,

Assistant Secretary for Postsecondary Education.

BILLING CODE 4000-01-M

Meeting; National Assessment Governing Board

AGENCY: National Assessment Governing Board.

ACTION: Notice of partially closed meeting.

SUMMARY: This notice sets forth the schedule and proposed agenda of a forthcoming meeting of a subgroup of the National Assessment Governing Board. This notice also describes the functions of the Board. Notice of this meeting is required under section 10(a)(2) of the Federal Advisory Committee Act.

DATE: January 5, 1989.

ADDRESS: The Westin Hotel-O'Hare, 6100 River Road, Rosemont, Illinois 60018.

FOR FURTHER INFORMATION CONTACT: Eunice E. Henderson, Designated Federal Official, Office of the Assistant Secretary for Educational Research and Improvement, U.S. Department of Education, 555 New Jersey Avenue NW., Room 602C, Washington, DC 20208, Telephone: (202) 357–6050.

SUPPLEMENTARY INFORMATION: The National Assessment Governing Board is established under section 406(i) of the General Education Provisions Act (GEPA) as amended by section 3403 of the National Assessment of Educational Progress Improvement Act (NAEP Improvement Act), Title III–C of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988 (Pub. L. 100–297); 20 U.S.C. 1221e–1).

The Board is established to advise the Commissioner of the National Center for Education on policies and actions needed to improve the form and use of the National Assessment of Education Progress, and develop specifications for the design, methodology, analysis and reporting of test results. The Board also is responsible for selecting for each age and grade tested, and establishing standards and procedures for interstate and national comparison.

A subgroup of the National Assessment Governing Board will meet in Rosemont, Illinois on January 5, 1989 from 9 a.m. to 5 p.m. The proposed agenda includes the identification of National Assessment of Educational Progress (NAEP) policy issues that the full Board must consider and on which the Board's advice or decisions are needed in early 1989. The meeting of the subgroup will be closed to the public under the authority of section 10(d) of the Federal Advisory Committee Act (Pub. L. 92–163; 5 U.S.C. Appendix 2). A summary of the activities at the closed session and related matters which are informative to the public consistent with Title 5 U.S.C. 552b will be available to the public within fourteen days of the meeting.

Until a permanent office site for the Board has been established, this summary is available for public inspection at the U.S. Department of Education, Office of Educational Research and Improvement, 55 New Jersey Avenue NW., Room 600, Washington, DC from 8:30 a.m. to 5 p.m.

Dated: December 14, 1988.

Patricia Hines,

Acting Assistant Secretary for Educational Research and Improvement.

BILLING CODE 4000-01-M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. ER88-578-000, et al.]

Pacific Gas & Electric Co., et al.; Electric Rate, Small Power Production, and Interlocking Directorate Filings

Take notice that the following filings have been made with the Commission:

1. Pacific Gas & Electric Company

[Docket No. ER88-578-000]

December 9, 1988.

Take notice that on October 24, 1988, Pacific Gas and Electric Company (PG&E) tendered for filing in this docket as a supplement to its earlier filing in this docket a Letter Agreement between PG&E and the City of Santa Clara clarifying the FERC filing rights and obligations of both parties.

Comment date: December 19, 1988, in accordance with Standard Paragraph E at the end of this notice.

2. South Carolina Electric & Gas Company

[Docket No. ES89-10-000]

December 12, 1988.

Take notice that on December 2, 1988, South Carolina Electric and Gas Company filed an application seeking authority pursuant to section 204 of the Federal Power Act to issue up to $160,000,000 of short-term unsecured promissory notes in the form of bank loans and commercial paper, on or before December 31, 1990, with a final maturity date no later than December 31, 1991.

Comment date: December 27, 1988, in accordance with Standard Paragraph E at the end of this notice.

3. Central Power & Light Company et al.

[Docket No. ER89-102-000]

December 12, 1988.

Take notice that on December 2, 1988, Central Power and Light Company and West Texas Utilities Company submitted for filing a revised ERCOT Interpool Transmission Service Tariff, and Public Service Company of Oklahoma and Southwestern Electric Power Company submitted for filing a revised SPP Interpool Transmission Service Tariff. The filing companies states that the purpose of the filing is to delete provisions from the currently effective Interpool Transmission Service Tariffs which require the reservation of 15% of the initial nominal capacity of the North Tie ("Reserve Capacity") and the solicitation from "Qualified Utilities" of reservations of the use of this North Tie Reserve Capacity. The filing companies request an effective date of January 31, 1989.

The filing companies state that copies of the filing have been served on the Public Utility Commission of Texas, the Oklahoma Corporation Commission, the Arkansas Public Service Commission, the Louisiana Public Service Commission and all parties to Docket No. EL79-8-002. Copies of the filing are also available for inspection in the general offices of each of the filing companies.

Comment date: December 28, 1988, in accordance with Standard Paragraph E at the end of this notice.

4. Washington Water Power Company

[Docket No. ER89-100-000]

December 12, 1988.

Take notice that on December 1, 1988, Washington Water Power Company tendered for filing a Transmission Wheeling Tariff, Schedule 62. The filing company states that the tariff is related to transmission wheeling service for borderline customer loads provided only to the Bonneville Power Administration under a currently existing General Transfer Agreement and that the tariff reflects changes in the company's cost to provide this service.

Comment date: December 28, 1988, in accordance with Standard Paragraph E at the end of this notice.

5. Northern States Power Company

[Docket No. ER88-75-002]

December 12, 1988.

Take notice that on December 1, 1988, Northern States Power Company submitted for filing its refund report in compliance with the Commission's order of November 4, 1988 in this docket.

Comment date: December 28, 1988, in accordance with Standard Paragraph E at the end of this notice.

6. Central Vermont Public Service Corporation

[Docket No. ER89-98-000]

December 12, 1988.

Take notice that on November 30, 1988, Central Vermont Public Service Corporation (Central Vermont) tendered for filing as an initial rate schedule a Purchase Agreement between the New England Power Company and Central Vermont for the sale of a portion of the Central Vermont entitlement in the capacity and net electrical output of the Vermont Yankee Nuclear Power to New England Power Company.

According to Central Vermont, copies of the filing were served upon the respective jurisdictional state regulatory agencies of the parties to the agreement. Central Vermont further states that the filing is in accordance with section 35 of the Commission's Regulations.

Comment date: December 28, 1988, in accordance with Standard Paragraph E at the end of this notice.

7. Louisville Gas & Electric Company

[Docket No. ER89-104-000]

December 12, 1988.

Take notice that on December 2, 1988, Louisville Gas & Electric Company ("Louisville") tendered for filing an amendment to the interconnection agreement between itself and Wabash Valley Power Association, Inc.

Comment date: December 28, 1988, in accordance with Standard Paragraph E at the end of this notice.

8. Duke Power Company

[Docket No. ER89-106-000]

December 12, 1988.

Take notice that on December 5, 1988, Duke Power Company ("Duke") tendered for filing with the Commission a new Service Schedule J-1987 to the Interchange Agreement between Duke and Carolina Power & Light Company ("CP&L") dated June 1, 1961, as amended ("Interchange Agreement"). Duke states that the Interchange Agreement is on file with the Commission and has been designated Duke Rate Schedule FERC No. 10.

Duke states further that under the terms of Service Schedule J, CP&L will buy 400 MW of capacity on a firm basis for the period from January 1, 1992 to December 31, 1997. The proposed agreement provides for a monthly capacity rate equal to $7.00 per kilowatt per month which will be escalated from 1986 to 1992 dollars prior to the commencement of service in 1992. CP&L has the right to purchase energy from 0 MWh to 400 MWh on any hour. The rate generally applicable to the supply of energy under Service Schedule J will equal Duke's out-of-pocket cost of supplying such energy. Duke further states that copies of the filing were mailed to CP&L, the North Carolina Utilities Commission, and the South Carolina Public Service Commission.

Comment date: December 28, 1988, in accordance with Standard Paragraph E at the end of this notice.

9. Mississippi Power Company

[Docket No. ER89-101-000]

December 12, 1988.

Take notice that on December 2, 1988, Mississippi Power Company (MPC) tendered for filing what it describes as an initial Transmission Service Agreement executed between Alabama

Electric Cooperative (AEC) and MPC. The agreement provides for transmission service for the account of AEC for a period of three years commencing January 1, 1989.

Comment date: December 28, 1988, in accordance with Standard Paragraph E at the end of this notice.

10. Commonwealth Electric Company

[Docket No. ER89-107-000]

December 12, 1988.

Take notice that on December 2, 1988, Commonwealth Electric Company ("Commonwealth") tendered for filing a proposed change in rate under its currently effective Rate Schedule FERC No. 6.

Commonwealth states that the change in rate has been computed according to the provisions of section 6(b) of its Rate Schedule FERC No. 6. Commonwealth states that the proposed change would supersede the 23 KV Wheeling Rate in effect during calendar 1987. Commonwealth states that it is requesting waiver of the Commission's notice requirements to allow the tendered rate change to become effective as of January 1, 1988 and that it has served copies of its filing upon Boston Edison Company and the Massachusetts Department of Public Utilities.

Comment date: December 28, 1988, in accordance with Standard Paragraph E at the end of this notice.

11. Wisconsin Public Service Corporation

[Docket No. ER89-103-000]

December 12, 1988.

Take notice that on December 2, 1988, Wisconsin Public Service Corporation (WPSC) tendered for filing a supplement to its Service Agreement No. 4 for "Partial Requirements Service" between the City of Marshfield, Wisconsin and Wisconsin Public Service Company. WPSC states that the supplement will revise the contract demand quantities in accordance with Exhibit 1 of the Service Agreement. WPSC states that copies of the filing were served upon the City of Marshfield, Wisconsin and the City of Manitowoc, Wisconsin.

Comment date: December 28, 1988, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraph

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 88-29036 Filed 12-16-88; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. G-3817-000, et al.]

Sun Exploration and Production Co., et al.; Applications for Certificates, Abandonment of Service and Amendment of Certificates [1]

December 15, 1988.

Take notice that each of the Applicants listed herein has filed an application pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce, to abandon service or to amend certificates as described herein, all as more fully described in the respective applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before December 30, 1988, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party in any proceeding herein must file a petition to intervene in accordance with the Commission's rules.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or to be represented at the hearing.

Lois D. Cashell,

Secretary.

[Docket Nos. CP89-352-000, et al.]

United Gas Pipe Line Co. et al.; Natural Gas Certificate Filings

December 12, 1988.

Take notice that the following filings have been made with the Commission:

1. United Gas Pipe Line Company

[Docket No. CP89-352-000]

Take notice that on December 7, 1988, United Gas Pipe Line Company, (United), P.O. Box 1478, Houston, Texas 77251-1478, filed in Docket No. CP89-352-000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to provide an interruptible transportation service for Intercon Gas, Inc. (Intercon), a marketer, under the blanket certificate issued in Docket No. CP88-6-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

United states that pursuant to a transportation agreement dated October 4, 1988, under its Rate Schedule ITS, it proposes to transport up to 51,500 MMBtu per day equivalent of natural gas for Intercon. United states that it would receive the gas at an existing interconnection between United and Sea Robin Pipeline Company near Erath, Vermilion Parish, Louisiana, and that it would transport and redeliver the gas at an interconnection with Columbia Gulf Transmission Company near Barron, Rapides Parish, Louisiana.

United advises that service under § 284.223(a) commenced October 11, 1988, as reported in Docket No. ST89-773 (filed on November 17, 1988). United further advises that it would transport 51-500 MMBtu on an average day and 18,797,500 MMBtu annually.

Comment date: January 26, 1989, in accordance with Standard Paragraph G at the end of this notice.

2. Northern Natural Gas Company Division of Enron Corporation

[Docket No. CP89-342-000]

Take notice that on December 6, 1988, Northern Natural Gas Company, Division of Enron Corporation (Northern), 1400 Smith Street, P.O. Box 1188, Houston, Texas 77251-1188, filed in Docket No. CP89-342-000, a prior notice request pursuant to §§ 157.205 and 284-223 of the Commission's Regulations for authorization to transport natural gas for PSI, Inc. (PSI), a marketer of natural gas, under the certificate issued in Docket No. CP86-435-000, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Northern proposes to transport up to 150,000 MMBtu of natural gas per day, pursuant to an October 8, 1988, agreement between Northern and PSI. Northern would provide the service to PSI under the provisions of its Rate Schedule IT-1, it is indicated. Northern further states that the average and annual quantities would be 112,500 MMBtu and 54,750,000 MMBtu, respectively. Northern indicates that service commenced pursuant to § 284.223(a) of the Commission's Regulations as reported in Docket No. ST89-440.

Comment date: January 26, 1989, in accordance with Standard Paragraph G at the end of this notice.

3. United Gas Pipe Line Company

[Docket No. CP89-346-000]

Take notice that on December 6, 1988, United Gas Pipe Line Company (United), P.O. Box 1478, Houston, Texas, filed in Docket No. CP89-346-000 a request pursuant to § 157.205 of the Commission's Regulations for authorization to provide transportation service on behalf of Texaco, Inc. (Texaco), under United's blanket certificate issued in Docket No. CP88-6-000, pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

United requests authorization to transport, on an interruptible basis, up to a maximum of 51,500 MMBtu of natural gas per day for Texaco, a producer of natural gas, from various receipt points located in Texas to various delivery points also located in Texas. United anticipates transporting an annual volume of 18,797,500.

United states that the transportation of natural gas for Texaco commenced October 14, 1988, as reported in Docket No. ST89-828-000, for a 120-day period pursuant to § 284.223(a) of the Commission's Regulations and the blanket certificate issued to United in Docket No. CP88-6-000.

Comment date: January 26, 1989, in accordance with Standard Paragraph G at the end of this notice.

4. Texas Gas Transmission Corporation

[Docket No. CP89-337-000]

Take notice that on December 5, 1988, Texas Gas Transmission Corporation (Texas Gas), 3800 Frederica Street, Owensboro, Kentucky, 42301, filed in docket No. CP89-337-000 a request pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) and the Natural Gas Policy Act (18 CFR 284.223) for authorization to transport natural gas for Clinton Gas Marketing, Inc. (Clinton) under Texas Gas blanket certificate issued in Docket No. CP88-686-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Texas Gas proposes to transport on an interruptible basis up to 90,000 MMBtu of natural gas equivalent on behalf of Clinton pursuant to a gas transportation agreement dated October 11, 1988, between Texas Gas and Clinton. Texas Gas would receive the gas at various existing points of receipt

on its system in Texas and Louisiana and redeliver equivalent volumes, less fuel and lost and unaccounted for volumes, at existing delivery points in Ohio.

Texas Gas further states that the estimated average daily and annual quantities would be 30,000 MMBtu and 32,850,000 MMBtu, respectively. Service under § 284.223(a) commenced on October 15, 1988, as reported in Docket No. ST89–687, it is stated.

Comment date: January 26, 1989, in accordance with Standard Paragraph G at the end of this notice.

5. United Gas Pipe Line Company

[Docket No. CP89–347–000]

Take notice that on December 6, 1988, United Gas Pipe Line Company (United), P.O. Box 1478, Houston, Texas 77251–1478, filed in Docket No. CP89–347–000 a request pursuant to §§ 157.205 and 283.228 of the Commission's Regulations under the Natural Gas Act for authorization to provide an interruptible transportation service on behalf of Seagull Marketing Services (Seagull), a marketer of natural gas, under its blanket certificate issued in Docket No. CP88–6–000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

United states that it proposes to transport natural gas from numerous points of receipt located in Mississippi, Louisiana, Texas and Alabama to numerous points of delivery located in Louisiana, Texas, Mississippi, Alabama and Florida.

United further states that the maximum daily, average and annual quantities that it would transport for Seagull would be 515,000 MMBtu equivalent, 515,000 MMBtu equivalent and 187,975,000 MMBtu equivalent of natural gas, respectively.

United indicates that in Docket No. ST89–829, filed with the Commission on November 21, 1988, it reported that transportation service for Seagull began on October 21, 1988, under the 120-day automatic authorization provisions of § 284.223(a).

Comment date: January 26, 1989, in accordance with Standard Paragraph G at the end of this notice.

6. United Gas Pipe Line Company

[Docket No. CP89–345–000]

Take notice that on December 6, 1988, United Gas Pipe Line Company (United), P.O. Box 1478, Houston, Texas 77251–1478, filed in Docket No. CP89–345–000 a request pursuant to §§ 157.205 and 284–223 of the Commission's Regulations under the Natural Gas Act for authorization to provide an interruptible transportation service on behalf of Texaco Gas Marketing (Texaco), a marketer of natural gas, under its blanket certificate issued in Docket No. CP88–6–000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

United states that it proposes to transport natural gas from a point of receipt located in West Cameron Block 487, offshore Louisiana to a point of delivery located in West Cameron Block 505.

United further states that the maximum daily, aveage and annual quantities that it would transport for Texaco would be 10,300 MMBtu equivalent, 10,300 MMBtu equivalent and 3,759,500 MMBtu equivalent of natural gas, respectively.

United indicates that in Docket No. ST89–775, filed with the Commission on November 17, 1988, it reported that transportation service for Texaco began on November 5, 1988, under the 120-day automatic authorization provisions of § 284.223(a).

Comment date: January 26, 1989, in accordance with Standard Paragraph G at the end of this notice.

7. Northern Natural Gas Company, Division of Enron Corporation

Docket No. CP89–344–000

Take notice that on December 6, 1988, Northern Natural Gas Company, Division of Enron Corporation (Northern), 1400 Smith Street, P.O. Box 1188, Houston, Texas 77251–1188, filed in Docket No. CP89–344–000 a request pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act for authorization to provide a transportation service on behalf of PSI, Inc., a marketer of natural gas, under Northern's blanket certificate issued in Docket No. CP86–435–000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Northern states that pursuant to an agreement dated October 1, 1988, under Rate Schedule IT–1 it proposes to transport up to 25,000 MMBtu per day of natural gas for PSI, Inc. from various receipt points to various delivery points. The receipt and delivery points are listed in Appendix A of the transportation agreement which provides for this service, and is on file with the Commission and open to public inspection. Northern proposes to transport 25,000 MMBtu on a peak day, 18,750 MMBtu on an average day and 9,125,000 MMBtu on an annual basis.

Northern indicates that the transportation of natural gas for PSI, Inc. commenced on October 1, 1988, as reported in Docket No. CP89–375–000, for a 120-day period pursuant to § 284.223(a)(1) of the Commission Regulations and the blanket certificate issued to Northern in Dockert No. CP86–435–000.

Northern further states that construction of facilities will not be required to provide the service proposed herein.

Northern also states that there is no agency relationship under which a local distribution company or affiliate of PSI, Inc. will receive natural gas on behalf of PSI, Inc.

Comment date: January 26, 1989, in accordance with Standard Paragraph G at the end of this notice.

G. Any person or the Commission's staff may, within 45 days after the issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

Lois D. Cashell,

Secretary.

[FR Doc. 88–29037 Filed 12–16–88; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. CP89–267–000]

Atlantic Richfield Co.; et al.; Application for a Presidential Permit for the Construction, Operation, Maintenance, and Connection at the United States/Canada International Boundary, of Facilities for Importation of Natural Gas

December 13, 1988.

Take notice that on November 22, 1988, Atlantic Richfield Company (ARCO), 1601 Bryn, Room 46–072, Dallas, Texas 75201 and Intalco Aluminum Corporation (Intalco), 400 South El Camino Real, San Matea, California 94402, (pursuant to section 3 of the Natural Gas Act (NGA), 15 U.S.C.

717(b); §§ 153.1 *et seq.* and 153.10 *et seq.* of the Commission's Regulations, 18 CFR 153.1 and 153.10; Executive Order No. 10485, as amended by Executive Order No. 12038; and Delegation Order No. 0204–112 of the Secretary of Energy. ARCO and Intalco as owners of all the undivided interests of the "Ferndale Pipeline System," jointly seek authorization from the FERC for a Presidential Permit for the point of entry for the importation of natural gas and the authority to construct, operate, maintain and connect a natural gas pipeline from manufacturing facilities operated by ARCO and Intalco near Ferndale, Washington to Canadian pipeline facilities at the Canadian border. Individually, each company has filed for authority from the Economic Regulatory Administration (ERA) to import natural gas from Canada to transport over the Ferndale Pipeline System, for their own use.

The Ferndale Pipeline System will consist of approximately 29 miles of 16 inch diameter pipe, extending from an interconnection with Westcoast Energy, Inc. (Westcoast) at the Canadian border near Sumas, Washington, to the ARCO refinery and the Intalco smelter near Ferndale, Washington. Westcoast will construct and operate tap, pipe and meter facilities in Canada. It is stated the design capacity of the pipeline will be approximately 105 MMcf/d with an estimated cost of 11 million dollars. The Ferndale Pipeline System will transport gas only to facilities owned or operated by ARCO or Intalco and there will be no offer made to provide any service to the public on the proposed system. Each company will be entitled to a specific percentage of daily pipeline capacity and capital costs will be apportioned on the basis of these percentages. Between themselves, however, applicants will own 100 percent of the pipeline system. The construction and operation of the proposed pipeline system will not be financed by third parties, but will be financed by international funds.

ARCO and Intalco both state that they are interested in expanding their usage of natural gas in the future and that the pipeline proposed, is structured to serve all their forcible natural gas needs.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 3, 1989, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10 and 157.102(b)(2)). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file motion to intervene in accordance with the Commission's Rules.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

[Docket No. RP88–184–006]

El Paso Natural Gas Co.; Filing

Issued December 12, 1988.

Take notice that on December 2, 1988, El Paso Natural Gas Company (El Paso) filed First Revised Sheet No. 100–B to its FERC Gas Tariff, First Revised Volume No. 1 that reflect corrections to its First Revised Sheet N. 100–B filed December 1, 1988.

El Paso states that First Revised Sheet No. 100–B filed on December 1, 1988 reflected incorrect Order No. 500 surcharges and requests that the tariff sheet filed on December 2, 1988, be substituted for the sheets included in the December 1, 1988 filing.

El Paso requests an effective date of December 1,1988. El Paso states that copies of this filing have been served upon all parties receiving a copy of its December 1, 1988 filings.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.214, 385.211 (1988)). All such motions or protests should be filed on or before December 19, 1988. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717–01–M

[Project No. 2608 Massachusetts]

James River Corp.; Intent to File an Application for a New License

December 13, 1988.

Take notice that on August 15, 1988, James River Corporation, Premoid Division, the existing licensee for the West Springfield, MA Hydroelectric Project No. 2608, filed a notice of intent to file an application for a new license, pursuant to section 15(b)(1) of the Federal Power Act (Act), 16 U.S.C. 808 as amended by section 4 of the Electric Consumers Protection Act of 1986, Pub. L. 99–495. The original license for Project No. 2608 was issued effective May 1, 1965, and will expire December 31, 1993.

The project is located on the Westfield River in Hampden County, Massachusetts. The principal works of the West Springfield Project include an 18-foot-high, 450-foot-long timber crib dam; a reservoir of 20 acres at pool elevation 92.85 feet m.s.l.; a 2,500-foot-long power canal; a powerhouse with an installed capacity of 1,400 kW; a transmission line connection; and appurtenant facilities.

Pursuant to section 15(b)(2) of the Act, the licensee is required to make available certain information described in Docket No. RM87–7–000, Order No. 496 (Final Rule issued April 28, 1988). A copy of this Docket can be obtained from the Commission's Public Reference Branch, Room 1000, 825 North Capitol Street, NE., Washington, DC 20426. The above information as described in the rule is now available from the licensee at Front Street, West Springfield, MA 01089, Attn: Mr. David J. Garwood, telephone (413) 736–4554.

Pursuant to section 15(c)(1) of the Act, each application for a new license and any competing license applications must be filed with the Commission at least 24 months prior to the expiration of the existing license. All applications for license for this project must be filed by December 30, 1991.

BILLING CODE 6717–01–M

[Docket No. TC88–8–002]

Kentucky West Virginia Gas Co.; Amended Curtailment Plan

December 12, 1988.

Take notice that on November 30, 1988, Kentucky West Virginia Gas Company (Kentucky West), P.O. Box 1388, Ashland, Kentucky 41105, filed in Docket No. TC88–8–002, the following

VOL 53 ISS 243 DE 19 1988 UMI

revised tariff sheets to its FERC Gas Tariff, Second Revised Volume No. 1:

Original Sheet No. 54K
Original Sheet No. 54L
Original Sheet No. 54M

Kentuckly West states that the tariff sheets filed herein contain its interim system-wide pro rata gas supply curtailment plan and are being filed in compliance with ordering Paragraph (D) of the Commission's Order issued October 31, 1988, in Docket Nos. TC88–8–000 and TC88–8–001.

Kentucky West has requested that the Commission authorize the tendered tariff sheet to become effective December 1, 1988. Kentucky West further requests waiver of the Commission's Regulations to permit the December 1, 1988 effective date.

Kentucky West states that copies of this filing have been served on all parties to this proceeding and on each of Kentucky West's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 22, 1988, to file with the Regulatory Commission, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 or 385.214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. TQ89–1–40–000]

Raton Gas Transmission Co.; Filing

Issued December 12, 1988.

Take notice that on December 2, 1988, Raton Gas Transmission Company (Raton) filed Eleventh Revised Sheet No. 4 to its FERC Gas Tariff, Original Volume No. 1.

Raton states that this filing is its first Quarterly PGA filing and reflects a Demand reduction by supplier of $0.01 per MCF and a Commodity increase of 4.98 cents per MCF to track supplier, Colorado Interstate Gas Company, current filing to be effective January 1, 1989.

Raton states that a copy of this filing has been mailed to its customers.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.214, 385.211 (1988)). All such motions or protests should be filed on or before December 19, 1988. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717–01–M

[Docket No. RP89–41–000]

Southern Natural Gas Co.; Proposed Changes to FERC Gas Tariff

Issued December 12, 1988.

Take notice that on December 2, 1988, Southern Natural Gas Company ("Southern") tendered for filing the following revised tariff sheets to its FERC Gas Tariff, Sixth Revised Volume No. 1, to be effective January 1, 1989:

Second Revised Sheet No. 33
Third Revised Sheet No. 34
Third Revised Sheet No. 35
Third Revised Sheet No. 36
First Revised Sheet No. 36A

Southern states that the purpose of the filing is to revise those Sections to Southern's General Terms and Conditions to its gas sales tariff which set forth the procedures by which Southern measures gas for its customers. Southern states that it is currently in the process of installing electronic flow computers at various meter stations on its system to replace the existing chart measurement equipment. For this reason, Southern has revised sections 4 and 5 of the General Terms and Conditions to its Tariff to incorporate measurement by electronic flow computation.

Southern states that copies of the filing were mailed to all of Southern's jurisdictional purchasers, shippers, and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure (§§ 385.214, 385.211). All such motions or protests should be filed on or before December 19, 1988. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. PR82–114–013]

Williams Natural Gas Co.; Proposed Changes in FERC Gas Tariff

Issued December 12, 1988.

Take notice that on December 5, 1988, Williams Natural Gas Company (WNG) tendered for filing revised tariff sheets to its FERC Gas Tariff.

WNG submits that the sheets are filed in compliance with the Commission's order of November 4, 1988 in this docket. WNG proposes that the tariff changes ordered by the Commission which are not related to thermal billing be made effective on January 1, 1989 and that the thermal billing changes be made effective on June 1, 1989.

WNG states that copies of the filing were mailed to all of WNG's jurisdictional customers, and interested state commissions, as well as the parties listed on the Commission's official service list compiled in this proceeding.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with the Commission's Rules of Practice and Procedure (18 CFR 385.211 of 385.214). All such motions or protest should be filed on or before December 19, 1988. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file

with the Commission and are available for public inspection.

Colorado Interstate Gas Co.; Compliance of Filing

December 13, 1988.

Take note that on November 16, 1988, Colorado Interstate Gas Company "(CIG") submitted for filing the following tariff sheets of its Second Revised Volume No. 1-A Transportation Tariff in compliance with the Commission's November 1, 1988 order in these dockets:

Substitute Original Sheet No. 26
Substitute Original Sheet No. 27

CIG states that these sheets comply with the requirement that CIG modify its "open access" tariff.

Copies of this filing are being served on all jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.214 and 385.211). All such motions or protests should be filed on or before December 20, 1988. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of the filing are on file with the Commision and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. SA89-1-000]

Barbara T. Fasken, Individually and as Independent Executrix of the Estate of David Fasken, deceased; Petition for Adjustment

December 14, 1988.

On November 17, 1988, Barbara T. Fasken, (Petitioner) filed with the Commission a petition for adjustment pursuant to section 502(c) of the Natural Gas Policy Act of 1978 (NGPA). The petition seeks to establish entitlement to NGPA section 108 stripper well prices collected for sales of gas from four wells operated by Petitioner located in the North Indian Basin Field, Eddy County, New Mexico, *i.e.*, the Indian Hills Unit Com. "A" No. 6 Well, the Skelly Federal Com. No. 1 Well, the Shell Federal Com. No. 1 Well, and the Ross Federal Com. No. 1 Well. The purchaser of the gas is Natural Gas Pipeline Company of America.

Petitioner states that the four wells have all been previously qualified as NGPA section 108 stripper wells. The request for relief relates to various periods from 1983 to 1988 during which their production exceeded the maximum quantities prescribed for stripper wells. Petitioner argues that it is entitled to stripper well prices collected during these periods [1] because the excess production was the result of recognized enhanced recovery techniques which qualified such production for stripper well prices under NGPA section 108(b)(1). Petitioner further asserts that the cost and revenue data submitted in support of the petition demonstrate that the denial of adjustment relief would result in out-of-pocket losses, inequity, and hardship.

On January 28, 1988, Petitioner filed with the Bureau of Land Management, Department of Interior (BLM), a petition for continuance of collection of the above stripper well prices for all the wells on the basis of use of enhanced recovery techniques, as provided for in § 271.805(e) of the Commission's regulations. BLM granted the petition, but effective only prospectively from its filing date. The determination is subject to Commission review.

Petitioner requests adjustment or waiver of the requirements of § 271.805(f) of the regulations which provide that a petition for enhanced recovery status must be filed within 150 days of the last day of the 90-day period of increased production in order for stripper well collections to continue without interruption, subject to refund. Petitioner states that the delay in filing the January 28, 1988 request was the result of management problems, compounded by the death of her husband, David Fasken in 1982. She states she was a newcomer to the oil and gas business with no direct control or real involvement in her husband's business at the time the enhanced recovery filings should have been made and that she made the filings within three weeks of learning of the error.

The procedures applicable to the conduct of this adjustment proceeding are found in Subpart K of the Commission's Rules of Practice and Procedure. Any person desiring to participate in this adjustment proceeding must file a motion to intervene in accordance with the provisions of Subpart K. All motions to intervene must be filed within 30 days after publication of this notice in the **Federal Register**. The petition is on file with the Commission and is available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 88-29102 Filed 12-16-88; 8:45 am]

BILLING CODE 6717-01-M

[1] Petitioner collected 108 prices during these periods, but has refunded to Natural, over protest, a sum of money which she states constitutes the disputed portion of such collections.

[Docket Nos. RP88-165-001 and TQ88-2-4-001]

Granite State Gas Transmission, Inc.; Proposed Changes in Rates

December 14, 1988.

Take notice that on December 7, 1988, Granite State Gas Transmission, Inc. (Granite State), 120 Royall Street, Canton, Massachusetts 02021 tendered for filing with the Commission Second Substitute Eighth Substitute Twenty-First Revised Sheet No. 7 in its FERC Gas Traffic, First Revised Volume No. 1 containing changes in rates for its wholesale jurisdictional services for effectiveness on July 1, 1988.

According to Granite State, the proposed rates on Second Substitute Eighth Substitute Twenty-First Revised Sheet No. 7 would be effective for a 35 day rate period from July 1 through August 4, 1988 and would avoid back billing its customers, Bay State Gas Company (Bay State) and Northern Utilties Inc. (Northern Utilities) for substantial amounts. It is stated that Granite State earlier filed a purchased gas cost adjustment for effectiveness on July 1, 1988 and that, as a result of letter orders of the Director of Pipeline and Producer Regulation, the filing was revised in a compliance filing submitted July 27, 1988, which was accepted October 28, 1988. Granite State further states that the projected gas costs for the period beginning July 1 that were reflected in the rates in the revised tariff sheet in the compliance filing were higher than the gas costs embedded in the rates initially filed for effectiveness on that date. It is stated that the purpose of the instant filing is to reverse the effect of the Current Adjustment stated in the rates for July 1, 1988 effectiveness

on the tariff sheet included in the compliance filing. According to Granite State this proposal will avoid the need for back billing Bay State $74,348.48 and Northern Utilities $27,410.06 for the 35 day rate period from July 1, 1988 through August 4, 1988. Granite State further states that acceptance of its proposal will have no effect on later filed purchased gas cost adjustments.

According to Granite State copies of its filing were served upon its customers, Bay State and Northern Utilities, and the regulatory commissions of the States of Maine, Massachusetts and New Hampshire.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Sections 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before December 21, 1988. Protests will be considered by the Commission in determing the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 88-29103 Filed 12-16-88; 8:45 am]

BILLING CODE 6717-01-M

[Docket Nos. TA89-1-4-002 and TM89-2-4-001]

Granite State Gas Transmission, Inc.; Proposed Changes in Rates

December 14, 1988.

Take notice that on December 8, 1988, Granite State Gas Transmission, Inc. (Granite State), 120 Royall Street, Canton, Massachusetts 02021 tendered for filing with the Commission Substitute Thirteenth Substitute Twenty-First Revised Sheet No. 7 in its FERC Gas Tariff, First Revised Volume No. 1, containing changes in rates for its jurisdictional wholesale services for effectiveness on January 1, 1989. In the same filing, Granite State tendered Substitue Sixteenth Revised Sheet No. 8 and Substitute Seventeenth Revised Sheet No. 8 containing changes in rates for a storage service under its Rate Schedule GSS in its FERC Gas Tariff for effectiveness on October 1, 1988 and January 1, 1989.

According To Granite State, on November 8, 1988, if filed its first annual purchased gas cost adjustment under the revised regulations prescribed in Order Nos. 483 and 483-A. Granite State further states that the instant filing corrects an error in the Rate Schedule CD-1 rates and revises the data pertinent to the assessment of past performance included in the prior filing. The result of the revised data concerning the assessment of past performance shows that actual purchase costs exceeded 103 percent of projected gas costs for sales to Bay State Gas Company for the month of June, 1988, according to Granite State.

Granite State further states that the revised tariff sheets applicable to its Rate Schedule GSS service are submitted to track correctly the relevant charges in CNG Transmission Corporation's Rate Schedule GSS charges, effective October 1, 1988 and January 1, 1989.

According to Granite State copies of its filing were served upon its customers, Bay State and Northern Utilities, Inc. and the regulatory commissions of the States of Maine, Massachusetts and New Hampshire.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 835 North Capitol Street, NE., Washington, DC 20426, in accordance with sections 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before December 31, 1988. Protests will be considered by the commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. RP88-94-012]

Natural Gas Pipeline Co. of America; Compliance Filing

December 14, 1988.

Take notice that on December 7, 1988, Natural Gas Pipeline Company of America (Natural) submitted for filing Substitute First Revised Sheet Nos. 169 and 170 to be a part of its FERC Gas Tariff, Third Revised Volume No. 1, to be effective December 1, 1988.

Natural states that the filing is made in compliance with the Commission's Order Accepting and Suspending Tariff Sheets Subject to Refund and Subject to Conditions and Establishing a Hearing issued on November 30, 1988 under Docket No. RP88-94-010 (Order). The Order required that Natural submit revised tariff sheets which separate the interest calculations for Natural's initial and subsequent filings to recover take-or-pay buyout and buydown and contract reformation costs (transition costs) under an Order No. 500 mechanism. By Order, Natural will not be permitted to recover interest on the transition costs related to the subsequent filing which were accrued prior to the effective date of the tariff sheets designed to recover those costs.

Natural states its compliance filing includes revised tariff sheets and workpapers which reflect removal of the interest on the transition costs included in the subsequent filing related to the period prior to December 1, 1988. Natural requests that the Commission grant any waivers it deems necessary to allow the tariff sheets to become effective December 1, 1988.

A copy of the filing was mailed to Natural's jurisdictional customers, interested state regulatory agencies, and all parties set out on the official service list in Docket No. RP88-94-000.

Any person desiring to be heard or to protest the subject filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with 18 CFR 385.214 and 385.211. All such motions or protests must be filed on or before December 21, 1988. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. GP89-22-000]

Natural Gas Pipeline Co. of America; Petition to Reopen and Vacate Final Well Determinations

December 14, 1988.

On November 28, 1988, Natural Gas Pipeline Company of America (Natural)

filed a petition requesting the Commission to reopen and vacate determinations that three wells operated by Barbara Fasken or her predecessors in interest (Fasken) qualify as stripper wells under section 108 of the Natural Gas Policy Act of 1978. The determinations, obtained by David Fasken, deceased husband of Barbara Fasken, are on the following wells located in North Indian Basin Field, Eddy County, New Mexico:

Well name	FERC control No.	Date of original well determination filing
Ross Federal Com. No. 1 Well.	JD84-28150	02/01/84
Shell Federal Com. No. 1 Well.	JD82-56680	05/19/82
Indian Hills Com. No. 6 Well.	JD84-23775	12/08/83

Natural is the purchaser of gas produced from these wells.

Natural alleges that in the applications for the section 108 determinations Fasken (1) understated average production per production day by counting as production days days when the wells were voluntarily shut-in by Fasken, (2) understated production of the wells for periods of around one year prior to filing the applications by omitting to report some volumes, and by allocating production for the Ross, Shell, or Indian Hills wells to other wells, and (3) represented that enhanced recovery techniques had not been previously used on the wells, when compressors had previously been used for that purpose.

Section 275.205(a) provides for reopening well determinations where in making such determination the Commission or the jurisdictional agency relied on any untrue statement of material fact or where a necessary statement of material fact was omitted. Natural states that the Ross, Shell, and Indian Hills wells would not have qualified as stripper wells but for the alleged misrepresentations and omissions in the applications. Natural asserts that as purchaser of the gas from these wells, it has been aggrieved and adversely affected by the determinations because Fasken was not entitled to receive the stripper well price for the gas from these wells.

Any person desiring to be heard or to protest this petition should file a motion to intervene or protest in accordance with Rules 214 or 211 of the Commission's rules of practice and procedure. All motions to intervene or protests should be submitted to the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, not later than 30 days following publication of this notice in the **Federal Register**. All protests will be considered by the Commission, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene in accordance with Rule 214. Copies of Natural's petition are on file with the Commission and available for public inspection.

Lois D. Cashell,

Secretary.

[FRL-3949-3]

Agency Information Collection Activities Under OMB Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OBM) for review and is available to the public for review and comment. The ICR describes the nature of the information collection and its expected cost and burden; where appropriate, it includes the actual data collection instrument.

FOR FURTHER INFORMATION CONTACT: Sandy Farmer at EPA, (202) 382-2740.

SUPPLEMENTARY INFORMATION:

Office of Air And Radiation

Title: National Residential Radon Survey Pretest. (EPA ICR # 1396.) New collection.

Abstract: A survey of 60 residences is being conducted to pretest the questionnaire which will be used in the National Residential Radon Survey. Residents of private homes, as well as apartment dwellers, will be asked questions regarding building characteristics, occupancy patterns, and smoking habits. The response is voluntary and the results of the pretest will be used to evaluate potential problems with the questionnaire and the proper placement of radon measurement devices.

Burden Statement: The estimated public burden for this collection of information is 1 hour per response.

Respondents: Home owners and apartment dwellers.

Estimated No. of Respondents: 60.

Estimated Total Burden on Respondents: 60 hours.

Frequency of Collections: One time only.

To obtain a copy of the ICR package contact Sandy Farmer on (202) 382-2740).

Public comments regarding the burden estimate, or any other aspect of this collection of information, including suggestions for reducing the burden, must be received by, or prior to, February 1, 1989. Send comments to:

Sandy Farmer, U.S Environmental Protection Agency, Information Policy Branch (PM-223), 401 M Street SW., Washington, DC 20460,

and

Nicolas Garcia, Office of Management and Budget, Office of Information and Regulatory Affairs, 726 Jackson Place NW., Washington, DC 20503, (Telephone (202) 395-3084).

SUPPLEMENTARY INFORMATION:

Office of Pesticides and Toxic Substances

Title: Notice of Supplemental Registration of a Distributor (EPA ICR # 0278); OMB # 2070-0044). This is a renewal of a previously approved collection.

Abstract: Any person who wishes to distribute a Federally registered pesticide product must notify EPA by submitting a "Notice of Supplemental Registration of a Distributor," as required by the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). This notice must be jointly prepared by the distributor and the registrant of the product.

Burden Statement: The average burden for each respondent who must submit a notification to EPA for supplemental registration of a pesticide product is estimated to be 15 minutes. This includes time for reviewing the instructions, recording the required information on the EPA-designated reporting form, as well as maintaining proper records.

Respondents: Any person may participate in this program by submitting a completed "Notice of Supplemental Registration of a Distributor" (Form 8570-5) to the Agency. Respondents are expected to be persons and/or business facilities in Standard Industrial Classification (SIC) codes 286-287.

Estimated No. of Respondents: 13,000 annually.

Estimated Total Annual Burden on Respondents: 3,250 hours.

Frequency of Collection: Once per event.

To obtain a copy of the ICR package contact Sandy Farmer on (202) 382-2740.

Send comments regarding the burden estimate, or any other aspect of this collection of information, including suggestions for reducing the burden, to:

Approval of Prevention of Significant Air Quality Deterioration (PSD) Permit to Mojave Cogeneration Co., L.P. (Formerly U.S. Borax & Chemical Corp.)

AGENCY: Environmental Protection Agency (EPA), Region 9.

ACTION: Notice.

SUMMARY: Notice is hereby given that on December 6, 1988, the Environmental Protection Agency approved an 18-month extension of a PSD permit issued on February 20, 1987 under EPA's federal regulations 40 CFR 52.21 to the applicant named above. The PSD permit grants approval to construct a 45 MW (gross) gas turbine combined-cycle cogeneration facility to be located at the existing U.S. Borax Refinery in Boron, California. The permit is subject to certain conditions, including allowable emission rates as follows:

Pollutant	Emission limit (lbs/hr, 3-hour average)	
	Gas-firing	Oil-firing
NO_x, the more stringent of.	18 (or 10 ppm @ 15% O_2, dry).	74 (or 40 ppm @ 15% O_2, dry).
SO_2	0	102 (or 24 ppm @ 15% O_2, dry).
CO	23	30.
PM	12	17.5.
HC	1.5	3.0.

FOR FURTHER INFORMATION CONTACT: Copies of the permit are available for public inspection upon request; address request to: Linda Barajas (A-3-1), U.S. Environmental Protection Agency, Region 9, 215 Fremont Street, San Francisco, CA 94105, (415) 974-8221, FTS 454-8221.

SUPPLEMENTARY INFORMATION: Best Available Control Technology (BACT) requirements include the use of steam or water injection and a Selective Catalytic Reduction (SCR) system on the gas turbine for the control of NO_x emissions.

DATE: The PSD permit is reviewable under section 307(b)(1) of the Clean Air Act only in the Ninth Circuit Court of Appeals. A petition for review must be filed on or before February 17, 1989.

Date: December 12, 1988.

David P. Howekamp,

Director, Air Management Division, Region 9.

Pesticides Products Containing Sodium Fluoroacetate (Compound 1080)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of objections and request for hearing.

Notice is hereby given, pursuant to § 164.8 of the Rules of Practice, 40 CFR 164.8 promulgated under the Federal Insecticides, Fungicide, and Rodenticide Act, as amended, 7 U.S.C. 136 *et seq.*, that certain registrants have filed objections to and have requested a hearing on the Administrator's notice of intent to cancel the registrations for pesticides products containing sodium fluoroacetate published in the **Federal Register** on October 12, 1988, 53 FR 39792. These proceedings have been consolidated for hearing by order of the Chief Administrative Law Judge dated November 16, 1988.

For information concerning the issues involved and other details of these proceedings, interested persons are referred to the dockets of these

proceedings on file with the Hearing Clerk, Environmental Protection Agency, (Mail Code A–110); Room 3708, Waterside Mall, 401 M Street, SW., Washington, DC 20460. (202–382–4865).

Dated: December 9, 1988.

BILLING CODE 6560–50–M

[FRL–3494–1]

Candidates for Regulatory Negotiation

This notice announces that the Environmental Protection Agency is seeking additional regulatory negotiation candidates. Regulatory negotiation is a supplemental approach to developing proposed rules that brings affected parties, including the Agency, together to see if they can reach consensus on how to address the environmental issues. EPA is committed to using any consensus reached—if within its statutory authority—as the basis of its proposed rulemaking.

Readers are invited to suggest EPA regulations which are in the pre-proposal stage as candidates for regulatory negotiation. In preparing their suggestions, readers should refer to section A of this notice which describes how to select rules most likely to be amenable to negotiation. If possible, please include a reference to the relevant statute and, if the rule is listed in the October EPA Regulatory Agenda (53 FR 42492 October 24, 1988), please list the SAR number as reference. Please send suggestions within 30 days of the date of this notice to: Chris Kirtz, Regulatory Negotiation Project, U.S. Environmental Protection Agency, 401 M Street SW., PM–223, Washington, DC 20460, (202) 382–7565.

EPA will evaluate each suggestion carefully and will advise the nominator regarding our assessment of the item's suitability for negotiation or development via some other consensual processes.

A. Criteria for Selecting a Rule for Negotiation

EPA is open to nomination of rules at the pre-proposal state of rulemaking involving any environmental statute administered by EPA. In evaluating possible rules to suggest to EPA, you may find it helpful to ask the following questions. If you can answer yes to these questions, then the rule may be appropriate for regulatory negotiation.

1. Can the interested parties resolve the issues without compromising fundamental questions of value or principle?

2. Are the parties and interest sectors affected by the rule easily identifiable, reasonably limited in number, and potentially interested in good faith negotiations to resolve differences?

3. Are the issues to be discussed reasonably limited in number, and is the data base sufficient to support informed discussion?

B. Negotiated Rulemaking Proceedings

Regulatory negotiations bring together a balanced mix of parties and interests to negotiate a rule that is at the pre-proposal stage. The goal of each negotiation is to reach a consensus on which to base a Notice of Proposed Rulemaking (NPRM). Negotiations are conducted through Advisory Committees chartered under the Federal Advisory Committee Act (FACA). All procedural requirements of the Administrative Procedure Act and other applicable statutes continue to apply.

A senior official selected by the EPA office responsible for developing the rule acts as chief negotiator for EPA. Individuals representing definable interests in the regulated community, business and public interest sectors, state and local officials, and other affected stakeholders, negotiate on behalf of their constituencies. A neutral facilitator chairs the negotiations, keeps the process moving smoothly, and assists in resolving disputes.

C. EPA's Regulatory Negotiation Project

EPA established the Regulatory Negotiation Project in 1983 to explore and demonstrate the value of negotiation and other consensus-building techniques for developing better regulations which could be implemented in a less adversarial setting. Since that time, the Agency has conducted seven regulatory negotiations:

- Nonconformance Penalties under section 206(g) of the Clean Air Act, as amended. Final rule: August 30, 1985.
- Emergency Pesticide Exemptions under section 18 of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA). Final rule: January 15, 1986.
- Farmworker Protection Standards for Agricultural Pesticides. Proposed rule: July 8, 1988.
- Asbestos Containing Materials in Schools under the Asbestos Hazard Emergency Responsibility Act of 1986 (AHERA). Final rule: October 30, 1987.
- New Source Performance Standards for Woodburning Stoves under section 111 of the Clean Air Act. Final rule: February 26, 1988.
- Underground Injection of Hazardous Waste under the Hazardous and Solid Waste Amendments of 1984. Final rule: July 26, 1988.
- RCRA Minor Permit Modifications under the Resource Conservation and Recovery Act. Final rule: September 28, 1988.

In December 1986, the Program Evaluation Division of EPA's Office of Policy Planning and Evaluation, completed an assessment of the seven regulatory negotiations. The study confirmed that negotiation is especially appropriate in situations which involve the resolution of a limited number of related issues, none of which involve fundamental questions of value or extremely controversial national policy. The study further concluded that:

- Negotiated rulemaking can produce rules that are more pragmatic, and may produce better environmental results while still meeting statutory requirements.

Negotiated rules are also more likely to be acceptable to both the affected industries, the public interest sector and state and local governments involved in developing them.

- Negotiation may also result in earlier implementation of a rule by reducing the time it takes to proceed from proposed to final rulemaking.

EPA believes that the benefits to all parties of regulatory negotiation are substantial and is committed to continued use of regulatory negotiation and other consensus-based processes for rulemaking when appropriate.

D. Additional Information

Additional information on EPA's Regulatory Negotiation Project is available upon request: Regulatory Negotiation Project Descriptor, and Program Evaluation Division's Analysis of the Regulatory Negotiation Project. Copies may be obtained from: Chris Kirtz, Director, Regulatory Negotiation Project, U.S. Environmental Protection Agency, 401 M Street SW., PM–223, Washington, DC 20460 (202) 382–7565.

BILLING CODE 6560–50–M

FARM CREDIT ADMINISTRATION

Final Order Barring Claims, Discharging and Releasing the Farm Credit Bank of Louisville and Cancelling Charter of Mammoth Cave Production Credit Association

AGENCY: Farm Credit Administration.

ACTION: Notice.

On November 28,1988, the Acting Chairman of the Farm Credit Administration Board executed a Final Order barring claims against the Farm Credit Bank of Louisville (FCB) as successor to the Federal Intermediate Credit Bank of Louisville (FICB), arising out of the liquidation of Mammoth Cave Production Credit Association; discharging the FCB; and cancelling the charter of the Mammoth Cave Production Credit Association. The text of the Final Order is set forth below:

Final Order Barring Claims, Discharging and Releasing the Farm Credit Bank of Louisville and Cancelling Charter of Mammoth Cave Production Credit Association

Whereas, on August 9, 1983, the Board of Directors of the Mammoth Cave Production Credit Association (MCPCA) adopted a resolution placing MCPCA in voluntary liquidation, and a Liquidation Plan (the Plan) outlining the manner in which the liquidation was to proceed, which was approved by the Farm Credit Administration on August 18, 1983;

Whereas, pursuant to the Plan, Jack M. Gay was appointed Liquidating Agent by the FICB on August 9, 1983, and on January 1, 1984, Jeff Ivey was appointed successor Liquidating Agent of MCPCA, serving in such capacity until his resignation on October 16, 1987, and on October 20, 1987, Pamela J. Fratini was appointed successor Liquidating Agent;

Whereas, all assets of MCPCA have been disposed of in accordance with the Plan;

Whereas, MCPCA has been audited and examined, and the accounts fo MCPCA for the period August 9, 1983, through the date of this Order have been approved;

Whereas, in accordance with the Plan, all claims filed by creditors and holders of equities, except the claims of MCPCA allocated surplus holders, have been paid or provided for, including, without limitation, certain administrative expenses which the Farm Credit Bank of Louisville (as successor to the Federal Intermediate Credit Bank of Louisville) has paid; and

Whereas, all claims filed by creditors and holders of equities, including, without limitation, the claims of MCPCA allocated surplus holders, shall forever be discharged;

Now, therefore, it is hereby ordered that:

1. All claims of creditors, stockholders, and holders of participation certificates and other equities, and of any other persons and/or entities, against Mammoth Cave Production Credit Association, or, to the extent arising out of the actions of the Federal Intermediate Credit Bank of Louisville or its successor, the Farm Credit Bank of Louisville, in carrying out the Liquidation Plan of Mammoth Cave Production Credit Association, as approved by the Farm Credit Administration on August 18, 1983, against the Federal Intermediate Credit Bank of Louisville, the Farm Credit Bank of Louisville and the Liquidating Agents, are hereby forever discharged, and the commencement of any action, the employment of any process, or any other act to collect, recover or offset any such claims are hereby forever barred.

2. The accounts of the Mammoth Cave Production Credit Association for the period August 9, 1983, through the date of this Order are hereby approved.

3. The Farm Credit Bank of Louisville is hereby finally discharged and released from all responsibility or liability to the Farm Credit Administration or any other person or entity arising out of, related to, or in any manner connected with the administration and liquidation of Mammoth Cave Production Credit Association during the period August 9, 1983 through the date of this Order. The discharge and release of the Liquidating Agents by the Farm Credit Bank of Louisville is hereby approved.

4. The charter of Mammoth Cave Production Credit Association is hereby cancelled.

Signed November 28, 1988.
Farm Credit Administration Board.
Marvin Duncan,
Acting Chairman.

Dated: December 13, 1988.
Farm Credit Administration.
David A. Hill,
Secretary, Farm Credit Administration Board.

BILLING CODE 6705–01–M

FEDERAL EMERGENCY MANAGEMENT AGENCY

Agency Information Collection Submitted to the Office of Management and Budget for Clearance

The Federal Emergency Management Agency (FEMA) has submitted to the Office of Management and Budget the following information collection package for clearance in accordance with the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Type: New Collection.

Title: Open Learning Fire Service Program (OLFSP) Course Evaluation.

Abstract: The Open Learning Fire Service Program (OLFSP) Course Evaluation form will be used in the National Fire Academy's independent study baccalaureate degree program. The form will be used to assess the effectiveness of the course materials, instructor interaction and program administration. The introduction/demographic information will be used in developing an overall needs assessment.

Type of Respondents: Individuals or households.

Estimate of Total Annual Reporting and Recordkeeping Burden: 660.

Number of Respondents: 2,000.

Estimated Averge Burden Hours Per Response: .33.

Frequency of Response: Quarterly; Semi-annually.

Copies of the above information collection request and supporting documentation can be obtained by calling or writing the FEMA Clearance Officer, Linda Shiley, (202) 646–2624, 500 C Street, SW., Washington, DC 20472.

Direct comments regarding the burden estimate or any aspect of this information collection, including suggestions for reducing this burden, to the FEMA Clearance Officer at the above address; and to Francine Picoult, (202) 395–7231, Office of Management and Budget, 3235 NEOB, Washington, DC 20503 within two weeks of this notice.

Date: December 12, 1988.
Wesley C. Moore,
Director, Office of Administrative Support.

BILLING CODE 6718–01–M

FEDERAL MARITIME COMMISSION

Notice of Agreement(s) Filed

The Federal Maritime Commission hereby gives notice of the filing of the following agreement(s) pursuant to section 5 of the Shipping Act of 1984.

Interested parties may inspect and obtain a copy of each agreement at the Washington, DC Office of the Federal Maritime Commission, 1100 L Street, NW., Room 10325. Interested parties may submit comments on each agreement to the Secretary, Federal Maritime Commission, Washington, DC 20573, within 10 days after the date of the **Federal Register** in which this notice appears. The requirements for comments are found in § 572.603 of Title 46 of the Code of Federal Regulations. Interested persons should consult this section before communicating with the

Commission regarding a pending agreement.

Agreement No.: 224–200197.

Title: Virginia International Terminals Terminal Agreement.

Parties: Virginia International Terminals (VIT) Atlantic Container Line (ACL).

Synopsis: The agreement provides for a terminal use agreement whereby ACL guarantees movement of 300,000 tons during each year of a 3 year period through VIT's Portsmouth Marine Terminal and VIT in turn grants to ACL wharfage and crane rental charges different from those contained in Terminal Operators Conference of Hampton Roads Terminal Tariff No. 2, as amended.

By Order of the Federal Maritime Commission.

Dated: December 14, 1988.

Joseph C. Polking,

Secretary.

BILLING CODE 6730–01–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 88N–0425]

Drug Export; Haemophilus B Conjugate Vaccine

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that Connaught Laboratories, Inc., has filed an application requesting approval for the export of the biological product Haemophilus b Conjugate Vaccine to Iceland.

ADDRESS: Relevant information on this application may be directed to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, and to the contact person identified below. Any future inquiries concerning the export of human biological products under the Drug Export Amendments Act of 1986 should also be directed to the contact person.

FOR FURTHER INFORMATION CONTACT: Boyd Fogle, Jr., Center for Biologics Evaluation and Research (HFB–120), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–295–8191.

SUPPLEMENTARY INFORMATION: The Drug Export Amendments Act of 1986 (Pub. L. 99–660) (section 802 of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 382)) provides that FDA may approve applications for the export of drugs that are not currently approved in the United States. The approval process is governed by section 802(b) of the act. Section 802(b)(3)(B) of the act sets forth the requirements that must be met in an application for approval. Section 802(b)(3)(C) of the act requires that the agency review the application within 30 days of its filing to determine whether the requirements of section 802(b)(3)(B) have been satisfied. Section 802(b)(3)(A) of the act requires that the agency publish a notice in the **Federal Register** within 10 days of the filing of an application for export to facilitate public participation in its review of the application. To meet this requirement, the agency is providing notice that Connaught Laboratories, Inc., Route 611, P.O. Box 187, Swiftwater, PA 18370, has filed an application requesting approval for the export of the biological product Haemophilus b Conjugate Vaccine, to Iceland. The Haemophilus b Conjugate Vaccine will be administered to children attaining the ages of 3, 4, and 6 months as a prophylaxis against serious systemic bacterial diseases, such as bacterial meningitis, sepsis, and epiglottitis. The application was received and filed in the Center for Biologics Evaluation and Research on November 22, 1988, which shall be considered the filing date for purposes of the act.

Interested persons may submit relevant information on the application to the Dockets Management Branch (address above) in two copies (except that individuals may submit single copies) and identified with the docket number found in brackets in the heading of this document. These submissions may be seen in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

The agency encourages any person who submits relevant information on the application to do so by December 29, 1989, and to provide an additional copy of the submission directly to the contact person identified above, to facilitate consideration of the information during the 30-day review period.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (sec. 802, Pub. L. 99–660 (21 U.S.C. 382)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated under 21 CFR 5.44.

Dated: November 30, 1988.

Thomas S. Bozzo,

Director, Office of Compliance, Center for Biologics Evaluation and Research.

[FR Doc. 88–29028 Filed 12–16–88; 8:45 am]

BILLING CODE 4160–01–M

[Docket No. 88M–0368]

Abbott Laboratories; Premarket Approval of Abbott ER–EIA Monoclonal

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing its approval of the application by Abbott Laboratories, Abbott Park, IL, for premarket approval under the Medical Device Amendments of 1976, of the Abbott ER–EIA Monoclonal. After reviewing the recommendation of the Clinical Chemistry and Clinical Toxicology Devices Panel, FDA's Center for Devices and Radiological Health (CDRH) notified the applicant, by letter of October 17, 1988, of the approval of the application.

DATE: Petitions for administrative review by January 18, 1989.

ADDRESS: Written requests for copies of the summary of safety and effectiveness data and petitions for administrative review to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Kaiser Aziz, Center for Devices and Radiological Health (HFZ–440), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301–427–7550.

SUPPLEMENTARY INFORMATION: On March 23, 1987, Abbott Laboratories, Abbott Park, IL 60064, submitted to CDRH an application for premarket approval of the Abbott ER–EIA Monoclonal. The device is an estrogen receptor (ER) immunological test system as an aid in the management of breast cancer patients. It is an in vitro device for the quantitative measurement of estrogen receptor (ER) in tissue cytosol to be used as an aid in assessing the likelihood of response to hormonal therapy and in the management of breast cancer patients.

On August 15, 1988, the Clinical Chemistry and Clinical Toxicology Devices Panel, an FDA advisory committee, reviewed and recommended approval of the application. On October 17, 1988, CDRH approved the application by a letter to the applicant from the Acting Director of the Office of Device Evaluation, CDRH.

A summary of the safety and effectiveness data on which CDRH based its approval is on file in the Dockets Management Branch (address above) and is available from that office upon written request. Requests should

BEST COPY AVAILABLE

be identified with the name of the device and the docket number found in brackets in the heading of this document.

A copy of all approved labeling is available for public inspection at CDRH—contact Kaiser Aziz (HFZ–440), address above.

Opportunity for Administrative Review

Section 515(d)(3) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 360e(d)(3)) authorizes any interested person to petition, under section 515(g) of the act (21 U.S.C. 360e(g)), for administrative review of CDRH's decision to approve this application. A petitioner may request either a formal hearing under Part 12 (21 CFR Part 12) of FDA's administrative practices and procedures regulations or a review of the application and CDRH's action by an independent advisory committee of experts. A petition is to be in the form of a petition for reconsideration under § 10.33(b) (21 CFR 10.33(b)). A petitioner shall identify the form of the review requested (hearing or independent advisory committee) and shall submit with the petition supporting data and information showing that there is a genuine and substantial issue of material fact for resolution through administrative review. After reviewing the petition, FDA will decide whether to grant or deny the petition and will publish a notice of its decision in the **Federal Register**. If FDA grants the petition, the notice will state the issue to be reviewed, the form of the review to be used, the persons who may participate in the review, the time and place where the review will occur, and other details.

Petitioners may, at any time or before January 18, 1989, file with the Dockets Management Branch (address above) two copies of each petition and supporting data and information, identified with the name of device and the docket number found in brackets in the heading of this document. Received petitions may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (secs. 515(d), 520(h), 90 Stat. 554–555, 571 (21 U.S.C. 360e(d), 360j(h)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Director, Center for Devices and Radiological Health (21 CFR 5.53).

Dated: December 12, 1988.

Walter E. Gundaker,

Director, Office of Compliance, Center for Devices and Radiological Health.

BILLING CODE 4160–01–M

[Docket No. 88M–0384]

IOPTEX Research, Inc.; Premarket Approval of Model UV304–01 (ULTRA C–LOOP) Ultraviolet-Absorbing Posterior Chamber Intraocular Lens

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing its approval of the application by IOPTEX Research, Inc., Azusa, CA, for premarket approval, under the Medical Device Amendments of 1976, of the Model UV304–01 (Ultra C-Loop) Ultraviolet-Absorbing Posterior Chamber Intraocular Lens. After reviewing the recommendation of the Ophthalmic Devices Panel, FDA's Center for Devices and Radiological Health (CDRH) notified the applicant, by letter of October 17, 1988, of the approval of the application.

DATE: Petitions for administrative review by January 18, 1989.

ADDRESS: Written requests for copies of the summary of safety and effectiveness data and petitions for administrative review to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Nancy C. Brogdon, Center for Devices and Radiological Health (HFZ–460), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301–427–8261.

SUPPLEMENTARY INFORMATION: On January 5, 1988, IOPTEX Research Inc., Azusa, CA 91702–1375, submitted to CDRH an application for premarket approval of the Model UV304–01 (Ultra C-Loop) Ultraviolet-Absorbing Posterior Chamber Intraocular Lens. The device is intended to be used for primary implantation for the visual correction of aphakia in patients 60 years of age and older where a cataractous lens has been removed by extracapsular cataract extraction methods. It is intended for placement in either the ciliary sulcus or capsular bag. The device is available in a range of powers from 5 diopters (D) through 33 D in 0.5 D increments.

On June 20, 1988, the Ophthalmic Devices Panel, an FDA advisory committee, reviewed and recommended approval of the application. On October 17, 1988, CDRH approved the application by a letter to the applicant from the Acting Director of the Office of Device Evaluation, CDRH.

A summary of the safety and effectiveness data on which CDRH based its approval is on file in the Dockets Management Branch (address above) and is available from that office upon written request. Requests should be identified with the name of the device and the docket number found in brackets in the heading of this document.

A copy of all approved labeling is available for public inspection at CDRH—contact Nancy C. Brogdon (HFZ–460), address above.

Opportunity for Administrative Review

Section 515(d)(3) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 360e(d)(3)) authorizes any interested person to petition, under section 515(g) of the act (21 U.S.C. 360e(g)), for administrative review of CDRH's decision to approve this application. A petitioner may request either a formal hearing under Part 12 (21 CFR Part 12) of FDA's administrative practices and procedures regulations or a review of the application and CDRH's action by an independent advisory committee of experts. A petition is to be in the form of a petition for reconsideration under § 10.33(b) (21 CFR 10.33(b)). A petitioner shall identify the form of review requested (hearing or independent advisory committee) and shall submit with the petition supporting data and information showing that there is a genuine and substantial issue of material fact for resolution through administrative review. After reviewing the petition, FDA will decide whether to grant or deny the petition and will publish a notice of its decision in the **Federal Register**. If FDA grants the petition, the notice will state the issue to be reviewed, the form of review to be used, the persons who may participate in the review, the time and place where the review will occur, and other details.

Petitioners may, at any time on or before January 18, 1989, file with the Dockets Management Branch (address above) two copies of each petition and supporting data and information, identified with the name of the device and the docket number found in brackets in the hearing of this document. Received petitions may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (secs. 515(d), 520(h), 90 Stat. 554–555, 571 (21 U.S.C. 360e(d), 360j(h))) and under

authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Director, Center for Devices and Radiological Health (21 CFR 5.53).

Dated: December 12, 1988.

Walter E. Gundaker,

Director, Office of Compliance, Center for Devices and Radiological Health.

[FR Doc. 88-29047 Filed 12-16-88; 8:45 am]

BILLING CODE 4160-01-M

[Docket No. 88M-0364]

Howmedica, Inc.; Premarket Approval of P.C.A.™ Total Knee System

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing its approval of the application by Howmedica, Inc., Rutherford, NJ, for premarket approval under the Medical Device Amendments of 1976, of the P.C.A.™ Total Knee System. After reviewing the recommendation of the Orthopedic and Rehabilitation Devices Panel, FDA's Center for Devices and Radiological Health (CDRH) notified the applicant, by letter of September 30, 1988, of the approval of the application.

DATE: Petitions for administrative review by January 18, 1989.

ADDRESS: Written requests for copies of the summary of safety and effectiveness data and petitions for administrative review of the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Thomas J. Callahan, Center for Devices and Radiological Health (HFZ-410), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301-427-7156.

SUPPLEMENTARY INFORMATION: On August 13, 1985, Howmedica, Inc., Rutherford, NJ 07070, submitted to CDRH an application for premarket approval of the P.C.A.™ Total Knee System. The device is indicated for noncemented use in skeletally mature individuals undergoing primary surgery for rehabilitating knees damaged as a result of osteoarthritis and rheumatoid arthritis. Regulatory review of safety and effectiveness data for the cemented use of the P.C.A.™ Total Knee System is not required at this time, because use of the device with bone cement has been found to be substantially equivalent to a generic type of device marketed in interstate commerce prior to May 28, 1976 (see CFR 888.3560).

On January 22, 1988, the Orthopedic and Rehabilitation Devices Panel, an FDA advisory committee, reviewed and recommended approval of the application. On September 30, 1988, CDRH approved the application by a letter to the applicant from the Acting Director of the Office of Device Evaluation, CDRH.

A summary of the safety and effectiveness data on which CDRH based its approval is on file in the Dockets Management Branch (address above) and is available from that office upon written request. Requests should be identified with the name of the device and the docket number found in brackets in the heading of this document.

A copy of all approved labeling is available for public inspection at CDRH—contact Thomas J. Callahan (HFZ-410), address above.

Opportunity for Administrative Review

Section 515(d)(3) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 360e(d)(3)) authorizes any interested person to petition, under section 515(g) of the act (21 U.S.C. 360e(g)), for administrative review of CDRH's decision to approve this application. A petitioner may request either a formal hearing under Part 12 (21 CFR Part 12) of FDA's administrative practices and procedures regulations or a review of the application and CDRH's action by an independent advisory committee of experts. A petition is to be in the form of a petition for reconsideration under § 10.33(b) (21 CFR 10.33(b)). A petitioner shall identify the form of review requested (hearing or independent advisory committee) and shall submit with the petition supporting data and information showing that there is a genuine and substantial issue of material fact for resolution through administrative review. After reviewing the petition, FDA will decide whether to grant or deny the petition and will publish a notice of its decision in the **Federal Register**. If FDA grants the petition, the notice will state the issue to be reviewed, the form of review to be used, the persons who may participate in the review, the time and place where the review will occur, and other details.

Petitioners may, at any time on or before January 18, 1989, file with the Dockets Management Branch (address above) two copies of each petition and supporting data and information, identified with the name of the device and the docket number found in brackets in the heading of this document. Received petitions may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (secs. 515(d), 520(h), 90 Stat. 554-555, 571 (21 U.S.C. 360e(d), 360j(h))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Director, Center for Devices and Radiological Health (21 CFR 5.53).

Dated: December 12, 1988.

[Docket No. 88N-0272]

Criteria for Determining the Regulatory Status of Food and Food Ingredients Produced by New Technologies; Announcement of Closed Meetings; Announcement of Open Meeting

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that the ad hoc Expert Panel on Criteria for determining the Regulatory Status of Foods and Food Ingredients Produced by New Technologies (the Expert Panel), which was formed by the Life Sciences Research Office of the Federation of American Societies for Experimental Biology (FASEB) under a contract with FDA, will hold several closed meetings and an open meeting. The purpose of the open meeting is to obtain scientific data and information for use in FASEB's study of which scientific concepts and considerations are most appropriately used to determine the regulatory status of foods and food ingredients produced by new technologies.

DATES: The Expert Panel will hold closed meetings on Monday, January 30 and Tuesday, January 31, 1989; an open meeting on Monday, March 6, 1989; and closed meetings on Tuesday, March 7, and Wednesday, March 8, 1989, and on Monday, April 17 and Tuesday, April 18, 1989. All meetings will begin at 9 a.m. Written requests should be received by January 17, 1989. Those persons who will be unable to attend the open meeting but who wish to make a written presentation to the Expert Panel should submit such written presentations to the Dockets Management Branch (address below) by March 6, 1989.

ADDRESSES: Written requests to make oral presentations at the open meeting should be sent to the Dockets Management Branch (HFA-305), Food

and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, and the Life Sciences Research Office, Federation of American Societies for Experimental Biology, 9650 Rockville Pike, Bethesda, MD 20814. The open meeting will be held in the Chen Auditorium, Lee Bldg., FASEB (address above). The closed meetings will be held in the Federation Board Room, FASEB (same address).

FOR FURTHER INFORMATION CONTACT:

Kenneth D. Fisher,
Life Sciences Research Office,
Federation of American Societies for Experimental Biology,
9650 Rockville Pike,
Bethesda, MD 20814,
301–530–7030,
or

Center for Food Safety and Applied Nutrition (HFF–300),
Food and Drug Administration,
200 C St. SW.,
Washington, DC 20204,
202–426–8950.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of August 30, 1988 (53 FR 33182), FDA announced that FASEB, under its contract with FDA (223–88–2124), is conducting a study, by means of the Expert Panel, of which concepts and considerations are most appropriately used to determine the regulatory status of foods and food ingredients produced by new technologies. (For complete information about this study, see 53 FR 33182.) The notice advised that an open meeting of the Expert Panel would be announced in the **Federal Register**. The open meeting will be held on Monday, March 6, 1989, in the Chen Auditorium, Lee Bldg., FASEB (address above), to receive the public's views on the issues involved in this study. The Expert Panel will also meet at the same location in closed meetings on January 30 and 31, 1989; March 7 and 8, 1989; and April 17 and 18, 1989. A list of the members of the Expert Panel is available from the Dockets Management Branch and FASEB.

The Expert Panel meetings are being announced as required by 21 CFR 14.15(b)(1).

Dated: December 13, 1988.

BILLING CODE 4160–01–M

[Docket No. 88N–0401]

Emerging Food Safety and Quality Issues for the Next Decade; Announcement of Study; Request for Scientific Data and Information; Announcement of Open Meeting; Announcement of Closed Meetings

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that the Federation of American Societies for Experimental Biology (FASEB), Life Sciences Research Office, is undertaking a review and evaluation of topics and issues in food safety and food quality that FDA should consider as important scientific concerns emerging in the next decade. The study will result in a scientific report that addresses and documents the identified topics and issues. FASEB is inviting the submission of scientific data and information bearing on this topic. FASEB is also providing an opportunity for public comment at an open meeting.

DATES: The open meeting will be held on Thursday, January 12, 1989. Closed meetings will be held on Wednesday, January 11 and Friday, January 13, 1989, and Wednesday, Thursday, and Friday, March 29 through 31, 1989. All meetings will begin at 9 a.m. Written requests to make oral presentations at the open meeting must be received by December 27, 1988. Written comments, scientific data, and information may be submitted at any time, however they should be submitted as soon as possible.

ADDRESSES: Written requests to make oral presentations at the open meeting and scientific data and information should be submitted to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, and the Life Sciences Research Office, Federation of American Societies for Experimental Biology, 9650 Rockville Pike, Bethesda, MD 20814. Two copies of the scientific data, information, or written views should be submitted to each office. The open meeting will be held in the Chen Auditorium, Lee Bldg., FASEB (address above). The closed meetings will be held in the Federal Board Room, FASEB (same address).

FOR FURTHER INFORMATION CONTACT:

Kenneth D. Fisher, Life Sciences Research Office, Federation of American Societies for Experimental Biology, 96750 Rockville Pike, Bethesda, MD 20814, 301–530–7030,
or
C. William Cooper, Center for Food Safety and Applied Nutrition (HFF–3), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202–485–0265.

SUPPLEMENTARY INFORMATION: FDA has a contract (223–88–2124) with FASEB concerning the analysis of scientific issues that bear on the safety of foods and cosmetics. The objective of this contract is to provide information to FDA on general and specific issues of scientific fact associated with the safety of food and cosmetics.

FDA is announcing that it has asked FASEB, as a task under this contract, to provide FDA's Center for Food Safety and Applied Nutrition (CFSAN) with a report that: (1) Describes, evaluates, and documents topics and issues in food safety and food quality of potential concern to FDA that are expected to emerge in the next decade; (2) considers public input; and (3) recommends priorities of the anticipated issues for FDA program planning for the next decade. In response, FASEB asked its Life Sciences Research Office to appoint an ad hoc expert panel (the Expert Panel) to study this matter. The Expert Panel will report its findings to FASEB through the Life Sciences Research Office. FASEB will then evaluate these findings and submit its own report to FDA.

CFSAN has a mandate to promote and to protect the public health and has responsibility to assure a safe and wholesome food supply. Under the Federal Food, Drug, and Cosmetic Act as amended, related statutes, and Federal regulations promulgated under these laws, the agency performs various functions to carry out its mandate, including establishing regulations, providing premarket approval of food additives, establishing and conducting inspections, and performing analyses of foods. In addition, CFSAN conducts research on aspects of food safety and food quality and maintains an active training and education program on issues dealing with food safety.

In addition, CFSAN must stay abreast of the many changes brought about by advances in food and food-related technology. These changes not only affect the manner in which FDA utilizes its regulatory authority but also raise important consumer questions involving product labeling and the provision of meaningful dietary and nutritional guidance. FDA obtains and utilizes counsel from a variety of sources to identify and categorize the important issues that will affect the agency's food safety responsibilities in the remaining years of this century.

The Expert Panel will be asked to identify and discuss the concerns and issues for the future that are raised by several topics, including: (1) Implementation of the *Surgeon General's Report on Nutrition and Health;* (2) microbial safety of foods; (3) monitoring the food supply; and (4) public education about food quality and safety. The Expert Panel will also be asked to consider the roles of FDA including its use of appropriate regulatory tools of other portions of the Executive Branch; of Congress; of the private sector; and of counsumers in meeting future challenges.

The Expert Panel of scientists and science administrators who have expertise in the fields of microbiology, nutrition, toxicology, food science, and risk assessment will be assembled by the Life Sciences Research Office. Insofar as possible, the Expert Panel will represent academia, industry, consumers, professional associations, and government. Discussions by the Expert Panel will provide the basis for a report that provides CFSAN with information on issues that the food science community considers to be of primary importance in the next 10 years. A list of members of the Expert Panel is available from the Dockets Management Branch or FASEB (addresses above).

In accordance with 21 CFR 14.15(b)(1), notice is given that the Expert Panel will hold an open meeting on January 12, 1989, during which an opportunity will be provided for the public to present oral views on important issues in food safety and quality that are likely to emerge in the next decade. The Expert Panel will meet in closed executive session on January 11 and 13, 1989, and on March 29 through 31, 1989. Pursuant to the provisions of its contract with FDA, FASEB will provide the agency with a report on the issues involving food safety and food quality that the scientific community believes will be of primary importance in upcoming years. The report of the study will provide a basis for decisions on the approaches that CFSAN will consider in addressing these issues. The report will help the agency in its efforts to assure the highest degree of safety and quality for the American food supply

Dated: December 13, 1988.

Guidelines for Assessing and Managing Iron Deficiency and Anemia in Women of Childbearing Age; Announcement of Study; Request for Scientific Data and Information; Announcement of Open Meeting; Announcement of Closed Meetings

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that the Federation of American Societies for Experimental Biology (FASEB), Life Sciences Research Office, is about to begin a study to develop guidelines for FDA. The agency intends to make these guidelines available to health care providers. The purpose of the guidelines is to: (1) Help in identifying impaired iron status and anemia in women, (2) help in determining the most appropriate methods of assessment, and (3) help in selecting approaches to management of anemia in these women. FASEB is inviting the submission of scientific data, information, and views bearing on this topic. FASEB will provide an opportunity for public oral presentations at an open meeting.

DATES: The Life Sciences Research Office's ad hoc expert panel (the Expert Panel) open meeting will be held on Wednesday, January 11, 1989. Requests to make oral presentations at the open meeting must be in writing and received by January 5, 1989. The Expert Panel will also meet in closed executive sessions on Tuesday, January 10, 1989, and on Monday, March 13 and Tuesday, March 14, 1989. All meetings will begin at 9 a.m. Written presentations of scientific data, information, and views may be submitted at any time but should be submitted as soon as possible.

ADDRESSES: Written requests to make oral presentations at the open meeting and scientific data, information, and views should be submitted to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857, and the Life Sciences Research Office, Federation of American Societies for Experimental Biology, 9650 Rockville Pike, Bethesda, MD 20814. Two copies of the scientific data, information, and views should be submitted to each office. The open meeting will be held in the Chen Auditorium, Lee Bldg., FASEB (address above). The closed meetings will be in the Federation Board Room, FASEB (same address).

FOR FURTHER INFORMATION CONTACT:
Kenneth D. Fisher, Life Sciences Research Office, Federation of American Societies for Experimental Biology, 9650 Rockville Pike, Bethesda, MD 20814, 301-530-7030,
or
Elizabeth A. Yetley, Center for Food Safety and Applied Nutrition (HFF-265), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-485-0087.

SUPPLEMENTARY INFORMATION: FDA has a contract (223-88-2124) with FASEB concerning the analysis of scientific issues that bear on the safety of foods and cosmetics. The objective of this contract is to provide information to FDA on general and specific issues of scientific fact associated with the safety of food and cosmetics.

FDA intends to provide guidelines to health care providers for use in identifying: (1) Women of childbearing ages with impaired iron status and anemia, (2) the most appropriate methods of assessment, and (3) approaches to management of anemia in these individuals. FDA is announcing that it has asked FASEB, as a task under the contract, to determine the scientific community's views on the matters involved in developing these guidelines. In response, FASEB asked its Life Sciences Research Office to appoint the Expert Panel to study this matter. The Expert Panel will report its findings to FASEB through the Life Sciences Research Office. FASEB will then evaluate these findings and submit its own report to FDA.

Anemia in women of childbearing age (defined as postpuberty to menopause; 14 to 44 years of age) may result from many causes including iron deficiency, and various chronic diseases. Definitive diagnosis of iron-deficiency anemia requires distinguishing among the various causes of anemia. Specifically, identification of inadequate iron nutriture as a cause of anemia requires the determination of the status of iron stores. Iron deficiency may result from inadequate intake or absorption of iron, high menstrual blood losses, the demands of pregnancy, and other factors leading to blood loss. It is important to establish the cause (or causes) of anemia to select appropriate therapy and to avoid unnecessary intervention and possible harmful effects of ingestion of large amounts of iron-rich foods or dietary supplements by women whose iron stores are adequate. For these reasons, FDA needs guidance on the state of scientific knowledge in regard to the diagnosis and therapeutic management of iron

deficiency and anemia in women of childbearing ages.

FDA requires specific guidance in order to supply health care providers with current information on diagnosis and management of iron deficiency and other causes of anemia. Such guidance should include criteria useful in identifying individuals at risk, diagnostic techniques for assessing iron status, appropriate tests for distinguishing among major causes of anemia, and recommended strategies for management of various conditions associated with impaired iron status, including recommended frequency for monitoring during therapy, duration of therapy, and indications for discontinuing therapy.

In accordance with 21 CFR 14.15(b)(1), notice is given that the Expert Panel will hold an open meeting on Wednesday, January 11, 1989, to provide an opportunity for the public to present oral views on the issues discussed above. A list of members of the Expert Panel is available from the Dockets Management Branch and FASEB.

This notice invites submission of information on scientific concepts and considerations that can be used to devise criteria to determine the most appropriate recommendations for identification and intervention in iron deficiency and anemia in women of childbearing ages. Two copies of any scientific data, information, or written views should be submitted as soon as possible to both the Dockets Management Branch and the life Sciences Research Office (addresses above). Requests to make oral presentations at the open meeting should be in writing and submitted to the same addresses by January 5, 1989. Pursuant to its contract with FDA, FASEB will provide the agency with a scientific report on these issues concerning iron deficiency and anemia in women of childbearing ages.

Dated: December 13, 1988.

John M. Taylor.

Associate Commissioner for Regulatory Affairs.

BILLING CODE 9160-01-M

[Docket No. 88N-0406]

Outside Scientific Expertise in Nutrition Objectives for the year 2000; Announcement of Study; Request for Scientific Data and Information; Announcement of Open Meeting; Announcement of Closed Meetings

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that the Federation of American Societies for Experimental Biology (FASEB), Life Sciences Research Office, is: (1) Undertaking a review and evaluation of a draft set of National Nutrition Objectives for the Year 2000, (2) inviting submission of scientific data and information bearing on this topic, (3) providing an opportunity for presentation of written and oral information and data at an open meeting of the ad hoc expert panel (the Expert Panel) on National Nutrition Objectives for the Year 2000, and (4) providing notice of closed meetings of the Expert Panel. FASEB is inviting submission of scientific data and information bearing on this topic.

DATES: The open meeting of the Expert Panel on National Nutrition Objectives for the Year 2000 will be on Thursday, January 5, 1989. The closed meetings will be held on Wednesday, January 4 and Friday, January 6, 1989. All meetings will begin at 9 a.m. For written comments, information, and data to be considered by the Expert Panel at the open meeting, they must be submitted by December 30, 1988. Written requests to make oral presentations at the open meeting must be received by December 30, 1988.

ADDRESSES: Written requests to make oral presentations at the open meeting and scientific data and information to be submitted to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857, and the Life Sciences Research Office, Federation of American Societies for Experimental Biology, 9650 Rockville Pike, Bethesda, MD 20814. Two copies of the scientific data and information should be submitted to each office. The open meeting will be in the Chen Auditorium, Lee Bldg., FASEB (address above). The closed meetings will be in the Federation Board Room, FASEB (same address).

FOR FURTHER INFORMATION CONTACT:

Kenneth D. Fisher, Life Sciences Research Office, Federation of American Societies for Experimental Biology, 9650 Rockville Pike, Bethesda, MD 20814, 301-530-7030,

or

Marilyn G. Stephenson, Center for Food Safety and Applied Nutrition (HFF-208), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-245-1561.

SUPPLEMENTARY INFORMATION: FDA has a contract (223-88-2124) with FASEB concerning the analysis of scientific issues that bear on the safety of foods and cosmetics. The objective of this contract is to provide information to FDA on general and specific issues of scientific fact associated with the safety of food and cosmetics.

The U.S. Public Health Service (PHS) has established a process for the development of "National Health Objectives for the Year 2000." The PHS schedule calls for the preparation of draft reports, on or before February 1, 1989, on each of 21 priority areas that have been revised by outside expert panels and by the PHS Steering Committee for the Year 2000. Representatives of PHS, FDA, and the National Institutes of Health (NIH) will participate in the development of the National Health Objectives, including the Nutrition Objectives. FDA's Center for Food Safety and Applied Nutrition (CFSAN) and NIH cochair the "Interagency Work Group for the Year 2000: Nutrition Objectives" (the Work Group).

The Work Group was organized on August 26, 1988, with representatives from 10 agencies. The 10 agencies in the Work Group have drafted preliminary nutrition objectives, and several publications are available on the status of implementation and effectiveness of the 1990 Health Objectives. All of these documents are available from either of the contact persons above. FDA is announcing that it has asked FASEB, as a task under this contract, to provide jointly to FDA and NIH a report that: (1) Summarizes the review and evaluation of background materials, (2) considers public input; (3) evaluates a draft of the objectives prepared by the Work Group; and (4) makes recommendations for consideration in regard to nutrition objectives for the year 2000. In response, FASEB asked its Life Sciences Research Office to appoint the Expert Panel to study this matter. The Expert Panel will report its findings to FASEB through its Life Sciences Research Office. FASEB will then evaluate these findings and submit its own report to FDA and NIH.

FASEB will convene the Expert Panel to undertake review and evaluation of the draft objectives and other materials prepared by the Work Group. The Expert Panel will consist of nine eminent scientists selected for their expertise in nutrition, clinical nutrition, public health, pediatrics, and medicine. The viewpoints represented among the Expert Panel members will include not only those of the scientific disciplines listed but also those of academia, consumers, industry, and scientific organizations in the broadly defined field of nutrition. A list of members of

the Expert Panel is available from the Dockets Management Branch and FASEB.

In accordance with 21 CFR 14.15(b)(1), notice is given that the Expert Panel will hold an open public meeting during which an opportunity will be provided for the public to present written and oral views, scientific data, and information on the draft National Nutrition Objectives for the Year 2000. The meeting will be held on January 5, 1989, in the Chen Auditorium, Lee Bldg., FASEB (address above).

This notice invites submission of information, data, and views on the draft National Nutrition Objectives for the Year 2000 that should be considered for inclusion in the PHS National Health Objectives for the Year 2000. Two copies of any scientific data or information should be submitted to both the Dockets Management Branch and the Life Sciences Research Office (addresses above). This information may be submitted at any time, but it must be received by December 30, 1988, if it is to be considered by the Expert Panel.

This notice also invites public participation at the open meeting. Written requests to make oral presentations should be sent to the addresses above and received by December 30, 1988.

The Expert Panel will meet in executive session on January 4, 1989, to review the submitted information and data in preparation for the open meeting. The Expert Panel will also meet in executive session on January 6, 1989, to consider all of the information received at the open meeting. Both meetings will be held in the Federation Board Room, FASEB (address above). These meetings are being announced as required by 21 CFR 14.15(b)(1).

Dated: December 13, 1988.

John M. Taylor,

Associate Commissioner for Regulatory Affairs.

[FR Doc. 88-29026 Filed 12-14-88; 1:57 pm]

BILLING CODE 4160-01-M

Health Resources and Services Administration

Pediatric Acquired Immune Deficiency Syndrome (AIDS) Health Care Demonstration Projects

AGENCY: Health Resources and Services Administration.

ACTION: Notice of availability of funds.

SUMMARY: The Bureau of Maternal and Child Health and Resources Development (BMCHRD), Health Resources and Services Administration (HRSA) announces that Fiscal Year (FY) 1989 funds are now available for grants to fund projects demonstrating strategies and innovative models for intervention in pediatric AIDS and coordination of services for children, youth, and women of childbearing age with Human Immunodeficiency Virus (HIV) infestion, AIDS or other related conditions, or those at risk for developing infection and its consequences. Funds appropriated by Pub. L. 100-436 will be used for this purpose.

DATE: The deadline for receipt of applications is February 22, 1989. Applications shall be considered as meeting the deadline if they are either: (1) Received by the Grants Management Branch at the address below on or before the deadline date; or (2) postmarked on or before the deadline date, and received in time for submission to the review group. Applicants must request a legibly dated U.S. Postal Service postmark or obtain a legibly dated receipt from a commercial carrier or U.S. Postal Service. Private metered postmarks shall not be acceptable as proof of timely mailing. Grant applications received after the deadline date will be returned.

FOR FURTHER INFORMATION CONTACT: Additional information relating to technical and program issues may be obtained from: John J. Hutchings, M.D., Division of Services for Children with Special Health Needs, BMCHRD, Parklawn Building, Room 6-05, 5600 Fishers Lane, Rockville, Maryland 20857, (301) 443-2170.

Grant applications and additional information regarding business, administrative or fiscal issues related to the awarding of grants under this notice may be requested from: Ms. Glenna Wilcom, Grants Management Specialist, BMCHRD, Parklawn Building, Room 11A-18, 5600 Fishers Lane, Rockville, Maryland 20857, (301) 443-1440. The original and two (2) copies of the applications must be submitted to Ms. Wilcom.

SUPPLEMENTARY INFORMATION:

Program Background and Objectives

Through November 8, 1988, 77,994 cases of AIDS have been reported to the Centers for Disease Control (CDC). Of these, 1,230 have been infants and children 0-12 years of age and 313 have been adolescents 13-19 years of age. Approximately one-half of the known cases in this pediatric population have died. The Public Health Service (PHS) predicts an increase in pediatric AIDS by 1991, to 3,000 cases.

The cost of providing a full range of services in the pediatric population with AIDS is high, largely reflecting hospital costs with the higher inpatient hospital rates for children and the long periods of hospitalization these children experience. Cost reduction can be made through the use of comprehensive ambulatory and community-based services, which these demonstration projects should provide.

The Pediatric AIDS projects are designed to further the coordination of services for children, youth, and women of childbearing age with HIV infection, AIDS or related conditions, or those at risk for developing infection and its consequences. This coordination is to be accomplished through enhancement of current pediatric AIDS activities developed by the Office of Maternal and Child Health, including those activities supported by Title V of the Social Security Act or through the existing Pediatric AIDS Health Care Demonstration Projects supported in FY 1988 under Public Law 100-202, and other departmental AIDS activities, particularly the HRSA Service Demonstration Grants.

Purpose

It is generally recognized that there is a need for development of strategies and innovative models for managing pediatric patients with AIDS, which emphasize service delivery in outpatient and community settings and reduce the amount of time spent in hospital settings. Two categories of projects will be funded in FY 1989 which are intended to accomplish these purposes and also are expected to provide solutions to a broad range of critical problems arising from the AIDS crisis.

The first category, Pediatric Health Care Demonstration Projects, which were also funded in FY 1988 should: (1) Demonstrate effective ways to prevent infection, especially through the reduction of perinatal transmission; (2) develop community-based, family-centered, coordinated services for infected infants, children and youth; and (3) develop programs to reduce the spread of HIV infection to vulnerable populations of young people. The Pediatric Health Care Demonstration Projects should serve as models for other communities and should identify the range of resources needed to provide appropriate, humane, and effective care to pediatric AIDS patients. They are designed to build on existing resources or networks in impacted communities for reaching and providing health care and supportive services to women and children most at risk. These projects will

focus on local capacity-building, making maximum use of all available public and private resources.

The second category of projects are intended to focus on National Issues of High Priority in Pediatric AIDS which are of critical importance to children with AIDS and their families, especially in the areas of prevention and early detection and service provision. Proposed issues include but are not limited to: developing community plans to respond to issues arising from HIV infection in adolescents and youths, including those living at home, those in institutions, and those who are homeless; the development of a curriculum for training volunteers who work with families where there are HIV infected children; the preservation of maternal and child rights of privacy, confidentiality, and informed consent; the recommendations from the Surgeon General's Workshop on Children With HIV Infection and Their Families that dealt with health information issues and the role of the media; and a survey of the services of Comprehensive Hemophilia Centers to HIV infected children who do not have hemophilia. The intent is to identify and to deal with issues which interfere with and prevent AIDS patients and their families from receiving the services they require.

Availability of Funds

Approximately $2.25 million is available for the following two categories of new projects in FY 1989:

(1) *Pediatric AIDS Health Care Demonstration Projects.* A total of $1.5 million is available to be expended by grantees during project periods lasting from 1 to 3 years. It is anticipated that three to five such new grants will be made, depending on demonstrated need.

(2) *National Issues of High Priority in Pediatric AIDS.* A total of $750,000 is available for small grants lasting from 1 to 2 years. It is anticipated that four to six such grants will be made.

Collaboration/Coordination with Other AIDS Programs

Pediatric AIDS grantees supported by HRSA will be expected to coordinate their projects with other Federal, State, and local programs concerned with AIDS including, but not limited to: (1) HRSA AIDS Service Demonstration Grants; (2) CDC AIDS activities; (3) Community Health Centers and Migrant Health Centers; (4) Medicaid; (5) Title V programs: Maternal and Child Health Services Block Grants, Maternal and Child Health Hemophilia Services Projects, and other relevant SPRANS grants under Title V; (6) the education and outreach programs of the National Institute on Drug Abuse, especially those concerned with IV drug users, their sexual partners, and prostitutes; (7) HRSA Education and Training Centers Grants; (8) grants concerned with mothers and children funded by the National Institute of Child Health and Human Development; (9) the clinical drug trials or other relevant research conducted by other institutes of the National Institutes of Health; and, (10) discretionary grants by the Office of Human Development Services to demonstrate innovative approaches to providing child welfare services for infants with AIDS.

To the maximum extent possible, HRSA's Pediatric AIDS Health Care Demonstration Program grantees also will be expected to work closely with community-based AIDS service organizations, local AIDS service activities supported by the Robert Wood Johnson Foundation, the National Hemophilia Foundation, or other foundations and organizations with AIDS activities.

Eligible Applicants

Public and private entities, nonprofit and for-profit, are eligible to apply for these grant awards. Eligible entities include public or private hospitals, university medical centers, State or local health departments, or consortia of health care and community organizations.

Review and Evaluation Criteria

Grant applications will be reviewed and rated by an objective review committee. The first category, Pediatric AIDS Demonstration projects, will be judged according to demonstration of need for services and to the applicant's ability to demonstrate the most effective ways of organizing services and providing treatment and support to children and women of childbearing age with HIV infection, AIDS or AIDS-related conditions or those at risk for developing infection and its sequelae. Applicants will be expected to demonstrate how proposed programs will be integrated with other AIDS service programs and indicate how the proposed services will augment existing activities. The second category, National Issues of High Priority in Pediatric AIDS, will be reviewed to assess the importance of the issue selected, the applicant's understanding of the state of the knowledge about the issue, and the applicant's capacity to perform the activities proposed. More detailed information on the review and evaluation criteria may be found in the grant application kit.

Allowable Costs

The basis for determining the allowability and allocability of costs charged to PHS grants is set forth in 45 CFR Part 74, subpart Q. The five separate sets of cost principals prescribed for grant recipients are: (1) 45 CFR Part 92 for State and local governments; (2) OMB Circular A–21 for institutions of higher education; (3) 45 CFR Part 74, Appendix E for hospitals; (4) OMB Circular A–122 for nonprofit organizations; and (5) 48 CFR Chapter 1, subpart 31.2 for for-profit (commercial) organizations.

Reporting Requirements

A successful applicant under this notice will submit reports in accordance with the provisions of the general regulations which apply under 45 CFR Part 74, Subpart J—Monitoring and Reporting of Program Performance.

Executive Order 12372

The Pediatric AIDS Health Care Demonstration Program has been determined to be a program which is subject to the provisions of Executive Order 12372 concerning intergovernmental review of Federal programs, as implemented by 45 CFR Part 100. Executive Order 12372 allows States the option of setting up a system for reviewing applications from within their States for assistance under certain Federal program. The application packages to be made available under this notice (Form PHS 5161–1 with revised facesheet HHS Form 424 approved under OMB 0348–0006) will contain a listing of States which have chosen to set up such a review system and will provide a point of contact in the States for the review. Each applicant should promptly contact his/her State's single point of contact (SPOC) and follow instructions prior to the submission of an application. The SPOC has 60 days after the application deadline to submit its review comments.

The OMB Catalog of Federal Domestic Assistance number for the Pediatric AIDS Health Care Demonstration program is 13.153.

Date: November 14, 1988.

John H. Kelso,

Acting Administrator.

[FR Doc. 88–29027 Filed 12–16–88; 8:45 am]

BILLING CODE 4160–15–M

Privacy Act of 1974; New System of Records

AGENCY: Public Health Service, HHS.

ACTION: Notification of a New System of Records.

SUMMARY: In accordance with the requirements of the Privacy Act, the Public Health Service (PHS) is publishing a notice of a new system of records, 09–15–0056, "National Vaccine Injury Compensation Program, HHS/HRSA/BHPr." We are also proposing routine uses for this new system.

DATES: PHS has sent a Report of New System to the Congress and to the Office of Management and Budget (OMB) on December 8, 1988. PHS has requested that OMB grant a waiver of the usual requirement that a system of records not be put into effect until 60 days after the report is sent to OMB and Congress. If this waiver is granted, PHS will publish a notice to that effect in the **Federal Register**. The routine uses will be effective 30 days after the date of publication unless PHS received comments which would result in a contrary determination.

ADDRESS: Please submit comments to: Privacy Act Officer, Health Resources and Services Administration, Room 14A20, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857, (301) 443–3780.

Comments received will be available for inspection at this same address from 8:30 a.m. to 4 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Director, Bureau of Health Professions, Health Resources and Services Administration, Room 8–05, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857, (301) 443–5794.

The numbers listed above are not toll free.

SUPPLEMENTARY INFORMATION: The Health Resources and Services Administration (HRSA) proposes to establish a new system of records: 09–15–0056, "National Vaccine Injury Compensation Program, HHS/HRSA/BHPr." This proposed system of records will consist of petitions served on the Secretary, HHS, regarding payment of compensation under the National Vaccine Injury Compensation Program, which include medical records and other related documentation. The Secretary has placed the responsibility for implementing this program in HRSA's Bureau of Health Professions (BHPr).

The purpose of these records is to: (1) Determine eligibility of petitioners to receive compensation under the National Vaccine Injury Compensation Program; (2) compensate successful petitioners in the amount determined by the court; and (3) evaluate vaccine safety.

BHPr/HRSA is establishing stringent safeguards consistent with the sensitivity of the records. These include: Maintaining a current list of authorized users; handcarrying files from office to office in sealed envelopes; transmitting records to consultants by registered mail; escorting visitors into areas where records are maintained; utilizing passwords and data set name controls for computer access; and securing areas where records are stored.

HRSA will permit disclosure of the records to third parties pursuant to a routine use as follows: The first routine use permits disclosure to a congressional office, to allow subject individuals to obtain assistance from their representatives in Congress, should they so desire. The second routine use allows disclosure to the Department of Justice or a court, in the event of litigation instigated by the record subject. The third routine use allows Public Health Service consultants to evaluate medical records submitted to the Department. The fourth routine use allows disclosure of records to the Special Master of the U.S. Claims Court for adjudication of the compensation claim. The fifth routine use allows for **Federal Register** publication of the notice of receipt of petitioner's claim, as required by the National Childhood Vaccine Injury Act.

Individuals will be required to supply Social Security numbers in order to receive compensation payments. However, HRSA will not use Social Security numbers in this system to make any determination concerning rights, benefits, or privileges of the individuals.

This system notice is written in the present, rather than the future tense, in order to avoid the unnecessary expenditure of public funds to republish the notice after the system has become effective.

Date: December 9, 1988.

Wilford J. Forbush,

Deputy Assistant Secretary for Health Operations and Director, Office of Management.

09–15–0056

SYSTEM NAME:

National Vaccine Injury Compensation Program, HHS/HRSA/BHPr.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Bureau of Health Professions (BHPr), Health Resources and Services Administration (HRSA), Room 4–101, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland, 20857.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons filing claims (petitioners) under the National Vaccine Injury Compensation Program (NVICP).

CATEGORIES OF RECORDS IN THE SYSTEM:

Petition for compensation, including petitioner's name and name of person vaccinated if different from petitioner, Social Security Number and all relevant medical records, (including autopsy reports, if any), appropriate assessments, evaluations, prognoses, and such other records and documents as are reasonably necessary for the determination of eligibility for and the amount of compensation to be paid to, or on behalf of, the person who suffered such injury or who died from the administration of the vaccine.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 USC 300aa–11 and Executive Order 9397 regarding the use of Social Security Number.

PURPOSE(S):

1. To determine eligibility of petitioners to receive compensation under the National Vaccine Injury Compensation Program.

2. To compensate successful petitioners in the amount determined by the court.

3. To evaluate vaccine safety through research programs.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Disclosure may be made to a congressional office from the record of an individual, in response to an inquiry from the congressional office made at the written request of the individual.

2. In the event of litigation where the defendent is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, for example in defending against a claim based upon an individual's mental or physical condition and alleged to have arisen because of activities of the Public Health Service in connection with such individual, the Department may disclose

such records as it deems desirable or necessary to the Department of Justice to enable that Department to present an effective defense, provided that such disclosure is compatible with the purpose for which the records were collected.

3. HRSA will contract with expert medical consultants for the purpose of obtaining advice on petitioner's eligibility for compensation. Relevant records may be disclosed to such consultants. The consultants shall be required to maintain Privacy Act safeguards with respect to such records and return all records to HRSA.

4. HRSA will release the petitioner's complete medical file and may release consultants' report to the Department of Justice and the Special Master of the U.S. Claims Court for adjudication of the compensation claim.

5. HRSA will disclose for publication in the **Federal Register** the petitioner's name, court docket number, petitioner's city and State, and name of person vaccinated, if not the petitioner, as required by the National Childhood Vaccine Injury Act.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders and disks.

RETRIEVABILITY:

(1) Docket number assigned by the U.S. Claims Court, (2) petitioner and/or name of person vaccinated, and (3) Social Security Number.

SAFEGUARDS:

1. Authorized Users: Access is limited to the System Manager and authorized BHPr/HRSA personnel responsible for administering the program. BHPr/HRSA will maintain a current list of authorized users.

2. Physical Safeguards: All files are kept in standard locking file cabinets during non-work hours; and disk packs and computer equipment are kept in areas where fire and life safety codes are strictly enforced. All automated and nonautomated documents are protected on a 24-hour basis in secured areas. Security guards perform random checks on the physical security of the record storage area.

3. Procedural Safeguards: BHPr/HRSA is establishing stringent safeguards in line with the sensitivity of the records. These include: Handcarrying files from office to office in sealed envelopes, transmitting records to consultants by registered mail; escorting visitors into areas where records are maintained; utilizing passwords for computer access; securing areas where records are stored. A password is required to access the terminal and a data set name controls the release of data only to authorized users. All users of personal information in connection with the performance of their jobs protect information from public view and from unauthorized personnel entering an unsupervised office.

RETENTION AND DISPOSAL:

The records shall be disposed of by shredding three years after the termination of all administrative and judicial proceedings, as determined by a final adjudication. Upon written notification to the Government, the petitioner shall have the right to reclaim the original medical records submitted to the Government, after the final adjudication.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Bureau of Health Professions, HRSA, Room 4–101, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857.

NOTIFICATION PROCEDURE:

Requests must be made to the System Manager at the above address.

Requests in person: A subject individual who appears in person at a specific location seeking access or disclosure of records relating to him/her shall provide his/her name, current address, and at least one piece of tangible identification such as a driver's license, passport, voter registration card, or union card. Identification paper with current photograpsh are preferred but not required. Additional identifcation may be requested when there is a request for access to records which contain an apparent discrepancy between information contained in the records and that provided by the individual requesting access to the record. No verification of identity shall be required where the record is one which is required to be disclosed under the Freedom of Information Act.

Requests by mail: To determine if a record exists about you, write to the System Manager. The request must contain the name and address of the individual, assigned court docket number (if known), and a written statement that the requester is the person he/she claims to be and that he/she understands that the request or acquisition of records pertaining to another individual under false pretenses is a criminal offense subject to a $5,000 fine. Requests by telephone: Since positive identification of the caller cannot be established, telephone requests are not honored.

RECORD ACCESS PROCEDURE:

Same as notification procedures. Individual may also request an accounting of disclosures that have been made of their records, if any.

CONTESTING RECORD PROCEDURE:

Contact the appropriate offical at the address specified under Notification Procedures above and reasonably identify the record, specify the information being contested, and state the corrective action sought and the reason(s) for requesting the correction, along with supporting justification to show how the record is inaccurate, incomplete, untimely, or irrelevant.

RECORD SOURCE CATEGORIES:

Petitioner, petitioner's legal representative, health care consultants, and other interested persons.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

BILLING CODE 4160–15–M

DEPARTMENT OF THE INTERIOR

Office of the Secretary

Privacy Act of 1974; Revision of Systems of Records

Pursuant to the provisions of the Privacy Act of 1974, as amended (5 U.S.C. 552a), notice is hereby given that the Department of the Interior proposes to revise three notices describing systems of records maintained by the U.S. Geological Survey. Except as noted below, all changes being published are editorial in nature, and reflect organization changes and other minor administrative revisions which have occurred since the previous publication of the material in the **Federal Register**. The three notices being revised, which are published in their entirety below, are:

1. Personal Property Accountability Records—Interior, USGS–7 (previously published on October 2, 1986; 51 FR 35299).

2. Security—Interior, USGS–11 (previously published on October 2, 1986; 51 FR 35299).

3. Personnel Investigations Records—Interior, USGS–23 (previously published on February 16, 1988; 53 FR 4468).

The notice describing personal property accountability records (USGS–7) is being amended to add compatible routine use disclosures to other Federal agencies and consumer reporting

agencies to facilitate the collection of debts owed to the Federal government.

5 U.S.C. 552a(e)(11) requires that the public be provided a 30-day period in which to comment on proposed new routine uses. Therefore, written comments on the proposed routine uses can be addressed to the Department Privacy Act Officer, Office of the Secretary (PMI), Room 2242, Main Interior Building, U.S. Department of the Interior, Washington, D.C. 20240. Comments received on or before January 18, 1989, will be considered. The notices shall be effective as proposed without further notice at the end of the comment period, unless comments are received which would require a contrary determination.

Oscar W. Mueller, Jr.,

Director, Office of Management Improvement.

Date: December 9, 1988.

INTERIOR/USGS–7

SYSTEM NAME:

Personal Property Accountability Records—Interior, USGS–7.

SYSTEM LOCATION:

(1) Property Management Branch, Office of Facilities and Management Services, Administrative Division, U.S. Geological Survey, National Center, Mail Stop 210, Reston, VA 22092.

(2) Administrative offices in all or substantially all field locations. (For a listing of specific locations, contact the System Manager.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Geological Survey employees who are accountable for bureau-owned controlled property.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records of assignment of an internal identification number and acknowledgement of receipt by employees. Records of transfers to other accountable employees. Inventory records containing employee social security numbers and duty stations.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

40 U.S.C. 483(b).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The primary uses of the records are to: (a) Maintain control over bureau-owned controlled property; (b) maintain up-to-date inventory of the property and to record accountability for the property. Disclosure outside the Department of the Interior may be made: (1) To the U.S. Department of Justice or in a proceeding before a court or adjudicative body when (a) the United States, the Department of the Interior, a component of the Department or, when represented by the Government, an employee of the Department is a party to litigation or anticipated litigation or has an interest in such litigation, and (b) the Department of the Interior determines that the disclosure is relevant or necessary to the litigation and is compatible with the purpose for which the records were compiled; (2) to disclose pertinent information to an appropriate Federal, State, local, or foreign agency responsible for investigating, prosecuting, enforcing, or implementing a statute, regulation, rule, or order, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation; (3) to a congressional office from the record of an individual in response to an inquiry the individual has made to the congressional office; (4) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant, or other benefit; (5) to Federal, State, or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, license, contract, grant, or other benefit; (6) to a Federal agency for the purpose of collecting a debt owed the Federal government through administrative or salary offset and to other Federal agencies conducting computer matching programs to help eliminate fraud and abuse.

DISCLOSURE TO CONSUMER REPORTING AGENCIES:

Disclosures pursuant to 5 U.S.C. 552a(b)(12). Disclosures may be made from this system to consumer reporting agencies as defined in the Fair Credit Reporting Act (15 U.S.C. 1681a(f)) or the Federal Claims Collection Act of 1966 (31 U.S.C. 3701(a)(3)).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are both manual and computerized.

RETRIEVABILITY:

By employee social security number.

SAFEGUARDS:

Access by authorized employees only.

RETENTION AND DISPOSAL:

Retained and disposed of according to Bureau Records Disposition Schedule, RCS/Item 307–10.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Property Management Branch, Office of Facilities and Management Services, Administrative Division, U.S. Geological Survey, National Center, Mail Stop 210, Reston, VA 22092.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the System Manager. See 43 CFR 2.60.

RECORD ACCESS PROCEDURES:

Same as above. See 43 CFR 2.63.

CONTESTING RECORD PROCEDURES:

A petition for amendment should be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

RECORD SOURCE CATEGORIES:

Individual employees.

INTERIOR/USGS–11

SYSTEM NAME:

Security—Interior, USGS–11.

SYSTEM LOCATION:

Office of the Chief Geologist, Geologic Division, U.S. Geological Survey, National Center, Mail Stop 912, Reston, VA 22092.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Geologic Division employees who have been granted security clearances.

CATEGORIES OF RECORDS IN THE SYSTEM:

Record of security clearance for Division personnel; contains name, title, organization, office location, social security number, place and date of birth, and type of security clearance of person being granted access.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Executive Order 10501.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The primary use of the records is to keep current records on security clearances in the Geologic Division. Disclosure outside the Department of the Interior may be made (1) to the U.S. Department of Justice or in a proceeding before a court or adjudicative body when (a) the United States, the Department of the Interior, a component of the Department, or when represented by the government, an employee of the Department is a party to litigation or

anticipated litigation or has an interest in such litigation, and (b) the Department of the Interior determines that the disclosure is relevant or necessary to the litigation and is compatible with the purpose for which the records were compiled; (2) to disclose pertinent information to an appropriate Federal, State, local, or foreign agency responsible for investigating, prosecuting, enforcing, or implementing a statute, regulation, rule, or order, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation; (3) to a congressional office from the record of an individual in response to an inquiry the individual has made to the congressional office; (4) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant, or other benefit; (5) to Federal, State, or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, license, contract, grant, or other benefit.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Manual systems maintained in locked files. Automated system maintained in dBase III file.

RETRIEVABILITY:

Indexed by individual name.

SAFEGUARDS:

Maintained with security meeting the requirements of 43 CFR 2.51.

RETENTION AND DISPOSAL:

Retained and disposed of according to Bureau of Records Disposition Schedule, RCS/Item 306–16.

SYSTEM MANAGER(S) AND ADDRESS:

Administrative Officer, Geologic Division, U.S. Geological Survey, National Center, Mail Stop 912, Reston, VA 22092.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the System Manager. See 43 CFR 2.60.

RECORD ACCESS PROCEDURES:

A request for access may be addressed to the System Manager. The request must be in writing and signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

CONTESTING RECORD PROCEDURES:

A petition for amendment should be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

RECORD SOURCE CATEGORIES:

Individual on whom the record is maintained.

INTERIOR/USGS–23

SYSTEM NAME:

Personnel Investigations Records—Interior, USGS–23.

SYSTEM LOCATION:

Security Office, Office of Facilities and Management Services, Administrative Division, U.S. Geological Survey, National Center, Mail Stop 150, Reston, VA 22092.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

1. Current Geological Survey employees who (a) are granted access to classified information; (b) are filling sensitive positions not requiring access to classified information; (c) are being considered either for access to classified information or for filling sensitive positions not requiring access to classified information; and (d) are found unsuitable for access to classified information or filling sensitive positions because unfavorable information was revealed during the conduct of their security investigations.

2. Former Geological Survey employees who (a) were granted access to classified information; (b) were filling sensitive positions not requiring access to classified information, and (c) were found unsuitable for access to classified information or filling sensitive positions because unfavorable information was revealed during the conduct of their security investigations.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records contain investigative information regarding an individual's character, conduct, and behavior in the community where he or she lives or lived; arrests and convictions for any violations against the law; reports of interviews with present and former supervisors, co-workers, associates, educators, etc.; reports about the qualifications of an individual for a specific position; reports of inquiries with or from law enforcement agencies, employers, and educational institutions attended; foreign affiliations which may affect his or her loyalty to the United States; and other information developed from the above.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Executive Order 10450, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The contents of these records and files may be disclosed and used as follows: (1) To designated officials, officers, and employees of the USGS, DOI, OPM, DOE, CIA, FBI, and all other agencies and departments of the Federal Government who in the performance of their duties have an interest in the individual for employment purposes, including a security clearance or access determination, and a need to evaluate qualifications, suitability, and loyalty to the United States Government; (2) to the U.S. Department of Justice or in a proceeding before a court or adjudicative body when (a) the United States, the Department of the Interior, a component of the Department, or, when represented by the government, an employee of the Department is a party to litigation or anticipated litigation or has an interest in such litigation, and (b) the Department of the Interior determines that the disclosure is relevant or necessary to the litigation and is compatible with the purpose for which the records were compiled; (3) to disclose pertinent information to an appropriate Federal, State, local, or foreign agency responsible for investigating, prosecuting, enforcing, or implementing a statute, regulation, rule, or order, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation; (4) to a congressional office from the record of an individual in response to an inquiry the individual has made to the congressional office.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

All investigative records are maintained in file folders stored in Class 5 security containers having manipulation resistant combination locks.

RETRIEVABILITY:

All records are indexed by surname in alphabetical order.

SAFEGUARDS:

The card index for this system of records is contained in a metal cabinet with a secure key locking device; the key is secured in a Class 5 security container. All containers and cabinets are further secured in a windowless

room having one doorway which is secured by a key locking device. Both the key locking devices and combinations to the Class 5 security containers are under stringent security controls.

RETENTION AND DISPOSAL:

(a) OPM background investigative files supporting secret-sensitive decompartmented information and top secret-infrequent access to sensitive compartmented information are retained until the awarded security clearance or employment is terminated. All other OPM investigative files are routinely destroyed within 90 days after receipt or upon completion of the adjudication action, whichever occurs last. Disposition of files is made in accordance with the Bureau Records Disposition Schedule, RCS/Item 306–15b.

(b) All information, supplementing the above OPM investigative files, originated by the Geological Survey, is retained for two years following termination of awarded security clearance or employment, whichever occurs first, and is then destroyed. Disposition of files is made in accordance with the Bureau Records Disposition Schedule, RCS/Item 306–15a.

SYSTEM MANAGER(S) AND ADDRESS:

Security Officer/Alternate Security Officer, Office of Facilities and Management Services, Administrative Division, U.S. Geological Survey, National Center, Mail Stop 150, Reston, Virginia 22092.

NOTIFICATION PROCEDURE:

Written inquiries to the System Manager are required and must include the following information in order to positively identify the individual whose records are requested: (1) Full name, (2) date of birth, (3) place of birth, (4) any available information regarding the type of record requested. See 43 CFR 2.60.

RECORD ACCESS PROCEDURES:

An individual can obtain information on the procedures for gaining access to and contesting the records from the above System Manager. See 43 CFR 2.63.

CONTESTING RECORD PROCEDURES:

Same as above. See 43 CFR 2.71.

RECORD SOURCE CATEGORIES:

Information contained in this system is obtained from the following categories of sources: (1) Applications and other personnel and security forms furnished by the individual, (2) Results of investigations and other material furnished by Federal agencies.

BILLING CODE 4310–31–M

Fish and Wildlife Service

Availability of the Draft Environmental Assessment Proposed Bond Swamp National Wildlife Refuge, Bibb and Twiggs Counties, Georgia

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability of the draft environmental assessment for the Proposed Bond Swamp National Wildlife Refuge.

SUMMARY: This Notice advised the public that the Draft Environmental Assessment for the Proposed Bond Swamp National Wildlife Refuge is available for public review, effective November 22, 1988. The U.S. Fish and Wildlife Service (Service) proposes to protect and enhance approximately 6500 acres of forested wetland habitat in Bibb and Twiggs Counties, Georgia. The environmental assessment evaluates the value and significance of resources on the area in regard to potential acquisition by the Service as an addition to the National Wildlife Refuge System and to analyze other alternative uses of the area.

DATES: The assessment is presently available to the public as of November 22, 1988. Written comments must be received no later than January 6, 1989, to be considered.

ADDRESSES: Requests for copies of the assessment and other questions should be addressed to: Mr. Ronnie Shell, Refuge Manager, Piedmont National Wildlife Refuge, U.S. Fish and Wildlife Service, Round Oak, Georgia 31038: telephone commercial (912) 984–5441.

Written comments should be addressed to: Regional Director, U.S. Fish and Wildlife Service, 75 Spring Street, SW., Room 1200, Atlanta, Georgia 30303.

SUPPLEMENTARY INFORMATION: The objectives for which the area would be managed are to preserve and protect a diverse, threatened wetland ecosystem and its associated values; to preserve, protect, reestablish, and manage for endangered and threatened wildlife species; to manage for migratory birds with emphasis on providing optimum habitat for wintering waterfowl and enhancing nesting and brood habitat for wood ducks; to manage for native wildlife species and their associated habitats; and to provide opportunities for comparable public educational, interpretational, and recreational, opportunities associated with wildlife and their habitats.

Five alternatives for protection of the area are discussed in the assessment, and include No Action; Acquisition by U.S. Fish and Wildlife Service (preferred alternative); Acquisition by Another Government Agency; Acquisition by Conservation Oriented Group or Individual; and Acquisition by Conservation Easement by the U.S. Fish and Wildlife Service.

James W. Pulliam, Jr.,
Regional Director.

BILLING CODE 4310–55–M

Availability of the Draft Environmental Assessment for the Purchase of Lands for the Establishment of Lake Ophelia National Wildlife Refuge

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability of the draft environmental assessment for the purchase of lands for the establishment of Lake Ophelia National Wildlife Refuge.

SUMMARY: This notice advises the public that the Draft Environmental Assessment for the Purchase of Lands for the Establishment of Lake Ophelia National Wildlife Refuge is available for public review, effective November 23, 1988. Lake Ophelia National Wildlife Refuge is being proposed to preserve 38,000 acres of wintering habitat for mallards, pintails and wood ducks, and production habitat for wood ducks to help meet the habitat goals presented in the North American Waterfowl Management Plan.

The environmental assessment evaluates the value and significance of resources on the area in regard to potential acquisition by the Service as an addition to the National Wildlife Refuge System and to analyze other alternative uses of the area.

DATES: The assessment is presently available to the public as of November 23, 1988. Written comments must be received no later than January 6, 1989, to be considered.

ADDRESSES: Requests for copies of the assessment and other questions should be addressed to: Charles R. Danner, Chief, Project Development Branch, U.S. Fish and Wildlife Service, 75 Spring Street, SW., Room 1240, Atlanta, Georgia 30303.

Written comments should be addressed to: Regional Director, U.S. Fish and Wildlife Service, 75 Spring Street, SW., Room 1200, Atlanta, Georgia 30303.

SUPPLEMENTARY INFORMATION: The Service proposes to provide protection and management for wintering waterfowl on approximately 30,000 acres of wetland and associated habitats in the vicinity of Lake Ophelia, Avoyelles Parish, Louisiana. The area would also provide habitat for resident furbearers, alligators, and other wildlife. Secondary compatible uses would possibly include public outdoor activities such as hunting, fishing, research, environmental education, and other wildlife-oriented recreation.

Three alternatives for protection and management of the area are discussed in the assessment, and include No Action; Service Acquisition (preferred alternative); and Acquisition and Management by Others.

Establishment of the refuge and proper management will provide excellent wintering waterfowl habitat and a needed waterfowl refuge in the Lower Mississippi River Valley.

James W. Pulliam, Jr.,

Regional Director.

BILLING CODE 4310-55-M

INTERSTATE COMMERCE COMMISSION

[Docket No. AB-55 (Sub-No. 279X)]

CSX Transportation, Inc.; Abandonment Exemption for Railroad Lines in Florence and Lee Counties, SC

Applicant has filed a notice of exemption under 49 CFR Part 1152 Subpart F—*Exempt Abandonments* to abandon a portion of its line between milepost AK-304.38, at Timmonsville, Florence County, SC, and milepost AK-313.43, at Lynchburg, Lee County, SC, a distance of 9.05 miles.

Applicant has certified that: (1) No local traffic has moved over the line for at least 2 years; (2) any overhead traffic on the line can be rerouted over other lines; and (3) no formal complaint filed by a user or rail service on the line (or by a State or local government entity acting on behalf of such user) regarding cessation of service over the line either is pending with the Commission or with any U.S. District Court, or has been decided in favor of the complainant within the 2-year period. The appropriate agency has been notified in writing at least 20 days prior to the filing of this notice.

As a condition to use of this exemption, any employee affected by the abandonment shall be protected under *Oregon Short Line R. Co.—Abandonment—Goshen,* 360 I.C.C. 91 (1979). To address whether this condition adequately protects affected employees, a petition for partial revocation under 49 U.S.C. 10505(d) must be filed.

Provided no formal expression of intent to file an offer of financial assistance has been received, this exemption will be effective January 18, 1989 (unless stayed pending reconsideration). Petitions to stay that do not involve environmental issues,[1] formal expressions of intent to file an offer of financial assistance under 49 CFR 1152.27(c)(2) [2], and trail use/rail banking statements under 49 CFR 1152.29 must be filed by December 29, 1988.[3] Petitions for reconsideration and requests for public use conditions under 49 CFR 1152.29 must be filed by January 9, 1989 with: Office of the Secretary, Case Control Branch, Interstate Commerce Commission, Washington, DC 20423.

A copy of any petition filed with the Commission should be sent to applicant's representative: Patricia Vail, CSX Transportation, Inc., 500 Water Street, Jacksonville, FL 32202.

If the notice of exemption contains false or misleading information, use of the exemption is void *ab initio.*

Applicant has filed an environmental report which addresses environmental or energy impacts, if any, from this abandonment.

The Section of Energy and Environment (SEE) will prepare an environmental assessment (EA). SEE will issue the EA by December 24, 1988. Interested persons may obtain a copy of the EA from SEE by writing to it (Room 3115, Interstate Commerce Commission, Washington, DC 20423) or by calling Carl Bausch, Chief, SEE, at (202) 275-7316. Comments on environmental and energy concerns must be filed within 15 days after the EA becomes available to the public.

Environmental, public use, or trail use/rail banking conditions will be imposed, where appropriate, in a subsequent decision.

Decided: December 13, 1988.

By the Commission, Jane F. Mackall, Director, Office of Proceedings.

Noreta R. McGee,

Secretary.

BILLING CODE 7035-01-M

[Docket No. AB-55 (Sub-No. 275X)]

CSX Transportation, Inc.; Abandonment Exemption for Railroad Lines in Orangeburg County, SC, et al.

Applicant has filed a notice of exemption under 49 CFR Part 1152 Subpart F—*Exempt Abandonments* to abandon its 37.19-mile line of railroad between milepost AK-380.27 at Orangeburg to milepost AK-396.36 at Denmark and milepost AK-397.9 at Denmark to milepost AK-419.0 at Donora, located in Orangeburg, Bamberg, and Barnwell Counties, SC.

Applicant has certified that: (1) No local traffic has moved over the line for at least 2 years; (2) any overhead traffic on the line can be rerouted over other lines; and (3) no formal complaint filed by a user of rail service on the line (or by a State or local government entity acting on behalf of such user) regarding cessation of service over the line either is pending with the Commission or with any U.S. District Court, or has been decided in favor of the complainant within the 2-year period. The appropriate State agency has been notified in writing at least 10 days prior to the filing of this notice.

As a condition to use of this exemption, any employee affected by the abandonment shall be protected under *Oregon Short Line R. Co.—Abandonment—Goshen,* 360 I.C.C. 91 (1979). To address whether this condition adequately protects affected employees, a petition for partial revocation under 49 U.S.C. 10505(d) must be filed.

Provided no formal expression of intent to file an offer of financial assistance has been received, this exemption will be effective January 18, 1989 (unless stayed pending reconsideration). Petitions to stay that

[1] A stay will be routinely issued by the Commission in those proceedings where an informed decision on environmental issues (whether raised by a party or by the Section of Energy and Environment in its independent investigation) cannot be made prior to the effective date of the notice of exemption. *See Exemption of Out-of-Service Rail Lines,* 4 I.C.C.2d 400 (1988). Any entity seeking a stay involving environmental concerns is encouraged to file its request as soon as possible in order to permit this Commission to review and act on the request before the effective date of this exemption.

[2] *See Exempt. of Rail Abandonment—Offers of Finan. Assist.,* 4 I.C.C.2d 164 (1987), and final rules published in the **Federal Register** on December 22, 1987 (52 FR 48440-48446).

[3] The Commission will accept a late-filed trail use statement so long as it retains jurisdiction to do so.

do not involve environmental issues,[1] formal expressions of intent to file an offer of financial assistance under 49 CFR 1152.27(c)(2),[2] and trail use/rail banking statements under 49 CFR 1152.29 must be filed by December 29, 1988.[3] Petitions for reconsideration and requests for public use conditions under 49 CFR 1152.28 must be filed by January 9, 1989 with: Office of the Secretary, Case Control Branch, Interstate Commerce Commission, Washington, DC 20423.

A copy of any petition filed with the Commission should be sent to applicant's representative: Patricia Vail, CSX Transportation, Inc., 500 Water Street, Jacksonville, FL 32202.

If the notice of exemption contains false or misleading information, use of the exemption is void *ab initio*.

Applicant has filed an environmental report which addresses environmental or energy impacts, if any, resulting from this abandonment.

The Section of Energy and Environment (SEE) will prepare an environmental assessment (EA). SEE will issue the EA by December 24, 1988. Interested persons may obtain a copy of the EA from SEE by writing to it (Room 3115, Interstate Commerce Commission, Washington, DC 20423) or by calling Carl Bausch, Chief, SEE at (202) 275–7316. Comments on environmental and energy concerns must be filed within 15 days after the EA becomes available to the public.

Environmental, public use, or trail use/rail banking conditions will be imposed, where appropriate, in a subsequent decision.

Decided: December 13, 1988

DEPARTMENT OF JUSTICE

Diamond Reo Truck, Inc.; Lodging of Stipulation and Agreement To Compromise and Settle Environmental Claims

In accordance with Departmental policy, notice is herby given that on December 12, 1988, a proposed Stipulation and Agreement to Compromise and Settle Environmental Claims in The Matter of: Diamond Reo Trucks, Inc., Civil Action No. 74–1778–B–5, was lodged with the United States Bankruptcy Court for the Western District of Michigan. The proposed Stipulation and Agreement to Compromise and Settle Environmental Claims concerns the resolution of environmental claims of the United States Environmental Protection Agency against the Debtor, Trustee, and Estate of Diamond Reo Trucks, Inc. ("Diamond Reo"), for response costs incurred and to be incurred by the United States at the Liquid Disposal, Inc. site, located in Shelby Township, Michigan. The proposed Stipulation and Agreement to Compromise and Settle Environmental Claims requires Diamond Reo to pay the United States $300,000 as a priority claim in its bankruptcy, in exchange for a covenant by the United States not to sue Diamond Reo for any civil claims for a release for any and all civil liability to the United States, other than any claim for natural resources damages, for response costs and injunctive relief pursuant to sections 106 and 107(a) of the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. 9606 and 9607(a), and section 7003 of the Resource Conservation and Recovery Act, 42 U.S.C. 6973, regarding the Liquid Disposal, Inc. site.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments relating to the proposed consent decree. Comments should be addressed to the Assistant Attorney General of the Land and Natural Resources Division, Department of Justice, Washington, DC 20530, and should refer to In the Matter of: Diamond Reo Trucks, Inc. D.J. Ref. 90–11–3–404.

The proposed Stipulation and Agreement to Compromise and Settle Environmental Claims may be examined at the office of the United States Attorney for the Western District of Michigan, 399 Federal Building, Grand Rapids, Michigan 49503, and at the Region V Office of the Environmental Protection Agency, 230 South Dearborn Street, Chicago, Ill. 60604. Copies of the Stipulation and Agreement to Compromise and Settle Environmental Claims may be examined at the Environmental Enforcement Section, Land and Natural Resources Division of the Department of Justice, Room 1517, Ninth Street and Pennsylvania Avenue NW., Washington, DC 20530. A copy of the proposed Stipulation and Agreement to Compromise and Settle Environmental Claims may be obtained in person or by mail from the Environmental Enforcement Section, Land and Natural Resources Division of the Department of Justice.

In requesting a copy, please enclose a check in the amount of $1.50 (10 cents per page reproduction cost) payable to the Treasurer of the United States.

Roger J. Marzulla,

Assistant Attorney General, Land & Natural Resources Division.

BILLING CODE 4410–01–M

Landfill, Inc.; Lodging a Complaint and Consent Decree

In accordance with Departmental policy, 28 CFR 50.7, notice is hereby given that on October 21, 1988 a proposed Complaint and partial Consent Decree in *United States* v. *Landfill, Inc.*, Civil Action No. 88–Z–1714, was lodged with the United States District Court for the District of Colorado.

The Complaint filed by the United States was brought pursuant to Sections 106 and 107 of the Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA") to compel the cleanup of the Marshall/Boulder Landfill near Marshall, Colorado, and the reimbursement of the United States for its response costs associated with the site. The defendants include Landfill, Inc., The City of Boulder, Cowdrey Corporation, and several individuals who own portions of the site. These defendants are referred to herein as the "Settling Defendants." There are four additional defendants, three corporations which allegedly disposed of hazardous substances at the site, and an individual who was an officer, director, and shareholder of one of the corporations.

The Consent Decree, lodged with the Complaint, provides for the Settling Defendants to design and undertake remedial action chosen by the United States Environmental Protection Agency ("EPA"), and described in EPA's Record of Decision ("ROD") entered September 26, 1986. The remedy selected by EPA in its ROD consists of: Fencing, regrading, and revegetating the Site to restrict access and minimize infiltration;

VOL 53 ISS 243 DE 19 1988 UMI

collecting contaminated ground water by a series of drains partially surrounding the site to eliminate the off-site transport of contaminants via alluvial ground water; treating the ground water by air stripping with off-gas carbon adsorption to reduce concentrations of volatile organics in the ground water to the most conservative of the applicable or relevant and appropriate standards and criteria (and to prevent the escape of volatile organics into the atmosphere); and monitoring to assess the ground water and surface water to assess the effectiveness of the selected remedial alternative. In addition, the Decree provides that the defendants shall reimburse the United States $200,000. The United States has spent approximately $750,000 to date at the site.

The Consent Decree provides for stipulated penalties against the defendants if a schedule attached to the Scope of Work for the cleanup is not met. The Consent Decree also includes covenant-not-to-sue provisions and reservations of rights.

The Department of Justice will receive for a period of thirty days from the date of this publication comments relating to the proposed Complaint and Consent Decree. Comments should be addressed to the Assistant Attorney General, Land and Natural Resources Division, Department of Justice, Washington, DC 20530, and should refer to *United States* v. *Landfill, Inc.*, DOJ Ref. No. 90–11–2–195. The proposed Complaint and Consent Decree may be examined at the office of the United States Attorney, District of Colorado, Suite 1200, Federal Building, 1961 Stout Street, Denver, Colorado, 80294. Copies of the Complaint and Consent Decree may be examined at the Environmental Enforcement Section, Land and Natural Resources Division, Department of Justice, Room 1517, Ninth and Pennsylvania Avenue NW., Washington, DC 20530. A copy of the proposed Consent Decree may be obtained in person or by mail from the Environmental Enforcement Section, Land and Natural Resources Division, Department of Justice. Copying costs are $.10 per page, and the Consent Decree is 48 pages long, so a request for a copy of the Consent Decree must be accompanied with a check or money order made out to the Treasurer of the United States for $4.80.

Roger J. Marzulla,

Assistant Attorney General, Land and Natural Resources Division.

BILLING CODE 4410–01–M

Virgin Islands Housing Authority; Lodging of Consent Decree

In accordance with Department Policy, 28 CFR 50.7, 38 FR 19029, notice is hereby given that a proposed Consent Decree in *United States* v. *Virgin Islands Housing Authority*, Civil Action No. 86–112, was lodged with the United States District Court for the District of the Virgin Islands on December 12, 1988. The proposed Consent Decree provides for the completion of cistern cleaning and repairs and other capital improvements to the Virgin Islands Housing Authority's public water systems, adherence to prescribed operation, maintenance, and water quality monitoring procedures, and the payment of a civil penalty for alleged past violations of the Safe Drinking Water Act, 42 U.S.C. 300f *et. seq.*, and the National Interim Primary Drinking Water regulations, 40 CFR Part 141.

The Department of Justice will receive for a period of thirty (30) days from the date of publication of this notice, written comments relating to the proposed Consent Decree. Comments should be addressed to the Assistant Attorney General, Land and Natural Resources Division, United States Department of Justice, Washington, DC 20530, and should refer to *United States* v. *Virgin Islands Housing Authority*, D.J. Ref. No. 90–5–1–1–2550.

The proposed Consent Decree may be examined at the office of the United States Attorney, District of the Virgin Islands, St. Thomas, United States Virgin Islands 00801; at the Region II office of the United States Environmental Protection Agency, 26 Federal Plaza, New York, New York 10278; and at the Environmental Enforcement Section, Land and Natural Resources Division, United States Department of Justice, Room 1517, Ninth Street and Pennsylvania Avenue NW., Washington, DC 20530. A copy of the proposed Consent Decree may be obtained in person or by mail from the Environmental Enforcement Section, Land and Natural Resources Division, United States Department of Justice, at the above address. In requesting a copy, please enclose a check in the amount of $3.00, payable to the Treasurer of the United States, to cover the costs of reproduction.

Roger J. Marzulla,

Assistant Attorney General, Land and Natural Resources Division.

BILLING CODE 4410–01–M

NATIONAL ECONOMIC COMMISSION

Meeting

AGENCY: National Economic Commission.

ACTION: Notice of Commission meeting.

SUMMARY: The National Economic Commission ("the commission") will hold meetings on January 4, January 5, January 10 and January 11, 1989. The commission was established by Section 2101 of the Omnibus Budget Reconciliation Act of 1987, Pub. L. 100–203, enacted December 22, 1987.

Date, Time and Place: January 4, 1989, 11:00 a.m.–5:30 p.m., Room 562, Dirksen Senate Office Building, Washington, DC; January 5, 1989, 9:00 a.m.–5:30 p.m., Room 562, Dirksen Senate Office Building, Washington, D.C.; January 10, 1989, 10:00 a.m.–6:00 p.m., Room 562, Dirksen Senate Office Building, Washington, DC; January 11, 1989, 9:00 a.m.–4:30 p.m., Room 562, Dirksen Senate Office Building, Washington, D.C.

Agenda: January 4, 1989: Economic assumptions and review of budget options. January 5, 1989: Alternative baselines and treatment of social security. January 10, 1989: Fiscal policy and deficit targets. January 11, 1989: Components of deficit reduction package.

Closed Meeting: The January 4 meeting will be closed to the public. The January 5 meeting will be open to the public from 9:00 a.m. to 11:00 a.m., and closed to the public from 11:00 a.m.–5:30 p.m. The January 10 meeting will be open to the public from 10:00 a.m. to 12 noon, and closed from noon to 6:00 p.m. The January 11 meeting will be closed to the public. All closed meetings will be closed in order to avoid disclosure of information the premature disclosure of which would be likely to significantly frustrate the implementation of the Commission's mandate within section 552b(c)(9), United States Code.

FOR ADDITIONAL INFORMATION CONTACT: Jim Hildreth at 425–8986, National Economic Commission, 734 Jackson Place NW., Washington, DC 20503.

SUPPLEMENTARY INFORMATION: See **Federal Register**, volume 53, No. 80, Tuesday, April 26, 1988, page 14871.

Drew Lewis,

Co-Chairman.

Robert S. Strauss,

Co-Chairman.

BILLING CODE 6820–45–M

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

Meeting; Humanities Panel

AGENCY: National Endowment for the Humanities.

ACTION: Notice of meetings.

SUMMARY: Pursuant to the provisions of the Advisory Committee Act (Pub. L. 92–463, as amended), notice is hereby given that the following meetings of the Humanities Panel will be held at the Old Post Office, 1100 Pennsylvania Avenue, NW., Washington, DC 20506.

FOR FURTHER INFORMATION CONTACT: Stephen J. McCleary, Advisory Committee Management Officer, National Endowment for the Humanities, Washington, DC 20506, telephone 202/786–0322.

SUPPLEMENTARY INFORMATION: The proposed meetings are for the purpose of panel review, discussion, evaluation and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. Because the proposed meetings will consider information that is likely to disclose: (1) Trade secrets and commercial or financial information obtained from a person and privileged or confidential; (2) information of a personal nature the disclosure of which would constitute a clearly unwarranted invasion of personal privacy; or (3) information the disclosure of which would significantly frustrate implementation of proposed agency; pursuant to authority granted me by the Chairman's Delegation of Authority to Close Advisory Committee Meetings, dated January 15, 1978, I have determined that these meetings will be closed to the public pursuant to subsections (c) (4), (6) and (9)(B) of section 552b of Title 5, United States Code.

1. *Date:* January 9, 1989.
Time: 8:00 a.m. to 5:00 p.m.
Room: 415.
Program: This meeting will review applications submitted for Humanities Projects in Museums and Historical Organizations, submitted to the Office of General Programs, for projects beginning after July 1, 1989.

2. *Date:* January 12–13, 1989.
Time: 8:00 a.m. to 5:00 p.m.
Room: 415.
Program: This meeting will review applications submitted for Humanities Projects in Museums and Historical organizations, submitted to the Office of General Programs, for projects beginning after July 1, 1989.

3. *Date:* January 24–25, 1989.
Time: 8:00 a.m. to 5:00 p.m.
Room: 415.
Program: This meeting will review applications submitted for Humanities Projects in Museums and Historical organizations, submitted to the Office of General Programs, for projects beginning after July 1, 1989.

Stephen J. McCleary,
Advisory Committee Management Officer.

BILLING CODE 7536–01–M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–261]

Carolina Power & Light Co.; H.B. Robinson Steam Electric Plant, Unit No. 2; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. DPR–23, issued to Carolina Power & Light Company (the licensee), for operation of the H. B. Robinson Steam Electric Plant, Unit No. 2, located in Darlington County, South Carolina.

Environmental Assessment

Identification of Proposed Action

The proposed amendment would revise the provisions in the Technical Specifications (TS) relating to certain reactor parameters applicable to the reactor coolant loop resistance temperature detector (RTD) system and to support the elimination of the RTD bypass system.

The proposed action is in accordance with the licensee's application for amendment dated July 26, 1988, as supplemented by letters dated August 26 and November 1, 1988.

The Need for the Proposed Action

The proposed change to the TS is required to provide the licensee with the correct values of parameters applicable to the reactor coolant loop resistance temperature detector system. The proposed change would support the elimination of the RTD bypass system and reduce the occupational radiation exposure due to maintenance of the bypass system.

Environmental Impacts of the Proposed Action

The Commission has completed its evaluation of the proposed revision to the TS with regard to environmental impacts. The proposed revision to the TS involves correcting certain parameters as applicable to the RTD system, and the application of these corrected values would have no radiological environment impacts. These corrected values would also support the elimination of the RTD bypass system. The elimination of the bypass system would not result in any environmental impacts which exceed those evaluated in the Final Environmental Statement related to the operation of the facility and would result in savings in occupational radiation exposure associated with the maintenance of the bypass system (approximately 0.1 person-rem/year). Accordingly, the Commission concludes that this proposed action would not result in significant radiological environmental impact.

With regard to potential non-radiological impacts, the proposed change to the TS involves the use of systems located entirely within the restricted area, as defined in 10 CFR Part 20. It does not affect non-radiological plant effluents and has no other environmental impact. Therefore, the Commission concludes that there are no significant non-radiological environmental impacts associated with the proposed amendment.

Alternative to the Proposed Action

Since the Commission concluded that there are no significant environmental effects that would result from the proposed action, any alternatives with equal or greater environmental impacts need not be evaluated.

The principal alternative would be to deny the requested amendment. This would not reduce environmental impacts of plant operation and would result in errors in instrument setpoints.

Alternative Use of Resources

This action does not involve the use of any resources not previously considered in the Final Environmental Statement for the H. B. Robinson Steam Electric Plant, Unit No. 2, dated April 1975.

Agencies and Persons Consulted

The NRC staff reviewed the licensee's request and did not consult other agencies or persons.

Finding of No Significant Impact

The Commission has determined not to prepare an environmental impact statement for the proposed license amendment.

Based upon the foregoing environmental assessment, we conclude

that the proposed action will not have a significant effect on the quality of the human environment.

For further details with respect to this action, see the application for amendment dated July 26, 1988, as supplemented on August 26, and November 1, 1988, which are available for public inspection at the Commission's Public Document Room, 2120 L Street, NW., Washington, DC 20555 and at the Hartsville Memorial Library, Home and Fifth Avenues, Hartsville, South Carolina 29535.

Dated at Rockville, Maryland, this 12th day of December 1988.

For the Nuclear Regulatory Commission.

Ronnie H. Lo,

Acting Project Director, Project Directorate II–1, Division of Reactor Projects I/II, Office of Nuclear Reactor Regulation.

[FR Doc. 88–29087 Filed 12–16–88; 8:45 am]

BILLING CODE 7590–01–M

Advisory Committee on Reactor Safeguards, Subcommittee on Auxiliary and Secondary Systems; Meeting

The ACRS Subcommittee on Auxiliary and Secondary Systems will hold a meeting on January 11, 1989, Room P–114, 7920 Norfolk Avenue, Bethesda, MD.

The entire meeting will be open to public attendance.

The agenda for the subject meeting will be as follows:

Wednesday, January 11, 1989—8:30 a.m. until 12:45 p.m.

The Subcommittee will discuss the design of air systems, problems experienced by utilities with these systems, Industry activities to improve the performance of such systems, and the proposed resolution of Generic Issue 43, "Air Systems Reliability."

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the ACRS Staff member named below as far in advance as is practicable so that appropriate arrangements can be made.

During the initial portion of the meeting, the Subcommittee, along with any of its consultants who may be present, may exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hear presentations by and hold discussions with representatives of the NRC Staff, its consultants, and other interested persons regarding this review.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant ACRS Staff member, Mr. Sam Duraiswamy (telephone 301/492–9522) between 7:30 a.m. and 4:15 p.m. Persons planning to attend this meeting are urged to contact the above named individual one or two days before the scheduled meeting to be advised of any changes in schedule, etc., which may have occurred.

Date: December 12, 1988.

Morton W. Libarkin,

Assistant Executive Director for Project Review.

[FR Doc. 88–29083 Filed 12–16–88; 8:45 am]

BILLING CODE 7590–01–M

Advisory Committee on Reactor Safeguards, Subcommittee on Mechanical Components; Meeting

The ACRS Subcommittee on Mechanical Components will hold a meeting on January 11, 1989, Room P–114, 7920 Norfolk Avenue, Bethesda, MD.

The entire meeting will be open to public attendance.

The agenda for subject meeting shall be as follows:

Wednesday, January 11, 1989–1:30 p.m. until the conclusion of business

The Subcommittee will discuss Air Operated Valve Testing and Operating Experience (including Solenoid Air Control Valves) and other related matters.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the ACRS staff member identified below as far in advance as practicable so that appropriate arrangements can be made.

During the initial portion of the meeting, the Subcommittee, along with any of its consultants who may be present, may exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hear presentations by and hold discussions with representatives of the NRC Staff, its consultants, and other interested persons regarding this review.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant ACRS staff member, Mr. Elpido Igne (telephone 301/492–8192) between 7:30 a.m. and 4:15 p.m. Persons planning to attend this meeting are urged to contact the above named individual one or two days before the scheduled meeting to be advised of any changes in schedule, etc., which may have occurred.

Date: December 12, 1988.

Morton W. Libarkin,

Assistant Executive Director for Project Review.

SECURITIES AND EXCHANGE COMMISSION

Forms Under Review by Office of Management and Budget

Agency Clearance Officer—Kenneth Fogash, (202) 272–2142.

Upon written request copy available from: Securities and Exchange Commission, Office of Consumer Affairs, Washington, DC 20549.

Extension

Rule 12g3–2, SEC File No. 270–104
Rule 13e–1, SEC File No. 270–55

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission has submitted Rule 12g3–2 and Rule 13e–1 for approval of an extension of clearance.

Rule 12g3–2 is an exemption for certain foreign securities affecting 1800 filers at an estimated one burden hour per response.

Rule 13e–1 addresses issuer repurchases in a third party tender offer situation. Currently, there are 20 responses annually at an estimated 13 burden hours per response. Direct general comments to Gary Waxman at the address below. Direct any comments concerning the accuracy of the

estimated average burden hours for compliance with SEC rules and forms to Kenneth A. Fogash, Deputy Executive Director, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549–6004 and Gary Waxman, Clearance Officer, Office of Management and Budget (Paperwork Reduction Projects 3235–119 and 3235–0305), Room 3228, New Executive Office Building, Washington, DC 20503.

Jonathan G. Katz,

Secretary.

Self-Regulatory Organizations; Applications for Unlisted Trading Privileges and of Opportunity for Hearing; Pacific Stock Exchange, Inc.

December 12, 1988.

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the following securities:

Sterling Chemicals, Inc.
Common Stock, $.10 Par Value (File No. 7–4075)
Cypress Semiconductor Corporation
Common Stock, $.01 Par Value (File No. 7–4076)
Bank of New York Co., Inc.
Common Stock, $7.50 Par Value (File No. 7–4077)
Lands End, Inc.
Common Stock, $.01 Par Value (File No. 7–4078)
Midway Airlines, Inc.
Common Stock, $.01 Par Value (File No. 7–4079)
Hasbro, Inc.
8% Convertible Preferred Stock (File No. 7–4080)
ICH Corporation
$1.75 Convertible Exchange Preferred Stock (File No. 7–4081)
Arrow Electronics, Inc.
Depository Convertible Exchange Preference Shares (File No. 7–4082)
Lomas & Nettleton Mortgage Investors
Warrants expiring March 1, 1990 (File No. 7–4083)
Advanced Micro Devices, Inc.
Depository Convertible Exchange Preference Shares (File No. 7–4084)
Arkla, Inc.
$3.00 Convertible Exchange Preferred Stock, Series A (File No. 7–4085)

These securities are listed and registered on one or more other national securities exchange and are reported in the consolidated transaction reporting system.

Interested persons are invited to submit on or before January 3, 1989, written data, views and arguments concerning the above-referenced application. Persons desiring to make written comments should file three copies thereof with the Secretary of the Securities and Exchange Commission, 450 5th Street NW., Washington, DC 20549. Following this opportunity for hearing, the Commission will approve the application if it finds, based upon all the information available to it, that the extensions of unlisted trading privileges pursuant to such applications are consistent with the maintenance of fair and orderly markets and the protection of investors.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

BILLING CODE 8010–01–M

[File No. 22–16972]

Application and Opportunity for Hearing; Northwest Airlines, Inc.

December 12, 1988.

Notice is hereby given that Northwest Airlines, Inc. (the "Company") has filed an application under clause (ii) of section 310(b)(1) of the Trust Indenture Act of 1939 as amended (the "Act") for a finding by the Securities and Exchange Commission (the "Commission") that the trusteeship of Meridian Trust Company (the "Bank") under two indentures between the Company and the Bank, one of which is to be dated as of January 1, 1989 (the "January Indenture") and one of which is dated as of December 1, 1988 (the "December Indenture"), both of which have been submitted for qualification under the Act (collectively, the "Indentures"), is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify the Bank from acting as trustee under any one of such Indentures.

Section 310(b) of the Act provides in part that if a trustee under an indenture qualified under the Act has or shall acquire any conflicting interest (as defined in the section), it shall, within ninety days after ascertaining that it has such conflicting interest, either eliminate such conflicting interest, or resign. Subsection (1) of such section provides, with certain exceptions stated therein, that a trustee under a qualified indenture shall be deemed to have conflicting interest if such trustee is trustee under another indenture of the same obligor.

The Company alleges:

(1) Pursuant to the December Indenture, the Company will issue up to $100,000,000 aggregate principal amount of its Equipment Trust Certificates, (the "December Certificates"), Series A (the "December Series"). Pursuant to the January Indenture, the Company will

issue up to $100,000,000 aggregate principal amount of its Equipment Trust Certificates, (the "January Certificates"), Series B (the "January Series"). The December Series will be issued under the December Indenture between the Bank, The First National Bank of Boston, as owner trustee related to such Series and the Company, in the principal amount of up to $100,000,000. The January Series will be issued under the January Indenture between the Bank, The First National Bank of Boston, as owner trustee related to such Series and the Company, in the principal amount of up to $100,000,000. The December and January Certificates will be registered under the Securities Act of 1933 (the "1933 Act") and the Indentures will be qualified under the Act.

(2) There is no default under any of the Indentures.

(3) The Company's obligations with respect to each Series of Certificates are and will be secured under separate Indentures by separate security interests in separate and distinct property and neither Indenture will provide for cross-collateralization or cross-defaults.

(4) Such differences as exist among the Indentures referred to herein and the respective obligations or the Company as obligor are not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify the Bank from acting as trustee under any of the Indentures.

The Company waives notice of hearing, hearing and any and all rights to specify procedures under the Rules of Practice of the Commission in connection with this matter.

For a more detailed account of the matters of fact and law asserted, all persons are referred to the application which is on file in the Offices of the Commission's Public Reference Section, File Number 22-18972, 450 Fifth Street NW., Washington, DC 20549.

Notice is further given that any interested persons may, not later than January 6, 1988, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues of law or fact raised by such application which he desires to controvert, or he may request that he be notified if the Commission orders a hearing thereon.

Any such request should be addressed: Secretary, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549. At any time after said date, the Commission may issue an order granting the application, upon such terms and conditions as the Commission may deem necessary or appropriate in the public interest and for the protection of investors, unless a hearing is ordered by the Commission.

For the Commission, by the Division of Corporation Finance, pursuant to delegated authority.

Jonathan G. Katz,

Secretary.

BILLING CODE 8010-01-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[Summary Notice No. PE-88-48]

Petition for Exemption; Summary of Petitions Received; Dispositions of Petitions Issued

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of petitions for exemption received and of dispositions of prior petitions.

SUMMARY: Pursuant to FAA's rulemaking provisions governing the application, processing, and disposition of petitions for exemption (14 CFR Part 11), this notice contains a summary of certain petitions seeking relief from specified requirements of the Federal Aviation Regulations (14 CFR Chapter I), dispositions of certain petitions previously received, and corrections. The purpose of this notice is to improve the public's awareness of, and participation in, this aspect of FAA's regulatory activities. Neither publication of this notice nor the inclusion or omission of information in the summary is intended to affect the legal status of any petition or its final disposition.

DATE: Comments on petitions received must identify the petition docket number involved and must be received on or before January 8, 1989.

ADDRESS: Send comments on any petition in triplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC-10), Petition Docket No. _____, 800 Independence Avenue SW., Washington, DC 20591.

FOR FURTHER INFORMATION: The petition, any comments received, and a copy of any final disposition are filed in the assigned regulatory docket and are available for examination in the Rules Docket (AGC-10), Room 915G, FAA Headquarters Building (FOB 10A), 800 Independence Avenue SW., Washington, DC 20591; telephone (202) 267-3132.

This notice is published pursuant to paragraphs (c), (e), and (g) of § 11.27 of Part 11 of the Federal Aviation Regulations (14 CFR Part 11).

Issued in Washington, DC, on December 13, 1988.

Denise Donohue Hall,

Manager, Program Management Staff, Office of the Chief Counsel.

Petitions for Exemption

Docket No.: 25036
Petitioner: Florida Express
Regulations Affected: 14 CFR 121.371(a) and 121.378
Description of Relief Sought: To extend Exemption No. 4750 that allows petitioner to use certain original equipment manufacturers to perform maintenance, preventive maintenance, and alteration outside the United States on its BAC 1-11 aircraft or on the engines and components for such aircraft. Exemption No. 4750 expired on October 31, 1988.

Docket No.: 25585
Petitioner: Gerald A. McGinnis
Regulations Affected: 14 CFR 91.42(a)(1)
Description of Relief Sought/ Disposition: To allow flight instruction for hire to take place using designated home-built amphibious seaplanes. Denial, December 6, 1988, Exemption No. 5000

Docket No.: 054CE
Petitioner: Air Tractor Incorporated
Regulations Affected: 14 CFR 23.49(b)(1)
Description of Relief Sought/ Disposition: To allow certification of the Air Tractor Model AT-503 and AT-802 airplane with stall speeds (V_{so}) greater than the 61 knots requirement. Grant, November 28, 1988, Exemption No. 4980.

BILLING CODE 4910-13-M

Research and Special Programs Administration

Applications for Renewal or Modification of Exemptions or Applications To Become a Party to an Exemption

AGENCY: Research and Special Programs Administration, DOT.

ACTION: List of Applications for Renewal or Modification of Exemptions or Application to Become a Party to an Exemption.

SUMMARY: In accordance with the procedures governing the application for, and the processing of, exemptions from the Department of Transportation's Hazardous Materials Regulations (49 CFR Part 107, Subpart B), notice is hereby given that the Office of

Hazardous Materials Transportation has received the applications described herein. This notice is abbreviated to expedite docketing and public notice. Because the sections affected, modes of transportation, and the nature of application have been shown in earlier **Federal Register** publications, they are not repeated here. Except as otherwise noted, renewal application are for extension of the exemption terms only. Where changes are requested (e.g. to provide for additional hazardous materials, packaging design changes, additional mode of transportation, etc.) they are described in footnotes to the application number. Application numbers with the suffix "X" denote renewal; application numbers with the suffix "P" denote party to. These applications have been separated from the new applications for exemptions to facilitate processing.

DATE: Comment period closes January 4, 1989.

Address Comments To: Dockets Branch, Research and Special Programs, Administration, U.S. Department of Transportation, Washington, DC 20590. Comments should refer to the application number and be submitted in triplicate.

FOR FURTHER INFORMATION CONTACT: Copies of the applications are available for inspection in the Dockets Branch, Room 8426, Nassif Building, 400 7th Street, SW., Washington, DC.

Application for Exemptions

AGENCY: Research and Special Programs Administration, DOT.

ACTION: List of Applicants for Exemptions.

SUMMARY: In accordance with the procedures governing the application for, and the processing of, exemptions from the Department of Transportation's Hazardous Materials Regulations (49 CFR Part 107, Subpart B), notice is hereby given that the Office of Hazardous Materials Transportation has received the applications described herein. Each mode of transportation for which a particular exemption is requested is indicated by a number in the "Nature of Application" portion of the table below as follows: 1—Motor vehicle, 2—Rail freight, 3—Cargo vessel, 4—Cargo-only aircraft, 5—Passenger-carrying aircraft.

DATES: Comment period closes January 19, 1989.

Address Comments To: Dockets Branch, Research and Special Programs, Administration, U.S. Department of Transportation, Washington, DC 20590. Comments should refer to the application number and be submitted in triplicate.

FOR FURTHER INFORMATION CONTACT: Copies of the applications are available for inspection in the Dockets Branch, Room 8426, Nassif Building, 400 7th Street, SW., Washington, DC.

NEW EXEMPTIONS

Application No.	Applicant	Regulation(s) affected	Nature of exemption thereof
10082-N	SternAir, Inc., Dallas, TX	49 CFR 172.101, 172.204(c)(3), 173.27, 175.30(a)(1), 175.320(b) Part 107 Appendix B, Subpart B.	To authorize transport of certain class A, B and C explosives that are forbidden for carriage by air or are in quantities greater than authorized for transport by air. (Mode 4).
10084-N	Composite Engineering Co., Corona, CA.	49 CFR Part 173 Subparts D, F and H as applicable.	To authorize manufacture, marking and sale of non-DOT specification cargo tanks manufactured from fiberglass reinforced plastic similar to the DOT Specifications MC312 and 307 cargo tanks for transportation of those materials authorized for transport in DOT Spec MC312 and 307 cargo tanks. (Mode 1).
10086-N	Breed Automotive Corp., Boonton Township, NJ.	49 CFR 172.101, 173.88(g), 173.94(a)	To authorize shipment of an Airbag Module, Explosive Power Device, classed as a class B explosive as a flammable solid packaged in a DOT spec. 12B carton with styrofoam modules inserted to restrict movement with a gross weight not to exceed 35 pounds. (Modes 1, 2, 3, 4).
10087-N	HLA Engineers, Inc., Dallas, TX	49 CFR 173.124(a)(6)	To authorize shipment of Ethylene oxide classed as a flammable liquid in a 6076 gallon stainless steel DOT Spec 51 portable tank insulated by a 4" polyurethane foam and a 20 gauge stainless steel jacket. (Modes 1, 2, 3).
10088-N	Hedwin Corp., Baltimore, MD	49 CFR 178.211-2(b), Part 173 Subparts D and F.	To authorize manufacture, marking and sale of non-DOT fiberboard containers similar to DOT Spec 12P containers for packaging those corrosive liquids for which a DOT 12P/2U container is authorized and flammable liquids with a flash point above 20 degrees F. (Mode 1).
10090-N	Clawson Tank Co., Clarkson, MI	49 CFR Part 173 Subparts D and F	To authorize manufacturing marking, and sale of a rotationally molded, reusable polyethylene tank within a wire frame enclosure for transport of certain Flammable liquids, Corrosive materials and Oxidizers. (Modes 1, 2).
10091-N	Allergan Optical, Irvine, CA	49 CFR 173.1200(a)(8)(ii)(e)	To authorize shipment of a buffered, normal saline pressurized with nitrogen gas which is nontoxic, nonflammable and nonhydrocarbon as an aerosol Consummer Commodity, ORM-D, in plastic containers which have been waterbath tested at 100 degree F. (Modes 1, 2, 3, 4, 5).
10092-N	Morton Thiokol, Inc., Brigham City, UT.	49 CFR 173.91(a)(2)	To authorize shipment of an Illuminating projectile, Class B explosive with projectiles set in a pallet base with a support cover held in place by strapping. (Modes 1, 3).
10093-N	Olin Chemicals, Stamford, CT	49 CFR 173.182(b)(6)(ii)	To authorize shipment of Sodium nitrate in a polypropylene bag made of 9 denier polypropylene fibers spun continuously to form a sheet weighing at least 3.5 ounces per sq. yd with an inner liner of 4 mil thick polyethylene. (Modes 1, 2, 3).

NEW EXEMPTIONS—Continued

Application No.	Applicant	Regulation(s) affected	Nature of exemption thereof
10094–N	Columbia Nitrogen Corp., Augusta, GA.	49 CFR 173.154(a)(17)	To authorize shipment of Ammonium Nitrate Solution (containing not less than 15% water) classed as an oxidizer in DOT Specification 111A100W1 tank cars equipped with insulation and interior tank lined with plasite 9570. (Mode 2).
10095–N	Moli Energy Limited, Burnaby, B.C., Canada.	49 CFR 173.206, 175.3, 175.85, Part 107 Appendix B.	To authorize shipment of certain Lithium batteries and cells packed in strong inner fiberboard containers containing a maximum of 125 grams of lithium in one inner container with no cell containing more than 0.85 grams of lithium. (Mode 5).
10096–N	Alby Klorat AB, S–774 00 Avesta, Sweden.	49 CFR 173.163	To authorize shipment of Potassium chlorate classed as an oxidizer packed in 4-ply paper bags with a plastic lining, 50 bags of 25 kg each, on a wooden pallet, shrink wrapped in plastic. (Modes 1, 2, 3).
10097–N	Hercules Inc., Magna, UT	49 CFR 173.88(e)(2)(ii), 173.92(a)(1), 173.92(b).	To authorize shipment of Rocket motors, Class B explosive in a propulsive state. (Mode 1).

This notice of receipt of applications for new exemptions is published in accordance with Part 107 of the Hazardous Materials Transportations Act (49 U.S.C. 1806; 49 CFR 1.53(e)).

Issued in Washington, DC, on December 13, 1988.

Culturally Significant Objects Imported for Exhibition; Determination

Notice is hereby given of the following determination: Pursuant to the authority vested in me by the act of October 19, 1965 (79 Stat. 985, 22 U.S.C. 2459), Executive Order 12047 of March 27, 1978 (43 FR 13359, March 29, 1978), and Delegation Order No. 85–5 of June 27, 1985 (50 FR 27393, July 2, 1985), I hereby determine that the objects to be included in the exhibit "Masterworks of Ming and Qing Painting from the Forbidden City" (see list [1]), imported from abroad for the temporary exhibition without profit withing the United States, are of cultural significance. I also determine that the temporary exhibition or display of the listed exhibit objects at the Honolulu Academy of Arts, Honolulu, Hawaii, beginning on or about January 7, 1989 to on or about February 12, 1989, the High Museum of Art, Atlanta, Georgia, beginning on or about February 28, 1989 to on or about April 2, 1989, the Cleveland Museum of Art, Cleveland, Ohio, beginning on or about April 15, 1989 to or on or about May 21, 1989, the Minneapolis Institute of Arts, Minneapolis, Minnesota, beginning on or about June 3, 1989 to on or about July 9, 1989, and the Metropolitan Museum of Art, New York, New York, beginning on or about September 16, 1989 to or about October 29, 1989, is in the national interest.

Public notice of this determination is ordered to be published in the **Federal Register**.

Date: December 14, 1988.

R. Wallace Stuart,

Acting General Counsel

Sunshine Act Meetings

Federal Register
Vol. 53, No. 243
Monday, December 19, 1988

This section of the FEDERAL REGISTER contains notices of meetings published under the "Government in the Sunshine Act" (Pub. L. 94-409) 5 U.S.C. 552b(e)(3).

FEDERAL DEPOSIT INSURANCE CORPORATION

Notice of Changes in Subject Matter of Agency Meeting

Pursuant to the provisions of subsection (e)(2) of the "Government in the Sunshine Act" (5 U.S.C. 552b(e)(2)), notice is hereby given that at its closed meeting held at 2:30 p.m. on Tuesday, December 13, 1988, the Corporation's Board of Directors determined, on motion of Chairman L. William Seidman, seconded by Director C.C. Hope, Jr. (Appointive), concurred in by Director Robert L. Clarke (Comptroller of the Currency), the Corporation business required the withdrawal from the agenda for consideration at the meeting, on less than seven days' notice to the public, of the application of Pioneer Financial, A Cooperative Bank, an operating non-FDIC-insured cooperative bank located at 46 Pleasant Street, Malden, Massachusetts, for Federal deposit insurance.

The Board further determined, by the same majority vote, that Corporation business required the addition to the agenda for consideration at the meeting, on less than seven days' notice to the public, of a recommendation regarding the Corporation's assistance agreement with an insured bank.

The Board further determined, by the same majority vote, that no earlier notice of these changes in the subject matter of the meeting was practicable; that the public interest did not require consideration of the matters added to the agenda in a meeting open to public observation; and that the matters added to the agenda could be considered in a closed meeting by authority of subsections (c)(4), (c)(6), and (c)(9)(B) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(4), (c)(6), and (c)(9)(B)).

Dated: December 14, 1988.

Federal Deposit Insurance Corporation.

Robert E. Feldman,

Deputy Executive Secretary.

INTERNATIONAL DEVELOPMENT COOPERATION AGENCY

Agency For International Development

22 CFR Part 210

[AID Regulation 10]

Foreign Donations of Agricultural Commodities [416(b) Program]

AGENCY: Agency for International Development (A.I.D.).

ACTION: Proposed rule.

SUMMARY: This proposed rule indicates how the regulations at 22 CFR Part 210 would be revised to implement the amendments to section 416(b) of the Agricultural Act of 1949 contained in the Food Security Act of 1985, Pub. L. 99–198, in the Agricultural Aid and Trade Missions Act, Pub. L. 100–202, Dec. 22, 1987, and in other legislation, and to make other necessary changes.

DATE: Comments on these proposed rules must be received on or before February 17, 1989.

ADDRESS: Comments should be submitted to: Ms. Jessie C. Vogler, Office of Food for Peace, Bureau for Food for Peace and Voluntary Assistance, Agency for International Development, Washington, DC 20523. Telephone: (703) 875–4438.

FOR FURTHER INFORMATION CONTACT: Ms. Donna Rosa, Actg. Chief, Project Coordination Division, Office of Food for Peace, Bureau for Food for Peace and Voluntary Assistance, Agency for International Development, Washington, DC 20523. Telephone: (703) 875–4706.

SUPPLEMENTARY INFORMATION: This notice has been reviewed under A.I.D.'s required procedures. It has been determined that these program provisions will not result in any significant adverse effects on competition, employment, investment, productivity, or innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

It has been determined that the Regulatory Flexibility Act is not applicable to this notice since A.I.D. is not required by 5 U.S.C. 553 or any other provision of law to publish a notice of proposed rulemaking with respect to the subject matter of this notice. It has been determined that the provisions of 5 U.S.C. 553 do not apply to this rule since the subject matter of the rule involves foreign affairs functions of the United States and a matter relating to grants.

Comments are requested within 60 days after publication and the proposed rule will be reviewed in order that a final document discussing comments received and any desirable amendments may be published in the Federal Register. The final document will be made effective upon publication in the Federal Register.

Background

Section 416 of the Agricultural Act of 1959 (the "Act") was amended by the Omnibus Budget Reconciliation Act of 1982 (Pub. L. 97–253) to authorize the foreign donation of dairy products acquired by the Commodity Credit Corporation (hereinafter "CCC") through its price support program. In order to coordinate resources efficiently in carrying out the section 416 Foreign Donation Program, CCC and the Agency for International Development (hereinafter "A.I.D.") entered into a Memorandum of Understanding on August 9, 1983, which established A.I.D. as the agent for CCC in the operation of certain aspects of the section 416 program. Pursuant to this Memorandum of Understanding, A.I.D. promulgated the regulation set out at 22 CFR Part 210 governing the program. (49 FR 22024, May 24, 1984). The regulation provides that CCC and A.I.D. shall enter into agreements with Cooperating Sponsors (as defined in the regulation) for the donation of agricultural commodities. Such agreements shall include a description of the programs that the Cooperating Sponsor shall undertake with respect to the donated commodities (hereinafter "Plan of Operations").

The Agricultural Programs Adjustment Act of 1984 (Pub. L. 98–258) amended section 416 of the Act to expand the authority of CCC to donate agricultural commodities for assistance abroad. The amendments placed the authority for the foreign donation program in new subsection (b) of section 416, authorized the foreign donation of wheat acquired by CCC under its price support operations in addition to dairy products, authorized the donations for carrying out assistance under Title II of the Agricultural Trade Development and Assistance Act of 1954 ("Pub. L. 480"), and authorized sale or barter of donated commodities as approved by the Secretary of Agriculture.

Public Law 99–83 further added rice as an eligible commodity for foreign donation.

The Food Security Act of 1985 (Pub. L. 99–198) extensively revised section 416(b) of the Act by, among other things, expanding the categories of agricultural commodities which are eligible for donation and expanding the provisions regarding the sale or barter of commodities donated to cooperating sponsors.

In view of these amendments CCC and A.I.D. executed a revised Memorandum of Understanding on August 13, 1987 to reflect the new provisions of section 416(b) of the Act.

Further changes to section 416(b) were made pursuant to amendments to the Agricultural Aid and Trade Mission Act in 1988.

Summary of New Provisions

This proposed rule incorporates the following major changes:

(1) Eligible Commodities

Section 416(b)(2) of the Act now states that the Secretary of Agriculture (hereinafter "Secretary") may provide dairy products, wheat, rice, feed grains and oilseeds acquired by CCC through its price support operations and such other edible agricultural commodities as are acquired by the Secretary or CCC in the normal course of operations.

This proposed rule amends the regulations to authorize the donation of the expanded categories of eligible commodities.

(2) Bellmon Determination

Section 416(b)(3)(B) of the Act provides that the requirements of section 401(b) of Pub. L. 480 shall apply with respect to commodities furnished under section 416(b). Section 401(b) of Pub. L. 480 (popularly known as "the Bellmon Determination"), provides that no agricultural commodity may be made available except upon a determination by the Secretary that (1) adequate storage facilities are available in the recipient country at the time of exportation of the commodity to prevent spoilage or waste and (2) the distribution of the commodity in the recipient country will not result in a substantial disincentive to or interference with domestic production or marketing in that country.

A Bellmon Determination will be made prior to the signing of any section 416(b) Foreign Donation Program Agreement. This proposed rule provides that section 416(b) Foreign Donation Program Agreements are subject to suspension or termination where changed circumstances indicate that the original Bellmon Determination is no longer valid.

(3) Usual Marketing Requirements

Section 416(b)(3)(C) of the Act states that the Secretary shall take reasonable precautions to ensure (1) that commodities furnished will not displace

or interfere with sales that might otherwise be made, and (2) that sales or barter of the donated commodities will not unduly disrupt world prices of agricultural commodities nor normal patterns of commercial trade with friendly countries.

This proposed rule amends the regulation to implement the section 416(b)(3)(C) requirements. Where the Cooperating Sponsor is a foreign government, the regulation continues the present provision that the U.S. Government may require the foreign government to assure the commercial purchases of a stated usual marketing requirement for the donated commodity. The amended regulation adds a prohibition against re-exporting the donated commodity, as well as other related commodities, as defined in the section 416(b) Foreign Donation Program Agreement. This export prohibition applies both to direct donation programs and to sales or barter of the donated commodities. Therefore, when a foreign government's Plan of Operation includes a program of monetization, that government will be required to take reasonable precautions to prevent the re-export of the donated commodities after sale.

It is not feasible to impose any export limitation provision in an agreement with a Cooperating Sponsor other than a foreign government. These trade considerations will be reviewed prior to signing an agreement with a foreign government, and an agreement will only be signed if it is determined that the furnishing of commodities will not be likely to have the adverse effects on world trade.

(4) Sales and Barter

Section 416(b)(7) authorizes the Secretary to approve the sale and barter of the donated commodities and products thereof in the following situations: (1) Sales or barter that are incidental to the donation of the commodities or products; (2) sales or barter to finance the distribution, handling and processing costs of the donated commodities or products in the importing country or in a country through which such commodities or products must be transshipped, or other activities in the importing country that are consistent with providing food assistance to needy people; (3) sales or barter to cover certain costs borne by CCC including, among others, packaging, enrichment, presevation and fortification in the United States; (4) when the Cooperating Sponsor is an intergovernmental organization, sales or barter of donated commodities consistent with the Cooperating Sponsor's normal programming procedures in the distribution of commodities; and (5) sales of commodities and products furnished to nonprofit and voluntary agencies, or cooperatives, as Cooperating Sponsor, to transport, store, distribute or otherwise enhance the effectiveness of the use of commodities and products donated, and to implement income generations for community development, health, nutrition, cooperative development, agricultural programs, and other developmental activities.

Section 416(b)(7) further provides that no portion of the proceeds or services realized from sales or barter may be used to meet operating or overhead expenses, except as provided above in relation to intergovernmental organizations, and except for personnel and administrative costs incurred by local cooperatives.

This proposed rule modifies the regulation to explicitly authorize sales and barter under the above described circumstances.

The rule further provides that approval of sale or barter proposals will be made on a case-by-case basis. In reviewing the Cooperating Sponsor's Plan of Operations, special emphasis will be placed upon (i) the intended uses of local currency proceeds generated from the sale (or the goods and services received from barter), (ii) the ability of the Cooperating Sponsor to use effectively and to account for such proceeds, goods or services, and (iii) the risk of displacing commercial sales and imports, among other things.

The provisions of this proposed rule which relate to sales and barter are intended to balance the need to control against abuses, with the need to protect the Cooperating Sponsor from overly intensive procedural, reporting or recordkeeping requirements. Accordingly, this proposed rule provides certain minimal safeguards which apply to all section 416(b) Foreign Donation Program Agreements, but also provides sufficient discretion to require greater safeguards where past experience with the recipient country or the current conditions in the recipient country indicate the need.

(5) Use of Foreign Currency Proceeds or Services

Section 416(b)(8)(B) provides that the Secretary shall be responsible for regulations governing the use of foreign currency proceeds which will provide reasonable safeguards to prevent abuses in the conduct of sales and barter activities.

This proposed rule therefore amends the regulation to require that a Cooperating Sponsor must state in its Plan of Operations the anticipated sales price or value to be received in any sale or barter of the donated commodities, or, if the price or value of services cannot be estimated the rule requires the Cooperating Sponsor to provide sufficient procedural protections to assure that a fair price is obtained. The rule also requires the Cooperating Sponsor to create a special account for maintenance of the proceeds and that the Plan of Operations identify the uses of the proceeds.

If, pursuant to an approved Plan of Operations, the Cooperating Sponsor intends to sell or barter the donated commodities to any other public or private entity, the Cooperating Sponsor must enter into a written agreement governing the sale or barter of the donated commodities. Copies of the executed agreements shall be provided to the USAID or Diplomatic Post.

In light of the authority to allow sales and barters of commodities, the proposed rule amends the regulation governing voluntary contributions from recipients in order to clarify what would be permissible as a voluntary contribution as opposed to a sale, and what the obligations will be of Cooperating Sponsors who accept voluntary contributions in exchange for commodities.

(6) Reporting and Record Keeping Requirements

Section 416(b)(9)(A) of the Act requires Cooperating Sponsors which receive commodities and products approved for sale or barter to report to the Secretary with respect to several items. Items reported must include (1) the quantity of commodities furnished for sale or barter, (2) the amount of funds or the value of services generated in foreign currency and U.S. dollars, and (3) the uses of the proceeds or services; and (4) the amount of foreign currency proceeds used and the percentage of the quantity of all commodities and products donated and such use represented.

This proposed rule amends the regulation to incorporate these reporting requirements. The rule also amends the recordkeeping requirements in the regulation to expand their coverage to include all documents relating to the sale or barter of donated commodities, and to the programs financed with the foreign currency proceeds. These changes allow for monitoring the recipients' compliance with the section 416(b) Foreign Donation Program Agreement.

(7) Preference For U.S. Flag Vessels

Section 1142 of the Food Security Act of 1985 amended the cargo preference provisions of the Merchant Marine Act, 1936 (46 U.S.C. 1101 *et seq.*), requiring an increase in the minimum percentage of section 416(b) cargo that must be shipped aboard U.S. flag vessels. This percentage is now 75%.

(8) Appendix

Appendix I provides a sample section 416(b) Foreign Donation Program Agreement.

(9) Time of Payment of Ocean Transportation

Problems have arisen over the deadline set out in the regulation for the reimbursement of ocean transportation costs. The regulation is amended to clarify that the date shall be 30 days from the date that the Director of Pub. L. 480 Operations Division, FAS/USDA, Washington, DC 20250, receives the proper documentation. Cooperating Sponsors, as defined in the regulation, are encouraged to contact the Chief, Project Coordination Division, Office of Food For Peace (FFP/PCD), Agency for International Development for information and assistance in preparing proposals and thereby expedite consideration of the proposals. Telephone: [703] 875–4706.

List of Subjects in 22 CFR Part 210

Agricultural commodities, Exports, Foreign aid, Foreign relations.

Accordingly, Part 210 of Title 22 of the Code of Federal Regulations is proposed to be revised to read as follows:

PART 210—FOREIGN DONATION OF AGRICULTURAL COMMODITIES (SECTION 416(b) FOREIGN DONATION PROGRAM)

Sec.

210.1 General purpose and scope.
210.2 Definitions.
210.3 Eligibility requirements for organizations to participate.
210.4 Section 416(b) Foreign Donation Program Agreement.
210.5 Availability of commodities.
210.6 Obligations of the Cooperating Sponsor.
210.7 Processing, repackaging and labeling of commodities in a foreign country.
210.8 Arrangements for entry and handling in foreign country.
210.9 Disposition of commodities unfit for authorized use.
210.10 Liability for loss, damage or improper distribution of commodities—claims and procedures.
210.11 Records and reporting requirements of cooperating sponsor.
210.12 Additional responsibilities of cooperating sponsor.
210.13 Termination of program.
210.14 Waiver and amendment authority.
210.15 OMB control number assigned pursuant to the Paperwork Reduction Act.
Appendix I—Section 416(b) Foreign Donation Program Agreement.

Authority: Section 416(b) of the Agricultural Act of 1949, as amended (7 U.S.C. 1431(b)).

§ 210.1 General purpose and scope.

(a) *Terms and conditions.* Pursuant to section 416(b) of the Agricultural Act of 1949, as amended [section 416(b)], this Part 210 contains the terms and conditions governing the donation of eligible agricultural commodities for carrying out programs of assistance in developing countries and friendly countries, under Title II of the Agricultural Trade Development and Assistance Act of 1954, as amended [Pub. L. 480], through friendly foreign governments and private or public agencies, including cooperatives and intergovernmental organizations. However, these regulations do not apply to the World Food Program or the United Nations Relief and Work Agency except as may be specifically provided.

(b) *Legislation.* Section 416(b) generally provides that the Secretary of Agriculture may furnish, for carrying out certain programs of assistance in developing countries and friendly countries, eligible agricultural commodities acquired by the Secretary or the Commodity Credit Corporation [CCC]. CCC may pay the processing, packaging, transporting, handling and other charges, including certain costs of overseas delivery in connection with furnishing such commodities; and may pay processing and domestic handling costs in the form of eligible commodities.

(c) These regulations are promulgated by the Agency for International Development [A.I.D.] pursuant to a Memorandum of Understanding between A.I.D. and CCC establishing A.I.D. as agent for CCC in the operation of certain aspects of the section 416(b) Foreign Donation Program allocating responsibilities for administering the section 416(b) Foreign Donation Program.

§ 210.2 Definitions.

(a) "A.I.D." means the Agency for International Development including, when applicable, each USAID Mission overseas. "AID/W" means the office of A.I.D. located in Washington, DC.

(b) "Agricultural Commodities" or "Commodities" means agricultural commodities or products acquired by the Secretary of Agriculture or by the CCC and designated by the Secretary of Agriculture as available for disposition under the section 416(b) Foreign Donation Program.

(c) "Barter" means to exchange agricultural commodities for services or goods.

(d) "CCC" means the Commodity Credit Corporation, a corporate agency and instrumentality of the United States within the U.S. Department of Agriculture.

(e) "Cooperating Sponsor" means a foreign government, a public or non-profit private humanitarian organization, an intergovernmental organization, a cooperative, the American Red Cross, or other agency which has been approved by A.I.D. for participation in a section 416(b) Foreign Donation Program.

(f) "Cooperative" means a non-profit organization, engaged in the production or marketing of agricultural commodities.

(g) "Diplomatic Post" means an office of the Department of State located in a foreign country, and may include an Embassy, Legation, or Consular office.

(h) "Duty Free" means exempt from all customs duties, tolls, taxes or governmental impositions levied on the act of importation.

(i) "Local Currency Proceeds" or "Proceeds" means the net local currency generated from the sale of donated agricultural commodities, after deducting appropriate costs the cooperating sponsor pays in getting the food ready for sale and getting it to where it can be sold, or, where appropriate, generated from the voluntary contribution of nominal monetary amount for donated agricultural commodities.

(j) "Humanitarian organization' means an organization that has the purpose of carrying out activities designed to provide assistance benefiting needy people.

(k) "Non-profit" means that the residue of income over operating expenses accruing in any activity, project, or program is used solely for the operation of such activity, project or program.

(l) "Ocean transportation" or "ocean freight" includes the transportation of commodities, and freight payments thereon, under an intermodal through bill of lading.

(m) "Private organization" means a non-governmental organization that receives private funding.

(n) "Recipients" means persons who are in need of food assistance because

of their economic or nutritional condition or who are otherwise eligible to receive commodities for their own use in accordance with the terms and conditions of the Foreign Donation Program Agreement.

(o) "Sale" means the exchange of donated agricultural commodities for local currency.

(p) "USAID Mission" means an office of A.I.D. located in a foreign country, and includes a USAID Representative, USAID Affairs Officer or a Section of the Embassy handling A.I.D. matters in a foreign country.

(q) "USDA" means the U.S. Department of Agriculture.

§ 210.3 Eligibility requirements for organizations to participate.

(a) To be eligible to participate as a Cooperating Sponsor in the section 416(b) Foreign Donation Program, an entity must be within the definition of "Cooperating Sponsor" in § 210.2(e).

(b) All non-profit private humanitarian organizations that have received dairy products for foreign distribution from CCC under the authority of section 416 prior to the issuance of this regulation are eligible to continue to participate in the section 416(b) Foreign Donation Program.

(c) All organizations registered with A.I.D. under A.I.D. Regulation 3, 22 CFR Part 203 ("Registration of Agencies for Voluntary Foreign Aid") are eligible to participate in the section 416(b) Foreign Donation Program.

(d)(1) Organizations eligible to be registered under paragraph (c) of this section which are not so registered, and which are not eligible under paragraph (b) of this section, may apply for registration by contacting the Registration Officer, Office of Private and Voluntary Cooperation (FVA/PVC), Bureau for Food for Peace and Voluntary Assistance, Agency for International Development, Washington, DC 20523.

(2) In exceptional circumstances, one or more of the provisions in the Conditions of Registration contained in A.I.D. Regulation 3, 22 CFR Part 203 may be waived by the Assistant Administrator, Bureau for Food for Peace and Voluntary Assistance [FVA], of A.I.D., on the recommendation of the Office of Food for Peace following the registration review by the Office of Private and Voluntary Cooperation (FVA/PVC).

(e)(1) Certain categories of organizations engaged exclusively in religious activities, and private foundations, which do not meet Condition No. 1 of A.I.D. Regulation 3, 22 CFR Part 203, will not be registered but may, in exceptional circumstances, apply to become Cooperating Sponsors in the section 416(b) Foreign Donation Program, following the review described in paragraph (e)(2) of this section.

(2) The Office of Food for Peace will conduct a review of applications described in paragraph (e)(1) of this section, and of applications put forward outside the context of registration, and forward recommendations to the Assistant Administrator, FVA Bureau, A.I.D., for a decision regarding participation.

(f) Cooperating Sponsors must submit to A.I.D. a program plan of operations for approval. For details see § 210.6(a) herein.

§ 210.4 Section 416(b) Foreign Donation Program Agreement.

(a) The Cooperating Sponsor will enter into a written agreement with A.I.D. and CCC by signing a section 416(b) Foreign Donation Program Agreement which will incorporate by reference the terms and conditions set forth in this part (A.I.D. Regulation 10) and the approved Program Plan of Operation.

(b) Appendix I of this Regulation is a Sample Format of the section 416(b) Foreign Donation Program Agreement. This format will be modified when deemed appropriate by the U.S. Government, as in the case of monetization or emergency programs.

§ 210.5 Availability of commodities.

(a) Commodities will be available for distribution and use in accordance with the provisions of the section 416(b) Foreign Donation Program Agreement. Unless provided otherwise in the section 416(b) Foreign Donation Program Agreement, the quality of agricultural commodities donated by CCC and the packaging of the agricultural commodities will be in accordance with agricultural commodity and packaging specifications determined by CCC and set forth in the section 416(b) Foreign Donation Program Agreement.

(b) Unless the section 416(b) Foreign Donation Program Agreement provides otherwise, title to all bulk commodities shall pass at the time and place of delivery free on board (FOB) vessel at U.S. port, and title to all other commodities shall pass at the time and place of delivery free along side (FAS) vessel at U.S. port, or in the case of intermodal shipments, at the intermodal delivery point.

(c)(1) The CCC will pay processing, packaging, transporting, handling, and other charges incurred in making commodities available to Cooperating Sponsors as agreed upon in the section 416(b) Foreign Donation Program Agreement.

(c)(2) All costs and expenses incurred subsequent to the transfer of title to Cooperating Sponsors shall be borne by them except that, when specifically provided in the section 416(b) Foreign Donation Program Agreement, or upon the determination by CCC that it is in the best interest of the program to do so, CCC may pay or make reimbursement for transportation from U.S. ports to designated ports or points of entry abroad, and in the case of urgent and extraordinary relief requirements, transportation costs from designated points of entry or ports of entry abroad to storage and distribution sites and associated storage and distribution costs.

(d) Shipment of commodities and the payment of ocean freight shall be made in accordance with the following procedures:

(1) When the Cooperating Sponsor agrees to pay ocean transportation costs and to perform freight forwarding and booking functions:

(i) The Kansas City Commodity Office (KCCO) ASCS/USDA will furnish the Cooperating Sponsor with a Notice of Commodity Availability (form CCC–512) which will name the receiving country, commodity quantity, and date available at U.S. port. The Cooperating Sponsor will arrange ocean transportation and freight forwarding in accordance with the instructions of CCC regarding the quantity of commodities to be shipped on U.S. flag vessels. Non-Vessel Operating Common Carriers (NVOCC) may not be employed to carry U.S.-flag shipments. Approval of ocean transportation arrangements shall be obtained from KCCO/ASCS/USDA, P.O. Box 419205, Kansas City, MO 64141–0205. Telephone: (816) 926–6658.

(ii) The Cooperating Sponsor will complete form CCC–512 indicating the name of steamship company, vessel name, vessel flag and estimated time of arrival at U.S. port, and will sign and return the completed form to KCCO/ASCS/USDA, P.O. Box 419205, Kansas City, MO 64141–0205, with a copy of Pub. L. 480 Operations Division, Foreign Agricultural Service, USDA, Washington, DC 20250. KCC/ASCS/USDA will then issue instructions to have the commodity shipped f.a.s. vessel, or f.o.b. vessel, U.S. port or intermodal delivery point for consignment to the Cooperating Sponsor as specified in the form CCC–512.

Unless provided otherwise in the section 416(b) Foreign Donation Program Agreement, U.S. ports will be selected

on the basis of the lowest landed cost to CCC, except where mutually agreeable to both the Cooperating Sponsor and KCCO/ASCS/USDA.

(2) When CCC agrees to pay ocean transportation costs and the Cooperating Sponsor agrees to perform freight forwarding and booking functions:

(i) KCCO/ASCS/USDA will furnish the Cooperating Sponsor with a form CCC–512 which will name the receiving country, commodity, quantity and date available at U.S. port. The Cooperating Sponsor will then arrange ocean transportation and freight forwarding in accordance with the instructions of CCC regarding the quantity of commodities to be shipped on U.S.-flag vessels. Non-Vessel Operating Common Carriers (NVOCC) may not be employed to carry U.S.-flag shipments. Approval of ocean transportation arrangements shall be obtained from KCCO/ASCS/USDA, P.O. Box 419205, Kansas City, MO 64141–0205, Telephone (816) 926–6658.

(ii) The Cooperating Sponsor will complete the form CCC–512 indicating ocean freight rate as stated in the Federal Maritime Commission [FMC] tariff [with tariff identification], name of steamship company, name of vessel, flag of vessel, and estimated time of arrival at U.S. port, and will sign and return the completed form CCC–512 to KCCO/ASCS/USDA, with a copy to Pub. L. 480 Operations Division, Foreign Agricultural Service, USDA, Washington, DC 20250. KCCO/ASCS/USDA will then issue instructions to have the commodity shipped f.a.s. vessel or f.o.b. U.S. port, or intermodal delivery port for consignment to Cooperating Sponsor as specified in the CCC–512. Unless provided for otherwise in the section 416(b) Foreign Donation Program Agreement, U.S. ports will be selected on the basis of lowest landed cost to CCC, except where mutually agreeable to the Cooperating Sponsor and KCCO/ASCS/USDA.

(iii) CCC will pay the Cooperating Sponsor or the ocean carrier, as may be agreed upon, for ocean transportation costs within 30 days of receipt by the Director, Pub. L. 480 Operations Division, Foreign Agricultural Service, Washington, DC 20250, of the following documentation: (A) One copy of completed form CCC–512 [as indicated above]; (B) three copies of freighted onboard bill of lading signed by originating carrier or intermodal through bill of lading; (C) two copies of booking note or charter party covering ocean transportation of subject cargo; (D) request for payment, indicating amount due and certification that payment has been made to ocean carrier or request for direct payment to ocean carrier.

(3) When CCC issues instructions to Cooperating Sponsors regarding freight forwarding and booking ocean transportation, CCC will comply with the provisions of the Merchant Marine Act, 1936, as amended, regarding the minimum cargo to be shipped aboard U.S.-flag vessels, and will endeavor to meet tonnage requirements on an overall program basis for the 12-month compliance period.

§ 210.6 Obligations of the Cooperating Sponsor.

(a) Plan of Operations. Each Cooperating Sponsor shall submit to A.I.D. or the Diplomatic Post a description of the programs it is sponsoring or proposes to sponsor. This description will, when approved by A.I.D. and CCC, provide the basic information for preparation of the section 416(b) Foreign Donation Program Agreement and will be incorporated by reference into such an agreement. Within the overall objectives of the approved program, elements of the program may be changed by written agreement of authorized representatives of the Cooperating Sponsor, A.I.D., and CCC. In case of conflict between the Agreement and the approved Plan of Operations, the Agreement will prevail. The Plan of Operations should specify clearly how the proposed program is to be conducted. In addition to any other requirements of law or regulation, the Plan of Operations will include the following information:

(1) A description of program goals and criteria for measuring progress toward reaching the goals.

(2) A geographic, economic, medical or other appropriate description of the recipient target group that is sufficient to readily determine recipient eligibility to receive section 416(b) commodities and to assure that such commodities will not displace commercial sales in the recipient country.

(3) Statements as to what public recognition and container markings will be employed in the distribution of the commodities.

(4) A logistics plan that demonstrates the adequacy of port, transportation, and storage/warehousing facilities to handle the flow of commodities to recipients without undue risk of spoilage or waste.

(5) Sufficient information concerning the plan of distribution and the recipient target group so that a determination can be made as to whether the proposed food distribution would result in a substantial disincentive to domestic food production.

(6) Statements detailing the support of the government of the host country acquiring the commodity or any other support for the proposed program.

(7) Kind and quantity of agricultural commodities requested and delivery schedule.

(8) Describe any reprocessing or repackaging that will occur in the country, giving location and name of firm that will perform the reprocessing or packaging.

(9) Explain how costs of administration, storage, transportation, processing, repackaging, special labels, issuance of information materials, etc., will be financed.

(10) Describe other contributions such as financial, human resources, other food commodities, etc., including the source, estimate of the amount and role the contributions will play in the program.

(11) Explanation of the methods of educating recipients on the source of agricultural commodities, program requirements, and preparation and use of agricultural commodities, particularly steps to be taken to assure that there will be no harmful unintended effects from the distribution of the agricultural commodities. Therefore, examples of educational materials for the field or guidelines should be presented which include food handling precautions, such as refrigeration, to prevent contamination and spoilage of, for instance, cheese and butter products; immediate preparation of foods before eating; discarding of leftovers if no refrigeration is available; and information about proper use and preparation of non-fat dry milk [NFDM] in its dry and reconstituted form where NFDM is distributed. Specifically, in child feeding programs where NFDM is distributed in bulk directly to families, projects at a minimum should include education on (i) promotion of exclusive breast feeding for 4–6 months and continuation of breast feeding after solid foods are introduced, (ii) use of NFDM as a protein supplement, (iii) the importance of combining NFDM with energy rich foods, e.g. oil, fats, porridges, stews, etc., (iv) precautions to be taken to prevent contamination of foods prepared with NFDM, and (v) precautions to be taken when NFDM is reconstituted as a milk drink, when there is evidence that it may be used this way.

(12) Description of the method to be used to supervise, monitor and account for the distribution, sale or barter of the agricultural commodities to assure that they are distributed to the intended recipients or sold or bartered as

intended, and any proceeds used as intended.

(13) Information to show approval of host government to import the donated agricultural commodity duty free.

(14) A detailed description of any intended sales or barter by the Cooperating Sponsor of agricultural commodities requested under the section 416(b) Foreign Donation Program. Information to be supplied will include:

(i) Quantity and type of commodities to be sold or bartered and anticipated purchasers or barter parties.

(ii) The amount of local currencies anticipated to be generated from the sale, or the value of the goods or services anticipated to be generated from the barter, of the donated agricultural commodities; except that, where such an amount or value cannot be estimated, the Cooperating Sponsor will describe the method to be used to ensure that a fair return of cash, goods or services will be received for the commodities.

(iii) All generated local currencies should be deposited into an interest bearing account for control and monitoring. The accrued interest will be added to the principal and disbursed for approved projects or activities.

(iv) The specific uses of local currency proceeds and a timetable for their expenditure.

(v) The method of accounting for the receipt, deposit and disbursement of local currency proceeds, which must include a separate special account.

(vi) A description of the goods or services for which donated agricultural commodities are intended to be bartered; and a method for ensuring that such goods or services are received.

(vii) Information concerning the extent to which any sale or barter of the donated agricultural commodities would displace normal commercial imports or displace or interfere with local production, or any sales that might otherwise be made.

(b) *Other Requirements.* (1) The terms and conditions of the section 416(b) Foreign Donation Program Agreement and of this regulation, except as otherwise specifically provided, are deemed to be accepted by the Cooperating Sponsor in submitting the Plan of Operations.

(2) The Cooperating Sponsor agrees to use the agricultural commodities only in accordance with the section 416(b) Foreign Donation Program Agreement and this regulation.

(3) The donation of agricultural commodities by CCC and the payment by CCC of any costs specified in the section 416(b) Foreign Donation Program Agreement is made with the understanding that the Cooperating Sponsor will carry out its obligations as provided in the Agreement and this part. The Cooperating Sponsor shall be liable to CCC for any of the following actions: (i) failure to export the commodities from the U.S., (ii) re-entry of the commodities into the U.S., (iii) any use of the commodities, or of the local currency generated from their sale, or of services generated through their barter that is inconsistent with the section 416(b) Foreign Donation Program Agreement.

For any such failure, the Cooperating Sponsor shall reimburse CCC for all costs paid by CCC in making the agricultural commodities available to the Cooperating Sponsor, including the acquisition cost to CCC. However, the Cooperating Sponsor shall not be liable to CCC with respect to any commodity which, before or after export from the U.S., is lost or damaged, destroyed or deteriorated to the extent that the commodity cannot be used for the purposes described in the section 416(b) Foreign Donation Program Agreement unless such loss or damage was due to the fault or negligence of the Cooperating Sponsor.

(4) Cooperating Sponsors shall distribute agricultural commodities only to eligible recipients. Distribution shall be made without regard to nationality, race, color, sex, or religious or political beliefs of recipients.

(5) Funds derived from voluntary contributions by recipients may be used by Cooperating Sponsors for payment of program costs. Contributions must not be required from a recipient as a condition for participation in a program and the amount of such contributions must not exceed a minor portion of the market value of the commodity or product. Program costs are such costs as transportation, storage, handling, insect and rodent control, rebagging of damaged or infested commodities, and other program expenses specifically authorized by A.I.D. to carry out the program for which the commodities were furnished. The agreement may require Cooperating Sponsors who collect voluntary contributions to comply with some or all of the reporting requirements which apply to sales of donated commodities, where the nature of the program and the total amount of fees to be collected justify this requirement.

(6) Sales or barters. (i) Foreign donations of agricultural commodities under section 416(b) are intended primarily as food aid. However, with CCC approval, some or all of the commodities donated may be sold or bartered when such sale or barter is incidental to the donation of agricultural commodities, e.g. the sale of damaged commodities. Any other sale or barter must be pursuant to an approved Plan of Operations. Such plans will be approved by CCC and A.I.D. on a case-by-case basis for the following purposes only:

(A) To finance the distribution, handling or processing costs of the donated commodities in the importing country, or in a country through which the commodities must be transshipped; or

(B) Where the sale or barter is to finance other activities in the importing country that are consistent with providing food assistance to needy people; or

(C) In the case of Cooperating Sponsors which are intergovernmental organizations, for sales or barter that are consistent with their normal programming procedures in the distribution of commodities; or

(D) In the case of Cooperating Sponsors which are nonprofit and voluntary agencies, or cooperatives, for sales that are to finance the transportation, storage, distribution or otherwise enhance the effectiveness of the use of the donated commodities, and to implement income generating community development, health, nutrition, cooperative development, agricultural programs, and other developmental activities.

(ii) The agricultural commodities may be sold or bartered only in the importing country, unless otherwise approved, or unless incidental to donation per § 210.6(b)(6)(i) above.

(iii) No part of the proceeds or services realized from sales or barters may be used for operating and overhead expenses (except as may be permitted for intergovernmental organizations under § 210.6(b)(6)(i)(C) above, or for personnel and administrative costs of local cooperatives).

(iv) Cooperating Sponsors which sell or barter commodities must enter into a written agreement with the other party. A copy of the executed agreement must be provided to the USAID or Diplomatic Post concerned.

(v) Cooperating Sponsors do not need to monitor, manage, report on or account for the distribution or use of commodities after all sales proceeds have been fully deposited in an account established by the cooperating sponsor and title to the commodities has passed to buyers or other third parties pursuant to a sale under a monetization program. However, the sales proceeds and the uses thereof must be monitored,

managed, reported and accounted for as provided in § 210.11 and other relevant sections of this Regulation.

(vi) It is not mandatory that commodities approved for monetization be imported and sold free of all duties and taxes, but nongovernmental cooperating sponsors may negotiate agreements with the host government permitting the tax-free import and sale of such commodities. Even where the cooperating sponsor negotiates tax-exempt status, the prices at which the cooperating sponsor sells the commodities to the purchaser should reflect prices that would be obtained in a commercial transaction, i.e., the prices would include the cost of duties and taxes. Thus, the amounts normally paid for duties and taxes would accrue for the benefit of the cooperating sponsor's approved program.

(7) Use of funds. Funds accruing from recipient contributions or any other program income or monetization proceeds may be used for payment of indigenous or third country personnel employed by Cooperating Sponsor or recipient agencies in support of the section 416(b) programs and for other costs allowable under the approved program (provided, that no portion of the proceeds or services realized from sales or barter of commodities subject to this Regulation may be used to meet operating and overhead expenses, except for personnel and administrative costs of local cooperatives, and except by intergovernmental agencies or organizations, as consistent with their normal programming procedures in the distribution of commodities). However, such funds may not be used to acquire, develop, construct, alter or upgrade land, buildings or other real property improvements or structures that are either (i) owned or managed by a church or other organization engaged exclusively in religious activity, or (ii) used in whole or in part for sectarian purposes.

The Cooperating Sponsor shall use commercially reasonable procurement practices in purchasing goods or services with monetization proceeds, funds derived from the program or funds provided by the U.S. Government, and shall employ procedures that prevent fraud, self-dealing, conflicts of interest or noncompetitive procurement. Each voluntary agency (including cooperatives) agrees to use monetization proceeds, program income and funds provided by the U.S. Government only for costs such as would be allowable under Office of Management and Budget (OMB) Circular No. A–122, "Cost Principles for Nonprofit Organizations, available at the Office of Administration, OMB, Publications Unit, Room G–236, New Executive Office Building, Washington, DC 20503. Title to real and personal property acquired with monetization proceeds, program income or funds provided by the U.S. Government shall be vested in the cooperating sponsor, but the cooperating sponsor shall dispose of such property as directed by the USAID Mission or the Diplomatic Post in the event the program terminates or is transferred to another entity. Records and documents regarding procurements using monetization proceeds, program income or funds provided by the U.S. Government shall be maintained and made available for inspection as required in § 210.11 below.

(8) In the case of a section 416(b) Foreign Donation Program Agreement with a foreign government, the foreign government will be asked to provide data showing commercial and non-commercial imports of the types of agricultural commodities requested, for the past five years, by country of origin. Such an agreement with a foreign government may include a usual marketing requirement, and a prohibition on the re-export of donated commodities as well as of other related commodities specified in the agreement.

(9) Shipment of commodities may be suspended at any time upon a determination by CCC:

(i) That storage facilities are not adequate to prevent spoilage or waste or are not available at the time of export of the commodity, or

(ii) That distribution of the commodity in the recipient country will result in a substantial disincentive to, or interference with, domestic production or marketing in the recipient country.

(10) In the case of landlocked countries, transportation in the intermediate country to a designated inland point of entry in the recipient country shall be arranged by the Cooperating Sponsor unless otherwise provided in the section 416(b) Foreign Donation Program Agreement.

(11) If a Cooperating Sponsor books cargo for ocean transportation and is unable to have a vessel at U.S. port of export for loading in accordance with the agreed shipping schedule and CCC thereby incurs additional expenses, the Cooperating Sponsor shall reimburse CCC for such expenses if CCC determines that the expenses were incurred as a result of the fault or negligence of the Cooperating Sponsor.

§ 210.7 Processing, repackaging and labeling of commodities in a foreign country.

(a) Cooperating Sponsors may arrange for the processing of donated commodities into different end-products and for packaging or repackaging prior to distribution. When commercial facilities are used for processing, packaging or repackaging, Cooperating Sponsors shall enter into written agreements for such services. Copies of the executed agreements shall be provided to the USAID or Diplomatic Post in the country of distribution. A portion of the donated commodities may be sold or bartered to defray costs of processing, packaging or repackaging but only if authorized in an approved Plan of Operations.

(b) If prior to distribution the Cooperating Sponsor arranges for packaging or repackaging donated agricultural commodities the cartons, sacks, or other containers in which the commodities are packed shall be plainly labeled in the language of the country in which the commodities are to be distributed with the following information:

(1) Name of Commodity.

(2) Furnished by the people of the United States of America.

(3) Not to be sold or exchanged. Emblems or other identification of cooperating sponsors may also be added.

(4) If the donated commodities are to be sold or bartered pursuant to an approved Plan of Operations after reprocessing, packaging or repackaging, paragraphs (b)(2) and (b)(3) of this section, will not apply.

§ 210.8 Arrangements for entry and handling in foreign country.

(a) Except for commodities which are to be monetized (see § 210.6(b)(vi) above), agricultural commodities shall be admitted duty free and exempt from all taxes.

(b) Cooperating Sponsors shall make all necessary arrangements for receiving the donated commodities and for prompt entry and transit in the foreign country, and will be responsible for storage and maintenance from time of delivery at port of entry or point of entry abroad. The Cooperating Sponsor will be responsible for maintaining the commodities in such manner as to assure that they remain in good condition until their distribution, sale or barter.

(c) If the packages of agricultural commodities are discharged from vessel in a damaged condition, and are repackaged to ensure that the

commodities arrive at the distribution point in wholesome condition, CCC will only reimburse Cooperating Sponsors who are nonprofit private humanitarian organizations for approved expenses incurred for such repackaging. No prior approval is required for such expenses equaling $500 or less. If such expense is estimated to exceed $500, the authority to repackage and incur such expense must be approved by the USAID or Diplomatic Post in advance of repackaging unless such prior approval is specifically waived in writing by the USAID or Diplomatic Post.

§ 210.9 Disposition of commodities unfit for authorized use.

Damaged commodities are to be disposed of in accordance with § 211.8 of A.I.D. Regulation 11, 22 CFR Part 211. Such a disposition should be reported to the Chief, Claims and Collections Division, KCMO/ASCS/USDA, P.O. Box 205, Kansas City, Missouri 64141.

§ 210.10 Liability for loss, damage or improper distribution of commodities—claims and procedures.

(a) Notwithstanding transfer of title to the Cooperating Sponsor, CCC shall have the right to file, pursue, and retain the proceeds of collections from claims arising from ocean transportation cargo loss and damage, including loss and damage occurring between the time of transfer of title and loading aboard a vessel. CCC assumes general average contributions in all valid general average incidents which may arise from the movement of commodity to the destination port. CCC shall receive and retain all allowances in general average. The Cooperating Sponsor shall promptly notify CCC of any situation involving the loss, damage or deterioration of the commodity and of any salvage services or declaration of general average. CCC will reimburse the Cooperating Sponsor for any salvage costs and related costs arising from salvage services. All cargo loss documents shall be forwarded to: Chief, Claims and Collections Division, KCMO/ASCS/USDA, P.O. Box 419205, Kansas City, Missouri 64141–0205. The Cooperating Sponsor shall promptly furnish such office any assignment of rights which may be requested. Where the Cooperating Sponsor pays the ocean freight or a portion thereof, it shall be entitled to pro rata reimbursement received from any claims related to ocean freight charged.

(b) The Cooperating Sponsor shall promptly provide written notice to A.I.D. or the Diplomatic Post of the circumstances pertaining to any loss, damage or misuse of commodities occurring within the recipient country or intermediate country. Proceeds from any resultant claim actions shall be forwarded to USAID Missions and/or Diplomatic Posts for deposit with the U.S. Disbursing Officer, American Embassy, preferably, in U.S. dollars with instructions to credit the deposit to CCC Account No. 12X4336, or in local currency at the official exchange rate applicable to dollar imports at the time of deposit with instructions to credit the deposit to Treasury sales account 20FT401.

(c) Unless the instructions issued by CCC referred to in paragraph (a) of this section provide otherwise for certain designated Cooperating Sponsors, the Claims and Collections Division, KCMO/ASCS/USDA will arrange for the services of an independent cargo surveyor to survey the discharge of section 416(b) commodities at the foreign discharge port.

(d) Cooperating Sponsors shall send copies of all reports and documents pertaining to the discharge of commodities to Chief, Claims and Collections Division, KCMO/ASCS/USDA, P.O. Box 419205, Kansas City, Missouri 64141–0205.

(e) CCC will reimburse Cooperating Sponsors for the costs incurred by them in obtaining the services of an independent surveyor to conduct examinations of the cargo and render its report.

(f) Claims arising prior to loading of the agricultural commodities on ocean vessels, and claims against ocean carriers, will be handled according to procedures established by CCC. Claims arising after discharge will be handled according to procedures established by A.I.D. for handling inland Pub. L. 480, Title II claims (A.I.D. Regulation 11, § 211.9, and Chapter 8 of A.I.D. Handbook 9).

(g) When payment is to be made for commodities misused, lost or damaged, the value shall be determined on the basis of the domestic market price at the time and place the misuse, loss or damage occurred, or, in case it is not feasible to determine such market price, the f.o.b. or f.a.s. commercial export price, of the commodity at the time and place of export, plus ocean freight charges and other costs incurred by the U.S. Government in making delivery to the Cooperating Sponsor. When the value is determined on a cost basis, the Cooperating Sponsor may add to the value any provable costs it has incurred prior to delivery by the ocean carrier. In preparing the claim statement, these costs shall be clearly segregated from costs incurred by the U.S. Government. With respect to claims other than ocean carrier loss and/or damage claims, the value of misused, lost or damaged commodities may be determined on some other justifiable basis, at the request of the Cooperating Sponsor and/or upon the recommendation of the USAID or Diplomatic Post.

§ 210.11 Records and reporting requirements of cooperating sponsor.

(a) The Cooperating Sponsor shall maintain records and documents for a period of three years from the close of the U.S. fiscal year to which they pertain, or longer, upon request by A.I.D. for cause, such as in the case of litigation on a claim or audit concerning such records and documents, in a manner which will accurately reflect all transactions pertaining to the receipt, transportation, storage and distribution of the commodities, and pertaining to the receipt and disbursement of any currency generated from sale or other distribution of any goods, or to services generated from barter of the commodities. In the case of sale or barter this requirement shall not be deemed to include the distribution of the commodities after such sale or barter.

(b) The Cooperating Sponsor shall cooperate with and give reasonable assistance to U.S. Government representatives to enable them at any reasonable time to examine any activities and transactions of the Cooperating Sponsor pertaining to the receipt, processing, repackaging, distribution or use of the commodities, and pertaining to the receipt and use of any local currency proceeds or goods and services generated from the sale or barter of the commodities.

(c) The Cooperating Sponsor shall submit a semi-annual report to the Chief, Projects and Coordination Division, Office of Food for Peace, FVA Bureau, A.I.D., Washington, DC, 20523, U.S.A., and a copy to the Chief, Food For Development Division, USAID Mission, c/o American Embassy containing the information required, below, by this subsection. The first report must be submitted by the date specified in the section 416(b) Foreign Donation Program Agreement and is to cover the full period since the date of that agreement. Reports thereafter should cover each subsequent six-month period in which commodities received are being distributed by the Cooperating Sponsor, or local currency proceeds are being held or disbursed. The reports must contain the following data as applicable:

(1) Receipts of agricultural commodity including the name of each vessel, discharge port(s), and date discharge was completed;

(2) Quantity of agricultural commodities sold, amount of proceeds generated from the sale and barter of the agricultural commodity, amount or value of goods or services bartered, and proceeds deposited into the special account during the reporting period;

(3) An accounting for and report on the use of any local currency proceeds generated from the sale of commodities, or goods and services.

(4) An accounting for and report on the use of all local currency generated from the sale of containers and from recipient contributions, or any other program income.

(5) Estimated commodity inventory at the end of the reporting period;

(6) Quantity of commodity on order and in transit at the end of the reporting period;

(7) Status of claims for commodity losses, both resolved and unresolved, during the reporting period;

(8) Quantity of commodity damaged or declared unfit during the reporting period;

(9) Knowledge of any disincentive to local production and marketing, or disruption of U.S. or other international commerical sales.

§ 210.12 Additional responsibilities of cooperating sponsor.

(a) The Cooperating Sponsor shall, within thirty (30) days after export, furnish evidence of export of the agricultural commodities to the Director, Pub. L. 480 Operations Division, Foreign Agricultural Service, USDA, Washington, DC 20250. If export is by water or air, two copies of the onboard carrier bill of lading or consignee's receipt authenticated by a representative of the U.S. Customs Service shall be furnished. The evidence of export must show the kind and quantity of agricultural commodities exported, the date of export and the destination country.

(b) The Cooperating Sponsor warrants that it has not employed any person to solicit or secure the section 416(b) Foreign Donation Program Agreement upon any agreement for a commission, percentage, brokerage, or contingent fee and that no consideration or payment has been made or will be made. Breach of this warranty shall give the U.S. Government the right to annul the section 416(b) Foreign Donation Program Agreement.

§ 210.13 Termination of program.

All or any part of the assistance provided under the section 416(b) Foreign Donation Program Agreement, including commodities in transit, may be suspended or terminated by CCC, if:

(a) The Cooperating Sponsor fails to comply with the provisions of its agreement or this part, or

(b) It is recommended by A.I.D. that the continuation of such assistance is no longer necessary or desirable.

CCC suspension and debarment regulations will apply to any such suspension or termination of program assistance. A.I.D. may temporarily suspend assistance in extraordinary circumstances where such suspension is necessary to maintain the integrity of the section 416(b) Foreign Donation Program. If it is determined that any commodity authorized to be supplied under the section 416(b) Foreign Donation Program Agreement is no longer available for section 416(b) Foreign Donation programs, such authorization shall terminate with respect to any commodities which, as of the date of such determination have not been delivered f.o.b. or f.a.s. vessel, provided every effort will be made to give adequate advance notice to protect cooperating sponsors against unnecessarily booking vessels.

§ 210.14 Waiver and amendment authority.

(a) The Assistant Administrator, Bureau for Food for Peace and Voluntary Assistance, A.I.D., with the approval of CCC, may waive, withdraw, or amend at any time, any or all of the provisions of this part if such provision is not statutory and it is determined to be in the best interest of the U.S. Government to do so.

(b) A section 416(b) Foreign Donation Program Agreement may be amended by written agreement of A.I.D., CCC and the Cooperating Sponsor.

§ 210.15 OMB control number assigned pursuant to the Paperwork Reduction Act.

The information collection requirements in Part 210 have been approved by the Office of Management and Budget under control number 0412–0517.

Appendix I—Section 416(b) Foreign Donation Program Agreement Country

United States Government—Agricultural Commodity Foreign Donation Program Agreement (section 416(b))

In order to effect the distribution of agricultural commodities for the assistance of persons outside the United States, the Agency for International Development (A.I.D.), the Commodity Credit Corporation (CCC), and the (Cooperating Sponsor) agree as follows:

1. CCC agrees to donate to the Cooperating Sponsor agricultural commodities of the kind and amounts specified in section 2 of this agreement pursuant to the authority of section 416(b) of the Agricultural Act of 1949, as amended. CCC shall deliver such commodities in accordance with the delivery schedule specified in section 2.

2. Agricultural commodities to be donated to the Cooperating Sponsor are as follows:

Commodity	Quantity pounds/ metric tons	Requested delivery month to U.S. port [1]	Foreign port destination

[1] Point where title transfers if other than U.S. port.

Note.—The Cooperating Sponsor will promptly inform CCC of any desired change in the above delivery schedule by notifying the Chief, Export Operations Branch, Agricultural Stabilization and Conservation Service/USDA, Kansas City, Missouri, 64141–0205, telephone (816) 926–6658, and CCC will endeavor to coordinate a mutually acceptable revised delivery schedule. CCC is not required to deliver commodities later than the delivery dates specified above unless a revised delivery schedule is agreed upon.

3. The payment of all costs associated with the processing, packaging, transporting, handling and other charges incurred in the distribution of the agricultural commodities will be apportioned as follows:

A. CCC agrees to donate the commodities without charge and to pay the following costs: (These costs will be determined during the negotiation of program approval.)

B. The Cooperating Sponsor agrees to pay the following costs: (These costs are determined during the negotiation of program approval).

4. The Cooperating Sponsor agrees to use the agricultural commodities only in accordance with this Agreement and the approved program.

5. The terms and conditions set forth in A.I.D. Regulation 10 and the approved Plan of Operations are incorporated into and made a part of this agreement.

Transfer of Food Commodities for Use in Disaster Relief, Economic Development and Other Assistance; Proposed Rule

VOL 53 ISS 243 DE 19 1988 UMI

INTERNATIONAL DEVELOPMENT COOPERATION AGENCY

Agency for International Development

22 CFR Part 211

[A.I.D. Reg 11]

Transfer of Food Commodities for Use in Disaster Relief, Economic Development and Other Assistance

AGENCY: Agency for International Develolpment (A.I.D.), IDCA.

ACTION: Proposed rule.

SUMMARY: This proposed rule would amend the Regulation at 22 CFR Part 211 Transfer of Food Commodities for Use in Disaster Relief and Economic Development, and Other Assistance, to conform the Regulation to amendments made to Title II of the Agricultural Trade Development and Assistance Act of 1954, as amended (Pub. L. 480), by legislation including Pub. L. 96–53, August 14, 1979; the Food Security act of 1985, Pub. L. 99–198, dated December 23, 1987; Pub. L. 100–202 (Continuing Appropriations), December 22, 1987; and would make other necessary changes.

DATE: Comments on these proposed rules must be received on or before February 17, 1989.

ADDRESS: Comments should be submitted to: Ms Jessie C. Vogler, Office of Food for Peace, Bureau of Food for Peace and Voluntary Assistance, Agency for International Development, Washington DC 20523. Telephone: (703) 875–4438.

FOR FURTHER INFORMATION CONTACT: Ms Donna Rosa, Actg. Chief, Project Coordination Division, Office of Food for Peace, Bureau for Food for Peace and Voluntary Assistance, Agency for International Development, Washington, DC 20523. Telephone: (702) 875–4706.

SUPPLEMENTARY INFORMATION: This notice has been reviewed under A.I.D.'s required procedures. It has been determined that these program provisions will not result in any significant adverse effects on competition, employment, investment, productivity, or innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

It has been determined that the Regulatory Flexibility Act is not applicable to this notice since A.I.D. is not required by 5 U.S.C. 553 or any other provision of law to publish a notice of proposed rulemaking with respect to the subject matter of this notice. It has been determined that the provisions of 5 U.S.C. 553 do not apply to this rule since the subject matter of the rule involves foreign affairs functions of the United States and a matter relating to grants.

Comments are requested within 60 days after publication and the proposed rule will be reviewed in order that a final document discussing any comments received and any desirable amendments may be published in the **Federal Register**. The final document will be made effective upon publication in the **Federal Register**.

The proposed revisions listed below are intended to update A.I.D. Regulation 11 to incorporate new legislation, Agency programming and policy changes and to make other changes of a clarifying nature concerning Pub. L. 480, Title II activities. The principal changes in the Regulation are as follows:

1. The statutory excerpts in § 211.1(b) subsections (2) through (12) have been revised to conform them to changes in Pub. L. 480.

2. Section 211.2—Definitions. This section has been revised for clarification and to include additional Title II programming terms.

3. Section 211.3(c) has been added which outlines steps necessary to commence a program.

4. Section 221.4(d) has been revised to reflect the transfer from USDA to A.I.D. of the responsibility for booking Pub. L. 480, Title II government-to-government cargo.

5. Section 221.5 has been revised to include an outline for the Title II plan of operations, to provide that foreign currencies generated from any partial or full sales or barter of commodities by a non-profit voluntary agency or cooperative are to be used to transport, store, distribute, or otherwise enhance the effectiveness of the commodities, or to implement income generating community development, health, nutrition, cooperative development, agricultural programs or other developmental activities. Section 211.5(c) has been revised: To clarify the cooperating sponsor's responsibility for conducting internal reviews; to require that a systematic method be used to assure timely resolutions to implement findings and recommendations. Section 211.5(i) "Use of Funds" has been revised to clarify the proper use of funds generated under the Title II program including use for costs allowable under OMB Circular No. A–122, "Cost Principles for Nonprofit Organizations." Section 211.5(j) is a new item which requires an annual report on funds generated and their use. Section 211.5 (o) and (p) are new sections concerning monetization programs and trilateral exchange programs.

6. Section 211.7(b) has been revised to clarify the cooperating sponsor's responsibility with respect to duty, taxes and consular invoices.

7. Section 211.7(e)(1) has been revised to clarify the limitations on reimbursement of repackaging costs.

8. Section 211.9(c)(1)(v) is a new subparagraph concerning contracting by CCC for the survey of cargo on shipments furnished under Transfer Authorizations; § 211.9(c)(2), "Claims against Ocean Carriers," has been revised to reflect the transfer from USDA to A.I.D. the responsibility for booking all Pub. L. 480, Title II Government-to-Government cargoes. Section 211.9(e)(2) is revised to clarify that individual inland claims should not be artificially subdivided. Section 211.9(e) (3) and (4) have been added to clarify cooperating sponsors' responsibility concerning inland claims. In § 211.9(g) "Handling Claims Proceeds," the following has been added "With respect to monetized proceeds and program income, amounts recovered shall be deposited in the special account used for such funds and may thereafter be used for purposes of the approved program."

9. Section 211.10(a) has been revised to add the following to the last sentence * * * "or longer upon request by A.I.D. for cause such as in the case of litigation of a claim or audit concerning such periods. The cooperating sponsor shall transfer to A.I.D. any records, or copies thereof, requested by A.I.D."

10. Other grammatical or minor revisions have been made for clarification purposes.

List of Subjects in 22 CFR Part 211

Agriculture, Foreign aid, Foreign relations.

Because of the substantial revisions proposed, the proposed A.I.D. Regulation 11, as revised, is printed below in its entirety.

It is proposed to revise 22 CFR Part 211 to read as follows:

PART 211—TRANSFER OF FOOD COMMODITIES FOR FOOD USE IN DISASTER RELIEF, ECONOMIC DEVELOPMENT, AND OTHER ASSISTANCE

Sec.

211.1 General purpose and scope.
211.2 Definitions.
211.3 Cooperating sponsor agreements.
211.4 Availability of commodities; shipment.
211.5 Obligations of cooperating sponsor.
211.6 Processing, repackaging, and labeling commodities.
211.7 Arrangements for entry and handling in foreign country.

Sec.
211.8 Disposition of commodities unfit for authorized use.
211.9 Liability for loss, damage or improper distribution of commodities.
211.10 Records and reporting requirements of cooperating sponsor.
211.11 Termination of program.
211.12 Waiver and amendment authority.

Appendix I to Part 211—Legislation

Authority: Secs. 105, 201, 202, 203, and 207, Agricultural Trade Development and Assistance Act of 1954, as amended, 7 U.S.C. 1705, 1721, 1722, 1723, and 1726a; 68 Stat. 454, as amended.

§ 211.1 General purpose and scope.

(a)(1) *Terms and conditions.* This Part 211, also known as A.I.D. Regulation 11, prescribes the terms and conditions governing the transfer of agricultural commodities to foreign governments, to private or public agencies, including nonprofit voluntary agencies, cooperatives, and to intergovernmental organizations (except the World Food Program (WFP) and United Nations Relief and Works Agency (UNRWA)) pursuant to Title II of the Agricultural Trade Development and Assistance Act of 1954, as amended (Public Law 480, 83rd Congress, as amended ("Pub. L. 480")). (For the WFP and UNRWA, see A.I.D. Handbook 9).

(2) *Organization.* This Regulation starts by quoting pertinent legislation in force as of the date of issuance of this Regulation, and goes on to provide information on Title II programs, and the rules under which they are conducted. The material is organized in the sequence in which events take place in the program; starting with how programs are commenced; continuing with responsibilities and authorities pertinent to the course of a program (on such matters as disposals, claims, and records and reporting); and going on to program termination, and some administrative matters.

(b) *Legislation.* See Appendix I to the Regulation. The legislation implemented by the Regulation in this part (as of the date of issuance of this part) includes sections of the Agricultural Trade Development Assistance Act of 1954, as amended (Pub. L. 480) as follows: Sections 2(3), 201, 202, 203, 204, 206, 207, 208, 401, 402, and 404.

§ 211.2 Definitions.

(a) "A.I.D." means the Agency for International Development or any successor agency, including, when applicable, each USAID. "USAID" means an office of A.I.D. located in a foreign country. "A.I.D./W" means the Office of A.I.D. located in Washington, D.C.

(b) "Annual Estimate of Requirements (AER)" (Form A.I.D. 1550–3, Exhibit E, A.I.D. Handbook 9) is a statistical update of the Operational Plan which is signed by the cooperating sponsor requesting commodities under Title II estimating the quantities required.

(c) "CCC" means the Commodity Credit Corporation, a corporate agency and instrumentality of the United States within the U.S. Department of Agriculture.

(d)(1) "Cooperating sponsor" means an entity, within or without the United States, governmental or not, such as the foreign government, the American Red Cross, the Intergovernmental organization, the U.S. nonprofit voluntary agency or the cooperative registered with and approved by the Agency for International Development, which enters into an agreement with the U.S. Government for the use of agricultural commodities of funds (including local currencies), and which is directly responsible under the agreement for administration and implementation of the agreement, including reporting on programs involving the use of the commodities or funds made available to meet the requirements of eligible recipients. The term includes foreign nonprofit voluntary agencies registered with and approved by the Agency for International Development, which may be utilized to provide assistance following a determination of unavailability of a U.S. registered nonprofit voluntary agency to provide the assistance.

(2) "Governmental Cooperating Sponsor" means a cooperating sponsor which is a foreign government.

(3) "Non-Governmental Cooperating Sponsor" means a cooperating sponsor which is a non-profit voluntary agency, a cooperative, the American Red Cross, or other private or public agency; an intergovernmental organization is also treated as a nongovernmental cooperating sponsor in this part (Regulation 11) unless the text or context indicates otherwise.

(4) Note: Governmental Cooperating Sponsors are treated here as a group separate from other cooperating sponsors since their circumstances are different in such matters as, e.g., rules governing shipping; and in certain other aspects of agreements.

(e) "Diplomatic Posts" means the offices of the Department of State located in foreign countries, and may include Embassies, Legations, and Consular offices.

(f) "Disaster relief organizations" means organizations which are authorized by A.I.D./W, USAID, or by a Diplomatic Post to assist disaster victims.

(g) "Disaster victims" means persons who, because of flood, drought, fire, earthquake, other natural or manmade disasters, or extraordinary relief requirements, are in need of food, feed, or fiber assistance.

(h) "Duty free" means exempt from all customs duties, duties, tolls, taxes or governmental impositions levied on the act of importation.

(i) "f.o.b./f.a.s." stands for "free on board/free along side." Bulk shipments are normally loaded f.o.b.; all other shipments, f.a.s.; and title there are transferred.

(j) "Food for Peace Program Agreement" constitutes the agreement between the cooperating sponsor(s) and the U.S. Government. The Food for Peace Program Agreement may be specific, listing the kinds and quantities of commodities to be supplied, program objectives, criteria for eligibility of recipients, plan for distribution of commodities, and other specific program provisions in addition to the provisions set forth in this part; or it will state that the cooperating sponsor will comply with this part and such other terms and conditions as set forth in other A.I.D. programming documents.

(k) "General Average" means the proportional sharing of a loss or extraordinary expense incurred to protect the whole cargo.

(l) "Institutions" means nonpenal, public or nonprofit private establishments that operated for charitable or welfare purposes where needy persons reside and receive meals including, but not limited to, homes for the aged, mentally and physically handicapped, refugee camps, and leprosy asylums.

(m) "Intergovernmental organizations" means agencies sponsored and supported by the United Nations organization or by two or more nations, one of which is the United States of America.

(n) "Maternal-child feeding, primary school and other child feeding programs":

(1) Maternal and preschool feeding programs means programs conducted for women of child bearing age, with emphasis on pregnant and lactating women, for mothers with preschool children, and for children below the usual enrollment age for the primary grade at public schools.

(2) School feeding programs refers to programs conducted for the benefit of children enrolled in primary schools.

(3) Other child feeding programs refers to programs designed to reach

BEST COPY AVAILABLE

preschool or primary school age, needy children in child care centers, orphanages, institutions, nurseries, kindergartens and similar activities.

(o) "Nonprofit" means that the residue of income over operating expenses accruing in any activity, project, or program is sued solely for the operation of such activity, project, or program.

(p) "Plan of Operation" is a plan submitted by the potential cooperating sponsor describing the proposed use of commodity and/or monetized proceeds of sale thereof.

(q) "Primary School" means a public or nonprofit facility, or an activity within such facility, which has as its primary purpose the education of children at education levels which are generally comparable to those of elementary schools in the United States.

(r) "Program Income" means gross income earned from activities supported under the approved program.

(s) "Recipient agencies" means schools, institutions, welfare agencies, disaster relief organizations, and public or private agencies whose food distribution functions are sponsored by the cooperating sponsor and who receive commodities for distribution to eligible recipients. A cooperating sponsor may be a recipient agency.

(t) "Recipients" means persons who are in need of food assistance because of their economic or nutritional condition or who are otherwise eligible to receive commodities for their own use in accordance with the terms and conditions of the Food for Peace Program Agreement.

(u) "Registered Nonprofit Voluntary Agency" means a nonprofit voluntary agency or cooperative registered with, and approved by A.I.D. The term includes foreign as well as U.S. registered nonprofit voluntary agencies. Under Pub. L. 480, section 202(a), a foreign registered nonprofit voluntary agency may be utilized if no U.S. registered nonprofit voluntary agency is available. As to registration, see 22 CFR Part 203, A.I.D. Regulation 3, "Registration of Agencies for Voluntary Foreign Aid."

(v) "Refugees" means persons who fled or were forced to leave their country of nationality or residence and are living in a country other than that of which they hold or have held citizenship or in a part of their country of nationality or residence other than that which they normally consider their residence, and become eligible recipients.

(w) "Transfer Authorization" or "TA" means the document signed by the cooperating sponsor and A.I.D. which describes commodities and the program they will be used in, incorporates A.I.D. Regulation 11, and authorizes CCC to ship the commodities.

(x) "USDA" means the U.S. Department of Agriculture.

(y) "Voluntary Agency" means the American Red Cross and any U.S. or foreign voluntary nonprofit agency or cooperative registered with, and approved by, the Agency for International Development.

(z) "Welfare agencies" means public or nonprofit private agencies that provide care, including food assistance, to needy persons who are not residents of institutions.

§ 211.3 Cooperating sponsor agreements.

(a) *Food for Peace Program Agreement.* The cooperating sponsor shall enter into a written agreement with A.I.D. by signing a Food for Peace Program Agreement which shall incorporate by reference or otherwise the terms and conditions set forth in this part (A.I.D. Regulation 11).

(b) *Individual Country Food for Peace Program Agreement.* Voluntary agencies, including cooperatives, or intergovernmental organizations shall, in addition to the Food for Peace Program Agreement, enter into a separate written Food for Peace Agreement with the foreign government of each cooperating country. This agreement shall incorporate by reference or otherwise the terms and conditions set forth in this part (A.I.D. Regulation 11) and shall be approved by A.I.D. prior to being executed. This agreement also shall provide that the cooperating country shall indemnify the cooperating sponsor, irrespective of the fault or liability of any person other than employees of the cooperating sponsor, for the value of commodities lost, damaged or misused while in the possession of the cooperating country, or any of its state or local governments, or any public or quasi-private instrumentalities thereof. This agreement should acknowledge that the commodities have been donated by the United States for the benefit of the people in the cooperating country and state that the cooperating country will pay the United States, upon the request of A.I.D. or the Diplomatic Post, for the value of any commodities lost, damaged or misused while in the possession of the cooperating country (irrespective of the fault or liability of any person other than employees of the cooperating sponsor). Where such written agreement is not feasible or practicable, the USAID or Diplomatic Post shall assure A.I.D./W, in writing, that the program can be effectively implemented in compliance with this part without such an agreement.

(c) *Commencement of a Program*—(1) *Requests for Programs.* A program may be requested by any cooperating sponsor, including nonprofit voluntary agencies, cooperatives, foreign governments, and international organizations. (In cases of emergencies, A.I.D., the Secretary of State, or the President may initiate an offer.)

(2) *Approval of Programs.* Although A.I.D. is vested with most functions of administering Title II (derived from Executive Order 12220, June 27, 1980, 45 FR 44245), other agencies, in particular the Department of Agriculture, play key roles. Agreement between the agencies, and approval of Title II programs, is reached in the Development Coordination Committee Food Aid Subcommittee and its Working Group.

(3) *Format for Approval of Programs.* There are two basic patterns of decision employed in granting approval to a request for Title II assistance:

(i) *Format for Approving Regular Programs.* The cooperating sponsor submits to A.I.D. a plan of operations (see § 211.5), describing the program proposed. The plan of operations provides the basic information for preparation or amendment of a Food for Peace Program Agreement (see definition and § 211.3(a) above), and often an Individual Country Food for Peace Program Agreement (see definition) between the cooperating sponsor and the country concerned (these Agreements will include by reference this Regulation 11). Also, there will be submitted to A.I.D. an Annual Estimate of Requirements or A.E.R. along with the program plan of operations (see definition), estimating the quantities of commodities required for each program proposed. Upon approval by the Working Group of the DCC Food Aid Subcommittee, A.I.D.'s signature on the A.E.R., completes this decision process.

(ii) *Format for Approving Individual Programs.* The other basic pattern of decision making on these programs results in Transfer Authorization ("TA"; see definition). The TA is used for all government-to-government programs, and for non-governmental cooperating sponsor programs which do not fit within the Program Agreement/AER framework. The TA will include by reference Regulation 11.

(iii) *Timing of Decision.* Under Pub. L. 480, section 208(a), within 45 days of its submission to A.I.D./W, a decision must be made on a proposal submitted by a nonprofit voluntary agency or cooperative, concurred in by the

VOL 53 ISS 243 DE 19 1988 UMI

appropriate United States Government field mission. The decision shall detail the reasons for approval or denied, and if denied, conditions to be met for approval.

§ 211.4 Availability of commodities; shipment.

(a) *Shipment, distribution and use of commodities.* Commodities shall be available for shipment, distribution and use in accordance with the provisions of the Food for Peace Program Agreement or Transfer Authorization and this part.

(b) *Transfer of title and delivery.* (1) Unless the Food for Peace Program Agreement or Transfer Authorization provides otherwise, title to the commodity shall pass to the cooperating sponsor at the time and place of delivery f.o.b. or f.a.s. vessel at the U.S. port, except that in the case of nongovernmental cooperating sponsors title may pass at the discretion of USDA at other points in the United States.

(2) Nongovernmental cooperating sponsors shall make the necessary arrangements to accept commodities at the points of delivery designated by the USDA.

(c) *Processing, handling, transportation and other costs.* (1) The United States will pay processing, handling, transportation, and other incidental costs incurred in making commodities available to cooperating sponsors free on board (f.o.b.) or free along side (f.a.s.) vessel at U.S. ports, or free at inland destinations in the United States, except as otherwise provided in this paragraph (c).

(2) Nongovernmental cooperating sponsors shall reimburse the United States for expenses incurred at their request and for their accommodation which are in excess of those which the United States would have otherwise incurred in making delivery—

(i) At the lowest combination inland and ocean transportation costs to the United States as determined by the United States or

(ii) In sizes and types of packages announced as available.

(3) All costs and expenses incurred subsequent to the transfer of title in the United States to cooperating sponsors except as otherwise provided herein shall be borne by them. Upon the determination that it is in the interests of the program to do so, the United States may pay or make reimbursement for ocean transportation costs from U.S. ports to the designated ports of entry abroad; or to designated points of entry abroad in the case—

(i) Of landlocked countries,

(ii) Where ports cannot be used effectively because of natural or other disturbances,

(iii) Where carriers to a specific country are unavailable, or

(iv) Where a substantial savings in cost or time can be effected by the utilization of points of entry other than ports.

(d) *Transportation authorization.* A transportation authorization will be issued to cover the ocean freight paid directly by the United States. When A.I.D. contracts for ocean carriage, disbursement to the carriers shall be made by A.I.D. upon presentation of Standard Form 1034 and three copies of 1034A (Public Voucher for purchases and services other than personal), together with three copies of the related onboard ocean bill of lading, one copy of which must contain the following certification signed by an authorized representative of the steamship company:

> I certify that this document is a true and correct copy of the original onboard ocean bill of lading under which the goods herein described were located on the above-named vessel and that the original and all other copies thereof have been clearly marked as not to be certified for billing.

(Name of steamship co.)
By
(Authorized representative)

Such voucher should be submitted to: Transportation Division, Office of Procurement, Agency for International Development, Washington, DC 20523. Except for duty, taxes and other costs exempted in § 211.7 (a) and (b) of this part, cooperating sponsors booking their own vessels will be reimbursed as provided in A.I.D. Regulation 2 (Part 202 of this chapter) for ocean freight authorized by the United States upon presentation to A.I.D./W or to a U.S. bank holding and A.I.D. Letter of Commitment) of proof of payment to the ocean carrier. A.I.D. will only reimburse voluntary agencies or cooperatives up to a maximum of 2½ percent commission paid to their freight forwarders as a result of booking Pub. L. 480, Title II cargo. Proof of commissions paid must be submitted with requests for reimbursements.

(e) *Shipping instructions*—(1) Shipments booked by A.I.D. Requests for shipment of commodities shall originate with the cooperating sponsor and shall be submitted to USAID or Diplomatic Post for clearance and transmittal to A.I.D./W. A.I.D./W shall, through cables, airgrams or letters to USAID or Diplomatic Posts, provide cooperating sponsors (and where applicable voluntary agency headquarters) with names of vessels, expected times of arrival (ETAs), and other pertinent information on shipments booked by A.I.D. At the time of exportation of commodities, applicable ocean bills of lading shall be sent airmail, or by the fastest means available, by the freight forwarder representing A.I.D. to USDA, to USAID or Diplomatic Posts (and where applicable to USAID Controller, voluntary agency headquarters, and voluntary agency field representative), and to the consignee in sufficient time to advise of the arrival of the shipment.

(2) *Shipments booked by non-governmental cooperating sponsor.* Requests for shipment of commodities shall originate with the cooperating sponsor and shall be cleared by the USAID or Diplomatic Post before transmittal to the cooperating sponsor's headquarters for concurrence and issuance. USAID or Diplomatic Post shall promptly clear such requests for shipment of commodities or, if there is reason for delay disapproval, advise the cooperating sponsor and A.I.D./W within seven (7) days of receipt of requests for shipment. After the cooperating sponsor headquarters concurs in the request and issues the order, the original will be sent promptly to A.I.D./W–FFP who forwards it to USDA/ASCS for procurement action with a copy to the USAID or Diplomatic Posts. Headquarters of cooperating sponsors which book their own shipments shall provide their representatives and the USAID or Diplomatic Posts with the names of vessels, expected times of arrival (ETAs) and other pertinent information on shipments booked. At the time of exportation of commodities, applicable ocean bills of lading shall be sent airmail or by the fastest means available by the freight forwarder, representing the cooperating sponsors to USDA, the USAID or Diplomatic Post (and where applicable to USAID Controller voluntary agencies' representatives), and to the consignee in the country of destination in sufficient time to advise of the arrival of the shipment. However, voluntary agencies will also forward cable advice of actual exportation to their program directors in countries within the Caribbean area which are supplied by vessels having a rapid and short run from U.S. port to destination.

(f) *Tolerances.* Delivery by the United States to the cooperating sponsor at point of transfer of title within a tolerance of 5 percent (2 percent in the case of quantities over 10,000 metric tons) plus or minus, of the quantity ordered for shipment shall be regarded as completion of delivery. There shall be no tolerance with respect to the ocean carrier's responsibility to deliver the

entire cargo shipped and the United States assumes no obligation for failure by an ocean carrier to complete delivery to port of discharge.

§ 211.5 Obligations of cooperating sponsor.

(a) *Plan of operations.* Each cooperating sponsor shall submit to the USAID or Diplomatic Post for their approval, upon which it is submitted for approval of A.I.D./W, within such times and on the forms prescribed by A.I.D./W, a description of the programs it is sponsoring or proposes to sponsor. This plan of operations will be made a part of the Food For Peace Program Agreement after approval by A.I.D. Within the overall objectives of the approved program, elements of the plan of operations may be changed by written agreement of the authorized representatives of the cooperating sponsor, on the one hand, and A.I.D. and CCC, within their respective areas of responsibility, on the other, without formal amendment of the agreement. In case of conflict between the text of the agreement and the approved plan of operations the text of the agreement prevails. This plan of operations will also provide the basic information for preparation of Individual Country Food for Peace Program Agreements developed and renewed annually (or in other period designated) with the cooperating sponsors' counterpart organization and host government where necessary. In addition to any other requirement of law or regulation, the plan for operations will include the following information:

(1) A description of program goals and criteria for measuring progress toward reaching the goals. Each program should be designed to achieve measurable objectives within a specific period of time.

(2) Program Description:

(i) Problem statement: What are the characteristics, extent and severity of problems that the program will address?

(ii) Specification of objectives: Clear concise statement of specific objectives for each program and criteria for measuring progress towards reaching objectives. If there are several objectives, indicate priorities.

(iii) Description of the target population by program, including economic/nutrition related characteristic, that is sufficient to permit a determination of recipient eligibility for Title II commodities. Description of the educational and employment characteristics of the target group, as may be relevant to program objectives. The rationale for selection of the target group. The rationale for selection of geographical areas where programs will be carried out. Calculation of coverage: Percent of total target population reached.

(iv) Description of intervention including: (A) Ration composition: Description of rations, rationale for size and composition, assessment of effectiveness (dilution, sharing, acceptance).

(B) Complementary program components and inputs: Identification of existing or potential complementary program components, i.e., education, growth monitoring, training, etc., that are necessary to achieve program impact, including determination of financial costs and sources of funding.

(C) Monetization of commodities: Describe to whom the food will be sold; the sales price (which shall not be less than the value of the food commodities f.a.s. or f.o.b.), and arrangements for deposit of the monetization proceeds in a segregated, interest bearing account, pending use of the proceeds plus interest for the program.

(D) Intervention strategy: Describe how the food, monetization proceeds, and other program components will address problems.

(v) Linkages with other development activities, such as health or agricultural extension services: Describe specific areas of collaboration relative to program purposes.

(vi) Monitoring and Evaluation: Evaluation plan, including description of information to be collected for purposes of assessing program operations and impact. Description of monitoring system for collection, analysis and utilization of information. Plans for evaluation, as well as plans for conducting internal reviews (§ 211.5(c)).

(vii) Title II programs assume that U.S.G. support will be limited in time. The plan of operation should cover a multi-year time frame, normally three to five years. Such a period should allow enough time for a program to become fully operational and to permit evaluation of its effectiveness, including specific measurement of progress in achieving the stated program goals. Plans for and considerations involved in phasing-out U.S.G. support, and any phasing-over to non-U.S.G. support, should be discussed.

(3) Details of host government, cooperating sponsor and other non-U.S.G. support for the proposed program, with specific budgetary information on how these funds are to be used (e.g. complementary inputs, transport, administration). Where relevant, discussion of arrangements which will be made covering voluntary contributions.

(4) Statement as to how the requirements for public recognition, container markings, and use of funds set forth in § 211.5 (g), (h) and (i) below, and in § 211.6 (a) and (b) below will be met.

(5) A logistics plan that demonstrates the adequacy and availability in a recipient country of port facilities, transportation and storage facilities to handle the flow of commodities to recipients to prevent spoilage or waste. A further affirmation must be made at the time of exportation of the commodity.

(6) Sufficient information concerning the plan of distribution and the target group of recipients so that a determination can be made as to whether the proposed food distribution would result in substantial disincentive to domestic food production.

(7) Description of the method to be used to supervise, monitor, and account for the distribution or sale of commodities and the use of monetized proceeds and other program income.

(8) Information to show approval of foreign government to import the donated commodities duty free.

(9) A Plan of Operations is required for all regular i.e., non-emergency Title II nongovernmental cooperating sponsor programs as part of their submission along with the Annual Estimate of Requirements (AER), to the USAID and/or Diplomatic Post and AID/W. When new multi-year plans of operation are required, they should be prepared and submitted in advance of the year in which they are to begin, in order to permit adequate time for substantive review and approval. In any event, nongovernmental cooperating sponsor plans of operations should be submitted to A.I.D./W no later than the Mission Action Plan covering the following fiscal year's program. Once a plan of operation has been approved, only an updating will be required on an annual basis, unless there has been a significant change from the approved plan program directives, methodology, design or magnitudes. Updates should be submitted each year for review with the AERs.

(10) Plans of Operations for Emergency Programs. The response to emergency situations using Title II resources does not usually permit the same degree of detail and certainty of analysis that is expected in planning Title II non-emergency programs. However, plans of operations are required for all nongovernmental cooperating sponsors emergency programs, along with the AER. A plan of operation for an emergency program must cover the same basic elements, set

forth above, as for a non-emergency program. Thus, all of the above basic issues set forth in the plan of operations format must be addressed when proposing Title II emergency programs as well as regular non-emergency programs.

(11) USAID Mission and/or Diplomatic Posts are expected to comment on the substance and adequacy of the nongovernmental cooperating sponsor plans of operations when submitted to A.I.D./W along with a program request and to address the plan's relationship to and consistency with the Mission's Country Development Strategy.

(12) Cooperating sponsors agree not to deviate from the program as described in the Plan of Operations and other program documents approved by A.I.D., without the prior written approval of A.I.D.

(13) Emergency Assistance Proposals. Any cooperating sponsor (governmental or nongovernmental) may initiate an emergency assistance proposal under Pub. L. 480, Title II. Requests are received by USAID Missions or Diplomatic Posts and reviewed and approved before forwarding to AID/W with appropriate recommendations.

(i) Non-governmental emergency requests can be cabled by the Mission for AID/W review based on information provided and using procedures established for regular programs per § 211.5(a)(2) above; AER and Plan of Operation.

(ii) A foreign government (government-to-government or international organization other than World Food Program) emergency request normally requires more Mission involvement in program design and management.

However, as in the case of non-governmental programs, the approval will be based on a cabled program summary based on the program plan outlined in § 211.5(a)(2) above. On approval, A.I.D./W will prepare a Transfer Authorization (TA) to be signed by the recipient government specifying terms of the program and reporting requirements. USAIDs will find additional guidance in preparing government-to-government or international organizations emergency requests in Chapter 9, and Exhibit A of A.I.D. Handbook 9. The TA serves as the Food for Peace Agreement between the U.S. Government and the cooperating sponsor, serves as the project authorization document, and serves as the authority for the CCC to ship commodities. (Under Pub. L. 480, section 208(c), not later than 15 days after receipt of a call forward from a field mission for commodities, the order shall be transmitted to the CCC.)

(14) Local Currency Projects (Sections 204, 206 and 207). A.I.D./W–FFP and USAIDs will find additional guidance for preparing, approving, implementing and administering these projects in Chapters 6 and 11 of AID Handbook 9.

(b) *Program supervision.* Cooperating sponsors shall provide adequate supervisory personnel for the efficient operation of the program, including personnel to plan, organize, implement, control, and evaluate programs involving distribution of commodities or use of generated funds, and in accordance with A.I.D. guidelines, to make internal reviews including warehouse inspections, physical inventories, and end-use checks of food or funds. Maximum use of volunteer personnel shall be encouraged, but U.S. cooperating sponsors shall be represented by a U.S. citizen, resident in the country of distribution or other nearby country approved by A.I.D./W, who is appointed by and responsible to the cooperating sponsor for distribution of commodities or use of funds in accordance with the provisions of this part. Intergovernmental organizations, foreign cooperating sponsors and the American Red Cross shall be represented by a person appointed by and responsible to these organizations for the supervision and control of the program in the country of distribution in accordance with the provisions of this part.

(c) *Internal Reviews*—(1) *By Nongovernmental cooperating sponsors.* These cooperating sponsors shall perform or arrange to have performed internal reviews on a schedule mutually agreed to, in writing, between USAIDs or the Diplomatic Post and the cooperating sponsor. These should be scheduled at least once a year for multi-year projects and sent to Washington before submitting future commodity requests. Such reviews shall be made by individuals who are sufficiently independent of those who authorize the distribution of Title II commodities, to produce unbiased opinions, conclusions or judgments, in writing. These reviews are to ascertain the effectiveness or management systems and procedures to meet the terms and conditions of this Regulation and the program agreement. The internal review will represent a complete review of the Title II program(s) and the system used should contain a systematic method to assure timely and appropriate resolutions of review findings and recommendations. Copies of these internal reviews must be promptly submitted to AID/W–FFP/PCD, USAID Missions and/or Diplomatic Posts as required in § 211.10(b)(4).

(2) *By Other Cooperating Sponsors.* In the case of programs administered by cooperating governments and by intergovernmental organizations, responsibility for conducting internal audit examinations shall be determined by AID/W on a case by case basis. For records and reporting requirements for emergency programs see § 211.10.

(d) *Commodity requirements; Annual Estimate of Requirements (AER).* Each cooperating sponsor shall submit to the USAID or Diplomatic Post, within such times and on the form (usually the AER) prescribed by A.I.D./W, estimates of requirements showing the quantities of commodities required for each program proposed. Requirements shall be summarized for all programs in the country on a form prescribed by A.I.D./W.

(e) *Determination of eligibility of recipients.* Cooperating sponsors shall be responsible for determining that the recipients and recipient agencies to whom they distribute commodities are eligible in accordance with the terms and conditions of the Food for Peace Program Agreement and this part (Regulation 11). Cooperating sponsors shall impose upon recipient agencies responsibility for determining that the recipients to whom they distribute commodities are eligible. Commodities shall be distributed free of charge except as provided in paragraph (i) of this section or § 211.5(o), below, or as otherwise authorized by A.I.D./W, but in no case will recipients be excluded from receiving commodities because of inability to make contributions to cooperating sponsor programs.

(f) *No discrimination.* Cooperating sponsors shall distribute commodities to and conduct operations (with food or generated funds) only with eligible recipient agencies and eligible recipients without regard to nationality, race, color, sex, or religious or political beliefs, and shall impose similar conditions upon distribution by recipient agencies.

(g) *Public recognition.* To the maximum extent practicable, and with the cooperation of the host government adequate public recognition shall be given in the press, by radio, and other media that the commodities have been furnished by the people of the United States. At distribution and feeding centers the cooperating sponsor shall, to the extent feasible, display banners, posters, or similar media which shall contain information similar to that prescribed for containers in § 211.6(c).

Recipients' individual identification cards shall, insofar as practicable, be imprinted to contain such information.

(h) *Containers*—(1) *Markings.* Unless otherwise specified in the Food for Peace Program Agreement, when commodities are packaged for shipment from the United States, bags and other containers shall be marked with the CCC contract number or other identification, the A.I.D. emblem and the following information stated in English and, as far as practicable, in the language of the country receiving the commodity:

(i) Name of commodity.

(ii) Furnished by the people of the United States of America.

(iii) Not to be sold or exchanged (where applicable). Emblems or other identification of nongovernmental cooperating sponsors may also be added.

(2) *Disposal of containers.* Cooperating sponsors may dispose of containers, other than containers provided by carriers, in which commodities are received in countries having approved Title II programs, by sale or exchange, or may distribute the containers free of charge to eligible food or fiber recipients for their personal use. If the containers are to be used commercially, the cooperating sponsors must arrange for the removal or obliteration of or cross out the U.S. Government markings from the containers prior to such use.

(i) *Use of funds.* In addition to funds accruing to cooperating sponsors from the sale of containers, funds may also be available from contributions made in maternal, preschool, school and other child feeding programs where voluntary contributions by the recipients will be encouraged on the basis of ability to pay. Funds from these or from any other source under the program shall be used for payment of program costs such as transportation, storage (including the improvement of storage facilities and the construction of warehouses), handling, insect and rodent control, rebagging of damaged or infested commodities, and other expenses specifically authorized by A.I.D. Actual and reasonable out-of-pocket expenses including third party costs incurred in effecting any sale of containers may be deducted from the sales proceeds. Such funds may also be used for payment of indigenous and/or third country personnel employed by cooperating sponsor or recipient agencies in support of Title II programs and for other costs allowable under the approved program. Specifically, foreign currencies generated from any partial or full sales or barter of commodities by a nonprofit voluntary agency or cooperative may be used to transport, store, distribute, and otherwise enhance the effectiveness of the use of commodities and the products thereof donated under Title II; and to implement income generating, community development, health, nutrition, cooperative development, agricultural programs, and other developmental activities agreed upon between such agency or cooperative and A.I.D. However, such funds may not be used to acquire, develop, construct, alter or upgrade land, buildings or other real property improvements or structures that are either

(1) Owned or managed by a church or other organizations engaged exclusively in religious activity, or

(2) Used in whole or in part for sectarian purposes.

Cooperating sponsors shall follow their own requirements relating to bid guarantees, performance bonds and payments bonds where program income is used to finance construction or facility improvements, and no more than $100,000 of program income may be used for such purposes unless A.I.D. determines that the U.S. Government's interest is adequately protected by such requirements. The cooperating sponsor shall use commercially reasonable procurement practices in purchasing goods or services with monetization proceeds, funds derived from the program or funds provided by the U.S. Government, and shall employ procedures that prevent fraud, self-dealing, conflicts of interest or noncompetitive procurement. Each voluntary agency including cooperative agrees to use monetization proceeds, program income and funds provided by the U.S. Government only for such costs as would be allowable under the Office of Management and Budget (OMB) Circular No. A-122, "Cost Principles for Nonprofit Organizations," available at the Office of Administration, OMB, Publications Unit, Room G-236, New Executive Office Building, Washington, DC 20503. Title to real and personal property acquired with monetization proceeds, program income or funds provided by the U.S. Government shall be vested in the cooperating sponsor, but the cooperating sponsor shall dispose of such property as directed by the USAID Mission or the Diplomatic Post in the event the program terminates or is transferred to another entity. Records and documents regarding procurement using monetization proceeds, program income or funds provided by the U.S. Government shall be maintained and made available for inspection as required in § 211.10 below.

(j) *Report on Funds.* The cooperating sponsor headquarters shall annually provide A.I.D./W-Office of Food for Peace a report on the receipt and disbursement of all funds. This report should include the source of the funds, by country, and how the funds were used. The cooperating sponsor shall maintain at its headquarters the records supporting the annual report. The annual report should be submitted to A.I.D./W-Office of Food for Peace by December 31 of each calendar year for the fiscal year ended September 30 of that calendar year.

(k) *No displacement of sales.* Except in the case of emergency or disaster situations, the donation of commodities furnished for these programs shall not result in increased availability for export by the foreign country of the same or like commodities and shall not interfere with or displace sales in the recipient country which might otherwise take place. A country may be exempt from this proviso if circumstances warrant. Missions should seek AID/W guidance on this matter.

(l) *Commodities borrowed or exchanged for programs.* After the date of the program approval by A.I.D./W, but before arrival at the distribution point of the commodities authorized herein, the cooperating sponsor may, with prior approval of the USAID or Diplomatic Post, borrow the same or similar commodities from local sources to meet program requirements provided that:

(1) Such of the commodities borrowed as are used in accordance with the terms of the applicable Food for Peace Program Agreement will be replaced with commodities authorized herein on an equivalent value basis at the time and place that the exchange takes place as determined by mutual agreement between the cooperating sponsor and USAID or Diplomatic Post, except that at the request of the cooperating sponsor, the USAID or Diplomatic Post may determine that such replacement may be made on some other justifiable basis;

(2) Packaged commodities which are borrowed shall be appropriately identified in the language of the country of distribution as having been furnished by the people of the United States; and

(3) Suitable publicity shall be given to the exchange of commodities as provided in paragraph (g) of this section and containers for borrowed commodities shall be marked to the extent practicable in accordance with § 211.6(c).

(m) *Commodity transfer between programs.* After the date of program

approval by A.I.D./W, but before distribution of the commodities authorized herein by the recipient agency, the USAID or the Diplomatic Post, or the cooperating sponsor with prior approval of the USAID or Diplomatic Post, may transfer commodities between approved Title II programs to meet emergency disaster requirements or to improve efficiency of operation; for example, to meet temporary shortages due to delays in ocean transportation, or provide for rapid distribution of stocks in danger of deterioration. Transfers may also be made to disaster organizations for use in meeting exceptional circumstances. Commodity transfers shall be made at no cost to the U.S. Government and with the concurrence of the cooperating sponsor or disaster organization concerned. The USAID or the Diplomatic Post may, however, provide funds to pay the costs of transfers to meet extraordinary relief requirements, in which case A.I.D./W shall be advised promptly of the details of the transfer. Commodities transferred as described above shall not be replaced by the U.S. Government unless A.I.D./W authorizes such replacement.

(n) *Disposal of excessive stock of commodities.* If commodities are on hand which cannot be utilized in accordance with the applicable Food for Peace Program Agreement, the cooperating sponsor shall promptly advise USAID or the Diplomatic Post of the quantities, location, and condition of such commodities, and where possible shall propose an alternate use of the excess stocks; USAID or Diplomatic Post shall determine the most appropriate use of the excess stocks, and with prior A.I.D./W concurrence, shall issue instructions for disposition. Transportation costs and other charges attributable to transferring commodities from one program to another within the country shall be the responsibility of the cooperating sponsor, except that in case of disaster or emergency, A.I.D./W may authorize the use of disaster or emergency funds to pay for the costs of such transfers. (As to unfit commodity disposal, see § 211.8 below.)

(o) *Monetization programs.* For programs in which the sale of commodities is authorized by A.I.D., § 211.5 (e) and (f) herein are not applicable to the extent they prohibit or restrict the sale or distribution to end users of the commodities approved for monetization, and §§ 211.5(h) and 211.6(c) herein are not applicable to the extent they require the marking or labeling of the containers of such commodities. Cooperating sponsors do not need to monitor, manage, report on or account for the distribution or use of commodities after all sales proceeds have been fully deposited in an account established by the cooperating sponsor and title to the commodities has passed to buyers or other third parties pursuant to a sale under a monetization program. However, the sales proceeds and the uses thereof must be monitored, managed, reported and accounted for as provided in §§ 211.5(i), 211.5(j), 211.10 and other relevant sections of this Regulation. It is not mandatory that commodities approved for monetization be imported and sold free of all duties and taxes, but nongovernmental cooperating sponsors may negotiate agreements with the host government permitting the tax-free import and sale of such commodities. Even where the cooperating sponsor negotiates tax-exempt status, the prices at which the cooperating sponsor sells the commodities to the purchaser should reflect prices that would be obtained in a commercial transaction, i.e., the prices would include the cost of duties and taxes. Thus, the amounts normally paid for duties and taxes would accrue for the benefit of the cooperating sponsor's approved program.

(p) *Trilateral exchange programs.* The restrictions herein regarding the distribution, use or labeling of commodities shall not apply to commodities furnished by the CCC in exchange for other commodities received from third parties ("exchanged commodities") to be distributed in a recipient country under a trilateral exchange program. Except as the U.S. Government and the cooperating sponsor may otherwise agree in writing, title to the exchanged commodities will pass to the cooperating sponsor upon delivery to and acceptance by the cooperating sponsor at the point of delivery specified in the program documents. After title passes to the cooperating sponsor the exchanged commodities shall be deemed "commodities" covered by this Regulation with respect to all post-delivery obligations of the cooperating sponsor contained in this Regulation, including obligations regarding labeling, distribution, monitoring, reporting, accounting and use of commodities.

§ 211.6 Processing, repackaging, and labeling commodities.

(a) *Commercial processing and repackaging.* Cooperating sponsors or their designees may arrange for processing commodities into different end products and for packaging or repackaging commodities prior to distribution. When commercial facilities are used for processing, packaging or repackaging, cooperating sponsors or their designees shall enter into written agreements for such services. Except in the case of commodities and/or containers provided to foreign governments for sale under section 206 of Pub. L. 480, the agreements must have the prior approval of the USAID or Diplomatic Post in the country of distribution. Except as A.I.D./W otherwise agrees, the executed agreements shall provide as a minimum that:

(1) No part of the commodities delivered to the processing, packaging, or repackaging company shall be used to defray processing, packaging, repackaging, or other costs, except as provided in paragraph (a)(2) of this section, immediately below.

(2) When the milling of grain is authorized in the cooperating country, the U.S. will not pay any part of the processing costs, directly or indirectly, except that with the prior approval of A.I.D./W, the value of the offal may be used to offset such part of the processing costs as it may cover.

(3) The party providing such services shall:

(i) Fully account to the cooperating sponsor for all commodities delivered to the processor's possession and shall maintain adequate records and submit periodic reports pertaining to the performance of the agreement;

(ii) Be liable for the value of all commodities not accounted for as provided in § 211.9(g);

(iii) Return or dispose of the containers in which the commodity is received from the cooperating sponsor according to instructions from the cooperating sponsor; and

(iv) Plainly label carton, sacks, or other containers containing the end product in accordance with paragraph (c) of this section, below.

(b) *Use of cooperating sponsor facilities.* When cooperating sponsors utilize their own facilities to process, package, or repackage commodities into different end products, and when such products are distributed for consumption off the premises of the cooperating sponsor, the cooperating sponsor shall plainly label the containers as provided in paragraph (c) of this section, and banners, posters, or similar media which shall contain information similar to that prescribed in paragraph (c) of this section, shall be displayed at the distribution center. Recipients' individual identification cards shall to the maximum extent practicable be imprinted to contain such information.

(c) *Labeling.* If prior to distribution the cooperating sponsor arranges for packaging or repackaging donated commodities, the cartons, sacks, or other containers in which the commodities are packed shall be plainly labeled with the A.I.D. emblem, in the language of the country in which the commodities are to be distributed, with the following information:

(1) Name of commodity;

(2) Furnished by the people of the United States of America; and

(3) Not to be sold or exchanged (where applicable). Emblems or other identification of nongovernmental cooperating sponsors may also be added.

(d) Where commodity containers are not used. When the usual practice in a country is not to enclose the end product in a container, wrapper, sack, etc., the cooperating sponsor shall, to the extent practicable, display banners, posters, or other media, and imprint on individual recipient identification cards information similar to that prescribed in paragraph (c) of this section.

§ 211.7 Arrangements for entry and handling in foreign country.

(a) *Costs at discharge ports.* Except as otherwise agreed upon by A.I.D./W and provided in the applicable shipping contract or in paragraphs (d) and (e) of this section, the cooperating sponsor shall be responsible for all costs, other than those assessed by the delivering carrier either in accordance with its applicable tariff for delivery to the discharge port or in accordance with the applicable charter or booking contract. The cooperating sponsor shall be responsible for all costs for:

(1) Distributing the commodity as provided in the Food for Peace Program Agreement to end users,

(2) For demurrage, detention, and overtime, and

(3) For obtaining independent discharge survey reports as provided in § 211.9.

The cooperating sponsor shall also be responsible for wharfage, taxes, dues, and port charges assessed and collected by local authorities from the consignee, and for lighterage (when not a custom of the port), and lightening costs when assessed as a charge separate from the freight rate.

(b) *Duty, taxes, and consular invoices.* Except for commodities which are to be monetized (sold) under an approved Plan of Operation (see § 211.5(o) above), commodities shall be admitted duty free and exempt from all taxes. Consular invoices shall not be required unless specific provision is made in the Food for Peace Program Agreement. If required, they shall be issued without cost to the cooperating sponsor or to the Government of the United States. The cooperating sponsor shall be responsible for ensuring prompt entry and transit in the foreign country(ies) and for obtaining all necessary import permits, licenses or other appropriate approvals for entry and transit, including phytosanitary, health and inspection certificates.

(c) *Storage facilities and transportation in foreign countries.* Cooperating sponsors shall make all necessary arrangements for receiving the commodities and assume full responsibility for storage and maintenance of commodities from time of delivery at port of entry abroad or, when authorized, at other designated points of entry abroad agreed upon between the cooperating sponsor and A.I.D. Before recommending approval of a program to A.I.D./W, USAID or Diplomatic Post shall obtain from the cooperating sponsor, assurance that provision has been made for internal transportation, and for storage and handling which are adequate by local commercial standards. The cooperating sponsor shall be responsible for the maintenance of commodities in such manner as to assure distribution of the commodities in good condition to recipient agencies or eligible recipients.

(d) *Inland transportation in intermediate countries.* In the case of landlocked countries, transportation in the intermediate country to a designated inland point of entry in the recipient country shall be arranged by the cooperating sponsor unless otherwise provided in the Food for Peace Program Agreement or other program document. Nongovernmental cooperating sponsors shall handle claims arising from loss or damage in the intermediate country, in accordance with § 211.9(e). Other cooperating sponsors shall assign any rights that they may have to any claims that arise in the intermediate country to USAID which shall pursue and retain the proceeds of such claims.

(e)(1) *Authorization for Reimbursement of Costs.* If, because of packaging damage, it is determined by a nongovernmental cooperating sponsor that commodities must be repackaged to ensure that the commodities arrive at the distribution point in a wholesome condition, the nongovernmental cooperating sponsor may incur expenses for such repackaging up to $500.00 and such costs will be reimbursed to the nongovernmental cooperating sponsor by CCC. If costs will exceed $500.00, the authority to repackage and incur the costs must be approved by the USAID or Diplomatic Post in advance of repackaging unless such prior approval is specifically waived, in writing, by the USAID or Diplomatic Post. For losses in transit, the $500.00 limitation shall apply to all commodities which are shipped on the same voyage of the same vessel to the same port destination, irrespective of the kinds of commodities shipped or the number of different bills of lading issued by the carrier. For other losses, the $500.00 limitation shall apply to each loss situation, e.g., if 700 bags are damaged in a warehouse due to an earthquake, the $500.00 limitation applies to the total cost of repackaging the 700 bags. Shipments are not to be artificially divided into multiple units, in search of multiple $500 limitations.

(2) *Method of Reimbursement.*—(i) *Repackaging Required Because of Damage Occurring Prior to or During Discharge from the Ocean Carrier.* Costs of such reconstitution or repackaging should be included, as a separate item in claims filed against the ocean carrier (see § 211.9(c)). Full reimbursement of such costs up to $500.00 will be made by CCC, Kansas City Management Office, upon receipt of invoices or other documents to support such costs. For amounts expended in excess of $500.00, reimbursement will be made upon receipt of supporting invoices or other documents establishing the costs of repackaging and showing the prior approval of the USAID or Diplomatic Post to incur the costs (unless approval waived, see § 211.7(e)(1)).

(ii) *Repackaging Required Because of Damage Caused After Discharge of the Cargo from the Ocean Carrier.* Costs of such repackaging will be reimbursed to the agency or organization by CCC (USDA–ASCS Financial Management Division, 14th & Independence Avenue, Washington, DC 20250) upon receipt of documentation as set forth in § 211.7(e)(2) of this chapter.

§ 211.8 Disposition of commodities unfit for authorized use.

(a) *Prior to delivery to cooperating sponsor at discharge port or point of entry.* If the commodity is damaged prior to delivery to the cooperating sponsor (other than a nongovernmental cooperating sponsor, which shall arrange for such inspection) at discharge port or point of entry overseas, the USAID or Diplomatic Post shall immediately arrange for inspection by a public health official or other competent authority. If the commodity is determined to be unfit for human consumption, the USAID or Diplomatic Post shall dispose of it in accordance with the priority set forth in paragraph

(b) of this section. Expenses incidental to the handling and disposition of the damaged commodity shall be paid by USAID or the Diplomatic Post from the sales proceeds, from CCC Account No. 20 FT 401 or from special Title II, Pub. L. 480 Agricultural Commodity Account. The net proceeds of sales shall be deposited with the U.S. Disbursing Officer American Embassy, for the credit of CCC Account No. 20 FT 401.

(b) *After delivery to cooperating sponsor.* If after arrival in a foreign country it appears that the commodity, or any part thereof, may be unfit for the use authorized in the Food for Peace Program Agreement, the cooperating sponsor shall immediately arrange for inspection of the commodity by a public health official or other competent authority approved by USAID or the Diplomatic Post. If no competent local authority is available, the USAID or Diplomatic Post may determine whether the commodities are unfit for human consumption, and if so may direct disposal in accordance with paragraphs (b)(1) through (4) of this section, below. The cooperating sponsor shall arrange for the recovery for authorized use of that part designated during the inspection as suitable for program use. If, after inspection, the commodity (or any part thereof) is determined to be unfit for authorized use the cooperating sponsor shall notify USAID or the Diplomatic Post of the circumstances pertaining to the loss or damage as prescribed in § 211.9(f). With the concurrence of USAID or the Diplomatic Post, the commodity determined to be unfit for authorized use shall be disposed of in the following order of priority:

(1) By transfer to an approved Food for Peace Program for use as livestock feed. A.I.D./W shall be advised promptly of any such transfer so that shipments from the United States to the livestock feeding program can be reduced by an equivalent amount;

(2) Sale for the most appropriate use, i.e., animal feed, fertilizer, or industrial use, at the highest obtainable price. When the commodity is sold, all U.S. Government markings shall be obliterated, removed or crossed out;

(3) By donation to a governmental or charitable organization for use as animal feed or for other nonfood use; and

(4) If the commodity is unfit for any use or if disposal in accordance with paragraph (b) (1), (2), or (3) of this section, immediately above, is not possible, the commodity shall be destroyed under the observation of a representative of USAID or Diplomatic Post, if practicable, in such manner as to prevent its use for any purpose. Expenses incidental to the handling and disposition of the damaged commodity shall be paid by the cooperating sponsor unless it is determined by the USAID or the Diplomatic Post that the damage could not have been prevented by the proper exercise of the cooperating sponsor's responsibility under the terms of the Food for Peace Program Agreement. Actual expenses incurred, including third party costs, in effecting any sale may be deducted from the sales proceeds and, except for monetization programs, the net proceeds shall be deposited with the U.S. Disbursing Officer, American Embassy, with instructions to credit the deposit to CCC Account No. 20 FT 401. In monetization programs, net proceeds shall be deposited in the special account used for such funds for purposes of the approved program. The cooperating sponsor shall promptly furnish USAID or the Diplomatic Post a written report of all circumstances relating to the loss and damage. The report or supplemental report shall include a certification by a public health official or other competent authority of the exact quantity of the damaged commodity disposed of because it was determined to be unfit for human consumption.

§ 211.9 Liability for loss, damage or improper distribution of commodities.

(a) *Fault of cooperating sponsor prior to loading on ocean vessel.* If a nongovernmental cooperating sponsor books cargo for ocean transportation and is unable to have a vessel at the U.S. port of export for loading in accordance with the agreed shipping schedule, the nongovernmental cooperating sponsor shall immediately notify the USDA. The USDA will determine whether the commodity shall be:

(1) Moved to another available outlet;

(2) Stored at the port for delivery to the nongovernmental cooperating sponsor when a vessel is available for loading; or

(3) Disposed of as the USDA may deem proper.

When additional expenses are incurred by CCC as a result of a failure of the voluntary agency or intergovernmental organization, or their agent, to meet the agreed shipping schedule, or to make necessary arrangements to accept commodities at the points of delivery designated by CCC, and it is determined by CCC that the expenses were incurred because of the fault or negligence of the nongovernmental cooperating sponsor, the cooperating sponsor shall reimburse CCC for such expenses or take such action as directed by CCC.

(b) *Fault of others prior to loading on ocean vessel.* Upon the happening of any event creating any rights against a warehouseman, carrier, or other person for the loss of or damage to a commodity occurring between the time title is transferred to a non-governmental cooperating sponsor and the time the commodity is loaded on board vessel at designated port of export, the non-governmental cooperating sponsor shall immediately notify CCC and promptly assign to CCC any rights to claims which may accrue to them as a result of such loss or damage and shall promptly forward to CCC all documents pertaining thereto. CCC shall have the right to initiate and prosecute, and retain the proceeds of all claims for such loss or damage.

(c) *Ocean carrier loss and damage—*

(1) *Survey and outturn reports.* (i) Cooperating sponsors shall arrange for an independent cargo surveyor to attend the discharge of the cargo and to count or weigh the cargo and examine its condition, unless USAID or the Diplomatic Post determines that such examination is not feasible, or if CCC has made other provisions for such examinations and reports. The surveyor shall prepare a report of its findings showing the quantity and condition of the commodities discharged. The report shall also show the probable cause of any damage noted, and set forth the time and place when the examination was made. If practicable, the examination of the cargo shall be conducted jointly by the surveyor, the consignee, and the ocean carrier, and the survey report shall be signed by all parties. Customs receipts, port authority reports, shortlanding certificates, cargo boat notes, stevedore's tallies, etc., where applicable, shall be obtained and furnished with the report of the surveyor. The cooperating sponsor shall obtain a certification by public health official or similar competent authority as to—

(A) The condition of the commodity in any case where a damaged commodity appears to be unfit for its intended use; and

(B) A certificate of disposition in the event the commodity is determined to be unfit for its intended use.

Such certificates shall be obtained as soon as possible after discharge of the cargo. In any case where the cooperating sponsor can provide a narrative chronology or other commentary to assist in the adjudication of ocean transportation claims, such information should be forwarded. Cooperating sponsors shall prepare such a statement in any case where the loss

is estimated to be in excess of $5,000.00. All documentation shall be in English or supported by an English translation and shall be forwarded as set forth in paragraph (c) (1) (iii) and (iv) of this section, below. The cooperating sponsor may, at its option, also engage the independent surveyor to supervise clearance and delivery of the cargo from customs or port areas to the cooperating sponsor or its agent and to issue delivery survey reports thereon.

(ii) In the event of cargo loss and damage, the cooperating sponsor shall provide the names and addresses of individuals who were present at the time of discharge and during survey and who can verify the quantity lost or damaged. In the case of bulk grain shipments, the cooperating sponsor shall obtain the services of an independent surveyor to—

(A) Observe the discharge of the cargo,

(B) Report on discharging techniques and furnish information as to whether cargo was carefully discharged in accordance with the customs of the port,

(C) Estimate the quantity of cargo, if any, lost during discharge through carrier negligence,

(D) Advise on the quality of sweepings,

(E) Obtain copies of port and/or vessel records, if possible, showing quantity discharged,

(F) Provide immediate notification to cooperating sponsor if additional services are necessary to protect cargo interests or if surveyor has reason to believe that the correct quantity was not discharged.

The cooperating sponsor, in the case of damage to bulk grain shipments, shall obtain and provide the same documentation regarding quality of cargo as set forth in § 211.8(a) of this part and paragraph (c)(1)(i) of this section, above. In the case of shipments arriving in container vans, cooperating sponsors shall require the independent surveyor to list the container van numbers and seal numbers shown on the container vans, and indicate whether the seals were intact at the time the container vans were opened, and whether the container vans were in any way damaged. To the extent possible, the independent surveyor should observe discharge of container vans from the vessel to ascertain whether any damage to the container van occurred and arrange for surveying the contents as soon as possible after opening.

(iii) Cooperating Sponsors shall send copies to USDA of all reports and documents pertaining to the discharge of commodities.

(iv) CCC will reimburse the nongovernmental cooperating sponsor for the costs incurred by them in obtaining the services of an independent surveyor to conduct examinations of the cargo and render the report set forth above. Reimbursement by CCC will be made upon receipt by CCC of the survey report and the surveyor's invoice or other documents that establish the survey cost. However, CCC will not reimburse a nongovernmental cooperating sponsor for the costs of only a delivery survey, in the absence of a discharge survey, or for any other survey not taken contemporaneously with the discharge of the vessel, unless such deviation from the documentation requirements of this part, § 211.9(c)(1), is justified to the satisfaction of CCC.

(v) CCC will normally contract for the survey of cargo on shipments furnished under Transfer Authorizations. Survey contracts will normally be let on a competitive bid basis. However, if a USAID or Diplomatic Post desires that CCC limit its consideration to only certain selected surveyors, the USAID or Diplomatic Post shall furnish A.I.D./W a list of eligible surveyors for forwarding to CCC. Surveyors may be omitted from the list, for instance, based on foreign relations considerations, conflicts of interest, and/or lack of demonstrated capability to properly carry out surveying responsibilities as set forth in the requirements of CCC. A.I.D./W will furnish CCC's surveying requirements to a USAID or Diplomatic Post upon request. If CCC is unable to find a surveyor at a port to which a shipment has been consigned, CCC may request A.I.D./W to contact the USAID or Diplomatic Post to arrange for a survey. The surveyor's bill for such services shall be submitted to the USAID or Diplomatic Post for review. After the billing has been approved, the USAID or Diplomatic Post may either pay the bill or forward the bill to A.I.D./W for transmittal to CCC for payment. If the USAID or Diplomatic Post pays the bill, A.I.D./W shall be advised of the amount paid and CCC will reimburse the USAID or Diplomatic Post.

(2) *Claims against ocean carriers.* (i) Whether or not title to the commodities has been transferred from CCC to the cooperating sponsor, if A.I.D. or its agents or representatives contracted for the ocean transportation, CCC shall have the right to initiate and prosecute, and retain the proceeds of, all claims against ocean carriers for cargo loss and damage arising out of shipments of commodities transferred or delivered by the CCC hereunder.

(ii)(A) Unless otherwise provided in the Food for Peace Program Agreement or other program document, nongovernmental cooperating sponsors shall file notice of any cargo loss and damage with the carrier immediately upon discovery of any such loss and damage and shall promptly initiate claims against the ocean carriers for cargo loss and damage and shall take all necessary action to obtain restitution for losses within any applicable periods of limitations and shall transmit to CCC copies of all such claims. However, the nongovernmental cooperating sponsor need not file a claim when the cargo loss is not in excess of $25, or in any case when the loss is in excess of $25, but not in excess of $100 and it is determined by the nongovernmental cooperating sponsor that the cost of filing and collecting the claim will exceed the amount of the claim. The nongovernmental cooperating sponsor shall transmit to CCC copies of all claims filed with the ocean carriers for cargo loss and damage, as well as information and/or documentation on shipments when no claim is to be filed. When General Average (see definition) has been declared, no action will be taken by the nongovernmental cooperating sponsor to file or collect claims for loss or damage to commodities. (See paragraph (c)(2)(iii) of this section, below.)

(B) *Determination of value.* When payment is made for commodities misused, lost or damaged, the value shall be determined on the basis of the domestic market price at the time and place the misuse, loss or damage occurred, or, in case it is not feasible to obtain or determine such market price, the f.o.b. or f.a.s. commercial export price of the commodity at the time and place of export, plus ocean freight charges and other costs incurred by the Government of the United States in making delivery to the cooperating sponsor. When the value is determined on a cost basis, the nongovernmental cooperating sponsors may add to the value any provable costs they have incurred prior to delivery by the ocean carrier. In preparing the claim statement, these costs shall be clearly segregated from costs incurred by the Government of the United States. With respect to claims other than ocean carrier loss and/or damage claims, at the request of the cooperating sponsor and/or upon the recommendation of the USAID or Diplomatic Post, A.I.D./W may determine that such value may be determined on some other justifiable basis. When replacement is made, the value of commodities misused, lost or damaged, shall be their value at the time and place the misuse, loss, or damage

occurred and the value of the replacement commodities shall be their value at the time and place replacement is made.

(C) Amounts collected by nongovernmental cooperating sponsors on claims against ocean carriers not in excess of $100 may be retained by the nongovernmental cooperating sponsor. On claims involving loss or damage having a value in excess of $100 the nongovernmental cooperating sponsors may retain from collections received by them, the larger of—

(1) The amount of $100 plus 10 percent of the difference between $100 and the total amount collected on the claim, up to a maximum of $350, or

(2) Actual administrative expenses incurred in collection of the claim; provided retention of such expenses is approved by CCC.

Collection costs shall not be deemed to include attorneys fees, fees of collection agencies, and the like. In no event will collection costs in excess of the amount collected on the claim be paid by CCC. The nongovernmental cooperating sponsors may also retain from claim recoveries remaining after allowable deductions for administrative expenses of collection, the amount of any special charges, such as handling, packing, and insurance costs, which the nongovernmental cooperating sponsor has incurred on the lost or damaged commodity and which are included in the claims and paid by the liable party.

(D) The nongovernmental cooperating sponsor may redetermine claims on the basis of additional documentation or information, not considered when the claims were originally filed when such documentation or information clearly changes the ocean carrier's liability. Approval of such changes by CCC is not required regardless of amount. However copies of redetermined claims and supporting documentation or information shall be furnished to CCC.

(E) The nongovernmental cooperating sponsor may negotiate compromise settlements of claims regardless of the amount thereof, except that proposed compromise settlements of claims having a value in excess of $5,000 shall not be accepted until such action has been approved in writing, by CCC. When a claim is compromised, the nongovernmental cooperating sponsor may retain from the amount collected, the amounts authorized in paragraph (c)(2)(ii)(c) of this section, above, and in addition, an amount representing such percentage of the special charges described in paragraph (c)(2)(ii)(c) of this section as the compromised amount is to the full amount of the claim. When a claim is not in excess of $600, the nongovernmental cooperating sponsor may terminate collection activity on the claim according to the standards set forth in 4 CFR 104.3. Approval of such termination by CCC is not required but the nongovernmental cooperating sponsor shall notify CCC when collection activity on a claim is terminated.

(F) All amounts collected in excess of the amounts authorized herein to be retained shall be remitted to CCC. For the purpose of determining the amount to be retained by the nongovernmental cooperating sponsor from the proceeds of claims filed against ocean carriers, the word "claim" shall refer to the loss and damage to commodities which are shipped on the same voyage of the same vessel to the same port destination, irrespective of the kinds of commodities shipped or the number of different bills of lading issued by the carrier. If a nongovernmental cooperating sponsor is unable to effect collection of a claim or negotiate an acceptable compromise settlement within the applicable period of limitation or any extension thereof granted in writing by the liable party or parties, the rights of the nongovernmental cooperating sponsor to the claim shall be assigned to CCC in sufficient time to permit the filing of legal action prior to the expiration of the period of limitation or any extension thereof. Nongovernmental cooperating sponsors shall promptly assign their claim rights to CCC upon request. In the event CCC effects collection or other settlement of the claim after the rights of the nongovernmental cooperating sponsor to the claim have been assigned CCC, CCC shall, except as shown below, pay to the nongovernmental cooperating sponsor the amount the agency or organization would have been entitled to retain had they collected the same amount. However, the additional 10 percent on amounts collected in excess of $100 will be payable only if CCC determines that reasonable efforts were made to collect the claim prior to the assignment, or if payment is deemed to be commensurate with the extra efforts exerted in further documenting claims. Further, if CCC determines that the documentation requirements of § 211.9(c)(1), above, have not been fulfilled and the lack of such documentation has not been justified to the satisfaction of CCC, CCC reserves the right to deny payment of all allowances to the nongovernmental cooperating sponsor.

(G) When nongovernmental cooperating sponsors fail to file claims, or permit claims to become time-barred, or fail to provide for the right of CCC to assert such claims, as provided in this § 211.9, and it is determined by CCC that such failure was due to the fault or negligence of the nongovernmental cooperating sponsor, the agency or organization shall be liable to the United States for the cost and freight (C&F) value of the commodities lost to the program.

(iii) If a cargo loss has been incurred on a nongovernmenal cooperating sponsor shipment, and general average has been declared, the nongovernmental cooperating sponsor shall furnish to the Chief Claims and Collections Division, Kansas City ASCS Management Office, P.O. Box 205, Kansas City, Missouri, ZIP 64141, with a duplicate copy to A.I.D./W-PDC/FFP/POD, 2201 C Street, NW., Washington, DC 20523—

(A) Copies of booking confirmations and the applicable on-board bill(s) of lading,

(B) The related outturn or survey report(s),

(C) Evidence showing the amount of ocean transportation charges paid to the carrier(s), and

(D) An assignment to CCC of the cooperating sponsor's right to the claim(s) for such loss.

(d) *Fault of cooperating sponsor in country of distribution.* If the cooperating sponsor improperly distributes or permits a commodity or proceeds from the sale thereof or program income to be used for a purpose not permitted under the Food for Peace Program Agreement, other program documents or this part, or causes loss or damage to a commodity through any act or omission or fails to provide proper storage, care, and handling, the cooperating sponsor shall pay to the United States the value of the commodities, proceeds or program income, lost, damaged, or misused (or may, with prior USAID approval, replace such commodities with similar commodities of equal value), unless it is determined by A.I.D. that such improper distribution or use, or such loss or damage, could not have been prevented by proper exercise of the cooperating sponsor's responsibility under the terms of the agreement. Normal commercial practices in the country of distribution shall be considered in determining whether there was a proper exercise of the cooperating sponsor's responsibility. Payment by the cooperating sponsor shall be made in accordance with paragraph (g) of this section.

(e) *Fault of others in country of distribution and in intermediate country.* (1) In addition to survey and/or outturn reports to determine ocean carrier loss and damage, the cooperating

sponsor shall, in the case of land-locked countries, arrange for an independent survey at the point of entry into the recipient country and to make a report as set forth in § 211.9(c)(1), above. CCC will reimburse the cooperating sponsor for the costs of survey as set forth in § 211.9(c)(1)(iv).

(2) Upon the happening of any event creating any rights against a warehouseman, carrier or other person for the loss of, damage to, or misuse of any commodity or for the loss or misuse of monetized proceeds or program income, the cooperating sponsor shall make every reasonable effort to pursue collection of claims against the liable party or parties for the value of the commodity lost, damaged, or misused or the value of the monetized proceeds or program income and furnish a copy of the claim and related documents to USAID or Diplomatic Post. Cooperating sponsors who fail to file or pursue such claims shall be liable to A.I.D. for the value of the commodities or monetized proceeds or program income lost, damaged, or misused: Provided, however, That the cooperating sponsor may elect not to file a claim if the loss is less than $300 and such action is not detrimental to the program. Cooperating sponsors may retain $100 of any amount collected on an individual claim. In addition, cooperating sponsors may, with the written approval of the USAID or Diplomatic Post, retain special costs such as legal fees that they have incurred in the collection of a claim. Any proposed settlement for less than the full amount of the claim must be approved by the USAID or Diplomatic Post prior to acceptance. When the cooperating sponsor has exhausted all reasonable attempts to collect a claim, it shall request the USAID or Diplomatic Post to provide further instructions.

(3) Claims Resulting on Shipments of Commodities from Port of Entry Enroute to Point of Destination in Landlocked Countries. These claims should be filed by the cooperating sponsor based on losses from an entire shipment as an individual claim (i.e. based on an ocean freight Bill of Lading or independent survey report conducted at the time the commodity is offloaded at port of entry), assuming that the claim covers a contract with one carrier, and that the shipment has not been artificially broken down. The individual claim may not be artificially broken down by the cooperating sponsor in order to enlarge the amount that the cooperating sponsor may retain.

(4) Reasonable attempts to collect the claim shall not be less than follow-up of initial billings with three progressively stronger demands at not more than 30-day intervals. If these efforts fail to elicit a satisfactory response, legal action in the judicial system of the cooperating country should be pursued unless liability of the third party is not provable, the cost of pursuing the claim would exceed the amount of the claim or the A.I.D. Mission or Diplomatic Post otherwise approves a request from the cooperating sponsor that it should not take further action on the claim. A cooperating sponsor's decision that liability is not provable or the cost of legal action would exceed the amount of the claim must be supported by the opinion of competent counsel and must be submitted to the USAID Mission or Diplomatic Post for review and approval.

(5) If the A.I.D. Mission or Diplomatic Post approves a cooperating sponsor's decision not to take further action on the claim, the cooperating sponsor shall assign the claim to A.I.D. upon request, and shall provide to A.I.D. all documentation relating to the claim. The rights of the cooperating sponsor to the claim shall be assigned to A.I.D. in sufficient time to permit the filing of legal action, if A.I.D. chooses to do so, prior to the expiration of any period of limitation applicable to the claim under the laws of the cooperating country.

(6) As an alternative to legal action in the judicial system of the country with regard to claims against a public entity of the government of the cooperating country, the cooperating sponsor and the cooperating country may agree to settle disputed claims by an appropriate administrative procedure and/or arbitration. This alternative may be established in the Individual Country Food for Peace Program Agreement required under § 211.3(b), or by a separate formal understanding and must be submitted to the USAID Mission or Diplomatic Post for review and approval. Resolution of disputed claims by any administrative procedure or arbitration agreed to by the cooperating sponsor and the cooperating country should be final and binding on the parties.

In the event it is necessary for the USAID Mission or Diplomatic Post to take an assignment of a claim or claims from a cooperating sponsor, the A.I.D. Mission or Diplomatic Post shall consult with A.I.D./Washington regarding the appropriate action to take on the assigned claim or claims.

(f) *Reporting losses to USAID or Diplomatic Post.* The cooperating sponsor shall promptly notify USAID or the Diplomatic Post, in writing, of the circumstances pertaining to any loss, damage, or misuse occurring within the country of distribution or intermediate country and shall include information as to the name of the responsible party; kind and quantities of commodities; size and type of containers; the time and place of misuse, loss or damage, the current location of the commodity; and the Food for Peace Program Agreement number, the CCC contract numbers, if known, or if unknown, other identifying numbers printed on the commodity containers, the action taken by the cooperating sponsor with respect to recovery or disposal; and the estimated value of the commodity. If any of the above information is not available, an explanation of its unavailability shall be made by the cooperating sponsor. Similar information should also be reported regarding any loss or misuse of monetized proceeds or program income.

(g) *Handling claims proceeds.* Claims against ocean carriers shall be collected in U.S. dollars (or in currency in which freight is paid, or a pro rata share of each) and shall be remitted (less amounts authorized to be retained) by nongovernmental cooperating sponsors to CCC. Claims against nongovernmental cooperating sponsors shall be paid to CCC or A.I.D./W in U.S. dollars. With respect to commodities lost, damaged or misused, amounts paid by other cooperating sponsors and third parties in the country of distribution shall be deposited with the U.S. Disbursing Officer, American Embassy, preferably, in U.S. dollars with instructions to credit the deposit to CCC Account No. 12X4336, or in local currency at the official exchange rate applicable to dollar imports at the time of deposit with instructions to credit the deposit to Treasury sales account 20FT401. With respect to monetized proceeds and program income, amounts recovered may be deposited in the special account used for such funds and may thereafter be used for purposes of the approved program.

(h) *General average.* CCC shall—

(1) Be responsible for settling general average and marine salvage claims,

(2) Retain the authority to make or authorize any disposition of commodities which have not commenced ocean transit or of which the ocean transit is interrupted, and receive and retain any monetary proceeds resulting from such disposition,

(3) In the event of a declaration of general average, initiate and prosecute, and retain all proceeds of, cargo loss and damage claims against ocean carriers, and

(4) Receive and retain any allowance in general average.

CCC will pay any general average or marine salvage claims determined to be due.

§ 211.10 Records and reporting requirements of cooperating sponsor.

(a) *Records.* Cooperating sponsors shall maintain records and documents in a manner which will accurately reflect all transactions pertaining to the receipt, storage, distribution, sale, inspection and use of commodities. This shall include a periodic summary report and records of receipt and disbursement of any funds accruing from the sale of commodities and the operation of the program. Such records shall be retained for a period of 3 years from the close of the U.S. fiscal year to which they pertain, or longer, upon request by A.I.D. for cause, such as in the case of litigating a claim or audit concerning such records. The cooperating sponsor shall transfer to A.I.D. any records, or copies thereof, requested by A.I.D.

(b) *Reports.* Cooperating sponsors shall submit reports to the USAID or Diplomatic Post and to A.I.D./W, not less than annually relating to progress and problems in the implementation of the program, and inspection or evaluation reports, as required by A.I.D./W or as agreed upon between USAID or Diplomatic Post and the cooperating sponsor and approved by A.I.D./W. The following is a list of the principal types of reports that are to be submitted:

(1) Periodic summary reports showing receipt, distribution, and inventory of commodities and proposed schedules of shipments or call forwards.

(2) In the case of Title II sales monetization agreements in accordance with section 206 or section 207 of the Act, the cooperating sponsor, whether governmental or nongovernmental, is directly responsible for reporting on programs involving the use of funds for purposes specified in the agreement.

(3) Reports relating to progress and problems in the implementation of the program, and inspection reports, as may be required from time to time by A.I.D./W or as may be agreed upon between the USAID or Diplomatic Post and the cooperating sponsor and approved by A.I.D./W.

(4) Reports of all comprehensive internal reviews prepared in accordance with § 211.5(c), above, shall be submitted to the USAID or Diplomatic Post for review as soon as completed and in sufficient detail to enable the USAID or Diplomatic Post to assess and to make recommendations as to the ability of the cooperating sponsors to effectively plan, manage, control and evaluate the Food for Peace programs under their administration.

(5) Emergency Programs. At the time that an emergency program under Pub. L. 480, Title II is initiated, whether on a governmental or nongovernmental basis, the Mission should:

(i) Make a determination regarding the ability of the cooperating sponsor to perform the record-keeping required by this § 211.10 and

(ii) In those instances in which those specific record-keeping requirements cannot be followed, due to emergency circumstances, specify exactly which essential information will be recorded in order to account fully for Title II commodities.

(6) Reports accounting for the generation and use of program income.

(c) *Inspection and audit.* Cooperating sponsors shall cooperate with and give reasonable assistance to U.S. Government representatives to enable them at any reasonable time to examine activities and records of the cooperating sponsors, processors, or others, pertaining to the receipt, storage, distribution, processing, repackaging, sale and use of commodities by recipients; to inspect commodities in storage, or the facilities used in the handling or storage of commodities; to inspect and audit records, including financial records and reports pertaining to storage, transportation, processing, repackaging, distribution, sale and use of commodities; the deposit of and use of any Title II generated local currencies; to review the overall effectiveness of the program as it relates to the objectives set forth in the Food for Peace Program Agreement; and to examine or audit the procedure and methods used in carrying out the requirements of this part (Regulation 11). Inspections and audits of Title II emergency programs will take into account the circumstances under which such programs are carried out.

§ 211.11 Termination of program.

All or any part of the assistance provided under the program, including commodities in transit, may be terminated or suspended by A.I.D. at its discretion if the cooperating sponsor fails to comply with the provisions of the Food for Peace Program Agreement, this part, or if it is determined by A.I.D. that the continuation of such assistance is no longer necessary or desirable. Under such circumstances title to commodities which have been transferred to the cooperating sponsor, or Title II generated funds, shall at the written request of USAID, the Diplomatic Post, or A.I.D./W, be transferred to the U.S. Government by the cooperating sponsor. Any excess commodities on hand at the time the program is terminated shall be disposed of in accordance with § 211.5(l) or as otherwise instructed by USAID or the Diplomatic Post. If it is determined that any commodity to be supplied under the Food for Peace Program Agreement is no longer available for Food for Peace programs, such authorization shall terminate with respect to any commodities which, as of the date of such determination have not been delivered f.o.b. or f.a.s. vessel, provided every effort will be made to give adequate advance notice to protect cooperating sponsors against unnecessarily booking vessels.

§ 211.12 Waiver and amendment authority.

The Assistant Administrator for Food for Peace and Voluntary Assistance, may waive, withdraw, or amend, at any time, any or all of the provisions of this Part 211 (Regulation 11) if such provision is not statutory and it is determined to be in the best interest of the U.S. Government to do so. Any cooperating sponsor which has failed to comply with the provisions of this part or any instructions or procedures issued in connection herewith, or any agreements entered into pursuant hereto may at the discretion of A.I.D. be suspended or disqualified from further participation in any distribution program.

Reinstatement may be made at the option of A.I.D.

Disqualification shall not prevent A.I.D. from taking other action through other available means when considered necessary.

Appendix I to Part 211—Legislation

The Agricultural Trade Development Assistance Act of 1954, as amended (Public Law 480) implemented by the Regulation in this part (as of the date of issuance of this part) includes legislation pertaining to Pub. L. 480, Title II activities as follows:

Title II Legislation

(1) Section 2(3) of the Agricultural Trade Development and Assistance Act of 1954, as amended, provides that in furnishing food aid, the President shall:

"relate United States food assistance to efforts by aid-receiving countries to increase their own agricultural production, with emphasis on development of small, family farm agriculture, and improve their facilities for transportation, storage, and distribution of food commodities."

(2) Section 201 of the Agricultural Trade Development and Assistance Act of 1954, as amended, provides as follows:

"(a) The President is authorized to determine requirements and furnish agricultural commodities on behalf of the people of the United States of America, to

meet famine or other urgent or extraordinary relief requirements; to combat malnutrition, especially in children; to promote economic and community development in friendly developing areas, and for needy persons and nonprofit school lunch and preschool feeding programs outside the United States. The Commodity Credit Corporation shall make available to the President such agricultural commodities determined to be available under section 401 as he may request.

(b) The minimum quantity of agricultural commodities distributed under this title for each of the fiscal years ending September 30, 1987, September 30, 1988, September 30, 1989, and September 30, 1990, shall be 1,900,000 metric tons, of which not less than 1,425,000 metric tons for nonemergency programs shall be distributed through nonprofit voluntary agencies, cooperatives, and the World Food Program; unless the President determines and reports to the Congress, together with his reasons, that such quantity cannot be used effectively to carry out the purposes of this title.

(c)(1) Except as provided in paragraph (2), in distributing agricultural commodities under this title, the President shall:

(A) consider

(i) the nutritional assistance to recipients and benefits to the United States that would result from distributing such commodities in the form of processed and protein-fortified products, including processed milk, plant protein products, and fruit, nut, and vegetable products;

(ii) the nutritional needs of the proposed recipients of the commodities;

(iii) the cost effectiveness of providing such commodities, for purposes of selecting commodities for distribution under nonemergency programs; and

(iv) the purposes of this title; and

(B) ensure that at least 75 percent of the quantity of agricultural commodities required to be distributed each fiscal year under subsection (b) for nonemergency programs be in the form of processed or fortified products or bagged commodities.

(2) The president may waive the requirement under paragraph (1)(B) or make available a smaller percentage of fortified or processed food than required under paragraph (1)(B) during any fiscal year in which the President determines that the requirements of the programs established under this title will not be best served by the distribution of fortified or processed food in the amounts required under paragraph (1)(B)."

(3) Section 202 of the Agricultural Trade Development and Assistance Act of 1954, as amended, provides as follows:

"(a) The President may furnish commodities for the purposes set forth in section 201 through such friendly governments and such agencies, private or public, including intergovernmental organizations such as the world food program and other multilateral organizations in such manner and upon such terms and conditions as he deems appropriate. The President shall, to the extent practicable, utilize nonprofit voluntary agencies or cooperatives registered with, and approved by the Agency for International Development. If no United States nonprofit voluntary agency or cooperative registered with and approved by the Agency for International Development is available, the President may utilize a foreign nonprofit voluntary agency or cooperative which is registered with and approved by the Agency for International Development. Insofar as practicable, all commodities furnished hereunder shall be clearly identified by appropriate markings on each package or container in the language of the locality where they are distributed as being furnished by the people of the United States of America. Except in the case of emergency, the President shall take reasonable precaution to assure that commodities furnished hereunder will not displace or interfere with sales which might otherwise be made.

(b)(1) Assistance to needy persons under this title shall be directed, insofar as practicable, toward community and other self activities designed to alleviate the causes of need for such assistance.

(2) In order to assure that food commodities made available under this title are used effectively and in the areas of greatest need, entities through which such commodities are distributed shall be encouraged to work with indigenous institutions and employ indigenous workers, to the extent feasible, to assess nutritional and other needs of beneficiary groups, help these groups design and carry out mutually acceptable projects, recommend ways of making food assistance available that are most appropriate for each local setting, supervise food distribution, and regularly evaluate the effectiveness of each project.

(3) In distributing food commodities under this title, priority shall be given, to the extent feasible, to those who are suffering from malnutrition by using means such as (A) giving priority within food programs for preschool children to malnourished children, and (B) giving priority to poorest regions of countries.

(4) In the case of commodities distributed under this title by nonprofit voluntary agencies, consideration shall be given to nutritional and development objectives as established by those agencies in light of their assessment of the needs of the people assisted.

(c)(1) In agreements with nonprofit voluntary agencies and cooperatives for nonemergency assistance under this title, the President is encouraged, if requested by the nonprofit voluntary agency or cooperative, to approve multiyear agreements to make agricultural commodities available for distribution by that agency or cooperative. Such agreement shall be subject to the availability each fiscal year of the necessary appropriations and agricultural commodities.

(2) Paragraph (1) does not apply to an agreement which the President determines should be limited to a single year because of the past performance of the nonprofit voluntary agency or cooperative or because the agreement involves a new program of assistance.

(3) In carrying out a multiyear agreement pursuant to this subsection, a nonprofit voluntary agency or cooperative shall not be required to obtain annual approval from the United States Government in order to continue its assistance program pursuant to the agreement, unless exceptional and unforeseen circumstances have occurred which the President determines require such approval."

(4) Section 203 of the Agricultural Trade Development and Assistance Act of 1954, as amended, provides as follows:

"The Commodity Credit Corporation may, in addition to the cost of acquisition, pay with respect to commodities made available under this title costs for packaging, enrichment, preservation, and fortification; processing, transportation, handling, and other incidental costs up to the time of their delivery free on board vessels in United States ports; ocean freight charges from United States ports to designated ports of entry abroad; transportation from United States ports to designated points of entry abroad in the case (1) of landlocked countries, (2) where ports cannot be used effectively because of natural or other disturbances, (3) where carriers to a specific country are unavailable, or (4) where a substantial savings in cost or time can be effected by utilization of points of entry other than ports; in the case of commodities for urgent and extraordinary relief requirements, including pre-positioned commodities, transportation costs from designated points of entry or ports of entry abroad to storage and distribution sites and associated storage and distribution costs; and charges for general average contributions arising out of the ocean transport of commodities transferred pursuant thereto."

(5) Section 204 of the Agricultural Trade Development and Assistance Act of 1954, as amended, provides as follows:

"Programs of assistance shall not be undertaken under this title during any fiscal year which call for an appropriation of more than $1,000,000,000 to reimburse the Commodity Credit Corporation for all costs incurred in connection with such programs (including the Corporation's investment in commodities made available) plus any amount by which programs of assistance undertaken under this title in the preceding fiscal year have called or will call for appropriations to reimburse the Commodity Credit Corporation in amounts less than were authorized for such purpose during such preceding year. The President may waive the limitation in the preceding sentence if the President determines that such waiver is necessary to undertake programs of assistance to meet urgent humanitarian needs. In addition to other funds available for such purposes under any other act, funds made available under this title may be used in an amount not exceeding $7,500,000 annually to purchase foreign currencies accruing under title I of this Act in order to meet costs (except the personnel and administrative costs of cooperating sponsors, distributing agencies, and recipient agencies, and the costs of construction or maintenance of any church owned or operated edifice or any other edifices to be used for sectarian purposes) designed to assure that commodities made available under this title are used to carry out effectively the purposes

for which such commodities are made available or to promote community and other self-help activities designed to alleviate the causes of the need for such assistance: Provided, however, that such funds shall be used only to supplement and not substitute for funds normally available for such purposes from other non-United States Government sources."

(6) Section 206 of the Agricultural Trade Development and Assistance Act of 1954, as amended, provides as follows:

"(a) Except to meet famine or other urgent or extraordinary relief requirements, or for nonemergency programs conducted by nonprofit voluntary agencies or cooperatives, no assistance under this title shall be provided under an agreement permitting generation of foreign currency proceeds unless (1) the country receiving the assistance is undertaking self-help measures in accordance with Section 1709 of this title [Section 109 of this Act], (2) the specific uses to which the foreign currencies are to be put are set forth in a written agreement between the United States and the recipient country, and (3) such agreement provides that the currencies will be used for (A) alleviating the causes of the need for the assistance in accordance with the purposes and policies specified in Section 2151a of Title 22 [Section 103 of the Foreign Assistance Act of 1961], (B) programs and projects to increase the effectiveness of food distribution and increase the availability of food commodities provided under this title to the neediest individuals in recipient countries, or (C) health programs and projects, including immunization of children. The President shall include information on currencies used in accordance with this section in the reports required under Section 1736(b) of this title [Section 408 of this Act] and Section 2417 of Title 22 [Section 634 of the Foreign Assistance Act of 1961].

(b) Not later than February 15, 1988, and annually thereafter, the President shall report to Congress on sales and barter, and use of foreign currency proceeds, under this section and Section 207 during the preceding fiscal year. Such report shall include information on—(1) the quantity of commodities furnished for such sale or barter; (2) the amount of funds (including dollar equivalents for foreign currencies) and value of services generated from such sales and barter in the preceding fiscal year; (3) how such funds and services were used; (4) the amount of foreign currency proceeds that were used under agreements under this section and section 207 in the preceding fiscal year, and the percentage of the quantity of all commodities and products furnished under this section and section 207 in such fiscal year such use represented; (5) the President's best estimate of the amount of foreign currency proceeds that will be used under agreements under this section and section 207, in the then current fiscal year and the next following fiscal year (if all requests for such use are agreed to), and the percentage that such estimated use represents of the quantity of all commodities and products that the President estimates will be furnished under this section and section 207 in each such fiscal year; (6) the effectiveness of such sales, barter, and use during the preceding fiscal year in facilitating the distribution of commodities and products under this section and section 207; (7) the extent to which such sales, barter, or uses—(A) displace or interfere with commercial sales of United States agricultural commodities and products that otherwise would be made; (B) affect usual marketings of the United States; (C) disrupt world prices of agricultural commodities or normal patterns of trade with friendly countries; or (D) discourage local production and marketing of agricultural commodities in the countries in which commodities and products are distributed under this title; and (8) the President's recommendations, if any, for changes to improve the conduct of sales, barter, or use activities under this section and Section 207."

(7) Section 207 of the Agricultural Trade Development and Assistance Act of 1954, as amended provides as follows:

"(a) A nonprofit voluntary agency or cooperative requesting a nonemergency food assistance agreement under this title shall include in such request a description of the intended uses of any foreign currency proceeds that would be generated with the commodities provided under the agreement. (b) Such agreements shall provide, in the aggregate for each fiscal year, for the use of foreign currency proceeds under this subsection in an amount that is not less than 10 percent of the aggregate value of the commodities distributed under nonemergency programs under this title for such fiscal year. (c) Foreign currencies generated from any partial or full sales or barter of commodities by a nonprofit voluntary agency or cooperative shall be used—(1) to transport, store, distribute, and otherwise enhance the effectiveness of the use of commodities and the products thereof donated under this title; and (2) to implement income generating, community development, health, nutrition, cooperative development, agricultural programs, and other developmental activities."

(8) Section 208 of the Agricultural Trade Development and Assistance Act of 1954, as amended, provides as follows:

"Periods for Review and Comment.

(a) Response. If a proposal to make agricultural commodities available under this title is submitted by a nonprofit voluntary agency or cooperative with the concurrence of the appropriate United States Government field mission or if a proposal to make agricultural commodities available to a nonprofit voluntary agency or cooperative is submitted by the United States Government field mission, a decision on the proposal shall be provided within 45 days after receipt by the Agency for International Development Office in Washington, DC. The response shall detail the reasons for approval or denial of the proposal. If the proposal is denied, the response shall specify the conditions that would need to be met for the proposal to be approved.

(b) Notice and Comment. Not later than 30 days before the issuance of a final guideline to carry out this title, the President shall—(1) provide notice of the proposed guideline to nonprofit voluntary agencies and cooperatives that participate in programs under this title, and other interested persons, that the proposed guideline is available for review and comment; (2) make the proposed guideline available, on request, to the agencies, cooperatives and others; and (3) take any comments received into consideration before the issuance of the final guideline.

(c) Deadline for Submission of Commodity Orders. Not later than 15 days after receipt of a call forward from a field mission for commodities or products that meets the requirements of this title, the order for the purchase or the supply, from inventory, of such commodities or products shall be transmitted to the Commodity Credit Corporation."

(9) Section 401 of the Agricultural Trade Development and Assistance Act of 1954, as amended, provides as follows:

"(a) After consulting with other agencies of the Government affected and within policies laid down by the President for implementing this Act, and after taking into account productive capacity, domestic requirements, farm and consumer price levels, commercial exports and adequate carryover, the Secretary of Agriculture shall determine the agricultural commodities and quantities thereof available for disposition under this Act, and the commodities and quantities thereof which may be included in the negotiations with each country. No commodity shall be available for disposition under this Act if such disposition would reduce the domestic supply of such commodity below that needed to meet domestic requirements, adequate carryover, and anticipated exports for dollars as determined by the Secretary of Agriculture at the time of exportation of such commodity, unless the Secretary of Agriculture determines that some part of the supply thereof should be used to carry out urgent humanitarian purposes of this Act.

(b) No agricultural commodity may be financed or otherwise made available under the authority of this Act except upon determination by the Secretary of Agriculture that (1) adequate storage facilities are available in the recipient country at the time of exportation of the commodity to prevent the spoilage or waste of the commodity, and (2) the distribution of the commodity in the recipient country will not result in a substantial disincentive to or interference with domestic production or marketing in that country."

(10) Section 402 of the Agricultural Trade Development and Assistance Act of 1954, as amended, provides, in part as follows:

"The term 'agricultural commodity' as used in this Act shall include any agricultural commodity produced in the United States (including fish, without regard to whether such fish are harvested in acquaculture operations), or product thereof produced in the United States: Provided, however, That the term 'agricultural commodity' shall not include alcoholic beverages, and for the purposes of title II of this Act, tobacco or products thereof."

(11) Section 404 of the Agricultural Trade Development and Assistance Act of 1954, as amended, provides as follows:

VOL
53
ISS
243
DE
19
1988
UMI

(a) The programs of assistance conducted under this Act, and the types and quantities of agricultural commodities to be made available, shall be directed in the national interest toward the attainment of humanitarian and developmental objectives as well as the development and expansion of United States and recipient country agricultural commodity markets. To the maximum extent possible, either the commodities themselves shall be used to improve the economic and nutritional status of the poor through effective and sustainable programs, or any proceeds generated from the sales of agricultural commodities shall be used to promote policies and programs that benefit the poor.

(b) Country assessments shall be carried out whenever necessary in order to determine the types and quantities of agricultural commodities needed, the conditions under which commodities should be provided and distributed, the relationship between United States food assistance and other development resources, the development plans of that country, the most suitable timing for commodity deliveries, the rate at which food assistance levels can be effectively used to meet nutritional and developmental needs, and the country's potential as a new or expanded market for both United States agricultural commodities and recipient country foodstuffs."

(12) Section 405 of the Agricultural Trade and Development Assistance Act of 1954, as amended, provides as follows:

"The authority and funds provided by this Act shall be utilized in a manner that will assist friendly countries that are determined to help themselves toward a greater degree of self-reliance in providing enough food to meet the needs of their people and in resolving their problems relative to population growth."

Dated: September 2, 1988.

[Docket No. 84N-0103]

Sulfiting Agents in Standardized Foods; Labeling Requirements

AGENCY: Food and Drug Administration.

ACTION: Proposed rule.

SUMMARY: The Food and Drug Administration (FDA) is proposing a regulation that will require that when sulfiting agents have a functional effect in a standardized food or when they are present in a standardized food at a detectable level, their presence must be declared on the label of that food. The proposed regulation states that a detectable level of sulfites is 10 parts per million (ppm) or more. It also sets forth the circumstances under which FDA proposes to find that a standardized food that contains indirectly added sulfiting agents conforms to the applicable standard even though no provision for sulfites is made in that standard. Published elsewhere in this issue of the **Federal Register** is a proposed rule affirming, with specific limitations, that certain uses of sulfiting agents are generally recognized as safe. With FDA's previous rulemakings concerning sulfiting agents and the two proposed rules published in this issue of the **Federal Register**, the agency believes that it has addressed the most significant sources of concern about the use of sulfites in food in ways that will minimize the potential for allergic-type responses.

DATE: Comments by February 17, 1989.

ADDRESS: Written comments to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

SUPPLEMENTARY INFORMATION:

I. Background

A. Labeling of Sulfites in Nonstandardized Foods

Recent scientific developments have shown that sulfiting agents (sulfur dioxide, sodium sulfite, sodium and potassium bisulfite, and sodium and potassium metabisulfite) in food can cause allergic-type responses in a significant minority of the population. Responses have been reported that have ranged from mild discomfort to life-threatening episodes. It is essential, therefore, that sulfite-sensitive individuals be protected from unexpected exposure to these ingredients.

Section 403(i)(2) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 343(i)(2) requires that all of the ingredients in a nonstandardized food be declared on the label of that food by their common or usual names unless FDA has exempted the ingredients from that requirements. FDA has established such an exemption in 21 CFR 101.100(a)(3) for "incidental additives" that are present in foods at insignificant levels and that do not have any technical or functional effect in the foods. In the absence of specific guidance from FDA, sulfites generally have been treated by manufacturers as incidental additives whose presence did not have to be declared on labels except when they were directly added to a food for a technical effect.

As a result of evidence that sulfites can cause allergic-type responses, however, FDA decided that consumers should be advised when these ingredients are present in foods. In the **Federal Register** of July 9, 1986 (51 FR 25012), the agency adopted 21 CFR 101.100(a)(4), which states that sulfiting agents will be considered to be present in foods in insignificant amounts only if no detectable amount of sulfite is present in the finished food. Section 101.100(a)(4) states that a detectable amount of a sulfiting agent is 10 ppm or more. This regulation became effective on January 9, 1987. It requires that the presence of detectable amounts of sulfiting agents be declared on the labels of all foods that are subject to the requirements of 21 U.S.C. 343(i). When a sulfiting agent is added directly to a nonstandardized food, it must be declared on the label by its common or usual name. In the preamble to the final rule, however, FDA stated that where sulfiting agents are added indirectly to the food and do not have a technical or functional effect on the food, the collective term "sulfiting agents" may be declared on the label rather than the common or usual name of the specific sulfiting agents. (See paragraph 14 under "Other Comments" (51 FR 25012 at 25015).) The regulation left open the question of the treatment of sulfites on the labels of many standardized foods.

B. Labeling Sulfites in Standardized Foods

A food that is represented to be or purports to be a standardized food is misbranded under section 403(g) of the act (21 U.S.C. 343(g)) unless (1) it conforms to the relevant definition and standard, and (2) its label bears the common or usual names of optional ingredients (other than spices, flavoring, and coloring) required to be listed by the standard.

1. Standardized Foods Subject to Optional Ingredient Listing Requirement

In recent years, FDA has amended many of its regulations for standardized foods to make all ingredients optional. This change has meant that the common or usual names of each of the ingredients must be declared on the label in accordance with the provisions of 21 CFR Part 101. As a result, components of these ingredients, such as sulfiting agents, must be declared on the labels of foods unless the components qualify for the incidental additive ingredient labeling exemption of § 101.100(a)(3) (21 CFR 101.100(a)(3)). Under § 101.100(a)(4)) (21 CFR 101.100(a)(4)), however, detectable amounts of sulfiting agents cannot qualify for this exemption.

2. Standardized Foods Not Subject to Ingredient Listing Requirements

FDA has not amended all of its regulations for standardized foods in this manner. The unamended regulations have no provisions addressing the need for label declaration of sulfiting agents. Some standards allow sulfiting agents to be present but do not require the listing of these ingredients on the label. For example, the standards for glucose sirup (21 CFR 168.120) and dried glucose sirup (21 CFR 168.121) permit the presence of 40 milligrams per kilogram (40 parts per million) or less of sulfur dioxide, but these standards have no sulfur dioxide listing requirement. Other standards do not directly provide for the presence of sulfiting agents, but sulfiting agents may be present in the food as components of permitted ingredients.

This situation is of concern to FDA because if the presence of the sulfiting agents is not declared on the label of a food, a sulfite-sensitive individual could be misled into believing that he or she can eat that food without risk.

3. Standardized Foods in Which Sulfiting Agents Are Components of Ingredients

Under 21 CFR 130.8(a), a food does not conform to a definition and standard of identity if it contains an ingredient for which no provision is made in such standard, "unless such ingredient is an incidental additive introduced at a nonfunctional and insignificant level as

a result of its deliberate and purposeful addition to another ingredient permitted by the terms of the applicable standard and the presence of such incidental additive in unstandardized foods has been exempted from label declaration as provided in § 101.100 of this chapter."

Sulfiting agents are frequently used in foods that are intended to become ingredients of standardized foods. Before the adoption of 21 CFR 101.100(a)(4), many firms that produced standardized foods with sulfite-treated ingredients assumed that if the sulfiting agents had no effect in the finished food, and if the sulfites were used in the ingredient in accordance with current good manufacturing practice, the sulfiting agents were incidental additives. These firms also concluded that under 21 CFR 130.8(a), the finished foods complied with the relevant food standards, despite the fact that there was no provision for the sulfiting agents in the standard.

In adopting 21 CFR 101.100(a)(4), FDA took the position that sulfiting agents in amounts of 10 ppm or more were significant. As a result, there are a number of foods that technically do not conform to the relevant standards of identity because these foods contain sulfiting agents that are not provided for in the standards and that are not incidental additives.

FDA recognizes that it could declare such foods to be misbranded until they are reformulated, or until the standards are amended to provide for the presence of sulfites. However, the agency has concluded that such action would make little sense. It would mean a significant disruption in the food supply for a violation that would not have any health significance if the presence of the sulfiting agents were declared on the label of the food.

II. Requirement To Declare Presence of Sulfites in Standardized Foods

A. The Proposed Action

To ensure that consumers can determine at point of sale whether any food, standardized or nonstandardized, contains added sulfites, FDA is proposing to amend its regulations to require that the presence of sulfiting agents be declared on the label of all standardized foods that contain an amount of these ingredients that has a functional effect in the food or that is detectable. (If the sulfiting agents have a technical effect in the food, their use must, of course, be consistent with the standard of identity, or the food would be adulterated under 21 U.S.C. 343(g)(1)).

Proposed § 130.9(a) states that any standardized food that contains a sulfiting agent that has a functional effect or that is present at a level of 10 ppm or more in the finished food [1] is misbranded unless the presence of the sulfiting agent is declared on the label. This provision will require that the presence of the sulfiting agent be declared even if the relevant standard does not require the listing of optional ingredients, and even if the sulfiting agent has been indirectly incorporated into the food as, for example, a component of an optional or required ingredient or as a processing aid. Failure to declare the presence of the sulfiting agent will render the food misbranded.

B. Legal Basis

FDA believes that this proposal is fully consistent with the act. Under section 403(a) of the act (21 U.S.C. 343(a)), a food is misbranded if its labeling is false or misleading in any respect. Under section 201(n) (21 U.S.C. 321(n)), the extent to which labeling fails to reveal facts material with respect to the consequences of use of an article shall be taken into account in determining whether the labeling of that article is misleading. Because, as stated above, sulfiting agents can cause allergic-type responses of unpredictable severity, the presence of a detectable amount of sulfites (as defined by 21 CFR 101.100(a)(4) as 10 ppm or more sulfites) in a food is a material fact. Therefore, the absence on the label of a food of the material fact that the food contains sulfiting agents renders that label misleading and the food misbranded under sections 403(a) and 201(n) of the act.

C. Means of Compliance

FDA recognizes that the labels of many standardized foods do not bear an ingredient list. Only those foods whose standard of identity requires the listing of optional ingredients will bear such a list.

Should the agency adopt this proposal, it will consider the regulation to be satisfied if the presence of the sulfiting agent is declared prominently on the label. Four situations seem likely:

If there is no ingredient list on the label, and the sulfites are directly added to the food, a statement such as "This food contains (common or usual name of sulfiting agent)" should be placed on the label.

If the sulfiting agent is directly incorporated in the food as a preservative, under section 403(k) of the act (21 U.S.C. 343(k)), the declaration of the presence of the sulfiting agent must be accompanied by an appropriate statement of this fact (e.g., "With (common or usual name of sulfiting agent), a preservative;" "Contains _____, a preservative;" or "to retard spoilage").

If the sulfiting agent is indirectly incorporated in a standardized food whose standard requires the listing of all ingredients in accordance with Part 101, the presence of the sulfiting agents is declared on the label in accordance with 21 CFR 101.4 (a) and (b)(2). However, FDA will not take action against these foods if the sulfites are listed in parentheses following the name of the food of which they are a component, for example, "_____ (with added (common or usual name of sulfiting agent))."

If the sulfiting agents are indirectly incorporated in a standardized food whose standard does not require the listing of all ingredients, the presence of the sulfiting agents is declared prominently on the label. A statement such as "An ingredient in this food contains added (common or usual name of sulfiting agent)" or "Contains _____ with added (common or usual name of sulfiting agent)" may be utilized.

In the preamble to the final rule that published in the **Federal Register** of July 9, 1986 (51 FR 25012), requiring that the presence of detectable amounts of sulfiting agents be declared on the labeling of nonstandardized foods, the agency discussed flexibility concerning the declaration of sulfiting agents. (See paragraph 14 under "Other Comments" (51 FR 25012 at 25015.) FDA announced that, with respect to sulfiting agents that are directly added to, or that have a technical effect in, food, the name of the specific sulfiting agent that is added must be declared on the label. However, the agency agreed that some flexibility is warranted in the declaration of sulfiting agents that are indirectly added to a food and that have no technical or functional effect in the food. An

[1] The term "finished food" refers to the food as it is packaged and sold. The term also refers to food sold to be further processed, mixed, or repackaged, unless there is a written agreement between the shipper and the receiver of the food (in accordance with the provisions of 21 CFR 101.100(d)) that contains the information necessary for appropriate labeling of the food. However, the term "finished food" does not refer to the food as it will ultimately be consumed. Thus, dehydrated finished foods must declare the presence of sulfiting agents without consideration of further rehydration treatment before consumption. Also, the term "finished food" does not refer to portions of the food that are inedible or invariably discarded (e.g., shells from shellfish and crustaceans and packing mediums for products such as cooked lobster meat in brine). Such portions will be excluded from sulfite analyses. Where packing mediums may be used for other home recipes (e.g., canned clam medium in dips) however, the packing medium will not be excluded from sulfite analysis.

indirectly added sulfite is present in a food as a component of an ingredient in the food, as a processing aid, or as a migrant from food packaging. The purpose of declaring sulfiting agents that are indirectly added and that have no technical or functional effect is to provide information to the consumer who wishes to avoid foods that contain sulfites. The agency stated that it will consider amending the regulations in which collective terms permitted in ingredient declarations are listed (21 CFR 101.4(b)) to include a collective term for the sulfiting agents. However, pending promulgation of a provision in § 101.4(b), the agency will not take legal action against standardized foods that declare sulfiting agents as follows: (1) when sulfiting agents remain in a food in a significant amount but no longer have a technical or functional effect, they may be declared by the term "sulfiting agents;" and (2) when a food contains a sulfiting agent that has a technical or functional effect in the food and that is declared in the list of ingredients by its common or usual name, any nonfunctional sulfiting agents present in the food need not be declared separately in the list of ingredients. However, FDA emphasizes that this flexibility applies only if the sulfite is indirectly added and does not perform a technical or functional effect in the food.

The agency also advises that there is no requirement for quantitative declaration of sulfites. The only information that is required to be included in the label is the name of the sulfiting agent, or, in the circumstances explained in the preceding paragraph, the term "sulfiting agents."

The agency specifically solicits comments as to whether consumers are aware of the common or usual names of the specific sulfiting agents, particularly sulfur dioxide, and whether consumers understand that if they are sulfite-sensitive, they should avoid foods containing any of these sulfiting agents. FDA also solicits comments as to whether the agency should include in any final rule a requirement that where the specific sulfiting agent is declared on the label by its common or usual name, this common or usual name must be followed by the term "a sulfiting agent." For example: "contains sulfur dioxide (a sulfiting agent)."

III. Compliance With Standard of Identity

FDA is also acting to remove the uncertainty about the status of standardized foods to which sulfites are indirectly added at levels that have no technical effect. The agency is proposing in § 130.9(b) to find that standardized foods that contain sulfites that would have been considered to be incidental additives before the adoption of § 101.100(a)(4) are not misbranded under 21 U.S.C. 343(g)(2) so long as:

(1) The sulfiting agents in the finished standardized food are nonfunctional;

(2) The sulfiting agents have indirectly become components of the standardized food as a result of a use that is in accordance with current good manufacturing practice; and

(3) The presence of the sulfiting agents in the standardized food is declared on the label. Such declaration should be made in accordance with the principles outlined above.

FDA considers this proposed finding to be fully consistent with the act. Under section 306 of the act (21 U.S.C. 336), FDA has discretion not to take action against minor violations of the act if it finds that the public interest will be adequately served by a suitable notice or warning. The failure of a food to comply with the applicable standard of identity because it contains nonfunctional levels of sulfiting agents is a minor violation so long as the public, particularly sulfite-sensitive individuals, are made aware of the presence of sulfiting agents in the food by an appropriate label statement. Such a statement provides adequate notice to sulfite-sensitive individuals of the risks that they face if they consume the food product.

IV. Effective Date

Consistent with its action in adopting the final rule requiring that the presence of detectable amounts of sulfiting agents be declared on the labels of nonstandardized foods (21 CFR 101.100(a)(4)), FDA proposes that this regulation to establish similar requirements for standardized foods become effective 6 months after publication of the final rule rather than on the next uniform effective date for compliance with new food labeling requirements that is periodically announced. Thus, the agency proposes that by 6 months after the date of publication of any final regulation, all finished foods in which a sulfiting agent has a technical or functional effect, or in which there is a detectable amount of a sulfiting agent, that are initially introduced or initially delivered for introduction into interstate commerce must bear labeling that declares the presence of the sulfiting agent. The agency recognizes that this proposed regulation would require some manufacturers who do not declare sulfites on the labels of their products to revise their labels. Nonetheless, FDA is proposing the 6-month effective date because information about the presence of sulfiting agents is not merely informative but is necessary to protect the health of sensitive individuals. On the basis of its experience, the agency believes that 6 months is an adequate amount of time for manufacturers to change their labeling. The agency urges manufacturers and distributors of standardized foods, however, to declare sulfiting agents on their labels as soon as possible.

Consistent with the agency's response to a similar 6-month effective date for the labeling requirements for nonstandardized foods (see paragraph 16 under "Other Comments" (51 FR 25012 at 25016)), this proposed labeling regulation has as its basis a serious health concern. Although FDA is sympathetic to the problems processors may encounter with a 6-month effective date, the agency cannot ignore the potential hazard to sulfite-sensitive consumers. The labeling requirement in this proposed regulation will apply to foods that are initially introduced into interstate commerce after the effective date of any final rule. If it adopts this regulation, the agency will not take action against foods that are in interstate commerce on the effective date of the final rule.

The agency, however, specifically solicits comments on the appropriateness of the proposed 6-month effective date.

V. Economic Impact

In accordance with section 605(b) of the Regulatory Flexibility Act, the agency has considered the effect that this proposed rule would have on small entities including large and small businesses and has determined that the proposed labeling requirements will not result in a significant impact on a substantial number of small entities. Furthermore, in accordance with Executive Order 12291, the agency has analyzed the economic effects of this regulation and has determined that the rule, if promulgated, will not be a major rule as defined by that Order.

A copy of the threshold assessment supporting this determination is on file with the Dockets Management Branch (address above).

VI. Environmental Impact

The agency has determined under 21 CFR 25.24(a)(11) that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

VII. Paperwork Reduction Act of 1980

Section 130.9 of this proposed rule contains collection of information requirements. As required by section 3504(h) of the Paperwork Reduction Act of 1980, FDA has submitted a copy of this proposed rule to the Office of Management and Budget (OMB) for its review of these collection of information requirements. Other organizations and individuals desiring to submit comments on the collection of information requirements should direct them to FDA's Dockets Management Branch (address above) and to the Office of Information and Regulatory Affairs, OMB, Rm. 3208, New Executive Office Bldg., Washington, DC 20503, Attn: Desk Officer for FDA.

VIII. Submission of Comments

Interested persons may, on or before February 17, 1989, submit to the Dockets Management Branch (address above) written comments regarding this proposal. Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

In addition to requesting comments concerning the proposal in its entirety, the agency solicits specific comments concerning consumer awareness of the common or usual names of sulfiting agents, particularly sulfur dioxide; consumer understanding of the need of sulfite-sensitive individuals to avoid foods containing any of these sulfiting agents; whether FDA should include in any final rule a requirement that where the specific sulfiting agent is declared on the label be its common or usual name, this common or usual name must be followed by the term "a sulfiting agent;" and the appropriateness of the proposed 6-month effective date.

List of Subjects in 21 CFR Part 130

Food additives, Food grades and standards.

Therefore, under the Federal Food, Drug, and Cosmetic Act, it is proposed that Part 130 be amended as follows:

PART 130—FOOD STANDARDS: GENERAL

1. The authority citation for 21 CFR Part 130 is revised to read as follows:

Authority: Secs. 201(n) and (s), 306, 401, 403, 701, 52 Stat. 1041 as amended, 72 Stat. 1784 as amended, 52 Stat. 1045–1046, 1047–1048 as amended, 1055–1056 as amended (21 U.S.C. 321(n) and (s), 336, 341, 343, 371); 21 CFR 5.11.

2. New § 130.9 is added to Subpart A to read as follows:

§ 130.9 Sulfites in standardized food.

(a) Any standardized food that contains a sulfiting agent or combination of sulfiting agents that is functional and provided for in the applicable standard or that is present in the finished food at a detectable level is misbranded unless the presence of the sulfiting agent or agents is declared on the label of the food. A detectable amount of sulfiting agent is 10 parts per million or more of the sulfite in the finished food. The level of sulfite in the finished food will be determined using sections 20.123 through 20.125, "Total Sulfurous Acid," in "Official Methods of Analysis of the Association of Official Analytical Chemists," 14th ED. (1984), which is incorporated by reference in accordance with 5 U.S.C. 552(a), and the refinements of the "Total Sulfurous Acid" procedure in the "Monier-Williams Procedure (with Modifications) for Sulfites in Foods," which is Appendix A to Part 101 of this chapter. A copy of sections 20.123 through 20.125 of the "Official Methods of Analysis of the Association of Official Analytical Chemists" is available from the Association of Analytical Chemists, 1111 North 19th St., Suite 210, Arlington, VA 22209, or available for inspection at the Office of the Federal Register, 1100 L St. NW., Washington, DC.

(b) Any standardized food that, as a result of actions that are consistent with current good manufacturing practice, contains an indirectly added sulfiting agent that has no functional effect in the food and that would, in the absence of § 101.100(a)(4) of this chapter, be considered to be an incidental additive for purposes of § 130.8, conforms to the applicable definition and standard of identity if the presence of the sulfiting agent is declared on the label of the food.

21 CFR Parts 182 and 184

[Docket No. 81N–0314]

Sulfiting Agents; Affirmation of GRAS Status

AGENCY: Food and Drug Administration.

ACTION: Proposed rule.

SUMMARY: The Food and Drug Administration (FDA) is proposing to affirm, with specific limitations, that certain uses of sulfur dioxide, sodium sulfite, sodium and potassium bisulfite, and sodium and potassium metabisulfite (collectively known as "sulfiting agents" or "sulfites") are generally recognized as safe (GRAS). This action is based upon FDA's review of all available information on sulfiting agents including new information on sulfiting agents received in response to a proposal to affirm the GRAS status of sulfiting agents published in the **Federal Register** of July 9, 1982 (47 FR 29956); the January 31, 1985, final report of the Federation of American Societies for Experimental Biology (FASEB) on the Reexamination of the GRAS Status of Sulfiting Agents; the hearing conducted by the Advisory Committee on Hypersensitivity to Food Constituents; recently published reports in the medical literature; and other relevant information.

DATE: Comments by February 17, 1989.

ADDRESS: Written comments to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Robert L. Martin, Center for Food Safety and Applied Nutrition (HFF–334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202–426–9463.

I. Background/Regulatory History

A. Select Committee Review and 1982 Proposal

In the **Federal Register** of July 9, 1982 (47 FR 29956) (Ref. 1), FDA proposed to affirm, with specific limitations, the GRAS status of the use of sulfur dioxide, sodium bisulfite, and sodium and potassium metabisulfite. The document also proposed to delete sodium sulfite and potassium bisulfite from the list of substances whose use is GRAS because the agency believed that use of these substances had been discontinued except for the known food additive use, under 21 CFR 173.310, of sodium sulfite as a boiler water additive.

The agency based its 1982 proposal on a report on the health aspects of the use of sulfiting agents as food ingredients (Ref. 2) issued by the Select Committee on GRAS Substances (the Select Committee) of FASEB in 1976, during the agency's review of the safety of GRAS substances (Ref. 3). That report presented an analysis of human exposure and toxicological date on sulfiting agents and was based partly on a review of available scientific literature from 1920 through 1972 (Ref. 4). The report stated that it was reasonable to conclude that the daily intake of sulfur dioxide from sulfited foods consumed in the United States did not exceed 2 milligrams per kilogram of body weight for adults and probably was not more than 0.2 milligram per kilogram for the great majority of the population.

The 1976 report surveyed all the available toxicological data on sulfites, including data on metabolism, acute and chronic oral toxicity, other long-term studies, teratology, carcinogenicity, and mutagenicity. On the basis of this review, the Select Committee concluded that:

> There is no evidencde in the available information on potassium bisulfite, potassium metabisulfite, sodium bisulfite, sodium metabisulfite, sodium sulfite and sulfur dioxide that demonstrates, or suggests reasonable grounds to suspect, a hazard to the public when they are used at levels that are now current and in the manner now practiced. However, it is not possible to determine, without additional data, whether a significant increase in consumption would constitute a dietary hazard.

In the 1982 proposal, the agency stated that it had undertaken its own evaluation of all available information on sulfiting agents. It supplemented the Select Committee's exposure data on sulfites with more recent data obtained by the National Academy of Science/National Research Council (NAS/NRC) in 1977 (Ref. 5).

The agency tentatively concluded in the 1982 proposal that, based upon the available safety data, potassium metabisulfite, sodium bisulfite, sodium metabisulfite, and sulfur dioxide should be affirmed as GRAS with specific limitations. The agency proposed not to affirm potassium bisulfite and sodium sulfite as GRAS because it did not possess any evidence of food use for potassium bisulfite nor sufficient information relating to the uses of sodium sulfite as a GRAS food ingredient. Therefore, the agency could not establish limitations on the use of these two sulfiting agents.

The comment period for the 1982 proposal closed on September 7, 1982. In the **Federal Register** of November 2, 1982 (47 FR 49666), FDA extended the comment period to December 7, 1982, in response to two requests for extensions. Since the extended comment period closed, the agency has continued to receive comments regarding sulfiting agents.

The agency has received a large number of comments from consumers, Congressional representatives on behalf of consumers, health professionals, consumer groups, and State government officials that reported the possibility that some susceptible individuals may experience allergic-type responses after consuming food treated with sulfiting agents. (The agency is using the term "allergic-type responses" to describe the range of symptoms that individuals have suffered after eating certain sulfite-treated foods. These symptoms resemble the symptoms of a response to an allergen. The scientific community, however, is unsure at this time about the actual mechanism by which a response is elicited by the sulfite ingredient.) These responses have ranged from mild discomfort to life-threatening episodes.

On October 28, 1982, the agency received a citizen petition regarding the use of sulfiting agents in food and drugs. This petition addressed the problems of exposure of sensitive individuals to sulfites in foods and drugs. It expressed concern about the possibility that unsuspecting sulfite-sensitive individuals might have a severe response after eating foods or taking medications that contain sulfiting agents. The petition urged the agency to take certain regulatory steps to restrict the use of sulfites in food and drugs.

B. Health Concerns and FASEB Review

The new information that the agency received in response to its 1982 proposal raised public health concerns for two reasons. First, this information raised the possibility of severe and unpredictable allergic-type responses in a significant subgroup of the U.S. population. Second, it revealed that the number of uses and the levels of use of sulfiting agents had significantly increased in the U.S. food supply since the survey relied upon by the Select Committee was taken. This new information prompted the agency to ask FASEB to reexamine the GRAS status of the use of sulfiting agents.

FASEB established an ad hoc Review Panel on the Reexamination of GRAS Status of Sulfiting Agents (the Panel). On July 9, 1984 (49 FR 27994), FDA announced the formation of the Panel. The agency asked FASEB to have the Panel address the following question:

> In view of the currently available information relevant to the use and safety of sulfiting agents, which of the five types of conclusions for the appraisal of GRAS substances that were developed by the Select Committee now applies to the use of sulfiting agents? The conclusion which is reached should be supported by the discussions of the rationale behind the conclusion.

The Panel evaluated recent scientific publications and new information and data submitted to FDA in response to its 1982 proposal. The Panel supplemented this information with additional

materials that it acquired independently. The Panel conducted an open meeting on November 29, 1984, at which individuals and organizations presented their views on sulfite-related issues. On January 31, 1985, the Panel issued its final report (Ref. 6).

In that report, the Panel concluded that for the majority of the population, "there is no evidence in the available information * * * that demonstrates or suggests reasonable grounds to suspect a hazard." The Panel further concluded, however, that for the fraction of the public that is sulfite sensitive, "there is evidence in the available information * * * that demonstrates or suggests reasonable grounds to suspect a hazard of unpredictable severity to such individuals when they are exposed to sulfiting agents in some foods at levels that are now current and in the manner now practiced." (Ref. 6, p. 60.)

An analysis of consumer complaints compiled by FDA and made available to the Panel indicated that the majority of incidents involving allergic-type responses to sulfites in food could be attributed to sulfited fruits and vegetables that are intended to be served raw or sold raw to consumers or are presented to consumers as fresh and to certain sulfited potatoes and potato products. Thus, the Panel determined that, although most uses of sulfites on food appear to present no safety concerns for most people, certain uses of these ingredients, particularly on popular unlabled food items often consumed in food-service establishments, could present a significant risk for some sulfite-sensitive individuals.

C. FDA's Response

Based on the Panel's findings and on its own review of the available evidence, FDA took several actions to minimize the risk to health from the use of sulfiting agents. The agency's first action was to move to provide indivdiuals who know that they are sulfite-sensitive with the information that they need to avoid certain processed foods that contain sulfites. In the **Federal Register** of April 3, 1985 (50 FR 13306), FDA proposed to clarify the circumstances in which sulfiting agents could be considered to be incidental additives under 21 CFR 101.100(a)(3) (Ref. 7). That rulemaking was published as a final rule in the **Federal Register** of July 9, 1986 (51 FR 25012) (Ref. 8).

Under § 101.100(a)(3), substances that are present in a food at insignificant levels and that do not have any functional effect in that food are incidental additives and thus are exempt from being declared in the list of ingredients. In the July 9, 1986, final rule, FDA added § 101.100(a)(4), which provides that added sulfiting agents are present in food in an insignificant amount only if no detectable amount of these substances is present in the finished food. The regulation defines a detectable amount of a sulfiting agent as 10 parts per million (ppm) or more of the sulfite in the finished food when analyzed under the modified Monier-Williams procedure, which is set forth in Appendix A to Part 101. As a result of this rulemaking, sulfiting agents must be listed on the labels of nonstandardized foods when they are present at detectable but nonfunctional levels in the foods.

Sulfiting agents present at functional levels in nonstandardized foods have always been required to be declared in ingredient lists because these ingredients have never been exempted from Part 101 labeling requirements. In addition, sulfiting agents present as optional ingredients in standardized foods whose standards require the listing of optional ingredients in accordance with Part 101 have also always been required to be declared.

Elsewhere in this issue of the **Federal Register**, FDA is publishing a proposal to clarify the circumstances in which the presence of sulfiting agents in other standardized foods must be declared on the label. That notice proposes that sulfiting agents be listed on the label of these foods whenever they have a functional effect in these foods, or when they remain in the finished food at detectable levels. The agency believes, after a preliminary review, that the presence of the sulfiting agents should be declared in these circumstances because sections 201(n) and 403(a) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 321(n) and 343(a)) provide that labeling is misleading if it fails to reveal facts material with respect to the consequences of use of the article. The presence of sulfiting agents may create a hazard of unpredictable severity for individuals sensitive to these ingredients and is consequently a material fact. Thus, the agency's preliminary view is that the failure to declare the presence of a detectable amount of a sulfiting agent would render the label misleading.

The proposal also addresses the circumstances in which foods that fail to conform to the relevant standards of identity because they contain sulfiting agents that had been considered to be incidental additives under 21 CFR 130.8 before the adoption of 21 CFR 101.100(a)(4) will be considered to be misbranded under 21 U.S.C. 343(g). The agency's preliminary view is to not consider such foods to be misbranded if the presence of the sulfiting agents is declared on the label.

In addition to clarifying how foods that contain sulfiting agents must be labeled, the agency published a proposal in the **Federal Register** of August 14, 1985 (50 FR 32830), that announced its preliminary conclusion that the use of sulfiting agents on fruits and vegetables intended to be served raw or sold raw to consumers cannot be considered GRAS (Ref. 9a). Subsequently the agency published in the **Federal Register** of July 9, 1986 (51 FR 25021), a final rule confirming its preliminary conclusion and amending the regulations to except the use of sulfiting agents on fruits and vegetables intended to be served raw or sold raw to consumers from the uses of these substances that are GRAS (Ref. 9b). FDA took this action to address the sources of sulfite exposure that the agency found were associated with the greatest number of allergic-type responses.

In addition, the agency proposed in the **Federal Register** of December 10, 1987 (52 FR 46968), to revoke the GRAS status of the use of sulfites on "fresh" potatoes served or sold unpackaged and unlabeled to consumers (Ref. 10). In that proposal, the agency also asked for information about the other uses of sulfites on potatoes. That proposal is intended to control another major source of sulfite exposure that has been associated with severe allergic-type responses in sulfite-sensitive persons.

With those rulemakings, the agency believes that it has addressed the most significant sources of concern about the use of sulfites on food and, thus, has adequately responded to the concerns raised by the Panel. The primary purpose of the present rulemaking, therefore, is to announce the agency's tentative determination that the remaining uses of sulfiting agents, except those uses on meats and on foods that are significant sources of thiamine, are GRAS.

II. Uses of Sulfiting Agents on Food Products

A. Technical Effects

Sulfiting agents have numerous uses in food. They have been used for centuries in food processing as sanitizing (disinfection) agents for food containers and fermentation equipment. They have been used as preservatives to reduce or to prevent microbial spoilage of food; as selective inhibitors of undesirable microorganisms by the fermentation industries; and as antioxidants and inhibitors of enzyme-

catalyzed oxidative discoloration and nonenzymatic browning during the preparation, storage, and distribution of many foods. They also are used as dough conditioners, bleaching agents, processing aids, and pH control and stabilizing agents (Ref. 11). To accomplish these purposes, sulfiting agents are added directly to certain fresh foods or are added under controlled conditions during processing of some foods.

B. Currently Regulated Uses and Use Levels of Sulfites

Existing regulations state that the use of potasium bisulfite (21 CFR 182.3616), potasium metabisulfite (21 CFR 182.3637), sodium bisulfite (21 CFR 182.3739), sodium metabisulfite (21 CFR 182.3766), sodium sulfite (21 CFR 182.3798), and sulfur dioxide (21 CFR 182.3862) is GRAS, except when they are used in meats or foods recognized as a source of thiamine (vitamin B_1), or on fruits or vegetables intended to be served raw or sold raw to consumers or to be presented to consumers as fresh. Other sections that refer to the use of sulfiting agents are as follows: caramel (21 CFR 73.85(a)(2)(iii)); dextrose monohydrate (21 CFR 168.111(b)(2)); glucose sirup (21 CFR 168.120(b)(2)); food starch-modified (21 CFR 172.892(b)); boiler water additives (21 CFR 173.310(c)); cellophane (21 CFR 177.1200(c)); and water-insoluble hydroxyethyl cellulose film (21 CFR 177.1400). The Bureau of Alcohol, Tobacco and Firearms (BATF) lists sulfites as materials authorized for treatment of wine (27 CFR 240.1051).

The listings for dextrose monohydrate, glucose sirup, and food starch-modified limit residual sulfur dioxide concentrations in these products to not more than 20, 40, and 500 ppm, respectively. The Food Chemicals Codex (3d Ed.) specifications place an upper limit of 80 ppm residual sulfure dioxide in modified food starches (Ref. 12).

The agency did not set specific limits for levels of use of sulfiting agents in the current GRAS regulations (21 CFR Part 182). Rather, the regulations on these ingredients in Part 182 invoke the concept of "good manufacturing practice" (defined in § 182.1), which restricts the quantity of a substance that can be added to food to a level that does not exceed that reasonably required to accomplish the intended technical effect.

It is important to note that the level of sulfiting agent added to a particular food (the "treatment level") may differ considerably from the level of sulfiting agent remaining on that food at the time processing is complete (the "residual level"). The residual levels of sulfites in finished foods are generally lower than the amount of sulfites added during processing because during processing, sulfites can combine with other food components, may be liberated as sulfur dioxide, or may be oxidized to sulfate. Although good manufacturing practice based on treatment levels may be more convenient for food processors, limits on residual levels of sulfites in finished foods are better suited for public health protection. For that reason, the agency is basing the regulations of this rulemaking on residual levels of sulfites measured as sulfur dioxide equivalents found in the finished food product. (A sulfur dioxide equivalent is defined as that proportion of the weight of a sulfiting agent that can dissociate into sulfur dioxide. It provides a uniform and scientifically consistent means by which the sulfite content of foods can be reported.)

C. Prior Sanctions for the Use of Sulfites on Foods

Section 201(s)(4) of the act (21 U.S.C. 321(s)(4)) exempts from the definition of a food additive "any substance used in accordance with a sanction or approval granted" under the act, the Meat Inspection Act, or the Poultry Products Inspection Act before the enactment of the Food Additives Amendment of 1958. This type of sanction or approval is generally referred to as a "prior sanction." Neither the act nor its legislative history defines the term "prior sanction." However, FDA has adopted a regulation (21 CFR 170.3(l)) that defines this term as "an explicit approval granted with respect to use of a substance in food prior to September 6, 1958 * * *" under any of the three statutes listed above. Another FDA regulation (21 CFR 181.5(a)) states that a prior sanction "shall exist only for a specific use(s) of a substance in food, i.e., the level(s), condition(s), product(s), etc., for which there was explicit approval * * *."

The "explicit approval" required to establish a prior sanction may be either formal or informal. In the event that a formal approval, such as a food standard regulation promulgated under the act before 1958, does not exist, the agency recognizes that correspondence issued by authorized agency officials can constitute an informal prior sanction.

FDA has tentatively acknowledged "prior sanctions" for a number of specific uses of sulfiting agents in food. In the 1982 proposal, the agency noted several prior sanctions that allow the use of sodium sulfite and sulfur dioxide at levels of 200 to 300 ppm in molasses, dried fruits, and foods that are not good sources of vitamin B_1 (thiamine). In that proposal, the agency also stated that sodium bisulfite solution is prior-sanctioned for use as a dip to prevent darkening of fresh-peeled, uncooked potatoes, and that sodium bisulfite is also prior-sanctioned as a dip to control the incidence of black spot on shrimp (Ref. 1). For uses of sulfites different from those proposed as GRAS in the 1982 proposal, the agency requested any person intending to rely on a prior sanction to submit proof of its existence.

On November 13, 1985, the Grocery Manufacturers of America (GMA) submitted to the agency a report entitled "Documentation of Explicit Prior Sanctions for the Specific Use of Sulfites as Preservatives in Food and for Other Particular Food Uses" (the GMA Report) (Ref. 56). This report states that a prior sanction exists for the use of sulfites as preservatives in food, except in meat and in foods that are good sources of vitamin B_1, and thus that such use is exempt from regulation under the food additive provisions of the act.

The GMA report also claims that "[p]articular prior sanctions also exist for the use of sulfites in a number of specific food categories." The GMA report states that FDA sanctioned the use of sulfites as preservatives in dehydrated potato products, beverages, citrus fruit products, dehydrated fruits and vegetables, fresh fruits and vegetables, soft drinks, and other foods. The report states also that FDA sanctioned the use of sodium bisulfite and sodium sulfite to prevent the discoloration of, and to preserve, precut peeled potatoes. The report states that other prior sanctions exist for particular uses of sulfites in cherries, bakery products, beer and malt beverages, corn products, dough, gelatin, molasses, mushrooms, onion and garlic products, coconut, pickles and pickled vegetables, sauerkraut and horseradish, shrimp, syrups, wine, and wine vinegar.

Although GMA has claimed that there is a prior sanction for the use of sulfites on fresh fruits and vegetables, in an earlier rulemaking (51 FR 25021) the agency determined that this use of sulfiting agents may render the food injurious to health and thus adulterated under section 402(a)(1) of the act. Therefore, the agency has revoked the prior sanction for this use. GMA's claims with respect to prior sanctions for the use of sulfites on certain types of potatoes and potato products are under consideration in another rulemaking (52 FR 46968).

Many of the other prior sanctions claimed by GMA are for uses of sulfites

that FDA is proposing to affirm as GRAS in this document. For these uses, FDA is establishing specific limitations on the amount of residual sulfite that may be present in finished foods. In some cases, the limitations proposed in this document are less stringent (that is, permit a higher level of sulfites in certain finished foods) than those that GMA asserts are prior sanctioned. In these cases, the agency believes that there is no reason to acknowledge the prior sanctions that do exist by separate regulation. In a few cases, the limitations stated in this rulemaking are more stringent than those under the claimed prior sanctions in the GMA report, consistent with current good manufacturing practices and the range of levels reported now in use for various food products. Also, certain of the prior sanctions that GMA listed in its report are for uses of sulfites in food categories that were not considered or catalogued by the Panel because of the absence of data on the particular use. The agency discusses the status of these claimed prior sanctions in Section VII.B. of this preamble.

In addition to GMA's report, the agency has received two citizen petitions requesting that the agency recognize prior sanctions for the use of sulfites in maraschino cherries and glacé fruit and in beer and other malt beverages. The former petition (FAP 6CP3941), submitted by the Maraschino Cherry and Glacé Fruit Processors Association, was filed on May 16, 1986. The latter petition (FAP 6CP3960), submitted by the Beer Institute, was filed on July 30, 1986. The agency will respond to these two petitions in Section VII.B. below.

III. Summary of the Panel's Report on All Uses of Sulfites

On January 31, 1985, the Panel released its final report entitled "The Reexamination of the GRAS Status of Sulfiting Agents" (Ref. 6). That report provides the most recent, complete, and authoritative compilation of scientific information available about the use of sulfiting agents on food. It contains a thorough review of estimated levels of human exposure to sulfiting agents from a variety of food categories. It also contains a review of biological information relevant to sulfite exposure, including data from toxicological studies as well as clinical data relating to hypersensitivity reactions in humans. The report provides conclusions with respect to the GRAS status of the use of sulfiting agents in food. Those conclusions form a basis for FDA's tentative GRAS determinations in this document.

A. Exposure of Humans to Sulfiting Agents Used in Food

To estimate the per capita daily food intake of sulfites in the United States, the Panel used three basic types of information: (1) The amount of the ingredient present in various components of a diet at the time of consumption; (2) the kinds of foods in the daily diet and the frequency with which each is consumed; and (3) the average portion size for the various foods consumed. To obtain this information the Panel used data from the following sources: (1) "The 1977 Survey of Industry on the Use of Food Additives" by the National Research Council (Ref. 5); (2) information provided to FDA by the food industry in response to FDA's proposed rule in 1982 on the GRAS status of sulfites (Ref. 1); (3) the 1977–1978 National Food Consumption Survey of the U.S. Department of Agriculture (USDA) (Refs. 13, 14, and 15); (4) Agricultural Statistics (Ref. 16) and other USDA statistical publications (Refs. 17 and 18); and (5) "U.S. Imports for Consumption and General Imports" (Ref. 19). The Panel also gathered information from manufacturers and users of sulfiting agents.

From these sources the Panel created a table containing the following information: (1) Added and residual levels of sulfiting agents in processed foods; (2) estimated levels of sulfites in finished foods; (3) human intake of specific foods or categories of food; and (4) estimated per capita daily intake of sulfites (Ref. 6, Table 1). The table contains estimates of the daily intake of sulfites (measured as sulfur dioxide equivalents), in milligrams per person per day, from the following food categories for which data were available: baked goods and baking mixes, grain products, coffee and tea, condiments, dairy analogs, fish and seafood, fresh fruit, dried fruit, fruit juices, frozen fruit, canned fruit, fresh vegetables, canned vegetables, dried vegetables, frozen vegetables, vegetable juices, sugar, sweet sauces, jams and jellies, gravies and sauces, nonalcoholic beverages, alcoholic beverages, soups, gelatin, snack foods, protein isolates, and nut products.

The Panel noted several characteristics and problems in interpreting the exposure data in the table. The Panel pointed out that there is no relationship, necessarily, between "added" and "residual" levels of sulfites for a given food, because companies frequently reported values for either one or the other sulfite level but not both. The Panel also acknowledged that sulfites may be used in foods not included in the table. The Panel noted that it had contacted experts in food science and technology in USDA, in universities, and in industry and industry associations and had also consulted the literature to resolve uncertainties in the data of the table.

The Panel reported, after considering the whole body of exposure data available to it, as well as the associated uncertainties in those data, that the total per capita daily intake of sulfites from food is about 6 milligrams, as measured in "sulfur dioxide equivalents." The Panel stated that beer provides an additional 0.4 milligram per capita per day. It found some uncertainty with regard to the sulfite intake from wine. Based on the national food consumption survey intake data (Ref. 6, p. 28), the Panel found that wine provides an additional 0.8 milligrams per capita per day, but that it provides 3.7 milligrams per capita per day if one relies on the total quantity of wine distributed. Thus, the Panel found that it was reasonable to conclude that the mean daily intake of sulfur dioxide equivalents from food, wine, and beer does not exceed 10 milligrams (0.17 milligram per kilogram body weight for a 60-kilogram person).

For those individuals who consume wine or beer or both regularly, the Panel noted that there would be an additional 30 milligrams of sulfur dioxide equivalents for each 200 milliliters of wine and 10 milligrams for each liter of beer consumed. In comparison, the Codex Alimentarius Commission estimated in 1975 that heavy consumers of foods and beverages containing high levels of sulfites (99th percentile consumption) might have a daily intake of 177 milligrams sulfur dioxide equivalents (Ref. 6).

After consideration of all the data, the Panel concluded that the 99th percentile intake, including regular consumption of wine and beer, probably does not exceed 180 milligrams of sulfur dioxide equivalents per day (3 milligrams per kilogram body weight per day).

Thus, in summary, the Panel concluded that the mean daily intake of sulfites does not exceed 0.17 milligram per kilogram of body weight per day, and the 99th percentile intake does not exceed 3 milligrams per kilogram of body weight per day.

B. Biological Studies

The Panel reviewed in detail studies completed since the original 1976 evaluation of the GRAS status of sulfites conducted by the Select Committee. The information the Panel reviewed included studies on the metabolism and

metabolic effects of sulfites, short-term and long-term toxicity studies, teratogenicity studies, and mutagenicity and carcinogenicity studies. The Panel also reviewed clinical data and other information on sulfite sensitivity reactions that may occur when asthmatics or other sulfite-sensitive individuals ingest foods or beverages containing sulfites, inhale sulfur dioxide, or are given medications containing sulfites. That review of sulfite-sensitivity reactions was referenced in the agency's previous rulemakings concerning the use of sulfites on fresh fruits and vegetables and on "fresh" potatoes (Refs. 9 and 10). For that reason it will not be repeated here but is incorporated by reference (see, e.g., 50 FR 32830; 51 FR 25021; and 52 FR 46968).

1. Metabolism of Sulfites

Based on information it reviewed on the metabolism of sulfites, the Panel found that virtually all consumed sulfite is metabolized by sulfite oxidase in the mitochondria of various organs and tissues at a rate that is probably diffusion limited. The Panel stated that:

> The amount of endogenous sulfite is several orders of magnitude greater than that normally obtained from exogenous sources. Except for the few individuals identified as having congenital sulfite oxidase deficiency, it would appear that most individuals have sufficient enzyme to metabolize both endogenous and exogenous sulfite. Whether sulfite oxidase-deficient patients are sulfite sensitive as well remains to be established.

The Panel stated that "there is sufficient information in the current literature to conclude that some individuals, or a select subpopulation with a congenital deficiency of sulfite oxidase activity, would metabolize sulfite more slowly and may be subject to adverse effects from sulfite at the current level of intake." The Panel concluded, however, that there is "no reason to presume that individuals with the usual levels of sulfite oxidase activity and adequate nutritional status should develop adverse health effects from consumption of sulfite in foods at the levels currently used."

2. Toxicity Studies on Sulfites

The Panel was unable to locate any animal feeding studies on the acute oral toxicity of sulfiting agents published after 1976. Acute exposure seems to be a factor in sensitivity reactions associated with ingestion of foods or beverages containing sulfiting agents, but sensitivity reactions appear to be separate and distinct from other manifestations of acute oral toxicity. Feron and Wensvoort (Ref. 20) and Til et al. (Refs. 21 and 22) reported gastric lesions in several chronic feeding studies published before 1976. In one study by Beems et al. (Ref. 23), the types of gastric lesions induced by feeding sodium metabisulfite to Wistar Random rats were examined by enzyme histochemistry and light and electron microscopy. Animals were fed thiamine-supplemented diets containing 0, 4, and 6 percent sodium metabisulfite for 4, 7, 14, 21, or 28 days in a time-sequence study. Fundic mucosa of the rats fed sodium metabisulfite contained scattered hyperplastic glands lined with enlarged hyperactive gastric chief cells containing large numbers of pepsinogen granules but no fat, glycogen, or mucus. Findings from the time-sequence study suggested that preexisting chief cells were transformed to hyperactive chief cells having proliferative capabilities.

Gunnison et al. examined the subchronic toxicity of sulfite in female rats with low levels of sulfite oxidase activity that had been induced by their being fed low molybdenum diets, which contained tungstate, for 9 weeks (Ref. 24). Beginning on day 21, drinking water for two groups of animals also included 25 or 50 millimolar of sulfite (SO_3^{2-}). This treatment resulted in levels of hepatic sulfite oxidase activity 1 percent of that in untreated rats and 10 percent of that in normal humans. The authors reported that the general health of the rats appeared normal, and that the differences in weight gains and organ weights of pregnant and nonpregnant animals were not correlated with exogenous sulfite levels. Nonpregnant animals given sulfite did not develop anemia, and hematologic measurements in pregnant animals showed changes normally associated with pregnancy. Erythrocyte glutathione concentrations and prothrombin times were not affected, and hepatic thiamine concentrations were not significantly reduced by administration of sulfite to rats with low levels of sulfite oxidase activity. S-sulfonate concentrations in aorta pinna, and plasma were elevated in animals with low levels of sulfite oxidase activity. Administration of sulfite produced additional increments in S-sulfonate levels in aorta. Trends appeared similar, but data were incomplete for pinna and plasma concentrations of S-sulfonates.

With regard to short- and long-term toxicity studies, the Panel concurred with the conclusion of the Select Committee (Ref. 2) concerning the "no-observed-adverse-effect level" of sulfiting agents for chronic toxic effects. The Select Committee concluded that the level of sulfite that produces no observed toxic effects varies from about 30 to 100 milligrams of sulfur dioxide per kilogram of body weight per day, depending on the species and experimental conditions.

The Panel stated that it had not found any new data that was inconsistent with the data considered earlier by the Select Committee. Moreover, the Panel stated that it is evident from examination of experimental protocols that the no-observed-adverse-chronic-effect level is probably nearer the upper portion of the range (100 milligrams sulfur dioxide) than the lower portion of the range (30 milligrams sulfur dioxide).

3. Teratogenicity Studies on Sulfites

Dulak et al. studied the reproductive performance of female Wistar-derived rats that had induced sulfite oxidase deficiency and that were exposed to 25 or 50 millimolar sulfite (160 or 280 milligrams per kilogram of body weight per day) as sodium metabisulfite in drinking water from 3 weeks before mating until day 20 of gestation (Ref. 25). No treatment-related trends in reproductive performance or malformations were reported after animals having deficient or normal levels of sulfite oxidase activity were exposed to sulfite.

In a study by Murray et al., inhalation of sulfur dioxide in filtered room air for 7 hours per day by CF–1 mice (25 ppm on days 6 through 15 of gestation) and New Zealand rabbits (70 ppm on days 6 through 18 of gestation) resulted in no evidence of maternal toxicity except for decreased food consumption by both species during the first few days of exposure (Ref. 26). An increase in minor skeletal variants in both species was associated with maternal exposure to sulfur dioxide, but no teratogenic effects were observed in either species (Ref. 26).

It was the opinion of the Panel that the available data, including the studies considered by the 1976 Select Committee, do not provide evidence that sulfiting agents have teratogenic effects.

4. Mutagenicity and Carcinogenicity Studies on Sulfites

The Panel noted that Shapiro has reported that bisulfite (10 millimolar; pH not specified) induced mutations in *Staphylococcus aureus*, and that bisulfite (5 millimolar) induced mutations at pH 3.6 but not pH 5.5 in *Saccharomyces cerevisiae* (Ref. 27). Mallon and Rossman reported that bisulfite (0.1 molar) did not cause mutations in *Escherichia coli* (Ref. 28). Khoudokormoff and Gist-Brocades reported in 1978 that, in a *Bacillus subtilis* test system, concentrations of sulfur dioxide similar to those found in

wines (150 ppm, pH 3.0 to 6.5) did not elicit any mutagenic activity (Ref. 29). Also Chang et al. have reported that, in a *B. subtilis* test system, higher concentrations of a sodium sulfite-bisulfite mixture (0.1 molar to 0.5 molar; pH 7) showed mutagenic effects, whereas a lower concentration of this mixture (0.05 molar; pH 7) caused no mutagenic activity. Cells treated with adducts of sodium bisulfite and cytidine monophosphate or uridine monophosphate showed mutagenic effects at concentrations of 0.25 molar and 0.5 molar (Ref. 30).

DiPaolo et al. have reported that transformation of Syrian hamster embryo cells treated with 1, 5, or 10 millimolar bisulfite for 24 hours at neutral pH was increased in a dose-dependent fashion (Ref. 31a). These authors suggested, however, that this transformation might not occur by a mutagenic mechanism because bisulfite in combination with ultraviolet irradiation did not synergistically increase transformation. Further work by Doniger et al. in this system indicated that bisulfite caused no detectable deoxyribonucleic acid (DNA) damage and may have decreased the rate of DNA replication per cell by blocking operation of part of the functioning replicons (Ref. 31b). MacRae and Stich reported that in Chinese hamster ovary cells, dose- and time-dependent inductions of sister chromatid exchange were seen following exposure to 0.03 millimolar to 7.3 millimolar concentrations of bisulfite for 2 or 24 hours (Ref. 32).

In contrast, Mallon and Rossman have demonstrated that Chinese hamster cells exposed for 15 minutes to 10 and 20 millimolar bisulfite exhibited no mutations to ouabain resistance (Ref. 28). Likewise, exposure for 15 minutes to 10 millimolar bisulfite produced no mutations to 6-thioguanine resistance. Long-term exposure of Chinese hamster V79 cells (exposed continually and recultured for 8 weeks in a complete growth medium containing 5 millimolar bisulfite) also failed to induce ouabain resistant mutations (Ref. 28). According to Schneider and Calkins, cultures of lymphocytes from human peripheral blood exhibited chromosomal abnormalities (clumping) and decreases in DNA synthesis, cell growth, and mitotic indices after a single exposure to 100 milliliters of 5.7 ppm sulfur dioxide in air on day 0 or day 1 of incubation but not on day 2 or day 3 (Ref. 33).

While chromosomal aberrations have been observed in response to sulfites in in vitro systems, mutagenic effects have not been reported in intact animals exposed to sulfur dioxide or sulfites. Generoso et al. have reported the dominant-lethal mutations were not increased in 10- to 12-week-old (C3H x 101) F_1 female mice given one intraperitoneal injection of 550 milligrams per kilogram of sodium bisulfite and mated with untreated (101 x C3H) F_1 males within 4.5 days of treatment (Ref. 34). In the same study, neither heritable translocations nor dominant-lethal mutations were detected when (101 x C3H) F_1 male mice were mated with (C3H x C57BL) F_1 females after intraperitoneal injections of 400 milligrams per kilogram of sodium bisulfite 20 times during a 26-day period or of 300 milligrams per kilogram 38 times during a 54-day period.

Jagiello et al. reported that chromosomal aberrations were not found in oocytes of female Camm mice given one intravenous injection of 1.0, 2.5, or 5.0 milligrams sodium sulfite although structural damage was reported during meiosis when cultures of Camm mouse oocytes were treated with sodium sulfite (Ref. 35). Renner and Wever have reported that no cytogenetic effects (measured by sister chromatid exchange, chromosomal aberration, and micronucleus tests) were induced in bone marrow cells of either Chinese hamsters or NMRI mice (made sulfite oxidase-deficient by feeding a low molybdenum diet plus administration of sodium tungstate in drinking water) in response to subcutaneous or intraperitoneal injection or oral administration of sodium metabisulfite solution (Ref. 36). However, the authors noted that the control animals tolerated higher doses of sulfite than those made sulfite oxidase-deficient (Ref. 36).

According to Tanaka et al., male and female ICR/JCL mice administered 1 and 2 percent potassium metabisulfite in drinking water for 24 months had no increased incidence of tumors over control animals, suggesting that potassium metabisulfite is not carcinogenic in mice (Ref. 37). Peacock and Spence have reported that exposure to sulfur dioxide by inhalation was associated with an increase in lung tumors, but the increase was not statistically significant (Ref. 38). According to Laskin et al., inhalation of sulfur dioxide in combination with benz(a)pyrene resulted in an increased incidence of tumors in rats over exposure to either substance alone. Rats exposed only to sulfur dioxide had no tumors at the end of the experimental period (Ref. 39).

Gunnison et al. reported an unexpected finding of mammary adenocarcinomas after 9 weeks of treatment in 4 of 149 female rats (2 pregnant, 2 nonpregnant) with low activity of sulfite oxidase induced by a low molybdenum diet containing tungstate. No tumors were found in rats with normal levels of sulfite oxidase activity. The difference was not statistically significant (Ref. 24).

Two Swedish studies examined the effects of sulfur dioxide on the peripheral blood cells of workers that were exposed to this substance. Nordenson et al. observed an increase in chromosomal aberrations (mostly gaps and chromatid-type breaks) in 7 of 19 workers who were exposed to other inhalants as well in a sulfite pulp factory (Ref. 40). However, Sorsa et al. observed that peripheral blood lymphocytes of eight workers whose individual mean daily exposure to sulfur dioxide in an aluminum foundry was estimated to be 1.0 ± 0.85 ppm had no greater incidence of chromosomal aberrations or sister chromatid exchange than eight age-control subjects (Ref. 41). Average daily sulfur dioxide exposures in the aluminum foundry were estimated to range from 0.2 to 3.0 ppm., and mean employment time for the exposed workers was 19.5 years (Ref. 41).

The Panel noted that possible synergistic effects of sulfur dioxide and sulfites with other compounds have been examined in an effort to determine whether sulfiting agents might act as comutagens or cocarcinogens. Mallon and Rossman reported that mutation frequency was approximately doubled in ultraviolet-irradiated Chinese hamster cells exposed to 10 millimolar bisulfite either during or after irradiation exposure, and tryptophan revertants were increased by more than eightfold in ultraviolet-treated *E. coli* cells exposed to 75 millimolar bisulfite (Ref. 28). Hayatsu and Kitajo reported that treatment of bacteriophage-*lambda* with bisulfite-amine mixtures (1 molar bisulfite plus 1 molar semicarbazide, hydrazine, methoxyamine, or hydroxylamine) produced increases in clear mutation (plaque-forming activity) over treatment with bisulfite alone (Ref. 42). Khoudokormoff and Gist-Brocades reported that combination of bisulfite (150 ppm) with nitrite (100, 200, or 400 ppm) produced a weak mutagenic effect after 2 weeks in *B. subtilis* (Ref 29). Suwa et al. reported that mutagenic effects of coffee on *Samonella typhimurium* strains TA 100 and TA 98 without S9 mix were completely inhibited by addition of 300 ppm sulfiting agents (sulfite, bisulfite, or metabisulfite), and phage-inducing

activity of coffee (prophage-*lambda* induction test) was suppresed by 300 ppm sulfite ion (Ref. 43). Sodium sulfite was also noted by Calle and Sullivan to be a weak inhibitor of mutagenic effects induced by benz(a)pyrene in *S. typhimurium* strain TA 98 (Ref. 44). Borek reported that bisulfite concentrations relevant to use in foods (0.5, 2.5, and 5.0 micrograms per milliliter), as well as a higher concentration of 100 milligrams per milliliter, inhibited transformation of C_3H 10T 1/2 cells by x-rays and benz(a)pyrene. Pretreatment of hamster embryo cells with 100 ppm bisulfite inhibited transformation by x-rays (Refs. 45 and 46).

With respect to the mutagenicity or carcinogenicity potential of sulfites, the Panel concluded, upon consideration of the new studies, as well as the data available to the Select Committee in 1976, that sulfites are mutagenic to several microorganisms and may produce chromosome damage to mammalian cells in vitro. Sulfites, however, also inhibit mutagenic effects of some known mutagens and carcinogens. The Panel concluded that sulfites are not carcinogenic or mutagenic in vivo to rats and mice.

C. Conclusions and Recommendations of the Panel

In summary, the Panel concluded that sulfiting agents are not teratogenic, mutagenic, or carcinogenic in laboratory animals. The Panel found no new metabolic or toxicological data in its review of sulfiting agents that suggest a need to change the no-observed-adverse-effect level for sulfites and stated that an examination of exposure and consumption data indicates that the level of consumption of sulfites from foods and beverages is about the same as that estimated by the Select Committee in 1976.

The Panel further compared the no-observed-adverse-effect level from chronic toxicity studies to the likely upper limit levels of human intake (found by the Panel to range from a mean of less than 0.17 milligram per kilogram of body weight per day to a 99th percentile value of less than 3 milligrams per kilogram of body weight per day). The Panel compared these intake levels to the no-observed-adverse-effect levels based on animal toxicity data (estimated to range from 30 milligrams to 100 milligrams sulfur dioxide equivalents per kilogram of body weight per day). The Panel determined that the margin between the amount of sulfur dioxide equivalents ingested by high intake consumers and the lowest estimated no-observed-adverse-effect level is about tenfold (30 milligrams per kilogram of body weight per day divided by 3 milligrams per kilogram of body weight per day). The Panel concluded that the margin between the mean per capita daily intake and the lowest no-observed-adverse-effect level is about 180-fold (30 milligrams per kilogram of body weight per day divided by 0.17 milligram per kilogram of body weight per day). The Panel noted that "consideration of the significance of this difference should recognize the difficulties in estimating with confidence the components which are the basis of the calculated safety margin." (Ref. 6.)

The Panel found that none of the five traditional conclusion statements (Ref. 3) considered by the Select Committee on GRAS Substances for its 1976 report is appropriate for sulfites. The Panel's conclusion statement for sulfites contains two parts. The Panel first concluded that:

> For the majority of the population, there is no evidence in the available information on potassium bisulfite, potassium metabisulfite, sodium bisulfite, sodium metabisulfite, sodium sulfite, and sulfur dioxide that demonstrates or suggests reasonable grounds to suspect a hazard to the public when these substances are used at levels that are now current and in the manner now practices. However, it is not possible to determine, without additional data, whether a significant increase in consumption would constitute a dietary hazard.

Second, the Panel concluded that:

> For the fraction of the public that is sulfite sensitive, there is evidence in the available information on potassium bisulfite, potassium metabisulfite, sodium bisulfite, sodium metabisulfite, sodium sulfite, and sulfur dioxide that demonstrates or suggests reasonable grounds to suspect a hazard of unpredictable severity to such individuals when they are exposed to sulfiting agents in some foods at levels that are now current and in the manner now practiced.

IV. FDA's Evaluation of the Panel's Report

FDA has undertaken its own evaluation of the data that formed the basis for the Panel's report. The agency has evaluated the report's human exposure estimates, estimates of highest no-observed-adverse-effect level for sulfites, its estimates of safety margins (ratios of no-observed-adverse-effect levels to human exposure values) for the use of sulfites in human food, and the Panel's overall conclusions.

A. Exposure Estimates

The Panel determined that the mean human intake of sulfites from food does not exceed 0.17 milligram per kilogram of body weight per day (sulfur dioxide equivalents), and that intake from a hypothetical meal high in sulfited foods, which includes consumption of wine and beer, does not exceed 3 milligrams per kilogram of body weight per day (sulfur dioxide equivalents). The agency has reviewed the data and the Panel's estimates and has estimated that the mean level of chronic intake of sulfiting agents does not exceed 0.3 milligram per kilogram of body weight per day (sulfur dioxide equivalents), a figure slightly higher than the Panel's estimate.

The agency also used data from the Panel's report and from the National Food Consumption Survey "Foods Commonly Eaten by Individuals" (Ref. 13), combined with typical sulfur dioxide equivalent residues, to compute an acute 99th percentile intake of sulfites based on a single eating occasion of highly sulfited foods. The agency did not include exposure to sulfites from their use on fresh fruits and vegetables in this computation (or in its computation of mean chronic intake). Based on its computation, FDA would not expect this 99th percentile intake of sulfites to exceed approximately 5 milligrams per kilogram body weight per day.

Even though the information bases available to the agency and to the Panel were virtually the same, the agency's estimates are somewhat different from the Panel's because the agency used some different assumptions in its calculations. The agency's estimates differed from those of the Panel in two ways: (1) use of market share factors, and (2) selection of typical sulfur dioxide equivalent residue levels.

Market share factors are estimated percentages of the foods in each of the dietary food categories listed in 21 CFR 170.3(n) that may contain the additive. Such market share factors are applied to adjust intake estimates to reflect actual usage of an ingredient based on economic and technological considerations. For example, current information indicates that sulfite-treated flour is useful in only certain types of products within the dietary food category "Baked Good," such as pie crusts, crackers, and cookies. Consequently, FDA adjusted its estimate of exposure to sulfites from this food category to reflect this fact. The agency found, however, that the Panel did not apply market share factors in reaching its exposure estimates.

The agency also selected a different typical sulfur dioxide equivalent residue level for certain food uses than did the Panel. In reviewing the available information, the agency determined that the Panel sometimes used a sulfur

dioxide equivalent residue value that was derived from an opinion expressed by food industry representatives. The agency, however, gave the greatest weight to sulfur dioxide equivalent residue values that were derived from actual analyses of food and consideration of whether the analyzed samples were representative. Information gathered for the Panel's review aided the agency in refining its estimates of sulfite intake. However, the new result of these different procedures was different estimates of sulfur dioxide equivalent intake between the Panel and the agency.

The exposure estimates provided by the Panel and reevaluated by the agency, i.e., the mean intake levels and the intake level of the hypothetical high consumer of sulfited foods including the consumption of wine and beer, include within their range the 90th percentile intake level, the level that the agency has traditionally used in the safety evaluation of numerous food ingredients. In fact, the Panel, which examined 1977 data on sulfites from the National Academy of Sciences (NAS) (Ref. 5), estimated the 90th percentile intake, including the consumption of wine and beer, to be 43 milligrams per day (0.72 milligram per kilogram per day). The Panel estimated the mean intake level for a consumer, including the consumption of wine and beer, to be 19 milligrams per day (0.32 milligram per kilogram per day) (Ref. 6, p. 25). Therefore, the 90th percentile intake can be expected to exceed the mean intake by approximately a factor of 2.3 (0.72 as compared to 0.32 milligram per kilogram per day).

B. Estimates of Highers No-Observed-Adverse-Effect Levels for Sulfites

The Panel estimated that the no-observed-adverse-effect level for sulfites ranged from 30 milligrams per kilogram of body weight per day (sulfur dioxide equivalent) to 100 milligrams per kilogram of body weight per day (sulfur dioxide equivalent) and was probably closer to the value of 100 milligrams per kilogram of body weight per day (Ref. 6, pp. 42 and 58).

The agency has reviewed the available data and the Panel's conclusions on the toxicology of sulfiting agents. In its review, the agency found no data that would cause it to disagree with the Panel that the no-observed-adverse-effect level for sulfites is in the range of 30 to 100 milligrams per kilogram of body weight per day (sulfur dioxide equivalents).

C. Safety Margin for Sulfites

The agency normally establishes the safety of new food additives by applying a safety factor to the no-observed-adverse-effect level for the ingredient. Traditionally, the agency has determined the maximum acceptable daily human intake of the food additive (in units of milligrams per kilogram of body weight per day) by multiplying the no-observed-adverse-effect level from chronic animal experimentation data by the safety factor of $\frac{1}{100}$ as provided in the agency's regulations for food additives in 21 CFR 170.22. For any food ingredient that is currently in use, one may compute the current safety margin by determining the ratio of the no-observed-adverse-effect level from chronic animal experimentation data (in milligrams per kilogram of body weight per day) to the chronic estimated daily human intake of the ingredient (in milligrams per kilogram of body weight per day).

Using the lowest (most conservative) of the no-observed-adverse-effect level values (30 milligrams per kilogram of body weight per day), the agency calculates that the safety margin is approximately 100 for the estimated chronic mean intake of sulfites (30 milligrams per kilogram of body weight per day) divided by (0.3 milligram per kilogram of body weight per day). This margin is consistent with the safety factor that the agency, in most circumstances, applies to new food additives.

The agency also notes that acute sulfite intake that results from infrequent ingestion of meals containing a number of highly sulfited foods is not representative of the food intake patterns that lead to the development of chronic conditions, and it is not valid to compare such intakes to the no-observed-adverse-effect level obtained from a chronic feeding study to derive a safety margin. The concerns presented by such extreme eating patterns are not related to chronic toxic effects but rather have a bearing on acute sulfite-sensitivity reactions. As noted above, the adverse health consequences of acute high intake of sulfites in humans have been characterized in clinical studies, and the agency has addressed the public health concerns arising from such acute intakes in separate rulemakings.

For a new food additive for which there is not yet an approval, the agency traditionally has used a 90th percentile chronic exposure estimate to calculate the safety margin. A 90th percentile exposure value was not calculated for sulfiting agents from the most recent data. For the purposes of this discussion, however, the agency has calculated a 90th percentile value. Using the National Academy of Sciences data discussed above, the agency has calculated the 90th percentile to be at least two times greater than the mean. Multiplying the mean by two yields as estimated value of 36 milligrams per day (0.6 milligram per kilogram per day) sulfites for the daily intake of sulfites at the 90th percentile.

The agency believes, based on its review of the toxicity data on sulfites, that the true no-observed-adverse-effect level is approximately 100 milligrams per kilogram per day, consistent with the findings of the Panel (Ref. 6, pp. 42 and 58). Based on these considerations, the agency calculates a safety factor of 170 (100 milligrams per kilogram per day divided by 0.6 milligram per kilogram per day) for the calculated 90th percentile intake value, and a safety factor of 340 for the chronic intake. Therefore, the agency believes that an adequate margin of safety does exist between the no-observed-adverse-effect level for sulfites and chronic mean intake and estimated 90th percentile intake of individuals.

D. The Panel's Conclusion

The agency had reviewed the Panel's two-part conclusion. The first part of the conclusion was directed at the GRAS status of most uses of sulfites and was concerned with exposure of the vast majority of consumers. The second part was directed at that subpopulation of consumers that are sensitive to sulfites, especially when the sulfites are used on certain categories of foods.

The agency has already responded to the latter conclusion in the final rule on the use of sulfiting agents on fresh fruits and vegetables and in the proposal on potatoes (Refs. 9 and 10). With respect to the GRAS status of the overall use of sulfites on food (the first element of the Panel's conclusion), the Panel concluded that, except for certain exposures of the subpopulation of individuals sensitive to sulfites, the use of these ingredients on food in GRAS.

On the basis of its review of all available information, the agency has not found any reasons to disagree with the Panel's conclusions.

V. The Advisory Committee on Hypersensitivity to Food Constituents

In the **Federal Register** of April 16, 1984 (49 FR 15021), FDA announced that the Secretary of the Department of Health and Human Services established an ad hoc Advisory Committee on Hypersensitivity to Sulfiting Agents in

Foods (later renamed the Advisory Committee on Hypersensitivity to Food Constituents) to function under FDA's Center for Food Safety and Applied Nutrition. The Committee reviewed and evaluated available information and data relevant to the allergic-type responses in humans that are associated with food ingredients, including sulfiting agents, for the purpose of making appropriate recommendations to the Commissioner of Food and Drugs.

The Committee met on December 12 and 13, 1985, to review specifically the available information on the use of sulfiting agents in food. The Committee generally supported FDA's proposal to rescind the GRAS status of the use of sulfites on fresh fruits and vegetables (Ref. 9a), and encouraged FDA to include "fresh potatoes" in this section (Ref. 47).

VI. Comments

Even though the extended comment period closed on December 7, 1982, the agency has continued to receive comments regarding sulfiting agents. The agency has received comments from consumers, consumer groups, Congressional representatives on behalf of consumers, health professionals and scientists, Federal, State, and local government officials, the food industry, and industry trade associations.

Many comments received since 1982 pertained to alleged adverse effects experienced by consumers who consumed foods, particularly fresh fruits and vegetables and potatoes or potato products, that were treated with sulfites. Among the comments received from consumers, approximatley 38 percent were reports of alleged adverse reactions to sulfiting agents in food. Other consumer comments recommended various courses of action: Roughly 27 percent urged the agency to ban sulfites from all use in foods. About 1.5 percent suggested a ban on certain uses of sulfites in certain foods, and a similar proportion (about 1.5 percent) requested that limits be placed on the use of sulfites in food. Over 15 percent of the comments received from consumers advocated the use of labeling on foods containing sulfiting agents, and a similar proportion (about 15 percent) expressed a general concern about the use of sulfites in food.

FDA has responded to comments that relate to adverse reactions by sulfite-sensitive persons, or to the use of sulfites on fresh fruits and vegetables and on potatoes or potato products, in previously published **Federal Register** documents (Refs. 9 and 10). In this document, the agency will respond only to those comments that pertain to the overall GRAS status of sulfites in food and to the GRAS status of those uses of sulfites that have not already been addressed by the agency.

On October 28, 1982, the agency received a citizen petition regarding sulfiting agents in food and drugs. (The petitioner supplemented the petition on March 15, 1983, August 17, 1983, and July 25, 1986.) The agency's response to those aspects of the citizen petition that relate to the use of sulfites on food is presented in section VI.B. below.

A. General Comments

Two comments from industry sources supported the 1982 proposal as written. The remaining comments from industry presented information in support of modifications in the proposal. Most industry comments requested GRAS affirmation for uses of sulfiting agents, including uses of sodium sulfite that were previously unreported and that were consequently not considered by the Select Committee. Many comments also requested modifications with regard to some of the reported uses, including higher or lower sulfite treatment levels in foods, additional technical effects, use of residual sulfur dioxide levels instead of treatment levels, or deletion of all use limitations. Some comments presented information that, according to the comments, demonstrated that any one of several sulfiting agents could be used to accomplish the same technical effect in a food product. These comments requested that the agency permit the interchangeable use of two or more of the sulfiting agents.

A number of comments reported information on the use levels or residual levels of various sulfiting agents in foods. Some provided data and information on sulfite sensitivity reactions. FDA gave a number of the comments to the Panel for consideration at the Panel's request.

1. Potassium Bisulfite and Sodium Sulfite

Numerous comments from industry and industry trade associations, in response to the July 9, 1982, proposal, requested that FDA not deny GRAS status to the use of potassium bisulfite and sodium sulfite. In the 1982 proposal, the agency said that it did not have any evidence of food use of potassium bisulfite, and that it did not have sufficient information relating to the food use of sodium sulfite to establish limitations on the use of this ingredient. FDA stated that as a result, it could not affirm these ingredients as GRAS. Instead, FDA proposed to remove these ingredients from the list of substances that are GRAS.

The comments described current uses of these two sulfiting agents in a variety of food products, demonstrating that they are, in fact, being used by industry. The agency considers that these comments have provided sufficient evidence of the use of sodium sulfite and potassium bisulfite to warrant affirming that the use of these ingredients is GRAS.

2. Interchangeable Use of Sulfiting Agents

A number of comments expressed the opinion that several sulfiting agents ought to be fully interchangeable. In particular, the comments noted the desirability of allowing food processors to substitute potassium salts of the sulfiting agents for sodium salts to reduce the sodium content of processed foods and thus to contribute to a reduction in the level of sodium consumption in the United States.

The agency has found no evidence that the six sulfiting agents that are the subject of this rulemaking are not fully interchangeable. In fact, interchangeability could offer manufacturers and food processors greater flexibility in formulating foods and could facilitate the substitution of potassium salts for sodium salts where feasible. Therefore, the agency is providing for the interchangeability of all sulfiting agents in this rulemaking by setting forth in the regulations maximum permitted residual levels of sulfites in food in terms of sulfur dioxide equivalents rather than in terms of any specific sulfiting agent.

As noted above, sulfur dioxide equivalents are a measure of the proportion of the sulfiting agent that can chemically dissociate into sulfur dioxide. Different sulfiting agents possess different percentages of sulfur dioxide per unit weight. The use of sulfur dioxide equivalents to measure the maximum permitted residual levels of sulfites in food correctly focuses on that portion of the sulfiting agent that is of biological significance, the sulfur dioxide, and not the parent chemical. As long as sulfur dioxide equivalents are used to measure the sulfite content of foods, sulfiting agents may be used interchangeably.

3. Claimed Inconsistencies in Proposal

One comment pointed out that the limitations on the use of sulfiting agents in the 1982 proposal were inconsistent. As an example, the comment cited the fact that the limitations on the use of two different sulfiting agents differed by

a factor of 100 in the same food categories. The comment stated that such an inconsistency would present problems for industry because it creates ambiguity.

The agency believes that this concern has been eliminated because the agency is permitting the sulfiting agents to be used interchangeably. This approach was explained in the response to the previous comment.

4. Levels of Use

A number of comments from segments of the food industry addressed specific use levels or residual levels of sulfiting agents in specific food products. Some comments argued for different treatment levels from certain sulfiting agents than those that the agency had specified in the July 1982 proposal. Some comments requested that limitations on sulfites be stated in terms of residual levels on the finished food product rather than in terms of treatment levels.

The agency believes that the most reasonable way to define limitations on sulfite use in food is to use the levels of sulfites on finished food products measured as sulfur dioxide equivalents. (A "finished food" is the product as manufactured.) The amount of sulfite present on a particular food at the time that it is consumed may differ from the amount remaining on that food just after processing. The latter amount of sulfite may, in turn, differ from the amount actually used to treat the unprocessed food. Such differences reflect the fact that a significant amount of applied sulfites can be lost from foods during processing, storage, distribution, or home preparation. These losses can result from either physical processes, such as volatilization, or chemical processes, which involve chemical reactions with food constituents. Because levels of sulfites in finished foods may differ considerably (and unpredictably) from treatment levels, and because finished foods are those most readily available to the agency for determining compliance, FDA has tentatively concluded that it does not make sense to base the specific limitations on the level of sulfites in the food at the time it is treated or at the time it is consumed.

The agency concludes that setting specific limitations on the level of residual sulfur dioxide equivalents in the finished food will most effectively ensure the safety of treated foods and will also allow compliance with the limitations to be more accurately verified. This approach is also the approach used in the recent rulemaking concerning the labeling of food products that contain sulfiting agents (Refs. 7 and 8).

5. Home Use of Sulfites

One comment submitted that sulfiting agents are currently being sold directly to the general public for use in home drying, freezing, and canning of fruits and vegetables. The comment expressed concern about the potential effects of sulfite regulations on the selling of sodium metabisulfite as an accessory to the home food dehydration equipment manufactured by the company that submitted the comment.

The agency notes that the direct marketing of sulfiting agents for home use was not reviewed or evaluated by the Select Committee or by the Panel. Thus, the agency believes that there is currently no basis for affirming the GRAS status of the home use of sulfiting agents for drying, freezing, canning fruits and vegetables, or for other uses, such as home winemaking. In fact, such uses of sulfites may present hazards to consumers who are sulfite sensitive. Sulfiting agents sold for home use might lack adequate directions for use or may by misused by the consumer. Thus, the possibility exists that sulfite-sensitive individuals may be unwittingly exposed to excessive levels of sulfites on food produced at home. Therefore, the agency cannot affirm the GRAS status of these uses of sulfiting agents.

The ad hoc Advisory Committee on Hypersensitivity to Food Constituents considered the use of sulfiting agents in home drying of foods during its December 12, 1985, meeting (Ref. 47, p. 368). At that time, the Advisory Committee voted unanimously to recommend "the banning of the sale of sulfites and formulated sulfite products for use as fruit and vegetable fresheners and potato whiteners at the retail and consumer level" (Ref. 47, p. 363). Given this recommendation, and given that the use of sulfites in home dehydration equipment and other home uses was not reviewed by the Panel, the agency tentatively concludes that there is insufficient information to affirm these uses of sulfites as GRAS, and solicits further comments and information on such uses.

6. Identification of Sulfur Dioxide and Sodium Metabisulfite

One comment requested that the agency adopt the specifications for sulfur dioxide in the 3d edition of the Food Chemicals Codex. Another comment requested that the agency adopt the Chemical Abstracts Service (CAS) registry number that is used by the Environmental Protection Agency for sodium metabisulfite.

The agency agrees that the specifications for sulfur dioxide, as with almost all direct food additives, should be those stated in the 3d edition of the Food Chemicals Codex. The present rulemaking reflects that fact. In addition, the agency has verified the latest CAS registry numbers for all sulfiting agents that are the subject of this rulemaking and is incorporating those numbers in the proposed GRAS affirmation regulation.

Furthermore, the agency is also proposing to adopt the specifications listed in the Food Chemicals Codex, 3d Ed., for potassium metabisulfite, sodium bisulfite, sodium metabisulfite, and sodium sulfite. However, no food-grade specifications exist for potassium bisulfite. The agency will work with the Committee on Food Chemicals Codex of the National Academy of Sciences to develop acceptable specifications for this ingredient. When acceptable specifications are developed, the agency will incorporate them into § 184.1861, should FDA decide to adopt this regulation. Until specifications are developed, FDA has determined that the public health will be adequately protected if potassium bisulfite complies with the description in the proposed regulation and is of food-grade purity (21 CFR 170.30(h)(1) and 182.1(b)(3)).

7. Description of Sodium Bisulfite

One comment submitted data to establish that the chemical description provided in the July 9, 1982, proposal for sodium bisulfite does not adequately describe the ingredient of commerce. This comment noted that sodium bisulfite is not available commercially in a pure dry powder form and exists only as an aqueous solution.

FDA is aware that the articles of commerce called "anhydrous sodium bisulfite" and "anhydrous potassium bisulfite" are, in reality, mixtures of the salts sodium bisulfite and sodium metabisulfite and of the salts potassium bisulfite and potassium metabisulfite, respectively. When added to water, these mixtures produce aqueous solutions of sodium bisulfite and of potassium bisulfite, respectively. Therefore, FDA is revising the description of both sodium and potassium bisulfite in this rulemaking to reflect the fact that certain of the articles of commerce that are subject to this rulemaking are mixtures of bisulfite and metabisulfite salts.

8. Wine Institute Comment

BATF has forwarded to FDA a comment and data on sulfites that it received from the Wine Institute. The

Wine Institute had originally submitted these data to BATF in a December 23, 1985, comment to BATF Notice No. 566 (Ref. 48), which proposed mandatory sulfite labeling for alcoholic beverages that contain sulfites. The Wine Institute comment stated that the Monier-Williams method for measuring the sulfur dioxide content of sulfite-treated foods is inaccurate because it makes no distinction between "free" and "bound" sulfites. (The Monier-Williams method is the analytical method adopted, with modifications, by the agency for detecting sulfite levels in food (Ref. 8).) The comment asserted that "bound" sulfites are not the cause of any perceived adverse reactions to sulfites in individuals. Therefore, the comment argued that measurement of the sulfite content of a food by the Monier-Williams method may produce an inaccurate measure of the risk to individuals from sulfites in that food. The Wine Institute included with its comment the results of a study of sulfite-sensitive individuals challenged with wine to which known quantities of "bound" sulfites had been added. The purpose of the study was to determine the extent to which "bound" sulfites in wine may cause significant adverse reactions in sulfite-sensitive individuals.

FDA has reviewed this comment and the data submitted with it. These data do not present sufficient evidence to justify a change in the agency's belief that both types of sulfites may be potential sources of risk for sulfite-sensitive persons. As noted in the preamble to the final rule on labeling requirements for sulfiting agents (51 FR 25012), the agency has also received data indicating that bound sulfites may contribute to adverse reactions in humans. The agency believes that the available data do not resolve the question of whether "bound," as opposed to "free," sulfites in food can be responsible for adverse reactions in sulfite-sensitive individuals. Until more conclusive data become available, the agency cannot distinguish between "bound" and "free" sulfites in food and will continue to rely on the modified Monier-Williams analytical method for the quantitative detection of total sulfites.

FDA selected this method because it measures the free sulfite plus a reproducible portion of the bound sulfites, such as the carbonyl addition products, in the food. While it may be preferable to have a method that would measure, in absolute terms, the free sulfite and each of the other sulfite-derived substances in a food, FDA has determined that no such method exists, and that it is unlikely that one will be developed in the near future. Therefore, FDA has selected the Monier-Williams method, which for years has been the standard against which the accuracy of newer procedures has been judged, as the basic method that it will use for enforcement of the sulfite labeling rule.

The agency recognizes that the Monier-Williams method (Ref. 49) was not originally intended to measure sulfite levels as low as 10 ppm. However, FDA has made some procedural changes in the method that, without changing the method's chemical principles, improve its accuracy and reproducibility and thus make it suitable for use at 10 ppm. These changes, as well as other technical aspects of the analytical methodology, are discussed in detail in "A Report on the Monier-Williams Method for Sulfites in Food" (Monier-Williams Report), prepared by FDA (Ref. 50). A copy of this report is on file in the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857. The modified procedure is described in "Monier-Williams Procedure (with Modifications) for Sulfites in Food" (November 1985) and is also on file in the Dockets Management Branch (Ref. 51). The method is also cited as the official regulatory method for sulfite determination (Ref. 8).

B. Citizen Petition

On October 28, 1982, the agency received a citizen petition signed by three consumers, a physician, a scientist, and representatives of the Center for Science in the Public Interest (CSPI), Washington, DC. The petitioners requested that FDA "amend certain food standards and rescind certain food additive regulations, prior sanctions, and advisory opinions that permit the use of sulfiting agents above 350 micrograms per serving." The petitioners also requested that FDA "require warning labels on those products in which sulfiting agents must be used in greater amounts in order to perform essential public health functions."

The petitioners also requested that FDA ban the use of sulfiting agents in drugs designed for the treatment of asthma and either ban their use in over-the-counter and prescription drugs or require a warning label on those drugs in which sulfiting agents were used to perform essential public health functions.

In supplements to the citizen petition that were submitted on March 15, 1983, and August 17, 1983, the petitioners requested that FDA ban the use of sulfiting agents on salad bars, withdraw the prior sanction permitting the use of sodium bisulfite on potatoes, and institute appropriate enforcement action against certain misbranded products labeled for use on vegetable salads or dehydrated fruits and vegetables. The petitioners submitted data to support their claim that vegetable salads and potatoes are significant sources of thiamine, and that products instructing users to apply sulfiting agents to these foods are misbranded. The petitioners suggested that FDA issue an appropriate regulatory letter to all manufacturers of such products.

The petitioners stated that FDA had failed to present any evidence to justify the use of a fifteenfold margin of safety with regard to sulfiting agents. They asked that FDA ensure the existence of a hundredfold safety margin, citing in support of their request the fact that current usage levels posed a significant problem to many consumers, and that interspecies variations in in vivo sulfite oxidase levels have been documented.

The petitioners stated that FDA, in its July 9, 1982, proposal, had not reviewed all of the available scientific data on sulfiting agents. The petitioners submitted references to various published articles, abstracts, and letters concerning adverse reactions to sulfites. In addition, the petition contained information about, and references to, mutagenic in vitro tests and cocarcinogenicity studies of the sulfiting agents.

The petitioners contended that safe alternatives to sulfiting agents, such as ascorbic or citric acid, are available and should be used if necessary. They expressed their belief that proper handling and storage conditions could also, in some instances, obviate the need for sulfiting agents.

On July 25, 1986, the petitioners sent a supplementary comment to Department of Health and Human Services Secretary Bowen emphasizing that 60 percent of the reported sulfite reactions classified by FDA as "serious" involved foods other than fresh fruits and vegetables. The petitioners urged the agency to immediately decide the safety of all remaining uses of sulfites.

FDA has already responded to aspects of the petition in the rulemakings on sulfite labeling (Refs. 7 and 8) and on the use of sulfiting agents on fresh fruits and vegetables (Ref. 9), on potatoes (Ref. 10), and on drugs (51 FR 43900). Thus, for the purposes of this rulemaking, the agency believes that it need not respond to those aspects of the petition. Here, the agency is responding to the remaining parts of this petition and its supplements.

FDA has tentatively decided to deny the petitioners' request that the agency prohibit the use of sulfiting agents on foods at levels of more than 350 micrograms per serving. FDA agrees with the conclusions of the Panel and believes that the uses of sulfiting agents, except for those that have already been addressed because of concern for allergic-type responses in sulfite-sensitive individuals, are GRAS.

FDA reviewed all the scientific references and medical reports cited in the petition and also made them available to the Panel. Furthermore, the agency conducted its own update of the scientific literature on sulfiting agents from 1975 to the present and evaluated the pertinent references on sulfites that it found. The agency also forwarded these data to the Panel for use in its reexamination of sulfites. Thus, both the agency and the Panel have had access to all the relevant data available on sulfites. On the basis of these data, the Panel concluded, and the agency concurs, that certain uses of sulfiting agents on food can no longer be considered to be GRAS, while other uses can still be considered to be GRAS.

The agency has acted to protect sulfite-sensitive individuals in the population from the greatest sources of risk from inadvertent exposure to sulfites, namely, their use on fresh fruits and vegetables and on "fresh" potatoes. However, FDA believes that the totality of data reviewed by the Panel and by the agency confirms the GRAS status, with specific limitations, of most of the remaining uses of sulfites that are not limited by regulation. The agency believes that the petitioners have not provided any data that would justify a tentative conclusion different than the one the agency has reached—that these remaining uses of sulfiting agents are GRAS.

In response to the July 25, 1986, submission from the petitioners, the agency notes that the most recent data on allergic-type responses allegedly caused by sulfiting agents show that over 48 percent of the serious responses are attributable to the use of sulfites on fresh fruits and vegetables. Another 13 percent were allegedly caused by their use on potatoes, which FDA addressed in a recent proposal (52 FR 46968) (Ref. 10). The remaining 39 percent are allegedly attributable to sulfite use in a variety of other foods, most of which are now subject to sulfite labeling regulations (51 FR 25012) (Ref. 8). For these latter uses, the comments of the two groups of experts with whom FDA has consulted (Refs. 2 and 6) indicate that there continues to be a consensus that these uses are GRAS, so long as the sulfites are used in accordance with appropriate limitations, and their presence is properly declared on the label.

The agency believes that any remaining risks to sulfite-sensitive individuals are largely controlled by the sulfite labeling of food. The agency has traditionally relied on ingredient labeling of food as the best means of ensuring that a subpopulation of sensitive individuals will be able to avoid certain food ingredients that are of no safety concern to the general population. (See, for example, Refs. 52 a through c.) If sulfite-sensitive individuals pay attention to labeling, they will be aware when they are in settings in which foods are not ordinarily labeled, such as in restaurants, that certain foods are likely to contain sulfites.

The agency's policy on the labeling of foods that contain sulfites makes clear that when a sulfiting agent is present in a detectable amount in a finished food, regardless of whether the sulfiting agent has been directly added or indirectly added in one or more of the ingredients of the food, it is present in that food at a significant level and must be declared on the label. The July 9, 1986, labeling rule defines a detectable amount of sulfiting agent to be 10 ppm sulfur dioxide equivalents in the finished food product. Because of this rule, persons who know that they are sensitive to sulfites can be more selective in the types of packaged foods that they purchase. By reading the labels on foods, they will be able to avoid the potential hazard of an allergic-type response to sulfites in packaged foods.

Use of the 10 ppm level is a more practicable and enforceable way of determining the sulfite content of food for compliance purposes than is the petitioners' 350 micrograms per serving suggestion. The 10 ppm level does not depend on the weight of a "serving" of a particular food, a quantity that is known to vary greatly from person to person and from food to food. In addition, 10 ppm, as measured in the food, is the lowest level of sulfites in food that can be routinely measured using current analytical methodology (such as the improved Monier-Williams method) (Ref. 8).

The agency stresses that, for consumers who wish to avoid sulfites, existing regulations require that the labeling of most foods that contain these ingredients identify their presence by listing them in the list of ingredients. The agency notes that under existing regulations (21 CFR 101.100(a)(2)) even foods that are presented in unpackaged form in bulk to consumers, such as bulk dried fruit or sulfited bulk shrimp in food stores, must also be appropriately labeled for sulfite content. Such a requirement is consistent with 21 CFR 101.22(e), which requires that bulk foods offered for sale unpackaged must be appropriately labeled. The required information may be displayed to the purchaser on either: (1) the labeling of the bulk container plainly in view; or (2) a counter sign, card, or other appropriate device bearing information that the food being offered for sale contains sulfiting agents. Because it believes that this requirement is a central condition of GRAS status for the use of sulfiting agents, the agency is emphasizing the current requirements regarding labeling of bulk foods by incorporating language similar to that in §§ 101.22(e), 101.100(a)(2), and in paragraph (c)(2) of proposed § 184.1861 as a specific limitation on the use of sulfites. For the same reason, the agency is including language concerning the listing of sulfites on labels for packaged food in paragraph (c)(3) of proposed § 184.1861.

In relation to the petitioners' concerns about safety margins for sulfites, the agency has tentatively concluded that an adequate margin of safety exists between the highest no-observed-adverse-effect level for sulfites from toxicological tests and chronic intake levels of individuals. As discussed above, the Panel has demonstrated, and the agents has confirmed, that a safety margin of at least 100 for estimated chronic intake of sulfites is likely to exist. (This margin of 100 is the same as the traditional hundredfold safety factor chosen for the safe use of any new food additive based entirely on long-term animal test results with no previous experience of use in the food supply.)

The agency believes that it is not appropriate to calculate a safety margin for a food ingredient by comparing no-observed-adverse-effect levels from chronic animal feeding studies with highly exaggerated, acute levels of intake of the ingredient that may occur when a consumer ingests an occasional hypothetical meal containing large amounts of the ingredient. Such exaggerated exposures are not likely to be part of a chronic dietary pattern and are likely to be of concern only to certain sulfite-sensitive individuals. To protect such individual, FDA has, as noted above, undertaken separate rulemakings. These actions have served to reduce the unexpected exposures to sulfites via the foods that have caused

UMI

the greatest concern for the public health.

Thus, the agency believes that the current safety margin, based on chronic exposure to sulfites in foods that are the subject of the present rulemaking, is adequate and is consistent with the continued GRAS status of those uses of sulfiting agents that the petitioner had requested that FDA ban.

VII. Conclusions

A. Specific Limitations on Residual Sulfite Levels

The agency has reviewed all of the available relevant data and information concerning the uses of sulfiting agents in food. It tentatively concludes that certain uses of sulfiting agents in food are GRAS with specific limitations.

The Panel's first conclusion about the safety of sulfiting agents, with which the agency concurs, states that "* * * it is not possible to determine, without additional data, whether a significant increase in consumption would constitute a dietary hazard." This portion of the Panel's conclusions is analogous to the second of the five usual evaluation statements that the Select Committee has traditionally used in evaluating substances in the GRAS review (Refs. 2 and 3).

The agency's usual action in response to this type of conclusion is to affirm the substance as GRAS but to impose specific limitations on the conditions under which the substance may be added to foods. Thus, in the accompanying regulations, the agency is specifying the food categories on which sulfites may be used, the maximum levels of residual sulfites on finished food products in each category, and the condition that the use of sulfites be declared on the label of the finished food.

1. Food Categories and Maximum Levels as Specific Limitations

In general, the food categories included in the table of limitations in proposed § 184.1861(c) derive from the agency's examination of reported uses of sulfites compiled from the following sources: the 1982 proposal and comments on it received by FDA; the 1977 NAS survey on the use of food additives; and the Panel's report (Refs. 1, 5, and 6, respectively). To determine the appropriate limitations, the agency examined available data on sulfite residue levels in each relevant finished food product. The agency then specified a level for each limitation that represents the maximum level of sulfites for each use consistent with: (1) current good manufacturing practice (CGMP) and (2) the range of levels that have been reported for given food products.

Establishing a specific limitation, of course, does not mean that food processors necessarily ought to use the maximum allowed amounts in their particular applications. Although most of the specific limitations set forth in proposed § 184.1861(c) encompass the range of reported use levels of sulfites under CGMP for each food category, food processors should use no more sulfite than is necessary to accomplish the intended technical effect. The agency solicits comments from all interested parties on the appropriateness of any of the specific limitations on sulfite residue levels set forth in the proposed regulation.

The following examples are representative of the agency's reasoning for establishing certain sulfur dioxide equivalent levels for the various food categories in proposed § 184.1861(c).

To establish limitations for sulfites in wine, the agency has relied primarily on BATF Notice Number 543 (49 FR 37527) (Ref. 53). In that notice, BATF proposed that all wines having a total sugar content of 5 or more grams per 100 milliliters may contain up to 275 ppm of sulfites expressed as sulfur dioxide equivalents.

For tea, the agency is aware from previously submitted data that some exceedingly high levels of sulfites (residue levels of over 1,000 ppm) have been reported in certain tea and tea products. Most comments regarding the use of sulfites in tea, however, reported considerably lower levels, not exceeding 90 ppm. The agency believes, based on the evidence available to it, that a limitation of 90 ppm on tea is appropriate.

For fried fruit, the agency is aware that levels of sulfite use vary greatly. The agency is aware of reports of levels of sulfites added to apricots ranging from 2,000 to 3,500 ppm and residual levels of sulfites in apricots ranging from 1,000 to 1,750 ppm (Ref. 6, p. 14). The agency believes, on the basis of information received from the industry, that an overall level of 2,000 ppm for dried fruits is adequate, even for uses such as in dried apricots, because this level reflects what the agency believes has traditionally been the highest use level of sulfites in dried fruit (Refs. 5 and 6). In fact, the United Nations Food and Agriculture Organization and the World Health Organization Joint FAO/WHO Food Standards Programme, under the Codex Alimentarius Commission, prescribed a level of 2,000 ppm for dried apricots (Ref. 54). Other uses of sulfiting agents in the production of dried fruit, for example in the production of raisins, require sulfite residues of less than 2,000 ppm (Refs. 5 and 6).

The agency is including dehydrated, canned, and frozen potatoes in § 184.1861(c) even though in the rulemaking on sulfites and potatoes, the agency is inquiring about the safety of these uses. These actions are not inconsistent because in § 184.1861(c), the agency is proposing to establish specific limitations that restrict the GRAS affirmation of these uses to those situations in which the sulfites are used at the appropriate levels, and in which the presence of the sulfites is declared on the label of the food. In the other rulemaking (52 FR 46968), FDA is inquiring about the use of sulfites in or on canned, dehydrated, or frozen potatoes when the food is intended to be served or sold unpackaged and unlabeled to consumers.

2. Labeling as a Specific Limitation

Under section 409(c)(1) of the act (21 U.S.C. 348(c)(1)), FDA is authorized, in approving the use of a food additive, to list the conditions under which the additive may be safely used. These conditions may include any labeling requirements that the agency deems necessary to assure the safe use of the additive.

Similarly, under 21 CFR 184.1(b)(2), in affirming a substance as GRAS, FDA is authorized to set forth, by means of specific limitations, the particular conditions, including labeling, under which there is general recognition among qualified experts that use of the substance is safe. After careful review of the evidence on the use of sulfiting agents, FDA has tentatively concluded that the use of these ingredients is GRAS only (except in the restaurant-type setting) when the conditions of their use includes a declaration on the label or labeling of the presence of the sulfiting agents in the food.

The agency believes that package labeling, the banning of the use of sulfiting agents on fresh fruits and vegetables, and the action that FDA is proposing with regard to "fresh" potatoes (52 FR 46968) will remedy the conditions that have produced most of the allergic-type reactions to sulfites in restaurant settings. Thus, the agency believes that there is no basis to find that unlabeled use of products containing sulfites in restaurant settings is not GRAS. However, FDA invites comments on this issue.

The basis for FDA's tentative conclusion is provided by the data that have been discussed in this document. FDA has received numerous reports of sulfite-sensitive individuals who have

suffered allergic-type reactions because they ate foods that they did not realize were sulfited. The best way to prevent reactions of this type is to advise the consumer of the presence of the sulfites. If such information is provided in the label or labeling, sulfite-sensitive individuals will be able to avoid foods that contain these ingredients.

In recognition of the importance of such information, FDA is proposing to establish as a specific limitation in § 184.1861(c) that for the use of sulfiting agents in foods in bulk containers or in packaged foods to be GRAS, the presence of these ingredients must be declared on the label or labeling of those foods. As noted earlier, the requirement concerning the ingredient labeling of bulk foods is not a new requirement. The inclusion of this requirement in § 184.1861(c) simply emphasizes an existing requirement (see 21 CFR 101.22(e) and 101.100(a)(2)).

If the agency adopts the specific limitations that it has proposed, sulfites must be used in accordance with these limitations, or their addition to food will be considered by FDA to constitute the use of an unapproved food additive (see 21 CFR 184.1(b)(2)).

B. Claims of Prior Sanctions

The agency has received several submissions claiming that sulfites were used in specific foods in accordance with a sanction or approval granted before September 6, 1958, and that those uses are "prior sanctioned." The submissions include the GMA report, the citizen petition for the recognition of a prior sanction for the use of sulfites in maraschino cherries and glacé fruits from the Maraschino Cherry and Glacé Fruit Processors Association, and the citizen petition for the recognition of a prior sanction for the use of sulfites in beer and other malt beverages from the Beer Institute.

The agency has reviewed these submissions and has the following responses:

1. Claims for Glacé Fruit and Maraschino Cherries

The petition for maraschino cherries and glacé fruit (FAP 6CP3941) presented arguments that these products are covered by both an explicit and a general prior sanction. The petition stated that sulfur dioxide has been used to produce maraschino cherries since 1923. In addition, the petition cited numerous actions that it claimed evidenced that this use had been sanctioned by the government. In 1934, USDA promulgated a grade standard for "sulfured cherries", which were defined as cherries prepared in a solution of sulfur dioxide. In 1938, an FDA letter acknowledged that sulfites could be used to prepare brine cherries. No specific limits were listed. In 1942, FDA issued a standard of identity for fruit cocktail that permitted the inclusion of maraschino cherries. In 1943, FDA expressly approved the use of sulfur dioxide and sulfurous acid in preserving citrus foods. In a number of other letters before 1958, FDA officials acknowledged that sulfites could be used in processing cherries and other fruits. No specific limitations were listed for any of these processes.

Because no specific limits were listed in any of the correspondence submitted in the petition, the agency concludes that this use of sulfiting agents was consistent with current good manufacturing practices. A 1941 document submitted with the petition stated that residual levels of sulfites in the finished product was usually in the range of 15 to 20 ppm, and that an absolute maximum would be 50 ppm in the finished cherry (FAP 6CP3941, p. 124). Additionally, a 1983 letter submitted with the petition described a survey in which analysis of 39 samples of maraschino cherries showed that 29 samples contained less than 10 ppm sulfur dioxide. Nine samples contained sulfur dioxide levels ranging from 61 to 141 ppm, and one sample contained 203 ppm sulfur dioxide (FAP 6CP3941, p. 93). Also, this letter stated that the State of Pennsylvania has a regulation prohibiting more than 150 ppm sulfur dioxide in maraschino cherries (FAP 6CP3941, p. 92).

FDA has reviewed this petition and tentatively accepts that the use of sulfiting agents on maraschino cherries and glacé fruit is covered by a prior sanction. However, consistent with its tentative determination that this use is GRAS, the agency will include this use in § 184.1861 with specific limitations.

The petitioners for maraschino cherries provided evidence that the typical residual level of sulfites in maraschino cherries is approximately 50 ppm in the finished product. This level is lower than the level of 150 ppm reported to NAS in the 1977 Survey of Industry on the Use of Food Additives (Ref. 5). The level reported to NAS reflects a plausible upper limit to a range of possible uses, depending upon the needs of the food processor. The agency is proposing that this level of 150 ppm sulfur dioxide equivalents in finished maraschino cherries be the maximum residual level allowed in that food because that level encompasses a range of food-processing practices that are consistent with current good manufacturing practice for sulfiting maraschino cherries and glacé fruits. Because the level of 150 ppm sulfur dioxide equivalent exceeds the typical level claimed as a prior-sanctioned use in the citizen petition, the agency believes that it would serve no useful purpose to amend 21 CFR Part 181 to document a prior-sanctioned use at a lower level. The agency therefore tentatively rejects the petitioner's request to amend 21 CFR Part 181 to include a prior sanction for the use of sulfites in maraschino cherries or glacé fruits.

2. Claims for Beer

The petition from the Beer Institute (FAP 6CP3960) contained copies of several letters and memoranda from FDA dated before 1958 that gave explicit approval for the use of sulfiting agents in beer. In several of these documents a residual maximum limit of 25 ppm was stated.

The agency has reviewed this submission and tentatively concludes that the use of sulfites in beer is covered by a prior sanction. The agency also finds that there is an appropriate basis to conclude that this use is GRAS. Moreover, the reviews by two expert groups (Refs. 2 and 6) indicate that a consensus continues to exist that the use of sulfites in beer is GRAS. Therefore, FDA has tentatively decided not to amend 21 CFR Part 181 to reflect a prior sanction for the use of sulfites in beer. Instead, FDA is listing this use in the proposed GRAS affirmation regulation.

Based on information obtained from the brewing industry and from BATF, FDA believes that a specific limitation of 25 ppm sulfur dioxide equivalents in beer adequately represents current good manufacturing practice for virtually all commercially brewed beers. It is true that some recent data from a BATF survey of beers indicate that most beers contain no more than 15 ppm sulfur dioxide equivalents (Ref. 55). However, in view of the apparent prior sanction for the use of sulfites in beer at 25 ppm sulfur dioxide equivalents, the agency has tentatively concluded that it would not be appropriate to adopt the 15 ppm level. The agency welcomes comments and data from interested parties concerning appropriate levels of sulfur dioxide equivalents in beer.

3. The GMA Report

The agency has also reviewed the report from GMA that provides documentation of specific claimed prior sanctions for the use of sulfites in food.

GMA's argument in support of a general prior sanction for the use of

sulfites in foods is based essentially on the following:

(1) In 1908, FDA issued Food Inspection Decision (FID) 89, which authorized the use of sulfites in foods in ordinary quantities to achieve their functional effect.

(2) In 1940, in a letter to industry, FDA stated that it was still being guided by FID 89 with respect to food uses of sulfites.

(3) In correspondence before 1958, FDA sanctioned the use of sulfites in foods. In some of these letters, FDA expressed limitations on the use of sulfites in food. These limitations were generally that: (i) Sulfites could not be used in foods that were good sources of vitamin B_1; (ii) sulfites could not be used in standardized foods where the standard did not provide for the use of sulfites; and (iii) sulfites could not be used in meat, because they concealed damage or inferiority.

(4) In correspondence before 1958, FDA also explicitly sanctioned specific uses of sulfites in specific categories of food, including dehydrated potato products; precut peeled potatoes; bakery products; beer and malt beverage; "beverages" in general; cherries; citrus foods; coconut; corn products; dehydrated fruits and vegetables; fresh fruits and vegetables; gelatin; molasses; mushrooms; onion and garlic products; pickles and pickled vegetables; sauerkraut and horseradish; shrimp; soft drinks; syrups; and wine and wine vinegar, and as a dough conditioner.

The agency recognizes that the use of sulfites in many foods predates 1958, and that the use of one or more of the sulfiting agents in many food categories may be the subject of a prior sanction. The agency has become aware, however, that certain uses of sulfites in some foods (for example, in fresh fruits and vegetables) may render the food injurious to health and cause the food to be adulterated under section 402(a)(1) of the act (Refs. 9a and 9b). Because some uses have been found to be unsafe under section 402(a)(1) of the act, a general prior sanction, as might be implied from some FDA correspondence before 1958, is not consistent with the safe use of these ingredients (see 21 CFR 181.5(c)). Therefore, FDA is proposing herein to revoke any such general prior sanction.

Having tentatively concluded that any general prior sanction that may have existed should revoked, the agency turns to specific prior sanction claims made by GMA. The agency will address each claim on a case-by-case basis. Moreover, FDA requests that any other claims of prior sanctions for specific uses of sulfites in food be brought to its attention as comments on this proposal. The agency will consider these claimed prior sanctions based on the available evidence.

The agency compared the uses and limitations that it has tentatively concluded can be affirmed as GRAS to the uses and levels that GMA has claimed are prior-sanctioned. FDA is proposing to affirm as GRAS, at use levels equal to or greater than those in the GMA report, many of the uses of sulfites that are the subject of GMA's claims. These uses include the use of sulfites on bakery products, beer and malt beveages, certain cherries, citrus foods, coconut, corn products, most dehydrated fruits and vegetables, gelatin, molasses, onion and garlic products, shrimp, syrups, and wine vinegar and the use of sulfites as a dough conditioner. For these uses, the agency believes that there is no need to determine whether there is a prior sanction and no reason to promulgate separate, redundant regulations under 21 CFR Part 181.

GMA also presented evidence for the use before 1958 of sulfites in "beverages" and "soft drinks." In 1940, FDA issued a letter that stated that sulfur dioxide could be used in beverages at a level of up to a "few hundred parts per million." Additionally, in other publications and letters dated before 1958, FDA stated that sulfites may be used with no specific limits in carbonated beverages and beverages. In 1963, FDA proposed a standard of identity for soda water that permitted the use of sulfites as optional ingredients. This standard was codified in 1966 (21 CFR 31.1(b)(10)). This standard was revised in 1975 (40 FR 26267; June 23, 1975). Since that revision, the soda water standard (now 21 CFR 165.175) does not specifically list sulfites but provides for the optional use of any safe and suitable ingredient.

The agency has reviewed this evidence and acknowledges that a prior sanction exists for the use of sulfites in soft drinks. However, FDA has no information that U.S. soft drink manufacturers intentionally add sulfites to such beverages. Therefore, the agency is taking no action on this prior sanction at the present time. Instead, the agency solicits comments from interested parties concerning this use of sulfiting agents. The agency is particularly interested in the amounts of sulfites used. Based on the information that is submitted, the agency will decide if this use should be GRAS or codified in 21 CFR Part 181.

The GMA report lists as prior sanctioned the use of sulfites in maraschino cherries at 300 ppm. GMA has not presented evidence of explicit approval of such use by the agency (see 21 CFR 181.5(a)). Rather, it has inferred a sanction based on an industry-prepared memorandum of a meeting with an FDA official. The agency tentatively concludes that this evidence does not provide an adequate basis on which to establish a prior sanction.

The citizen petition from the Maraschino Cherry and Glace Fruit Processors Association provides more extensive and direct documentation of FDA's historical approach to industry practices regarding the production of maraschino cherries. That petition, as stated above, claims that the usual residual sulfite level in maraschino cherries is approximately 50 ppm in the finished product. The limitation for maraschino cherries that FDA is proposing in § 184.1861 is 150 ppm and encompasses the likely range of sulfite levels under current good manufacturing practice for such cherries.

Neither the Panel report nor the 1977 NAS survey reveals any use of sulfites in dairy products. Additionally, there appear to be no data to indicate that sulfites are currently being used on any dairy products. However, in its report, GMA claims that before 1958, the agency permitted use of sulfites in cheese and other dairy products. GMA cites a 1947 letter from FDA to a major producer of cheese products regarding the use of sulfur dioxide in food, an FDA file note in 1957 that stated "sodium metabisulfite entirely safe, cheese," and a letter to the Ohio State Department of Agriculture in which FDA stated that "sodium bisulfite is not considered to be directly harmful in such amounts as are generally used in foods."

The agency has reviewed this evidence. Nowhere in the two letters did the agency state that the use of sulfites is safe for use in dairy products. The agency is of the opinion that these letters were nothing more than responses to general letters of inquiry relating to sulfites. As such, these letters do not constitute a prior sanction.

With regards to the statement in the FDA file note, the agency does not believe that this file note can be construed as the type of "sanction or approval" that would provide the basis for the finding of a prior sanction because it does not represent an explicit statement of agency approval. Therefore, FDA tentatively concludes that there is no basis for finding a prior sanction for the use of sulfites in dairy products.

In support for its claim of a prior sanction for the use of sulfites in pickles and pickled vegetables, GMA cited a 1938 letter from FDA to industry that

stated in part: "* * * relative to the use of sulphur dioxide as a preservative for pickles and similar products, our law enforcement activities have not included technological investigations along such lines." A 1953 letter from FDA to industry sanctioned the use of sulfites in pickled vegetables at no more "than 300 parts per million in the finished article" (Ref. 56). The vegetables to be pickled were not specified.

In a 1945 letter from FDA to industry, the use of sulfur dioxide in horseradish and sauerkraut was addressed. Also, in a 1953 letter from FDA, the agency stated: "We are not in a position to object to the use of sulphur dioxide in small quantities in sauerkraut, provided its presence is declared on the labeling as a preservative." In both of these letters the agency cautioned that FDA discourages the use of preservatives in the manufacture of any food product when current good manufacturing practices would eliminate the need for the use of such ingredients.

The agency acknowledges that a prior sanction exists for the use of sulfites in pickled vegetables on the basis of the 1953 letters and the 1945 letter cited above. However, the agency finds that the 1938 letter cited above does not constitute an appropriate basis for a prior sanction for the use of sulfites in pickled vegetables because the agency was not sanctioning this use in this letter, and because this letter was issued before the effective date of the act.

However, rather than promulgate a prior-sanctioned regulation for the use of sulfites in pickled vegetables, the agency is proposing to codify this use as GRAS in 21 CFR Part 184 in accordance with 21 CFR 184.1(b)(2). Also, the agency is proposing to affirm this use as GRAS at a level lower than the 300 ppm sanctioned in a 1953 letter from FDA because the agency finds that the 300 ppm level of sulfites no longer reflects current good manufacturing practice.

The Panel, using data from the 1977 NAS survey of industry on the use of food additives, reported levels of sulfite addition of 30 ppm to pickles and relishes. The 1977 NAS survey data are the only recent data available on the use of sulfites on such foods. When the agency sanctioned a level of no more than 300 ppm sulfites in the finished article, it was approving a level that reflected then-current good manufacturing practice. However, as manufacturing conditions have improved, the CGMP level for sulfites has decreased steadily. Because present day industry practices result in much lower residual levels of sulfites (30 ppm) than the claimed prior-sanctioned level of 300 ppm, the agency believes that in spite of the evidence supplied by GMA for a prior sanction, the level consistent with GRAS status for this use of sulfites should be set at 30 ppm. Although the agency is proposing to establish a specific limitation of 30 ppm for the use of sulfites on pickles and relishes (including horseradish and pickled vegetables such as sauerkraut), it will consider new data from industry on current good manufacturing practices and other data and information to determine on a case-by-case basis appropriate levels applicable to such uses of sulfiting agents if such data are submitted.

The GMA report cites levels of up to 350 ppm of sulfites in wine as a prior-sanctioned use. The agency tentatively concludes that the evidence supplied in the GMA report does not demonstrate that a prior sanction exists for this use. Three exhibits supplied by GMA contain references to the Alcohol Tax Unit regulations (27 CFR 4.22(b)(1)) of the Bureau of Alcohol, Tobacco and Firearms of the U.S. Department of the Treasury. These references are insufficient to serve as a basis for a prior sanction because section 201(s)(4) of the act says that the use for which a prior sanction is claimed must be "in accordance with a sanction or approval * * * pursuant to this Act, the Poultry Products Inspection Act * * * or the Meat Inspection Act * * *." Treasury Department statutes are not included. The only reference to 350 ppm of sulfites in wine by FDA is contained in an agency document dated September 12, 1938, before the current act became effective on June 25, 1939. Thus, the agency document does not constitute a sanction under section 201(s)(4). Therefore, the agency is tentatively denying GMA's assertion that a valid prior sanction exists for the use of sulfites in wine at 350 ppm.

In the present rulemaking, as explained above, the agency is proposing to set a specific limitation of 275 ppm on sulfites in wine. This level is the same as that proposed by BATF in Notice 543 (49 FR 37527) (Ref. 53). BATF is currently receiving comments on its proposal and is compiling data on the actual levels of sulfites in many brands of commercially available wines. Most of the levels reported thus far are at or below the level of 275 ppm. Thus, the agency tentatively concludes that 275 ppm for sulfites in wine is the appropriate level. The agency will, however, consider industry data on current good manufacturing practices and other data and information to determine levels applicable to such use of sulfiting agents.

VIII. Requests for Comments

Interested persons may, on or before February 17, 1989, submit to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, written comments regarding this proposal. Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday. In addition to requesting comments concerning the proposal in its entirety, the agency also solicits comments on the economic impact of the proposed action.

IX. References

The following references have been placed on display in the Dockets Management Branch and may be seen by interested persons between 9 a.m. and 4 p.m., Monday through Friday.

X. Economic Impact

FDA has examined the potential economic consequences of this GRAS affirmation regulation in accordance with the Regulatory Flexibility Act and has determined that this regulation will permit most current known uses of sulfiting agents at current use levels. (These uses do not include the use of sulfiting agents on fresh fruits and vegetables intended to be served raw or sold raw to consumers and on "fresh" potatoes served or sold unpackaged and unlabeled to consumers. FDA has considered the economic impact of not

affirming these as GRAS in those rulemakings.)

There may arise a cost to some firms whose products do not meet the specific limitations for sulfites. FDA has received information that some products, especially certain dried fruits, may in some cases be produced with residual sulfite levels in excess of the levels proposed in this document. Although FDA does not have an estimate of the cost that may be associated with reducing these residual sulfite levels, it is aware that dried fruits and other affected products produced according to current good manufacturing practices consistently show residual sulfite levels, well within the ranges proposed in this document. In the absence of any data indicating otherwise, the agency concludes that all manufacturers are capable of producing these products with residual sulfite levels within the levels specified in this proposal, and that any additional costs will be minimal.

In addition, there are a few uses that the agency cannot affirm as GRAS because the agency was unaware of these uses until recently, and, consequently, they were not reviewed or evaluated by either the FASEB Select Committee or the FASEB Ad Hoc Review Panel. These uses include the use of sulfiting agents in home dehydrators and winemaking kits, certain beverages, soft drinks, and dairy products. Although the agency cannot affirm the GRAS status of the use of sulfites in these products based on available information, it is requesting further information regarding these uses. The economic consequences of the agency's decisions regarding the GRAS status of these uses will be evaluated in the final rule.

This proposed regulation will also make clear that as a condition for the GRAS status of the use of sulfites in foods that are presented in unpackaged form in bulk to consumers, the presence of sulfites in those foods must be declared in the labeling or by other appropriate device as required by existing regulations (21 CFR 101.22(e) and 101.100(a)(2)). The most recent U.S. Department of Agriculture estimate indicates that there are approximately 240,000 food stores in the United States. Only a portion of these retail food outlets sell sulfited, unpackaged, bulk food to consumers and would, therefore, be affected by this labeling requirement.

In addition, the labeling may be in the form of a counter sign or card which should pose minimal incremental cost to affected retail food outlets.

In accordance with section 605(b) of the Regulatory Flexibility Act, the agency has considered the effect that this proposed rule, if promulgated, will have on small businesses and has concluded that the regulation will result in a minimal impact on any one firm. Therefore, the agency certifies that no significant impact on a substantial number of entities will be caused by this action.

Furthermore, in accordance with Executive Order 12291, the agency has analyzed the potential economic effects of this regulation and has determined that the rule, if promulgated, is not a major rule as defined by that Order.

The agency, however, solicits comments on the economic impact of the proposed action.

XI. Environmental Impact

The agency has determined under 21 CFR 25.24(b)(7) that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an invironmental assessment nor an environmental impact statement is required.

List of Subjects

21 CFR Part 182

Food ingredients, Food packaging, Spices and flavorings.

21 CFR Part 184

Food ingredients.

Therefore, under the Federal Food, Drug, and Cosmetic Act, it is proposed that Parts 182 and 184 be amended as follows:

PART 182—SUBSTANCES GENERALLY RECOGNIZED AS SAFE

1. The authority citation for 21 CFR Part 182 continues to read as follows:

Authority: Secs. 201(s), 402, 409, 701, 52 Stat. 1046–1047 as amended, 1055–1056 as amended, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 342, 348, 371); 21 CFR 5.10, 5.61.

§§ 182.3616, 182.3637, 182.3739, 182.3766, 182.3798 and 182.3862 [Removed]

2. Part 182 is amended by removing § 182.3616 *Potassium bisulfite,* § 182.3637 *Potassium metabisulfite,* § 182.3739 *Sodium bisulfite,* § 182.3766 *Sodium metabisulfite,* § 182.3798 *Sodium sulfite,* and § 182.3862 *Sulfur dioxide* from Subpart D.

PART 184—DIRECT FOOD SUBSTANCES AFFIRMED AS GENERALLY RECOGNIZED AS SAFE

3. The authority citation for 21 CFR Part 184 continues to read as follows:

Authority: Secs. 201(s), 402, 409, 701, 52 Stat. 1046–1047 as amended, 1055–1056 as amended, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 342, 348, 371); 21 CFR 5.10, 5.61.

4. New § 184.1861 is added to Subpart B to read as follows:

§ 184.1861 Sulfiting agents.

(a) Sulfiting agents are sulfur dioxide (SO_2, CAS Reg. No. 7446–09–5), sodium sulfite (Na_2SO_3, CAS Reg. No. 7757–83–7), sodium metabisulfite ($Na_2S_2O_5$, CAS Reg. No. 7681–03–7), anhydrous sodium bisulfite (which is a mixture of sodium bisulfite ($NaHSO_3$ (CAS Reg. No. 7631–90–5)) and $Na_2S_2O_5$.), potassium metabisulfite ($K_2S_2O_5$, CAS Reg. No. 16731–55–8), and anhydrous potassium bisulfite (which is a mixture of potassium bisulfite ($KHSO_3$ (CAS Reg. No. 7773–03–7)) and $K_2S_2O_5$.).

(b) Sulfur dioxide, sodium sulfite, sodium metabisulfite, anhydrous sodium bisulfite, and anhydrous potassium metabisulfite meet the specifications of the Food Chemicals Codex, 3d Ed. (1981), pp. 316, 303, 289, 279, and 247, respectively, which is incorporated by reference in accordance with 5 U.S.C. 552(a). Copies may be obtained from the National Academy Press, 2101 Constitution Ave. NW., Washington, DC 20418, or are available for inspection at the Office of the Federal Register, 1100 L St. NW., Washington, DC. FDA is developing food-grade specifications for anhydrous potassium bisulfite in cooperation with the Food Chemicals Codex Committee of the National Academy of Sciences. In the interim, the ingredient must be of a purity suitable for its intended use.

(c) In accordance with § 184.1(b)(2), the ingredients are used as antimicrobial agents, antioxidants, and bleaching agents to treat food only within the following specific limitations:

(1) The ingredients may be used only in the following food categories at the following maximum residual sulfur dioxide equivalent levels:

Category of food	Maximum residual sulfur dioxide equivalent level [1]
Baked goods, § 170.3(n)(1) of this chapter	30 ppm.
Beer, § 170.3(n)(2) of this chapter.	25 ppm.
Wine, § 170.3(n)(2) of this chapter.	275 ppm.
Tea, § 170.3(n)(7) of this chapter.	90 ppm.
Condiments and relishes, § 170.3(n)(8) of this chapter.	30 ppm.
Vinegar, § 170.3(n)(8) and (26) of this chapter.	75 ppm.
Dairy product analogs, § 170.3(n)(10) of this chapter.	200 ppm.
Processed seafood products, other than dried or frozen, § 170.3(n)(13) of this chapter.	25 ppm.

Category of food	Maximum residual sulfur dioxide equivalent level [1]
Dried fish, § 170.3(n)(13) of this chapter.	200 ppm.
Shrimp, fresh and frozen, § 170.3(n)(15) of this chapter.	100 ppm.
Lobster, frozen, § 170.3(n)(15) of this chapter.	100 ppm.
Gelatin, § 170.3(n)(22) of this chapter.	40 ppm.
Grain products, § 170.3(n)(23) of this chapter.	200 ppm.
Gravies and sauces, § 170.3(n)(24) of this chapter.	75 ppm.
Jams and jellies, § 170.3(n)(28) of this chapter.	30 ppm.
Nut products, § 170.3(n)(32) of this chapter.	25 ppm.
Plant protein isolates, § 170.3(n)(33) of this chapter.	110 ppm.
Dried fruit, § 170.3(n)(35) of this chapter.	2,000 ppm.
Fruit juices, § 170.3(n)(35) of this chapter.	1,000 ppm in concentrates. 300 ppm in regular strength juices.
Glacé fruit, § 170.3(n)(35) of this chapter.	150 ppm.
Maraschino cherries, § 170.3(n)(35) of this chapter.	150 ppm.
Dehydrated vegetables § 170.3(n)(36) of this chapter.	200 ppm.
Dehydrated potatoes, § 170.3(n)(36) of this chapter.	500 ppm.
Vegetables, canned, § 170.3(n)(36) of this chapter.	30 ppm.
Frozen potatoes, § 170.3(n)(36) of this chapter.	50 ppm.
Vegetable juice, § 170.3(n)(36) of this chapter.	100 ppm.
Filled crackers, § 170.3(n)(37) of this chapter.	75 ppm.
Soup mixes, § 170.3(n)(40) of this chapter.	20 ppm in dry mix.
Sugar, § 170.3(n)(41) of this chapter.	20 ppm.
Sweet sauces and syrups, § 170.3(n)(43) of this chapter.	60 ppm.
Molasses, § 170.3(n)(43) of this chapter.	300 ppm.

[1] Residues in the finished food products are to be determined by sections 20.123 through 20.125 "Total Sulfurous Acid," in the "Association of Official Analytical Chemists," 14th Ed. (1984), which is incorporated by reference in accordance with 5 U.S.C 552(a), and the refinements of the "Total Sulfurous Acid" procedure in "Monier-Williams Procedure (with Modifications) for Sulfites in Food," November 1985. This procedure is Appendix A to Part 101 of this chapter.

(2) For sulfited foods that are received in bulk containers and not in package form, including all foods for which a definition and standard of identity have been prescribed by regulation, the use of sulfite in such foods shall be declared to the purchaser either (i) in the labeling of the bulk container plainly in view or (ii) in a counter sign, card, or other appropriate device bearing the information that the product has been treated with sulfites.

(3) For sulfited foods in packaged form, including all foods for which a definition and standard of identity have been prescribed by regulation, the use of sulfite in such food shall be declared on the label.

(d) The ingredients are not generally recognized as safe for use: (1) in meats; (2) in food recognized as a source of vitamin B_1; and (3) on fruits or vegetables intended to be served raw to consumers or sold raw to consumers, or to be presented to the consumer as fresh.

Frank E. Young,

Commissioner of Food and Drugs.

Otis R. Bowen,

Secretary of Health and Human Services.

Dated: August 22, 1988.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 36

[Docket No. 23340; Amdt. 36-15]

Standards Governing the Noise Certification of Aircraft; Correction

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; correction.

SUMMARY: In the May 6, 1988, issue of the **Federal Register** (53 FR 16359), the FAA published a final rule which revised certain provisions of the regulations prescribing requirements for aircraft noise certification. The final rule omitted part of the technical specifications to be adopted in the amendment to Part 36.

EFFECTIVE DATE: May 6, 1988.

FOR FURTHER INFORMATION CONTACT: Mr. Steven R. Albersheim (202) 267-3560.

SUPPLEMENTARY INFORMATION:

Background

Since its adoption in November 1969, FAR, Part 36, serves as the basis for certificating aircraft to prescribed noise standards and it includes precise instructions concerning the acquisition, processing, and documentation of noise data from aircraft. Part 36 has been amended several times to reflect changes in aircraft design and technology and the ability to measure aircraft noise levels more precisely. The most recent amendment to Part 36 published in the **Federal Register** (53 FR 16359) revised the definition of acoustical change for turbojets, weight limits for certification, and technical specifications noise measurement equipment. As stated in the final rule (53 FR 16363), the FAA agreed to adopt the International Civil Aviation Organization (ICAO) standard for microphone specifications to avoid any disparity between U.S. and ICAO specifications. In issuing the amendment to Part 36, part of the revised microphone technical specification was inadvertently omitted and must now be included in Part 36 to make it consistent with ICAO. The omission is corrected by this notice.

Dated: December 14, 1988.

Donald P. Byrne,

Deputy Assistant Chief Counsel, Regulations and Enforcement Division, Office of the Chief Counsel.

The following correction is made in Amendment No. 36-15, Standards Governing the Noise Certification of Aircraft; Appendix A—Aircraft Noise Measurement Under § 36.101, Section A36.3—Measurement of aircraft noise received on the ground, published in the **Federal Register** on May 6, 1988 (53 FR 16359).

1. In Appendix A, paragraph (c)(2) of section A36.3 on page 16367, column 2, is correctly amended by revising paragraphs (i) and (ii), by redesignating paragraphs (iii) and (iv) as (iv) and (v), and by adding a new paragraph (iii) to read as follows:

* * * * *

(c) * * *

(2) The microphone must be a pressure sensitive capacitive type, or its approved equivalent, such as free field type with incidence corrector.

(i) After an adequate "warm-up" period, at least as long as that specified by the equipment manufacturer, the system output for constant acoustical input shall change by not more than 0.3 dB within any one hour nor by more than 0.4 dB within 5 hours.

(ii) The variation of microphone and preamplifier system sensitivity within an angle of ±30 degrees of grazing (60–120 degrees from the normal to the diaphragm) must not exceed the following values:

Frequency (HZ)	Change in sensitivity (dB)
45 to 1,120	1.0
1,120 to 2,240	1.5
2,240 to 4,500	2.5
4,500 to 7,100	4.0
7,100 to 11,200	5.0

With the wind screen in place, the variation in sensitivity in the plane of the diaphragm of the microphone system shall not exceed 1.0 dB over the frequency range 45 to 11,200 Hz.

(iii) The free-field frequency response of the microphone system at the reference incidence direction shall lie within an envelope having the following values:

Frequency (HZ)	Change in Tolerance (dB)
45 to 4,500	±1.0
4,500 to 5,600	±1.5
5,600 to 7,100	+1.5 to −2.0
7,100 to 9,000	+1.5 to −3.0
9,000 to 11,200	+2.0 to −4.0

Note: The requirements of this paragraph may be determined by a pressure response calibration (which may be obtained from an electrostatic calibrator in combination with manufacturer provided corrections) or an anechoic free-field facility.

(iv) * * *

(v) * * *

2. **Note:** Paragraphs (d)(2), (d)(5), (d)(6), and (e)(7) are revised as described on page 16367.

LIST OF PUBLIC LAWS

Note: The list of public laws enacted during the second session of the 100th Congress has been completed.

Last List November 30, 1988

The list will be resumed when bills are enacted into public law during the first session of the 101st Congress, which convenes on January 3, 1989. It may be used in conjunction with "P L U S" (Public Laws Update Service) on 523–6641. The text of laws is not published in the **Federal Register** but may be ordered in individual pamphlet form (referred to as "slip laws") from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 (phone 202–275–3030).

CFR CHECKLIST

This checklist, prepared by the Office of the Federal Register, is published weekly. It is arranged in the order of CFR titles, prices, and revision dates.

An asterisk (*) precedes each entry that has been issued since last week and which is now available for sale at the Government Printing Office.115New units issued during the week are announced on the back cover of the daily **Federal Register** as they become available.

A checklist of current CFR volumes comprising a complete CFR set, also appears in the latest issue of the LSA (List of CFR Sections Affected), which is revised monthly.

The annual rate for subscription to all revised volumes is $595.00 domestic, $148.75 additional for foreign mailing.

Order from Superintendent of Documents, Government Printing Office, Washington, DC 20402. Charge orders (VISA, MasterCard, or GPO Deposit Account) may be telephoned to the GPO order desk at **(202) 783-3238** from 8:00 a.m. to 4:00 p.m. eastern time, Monday—Friday (except holidays).

[1] Because Title 3 is an annual compilation, this volume and all previous volumes should be retained as a permanent reference source.

[2] No amendments to this volume were promulgated during the period Jan. 1, 1987 to Dec. 31, 1987. The CFR volume issued January 1, 1987, should be retained.

[3] No amendments to this volume were promulgated during the period Apr. 1, 1980 to March 31, 1988. The CFR volume issued as of Apr. 1, 1980, should be retained.

[4] The July 1, 1985 edition of 32 CFR Parts 1–189 contains a note only for Parts 1–39 inclusive. For the full text of the Defense Acquisition Regulations in Parts 1–39, consult the three CFR volumes issued as of July 1, 1984, containing those parts.

[5] No amendments to this volume were promulgated during the period July 1, 1986 to June 30, 1988. The CFR volume issued as of July 1, 1986, should be retained.

[6] The July 1, 1985 edition of 41 CFR Chapters 1–100 contains a note only for Chapters 1 to 49 inclusive. For the full text of procurement regulations in Chapters 1 to 49, consult the eleven CFR volumes issued as of July 1, 1984 containing those chapters.

Would you like to know...

if any changes have been made to the Code of Federal Regulations or what documents have been published in the Federal Register without reading the Federal Register every day? If so, you may wish to subscribe to the *LSA (List of CFR Sections Affected)*, the *Federal Register Index*, or both.

LSA • List of CFR Sections Affected

The LSA (List of CFR Sections Affected) is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register. The LSA is issued monthly in cumulative form. Entries indicate the nature of the changes—such as revised, removed, or corrected.
$21.00 per year

Federal Register Index

The index, covering the contents of the daily Federal Register, is issued monthly in cumulative form. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references.
$19.00 per year.

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Note to FR Subscribers
FR Indexes and the LSA (List of CFR Sections Affected) are mailed automatically to regular FR subscribers.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers for $340 per year in paper form; $195 per year in microfiche form; or $37,500 per year for the magnetic tape. Six-month subscriptions are also available at one-half the annual rate. The charge for individual copies in paper or microfiche form is $1.50 for each issue, or $1.50 for each group of pages as actually bound, or $175.00 per magnetic tape. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, or charge to your GPO Deposit Account or VISA or Mastercard.

WHERE:

There are no restrictions on the republication of material appearing in the **Federal Register.**

How To Cite This Publication: Use the volume number and the page number. Example: 53 FR 12345.

THE FEDERAL REGISTER
WHAT IT IS AND HOW TO USE IT

FOR: Any person who uses the Federal Register and Code of Federal Regulations.

WHO: The Office of the Federal Register.

WHAT: Free public briefings (approximately 3 hours) to present:

1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
2. The relationship between the Federal Register and Code of Federal Regulations.
3. The important elements of typical Federal Register documents.
4. An introduction to the finding aids of the FR/CFR system.

WHY: To provide the public with access to information necessary to research Federal agency regulations which directly affect them. There will be no discussion of specific agency regulations.

WASHINGTON, DC

WHEN: January 26, at 9:00 a.m.
WHERE: Office of the Federal Register,
First Floor Conference Room,
1100 L Street NW., Washington, DC
RESERVATIONS: 202–523–5240

LOS ANGELES, CA

WHEN: January 12, at 9:00 a.m.
Room 8544,
Federal Building,
300 N. Los Angeles St.,
Los Angeles, CA
RESERVATIONS: Call the Federal Information Center.

Rules and Regulations

Federal Register
Vol. 53, No. 244
Tuesday, December 20, 1988

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

7 CFR Part 6

Allocations of Sugar Import Quotas; Other Specified Countries or Areas

AGENCY: Office of the Secretary, USDA.

ACTION: Final rule.

SUMMARY: This rule adopts, with a slight change, the interim rule that modified the allocation provisions governing sugar import quotas for those countries or areas which are designated as "Other Specified Countries and Areas" (more commonly known as the "basket category"). The change converts the maximum quota allocated to each country in the basket category from short tons to metric tons. Each such country will now receive an annual quota equal to its pro rata share of the percentage quota for the basket category, or 7,258 metric tons, raw value, whichever is greater.

EFFECTIVE DATE: January 1, 1989.

FOR FURTHER INFORMATION CONTACT: John Nuttall, Foreign Agricultural Service, Department of Agriculture, Washington, DC 20250, Telephone: (202) 447–2916.

SUPPLEMENTARY INFORMATION: This rule involves a foreign affairs function of the United States. Accordingly, the provisions of 5 U.S.C. 553 do not apply and no regulatory flexibility analysis is required under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). This rule has been reviewed under Department of Agriculture procedures required by Executive Order 12291 and Departmental Regulation 1512–1 and has been classified as "not major" since the rule does not have any of the effects specified in those documents.

Presidential Proclamation No. 4941 of May 5, 1982 (47 FR 19661) established a country-by-country quota system for the importation of sugar into the United States. Under the import quota allocation provisions established by the Proclamation, each country was allocated a specific percentage of the quota if that percentage was .7 percent or greater. A specified percentage of the total quota amount was allocated to a group of countries designated as "Other Specified Countries and Areas" (more commonly known as the "basket category"). The total quota allocated to the basket category was pooled and each country competed on a first-come-first-serve basis for the entire allocation.

Proclamation No. 4941 further provided that notwithstanding the allocation provisions set forth in the Proclamation, the Secretary of Agriculture may, after consultation with the U.S. Trade Representative, the Department of State, and the Department of the Treasury, issue regulations modifying the allocation provisions governing "Other Specified Countries and Areas" if the Secretary determines that such modifications are appropriate to provide such countries and areas reasonable access to the United States sugar market.

The Secretary issued such regulations to provide that each country in the basket category would have a specific annual quota equal to its pro rata share of the quota allocated to the basket category, or a fixed amount, whichever was greater (7 CFR 6.90 through 6.93). These regulations were last amended by an interim rule published on July 27, 1988 (53 FR 28180) to increase that fixed amount to 8,000 short tons, raw value.

No comments were received in connection with that interim rule. This final rule adopts that interim rule with a change to reflect that the quota is now expressed in metric tons rather than short tons.

List of Subjects in 7 CFR Part 6

Agricultural commodities, Foreign trade, Imports, Quotas, Sugar.

Accordingly, the interim rule amending 7 CFR Part 6 Subpart-Sugar Import Quotas published at 53 FR 28180 on July 27, 1988, is adopted as a final rule with the following change:

PART 6—[AMENDED]

1. The authority citation for Part 6, Subpart-Sugar Import Quotas, is revised to read as follows:

Authority: Section 201, Trade Expansion Act of 1962 (19 U.S.C. 1821); Presidential Proclamation 4941, May 5, 1982 (47 FR 19661); additional U.S. notes 2 and 3 to Chapter 17 of the Harmonized Tariff Schedule of the United States (19 U.S.C. 1202; 19 U.S.C. 3004).

2. Section 6.91(a)(2) is revised to read as follows:

§ 6.91 Allocation of individual import quotas.

(a) * *

(2) 7,258 metric tons, raw value.

* * * * *

Signed at Washington, D.C. on December 15, 1988.

Peter C. Myers,

Acting Secretary of Agriculture.

[FR Doc. 88–29152 Filed 12–15–88; 4:31 pm]
BILLING CODE 3410–10–M

Agricultural Marketing Service

7 CFR Part 1210

[WRPA Docket No. 1; FV–88–063]

Procedures for the Conduct of Referenda In Connection With the Watermelon Research and Promotion Plan and for Rules of Practice Governing Proceedings on Petitions To Modify or To Be Exempted From Such Plan

AGENCY: Agricultural Marketing Service (USDA).

ACTION: Interim final rule with request for comments.

SUMMARY: The Watermelon Research and Promotion Act [7 U.S.C. 4901–4916] authorizes a program of research and promotion to be developed through the promulgation of a plan. The Administrator recently recommended that a plan be issued. The Secretary's decision is being published in the **Federal Register** concurrently with this interim final rule. To become effective, however, the plan must be approved by watermelon producers and first handlers in a referendum. This rule specifies procedures for the conduct of the initial referendum to determine if producers and handlers favor implementation of the plan. These procedures would also apply to any subsequent referenda to amend, continue, or terminate the proposed plan should it be implemented. This rule also contains rules of practice governing proceedings on petitions to

VOL
53
ISS
244
DE
20
1988
UMI

modify or to be exempted from the proposed plan.

DATES: This interim final rule is effective December 20, 1988. Comments must be received by January 4, 1989.

ADDRESSES: Comments should be sent to: Docket Clerk, U.S. Department of Agriculture, P.O. Box 96456, Room 2085–South, Washington, DC 20090–6456. A copy of comments received will be made available for public inspection at the office of the Docket Clerk during regular business hours. Comments concerning the information and paperwork requirements of these subparts should be sent to Lisa Grove, Office of Information and Regulatory Affairs, Room 3228, Office of Management and Budget, Washington, DC, 20503.

FOR FURTHER INFORMATION CONTACT: Arthur L. Pease, Marketing Order Administration Branch, P.O. Box 96456, Room 2525–South, Washington, DC 20090–6456; telephone (202) 475–3915.

SUPPLEMENTARY INFORMATION: This rule has been reviewed under USDA guidelines implementing Executive Order 12291 and Departmental Regulation 1512–1 and has been designated a "non-major" rule under criteria contained therein.

This action has also been reviewed under the Regulatory Flexibility Act [5 U.S.C. 601 *et seq.*]. The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened.

This rule establishes procedures for the conduct of a referendum to determine whether the proposed Watermelon Research and Promotion Plan should be issued. It permits all eligible producers and handlers of watermelon to vote. Participation in the referendum is voluntary. Votes may be cast in person at county offices of the Extension Service. These procedures would also apply to any subsequent referenda to amend, suspend, or terminate the plan, or any provision thereof, should the proposed plan be implemented.

This rule also establishes rules of practice governing proceedings on petitions to modify, or be exempted from, the proposed Watermelon Research and Promotion Plan. Such petitions may be made by any person subject to the plan and must be based on the belief that the plan, or a provision of the plan, or any obligation imposed in connection with the plan, is not in accordance with law.

The Administrator of the Agricultural Marketing Service (AMS) has determined that this rule will not have a significant economic impact on a substantial number of small entities.

The Watermelon Research and Promotion Act [Title XVI, Subtitle C of Pub. L. 99–198, 99th Congress, effective January 1, 1986, 7 U.S.C. 4901–4916] authorizes the development of nationally coordinated programs of market research and promotion designed to improve the position of watermelons in the marketplace. A public hearing was held on the proposed research and promotion plan in February 1987. Based on the record of the hearing, a recommended decision was issued on March 18, 1988, and published in the **Federal Register** on March 24, 1988 [53 FR 9637]. The period for filing written exceptions to the recommended decision ended May 23, 1988. The Secretary's decision is being published in the **Federal Register** concurrently with this action. The Act requires that a referendum be held to determine whether affected producers and handlers favor the proposed plan.

This rule establishes procedures to be followed by the Department in conducting referenda to determine whether producers and first handlers favor issuance of the proposed Watermelon Research and Promotion Plan. In addition, referenda may be conducted by the Secretary at any time, or at the request of the proposed National Watermelon Promotion Board or 10 percent or more of producers and handlers to determine if producers and handlers favor termination or suspension of the plan. The provisions include sections on definitions, voting, instructions for referendum agents and subagents, ballots, the referendum report and the confidentiality of information.

Persons voting in the referendum would certify their eligibility to vote, and would designate their status as either a watermelon producer or handler. Producers would certify the amount of watermelon acreage they harvested during the representative period of January 1, 1988 through December 31, 1988. Only producers of five or more acres of watermelons during this representative period would be eligible to vote in the referendum. Both producers and handlers would record the hundredweight volume of watermelons they produced or handled during the representative period. These figures would be used to determine the results of the voting based on volume of watermelons produced and handled by those voting.

The vote of a person who both produces and handles watermelons would be counted as a producer vote if that person handles 50 percent or less of that person's own production during the representative period. If the person handles more than 50 percent of that person's own production during the representative period, then that person's vote should be counted as a handler vote. This determination is consistent with testimony provided at the public hearing regarding the Board member nomination process.

In addition, this rule contains rules for proceedings on petitions to modify or be exempted from the proposed plan. Section 1650 of the Act provides that any person subject to the Act may file a written petition with the Secretary stating that the plan or any provision of the plan is not in accordance with law. The person may request a modification of the plan or an exemption from certain provisions or obligations of the plan. The person shall be given an opportunity for a hearing on the petition, in accordance with regulations prescribed by the Secretary.

In compliance with Office of Management and Budget (OMB) regulations (5 CFR Part 1320) which implement the Paperwork Reduction Act of 1980 (44 U.S.C. Chapter 35) and section 3504(h) of that Act, the information and paperwork requirements contained in these subparts have been submitted to OMB for review. It is estimated that a total of as many as 7,000 watermelon producers and handlers would be eligible to vote in the referendum, and that it would take an average of 15 minutes for each producer and handler to complete the ballot questions. Comments concerning these requirements should be directed to Lisa Grove, Office of Information and Regulatory Affairs, Room 3228, Office of Management and Budget, Washington, DC 20503.

The rules of practice governing procedures for the conduct of referenda and the Secretary's decision and referendum order should be issued in advance of the referendum period which is scheduled to begin on February 6, 1989. Such prompt issuance of these actions is necessary because watermelon producers and handlers need to be informed, in advance of the referendum, of the procedures to be used in the referendum and of the terms of the proposed plan. Copies of the Secretary's decision, an order to accomplish the referendum, ballots and referendum instructions need to be printed and mailed in advance of the voting period. In addition, rules of practice governing proceedings on petitions to modify or to be exempted from the plan should be in place if the plan is approved. Therefore, pursuant to

5 U.S.C. 553, it is also found and determined that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice prior to putting this rule into effect and that good cause exists for not postponing the effective date of this action until 30 days after publication in the **Federal Register**. Also, a 15 day comment period is deemed adequate.

For the reasons set forth in the preamble, Part 1210 is established as follows:

Note.—These sections will not appear in the Code of Federal Regulations.

List of Subjects in 7 CFR Part 1210

Watermelon, Agricultural research, Agricultural promotion, Market development.

1. 7 CFR Part 1210, consisting of the subpart—Procedure for the Conduct of Referenda in Connection with the Watermelon Research and Promotion Plan [§§ 1210.200–1210.207], and the Subpart—Rules of Practice Governing Proceedings on Petitions to Modify or to be Exempted from Such Plan [§§ 1210.250–1210.252], is added to read as follows:

PART 1210—WATERMELON RESEARCH AND PROMOTION PLAN

1210.250 Words in the singular form.
1210.251 Definitions.
1210.252 Institution of proceeding.

Authority: 7 U.S.C. 4901–4916.

Subpart—Procedure for the Conduct of Referenda in Connection with the Watermelon Research and Promotion Plan

§ 1210.200 General.

Referenda to determine whether producers and handlers favor issuance, suspension or termination of a Watermelon Research and Promotion Plan shall be conducted in accordance with this subpart.

§ 1210.201 Definitions.

(a) "Act" means the Watermelon Research and Promotion Act, Title XVI, Subtitle C of Pub. L. 99–198, 99th Congress, effective January 1, 1986 (7 U.S.C. 4901–4916).

(b) "Secretary" means the Secretary of Agriculture, or any officer or employee of the Department of Agriculture to whom authority has been delegated or may be delegated, to act in the Secretary's stead.

(c) "Administrator" means the Administrator of the Agricultural Marketing Service, with power to redelegate, or any officer or employee of the Department to whom authority has been delegated or may be delegated to act in the Administrator's stead.

(d) "Plan" means any plan or any amendment of a plan which may be issued pursuant to the Act;

(e) "Referendum agent" means the individual or individuals designated by the Secretary to conduct the referendum.

(f) "Representative period" means the period designated by the Secretary pursuant to section 1653 of the Act.

(g) "Person" means any individual, group of individuals, partnership, corporation, association, cooperative or other entity. For the purposes of this definition, the term "partnership" includes (1) a husband and wife who have title to, or leasehold interest in, land as tenants in common, joint tenants, tenants by the entirety, or, under community property laws, as community property, and (2) so-called "joint ventures," wherein one or more parties to the agreement, informal or otherwise, contributed capital and others contribute labor, management, equipment, or other services, or any variation of such contributions by two or more parties, so that it results in the growing and handling of watermelons for market and the authority to transfer title to the watermelons so produced.

(h) "Producer" means any person, defined as a producer in the plan, who is engaged in the growing of five or more acres of watermelons during a representative period and either:

(1) Owns and farms land, resulting in ownership, by said producer, of the watermelons produced thereon;

(2) Rents and farms land, resulting in ownership, by said producer, of all or a portion of the watermelons produced thereon; or

(3) Owns land which said producer does not farm and, as rental for such land, obtains the ownership of a portion of the watermelons produced thereon.

Ownership of, or leasehold interest in, land and the acquisition, in any manner other than set forth in this subpart, of legal title to the watermelons grown on said land, shall not be deemed to result in such owners or lessees becoming producers. Persons who produce watermelons for non-food uses are not "producers" for the purposes of this subpart.

(i) "Handler" means any person, defined as a handler in the plan, who is engaged in the handling of watermelons during the representative period as the first person peforming a handling function, and either: (1) takes title or possession of watermelons from a producer and directs the grading, packing, transporting and selling of the watermelons in the current of commerce; (2) purchases watermelons wholesale from producers and sells to the retail trade at auction markets or farmers' markets: *Provided,* That harvest crews and common carriers who collect and transport watermelons from the field to a handler, and brokers or commission agents who arrange the sale of but do not take title or possession of watermelon, are not first handlers.

§ 1210.202 Voting.

(a) Each person who is a producer or handler as defined in this subpart, at the time of the referendum and who also was a producer or handler during the representative period, shall be entitled to only one vote in the referendum: *Provided,* That each producer is a landlord-tenant relationship or a divided ownership arrangement involving totally independent entities cooperating only to produce watermelons in which more than one of the parties is a producer, shall be entitled to one vote in the referendum covering only that producer's share of the ownership; and *Provided further,* That the vote of a person who both produces and handles watermelons will be counted as a producer vote if that person handles 50 percent or less of that person's own production during the representative period, and that the vote of a person who both produces and handles watermelons will be counted as a handler vote if that person handles more than 50 percent of that person's own production during the representative period.

(b) Proxy voting is not authorized, but an officer or employee of a corporate producer or handler, or an administrator, executor or trustee of a producing or handling entity may cast a ballot on behalf of such entity. Any individual so voting in a referendum shall certify that that individual is an officer or employee of the producer or handler, or an administrator, executor, or trustee of a producing or handling

entity and that that individual has the authority to take such action. Upon request of the referendum agent, the individual shall submit adequate evidence of such authority.

(c) Each producer or handler shall be entitled to cast only one ballot in the referendum.

§ 1210.203 Instructions.

The referendum agents shall cause a referendum to be conducted, in the manner herein provided, under supervision of the Administrator. The Administrator may prescribe additional instructions and designate subagents, not inconsistent with the provisions hereof, to govern the procedure to be followed by referendum agents. Such agents shall:

(a) Determine the time of commencement and termination of the period of the referendum.

(b) Determine procedures for casting ballots at county offices of the Extension Service.

(c) Give reasonable advance notice of referendum dates.

(d) Provide ballots and related material to be used in the referendum. Ballot material shall provide for recording essential information including that needed for ascertaining:

(1) Whether the persons voting, or on whose behalf the vote is cast, is an eligible voter;

(2) The acreage and volume in hundredweight of watermelons produced by the voting producer during the representative period, and

(3) The volume of watermelons handled by the voting handler during the representative period.

(e) At the conclusion of the referendum, canvass the ballots, tabulate the results, and, except as otherwise directed, report the outcome to the Administrator and submit the following:

(1) All ballots received by agents and subagents, together with a certificate to the effect that the ballots forwarded are all of the ballots cast and received by the referendum agents during the referendum period;

(2) A list of all ballots deemed to be invalid; and

(3) A tabulation of the results of the referendum and report thereon, including a statement explaining the method used in giving publicity to the referendum and showing other information pertinent to the manner in which the referendum was conducted.

§ 1210.204 Subagents.

The referendum agents may appoint, as subagent, any person or persons deemed necessary or desirable to assist the agents in performing the agents' functions. Each person so appointed may be authorized by said agents to perform, in accordance with the requirements herein set forth, any or all of the following functions.

(a) Give reasonable advance notice of the referendum by:

(1) Utilizing, without advertising expense, available media or public information sources (including, but not limited to, press and radio facilities serving the production area) to announce the dates of the referendum, the address of the county office of Extension Service used as the polling place, and the times such office will be open for voting, as well as the methods of voting, the eligibility requirements for voting, and other pertinent information regarding the referendum.

(2) Such other means as said subagents may deem advisable.

(b) Preside as poll officer at the county Extension Service office when ballots are cast.

(c) Make available to producers and handlers the instructions on voting, the appropriate ballot and certification forms, and, except in the case of a referendum on suspension or termination of a plan, a summary of the terms and conditions of the plan: *Provided,* That no person who claims to be eligible to vote shall be refused a ballot.

(d) Collect the completed ballots and provide for appropriate custody of such ballots.

(e) Provide for the delivery of completed ballots to the referendum agents.

§ 1210.205 Ballots.

The referendum agents and subagents shall accept all ballots cast; but should any one of them deem that a ballot should be challenged for any reason, said agent shall write on said ballot a statement to the effect that such ballot was challenged, by whom challenged, the reasons for the challenge, the results of any investigations made with respect to the challenge, and the disposition of the challenge. Invalid ballots shall not be counted.

§ 1210.206 Referendum report.

Except as otherwise directed, the Administrator shall prepare and submit to the Secretary a report on results of the referendum, the manner in which it was conducted, the extent and kind of public notice given, and other information pertinent to the analysis of the referendum and its results.

§ 1201.207 Confidential information.

All ballots cast, the information contained on each ballot (whether or not relating to the identity of any person who voted or the manner in which any person voted), and all other information furnished to, compiled by, or in possession of, referendum agents and subagents shall be treated as confidential.

Subpart—Rules of Practice Governing Proceedings on Petitions To Modify or To Be Exempted From the Watermelon Research and Promotion Plan

§ 1210.250 Words in the singular form.

Words in this subpart in the singular form shall be deemed to import the plural, and vice versa, as the case may demand.

§ 1210.251 Definitions.

As used in this subpart, the terms as defined in the Act shall apply with equal force and effect. In addition, unless the context otherwise requires:

(a) "Act" means the Watermelon Research and Promotion Act, Title XVI, Subtitle C of Pub. L. 99–198, 99th Congress, effective January 1, 1986 [7 U.S.C. 4019–4916];

(b) "Secretary" means the Secretary of Agriculture or any officer or employee of the Department of Agriculture to whom authority has been delegated or may be delegated, to act in the Secretary's stead;

(c) "Administrative law judge" or "judge" means any administrative law judge, appointed pursuant to 5 U.S.C. 3105, and assigned to the proceeding involved;

(d) "Administrator" means the Administrator of the Agricultural Marketing Service, with power to redelegate, or any officer or employee of the Department of Agriculture to whom authority has been delegated or may be delegated, to act in the Administrator's stead;

(e) "Plan" means any plan or any amendment of a plan which may be issued pursuant to the Act;

(f) "Person" means any individual, partnership, corporation, association, or other entity subject to a plan or to whom an order is sought to be made applicable, or on whom an obligation has been imposed or is sought to be imposed under a plan.

(g) "Proceeding" means a proceeding before the Secretary arising under section 1650(a) of the Act;

(h) "Hearing" means that part of the proceedings which involves the submission of evidence;

(i) "Party" includes the Department of Agriculture;

(j) "Hearing clerk" means the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C.;

(k) "Decision" means the judge's report to the Secretary and includes the judge's proposed (1) findings of fact and conclusions with respect to all material issues of fact, law or discretion, as well as the reasons or basis thereof, (2) order, and (3) rulings on findings, conclusions and plans submitted by the parties; and

(l) "Petition" includes an amended petition.

§ 1210.252 Institution of proceeding.

(a) Filing and service petitions. Any person subject to a plan desiring to complain that any plan or any provision of any such plan or any obligation imposed in connection with the plan is not in accordance with law, shall file with the hearing clerk, in quintuplicate, a petition in writing addressed to the Secretary. Promptly upon receipt of the petition in writing the hearing clerk shall transmit a true copy thereof to the Administrator and the General Counsel, respectively.

(b) Contents of petitions. A petition shall contain:

(1) The correct name, address and principal place of business of the petitioner. If the petitioner is a corporation, such fact shall be stated, together with the name of the State of incorporation, the date of incorporation, and the names, addresses, and respective positions held by its officers and directors; if an unincorporated association, the names and addresses of its officers, and the respective positions held by them; if a partnership, the name and address of each partner;

(2) Reference to the specific terms or provisions of the plan, or the interpretation or application of such terms or provisions, which are complained of;

(3) A full statement of the facts (avoiding a mere repetition of detailed evidence) upon which the petition is based, and which it is desired that the Secretary consider, setting forth clearly and concisely the nature of the petitioner's business and the manner in which petitioner claims to be affected by the terms or provisions of the order or the interpretation or application thereof, which are complained of;

(4) A statement on the grounds on which the terms or provisions of the plan, or the interpretation or application thereof, which are complained of, are challenged as not in accordance with law; and

(5) Requests for the specific relief which the petitioner desires the Secretary to grant.

(6) An affidavit by the petitioner, or, if the petitioner is not an individual, by an officer of the petitioner having knowledge of the facts stated in the petition, verifying the petition and stating that it is filed in good faith and not for purposes of delay.

(c) A motion to dismiss a petition—Filing, contents, and responses to a petition. If the Administrator is of the opinion that the petition, any portion thereof, does not substantially comply, in form or content, with the Act or with requirements of paragraph (b) of this section, the Administrator may, within 30 days after the filing of the petition, file with the hearing clerk a motion to dismiss the petition, or any portion of the petition, on one or more of the grounds stated in this paragraph. Such motion shall specify the grounds for objection to the petition and if based, in whole or in part, on allegations of fact not appearing on the face of the petition, shall be accompanied by appropriate affidavits or documentary evidence substantiating such allegations of fact. The motion may be accompanied by a memorandum of law. Upon receipt of such motion, the hearing clerk shall cause a copy thereof to be served upon the petitioner, together with a notice stating that all papers to be submitted in opposition to such motion, including any memorandum of law, must be filed by the petitioner with the hearing clerk not later than 20 days after the service of such notice upon the petitioner. Upon the expiration of the time specified in such notice, or upon receipt of such papers from the petitioner, the hearing clerk shall transmit all papers which have been filed in connection with the motion to the judge for the judge's consideration.

(d) Further proceedings. Further proceedings on petitions to modify or to be exempted from the plan shall be governed by paragraph (c)(2) of § 900.52 through § 900.71 of the Rules of Practice Governing Proceedings on Petitions to Modify or to be Exempted From Marketing Orders and as may hereafter be amended, and the same are incorporated herein and made a part hereof by reference. However, each reference to "marketing order" in the title shall mean "plan."

Dated: December 15, 1988.

Robert C. Keeney,

Deputy Director, Fruit and Vegetable Division.

[FR Doc. 88-29203 Filed 12-16-88; 11:59 am]

BILLING CODE 3410-02-M

FEDERAL DEPOSIT INSURANCE CORPORATION

12 CFR Part 346

Foreign Banks

AGENCY: Federal Deposit Insurance Corporation ("FDIC").

ACTION: Final rule.

SUMMARY: Section 346.23 of the FDIC Rules and Regulations specifies that country exposures by insured branches of foreign banks operating as such on November 19, 1984, must be within prescribed limits. The current deadline for compliance, December 31, 1988, is being extended by the Board of Directors until a date 30 days subsequent to notice that compliance is required.

EFFECTIVE DATE: December 20, 1988.

FOR FURTHER INFORMATION CONTACT: Charles V. Collier, Assistant Director, Division of Bank Supervision, (202) 898-6850, 550 17th Street NW., Washington, DC 20429.

SUPPLEMENTARY INFORMATION: The FDIC previously twice extended the deadline for compliance with provisions concerning allowable exposures to foreign countries (§ 346.23 of the current FDIC Rules and Regulations), with the deadline for compliance now being year end 1988. The extensions of time were enacted in anticipation of the adoption by that date of a final regulation amending Part 346. A proposed regulation was published on October 20, 1988 (53 FR 41180), but a final regulation will not be completed by year end. Consequently, the FDIC will not require compliance until after 30 days prior notice that compliance will be required is given.

In accordance with 5 U.S.C. 553, the FDIC has found that prior notice and a delayed effective date with respect to this amendment are unnecessary, since the amendment delays the imposition of requirements that are already imposed by existing regulation. Since the amendment only provides for an extension of the deadline for compliance with certain portions of the regulation and imposes no burden upon banks or the public, it is not subject to the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*) or the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

List of Subjects in 12 CFR Part 346

Bank deposit insurance, Foreign banks, banking; Banks, banking; Reporting and recordkeeping requirements.

VOL 53 ISS 244 DEC 20 1988 UMI

In consideration of the foregoing, the FDIC hereby amends Part 346 of title 12 of the Code of Federal Regulations as follows:

PART 346—FOREIGN BANKS

1. The authority citation for Part 346 continues to read as follows:

Authority: 12 U.S.C. 1813, 1815, 1817, 1819, 1820, 3103, 3104, 3108.

2. Part 346 is amended by revising the third sentence of § 346.23 to read as follows:

§ 346.23 Country exposure concentrations.

* * * Insured branches operating as such on November 19, 1984, will be required to reduce any existing excess exposure, including commitments; thirty days prior notice will be given before compliance is required.

* * * * *

By Order of the Board of Directors. Dated at Washington, DC, this 13th day of December, 1988.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

[FR Doc. 88-29205 Filed 12-19-88; 8:45 am]

BILLING CODE 6714-01-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 88-NM-152-AD; Amdt. 39-6093]

Airworthiness Directives; Honeywell Attitude and Heading Reference System AH-600, as Installed in, but Not Limited to, de Havilland Model DHC-8, British Aerospace Model BAe 125-800, Cessna Model 650, and Aerospatiale Model ATR 42-300 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to Honeywell Attitude and Heading Reference Systems (AHRS), which requires installation of a modified strapdown attitude heading and reference unit (AHRU) in the pilot's attitude and heading system. This amendment is prompted by a report that an electrical overvoltage in the airplane electrical system caused both the pilot's and copilot's AHRU's to cut off attitude and heading information to the Electronic Flight Instrument System (EFIS). This condition, if not corrected, could result in loss of attitude and heading displays for both pilots.

DATES: Effective January 9, 1989.

ADDRESSES: The applicable service information may be obtained from Honeywell, Inc., Sperry Commercial Flight Systems Group, Business and Commuter Aviation Systems Division, 5353 West Bell Road, Glendale, Arizona 85308. This information may be examined at the FAA, Northwest Mountain Region, 17900 Pacific Highway South, Seattle, Washington, or the Los Angeles Aircraft Certification Office, 3229 East Spring Street, Long Beach, California.

FOR FURTHER INFORMATION CONTACT: Mr. Robert T. Razzeto, Aerospace Engineer, Systems and Equipment Branch, ANM-133L, FAA, Northwest Mountain Region, Los Angeles Aircraft Certification Office, 3229 East Spring Street, Long Beach, California 90806-2425; telephone (213) 988-5355.

SUPPLEMENTARY INFORMATION: There has been a report of a dual, simultaneous loss of Honeywell AH-600 strapdown Attitude Heading Reference System primary attitude and heading instrument displays at both the pilot and copilot instrument panels. During landing approach, the primary attitude and heading displays on both sides of the instrument panel went invalid, with "ATT FAIL" and "HDG FAIL" flagged, at the same time. The pilot landed using only the standby instruments. Reliable airplane attitude and heading information is essential for safe operation of the airplane.

The attitude and heading display loss has been determined to have been caused by a momentary electrical system overvoltage which caused both AHRU's to sense false gyro speed and to trip "off"; consequently, the EFIS display of attitude and heading ceased functioning. This caused both the pilot's and copilot's primary attitude and heading displays to go invalid.

A design change correcting this problem is incorporated in AHRU's Serial Numbers 0278 and subsequent. A modification, "Mod F," has been developed which corrects AHRU's Part Numbers 7003360-931, -932, -933, -934, -935, and -936 (Serial Numbers 0100-0277) that are in service.

The FAA has reviewed and approved Honeywell Service Bulletin 7003360-34-32, dated August 2, 1988, which describes modification of circuit card assemblies to prevent false gyro speed failure flag indications during abnormal DC power surges.

Since this situation is likely to exist or develop on other airplanes with certain Honeywell AH-600 strapdown AHRU's installed, this AD requires installation of an attitude and heading reference unit in the pilot's AHRS which has Mod Level "F" incorporated, or modification of the AHRU in accordance with the Honeywell service bulletin previously mentioned.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable, and good cause exists for making this amendment effective in less than 30 days.

The regulations adopted herein will not have substantial direct effects on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

The FAA has determined that this regulation is an emergency regulation that is not considered to be major under Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant/major regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation or analysis is not required).

List of Subjects in 14 CFR Part 39

Aviation safety, Aircraft.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) as follows:

PART 39—[AMENDED]

1. The authority citation for Part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); and 14 CFR 11.89.

§ 39.13 [Amended]

2. By adding the following new airworthiness directive:

Honeywell, Inc., Sperry Commercial Flight Systems Group, Business and Commuter Aviation Systems Division, (Sperry Corporation): Applies to the Honeywell AH–600 strapdown Attitude and Heading Reference Unit (AHRU), Part Numbers 7003360–931, –932, –933, –934, –935, or –936, with Serial Numbers 0100 through 0277.

Note.—These systems are known to be installed in, but not limited to, the following airplanes: de Havilland Model DHC–8, British Aerospace Model BAe 125–800, Cessna Model 650, and Aerospatiale Model ATR42–300 series airplanes.

Compliance is required as indicated, unless previously accomplished.

To eliminate the possibility of the primary attitude and heading displays on both sides of the instrument panel failing simultaneously, accomplish the following:

A. Within 10 calendar days after the effective date of this AD, inspect airplanes with the Honeywell AH–600 AHRU installed to determine the part number, serial number, and Mod Level of the strapdown AHRU installed in the pilot's (Number 1) AHRU. Prior to further flight, after inspection, remove all AHRU Part Numbers 7003360–931, –932, –933, –934, –935, and –936, with the Serial Number 0100 through 0277, without Mod Level "F," from service in the pilot's (Number 1) AHRS. Install the same part number with Mod Level "F" incorporated, or modify the AHRU in accordance with Honeywell, Inc., Service Bulletin 7003360–34–32, dated August 2, 1988.

Note.—Serial numbers on the strapdown AHRU are eight digit numbers; the first four are a date code and the last four are the individual unit identifier. Serial numbers referred to in this AD are the last four numbers of the serial number.

B. An alternate means of compliance or adjustment of the compliance time, which provides an acceptable level of safety, may be used when approved by the Manager, Los Angeles Aircraft Certification Office, FAA, Northwest Mountain Region.

Note.—This request should be forwarded through an FAA Principal Maintenance Inspector (PMI), who may add any comments and then send it to the Manager, Los Angeles Aircraft Certification Office.

C. Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes during daylight hours in visual meteorological conditions to a base in order to comply with requirements of this AD.

All persons affected by this directive who have not already received the appropriate service information from the manufacturer may obtain copies upon request to Honeywell, Inc., Sperry Commercial Flight Systems Group, Business and Commuter Aviation Systems Division, 5353 West Bell Road, Glendale, Arizona 85308. These documents may be examined at the FAA, Northwest Mountain Region, 17900 Pacific Highway South, Seattle, Washington, or the Los Angeles Aircraft Certification Office, 3229 East Spring Street, Long Beach, California.

This Amendment becomes effective January 9, 1989.

Issued in Seattle, Washington, on December 9, 1988.

Darrell M. Pederson,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

[FR Doc. 88–29149 Filed 12–19–88; 8:45 am]

BILLING CODE 4910–13–M

---

14 CFR Part 39

[Docket No. 88–NM–118–AD; Amdt. 39–6094]

Airworthiness Directives: Aerospatiale Model ATR–42–300 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to Aerospatiale Model ATR–42–300 series airplanes, which requires modification of the engine and propeller control cables by adding a sealing sheath and protective sleeve, and installation of a deflector on the engine aft upper cowling below the zone ventilation air inlet. This amendment is prompted by reports of accumulation of water in the engine and propeller control cables causing corrosion and/or the formation of ice in the cables. This condition, if not corrected, could lead to malfunction of the engine and propeller controls.

DATE: Effective February 3, 1989.

ADDRESSES: The applicable service information may be obtained from Aerospatiale, 316 Route de Bayonne, 31060 Toulouse, Cedex 03, France. This information may be examined at the FAA, Northwest Mountain Region, 17900 Pacific Highway South, Seattle, Washington, or the Seattle Aircraft Certification Office, 9010 East Marginal Way South, Seattle, Washington.

FOR FURTHER INFORMATION CONTACT: Mr. William L. Schroeder, Standardization Branch, ANM–113; telephone (206) 431–1565. Mailing address: FAA, Northwest Mountain Region, 17900 Pacific Highway South, C–68966, Seattle, Washington 98168.

SUPPLEMENTARY INFORMATION: A proposal to amend Part 39 of the Federal Aviation Regulations to include a new airworthiness directive, applicable to Model ATR–42–300 series airplanes, which requires modification of the engine and propeller control cables by adding a sealing sheath and protective sleeve, and installation of a deflector on the engine aft upper cowling below the zone ventilation air inlet, was published in the **Federal Register** on September 20, 1988 (53 FR 36466).

Interested parties have been afforded an opportunity to participate in the making of this amendment. No comments were received in response to the proposal.

After careful review of the available data, the FAA has determined that air safety and the public interest require the adoption of the rule as proposed.

It is estimated that 35 airplanes of U.S. registry will be affected by this AD, that it will take approximately 18 manhours per airplane to accomplish the required actions, and that the average labor cost will be $40 per manhour. Based on these figures, the total cost impact of this AD to U.S. operators is estimated to be $25,200.

The regulations adopted herein will not have substantial direct effects on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, the FAA has determined that this regulation is not considered to be major under Executive Order 12291 or significant under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979) and it is further certified under the criteria of the Regulatory Flexibility Act that this rule will not have a significant economic impact, positive or negative, on a substantial number of small entities because of the minimal cost of compliance per airplane ($720). A final evaluation has been prepared for this regulation and has been placed in the docket.

List of Subjects in 14 CFR Part 39

Aviation safety, Aircraft.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends § 39.13 of Part 39 of the Federal Aviation Regulations as follows:

PART 39—[AMENDED]

1. The authority citation for Part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97–449, January 12, 1983); and 14 CFR 11.89.

§ 39.13 [Amended]

2. By adding the following new airworthiness directive:

Aerospatiale: Applies to Model ATR42–300 series airplanes, as listed in Aerospatiale Service Bulletins ATR42–76–0002, Revision 1, dated May 16, 1988, and ATR42–54–0008, Revision 1, dated March 25, 1988, certificated in any category. Compliance required as indicated, unless previously accomplished.

To prevent malfunction of the engine and propeller controls, accomplish the following:

A. Within 60 days after the effective date of this AD, modify engine and propeller push-pull control cables on left and right engines by adding a sealing sheath and protective sleeve, in accordance with Aerospatiale Service Bulletin ATR42–76–0002, Revision 1, dated May 16, 1988.

Note: Aerospatiale Service Bulletin ATR42–76–0002, dated May 16, 1988, references Teleflex Syneravia Service Bulletin Number TFX 76.076 for the accomplishment instructions for modification of the engine and propeller push pull control cables.

B. Within 60 days after the effective date of this AD, install a deflector on the engine aft upper cowling below the zone ventilation air inlet on the left and right engines, in accordance with Aerospatiale Service Bulletin ATR42–54–0008, Revision 1, dated March 25, 1988.

C. An alternate means of compliance or adjustment of the compliance time, which provides an acceptable level of safety, may be used when approved by the Manager, Standardization Branch, ANM–113, FAA, Northwest Mountain Region.

Note: The request should be forwarded through an FAA Principal Maintenance Inspector (PMI), who may add any comments and then send it to the Manager, Standardization Branch, ANM–113.

D. Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base for the accomplishment of the modifications required by this AD.

All persons affected by this directive who have not already received the appropriate service documents from the manufacturer may obtain copies upon request to Aerospatiale, 316 Route de Bayonne, 31060 Toulouse, Cedex 03, France. These documents may be examined at the FAA, Northwest Mountain Region, 17900 Pacific Highway South, Seattle, Washington, or at the Seattle Aircraft Certification Office, 9010 East Marginal Way South, Seattle, Washington.

This amendment becomes effective February 3, 1989.

Issued in Seattle, Washington, on December 9, 1988.

Darrell M. Pederson,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

FEDERAL TRADE COMMISSION

16 CFR Part 13

[Docket C–3238]

American Stores Company et al.; Prohibited Trade Practices and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.

ACTION: Consent order.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent order allows, among other things, American Stores Company, a Dublin, CA. corporation, to acquire Lucky Stores, Inc. Respondent is required to divest between 31 and 37 grocery stores in California and also required to obtain FTC approval before making certain grocery store acquisitions.

DATE: Complaint and Order issued August 31, 1988.[1]

FOR FURTHER INFORMATION CONTACT: Joan S. Greenbaum, FTC/S–3302, Washington, DC 20580, (202) 326–2629.

SUPPLEMENTARY INFORMATION: On Thursday, June 2, 1988, there was published in the **Federal Register,** 53 FR 20127, a proposed consent agreement with analysis In the Matter of American Stores Company, et al., for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions or objections regarding the proposed form of order.

Comments were filed and considered by the Commission. The Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made its jurisdictional findings and entered an order to divest in disposition of this proceeding.

The prohibited trade practices and/or corrective actions, as codified under 16 CFR Part 13, are as follows: Subpart—Acquiring Corporate Stock Or Assets: § 13.5 Acquiring corporate stock or assets; § 13.5–20 Federal Trade Commission Act. Subpart—Corrective Actions And/Or Requirements: § 13.533 Corrective actions and/or requirements; § 13.533–45 Maintain records; § 13.533–45(k) Records, in general; § 13.533–50 Maintain means of communication.

[Docket C–3239]

Robert E. Harvey, M.D., P.A., d/b/a Victoria Allergy and Asthma Clinic, et al.; Prohibited Trade Practices, and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.

ACTION: Consent order.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent order prohibits, among other things, a group of Victoria, TX, allergists from impeding the use of any allergy testing product by any physician, clinic, hospital, ambulatory care center or other health facility in order to restrict competition from physicians who are not allergists. Respondents are also prohibited from boycotting the manufacturers that produce allergy testing devices used by physicians who are not allergy specialists.

DATE: Complaint and Order issued August 26, 1988.[1]

FOR FURTHER INFORMATION CONTACT: Erika R. Wodinsky, FTC, San Francisco Regional Office, 901 Market Street, Suite 570, San Francisco, CA 94103. (415) 995–5220.

SUPPLEMENTARY INFORMATION: On Wednesday, May 11, 1988, there was published in the **Federal Register,** (53 FR 16727, a proposed consent agreement with analysis In the Matter of Robert E. Harvey, M.D., P.A., d/b/a Victoria Allergy and Asthma Clinic, Robert E. Harvey, M.D. and Gullapali K. Rao, as individuals, for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions or objections regarding the proposed form of order.

Comments were filed and considered by the Commission. The Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made its jurisdictional findings and entered its order to cease

BILLING CODE 6750–01–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Social Security Administration

20 CFR Parts 404 and 416

Disability Benefit Programs; Status of Rules

AGENCY: Social Security Administration, HHS.

ACTION: Notice of status of the rules for considering vocational factors in evaluating Social Security disability claims (Medical-Vocational Rules).

SUMMARY: In the preamble to the final regulations on the "Rules for Adjudicating Disability Claims in Which Vocational Factors Must Be Considered," published November 28, 1978 at 43 FR 55349, we stated that we planned to monitor the performance and validity of the medical-vocational rules. This notice announces the results of our monitoring of the performance of the medical-vocational rules and an update as to their current validity.

FOR FURTHER INFORMATION CONTACT: Jack Wesolowski, Social Security Administration, 3–D–6 Operations Building, 6401 Security Boulevard, Baltimore, MD 21235; (301) 965–9142.

SUPPLEMENTARY INFORMATION: In the preamble to the final regulations on the "Rules for Adjudicating Disability Claims in Which Vocational Factors Must Be Considered," published November 28, 1978 at 43 FR 55349, we stated on page 55357 that "* * * we plan to monitor the disability program to make sure there are no unforeseen effects. Quality control findings, which were noted during the evolution of the policy system, will be a part of the monitoring effort." It was further stated on page 55361 that "While we do not anticipate any major changes of job incidence or other occupational data, if later analyses indicate that any rules should be restructured, the public will be notified." The purpose of this notice is to address both statements, providing the public with a review of the performance of the medical-vocational rules and an update as to their current validity.

Two distinct sources provided the bulk of the public comments on the medical-vocational rules (20 CFR Chapter III, Part 404, Subpart P, Appendix 2). Claimant advocacy groups feared that the medical-vocational rules were intended to "deliberalize" the disability program at the expense of disabled persons in order to save trust fund moneys. At the other extreme, there was also a concern generated by newspaper articles which pictured the medical-vocational rules as a "liberalization" intended to pay benefits to nondisabled persons, thus improperly depleting the trust funds.

We have closely monitored the application of the medical-vocational rules since they became effective on February 26, 1979. Quality assurance data, gathered continuously from all regions of the country, have been compared with data which preceded publication of the medical-vocational rules and have shown no change in overall allowance/denial rates of disability claims where the medical-vocational rules are applicable. This supports our position that the medical-vocational rules have been reflective of longstanding adjudicative policies and would not have significant impact on the adjudicative outcomes. We will continue to monitor the application of the medical-vocational rules.

When the medical-vocational rules were published, the third edition of the "Dictionary of Occupational Titles" (DOT) (1965–66) and its companion volumes were the chief occupational reference sources of the disability program. It was these sources that identified, at the various functional levels, the unskilled occupations which comprise the administratively noticed occupational base for decisions made under the medical-vocational rules. (More frequently published references, such as "County Business Patterns," which is published annually, have been used especially to support and document job incidence). The fourth edition of the DOT (1977–81), its companion volumes, and supplements (1982 and 1986) have replaced the third edition.

Some observers have referred to the changing economy and questioned the reality of a policy system that relies on an occupational reference source which is revised relatively infrequently. However, when we analyzed the fourth edition of the DOT in detail and compared it with the third edition, we found that while the numbers of individually identifiable occupations showed some variance, the *range* of work (of which the medical-vocational rules take administrative notice) continued to represent more occupations than would be required to represent significant numbers. We have received no significant data or other evidence to indicate that the unskilled occupational base as described in the text of the medical-vocational rules has changed substantially, and, therefore, have nothing to justify restructuring the medical-vocational rules on this basis. Nevertheless, it will continue to be our policy to analyze occupational data as they become available. As part of this ongoing process, the public will be notified biennially of the results of these reviews and the continued validity of the medical-vocational rules.

BILLING CODE 4190–11–M

DEPARTMENT OF DEFENSE

Department of the Navy

32 CFR Part 706

Certifications and Exemptions Under the International Regulations for Preventing Collisions at Sea, 1972; Large Harbor Tugs

AGENCY: Department of the Navy, DOD

VOL 53 ISS 244 DE 20 1988 UMI

ACTION: Final rule.

SUMMARY: The Department of the Navy is amending its certifications and exemptions under the International Regulations for Preventing Collisions at Sea, 1972 (72 COLREGS), to reflect that the Under Secretary of the Navy has determined that Large Harbor Tugs YTB–781, YTB–785, YTB–812, YTB–826, and YTB–835 are vessels of the Navy which, due to their special construction and purpose, cannot comply fully with certain provisions of the 72 COLREGS without interfering with their special function as naval vessels. The intended effect of this rule is to warn mariners in waters where 72 COLREGS apply.

EFFECTIVE DATE: December 6, 1988.

FOR FURTHER INFORMATION CONTACT: Captain P.C. Turner, JAGC, U.S. Navy, Admiralty Counsel, Office of the Judge Advocate General, Navy Department, 200 Stovall Street, Alexandria, VA 22332–2400, Telephone number: (202) 325–9744.

SUPPLEMENTARY INFORMATION: Pursuant to the authority granted in 33 U.S.C 1605, the Department of the Navy amends 32 CFR Part 706. This amendment provides notice that the Under Secretary of the Navy, under authority delegated by the Secretary of the Navy, has certified that Large Harbor Tugs YTB–781, YTB–785, YTB–812, YTB–826, and YTB–835 are vessels of the Navy which, due to their special construction and purpose, cannot comply fully with 72 COLREGS: Rule 21(c), pertaining to the location of the sternlight; Rule 24(c), pertaining to the towing lights displayed by power driven vessels when pushing ahead or towing alongside; Rule 27(b)(i), pertaining to the lights displayed by vessels restricted in their ability to maneuver; Annex I, section 2(a)(i), pertaining to the height above the hull of the masthead light; and Annex I, section 3(b), pertaining to the placement of the sidelights, without interfering with their special functions as naval vessels. YTB–781, YTB–785, YTB–812, YTB–826, and YTB–835 are tugs of special construction and functions. They perform towing services for naval vessels. The masts of these tugs are hinged and are lowered only when actually engaged in towing alongside or pushing ships having radically flared bows or sponsoned sides and sterns. When the mast is in the lowered position, the masthead lights, and task lights mounted on this mast, cannot be displayed. During such operations only the pilot house top-mounted auxiliary masthead light, sidelights, and sternlight will be exhibited. The Under Secretary of the Navy has also certified that the aforementioned lights are located in closest possible compliance with the applicable 72 COLREGS requirements.

Moreover, it has been determined, in accordance with 32 CFR Parts 296 and 701, that publication of this amendment for public comment prior to adoption is impracticable, unnecessary, and contrary to public interest since it is based on technical findings that the placement of lights on these vessels in a manner differently from that prescribed herein will adversely affect the ships' ability to perform their military functions.

List of Subjects in 32 CFR Part 706

Marine safety, Navigation (water), Vessels.

Accordingly, 32 CFR Part 706 is amended as follows:

PART 706—[AMENDED]

1. The authority citation for 32 CFR Part 706 continues to read:

Authority: 33 U.S.C. 1605.

§ 706.2 [Amended]

2. Table Three of § 706.2 is amended by adding the following vessels:

Vessel	Number	Masthead lights, arc of visibility; Rule 21(a)	Side lights, arc of visibility; Rule 21(b)	Stern light, arc of visibility; Rule 21(c)	Side lights, distance inboard of ship's sides in meters; § 3(b), Annex I	Stern light distance forward of stern in meters; Rule 21(c)	Forward anchor light, height above hull in meters; § 2(k), Annex I	Anchor lights, relationship of aft light to forward light in meters; § 2(k), Annex I
YTB–781	YTB–781				2.56	13.41		
YTB–785	YTB–785				2.94	14.02		
YTB–812	YTB–812				3.03	14.02		
YTB–826	YTB–826				2.82	14.32		
YTB–835	YTB–835				3.00	14.02		

3. Paragraph 14, Table Four of § 706.2 is amended by adding the following vessels:

* * * * *

14. * * *

Vessel No.	Distance in meters of [illegible] masthead light below minimum required height, Annex I, § 2(a)(i)
YTB–781	3.66
YTB–785	4.47
YTB–812	4.04
YTB–826	3.89
YTB–835	4.04

Date: December 6, 1988.

Approved:

H. Lawrence Garrett III,

Under Secretary of the Navy.

BILLING CODE 3810–AE–M

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 117

[CGD 11–88–10]

Drawbridge Operation Regulations; Petaluma River, Petaluma, CA

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: At the request of City of Petaluma, the Coast Guard is changing the regulations governing the operation of the drawbridge; "D" Street Bridge, across the Petaluma River, mile 13.7, at Petaluma, California, by requiring that four hours advance notice of opening be given from 6 a.m. to 6 p.m. and 24 hours advance notice be given from 6 p.m. to 6 a.m. The bridge currently opens upon four hour advance notice at all times. This change is being made because the percentage of nighttime openings is decreasing and the City is seeking to reduce operating costs. This action will still provide for the reasonable needs of navigation.

EFFECTIVE DATE: January 19, 1989.

FOR FURTHER INFORMATION CONTACT: Sharol Taylor, Bridge Administrator, Eleventh Coast Guard District at (415) 437–3514.

SUPPLEMENTARY INFORMATION: On September 2, 1988, the Coast Guard

published a notice of proposed rulemaking in the **Federal Register** (53 FR 34129) concerning this amendment. The Commander, Eleventh Coast Guard District, also published the proposal as a Public Notice dated August 26, 1988, which gave interested persons until October 17, 1988 to submit comments. In reviewing this regulation the Coast Guard noticed that they had omitted one category of vessels that need emergency openings, vessels in distress. That category of vessels has been included in the final regulation.

Drafting Information

The drafters of this notice are Sharol E. Taylor, project officer, and Lieutenant Commander J.J. Jaskot, project attorney, Eleventh Coast Guard District Legal Office.

Discussion of Comments

Two comments were received in response to the Public Notice. One mariner was opposed to the change stating that even the existing four hour notice was too long, but provided no other information. The other comment, from a recreational user, was in agreement with the 24 hour notice requirement for the hours from 6 p.m. to 6 a.m., but wanted openings upon demand on weekends from 6 a.m. to 6 p.m. Since this would be more costly than the existing regulation, it would not meet the objectives of the City of Petaluma. The bridge has been operated on advance notice since 1957.

Economic Assessment and Certification

These regulations are considered to be non-major under the Department of Transportation regulatory policies and procedures (44 FR 11034; February 26, 1979).

The economic impact has been found to be so minimal that a full regulatory evaluation is unnecessary. The Coast Guard received no comments documenting adverse effects on businesses. Since the economic impact is minimal, the Coast Guard certifies that these regulations will not have a significant economic impact on a substantial number of small entities.

List of Subjects in 33 CFR Part 117

Bridges.

In consideration of the foregoing, the Coast Guard amends Part 117 of Title 33, Code of Federal Regulations as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

1. The authority citation for Part 117 continues to read as follows:

Authority: 33 U.S.C. 499; 49 CFR 1.46 and 33 CFR 1.05–1(g).

2. Section 117.187(b) is revised to read as follows:

§ 117.187 Petaluma River.

* * * * *

(b) The draw of the Petaluma highway bridge at "D" Street, mile 13.7 at Petaluma, shall open on signal if at least four hours notice is given for openings from 6 a.m. to 6 p.m., and if at least 24 hours notice is given for openings from 6 p.m. to 6 a.m. The draw shall open as soon as possible for vessels in distress and vessels, including commercial vessels, engaged in rescue or emergency salvage operations.

* * * * *

Dated: December 2, 1988.

J.W. Kime,

Rear Admiral, U.S. Coast Guard, Commander, Eleventh Coast Guard District.

[FR Doc. 88–29172 Filed 12–19–88; 8:45 am]

BILLING CODE 4910–14–M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Parts 796, 797, and 798

Toxic Substances Control Act Test Guidelines

CFR Correction

Beginning at 50 FR 39252, September 27, 1985, the Environmental Protection Agency published regulations which added Part 796, Chemical Fate Testing Guidelines, Part 797, Environmental Effects Testing Guidelines, and Part 798, Health Effects Testing Guidelines, to Title 40 of the Code of Federal Regulations (CFR). In the July 1, 1986, and July 1, 1987, revisions of Title 40 CFR (Part 700 to End) portions of the text of Parts 796, 797, and 798 were published incorrectly.

1. In the July 1, 1987, revision of Title 40 CFR (Part 700 to End), the following section of Part 796 is corrected.

§ 796.3140 [Corrected]

The word "are" is removed in the fourth line of paragraph (b)(2)(i)(C).

2. In the July 1, 1987, revision of Title 40 CFR (Part 700 to End), the following section of Part 797 is corrected.

§ 797.1560 [Corrected]

The reference "(b)(6)" is revised to read "(f)(4)" in the last line of paragraph (d)(1)(i).

3. In the July 1, 1987, revision of Title 40 CFR (Part 700 to End), the following sections of Part 798 are corrected.

§ 798.1150 [Corrected]

The word "Feed" is revised to read "Food" in the first and second lines of paragraph (f)(8).

§ 798.1175 [Corrected]

The word "feed" is revised to read "food" in the third line of paragraph (f)(6)(ii) and in the second line of paragraph (f)(6)(iii).

§ 798.2250 [Corrected]

The word "Feed" is revised to read "Food" in the second line of paragraph (e)(9)(v) and in the first line of paragraph (f)(3)(ii)(D).

§ 798.2450 [Corrected]

The word "Feed" is revised to read "Food" in the second line of paragraph (d)(10)(v) and in the first line of paragraph (e)(3)(iv)(D).

The words "and or" are revised to read "or" in the last line of paragraph (d)(11)(ii)(B).

§ 798.2650 [Corrected]

The word "feed" is revised to read "food" in the second and fourth lines of paragraph (e)(8)(v) and the word "Feed" is revised to read "Food" in the first line of paragraph (f)(3)(ii)(D).

The word "or" is revised to read "of" in the third line of paragraph (e)(11)(iv).

§ 798.2675 [Corrected]

The word "feed" is revised to read "food" in the second line of paragraph (e)(8)(v) and the word "Feed" is revised to read "Food" in the first line of paragraph (f)(3)(ii)(D).

The words "and or" are revised to read "or" in the last line of paragraph (e)(9)(ii)(B).

§ 798.3260 [Corrected]

The word "Feed" is revised to read "Food" in the first line of paragraphs (b)(6)(iii)(C) and (c)(3)(i)(B)(*4*) and the word "feed" is revised to read "food" in the second and third lines of paragraph (b)(7)(vi).

§ 798.3300 [Corrected]

The word "Feed" is revised to read "Food" in the first line of paragraphs (b)(6)(iii)(C) and (c)(3)(i)(B)(*4*) and the word "feed" is revised to read "food" in the second and third lines of paragraph (b)(7)(v).

§ 798.3320 [Corrected]

The word "Feed" is revised to read "Food" in the first line of paragraphs (b)(6)(iii)(C) and (c)(3)(i)(B)(*4*) and the word "feed" is revised to read "food" in the second and third lines of paragraph (b)(7)(v).

The word "to" is removed from the fifth line of paragraph (b)(6)(iii).

§ 798.4350 [Corrected]

The word "Feed" is revised to read "Food" in the first line of paragraph (f)(3)(iii)(E).

§ 798.5200 [Corrected]

The abbreviation "EPPT" is revised to read "EPA's" in the seventh line of paragraph (g)(1).

§ 798.7100 [Corrected]

The words "more than one" are revised to read "several" in the eighth line of paragraph (c)(1)(i).

The words "no-observed-effect-level" are revised to read "no-effect-level" in the second line of paragraph (c)(2)(ii).

The word "and" is revised to read "or" in the last line of paragraph (c)(2)(iv).

"90 percent" is revised to read "95 percent" in the fourth line of paragraph (c)(3) and in the 11th line of paragraph (c)(5)(iii).

The abbreviation "e.g." is revised to read "i.e." in the 10th line of paragraph (c)(5)(iii) and in the fourth line of paragraph (c)(5)(iv)(A).

"1.5," is inserted after the word "hours," in the fourth line of paragraph (c)(5)(iv)(A).

In the last line of paragraph (c)(5)(iv)(A) after the words "this study." add the following sentence: "In the dog, quantities of label in urine and feces should be measured at appropriate intervals (i.e., every 6 hours for the first 48 hours after dosing and every 12 hours for the remaining 5 days) throughout the study for all animals."

In paragraph (c)(5)(iv)(B), insert the word "bone," before the word "brain" in the fifth line and insert the word "spleen," after the word "muscle," in the sixth line.

The words "those employed may" are revised to read "the rat and dog" in the 19th and 20th lines of paragraph (e).

BILLING CODE 1505-01-D

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 67

Final Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency.

ACTION: Final rule.

SUMMARY: Final base (100-year) flood elevations are determined for the communities listed below.

The base (100-year) flood elevations are the basis for the floodplain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

EFFECTIVE DATE: The date of issuance of the Flood Insurance Rate Map (FIRM) showing base (100-year) flood elevations, for the community. This date may be obtained by contacting the office where the maps are available for inspection indicated on the table below.

ADDRESSES: See table below.

FOR FURTHER INFORMATION CONTACT: John L. Matticks, Chief, Risk Studies Division, Federal Insurance Administration, Federal Emergency Management Agency, Washington, DC 20472, (202) 646-2767.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency gives notice of the final determinations of flood elevations for each community listed. Proposed base flood elevations or proposed modified base flood elevations have been published in the **Federal Register** for each community listed.

This final rule is issued in accordance with Section 110 of the Flood Disaster Protection Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 44 CFR Part 67. An opportunity for the community or individuals to appeal proposed determination to or through the community for a period of ninety (90) days has been provided.

The Agency has developed criteria for floodplain management in floodprone areas in accordance with 44 CFR Part 60.

Pursuant to the provisions of 5 U.S.C. 605(b), the Administrator, to whom authority has been delegated by the Director, Federal Emergency Management Agency, hereby certifies for reasons set out in the proposed rule that the final flood elevation determinations, if promulgated, will not have a significant economic impact on a substantial number of small entities. Also, this rule is not a major rule under terms of Executive Order 12291, so no regulatory analyses have been prepared. It does not involve any collection of information for purposes of the Paperwork Reduction Act.

List of Subjects in 44 CFR Part 67

Flood insurance, Flood plains.

PART 67—[AMENDED]

The authority citation for Part 67 continues to read as follows:

Authority: 42 U.S.C. 4001 et seq., Reorganization Plan No. 3 of 1978, E.O. 12127.

Interested lessees and owners of real property are encouraged to review the proof Flood Insurance Study and Flood Insurance Rate Map available at the address cited below for each community.

The base (100-year) flood elevations are finalized in the communities listed below. Elevations at selected locations in each community are shown. No appeal was made during the ninety-day period and the proposed base flood elevations have not been changed.

48 CFR Parts 501, 522, 552 and 553

[APD 2800.12 CHGE 59]

General Service Administration Acquisition Regulation; Implement FAC 84-34

AGENCY: Office of Acquisition Policy, GSA.

ACTION: Final rule.

SUMMARY: The General Services Administration Acquisition Regulation (GSAR) Chapter 5, (APD 2800.12), is amended to revise section 501.105 to delete certain OMB control numbers relating to data collections that have been incorporated in the Federal Acquisition Regulation (FAR) and to change the section reference of GSA Form 618-D assigned OMB Control No. 1215-0149; to revise Part 522 to supplement the FAR by identifying the individuals in GSA who are responsible for making determinations regarding liquidated damages, to add text to identify the individuals responsible for requesting extensions of the period for application of wage determinations, to provide for the use of GSA Form 618-A, Transmittal of Contract Award, to inform contractors of their obligations under the labor standards clauses, to provide for submission of GSA Form 618-D, "Statement to be Submitted When Work is to be Performed Personally" (by contractors or subcontractors), to require reports to be submitted to the Department of Labor to be reviewed by the contracting director regarding contractor's compliance with the labor standards requirements, and to make other related changes; to revise Part 552 to delete sections 552.222-70 through 552.222-80 from the text and the clause matrixes; to revise Part 553 to delete reference to: GSA Form 2428, "Request for Authorization of Additional Classification(s), Rate(s), and Fringe Benefit(s)" which has been replaced by the Standard Form 1444, "Request for Authorization of Additional Classification and Rate" and GSAR Form 3017, "Labor Standards Interview," which has been replaced by Standard Form 1445, "Labor Standards Interview," and to illustrate revised GSA Form 3505, "Labor Standards (Construction Contract)." The intended effect is to improve the regulatory coverage and to provide uniform procedures for contracting under the regulatory system.

EFFECTIVE DATE: December 28, 1988.

FOR FURTHER INFORMATION CONTACT: Mr. John Joyner, Office of GSA Acquisition Policy and Regulations (VP), (202) 523-4916.

SUPPLEMENTARY INFORMATION: .

Background

This rule was not published in the **Federal Register** for public comment because it merely implemented the FAR FAC 84-34 which had already undergone the public comment process.

Impact

The Director, Office of Management and Budget (OMB), by memorandum dated December 14, 1984, exempted certain agency procurement regulations from Executive Order 12291. The exemption applies to this rule. This rule simply amends the GSAR as necessary to conform with the FAR as amended by FAC 84-34 by providing GSA contracting activities with internal operating procedures. Therefore, no regulatory flexibility analysis has been prepared. The information collection requirements contained in this rule have been approved by OMB under the Paperwork Reduction Act and assigned OMB Control Number 1215-0149 (GSA Form 618-D). Information collection requirements for Standard Forms 1444 and 1445, imposed by the FAR, have been assigned OMB Control Number 9000-0089.

List of Subjects in 48 CFR Parts 501, 522, 552, and 553.

Government procurement.

PART 501—[AMENDED]

1. The authority citation for 48 CFR Parts 501, 522, 552 and 553 continues to read as follows:

Authority: 40 U.S.C. 486(c).

2. Section 501.105 is amended by revising the GSAR segments and OMB control numbers to read as follows:

§ 501.105 OMB Approval under the Paperwork Reduction Act.

* * * * *

GSAR segments	OMB control No.
* * * * *	
522.403(a)	1215-0140 [Removed]
	1215-0141 [Removed]
	1215-0017 [Removed]
	1215-0149 [Removed]

GSAR segments	OMB control No.
522.405–3(a)	1215–0140 [Removed]
522.406–6	1215–0149

PART 522—APPLICATION OF LABOR LAWS TO GOVERNMENT ACQUISITIONS

3. The table of contents for Part 522 is amended by removing section 522.303 and revising Subpart 522.4 to read as follows:

Subpart 522.3—Contract Work Hours and Safety Standards Act

Sec.
522.302 Liquidated damages and overtime pay.

Subpart 522.4—Labor Standards for Contracts Involving Construction

Sec.
522.404 Davis-Bacon wage determinations.
522.404–6 Modifications of wage determinations.
522.406 Administration and enforcement.
522.406–1 Policy.
522.406–6 Payrolls and statements.
522.406–7 Compliance checking.
522.406–8 Investigations.
522.406–9 Withholding from or suspension of contract payments.
522.406–11 Contract terminations.
522.406–13 Semiannual enforcement reports.
522.407 Contract clauses.

4. Section 522.302 is revised to read as follows:

522.302 Liquidated damages and overtime pay.

(a) The Administrator has designated the Heads of Central Office Services to make determinations under FAR 22.302(c).

(b) Upon a final administrative determination regarding the assessment of liquidated damages, the contracting officer notifies the appropriate Finance Office of the decision and provides necessary instructions regarding the disposition of funds withheld or the collection of funds. If funds were withheld from contract payments to satisfy the claim for liquidated damages pending a final administrative determination, the appropriate Finance Office shall be instructed to immediately release any funds in excess of the amount specified in the final administrative determination to the contractor. If funds were not withheld or if the amount of liquidated damages assessed exceeds that amount withheld, the contracting officer initiates collection action by withholding funds from payments due on the instant contract or by issuing a demand for payment. When the contractor has other Government contracts the demand letter should indicate the Government's intent to exercise its right of offset if payment is not made. The contracting officer provides the appropriate Finance Office with a copy of the demand for payment and requests that the Finance Office initiate collection action under 41 CFR Part 105–55, Collection of Claims owed the United States, if payment is not made in accordance with the demand letter.

5. Subpart 522.4 is revised to read as follows:

522.404 Davis-Bacon Act wage determinations.

522.404–6 Modifications of wage determinations.

Contracting directors may request extensions of the 90 day period for application of a general wage determination. See FAR 22.404–6(b)(6).

522.406 Administration and enforcement.

522.406–1 Policy.

The GSA Form 618–A, Transmittal of Contract Award, may be used to inform contractors of their obligations under the labor standards clauses of the contract.

522.406–6 Payrolls and statements.

Prime contractors and subcontractors who personally perform work are required to submit, instead of weekly payrolls and statements of compliance with respect to payment of wages, a statement clearly showing (a) their contractual relationship, (b) the scope and dates of work performed, (c) that they received no wages, and (d) that no mechanics or laborers were employed in the prosecution of the work. GSA Form 618–D, Statement to be Submitted When Work is Performed Personally, should be used to furnish this information.

522.406–7 Compliance checking.

Compliance checks must be made as frequently as necessary and before final payment is made. Compliance checking is essential to the success of the labor standards enforcement program.

522.406–8 Investigations.

(a) When compliance checks indicate such action is warranted, the contracting officer shall request the Regional Inspector General for Investigations to conduct an investigation of a contractor's compliance with the labor standards requirements.

(b) The contracting director shall review and process the contracting officer's report under FAR 22.406–8(d).

522.406–9 Withholding from or suspension of contract payments.

Upon final administrative determination regarding the assessment of liquidated damages, the contracting officer shall follow the procedures in 522.302(b).

522.406–11 Contract terminations.

Contracting officers shall submit reports under FAR 22.406–11.

522.406–13 Semiannual enforcement reports.

Contracting activities shall submit semiannual enforcement reports to the Office of Procurement (PP), Public Buildings Service, for consolidation and submission to the Department of Labor. The report should be submitted within 15 calendar days after the end of the reporting period.

522.407 Contract clauses.

(a) The contracting officer shall supplement the clauses in FAR 22.407(a) with the clause at 552.222–81, Applicable Minimum Hourly Rates of Wages.

(b) In construction contracts with state or political subdivisions, the contracting officer shall insert the clause at 552.222–82, Preface for Labor Standards—State or Political Subdivision Contracts, as a preface to the clauses prescribed in FAR 22.407(a).

PART 552—SOLICITATION PROVISIONS AND CONTRACT CLAUSES

6. The table of contents for Part 552 is amended by removing sections 552.222–70 through 552.222–80 to read as follows:

Sec.
552.222–70 [Removed]
552.222–71 [Removed]
552.222–72 [Removed]
552.222–73 [Removed]
552.222–74 [Removed]
552.222–75 [Removed]
552.222–76 [Removed]
552.222–77 [Removed]
552.222–78 [Removed]
552.222–79 [Removed]
552.222–80 [Removed]

552.222–70 through 552.222–80 [Removed]

7. Sections 552.222–70 through 552.222–80 are removed.

8. Section 552.222–81 is revised to read as follows:

552.222–81 Applicable minimum hourly rates of wages.

As prescribed in 552.407(a), insert the following clause:

Applicable Minimum Hourly Rates of Wages (Oct. 1988)

(a) The wage determination decision of the Secretary of Labor in this contract specifies the minimum hourly rates of wages which shall be paid to laborers and mechanics employed or working upon the site of the work. These rates have been determined by the Secretary of Labor under the Davis-Bacon Act, as amended, to be the prevailing rates for the corresponding classes of laborers and mechanics employed on contracts of a similar character in the locality where this work is to be performed. THESE MINIMUM HOURLY RATES OF WAGES SHALL APPLY ONLY IF THE CONTRACT IS OVER $2,000.

(b) While the wage rates given in the decision are the minimum rates required to be paid during the life of the contract, it is the responsibility of offerors to inform themselves as to local labor conditions such as the prevailing wage rates, the length of work day and work week, overtime compensation, fringe benefit payments, available labor supply, and prospective changes or adjustments of wage rates. The Contractor shall abide by and conform to all applicable laws, Executive Orders, and rules, regulations and orders of the Secretary of Labor. No increase in the contract price shall be allowed or authorized on account of the payment of wage rates in excess of those listed in the contract wage determination decision.

(c) The wage determination decision of the Secretary of Labor in the contract is solely for the purpose of setting forth the minimum hourly wage rates required to be paid during the life of the contract and is not to be accepted as a guarantee, warranty or representation as to the wage rates indicated.

(End of Clause)

PART 553—FORMS

9. The table of contents for Part 553 is amended by removing sections 553.370–2428 and 553.370–3017 to read as follows:

Sec.

* * * * *

553.370–2428 [Removed]

* * * * *

553.370–3017 [Removed]

* * * * *

10. Section 553.173 is amended by revising paragraph (c) to remove references to GSA Forms 2428 and 3017.

Subpart 533.3—Illustration of Forms

553.173 Responsibility for the maintenance of forms.

(c) * * *

GSA form no.	Responsible office

2428	P [Removed]
* * * * *	
3017	P [Removed]
* * * * *	

11. Section 553.270–1 is revised to read as follows:

553.270–1 Representations and certifications.

(a) GSA Form 3503, Representations and Certifications, may be used as a part of all solicitations and contracts, except contracts for utilities and leases of real property. The form may also be used for small purchases when Standard Form 33, Solicitation, Offer, and Award, or Standard Form 1442, Solicitation, Offer, and Award, is used.

(b) GSA Form 3518, Representations and Certifications (Acquisition of Leasehold Interests in Real Property), is used as a part of solicitations for leases of real property.

12. Section 553.270–3 is amended by revising paragraph (c) to read as follows:

553.270–3 Contract clauses.

* * * * *

(c) GSA Form 3505, Labor Standards (Construction Contract), is for use in contracts subject to the Davis-Bacon and related Acts. Because the clauses on this form must be included in solicitations/contracts in full text, the form may not be incorporated by reference.

Proposed Rules

Federal Register
Vol. 53, No. 244
Tuesday, December 20, 1988

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 1210

[FV-88-1, AMS-FV-88-063]

Watermelon Research and Promotion Plan; Secretary's Decision and Referendum Order on Proposed Plan

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule and referendum order.

SUMMARY: This decision proposes a national research and promotion plan designed to improve the position of watermelons in the marketplace through coordinated programs of research and promotion. Watermelon producers of five or more acres and handlers who are the first to handle watermelons from producers will be given the opportunity to vote in a referendum on the proposed plan. The proposed plan would establish as national board composed of 28 watermelon producers and handlers elected by their peers and one member representing the general public. The assessment rate would not exceed two cents per hundredweight for producers and two cents per hundredweight for handlers. Producers and handlers may receive a refund of assessments paid.

DATE: The referendum shall be conducted from February 6–21, 1989.

FOR FURTHER INFORMATION CONTACT: Arthur L. Pease, Marketing Order Administration Branch, Room 2531-South, P.O. Box 96456, Washington, DC, 20090–6456; telephone (202) 475–3915.

SUPPLEMENTARY INFORMATION: Prior documents in this proceeding include the following. The Notice of Hearing was published in the February 4, 1987, issue of the **Federal Register** [52 FR 3588]. A seven day Extension of Time for Receipt of Post Hearing Briefs was requested by proponents, granted on April 17, 1987, and published in the **Federal Register** on April 21, 1987 [52 FR 13086]. A Recommended Decision and Opportunity to File Written Exceptions was published in the March 24, 1988, issue of the **Federal Register** [53 FR 9637].

The recommended decision provided an opportunity to file written exceptions to the proposed plan. Eleven exceptions were received. Three favored the proposed plan as written in the recommended decision, seven expressed opposition to certain provisions in the proposed plan, and one was not in favor of the proposed plan. Exceptions favoring the proposed plan were submitted by Harmon Lawson, Secretary-Treasurer of the Georgia Watermelon Association; Robert Nash, President of the Georgia Farm Bureau Federation, and Buddy Leger, a Georgia producer and handler. Exceptions supporting the plan were general in nature and therefore are not discussed. The seven exceptions opposing certain provisions in the proposed plan were received from interested persons in South Carolina including Honorable Carroll A. Campbell, Jr., Governor of South Carolina; D. Leslie Tindal, Commissioner of Agriculture for South Carolina; Joe Bates, Chairman of the South Carolina Watermelon Board, and Lynn Youmans, President of the South Carolina Watermelon Association; Gerald Funderburk, a handler, and three producers from Allendale, South Carolina, Glen Kinard, Bill Oswald, and Duncan Smith. Mike Monroe, an Indiana producer, opposed the proposed plan. Each exception opposing provisions of the plan is discussed below.

This administrative action is governed by the provisions of sections 556 and 557 of Title 5 of the U.S. Code, and therefore is excluded from the requirements of Executive Order 12291.

Preliminary Statement

This decision is issued pursuant to the applicable rules of practice and procedure governing proceedings to formulate and amend an order (plan) [7 CFR Part 1200]. Any plan that may result from this proceeding would be effective pursuant to the provisions of the Watermelon Research and Promotion Act, hereafter referred to as the "Act" [Pub. L. 99–198, 99th Congress, effective January 1, 1986, 7 U.S.C. 4901–4916].

The proposed plan was formulated on the record of a public hearing conducted in Las Vegas, Nevada, on February 18 and 19, 1987, and Atlanta, Georgia, on February 24 and 25, 1987.

The proposed plan would authorize, with the approval of the Secretary, the collection of equal assessments on producers and handlers of watermelons. Handlers would be responsible for collecting and submitting assessments and for maintaining appropriate records. Refunds of collected assessments could be obtained by producers and handlers who do not support the plan. Assessment funds would be used to promote watermelons through a variety of market research and product promotion programs. These programs would be developed and administered by a national level Watermelon Research and Promotion Board. Daily administration of the plan would be carried out by a staff directly responsible to the Board. All administrative rules and regulations, as well as research and promotion programs developed by the Board, must be submitted to the Secretary of Agriculture for approval.

In accordance with the provisions of the Regulatory Flexibility Act (RFA) [5 U.S.C. 601 *et seq.*], the Administrator of the Agricultural Marketing Service has determined that this action would not have a significant economic impact on a substantial number of small entities as defined by the RFA. The purpose of the RFA is to fit regulatory action to the scale of business subject to such action, in order that small businesses will not be unduly or disproportionately burdened. Research and promotion programs, and their rules and regulations, are unique in that they are normally brought about through group action of essentially small entities for their own benefit.

The record indicates that most handlers regulated under this program would meet the Small Business Administration (SBA) definition of small agricultural service firms [13 CFR 121.2]. Small agricultural service firms are defined as those having annual gross receipts for the last three years of less than $3,500,000. There may be as many as 300 such handlers of watermelons who would be subject to regulation under this plan. Small agricultural producers are defined by the SBA as having revenues for the last three years of less than $500,000. Hearing evidence indicates that watermelons are produced on almost 12,000 farms in the

United States. Many farms produce less than five acres of watermelons, and thus would not be affected by the proposed plan. The industry also includes a few large farms in excess of 400 acres.

Record evidence shows the majority of watermelons are produced for fresh market sales. Proponents of the proposed plan testified that the watermelon industry is in serious trouble because of an apparent decrease in demand for watermelons. Record exhibits indicate a significant and steady decline in per capita consumption of watermelons between 1960 and 1981. Consumption fell 30 percent, from 17.2 pounds to 12.3 pounds per capita, during this period. No testimony was provided that would explain the decline in per capita consumption. However, the record indicates that under the proposed plan, the issue would be studied, possible causes identified and corrective programs initiated.

While consumption declined during the 1960's and 1970's, total value of the crop increased by 400 percent. Most of this increase in value reflected inflationary changes rather than rises in real dollar income. In constant dollars the crop value increased only 15 percent in the 21 year period. Comparable values of vegetables and melons, fresh fruit market prices, and the consumer price index for all foods increased over 300 percent during the same period.

The proposed plan would assess both producers and handlers at equal rates, not to exceed two cents per hundredweight on watermelons produced and two cents per hundredweight on watermelons handled. Testimony at the hearing indicates a unanimous agreement by those testifying that this amount would be relatively insignificant and should not impose a financial burden on large or small producers and handlers. The two cents per hundredweight assessment rate would represent less than one percent of producer income and less than one percent of handler income based on a seasonal average selling price of $6 per hundredweight. The benefits of the proposed program are expected to exceed the costs. Producers and handlers who do not agree with the program may request a refund of assessments paid.

While the proposed plan imposes certain recordkeeping and reporting requirements on handlers, information required to be reported under the plan could be compiled from records currently maintained by the handlers. Such recordkeeping and reporting requirements are minimal and should not impose an undue burden on handlers. In addition, the plan provides for referenda to determine if watermelon producers and handlers favor termination or suspension of the plan or any provisions thereof. Also, referenda will be conducted to determine whether the issuance of the proposed plan is approved or favored by producers and handlers. In compliance with the Office of Management and Budget (OMB) regulations [5 CFR Part 1320] which implements the Paperwork Reduction Act of 1980 [44 U.S.C. Chapter 35] and § 3504(h) of that Act, the information collection and recordkeeping requirements contained in this decision and referendum order, as well as the referendum ballot, have been submitted to OMB for approval. These requirements will not become effective prior to OMB approval. These requirements have been evaluated against the potential benefits of the proposal. Any added burden resulting from increased recordkeeping would not be significant when compared to benefits that should accrue to such businesses.

Based on comparable research and promotion programs, it has been estimated that it takes an average of 15 minutes to complete required forms. Approximately 300 handlers could be affected by the reporting and recordkeeping requirements of the proposed plan. As many as 7,000 producers and handlers could be affected by the voluntary referendum balloting.

Findings, Conclusions, and Rulings on Exceptions

Discussions and rulings, including the discussions of the material issues, findings and general findings of the recommended decision set forth in the March 24, 1988, issue of the **Federal Register** [53 FR 9637] are hereby approved and adopted subject to the following modifications and corrections.

Based upon an exception received from Indiana producer Mike Monroe, the findings and conclusions of material issue number 3(d) of the recommended decision, specifically concerning the producers' ability to pay the assessment, are amended by adding the following paragraph to material issue 3(d) after paragraph 4 to read as follows:

In his exception to the Recommended Decision, Indiana producer Mike Monroe opposes the proposed plan because he feels the producer pays for the production of watermelons and should not have to also pay for promotion. Monroe contends that a two cent assessment may, in some years, be 10 percent of the amount producers receive for their watermelons. This exception is not supported by testimony provided at the hearing. On the contrary, evidence indicates that the maximum two cents per hundredweight is less than one percent of the national average selling price for watermelons received by producers. Refunds are available to producers who feel they would be financially burdened by the collected assessment. Thus, the exception is denied.

Based upon an exception received from Messrs. Bates and Youmans, the findings and conclusions of material issue number 3(d) of the recommended decision, specifically concerning the collection of assessments by handlers, are amended by adding the following two paragraphs after the sixth paragraph of material issue 3(d) to read as follows:

In their jointly submitted exception to the recommended decision, Messrs. Bates and Youmans raise the question of who will actually be paying the four cents per hundredweight assessment (two cents on the producer and two cents on the handler). They state that their past experience has been that any additional expenses incurred by handlers is indirectly passed back to producers. They ask how producers know this will not happen with assessments on watermelons.

Under the plan, a handler is required to collect the producer's assessment and submit it, along with the handler's own assessment, to the Board. The scope and extent to which handlers would pass back assessments to producers, or whether any or all of handler assessments would be passed forward in the marketing chain, is not clear. The Act and the proposed plan provide that handlers may collect producer assessments from the producers or deduct the assessments from the proceeds paid to the producer on whose watermelons the assessments are made. The record indicates that the producer's assessment would in most instances be deducted from the purchase price of the watermelons and would be recorded on the sales slip provided to the producer. While most producers tend to use the same handler season after season, the record indicates that there is competition among handlers for producers' watermelons. Thus, a producer would be able to sell watermelons to alternative handlers if that producer wishes to do so for any reason. For these reasons, the exception is denied.

Based upon exceptions received from Commissioner Tindal and Messrs. Bates, Youmans, Kinard, Oswald and Smith, the findings and conclusions in material

issue number 3(d) of the recommended decision, specifically concerning the assessment which would be placed on those persons who both produce and handle watermelons, are amended by adding the following six paragraphs after the seventh paragraph of material issue 3(d) to read as follows:

In their exceptions to the recommended decision, Commissioner Tindal and Messrs. Bates, Youmans, Kinard, Oswald and Smith oppose § 1210.341(a) of the proposed plan because that section places a double assessment on producers covered under the plan who also handle their own watermelon production. The exceptions contend that a double assessment would place an undue burden on small producers who choose to, or must out of necessity, market their own production through roadside stands and farmers' markets.

According to testimony received at the hearing, producers who operate roadside stands or sell directly to consumers in farmers' markets usually deal in small truck loads of 50 to 100 watermelons at a time and are usually producers of less than five acres of watermelons. The proposed plan would not apply to such small producers and therefore they would not be required to pay any assessments under the plan.

A field of watermelons usually matures at one time and must be marketed shortly thereafter. Five or more acres of watermelons would be a volume considerably larger than a producer could normally sell at a roadside stand or directly to consumers in a farmers' market. Further, watermelon producers of five or more acres who choose to, or must, market all or a portion of their own watermelons in this manner may request and receive a refund of assessments.

It is more likely that a watermelon producer of five or more acres would sell the harvested crop to a sales agent in a farmers' market or auction market. In such a case, the sales agent in the market would assume handler responsibilities and pay the handler's assessment on the watermelons so marketed. Thus, producers who sell their watermelons to such agents would pay only the producers' share of the assessment.

The Bates and Youmans exception also recommends redefining the term handler so that a handler is one who handles and places into commerce watermelons other than his own production. This proposed change in definition would exclude those who both produce and handle watermelons from being considered handlers. Section 1647(g)(4) of the Act states that if a person performs both producing and handling functions, both assessments shall be paid by such person. Therefore, these exceptions are denied for the reasons set forth herein.

Based upon exceptions received from Commissioner Tindal and Messrs. Bates, Youmans, Funderburk and from Governor Campbell, the findings and conclusions of material issue number 3(d) of the recommended decision, specifically concerning the authority of the Board to designate other organizations to collect assessments and charge a fee for such service, are amended by striking the original paragraphs 14 and 15 of material issue 3(d) and inserting the following eight paragraphs in place of paragraphs 14 and 15 to read as follows:

In their exceptions to the recommended decision, Commissioner Tindal and Messrs. Bates, Youmans and Funderburk suggest that the Board should have the authority to designate other organizations to serve as collection agents which would assist in the collection of assessments. The issue was raised at the hearing and in a brief filed by representatives of the watermelon industry in South Carolina. The change as proposed would have allowed a watermelon marketing board, authorized by State statute, to retain 50 percent of assessments collected in the State as a collection fee, with the funds to be used in conducting the State's own watermelon promotion programs. The finding in the recommended decision denied the change as proposed for such collection of assessments.

Messrs. Bates, Youmans and Smith also express concern in their exceptions that watermelon producers in South Carolina would pay both the national assessment and the South Carolina State assessment if the proposed plan went into effect. Under their proposal South Carolina producers and handlers would be assessed the same amount as producers and handlers in other States (a total of four cents per hundredweight) and could continue to operate their own State marketing order program using half of the collected assessments in a revenue-sharing arrangement.

In their exception, Messrs. Bates and Youmans refer to two other national research and promotion programs asserting that they contain assessment-sharing provisions with State entities. The programs referred to are under the Beef Promotion and Research Order issued pursuant to the Beef Promotion and Research Act of 1985 [7 U.S.C. 2901, *et seq.*] and under the Pork Promotion, Research and Consumer Information Act of 1985 [7 U.S.C. 4801, *et seq.*] The beef statute authorizes credits of up to 50 cents per head of cattle or equivalent thereof to be applied to assessments of producers participating in a program of an established, qualified State beef council and the pork statute authorizes, in part, distribution of funds from assessments to certain State associations. However, the Watermelon Research and Promotion Act does not contain any such provisions.

In his exception to the recommended decision, South Carolina Governor Campbell raises the related issue of Federalism when he states that State programs should not suffer at the expense of a national program. This idea is supported by Messrs. Bates and Youmans in their jointly submitted exception. We have reviewed this proposed action in view of the provision of the executive order on Federalism, Executive Order 12612 (52 FR 41686) and determined that the proposed plan does not have sufficient Federalism implications to warrant the preparation of a Federalism assessment. This proposed action is consistent with the principles and provision of Executive Order 12612. Implementation of a national plan does not foreclose States from adopting an appropriate State program for watermelons.

It should be noted that individual producers and handlers would be able, under § 1210.343 of the proposed plan, to request and receive refunds of assessments paid to the national Board. The Act provides that refunds may be made only to individual producers and handlers. Refunds cannot be made to handlers on behalf of producers, or to organizations that represent groups of producers or handlers. The South Carolina State assessment is also refundable, according to the exception submitted by Messrs. Bates and Youmans.

Messrs. Bates and Youmans' exception further suggests a change in the original South Carolina amendment presented at the hearing so that it would apply not only to South Carolina but to any State that institutes a watermelon board authorized by State statute. This suggestion was also raised at the hearing and in a brief filed after the hearing. The record indicates that, given the incentives of receiving half the national Board's assessments, several States would establish such programs. If this happened, the Board could lose up to 50 percent of its projected assessment income and would possibly not be able to conduct the research and promotion responsibilities contemplated under the Act. Thus, the proposed amendment, to provide at least a 50 percent collection fee to State marketing orders, is

inconsistent with effectuation of the purposes of the Act.

However, the issue of whether the Board may be authorized to permit other organizations to collect assessments on its behalf has been further examined. Section 1210.341(e) of the proposed plan contained in the Notice of Hearing permitted such collecting organizations. In removing that section from the proposed plan, the recommended decision noted that the Act provided for collection of assessments by the Board. Record evidence indicates that it would be beneficial to the Board if the Board could designate other agencies to assist in the collection of assessments. The Act does permit the plan to contain terms and conditions incidental to and not inconsistent with the terms and conditions in the Act and that are necessary to effectuate the other provisions of the plan. While the recommended change in the South Carolina amendment in its entirety would not be consistent with the Act, authorizing the Board to permit other organizations, whether State, local or otherwise, to collect assessments on its behalf, subject to the approval of the Secretary, would be consistent with the terms and conditions of the Act. Accordingly, a new paragraph § 1210.341(i) is included in the proposed plan permitting the Board, subject to approval of the Secretary, to enter into agreements authorizing other organizations to collect assessments on its behalf. Any agreements would be subject to the requirement of the Act, the plan and all applicable rules and regulations under the Act and the plan. The fee, or reimbursement, for collection services charged by the collecting organization should be reasonable and based upon the services rendered. Under that criteria, a 50 percent collection fee as proposed in the South Carolina amendment could not be approved.

Accordingly, the exceptions are denied to the extent to which they are inconsistent with the findings and conclusions contained herein.

Based upon exceptions received from Governor Campbell, Commissioner Tindal and Messrs. Bates, Youmans, Funderburk, Kinard and Oswald, the findings and conclusions of material issue number 3(i) of the recommended decision, specifically concerning the referendum procedures is expanded to include an explanation of how votes will be tabulated in the initial referendum that will be held to determine whether the proposed plan is favored by the industry and to include in the proposed provisions of the plan regarding tabulation of votes in referenda concerning termination or suspension of the plan or provisions thereof, to clarify the procedures concerning voting by each State in multi-state nominations and to include provisions in the proposed plan regarding the eligibility of producers and handlers concerning nomination and membership on the Board. The following nine paragraphs are added to material issue 3(i) after paragraph 4 to read as follows:

In their exceptions to the recommended decision, Governor Campbell, Commissioner Tindal, and Messrs. Bates, Youmans, Funderburk, Kinard and Oswald further suggest that separate referenda for producers and handlers should be held. They contend that the votes of producers and the votes of handlers should be counted separately so that it will be known just how each group feels about the proposed plan. Governor Campbell, Commissioner Tindal and Messrs. Bates, Youmans, Oswald and Funderburk suggest that the plan should be enacted only if ratified by both producers and handlers.

Section 1653 of the Act provides that votes in the initial referendum, or in subsequent referenda regarding amendments to the plan, would be tabulated two ways. The proposed plan, or subsequent amendments, would be approved if either one of the two ballot tabulation methods received a favorable vote. The proposed plan, or subsequent amendments, would be passed under the first tabulation method if the combined votes of at least two-thirds of all producers and handlers voting in the referendum are favorable. The proposed plan, or subsequent amendments, would be passed by the second tabulation method if votes representing at least two-thirds of the total volume of watermelons produced and handled by those voting in the referendum are favorable, as long as a majority of producers and a majority of handlers represented in the referendum vote in favor of the plan. The second tabulation method is very similar to the counting procedure recommended in the exceptions discussed above. If the proposal passes by the first method, the plan would become effective regardless of the outcome of the second tabulation method.

Persons voting in a referendum concerning formulating or amending a plan would certify their eligibility to vote and designate their status as either a watermelon producer or handler. Producers would certify the amount of watermelons acreage they harvested during the representative period of January 1, 1988, through December 31, 1988. Only producers of five or more acres of watermelons during this representative period would be eligible to vote in the referendum. Both producers and handlers would record the hundredweight volume of watermelons they produced or handled during the representative period. These figures would be used to determine the results of the second tabulation method based on volume of watermelons produced and handled by those voting.

The vote of a person who both produces and handles watermelons would be counted as a producer vote if that person handles 50 percent or less of that person's own production during the representative period. If the person handles more than 50 percent of that person's own production during the representative period, then that person's vote should be counted as a handler vote. This determination is consistent with testimony provided at the public hearing regarding the Board member nomination process. The record indicates that for purposes of the nomination process, producers should properly be considered producers until they handle more than 50 percent of the watermelons they produce. The record testimony also indicates that there is concern that persons who are handlers should be represented by handlers and that persons who are producers should be represented by producers. The Department finds that a 50 percent benchmark, as described above, is an equitable standard through which the interests of both handlers and producers may be best served.

For the reasons set forth herein, a change is made to paragraph 1230.363(b) of the proposed plan so as to make the tabulation of votes in a termination or suspension referendum consistent with that conducted in a referendum for formulation of or amendment to a plan.

In addition, paragraph 1210.321(d)(3) of the proposed plan as published in the recommended decision has been expanded to clarify that delegations from each State in a multi-State nominations' convention should have one vote for each producer position and one vote for each handler position from that district on the Board.

For the reasons set forth herein and for purposes of consistency, the same criteria for producer and handler voting that would apply to referenda should also apply to membership on the National Watermelon Promotion Board and to participation in the nominations process for producer and handler representatives on the Board. Thus, producers who handle 50 percent or less

of their own production should be considered producers for purposes of taking part in the Board nominations process and for serving on the Board. Producers who handle more than 50 percent of their own production should be considered as handlers for purposes of taking part in the Board nominations process and for serving on the Board.

Accordingly, the Department proposes adopting the 50 percent criteria for eligibility to participate in the Board member nominations process and for membership on the Board. Therefore paragraphs 1210.321(c) and 1210.321(d)(1) of the proposed plan have ben revised to clarify when producers or handlers are eligible to participate in the Board member nomination process and serve on the Board as producers and when they are eligible to participate in the nomination process and serve on the Board as handlers.

To the extent that the exceptions are inconsistent with the findings and conclusions herein, they are denied.

The findings and conclusions of material issue number 3(i) of the Recommended Decision specifically concerning miscellaneous changes for clarity are amended by striking paragraph 6 of material issue 3(i) and inserting the following paragraph in place thereof to read as follows:

Miscellaneous changes are made for clarity to the index and the headings and to § 1210.308 of the proposed plan.

Rulings on Exceptions

In arriving at the findings and conclusions and the regulatory provisions of this decision, the exceptions to the Recommended Decision were carefully considered in conjunction with the record evidence. To the extent that the findings and conclusions and the regulatory provisions of this decision are at variance with the exceptions, such exceptions are hereby denied for the reasons previously stated in this decision.

General Findings

Upon the basis of the evidence introduced at such hearing, and the record thereof, it is found that:

(1) The proposed plan, and all of its terms and conditions thereof, as hereinafter set forth, will tend to effectuate the declared policy of the Act;

(2) The proposed plan regulates the handling of watermelons in the contiguous 48 States in the same manner as, and is applicable only to persons in the respective classes of commerical or industrial activity specified in, a proposed plan upon which a hearing has been held;

(3) The handling of watermelons in the contiguous 48 States, as defined in the plan, is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

(4) The proposed plan is applicable only to persons involved in the production of and first handling of watermelons, as specified in the Act.

It is hereby ordered, that this entire decision be published in the **Federal Register**.

Referendum Order

It is hereby directed that a referendum be conducted for the Watermelon Research and Promotion Plan in accordance with the procedure for the conduct of referenda [7 CFR Part 1210.200] as published elsewhere in today's **Federal Register** to determine whether the issuance of the proposed plan is approved or favored by the producers and handlers, as defined in the plan, who during the representative period were engaged in the production or first handling of watermelons within the contiguous 48 States. The representative period is hereby determined to be the calendar year January 1, 1988 through December 31, 1988. The referendum ballot shall provide only for the approval or disapproval of the plan.

The Agents of the Secretary to conduct the referendum are hereby designated to be Arthur L. Pease and Richard Mathews, Fruit and Vegetable Division, Agricultural Marketing Service, P.O. Box 96456, U.S. Department of Agriculture, Washington, DC 20090–6456. The referendum shall be conducted from February 6–21, 1989.

List of Subjects in 7 CFR Part 1210

Watermelons, Agricultural research, Agricultural promotion, Market development.

Final Plan

The following plan shall be the detailed means by which the foregoing conclusions may be carried out:

On and after the effective date hereof, Chapter XI of Title 7 shall be amended by adding a subpart to Part 1210.

PART 1210—WATERMELON RESEARCH AND PROMOTION PLAN

1. The authority citation for Part 1210 continues to read as follows:

Authority: 7 U.S.C. 4901–4916.

2. The subpart—Watermelon Research and Promotion Plan, consisting at §§ 1210.301 through 1210.367, is proposed to be added as follows:

Subpart—Watermelon Research and Promotion Plan

Definitions

Sec.

1210.301 Secretary.
1210.302 Act.
1210.303 Plan.
1210.304 Board.
1210.305 Watermelon.
1210.306 Producer.
1210.307 Handle.
1210.308 Handler.
1210.309 Person.
1210.310 Fiscal period and marketing year.
1210.311 Programs and projects.
1210.312 Promotion.
1210.313 Research.

National Watermelon Promotion Board

1210.320 Establishment and membership.
1210.321 Nominations and selection.
1210.322 Term of office.

1210.350 Reports.
1210.351 Books and records.
1210.352 Confidential treatment.

Miscellaneous

1210.360 Right of the Secretary.
1210.361 Personal liability.
1210.362 Influencing governmental action.
1210.363 Suspension or termination.
1210.364 Proceedings after termination.
1210.365 Effect of termination or amendment.
1210.366 Separability.
1210.367 Patents, copyrights, inventions, and publications.

Subpart—Watermelon Research and Promotion Plan

Definitions

§ 1210.301 Secretary.

"Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the Department to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in the Secretary's stead.

§ 1210.302 Act.

"Act" means the Watermelon Research and Promotion Act of 1985,

(Title XVI, Subtitle C of Pub. L. 99–198, 99th Congress, effective January 1, 1986, 99 Stat. 1622).

§ 1210.303 Plan.

"Plan" means this watermelon research and promotion Plan issued by the Secretary pursuant to the Act.

§ 1210.304 Board.

"Board" means the National Watermelon Promotion Board, hereinafter established pursuant to § 1210.320.

§ 1210.305 Watermelon.

"Watermelon" means all varieties of the Family Curcubitaceae; Genus and Species; Citrullus Lanatus popularly referred to as watermelon grown by producers in the 48 contiguous States of the United States.

§ 1210.306 Producer.

"Producer" means any person engaged in the growing of five acres or more of watermelons including any person who owns or shares the ownership and risk of loss of such watermelon crop.

§ 1210.307 Handle.

"Handle" means to grade, pack, process, sell, transport, purchase, or in any other way to place or cause watermelons to which one has title or possession to be placed in the current of commerce. Such term shall not include the transportation or delivery of field run watermelons by the producer thereof to handler for grading, sizing or processing.

§ 1210.308 Handler.

"Handler" means any person (except a common or contract carrier of watermelons owned by another person) who handles watermelons, including a producer who handles watermelons of the producer's own production. For the purposes of this subpart, the term "handler" means the "first" person who performs the handling functions.

§ 1210.309 Person.

"Person" means any individual, group of individuals, partnership, corporation, association, cooperative, or other entity.

§ 1210.310 Fiscal period and marketing year.

"Fiscal period" and "marketing year" mean the 12 month period from January 1 to December 31 or such other period which may be approved by the Secretary.

§ 1210.311 Programs and projects.

"Programs" and "projects" mean those research, development, advertising, or promotion programs or projects developed by the Board pursuant to § 1210.331.

§ 1210.312 Promotion.

"Promotion" means any action taken by the Board, pursuant to the Act, to present a favorable image for watermelons to the public with the express intent of improving the competitive position of watermelons in the marketplace and stimulating sales of watermelons, and shall include, but not be limited to, paid advertising.

§ 1210.313 Research.

"Research" means any type of systematic study or investigation, and/or the evaluation of any study or investigation designed to advance the image, desirability, usage, marketability, production, or quality of watermelons.

National Watermelon Promotion Board

§ 1210.320 Establishment and membership.

(a) There is hereby established a National Watermelon Promotion Board, hereinafter called the "Board". The Board shall be composed of producers and handlers and one public representative appointed by the Secretary. An equal number of producer and handler representatives shall be nominated by producers and handlers pursuant to § 1210.321. The public representative shall be nominated by the producer and handler Board members in such manner as may be prescribed by the Secretary. If producers and handlers fail to select nominees for appointment to the Board, the Secretary may appoint persons on the basis of representation as provided in § 1210.324. If the Board fails to adhere to procedures prescribed by the Secretary for nominating a public representative, the Secretary shall appoint such representative.

(b) Membership on the Board shall be determined on the basis of two handler and two producer representatives for each of seven districts in the contiguous States of the United States. Such districts as hereby established have approximately equal production volume according to the three-year average production as set fourth in the USDA Crop Production Annual Summary Reports for 1979, 1980, and 1981. They are:

District #1—South Florida including all areas south of State Highway 50.
District #2—North Florida including all areas north of State Highway 50.
District #3—The States of Alabama and Georgia.
District #4—The States of South Carolina, North Carolina, Virginia, Delaware, Maryland, West Virginia, Pennsylvania, New Jersey, New York, Ohio, Michigan, Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire, and Maine.
District #5—The States of Mississippi, Kentucky, Tennessee, Louisiana, Arkansas, Missouri, Illinois, Indiana, Iowa, Kansas, Nebraska, Oklahoma, Wisconsin, Minnesota, North Dakota, South Dakota, Colorado, and New Mexico.
District #6—The State of Texas.
District #7—The States of Arizona, California, Nevada, Utah, Oregon, Idaho, Wyoming, Washington, and Montana.

(c) After two years, the Board shall review the districts to determine whether realignment of the districts is necessary and at least every five years thereafter the Board shall make such a review. In making such review, it shall give consideration to:

(1) The most recent three years USDA production reports or Board assessment reports if USDA production reports are unavailable;

(2) Shifts and trends in quantities of watermelon produced, and

(3) Other relevant factors.

As a result of this review, the Board may realign the districts subject to the approval of the Secretary. Any such realignment shall be recommended by the Board to the Secretary at least six months prior to the date of the call for nominations and shall become effective at least 30 days prior to such date.

§ 1210.321 Nominations and selection.

The Secretary shall appoint the members of the Board from nominations to be made in the following manner:

(a) Except for initial Board members whose nomination process should be conducted by the Secretary, the Board shall issue a call for nominations by February first of each year in which an election is to be held. The call shall include at a minimum, the following information:

(1) A list of the vacancies and qualifications as to producers and handlers by district for which nominees may be submitted.

(2) The date by which the nominees shall be submitted to the Secretary for consideration to be in compliance with § 1210.323 of this subpart.

(3) A list of those States by district entitled to participate in the nomination process.

(4) The date, time, and location of any next scheduled meeting of the Board, national and State producer or handler associations, and district conventions if any.

(b) Nominations for positions that will become vacant shall be made by district convention in the district entitled to nominate. Notice of such convention shall be publicized to all producers and handlers within such district, and the Secretary at least ten days prior to said event. The notice shall have attached to it the call for nominations from the Board. The responsibility for convening and publicizing the district convention shall be that of the then members of the Board from that district.

(c) All producers and handlers within the district may participate in the convention: *Provided,* That producers who handle 50 percent or less of their own production may vote for producer members only, and producers who handle more than 50 percent of their own production may vote for handler members only; and *Provided further,* That if a producer or handler is engaged in the production or handling of watermelons in more than one State or district, the producer or handler shall participate within the State or district in which the producer or handler so elects in writing to the Board and such election shall remain controlling until revoked in writing to the Board.

(d) The district convention shall conduct the selection process for the nominees in accordance with procedures to be adopted at each such convention, subject to the following requirements:

(1) There shall be two individuals nominated for each vacant position. Each nominee shall meet the qualifications set forth in the call: *Provided,* That producers who handle 50 percent or less of their own production may be nominated for producer positions only, and producers who handle more than more than 50 percent of their own production may be nominated for handler positions only; and *Provided further,* That if a producer or handler is engaged in the production or handling of watermelons in more than one State or district, the producer or handler shall participate within the State or district in which the producer or handler so elects in writing to the Board and such election shall remain controlling until revoked in writing to the Board.

(2) No State in Districts 3, 4, 5 and 7 as currently constituted shall have more than three representatives concurrently on the Board.

(3) Each State represented at the district convention shall have one vote for each producer position and one vote for each handler position from the District on the Board, which vote shall be determined by the producers and handlers from that State by majority vote. Each State shall further have an additional vote for each five hundred thousand hundredweight volume as determined by the three year average annual crop production summary reports of the USDA, or if such reports are not published, then the three year average of the Board assessment reports: *Provided,* That for the first two calls for nominees, the USDA Crop Production Annual Summary Reports for 1979, 1980, and 1981 will be controlling as to any additional production volume votes.

§ 1210.322 Term of office.

(a) The term of office of Board members shall be three years, except that the members of the initial Board shall serve terms as follows: the four producers and four handlers from district 1 (south Florida) and district 6 (Texas), and the public member shall serve one-year initial terms; four producers and four handlers from district 2 (north Florida) and district 3 (Georgia and Alabama) shall serve two-year initial terms; and the remaining six producers and six handlers from districts 4, 5 and 7 shall serve three-year initial terms.

(b) The term of office for the initial Board shall begin immediately following appointment by the Secretary. Time in the interim period, from appointment until the term begins pursuant to this section, shall not count toward the initial "term of office". In subsequent years, the term of office shall begin on January 1 or such other period which may be approved by the Secretary.

(c) Board members shall serve during the term of office for which they are selected and have qualified, and until their successors are selected and have qualified.

(d) No member shall serve more than two successive terms: *Provided,* That those members serving initial terms of one year may serve two additional consecutive three-year terms.

§ 1210.323 Acceptance.

Each person nominated for membership on the Board shall qualify by filing a written acceptance with the Secretary. Such written acceptance shall accompany the nomination list required by § 1210.321.

§ 1210.324 Vacancies.

(a) In the event any member of the Board ceases to be a member of the category of members from which the member was appointed to the Board, such position shall automatically become vacant.

(b) If a member of the Board consistently refuses to perform the duties of a member of the Board, or if a member of the Board engages in acts of dishonesty or willful misconduct, the Board may recommend to the Secretary that the member be removed from office. If the Secretary finds the recommendation of the Board shows adequate cause, the Secretary shall remove such member from office. Further, without recommendation of the Board a member may be removed by the Secretary upon showing of adequate cause, if the Secretary determines that the person's continual services would be detrimental to the purposes of the Act.

(c) To fill any vacancy caused by the failure of any person selected as a member of the Board to qualify, or in the event of the death, removal, resignation, or disqualification of any member, a successor shall be nominated and selected in the manner specified in § 1210.321, except that said nomination and replacement shall not be required if the unexpired term of office is less than six months. In the event of failure to provide nominees for such vacancies, the Secretary may appoint other eligible persons.

§ 1210.325 Procedure.

(a) Fifteen Board members shall constitute a quorum and any action of the Board shall require the concurring votes of a majority of those present and voting. At assembled meetings all votes shall be cast in person.

(b) For routine and noncontroversial matters which do not require deliberation and the exchange of views, and for matters of an emergency nature when there is not enough time to call an assembled meeting, the Board may act upon a majority of concurring votes of its members cast by mail, telegraph, telephone, or by other means of communication: *Provided,* That each member receives an accurate, full, and substantially identical explanation of each proposition. Telephone votes shall be promptly confirmed in writing. All votes shall be recorded in the Board minutes.

§ 1210.326 Compensation and reimbursement.

Board members shall serve without compensation but shall be reimbursed for reasonable expenses incurred by them in the performance of their duties as Board members.

§ 1210.327 Powers.

The Board shall have the following powers subject to § 1210.363:

(a) To administer the provisions of this Plan in accordance with its terms and conditions;

(b) To make rules and regulations to effectuate the terms and conditions of this Plan;

(c) To require its employees to receive, investigate, and report to the Secretary complaints of violations of this Plan; and

(d) To recommend to the Secretary amendments to this Plan.

§ 1210.328 Duties.

The Board shall, among other things, have the following duties:

(a) To meet, organize, and select from among its members a president and such other officers as may be necessary; to select committees and subcommittees of board members; to adopt such rules for the conduct of its business as it may deem advisable; and it may establish working committees of persons other than Board members.

(b) To employ such persons as it may deem necessary and to determine the compensation and define the duties of each; and to protect the handling of Board funds through fidelity bonds;

(c) To prepare and submit for the Secretary's approval, prior to the beginning of each fiscal period, a recommended rate of assessment and a fiscal period budget of the anticipated expenses in the administration of this Plan, including the probable costs of all programs and projects;

(d) To develop programs and projects, which must be approved by the Secretary before becoming effective, and enter into contracts or agreements, with the approval of the Secretary, for the development and carrying out of programs or projects of research, development, advertising or promotion, and the payment of the costs thereof with funds collected pursuant to this Plan;

(e) To keep minutes, books, and records which clearly reflect all of the acts and transactions of the Board. Minutes of each Board meeting shall be promptly reported to the Secretary;

(f) To prepare and submit to the Secretary such reports from time to time as may be prescribed for appropriate accounting with respect to the receipt and disbursement of funds entrusted to the Board;

(g) To cause the books of the Board to be audited by a certified public accountant at least once each fiscal period, and at such other time as the Board may deem necessary. The report of such audit shall show the receipt and expenditure of funds collected pursuant to this part. Two copies of each such report shall be furnished to the Secretary and a copy of each such report shall be made available at the principal office of the Board for inspection by producers and handlers;

(h) To investigate violations of the Plan and report the results of such investigations to the Secretary for appropriate action to enforce the provisions of the Plan;

(i) To periodically prepare, make public and make available to producers and handlers reports of its activities carried out.

(j) To give the Secretary the same notice of meetings of the Board and its subcommittees as is given to its members;

(k) To act as intermediary between the Secretary and any producer or handler;

(l) To furnish the Secretary such information as the Secretary may request;

(m) To notify watermelon producers and handlers of all Board meetings through press releases or other means;

(n) To appoint and convene, from time to time, working committees drawn from producers, handlers and the public to assist in the development of research and promotion programs for watermelons; and

(o) To develop and recommend such rules and regulations to the Secretary for approval as may be necessary for the development and execution of programs or projects to effectuate the declared purpose of the Act.

Research and Promotion

§ 1210.330 Policy and objective.

It shall be the policy of the Board to carry out an effective, continuous, and coordinated program of research, development, advertising, and promotion in order to:

(a) Strengthen watermelons' competitive position in the marketplace,

(b) Maintain and expand existing domestic and foreign markets, and

(c) Develop new or improved markets.

It shall be the objective of the Board to carry out programs and projects which will provide maximum benefit to the watermelon industry.

§ 1210.331 Programs and projects.

The Board shall develop and submit to the Secretary for approval any programs or projects authorized in this section. Such programs or projects shall provide for:

(a) The establishment, issuance, effectuation and administration of appropriate programs or projects for advertising and other sales promotion of watermelons designed to strengthen the position of the watermelon industry in the marketplace and to maintain, develop, and expand markets for watermelons;

(b) Establishing and carrying out research and development projects and studies to the end that the acquisition of knowledge pertaining to watermelons or their consumption and use may be encouraged or expanded, or to the end that the marketing and use of watermelons may be encouraged, expanded, improved, or made more efficient: *Provided,* That quality control, grade standards, supply management programs or other programs that would otherwise limit the right of the individual watermelon producer to produce watermelons shall not be conducted under, or as a part of, this Plan;

(c) The development and expansion of watermelon sales in foreign markets;

(d) A prohibition on advertising or other promotion programs that make any reference to private brand names or use false or unwarranted claims on behalf of watermelons or false or unwarranted statements with respect to the attributes or use of any competing product;

(e) Periodic evaluation by the Board of each program or project authorized under this Plan to insure that each program or project contributes to an effective and coordinated program of research and promotion and submission of such evaluation to the Secretary. If the Board or the Secretary finds that a program or project does not further the purposes of the Act, then the Board or the Secretary shall terminate such program or project; and

(f) The Board to enter into contracts or make agreements for the development and carrying out of research and promotion and pay for the costs of such contracts or agreements with funds collected pursuant to § 1210.341.

Expenses and Assessments

§ 1210.340 Budget and expenses.

(a) Prior to the beginning of each fiscal period, or as may be necessary thereafter, the Board shall prepare and recommend a budget on a fiscal period basis of its anticipated expenses and disbursements in the administration of this Plan, including probable costs of research, development, advertising, and promotion. The Board shall also recommend a rate of assessment calculated to provide adequate funds to defray its proposed expenditures and to provide for a reserve as set forth in § 1210.344.

(b) The Board is authorized to incur such expenses for research, development, advertising, or promotion

of watermelons, such other expenses for the administration, maintenance, and functioning of the Board as may be authorized by the Secretary, and any referendum and administrative costs incurred by the Department of Agriculture. The funds to cover such expenses shall be paid from assessments collected pursuant to § 1210.341.

§ 1210.341 Assessments.

(a) During the effective period of this subpart, assessments shall be levied on all watermelons produced and all watermelons first handled for consumption as human food. No more than one assessment on a producer nor more than one assessment on a handler shall be made on any lot of watermelons. The handler shall be assessed an equal amount on a per unit basis as the producer. If a person performs both producing and handling functions, both assesments shall be paid by such person.

(b) Assessment rates shall be fixed by the Secretary in accordance with § 1647(f), of the Act: *Provided,* That the maximum assessment shall not exceed two cents per hundredweight for producers and two cents per hundredweight for handlers. No assessments shall be levied on watermelons grown by producers of less than five acres of watermelons.

(c) Each handler, as defined, is responsible for payment to the Board of both the producer's and the handler's assessment pursuant to regulations issued hereunder. The handler may collect producer assessments from the producer or deduct such assessments from the proceeds paid to the producer on whose watermelons the assessments are made. The handler shall maintain separate records for each producer's watermelons handled, including watermelons produced by said handler. In addition, the handler shall indicate the total quantity of watermelons handled by the handler, including those that are exempt under this Plan, and such other information as may be prescribed by the Board.

(d) Assessments shall be paid to the Board at such time and in such manner as the Board, with the Secretary's approval, directs pursuant to regulations issued hereunder. Such regulations may provide for different handlers or classes of handlers and different handler payment and reporting schedules to recognize differences in marketing practices or procedures used in any State or production area.

(e) There shall be a late payment charge imposed on any handler who fails to remit to the Board the total amount for which any such handler is liable on or before the payment due date established by the Board under paragraph (d) of this section. The amount of the late payment charge shall be set by the Board subject to approval by the Secretary.

(f) There shall also be imposed on any handler subject to a late payment charge, an additional charge in the form of interest on the outstanding portion of any amount for which the handler is liable. The rate of such interest shall be prescribed by the Board subject to approval by the Secretary.

(g) The Board is hereby authorized to accept advance payment of assessments by handlers that shall be credited toward any amount for which the handlers may become liable. The Board shall not be obligated to pay interest on any advance payment.

(h) The Board is hereby authorized to borrow money for the payment of administrative expenses subject to the same fiscal, budget, and audit controls as other funds of the Board.

(i) The Board may authorize other organizations to collect assessments in its behalf with the approval of the Secretary. Any reimbursement by the Board for such services shall be based on reasonable charges for services rendered.

§ 1210.342 Exemption from assessment.

The Board may exempt watermelons used for nonfood purposes from the provisions of this Plan and shall establish adequate safeguards against improper use of such exemptions.

§ 1210.343 Producer and handler refunds.

Any producer or handler against whose watermelons an assessment is made and collected under this Plan and who is not in favor of supporting the research, development, advertising, and promotion program provided for under this Plan shall have the right to demand and receive from the Board a refund of such assessment upon submission of proof satisfactory to the Board that the producer or handler paid the assessment for which refund is sought. Any such demand shall be made personally by such producer or handler on a form which the producer or handler shall sign and within a time period prescribed by the Board pursuant to regulations. Such time period shall give the producer or handler at least 90 days from the date of collection to submit the refund request form to the Board. Any such refund shall be made within 60 days after demand therefore.

§ 1210.344 Operating reserve.

The Board may establish an operating monetary reserve and may carry over to subsequent fiscal periods excess funds in a reserve so established: *Provided,* That funds in the reserve shall not exceed approximately two fiscal periods' expenses. Such reserve funds may be used to defray any expenses authorized under this subpart.

Reports, Books, and Records

§ 1210.350 Reports.

Each handler shall maintain a record with respect to each producer for whom watermelons were handled and for watermelons produced and handled by the handler. Handlers shall report to the Board at such times and in such manner as the Board may prescribe by regulations whatever information as may be necessary in order for the Board to perform its duties. Such reports may include, but shall not be limited to, the following information:

(a) Total quantity of watermelons handled for each producer and by the handler, including those which are exempt under this Plan;

(b) Total quantity of watermelons handled for each producer and by the handler, on which the producer assessment was collected;

(c) Name and address of each person from whom an assessment was collected, the amount collected from each person, and the date such collection was made; and

(d) Name and address of each person claiming exemption from assessment and a copy of each such person's claim of exemption.

§ 1210.351 Books and records.

Each handler subject to this Plan shall maintain, and during normal business hours make available, for inspection by employees of the Board or Secretary, such books and records as are necessary to carry out the provisions of this Plan and the regulations issued thereunder, including such records as are necessary to verify any required reports. Such records shall be maintained for two years beyond the fiscal period of their applicability.

§ 1210.352 Confidential treatment.

(a) All information obtained from the books, records, or reports required to be maintained under §§ 1210.350 and 1210.351 shall be kept confidential and shall not be disclosed to the public by any person. Only such information as the Secretary deems relevant shall be disclosed to the public and then only in a suit or administrative hearing brought at the direction, or on the quest, of the

VOL 53 ISS 244 DE 20 1988 UMI

Secretary, or to which the Secretary or any officer of the United States is a party, and involving this Plan: Except that nothing in this subpart shall be deemed to prohibit:

(1) The issuance of general statements based on the reports of a number of handlers subject to this Plan if such statements do not identify the information furnished by any person; or

(2) The publication by direction of the Secretary of the name of any person violating this Plan together with a statement of the particular provisions of this Plan violated by such person.

(b) Any disclosure of confidential information by any employee of the Board, except as required by law, shall be considered willful misconduct.

Miscellaneous

§ 1210.360 Right of the Secretary.

All fiscal matters, programs or projects, rules or regulations, reports, or other substantive actions proposed and prepared by the Board shall be submitted to the Secretary for approval.

§ 1210.361 Personal liability.

No member or employee of the Board shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member or employee, except for acts of dishonesty or willful misconduct.

§ 1210.362 Influencing government action.

No funds collected by the Board under this plan shall in any manner be used for the purpose of influencing governmental policy or action, except for making recommendations to the Secretary as provided in this subpart.

§ 1210.363 Suspension or termination.

(a) Whenever the Secretary finds that this Plan or any provision thereof obstructs or does not tend to effectuate the declared policy of the Act, the Secretary shall terminate or suspend the operation of this Plan or such provision thereof.

(b) The Secretary may conduct a referendum at any time, and shall hold a referendum on request of the Board or of 10 percent or more of the watermelon producers and handlers to determine if watermelon producers and handlers favor termination or suspension of this Plan. The Secretary shall suspend or terminate this Plan at the end of the marketing year whenever the Secretary determines that the suspension or termination is favored by a majority of the watermelon producers and handlers voting in such referendum who, during a representative period determined by the Secretary, have been engaged in production or handling of watermelons and who produced or handled more than 50 percent of the volume of watermelons produced or handled by those producers and handlers voting in the referendum. For purposes of this section, the vote of a person who both produces and handles watermelons will be counted as a producer vote if that person handles 50 percent or less of that person's own production during a representative period, and will be counted as a handler vote if that person handles more than 50 percent of that person's own production during a representative period. Any such referendum shall be conducted at county extension offices.

§ 1210.364 Proceedings after termination.

(a) Upon the termination of this Plan, the Board shall recommend not more than five of its members to the Secretary to serve as trustees for the purpose of liquidating the affairs of the Board. Such persons, upon designation by the Secretary, shall become trustees of all funds and property then in possession or under control of the Board, including claims for any funds unpaid or property not delivered or any other claim existing at the time of such termination.

(b) The said trustees shall:

(1) Continue in such capacity until discharged by the Secretary;

(2) Carry out the obligations of the Board under any contracts or agreements entered into by it pursuant to § 1210.328(d);

(3) From time-to-time account for all receipts and disbursements and deliver all property on hand, together with all books and records of the Board and of the trustees, to person or persons as the Secretary may direct; and

(4) Upon the request of the Secretary execute such assignments or other instruments necessary or appropriate to vest in such person or persons full title and right to all the funds, property, and claims vested in the Board or the trustees pursuant to this section.

(c) Any person to whom funds, property, or claims have been transferred or delivered pursuant to this section shall be subject to the same obligation imposed upon the Board and upon the trustees.

(d) A reasonable effort shall be made by the Board or its trustees to return to producers and handlers any residual funds not required to defray the necessary expenses of liquidation. If it is found impractical to return such remaining funds to producers and handlers, such funds shall be disposed of in such manner as the Secretary may determine to be appropriate.

§ 1210.365 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this Plan or any regulation issued pursuant thereto, or the issuance of any amendment to either thereof, shall not:

(a) Affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this Plan or any regulation issued thereunder, or (b) Release or extinguish any violation of this Plan or any regulation issued thereunder, or

(c) Affect or impair any rights or remedies of the United States, or of the Secretary, or of any other person with respect to any such violation.

§ 1210.366 Separability.

If any provision of this Plan is declared invalid or the applicability thereof to any person or circumstance is held invalid, the validity of the remainder of this Plan or applicability thereof to other persons or circumstances shall not be affected thereby.

§ 1210.367 Patents, copyrights, inventions, and publications.

Any patents, copyrights, inventions, product formulations, or publications developed through the use of funds collected under the provisions of this Plan shall be the property of the United States government as represented by the Board. Funds generated by such patents, copyrights, inventions, product formulations, or publications shall be considered income subject to the same fiscal, budget, and audit controls as other funds of the Board. Upon termination of this part, § 1210.364 shall apply to determine the disposition of all such property.

Signed at Washington, DC on December 15, 1988.

Robert B. Melland,

Deputy Assistant Secretary of Agriculture, Marketing & Inspection Services.

BILLING CODE 3410-02-M

Rural Electrification Administration

7 CFR Part 1772

REA Bulletin 345-165, General Specification for Digital, Stored Program Controlled Central Office Equipment, REA Form 522

AGENCY: Rural Electrification Administration, U.S. Department of Agriculture.

VOL 53 ISS 244 DEC 20 1988 UMI

ACTION: Proposed rule.

SUMMARY: The Rural Electrification Administration (REA) proposes to amend 7 CFR 1772.97, Incorporation by Reference of Telephone Standards and Specifications by issuing revised REA Bulletin 345–165, General Specification for Digital, Stored Program Controlled Central Office Equipment, REA Form 522, to keep it abreast of the fast changing technology of electronic telephone central office equipment. The specification will include new developments considered advantageous to REA borrowers and their subscribers. All manufacturers of digital central office equipment and eventually all the REA telephone borrowers and their consulting engineers will be impacted.

DATE: Public comments must be received by REA no later than January 19, 1989.

ADDRESS: Submit written comments to William W. Kelly, Director, Telecommunications Staff Division, Rural Electrification Administration, Room 2835, South Building, U.S. Department of Agriculture, Washington, DC 20250–1500.

Copies of the document are available upon request from the address indicated above. Interested persons are invited to submit comments on this action. Written comments must be sent to the address stated above. All written submissions made pursuant to this action will be made available for public inspection during regular business hours at the above address.

FOR FURTHER INFORMATION CONTACT: Dean A. Dion, Chief, Central Office Equipment Branch, Telecommunications Staff Division, Rural Electrification Administration, Washington, DC 20250–1500, telephone (202) 382–8671. The Draft Impact Analysis describing the options considered in developing this proposed rule and the impact of implementing each option is available on request from the above office.

SUPPLEMENTARY INFORMATION: Pursuant to the Rural Electrification Act, as amended (7 U.S.C. 901 et seq.), REA proposes to amend 7 CFR 1772.97, Incorporation by Reference of Telephone Standards and Specifications, by issuing revised REA Bulletin 345–165, General Specification for Digital, Stored Program Controlled Central Office Equipment, REA Form 522. This incorporation by reference was approved by the Director of the Federal Register on December 30, 1983.

This proposed action has been reviewed in accordance with Executive Order 12291, Federal Regulation. This action will not (1) have an annual effect on the economy of $100 million or more; (2) result in a major increase in costs or prices for consumers, individual industries, Federal, State or local government agencies, or geographic regions; (3) result in significant adverse effects on competition, employment, investment or productivity, innovation, or on the ability of the United States-based enterprises to compete with foreign-based enterprises in domestic or export markets and therefore has been determined to be "not major."

This action does not fall within the scope of the Regulatory Flexibility Act. REA has concluded that promulgation of this rule would not represent a major Federal action significantly affecting the quality of the human environment under the National Environmental Policy Act of 1969 (42 U.S.C. 432 *et seq.* (1976)) and, therefore, does not require an environmental impact statement or an environmental assessment.

This regulation contains no information or recordkeeping requirement which requires approval under the Paperwork Reduction Act of 1980 (44 U.S.C. 3507 *et seq.*).

This program is listed in the Catalog of Federal Domestic Assistance under No. 10.851 "Rural Telephone Loans and Loan Guarantees" and 10.852 "Rural Telephone Banks Loans".

For the reasons set forth in the Final Rule related Notice to 7 CFR Part 3015, Subpart V (50 FR 47034, November 14, 1985), this program is excluded from the scope of Executive Order 12372 which requires intergovernmental consultation with State and local officials.

Background

REA has issued a series of publications entitled "bulletins" which serve to implement the policy, procedures, and requirements for administering its loans and loan guarantee programs and the security instruments which provide for and secure REA financing. In the bulletin series REA issues standards and specifications for the construction of telephone facilities financed with REA loan funds. REA is proposing to revise Bulletin 345–165 the REA General Specification for Digital, Stored Program Controlled Central Office Equipment, REA Form 522.

The REA specification needs to be revised periodically to incorporate technical changes which are considered advantages to the REA telephone borrowers and their subscribers. This revision will permit the borrowers to purchase equipment with built-in revenue producing features rather than having to purchase expensive adds-ons to their central office equipment at a later date. It will also improve the quality of the central office equipment, thereby reducing maintenance cost to the borrowers and their subscribers.

Major central office manufacturers presently have the ability to support the significant changes contained in this revision of the REA specification. Therefore, there should be little impact on them in complying with the new requirements.

List of Subjects in 7 CFR Part 1772

Loan programs—communications, Telecommunications, Telephone.

In view of the above, REA is proposing to amend 7 CFR Part 1772 by issuing a revised Bulletin 345–165.

PART 1772—[AMENDED]

1. The authority cited for Part 1772 is revised to read as follows, and all authorities following the sections are removed.

Authority: 7 U.S.C. 901 et seq., 7 U.S.C. 1921 et seq.

2. The table in § 1772.97 is amended by revising the entry for Bulletin 345–165 to read as follows:

§ 1772.97 Incorporation by Reference of Telephone Standards and Specifications.

* * * * *

345–165—Form 522—REA General Specification for Digital, Stored Program Controlled Central Office Equipment.

* * * * *

Dated: December 13, 1988.

Jack Van Mark,

Acting Administrator.

BILLING CODE 3410–15–M

NUCLEAR REGULATORY COMMISSION

10 CFR Part 140

Financial Protection Requirements and Indemnity Agreements; Miscellaneous Amendments Necessitated by Changes in the Price-Anderson Act

AGENCY: Nuclear Regulatory Commission.

ACTION: Proposed Rule.

SUMMARY: The Nuclear Regulatory Commission is proposing to amend its regulations to conform to changes made to the Price-Anderson Act by "The Price-Anderson Amendments Act of 1988," which was enacted on August 20, 1988. The Commission is also proposing to amend its regulations to increase the level of the primary layer of financial protection required of certain

indemnified licensees. The provisions of section 170 of the Atomic Energy Act of 1954, as amended, require production and utilization facility licensees to have and maintain financial protection to cover public liability claims. Therefore, the Commission is proposing to amend its regulations to coincide, as statutorily required, with the increase in the level of the primary layer of insurance provided by private nuclear liability insurance pools. This proposed change would provide additional insurance to pay public liability claims arising out of a nuclear incident.

DATES: The comment period expires January 4, 1989. Comments received after this date will be considered if it is practical to do so but the Commission is able to assure consideration only for comments on or before this date.

ADDRESSES: Mail comments to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Service Branch. Deliver comments to: 11555 Rockville Pike, Rockville, Maryland, between 7:30 a.m. and 4:15 p.m. Federal workdays. Examine copies of comments received at: The NRC Public Document Room, 2120 L Street NW., Washington, DC.

FOR FURTHER INFORMATION CONTACT: Ira Dinitz, Policy Development and Financial Evaluation Section, Policy Development and Technical Support Branch, Office of Nuclear Reactor Regulation, Telephone: (301) 492–1289.

SUPPLEMENTARY INFORMATION: On August 20, 1988, "The Price-Anderson Amendments Act of 1988" was enacted as Pub. L. 100–408. This legislation modifies and extends for 15 years (to August 1, 2002) the Price-Anderson Act. This notice proposes to amend certain provisions of 10 CFR Part 140 to conform to changes made by Pub. L. 100–408.

Section 170 of the Atomic Energy Act of 1954, as amended, (the Act) requires production and utilization facility licensees to have and maintain financial protection to cover public liability claims resulting from a nuclear incident or precautionary evacuation. Section 170 also requires the Nuclear Regulatory Commission to indemnify the licensee and other persons indemnified, up to the statutory limitation on liability, against public liability claims in excess of the amount of financial protection required. Subsection 170b. of the Act requires that for facilities designed for producing substantial amounts of electricity and having a rated capacity of 100,000 electrical kilowatts or more, the amount of financial protection required shall be the maximum amount available from private sources. Primary financial protection may be in the form of private insurance, private contractual indemnities, self-insurance or other proof of financial responsibility, or combination of such measures.

The insurers who provide the nuclear liability insurance, American Nuclear Insurers (ANI) and Mutual Atomic Energy Liability Underwriters (MAELU), have advised the Commission that the maximum amount of primary nuclear energy liability insurance available has been increased from $160 million to $200 million. Pursuant to the provisions of subsection 170b. of the Act, the amount of primary financial protection required for facilities having a rated capacity of 100,000 electrical kilowatts or more is proposed to be increased to $200 million.

Environmental Impact: Categorical Exclusion

The Commission has determined that this proposed rule is the type of action described as a categorical exclusion in 10 CFR 51.22(c)(1). Therefore, neither an environmental impact statement nor an environmental assessment has been prepared for this proposed rule.

Paperwork Reduction Act Statement

This proposed rule does not contain a new or amended information collection requirement subject to the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 et seq.) Existing requirements were approved by the Office of Management and Budget approval number 3150–0039.

Regulatory Flexibility Certification

In accordance with the Regulatory Flexibility Act of 1980 (5 U.S.C. 605(b)) the Commission hereby certifies that this proposed rule will not have a significant economic effect on a substantial number of small entities. This rule applies only to nuclear power plant licensees which are electric utility companies dominant in their service areas. These licensees are not "small entities" as set forth in the Regulatory Flexibility Act and do not meet the standards set forth for small businesses in Small Business Administration regulations in 13 CFR Part 121.

Backfit Analysis

The NRC has determined that the backfit rule, 10 CFR 50.109, does not apply to this proposed rule, and therefore, that a backfit analysis is not required for this proposed rule. These amendments are required to conform NRC regulations to statutory directives and do not involve any provisions which would impose backfits as defined in 10 CFR 50.109(a)(1).

List of Subjects in 10 CFR Part 140

Extraordinary nuclear occurrence, Insurance, Intergovernmental relations, Nuclear materials, Nuclear power plants and reactors, Penalty, Reporting and recordkeeping requirements.

For the reasons set out in the preamble and under the authority of the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended and 5 U.S.C. 552 and 553, the NRC is proposing to adopt the following amendments to 10 CFR Part 140.

PART 140—FINANCIAL PROTECTION REQUIREMENTS AND INDEMNITY AGREEMENTS

1. The authority citation for Part 140 continues to read as follows:

Authority: Secs. 161, 170, 68 Stat. 948, 71 Stat. 576, as amended (42 U.S.C. 2201 2210); secs. 201, as amended, 202, 88 Stat. 1242, as amended, 1244 (42 U.S.C. 5841, 5842).

For the purposes of sec. 223, 68 Stat. 958, as amended (42 U.S.C. 2273); §§ 140.11(a), 140.12(a), 140.13, and 140.13a are issued under sec. 161b., 68 Stat. 948, as amended (42 U.S.C. 2201(b)); and 8140.6 is issued under sec. 161o, 68 Stat. 950, as amended (42 U.S.C. 2201(o)).

2. In § 140.11 paragraph (a)(4) is revised to read as follows. The introductory text of (a) is republished for the convenience of the reader.

§ 140.11 Amounts of financial protection for certain reactors.

(a) Each license is required to have and maintain financial protection:

* * * * *

(4) In an amount equal to the sum of $200,000,000 and the amount available as secondary financial protection (in the form of private liability insurance available under an industry retrospective rating plan providing for deferred premium charges) for each nuclear reactor which is licensed to operate and which is designed for the production of electrical energy and a rated capacity of 100,000 electrical kilowatts or more: Provided, however, That under such a plan for deferred premium charges for each nuclear reactor which is licensed to operate, no more than $63,000,000 with respect to any nuclear incident and no more than $10,000,000 within one calendar year shall be charged.

3. In § 140.13a, paragraph (a) is revised to read as follows:

§ 140.13a Amount of financial protection required for plutonium processing and fuel fabrication plants.

(a) Each holder of a license issued pursuant to Part 70 of this chapter to

possess and use plutonium at a plutonium processsing and fuel fabrication plant is required to have and maintain financial protection in the form specified in § 140.14 in the amount of $200,000,000. Proof of financial protection shall be filed with the Commission in the manner in § 140.15 prior to issuance of the license under Part 70 of this chapter.

* * * * *

4. Section 140.92, Appendix B, is amended as follows:

a. Article I, paragraphs 1 and 7 are revised.

b. Article II, paragraph 4(c), introductory text of paragraph 8, and paragraphs 8(b) and 8(c) are revised.

c. Article III, paragraph 4(b) is revised.

d. Article VIII, paragraph 1 is revised.

§ 140.92 Appendix B—Form of indemnity agreement with licensees furnishing insurance policies as proof of financial protection.

* * * * *

Article I

* * * * *

1. "Nuclear reactor," "byproduct material," "person," "source material," "special nuclear material," and "precautionary evacuation" shall have the meanings given them in the Atomic Energy Act of 1954, as amended, and the regulations issued by the Commission.

* * * * *

7. "Public Liability" means any legal liability arising out of or resulting from a nuclear incident or precautionary evacuation (including all reasonable additional costs incurred by a State, or a political subdivision of a State, in the course of responding to a nuclear incident or precautionary evacuation), except (1) claims under State or Federal Workmen's Compensation Acts of employees of persons indemnified who are employed (a) at the location or, if the nuclear incident occurs in the course of transportation of the radioactive material, on the transporting vehicle, and (b) in connection with the licensee's possession, use or transfer of the radioactive material; (2) claims arising out of an act of war; and (3) claims for loss of, or damage to, or loss of use of (a) property which is located at the location and used in connection with the licensee's possession, use, or transfer of the radioactive material, and (b) if the nuclear incident occurs in the course of transportation of the radioactive material, the transporting vehicle, containers used in such transportation, and the radioactive material.

* * * * *

Article II

* * * * *

4. * * *

(c) Any issue or defense based on any statute of limitations if suit is instituted within 3 years from the date on which the claimant first knew, or reasonably could have known, of his injury or damage and the cause thereof.

The waiver of any such issue or defense shall be effective regardless of whether such issue or defense may otherwise be deemed jurisdictional or relating to an element in the cause of action. The waivers shall be judicially enforceable in accordance with their terms by the claimant against the person indemnified.

* * * * *

8. With respect to any common occurrence,

(a) If the sum of limit of liability of any Nuclear Energy Liability Insurance Association policy designated in Item 5 of the Attachment and the limits of liability of all other nuclear energy liability insurance policies (facility form) applicable to such common occurrence and issued by Nuclear Energy Liability Insurance Association exceeds $155,000,000 the amount of financial protection specified in Item 2 a and b of the Attachment shall be deemed to be reduced by that proportion of the difference between said sum and $155,000,000 as the limit of liability of the Nuclear Energy Liability Insurance Association policy designated in Item 5 of the Attachment bears to the sum of the limits of liability of all nuclear energy liability insurance policies (facility form) applicable to such common occurrence and issued by Nuclear Energy Liability Insurance Association;

(b) If the sum of the limit of liability of any Mutual Atomic Energy Liability Underwriters policy designated in Item 5 of the Attachment and the limits of liability of all other nuclear energy liability insurance policies (facility form) applicable to such common occurrence and issued by Mutual Atomic Energy Liability Underwriters exceeds $45,000,000, the amount of financial protection specified in Item 2 a and b of the Attachment shall be deemed to be reduced by that proportion of the difference between said sum and $45,000,000 as the limit of liability of the Mutual Atomic Energy Liability Underwriters policy designated in Item 5 of the Attachment bears to the sum of the limits of liability of all nuclear energy liability insurance policies (facility form) applicable to such common occurrence and issued by Mutual Atomic Energy Liability Underwriters;

(c) If any of the other applicable agreements is with a person who has furnished financial protection in a form other than a nuclear energy liability insurance policy (facility form) issued by Nuclear Energy Liability Insurance Association or Mutual Atomic Energy Liability Underwriters, and if also the sum of the amount of financial protection established under this agreement and the amounts of financial protection established under all other applicable agreements exceeds an amount equal to the sum of $200,000,000 and the amount available as secondary financial protection, the obligations of the licensee shall not exceed a greater proportion of an amount equal to the sum of $200,000,000 and the amount available as secondary financial protection, than the amount of financial protection established under this agreement bears to the sum of such amount and the amounts of financial protection established under all other applicable agreements.

* * * * *

Article III

* * * * *

4. * * *

(b) With respect to a common occurrence, the obligations of the Commission under this agreement shall apply only with respect to such public liability and such damage to property of persons legally liable for the nuclear incident (other than such property described in the proviso to paragraph 2 of this Article) as in the aggregate exceed whichever of the following is lower: (1) The sum of the amounts of financial protection established under this agreement and all other applicable agreements; or (2) an amount equal to the sum of $200,000,000 and the amount available as secondary financial protection.

* * * * *

Article VIII

* * * * *

1. Each licensee is required to have and maintain financial protection in an amount specified in Item 2 a and b of the Attachment annexed hereto, and the amount available as secondary financial protection (in the form of private liability insurance available under an industry retrospective rating plan providing for deferred premium charges); Provided, however, That under such a plan for deferred premium charges, such charges for each nuclear reactor which is licensed to operate shall not exceed $83,000,000 with respect to any single nuclear incident nor exceed $10,000,000 within one calendar year. If the licensee fails to pay assessed deferred premiums, the Commission reserves the right to pay those premiums on behalf of the licensee and to recover the amount of such premiums from the licensee.

* * * * *

5. Section 140.93, Appendix C, is amended as follows:

a. Article I, paragraphs 1 and 7 are revised.

b. Article II, paragraph 4(c) and 8 are revised.

c. Article III, paragraphs 4(b) is revised.

d. Article VIII, paragraph 1 is revised.

§ 140.93, Appendix C—Form of indemnity agreement with licensees furnishing proof of financial protection in the form of licensee's resources.

* * * * *

Article I

* * * * *

1. "Nuclear reactor," "byproduct material," "person," "source material," "special nuclear material," and "precautionary evacuation" shall have the meanings given them in the Atomic Energy Act of 1954, as amended, and the regulations issued by the Commission.

* * * * *

7. "Public liability" means any legal liability arising out of or resulting from a nuclear incident or precautionary evacuation (including all reasonable additional costs incurred by a State, or a political subdivision of a State, in the course of responding to a

nuclear incident or precautionary evacuation), except (1) claims under State or Federal Workmen's Compensation Acts of employees of persons indemnified who are employed (a) at the location or, if the nuclear incident occurs in the course of transportation of the radioactive material, on the transporting vehicle, and (b) in connection with the licensee's possession, use, or transfer of the radioactive material; (2) claims arising out of an act of war; and (3) claims for loss of, or damage to, or loss of use of (a) property which is located at the location and used in connection with the licensee's possession, use, or transfer of the radioactive material, and (b), if the nuclear incident occurs in the course of transportation of the radioactive material, the transporting vehicle, containers used in such transportation, and the radioactive material.

* * * * *

Article II

* * * * *

4. * * *

(c) Any issue or defense based on any statute of limitations if suit is instituted within 3 years from the date on which the claimant first knew, or reasonably could have known, of his injury or damage and the cause thereof.

The waiver of any such issue or defense shall be effective regardless of whether such issue or defense may otherwise be deemed jurisdictional or relating to an element in the cause of action. The waivers shall be judicially enforceable in accordance with their terms by the claimant against the person indemnified.

* * * * *

8. With respect to a common occurrence, if the sum of the amount of financial protection established under this agreement and the amount of financial protection established under all other applicable agreements exceeds an amount equal to the sum of $200,000,000 and the amount available as secondary financial protection, the obligations of the licensee described in paragraph 3 of this Article shall not exceed a greater proportion of an amount equal to the sum of $200,000,000 and the amount available as secondary financial protection than the amount of financial protection established under this agreement bears to the sum of such amount and the amounts of financial protection established under all other applicable agreements. As used in this paragraph, and in Article III, "other applicable agreements" means each other agreement entered into by the Commission pursuant to subsection 170c. of the Act in which agreement the nuclear incident is defined as a "common occurrence".

* * * * *

Article III

* * * * *

4. * * *

(b) With respect to a common occurrence, the obligations of the Commission under this agreement shall apply only with respect to such public liability and such damage to property of persons legally liable for the nuclear incident (other than such property described in the proviso to paragraph 2 of this Article) as in the aggregate exceed whichever of the following is lower: (1) The sum of the amounts of financial protection established under this agreement and to all other applicable agreements; or (2) an amount equal to the sum of $200,000,000 and the amount available as secondary financial protection.

* * * * *

Article VIII

* * * * *

1. Each licensee is required to have and maintain financial protection in an amount specified in Item 2 annexed hereto, and the amount available as secondary financial protection (in the form of private liability insurance available under an industry retrospective rating plan providing for deferred premium charges). Provided, however, that under such a plan for deferred premium charges, such charges for each nuclear reactor which is licensed to operate shall not exceed $63,000,000 with respect to any single nuclear incident nor exceed $10,000,000 within one calendar year. If the licensee fails to pay assessed deferred premiums, the Commission reserves the right to pay those premiums on behalf of the licensee and to recover the amount of such premiums from the licensee.

* * * * *

6. Section 140.94, Appendix D, is amended as follows:

a. Article I, paragraphs 1 and 6 are revised.

b. Article II, paragraphs 4(c) and 6 are revised.

§ 140.94 Appendix D—Form of indemnity agreement with Federal agencies.

* * * * *

Article I

* * * * *

1. "Nuclear reactor," "byproduct material," "person," "source material," "special nuclear material," and "precautionary evacuation" shall have the meanings given them in the Atomic Energy Act of 1954, as amended, and the regulations issued by the Commission.

* * * * *

6. "Public liability" means any legal liability arising out of or resulting from a nuclear incident or precautionary evacuation (including all reasonable additional costs incurred by a State, or a political subdivision of a State, in the course of responding to a nuclear incident or precautionary evacuation), except (1) claims under State or Federal Workmen's Compensation Acts of employees of persons indemnified who are employed (a) at the location or, if the nuclear incident occurs in the course of transportation of the radioactive material, on the transporting vehicle, and (b) in connection with the licensee's possession, use, or transfer of the radioactive material; (2) claims arising out of an act of war; and (3) claims for loss of, or damage to, or loss of use of (a) property which is located at the location and used in connection with the licensee's possession, use, or transfer of the radioactive material, and (b) if the nuclear incident occurs in the course of transportation of the radioactive material, the transporting vehicle, containers used in such transportation, and the radioactive material.

* * * * *

Article II

* * * * *

4. * * *

(c) Any issue or defense based on any statute of limitations if suit is instituted within 3 years from the date on which the claimant first knew, or reasonably could have known, of his injury or damage and the cause thereof.

The waiver of any such issue or defense shall be effective regardless of whether such issue or defense may otherwise be deemed jurisdictional or relating to an element in the cause of action. The waivers shall be judicially enforceable in accordance with their terms by the claimant against the person indemnified.

* * * * *

6. With respect to a common occurrence, the obligations of the Commission under this Article shall apply only with respect to such public liability and such damage to property of persons legally liable for the nuclear incident (other than such property described in the proviso to paragraph 2 of this Article) as in the aggregate exceed whichever of the following is lower: (1) The sum of the amount of financial protection established under all applicable agreements; or (2) an amount equal to the sum of $200,000,000 and the amount available as secondary financial protection. As used in this Article "applicable agreements" means each agreement entered into by the Commission pursuant to subsection 170c. of the Act in which agreement the nuclear incident is defined as "common occurrence."

* * * * *

7. Section 140.95, Appendix E, is amended as follows:

a. Article I, paragraphs 1 and 6 are revised.

b. Article II, paragraph 2(c) is revised.

c. Article III, paragraph 4(b) is revised.

§ 140.95 Appendix E—Form of indemnity agreement with nonprofit educational institutions.

Article I

* * * * *

1. "Byproduct material," "person," "source material," "special nuclear material," "precautionary evacuation," and "extraordinary nuclear occurrence" shall have the meanings given them in the Atomic Energy Act of 1954, as amended, and the regulations issued by the Commission.

* * * * *

6. "Public liability" means any legal liability arising out of or resulting from a nuclear incident or precautionary evacuation (including all reasonable additional costs incurred by a State, or a political subdivision of a State, in the course of responding to a nuclear incident or precautionary evacuation), except (1) claims under State or Federal Workmen's Compensation Acts of employees of persons indemnified who are employed (a) at the location or, if the nuclear incident occurs in the course of transportation of the radioactive material, on the transporting vehicle, and (b) in connection with the licensee's possession, use or transfer of the radioactive material; (2) claims arising out of an act of war; and (3) claims for loss of or damage to, or loss of use of (a) property which is located at the location and used in connection with the licensee's possession, use, or transfer of the radioactive material, and (b) if the nuclear incident occurs in the course of transportation of the radioactive material, the transporting vehicle, containers used in such transportation, and the radioactive material.

* * * * *

Article II

* * * * *

6. With respect to any common occurrence,

(a) If the sum of the limit of liability of any Nuclear Energy Liability Property Insurance Association policy designated in Item 5 of the Attachment and the limits of liability of all other nuclear energy liability insurance policies (facility form) applicable to such common occurrence and issued by Nuclear Energy Liability-Property Insurance Association exceeds $155,000,000, the amount of financial protection specified in Item 2 a and b of the Attachment shall be deemed to be reduced by that proportion of the difference between said sum and $155,000,000 as the limit of liability of the Nuclear Energy Liability-Property Insurance Association policy designated in Item 5 of the Attachment bears to the sum of the limits of liability of all nuclear energy liability insurance policies (facility form) applicable to such common occurrence and issued by Nuclear Energy Liability-Property Insurance Association;

(b) If the sum of the limit of liability of any Mutual Atomic Energy Liability Underwriters policy designated in Item 5 of the Attachment and the limits of liability of all other nuclear energy liability insurance policies (facility form) applicable to such common occurrence and issued by Mutual Atomic Energy Liability Underwriters exceeds $45,000,000, the amount of financial protection specified in Item 2 a and b of the Attachment shall be deemed to be reduced by that proportion of the difference between said sum and $45,000,000 as the limit of liability of the Mutual Atomic Energy Liability Underwriters policy designated in Item 5 of the Attachment bears to the sum of the limits of liability of all nuclear energy liability insurance policies (facility form) applicable to such common occurrence and issued by Mutual Atomic Energy Liability Underwriters;

(c) If any of the other applicable agreements is with a person who has furnished financial protection in a form other than a nuclear energy liability insurance policy (facility form) issued by Nuclear Energy Liability-Property Insurance Association or Mutual Atomic Energy Liability Underwriters, and if also the sum of the amount of financial protection established under this agreement and the amounts of financial protection established under all other applicable agreements exceeds an amount equal to the sum of $200,000,000 and the amount available as secondary financial protection, the obligations of the licensee shall not exceed a greater proportion of an amount equal to the sum of $200,000,000 and the amount available as secondary financial protection than the amount of financial protection established under this agreement bears to the sum of such amount and the amounts of financial protection established under all other applicable agreements.

* * * * *

Article III

* * * * *

4. * * *

(b) With respect to a common occurrence, the obligations of the Commission under this agreement shall apply only with respect to such public liability and such damage to property of persons legally liable for the nuclear incident (other than such property described in the proviso to paragraph 2 of this Article) as in the aggregate exceed $200,000,000.

* * * * *

9. Section 140.108, Appendix H, is amended as follows:

a. Article I, paragraphs 1 and 6 are revised.

b. Article II, paragraph 6 is revised.

c. Article III, paragraph 4(b) is revised.

§ 140.108 Appendix H—Form of indemnity agreement with licensees possessing plutonium for use in plutonium processing and fuel fabrication plants and furnishing proof of financial protection in the form of the licensee's resources.

* * * * *

Article I

* * * * *

1. "Byproduct material," "person," "source material," "special nuclear material," "precautionary evacuation," and

"extraordinary nuclear occurrence" shall have the meanings given them in the Atomic Energy Act of 1954, as amended, and the regulations issued by the Commission.

* * * * *

6. "Public liability" means any legal liability arising out of or resulting from a nuclear incident or precautionary evacuation (including all reasonable additional costs incurred by a State, or a political subdivision of a State, in the course of responding to a nuclear incident or precautionary evacuation), except (1) claims under State or Federal Workmen's Compensation Acts of employees of persons indemnified who are employed (a) at the location or, if the nuclear incident occurs in the course of transportation of the radioactive material, on the transporting vehicle, and (b) in connection with the licensee's possession, use or transfer of the radioactive material; (2) claims arising out of an act of war; and (3) claims for loss of, or damage to, or loss of use of (a) property which is located at the location and used in connection with the licensee's possession, use, or transfer of the radioactive material, and (b) if the nuclear incident occurs in the course of transportation of the radioactive material, the transporting vehicle, containers used in such transportation, and the radioactive material.

* * * * *

Article II

* * * * *

6. With respect to any common occurrence, if the sum of the amount of financial protection established under this agreement and the amount of financial protection established under all other applicable agreements exceeds an amount equal to the sum of $200,000,000 and the amount available as secondary financial protection, the obligations of the licensee described in paragraph 3 of this Article shall not exceed a greater proportion of an amount equal to the sum of $200,000,000 and the amount available as secondary financial protection than the amount of financial protection established under this agreement bears to the sum of such amount and the amounts of financial protection established under all other applicable agreements. As used in this paragraph, and in Article III, "other applicable agreements" means each other agreement entered into by the Commission pursuant to subsection 170c. or k. of the Act in which agreement the nuclear incident is defined as a "common occurrence."

* * * * *

Article III

* * * * *

4.* * *

(b) With respect to a common occurrence, the obligations of the Commission under this agreement shall apply only with respect to such public liability and such damage to property of persons legally liable for the nuclear incident (other than such property described in the proviso to paragraph 2 of this Article) as in the aggregate exceed $200,000,000.

BILLING CODE 7590-01-M

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 117

[CGD7-88-35]

Drawbridge Operation Regulations; Clearwater Pass, FL

AGENCY: Coast Guard, DOT.

ACTION: Proposed rule.

SUMMARY: At the request of the City of Clearwater, Florida, the Coast Guard is changing the regulations governing the Clearwater Pass (SR 699) drawbridge between Sand Key and Clearwater Beach by adding one hour to the existing regulated period. This proposal is being made because of an increase in highway traffic on weekends and holidays.

DATE: Comments must be received on or before February 3, 1989.

ADDRESSES: Comments should be mailed to Commander (oan), Seventh Coast Guard District, 909 SE 1st Avenue, Miami, Florida 33131-3050. The comments and other materials referenced in this notice will be available for inspection and copying on the 4th Floor of the Brickell Plaza Federal Building, 909 SE 1st Avenue, Miami, Florida. Normal office hours are between 7:30 a.m. and 4 p.m., Monday through Friday, except federal holidays. Comments also may be hand-delivered to this address.

FOR FURTHER INFORMATION CONTACT: Ian MacCartney at (305) 536-4103.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this rulemaking by submitting written views, comments, data, or arguments. Persons submitting comments should include their names and addresses, identify the bridge, and give reasons for concurrence with or any recommended change in the proposal. Persons desiring acknowledgment that their comments have been received should enclose a stamped, self-addressed postcard or envelope.

The Commander, Seventh Coast Guard District, will evaluate all communications received and determine a course of final action on this proposal. The proposed regulations may be changed in light of comments received.

Drafting Information

The drafters of this notice are Ian L. MacCartney, project officer, and Lieutenant Commander S.T. Fuger, Jr., project attorney.

Discussion of Proposed Regulations

The draw presently opens on signal, except that from 12 noon to 6 p.m. Saturdays, Sundays, and Federal holidays, the draw opens at 15 minute intervals. The City of Clearwater has requested openings at 20 minute intervals from 11 a.m. to 6 p.m. Saturdays, Sundays and Federal holidays. Traffic study data for a recent 14 day period shows an approximate 20% increase in vehicular traffic since the last study in 1984. A review of the most recent 12 months of bridge logs shows that there has been a 20% reduction in the number of openings. As a result of the 15 minute regulations placed into effect in 1985, an average of five boats now wait for each opening during the regulated period. Reduction in openings to 20 minute intervals would further increase the number of vessels waiting for an opening, which would create potentially unsafe vessel congestion near the bridge. The holding area, especially east of the bridge, are very restricted due to shallow waters, with prevailing winds and tidal currents which would create difficulty for a larger number of accumulated vessels to maintian position in the channel.

The Coast Guard feels, therefore, that the proposed change to openings at 20 minute intervals is not warranted. However, there has been a slight shift in peak traffic periods. This shift can be accommodated by adding the proposed additional hour to the existing regulated period and still provide for the reasonable needs of navigation.

Economic Assessment and Certification

These proposed regulations are considered to be non-major under Executive Order 12291 on Federal Regulation and nonsignificant under the Department of Transportation regulatory policies and procedures (44 FR 11034; February 26, 1979).

The economic impact of this proposal is expected to be so minimal that a full regulatory evaluation is unnecessary. We conclude this because the proposal exempts tugs with tows. Since the economic impact of this proposal is expected to be minimal, the Coast Guard certifies that, if adopted, it will not have a significant economic impact on a substantial number of small entities.

Bridges.

Proposed Regulations

In consideration of the foregoing, the Coast Guard proposes to amend Part 117 of Title 33, Code of Federal Regulations, as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

1. The authority citation for Part 117 continues to read as follows:

Authority: 33 U.S.C. 499; 49 CFR 1.46; 33 CFR 1.05–1(g); 33 CFR 117.43.

2. Part 117 is proposed to be amended by revising § 117.277(b) to read as follows:

§ 117.277 Clearwater Pass.

* * * * *

(b) From 11 a.m. to 6 p.m. on Saturdays, Sundays, and Federal holidays the draw need open only on the hour, quarter-hour, half-hour and three-quarter hour. Public vessels of the United States, tugs with tows, and vessels in distress shall be passed at any time.

Notices

Federal Register
Vol. 53, No. 244
Tuesday, December 20, 1988

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

Determination of Quota Period and Import Quotas for Sugar

AGENCY: Office of the Secretary, USDA.

ACTION: Notice.

SUMMARY: This notice establishes a sugar import quota period of January 1, 1989 through December 31, 1989 and an import quota of 1,061,279 metric tons, raw value, for such period.

EFFECTIVE DATE: January 1, 1989.

FOR FURTHER INFORMATION CONTACT: John Nuttall, Foreign Agricultural Service, Department of Agriculture, Washington, DC 20250, Telephone: (202) 447–2916.

SUPPLEMENTARY INFORMATION: Presidential Proclamation No. 4941 of May 5, 1982, (47 FR 19661) amended headnote 3 of subpart A, part 10, schedule 1 of the Tariff Schedules of the United States to establish a system of import quotas for foreign sugar coming into the United States. Under the terms of headnote 3, the Secretary of Agriculture established an annual sugar import quota period of October 1-September 30 beginning October 1, 1982. (47 FR 34812) Effective January 1, 1989, headnote 3 becomes additional U.S. note 3 to Chapter 17 of the Harmonized Tariff Schedule of the United States (HTS), in accordance with section 1204 of the Omnibus Trade and Competitiveness Act of 1988 (Pub. L. 100–418).

Presidential Proclamation No. 4941 also permits the Secretary of Agriculture, after consultations with the U.S. Trade Representative and the Department of State, to establish quota periods for other than quarterly periods, if he determines that such periods are appropriate to give due consideration in the United States sugar market to the interests of domestic producers and materially affected contracting parties to the General Agreement on Tariffs and Trade. This notice announces the Secretary of Agriculture's determinations, after the appropriate consultations, that the sugar import quota period shall begin on January 1, 1989 and terminate on December 31, 1989 and that the import quota for such period shall be 1,061,279 metric tons, raw value.

Notice

Notice is hereby given that, in accordance with the requirements of additional U.S. note 3 to Chapter 17 of the HTS (note 3), I have determined that up to 1,061,279 metric tons, raw value, of sugar described in items 1701.11, 1701.12, 1701.91.20, 1701.99, 1702.90.30, 1702.90.40, 1806.10.40, and 2106.90.10 of the HTS may be entered or withdrawn from warehouse for consumption during the period January 1, 1989 through December 31, 1989. Of the 1,061,279 metric tons, raw value, 1,815 metric tons, raw value, are reserved for specialty sugars from countries listed in paragraph (c)(ii) of note 3 and 6,464 metric tons, raw value, are reserved as a quota adjustment amount allocated in accordance with paragraph (c)(v) of note 3.

I have also determined that this quota amount (1,061,279 metric tons, raw value) and quota period give due consideration to the interests in the United States sugar market of domestic producers and materially affected contracting parties to the General Agreement on Tariffs and Trade.

In conformity with the above, paragraph (a)(i) of note 3 is modified to read as follows:

3. (a)(i) The total amount of sugars, syrups and molasses described in subheadings 1701.11, 1701.12, 1701.91.20, 1701.99, 1702.90.30, 1702.90.40, 1806.10.40, and 2106.90.10, the products of all foreign countries, entered, or withdrawn from warehouse for consumption, during the period January 1, 1989 through December 31, 1989 shall not exceed in the aggregate 1,061,279 metric tons, raw value. Of this amount, the total amount permitted to be imported for purposes of paragraph (c)(i) of this note (the total base quota amount) shall be 1,053,000 metric tons, raw value; 1,815 metric tons, raw value, may only be used for the importation of "specialty sugars" as defined by the United States Trade Representative in accordance with paragraph (c)(ii) of this note; and the remaining 6,464 metric tons, raw value, may only be imported for the purposes specified in paragraph (c)(v) of this note (the quota adjustment amount.)

Signed at Washington, DC on December 15, 1988.

Peter C. Myers,

Acting Secretary of Agriculture.

Cell-Site Transceivers and Related Subassemblies From Japan; Final Results of Antidumping Duty Administrative Review

AGENCY: International Trade Administration/Import Administration, Department of Commerce.

ACTION: Notice of Final Results of Antidumping Duty Administrative Review.

SUMMARY: On July 28, 1988, the Department of Commerce published the preliminary results of its administrative review of the antidumping duty order on cell-site transceivers and related subassemblies from Japan. The review covers one manufacturer/exporter of this merchandise to the United States, Kokusai Electric, and the period January 1, 1987 through December 31, 1987. The review indicates no shipments during the period and there are no known unliquidated entries.

We gave interested parties an opportunity to comment on the preliminary results. We received no comments. Based on our analysis, the final results of review are unchanged from those presented in the preliminary results.

EFFECTIVE DATE: December 20, 1988.

FOR FURTHER INFORMATION CONTACT: Michael J. Heaney or John R. Kugelman, Office of Antidumping Compliance, International Trade Administration, U.S. Department of Commerce, Room B–099, 14th Street & Constitution Avenue NW., Washington, DC 20230, telephone: (202) 377–3601.

SUPPLEMENTARY INFORMATION:

Background

On July 28, 1988, the Department of Commerce ("the Department") published in the **Federal Register** (53 FR 28424) the preliminary results of its administrative review of the antidumping duty order on cell-site transceivers and subassemblies from Japan (50 FR 307, January 3, 1985). The Department has now completed that administrative review in accordance with section 751 of the Tariff Act of 1930, as amended ("the Tariff Act").

Scope of the Review

The United States has developed a system of tariff classification based on the international harmonized system of customs nomenclature. On January 1, 1989, the U.S. tariff schedules will be fully converted to the *Harmonized Tariff Schedule* ("HTS") and all merchandise entered, or withdrawn from warehouse, for consumption on or after this date will be classified solely according to the appropriate HTS item number(s). Until that time, however, the Department will be providing both the appropriate *Tariff Schedules of the United States Annotated* ("TSUSA") item numbers and the appropriate HTS item number(s) with its product descriptions. As with the TSUSA, the HTS item numbers are provided for convenience and customs purposes. The written description remains dispositive as to the scope of the product coverage.

We are requesting petitioners to include the appropriate HTS item number(s) as well as the TSUSA item number(s) in all petitions filed with the Department through the end of this year. A reference copy of this HTS is available for consultation in the Central Records Unit, Room B–099, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230. Additionally, all U.S. Customs offices have reference copies, and petitioners may contact the import specialist at their local customs office to consult the schedule.

The products covered in this review are shipments of cell-site transceivers and related subassemblies currently classifiable under TSUSA item numbers 685.28100 and 685.2820 and HTS item numbers 8525.20.15, 8525.20.20, and 8525.20.30.

The review covers one manufacturer/exporter of this merchandise to the United States, Kokusai Electric Co., Ltd. ("Kokusai"), and the period January 1, 1987 through December 31, 1987.

Final Results of the Review

We invited interested parties to comment on the preliminary results of review and tentative determination to revoke in part. We received no comments. Based on our analysis, the final results of review are the same as those presented in the preliminary results, and we determine that the following margin exists for the period January 1, 1987 through December 31, 1987:

Manufacturer/Exporter	Margin
Kokusai	*0.08

*No shipments during the period; margin from last review in which there were shipments.

As provided for by section 751(a)(1) of the Tariff Act, since the margin for Kokusai is 0.08 percent and, therefore, *de minimis* for cash deposit purposes, the Department will not require a cash deposit of estimated antidumping duties for Kokusai. For any future entries of this merchandise from a new exporter not covered in this or prior administrative reviews, whose first shipments occurred after December 31, 1987 and who is unrelated to Kokusai, no cash deposit shall be required. These cash deposit requirements are effective for all shipments of Japanese cell-site transceivers and related subassemblies entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this administrative review and will remain in effect until publication of the final results of the next administrative review.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353.53a.

Jan W. Mares,

Assistant Secretary for Import Administration.

Date: December 9, 1988.

Revised Final Results of Administrative Review of Antidumping Duty Order; Circular Welded Carbon Steel Pipes and Tubes From Taiwan

AGENCY: International Trade Administration/Import Administration, Department of Commerce.

ACTION: Notice of Revised Final Results of Administrative Review of Antidumping Duty Order Pursuant to Court Remand.

Summary of Remand Results

As a result of a remand from the United States Court of International Trade, the Department of Commerce has granted Far East Machinery Co., Ltd., a duty drawback adjustment to U.S. price. Accordingly, we have revised the final results of the first administrative review of the antidumping duty order on circular welded carbon steel pipes and tubes from Taiwan (51 FR 43946, December 5, 1986) for the period October 1, 1983, through April 30, 1984, to reflect a margin for Far East Machinery Co., Ltd., of 12.30 percent. We will direct the U.S. Customs Service to assess antidumping duties on all appropriate entries.

EFFECTIVE DATE: December 20, 1988.

FOR FURTHER INFORMATION CONTACT: Anne D'Alauro or Robert Marenick, Office of Antidumping Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 377–2923.

SUPPLEMENTARY INFORMATION:

Background

On December 5, 1986, the Department of Commerce ("the Department") published in the **Federal Register** (51 FR 43946) the final results of its first administrative review of the antidumping duty order on circular welded carbon steel pipes and tubes from Taiwan (49 FR 19369, May 7, 1984). The review covered the period October 1, 1983, through April 30, 1984. The results of the review were challenged in the United Stated Court of International Trade ("the Court") by Far East Machinery Co., Ltd. ("FEMCO"), a producer.

In its final results of administrative review, the Department had denied a duty drawback adjustment to U.S. price for FEMCO. The duty drawback adjustment was denied on the grounds that FEMCO failed to substantiate its claim that it had imported and paid duties on a sufficient quantity of appropriate steel coil to have produced the merchandise exported to the U.S. and on which it received a rebate from the authorities in Taiwan. The Court remanded the issue to the Department. Upon reconsideration of the evidence on the record, the Department affirmed that FEMCO had in fact provided such evidence. Therefore, in its revised final results of administrative review, the Department has granted FEMCO an adjustment to U.S. price for duty drawback. This adjustment was limited to the amount of import duties paid on appropriate coil imports with an adjustment to account for an estimated

loss rate experienced in producing the subject merchandise.

Remand Results

As a result of this remand, and the granting of an adjustment to U.S. price for duty drawback for FEMCO, the Department has revised its final results of the first administrative review of the antidumping duty order on circular welded carbon steel pipes and tubes from Taiwan for the period October 1, 1983, to April 30, 1984, from 41.22 percent to 12.30 percent for FEMCO. The Department shall determine, and the Customs Service shall assess, antidumping duties on all appropriate entries from FEMCO. Individual differences between United States price and foreign market value may vary from the weighted-average margin of 12.30 percent. The Department will issue appraisement instructions directly to Customs.

Date: December 13, 1988.

Jan W. Mares,

Assistant Secretary for Import Administration.

BILLING CODE 3501-DS-M

[A-484-801]

Postponement of Final Antidumping Duty Determination; Electrolytic Manganese Dioxide From Greece

AGENCY: Import Administration, International Trade Administration, Commerce.

ACTION: Notice.

SUMMARY: On November 21, 1988, we received a request from counsel for the respondent, Tosoh Hellas A.I.C. from Greece, that the final determination be postponed as provided for in section 735(a)(2)(A) of the Tariff Act of 1930, as amended (the Act) (19 U.S.C. 1673d (a)(2)(A)). Pursuant to this request, we are postponing our final antidumping duty determination as to whether sales of electrolytic manganese dioxide from Greece have been made at less than fair value until not later than February 22, 1989.

EFFECTIVE DATE: December 20, 1988.

FOR FURTHER INFORMATION CONTACT: Anne D'Alauro or Holly Kuga, Office of Antidumping Compliance, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 377-2923 or 377-4733.

SUPPLEMENTARY INFORMATION: On June 27, 1988, we published a notice in the **Federal Register** that we were initiating, under section 732(b) of the Act (19 U.S.C. 1673a(b)), an antidumping duty investigation to determine whether imports of electrolytic manganese dioxide from Greece are being, or are likely to be sold at less that fair value (53 FR 24114). We published our preliminary affirmative determination on November 14, 1988 (53 FR 45793). This notice stated that we would issue a final determination on or before January 23, 1989. On November 21, 1988, counsel for the respondent, Tosoh Hellas A.I.C. of Greece, requested that we postpone making our final determination for a period of thirty days pursuant to section 735(a)(2)(A) of the Act. This respondent accounts for a significant proportion of exports of the subject merchandise to the United States, and thus is qualified to make this request. If a qualified exporter properly requests an extension after an affirmative preliminary determination, the Department is required, absent compelling reasons to the contrary, to grant the request. Accordingly, we grant the request and postpone our final determination until not later than February 22, 1989.

In the preliminary determination we stated that a public hearing would be held, if requested. A public hearing has now been requested and has been scheduled for January 17, 1989 at the United States Department of Commerce, Room 1414, 14th Street and Constitution Avenue NW., Washington, DC. It will follow the hearing concerning electrolytic manganese dioxide from Ireland to be held at 9:30 a.m. in the same room. Individuals who wish to participate in the hearing must submit a request to the Assistant Secretary for Import Administration, Room B-099, at the above address within 10 days of the publication of this notice. Requests should contain: (1) The party's name, address, and telephone number; (2) the number of participants; (3) the reason for attending; and (4) a list of the issues to be discussed.

In addition, prehearing briefs in at least 10 copies must be submitted to the Assistant Secretary by January 9, 1989. Oral presentations will be limited to issues raised in the briefs. All written views should be filed in accordance with 19 CFR 353.46, at the above address, and will be considered if received not less than 30 days before the final determination is due, or if a hearing is held, within seven days after the hearing transcript is available.

This notice is published pursuant to section 735(d) of the Act.

Date: December 13, 1988.

Jan W. Mares,

Assistant Secretary for Import Administration.

[A-419-801]

Postponement of Final Antidumping Duty Determination; Electrolytic Manganese Dioxide From Ireland

AGENCY: Import Administration, International Trade Administration, Commerce.

ACTION: Notice.

SUMMARY: On November 29, 1988, we received a request from counsel for the petitioners, Chemetals and Kerr-McGee, that the final determination be postponed as provided for in section 735(a)(2)(B) of the Tariff Act of 1930, as amended (the Act) (19 U.S.C. 1673d(a)(2)(B)). Pursuant to this request, we are postponing our final antidumping duty determination as to whether sales of electrolytic manganese dioxide from Ireland have been made at less than fair value until not later than February 22, 1989.

EFFECTIVE DATE: December 20, 1988.

FOR FURTHER INFORMATION CONTACT: Anne D'Alauro or Holly Kuga, Office of Antidumping Compliance, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 377-2923 or 377-4733.

SUPPLEMENTARY INFORMATION: On June 27, 1988, we published a notice in the **Federal Register** that we were initiating, under section 732(b) of the Act (19 U.S.C. 1673a(b)), an antidumping duty investigation to determine whether imports of electrolytic manganese dioxide from Ireland are being, or are likely to be sold at less than fair value (53 FR 24115). We published our preliminary negative determination on November 14, 1988 (53 FR 45795). This notice stated that we would issue a final determination on or before January 23, 1989. On November 29, 1988, counsel for the petitioners, Chemetals and Kerr-McGee, requested that we postpone making our final determination for a period of thirty days pursuant to section 735(a)(2)(B) of the Act. If the petitioners

properly request an extension after a negative preliminary determination, the Department is required, absent compelling reasons to the contrary, to grant the request. Accordingly, we grant the request and postpone our final determination until not later than February 22, 1989.

In the preliminary determination we stated that a public hearing would be held, if requested. A public hearing has now been requested and has been scheduled for January 17, 1989 at 9:30 a.m. at the United States Department of Commerce, Room 1414, 14th Street and Constitution Avenue NW., Washington, DC. Individuals who wish to participate in the hearing must submit a request to the Assistant Secretary for Import Administration, Room B–099, at the above address within 10 days of the publication of this notice. Requests should contain: (1) The party's name, address, and telephone number; (2) the number of participants; (3) the reason for attending; and (4) a list of the issues to be discussed.

In addition, prehearing briefs in at least 10 copies must be submitted to the Assistant Secretary by January 9, 1989. Oral presentations will be limited to issues raised in the briefs. All written views should be filed in accordance with 19 CFR 353.46, at the above address, and will be considered if received not less than 30 days before the final determination is due, or if a hearing is held, within seven days after the hearing transcript is available.

This notice is published pursuant to section 735(d) of the Act.

Date: December 13, 1988.

Jan W. Mares,

Assistant Secretary for Import Administration.

[A–588–806]

Postponement of Final Antidumping Duty Determination; Electrolytic Manganese Dioxide From Japan

AGENCY: Import Administration, International Trade Administration, Commerce.

ACTION: Notice.

SUMMARY: On November 21, 1988, we received a request from counsel for the respondent, Tosoh Corporation from Japan, that the final determination be postponed as provided for in section 735(a)(2)(A) of the Tariff Act of 1930, as amended (the Act) (19 U.S.C. 1673d(a)(2)(A)). Pursuant to this request, we are postponing our final antidumping duty determination as to whether sales of electrolytic manganese dioxide from Japan have been made at less than fair value until not later than February 22, 1989.

EFFECTIVE DATE: December 20, 1988.

FOR FURTHER INFORMATION CONTACT: Kelly Parkhill or Anne D'Alauro, Office of Antidumping Compliance, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 377–0145 or 377–2923.

SUPPLEMENTARY INFORMATION: On June 27, 1988, we published a notice in the **Federal Register** that we were initiating, under section 732(b) of the Act (19 U.S.C. 1673a(b)), an antidumping duty investigation to determine whether imports of electrolytic manganese dioxide from Japan are being, or are likely to be sold at less than fair value (53 FR 24116). We published our preliminary affirmative determination on November 14, 1988 (53 FR 45796). This notice stated that we would issue a final determination on or before January 23, 1989. On November 21, 1988, counsel for the respondent, Tosoh Corporation of Japan, requested that we postpone making our final determination for a period of thirty days pursuant to section 735(a)(2)(A) of the Act. This respondent accounts for a significant proportion of exports of the subject merchandise to the United States, and thus is qualified to make this request. If a qualified exporter properly requests an extension after an affirmative preliminary determination, the Department is required, absent compelling reasons to the contrary, to grant the request. Accordingly, we grant the request and postpone our final determination until not later than February 22, 1989.

In the preliminary determination we stated that a public hearing would be held, if requested, within 10 days of the date of publication of that notice. The Department has not received within that time a request for a hearing. All written views should be filed in accordance with 19 CFR 353.46, at the above address, and will be considered if received not less than 30 days before the final determination is due.

This notice is published pursuant to section 735(d) of the Act.

Jan W. Mares,

Assistant Secretary for Import Administration.

BILLING CODE 3510–DS–M

[A–351–801]

Postponement of Preliminary Antidumping Duty Determination; Steel Wheels From Brazil

AGENCY: International Trade Administration, Import Administration, Commerce.

SUMMARY: This notice informs the public that we have received a request from petitioner in this investigation to postpone the preliminary determination as permitted by section 733(c)(1)(A) of the Tariff Act of 1930, as amended (the Act). Based on this request, we are postponing our preliminary determination of whether sales of steel wheels from Brazil have occurred at less than fair value until not later than February 24, 1989.

EFFECTIVE DATE: December 20, 1988.

FOR FURTHER INFORMATION CONTACT: J. David Dirstine or Anne D'Alauro, Office of Antidumping Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 377–5255 or (202) 377–2923.

SUPPLEMENTARY INFORMATION: On August 24, 1989 (53 FR 32267) we published a notice of initiation of an antidumping duty investigation to determine whether steel wheels from Brazil are being, or are likely to be, sold in the United States at less than fair value. The notice stated that we would issue our preliminary determination by January 5, 1989.

As detailed in the notice, the petition alleged that imports of steel wheels from Brazil are being, or are likely to be, sold in the United States at less than fair value.

On December 12, 1988 petitioner, Kelsey-Hayes Company, requested that the Department extend the period for the preliminary determination until not later than 210 days after receipt of the petition in accordance with section 733(c)(1)(A) of the Act. Accordingly, the period for determination in this case is hereby extended. We intend to issue a preliminary determination not later than February 24, 1989.

This notice is published pursuant to section 733(c)(2) of the Act.

Jan W. Mares,

Assistant Secretary for Import Administration.

BILLING CODE 3510–DS–M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Adjustment of an Import Limit for Certain Wool and Man-Made Fiber Textile Products Produced or Manufactured in the People's Republic of China

December 15, 1988.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs adjusting limits.

EFFECTIVE DATE: December 15, 1988.

FOR FURTHER INFORMATION CONTACT: Jerome Turtola, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 377–4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port or call (202) 566–6828. For information on embargoes and quota re-openings, call (202) 377–3715.

SUPPLEMENTARY INFORMATION: The current limit for wool textile products in Categories 445/446 is being increased for carryforward. In addition, the limit for man-made fiber textile products in Category 611 is being increased by application of swing, reducing the limit for Category 613 to account for the swing being applied.

A description of the textile and apparel categories in terms of T.S.U.S.A. numbers is available in the CORRELATION: Textile and Apparel Categories with Tariff Schedules of the United States (see **Federal Register** notice 52 FR 47745, published on December 16, 1987). Also see 53 FR 55, published on January 4, 1988; and 53 FR 25525, published on July 7, 1988.

The letter to the Commissioner of Customs and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

Authority. Executive Order 11651 of March 3, 1972, as amended; Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854)

James H. Babb,

Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

December 15, 1988.

Commissioner of Customs,
Department of the Treasury,
Washington, DC 20229.

Dear Mr. Commissioner: This directive amends, but does not cancel, the directive issued to you on December 30, 1987, as amended, by the Chairman, Committee for the Implementation of Textile Agreements. That directive concerns imports into the United States of certain cotton, wool, man-made fiber, silk blend and other vegetable fiber textiles and textile products, produced or manufactured in China and exported during the period which began on January 1, 1988 and extends through December 31, 1988.

Effective on December 15, 1988, the directive of December 30, 1987 is amended further to adjust the limits for wool and man-made fiber textile products in the following categories, as provided under the provisions of the current bilateral agreement between the Governments of the United States and the People's Republic of China:

Category	Adjusted 12-month limit [1]
445/446	297,000 dozen.
611	5,355,000 square yards.
613	6,745,000 square yards.

[1] The limits have not been adjusted to account for any imports exported after December 31, 1987.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

James H. Babb,

Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-DR-M

DEPARTMENT OF DEFENSE

Public Information Collection Requirement Submitted to OMB for Review

ACTION: Notice.

The Department of Defense has submitted to OMB for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Title, Applicable Form, and Applicable OMB Control Number: Air Force Systems Command (AFSC) Industrial Modernization Incentive Program (IMIP) Conractor Demonstration; No applicable form; and No OMB Control Number.

Type of Request: New.

Average Burden Hours/Minutes Per Response: 15 minutes.

Frequency of Response: On occasion.

Number of Respondents: 500.

Annual Burden House: 125.

Annual Responses: 500.

Needs and Uses: The Air Force needs the information to be collected by this questionnaire to measure the effectiveness of its end-of-contract demonstrations as a means to accomplish technology transfer among Air Force contractors. The Air Force will use the data collected to document and track technology transfer and to fine tune end-of-contract demonstrations to better match the interests of contractor attendees.

Affected Public: Businesses or other for-profit; Small businesses or organizations.

Frequency: Continuing.

Respondent's Obligation: Voluntary.

OMB Desk Officer: Dr. Timothy Sprehe.

Written comments and recommendations on the proposed information collection should be sent to Dr. Timothy Sprehe at Office of Management and Budget, Desk Officer, Room 3235, New Executive Office Building, Washington, DC 20503.

DOD Clearance Officer: Ms. Pearl Rascoe-Harrison.

A copy of the information collection proposal may be obtained from, Ms. Rascoe-Harrison, WHS/DIOR, 1215 Jefferson Davis Highway, Suite 1203, Arlington, Virginia 22202–4302, telephone (202) 746–0933.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

December 15, 1988.

[FR Doc. 88–29190 Filed 12–19–88; 8:45 am]

BILLING CODE 3810-01-M

DEPARTMENT OF ENERGY

Energy Information Administration

Agency Information Collections Under Review by the Office of Management and Budget

AGENCY: Energy Information Administration, Energy.

ACTION: Notice of requests submitted for review by the Office of Management and Budget.

SUMMARY: The Energy Information Administration (EIA) has submitted the energy information collection(s) listed at the end of this notice to the Office of Management and Budget (OMB) for review under provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

The listing does not include information collection requirements contained in new or revised regulations which are to be submitted under 3504(h) of the Paperwork Reduction Act, nor management and procurement

assistance requirements collected by the Department of Energy (DOE).

Each entry contains the following information: (1) The sponsor of the collection (the DOE component or Federal Energy Regulatory Commission (FERC)); (2) Collection number(s); (3) Current OMB docket number (if applicable); (4) Collection title; (5) Type of request, e.g., new, revision, or extension; (6) Frequency of collection; (7) Response obligation, i.e., mandatory, voluntary, or required to obtain or retain benefit; (8) Affected public; (9) An estimate of the number of respondents per report period; (10) An estimate of the number of responses annually; (11) An estimate of the average hours per response; (12) The estimated total annual respondent burden, and (13) A brief abstract describing the proposed collection and the respondents.

DATES: Comments must be filed on or before January 19, 1989.

ADDRESS: Address comments to the Department of Energy Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, 726 Jackson Place, NW., Washington, DC 20503. (Comments should also be addressed to the Office of Statistical Standards, at the address below.)

FOR FURTHER INFORMATION AND COPIES OF RELEVANT MATERIALS CONTACT: Carole Patton, Office of Statistical Standards (EI-70), Energy Information Administration, M.S. 1H-023, Forrestal Building, 1000 Independence Ave., SW., Washington, DC 20585, (202) 586-2222.

SUPPLEMENTARY INFORMATION: If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this Notice, you should advise the OMB DOE Desk Officer of your intention to do so as soon as possible. The Desk Officer may be telephoned at (202) 395-3084. (Also, please notify the DOE contact listed above.)

The energy information collection submitted to OMB for review was:

1. Energy Information Administration and the Federal Energy Regulatory Commission.
2. EIA-714, EIA-714(1) (FERC portion).
3. 1905-0161 and 1902-0140 (FERC portion).
4. Annual Electric Power System Report.
5. Revision.
6. Annually.
7. Mandatory.
8. State and local governments, Businesses or other for profit, Federal agencies or employees, and Non-profit institutions.
9. 300 respondents annually.
10. 300 responses annually.
11. The estimated average hours per response for each of the respondents is 101 burden hours.
12. The estimated total reporting hours are 30,300. Burden hours will be reduced from the previously approved version of this form by 9,600 hours. The number of respondents has decreased, data elements have been deleted, and the allowance of the submission of system maps result in this reduction.
13. EIA-714 gathers basic descriptive operation information regarding electric energy production, energy transfers, loads and maps and diagrams of facilities on a system basis. Responses are used in evaluation of utility operations related to hydroelectric license approvals, proposed mergers, proposed interconnections, and wholesale rate investigations. Respondents are major electric utilities.

Statutory Authority: Sec. 5(a), 5(b), 13(b), and 52, Pub. L. 93-275, Federal Energy Administration Act of 1974, (15 U.S.C. 764(a), 764(b), 772(b), and 790(a); and Sec. 4(a), 304, 309, and 311 of the Federal Power Act, (16 U.S.C. 791a-825r).

Issued in Washington, DC, December 14, 1988.

Yvonne M. Bishop,

Director, Statistical Standards, Energy Information Administration.

BILLING CODE 6450-01-M

Federal Energy Regulatory Commission

[Docket Nos. ER88-620-000, et al.]

Connecticut Light & Power Co., et al.; Electric Rate, Small Power Production, and Interlocking Directorate Filings

Take notice that the following filings have been made with the Commission:

1. Connecticut Light & Power Company

[Docket No. ER88-620-000]

December 12, 1988.

Take notice that on November 10, 1988, Connecticut Light & Power Company submitted for filing in this docket certain supplemental information regarding its filing in this docket. The information consists of provisions of the agreement between Connecticut Light & Power Company and Montaup Electric Company.

Comment date: December 20, 1988, in accordance with Standard Paragraph E at the end of this notice.

2. Pacific Power & Light Company

[Docket No. ER89-108-000]

December 13, 1988.

Take notice that on December 6, 1988, Pacific Power & Light Company (Pacific) tendered for filing a Power Sales Agreement between Pacific Power & Light Company and Puget Sound Power & Light Company (Puget), dated October 27, 1988. Pacific requests that a waiver of prior notice requirements be granted to allow the rate schedule to become effective November 1, 1988. Pacific states that copies of the filing have been supplied to the Washington Utilities and Transportation Commission, the Oregon Public Utilities Commission, and Puget.

Comment date: December 27, 1988, in accordance with Standard Paragraph E at the end of the notice.

3. Northern States Power Company

[Docket No. ER88-574-000]

December 13, 1988.

Take notice that on December 5, 1988, Northern States Power Company tendered for filing certain information regarding its filing in this docket.

Comment date: December 27, 1988, in accordance with Standard Paragraph E at the end of this notice.

4. Southern California Edison Company

[Docket No. ER88-606-000]

December 13, 1988.

Take notice that on November 28, 1988, Southern California Edison Company tendered for filing in this docket an amendment to its filing in this docket in response to a deficiency letter from the Commission dated September 27, 1988.

Comment date: December 27, 1988, in accordance with Standard Paragraph E at the end of this document.

5. Northern States Power Company

[Docket No. ER88-347-000]

December 13, 1988.

Take notice that on November 30, 1988, Northern States Power Company tendered for filing certain additional information to supplement its original filing in this matter.

Comment date: December 27, 1988, in accordance with Standard Paragraph E at the end of this notice.

6. PacifiCorp doing business as PacifiCorp Power & Light Company

[Docket No. ES89-11-000]

December 13, 1988.

Take notice that on December 6, 1988, PacifiCorp dba Pacific Power & Light Company (Pacific) filed its application with the Federal Energy Regulatory

Commission, pursuant to section 204 of the Federal Power Act, seeking an order (1) authorizing it to issue and sell, prior to December 31, 1990, its fixed or floating rate No. Par Serial Preferred Stock with an aggregate preference on involuntary liquidation of not more than $100,000,000 and (2) exempting the issuance from competitive bidding pursuant to 18 CFR 34.2(b)(2).

Comment date: December 27, 1988, in accordance with Standard Paragraph E at the end of this notice.

7. Ohio Power Company

[Docket No. ER88-576-000]

December 14, 1988.

Take notice that on November 22, 1988, in accordance with an October 20, 1988 letter from the Commission's Division of Electric Power Application Review, Ohio Power Company (OPCO) tendered for filing an amendment to its original filing, clarifying its justification and supplying additionally cost data as further support for its transmission service agreement with American Municipal Power-Ohio, Inc. (AMPO), which agreement was submitted for filing under cover of a letter dated August 22, 1988.

OPCO further states that a copy of the traditional cost support for its August 22, 1988 filing has been provided to the American Municipal Power-Ohio, Inc., the Public Utility Commission of Ohio and the Commission Staff.

Comment date: December 29, 1988, in accordance with Standard Paragraph E at the end of this notice.

8. Arizona Public Service Company

[Docket No. ER89-76-000]

December 14, 1988.

Take notice that on November 22, 1988, Arizona Public Service Company (APS) tendered for filing a Letter Agreement between APS and Maricopa County Municipal Water Conservation and Drainage District Number One (MCM). This agreement provides for continuation of existing supplemental power, wheeling, administrative and "banking" services being rendered by APS for MCM for an extended interim period ending April 30, 1989 or upon execution of more comprehensive agreements, whichever date occurs first. Such services are currently provided to MCM under APS FERC Rate Schedule No. 157.

APS, with concurrence of MCM requests waiver of 18 CFR 35.11 and 35.3 so that the Agreement will become effective on January 1, 1989.

No change in any terms or conditions from those currently effective for these services is proposed.

Copies of this filing have been served upon the Arizona Corporation Commission and MCM.

Comment date: December 29, 1988, in accordance with Standard Paragraph E at the end of this notice.

9. Ogden Martin Systems of Fairfax

[Docket No. ER89-105-000]

December 14, 1988.

Take notice that on December 5, 1988, Ogden Martin Systems of Fairfax, Inc. (Ogden Fairfax) tendered for filing with the Federal Energy Regulatory Commission its initial rate schedule and supporting documentation. The rate schedule consists of a unit power agreement between Ogden Fairfax and Virginia Electric and Power Company (Virginia Power). The unit power agreement provides for the sale of the capacity and corresponding energy of a new resource recovery and electric generating facility to be constructed in Lorton, Virginia and owned by Ogden Fairfax.

Ogden Fairfax has requested a waiver of notice requirements to permit filing of the rate schedule more than 120 days prior to its proposed effective date and a petition for waiver of the Commission's regulations inappropriate to qualifying small power producers including cost of service data. Copies of the filing were served upon Virginia Power and the Virginia State Corporation Commission.

Comment date: December 29, 1988, in accordance with Standard Paragraph E at the end of this notice.

10. Tenaska III Texas Partners

[Docket No. QF88-295-002]

December 14, 1988.

On November 28, 1988, Tenaska III Texas Partners (Applicant), of 407 North 117 Street, Omaha, Nebraska 68154, submitted for filing an application for recertification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The topping-cycle cogeneration facility is located in Lamar County, Texas. The facility will consist of two combustion turbine generators, two waste heat recovery steam generators, and an extraction/condensing turbine generator. Thermal energy recovered from the facility will be used by Campbell Soup (Texas) Inc. for food processing. The maximum net electric power production capacity will be 250 megawatts. The primary energy source will be natural gas. Construction of the facility was scheduled to commence September 1988.

By order issued June 1, 1988, the Commission granted certification of the facility as a cogeneration facility (43 FERC ¶ 62,247).

The recertification is requested due to a change in the ownership of the facility from Tenaska III, Inc. to Tenaska III Texas Partners.

Tenaska III Partners is a general partnership consisting of the following general partners: Tenaska III Partners LTD., H.S. Power I, Inc., TTP, Inc., Diamond Paris Cogen, Inc., Texas Paris Cogen, Inc., Empeco, Inc., and Tenaska III, Inc. Empeco, Inc., a wholly owned subsidiary of Continental Energy Services, Inc., which is a wholly owned subsidiary of The Montana Power Co., an electric utility, has an ownership interest in the facility. TTP, Inc., a wholly owned subsidiary of Midwest Capital Group, Inc., which is a wholly owned subsidiary of Midwest Energy Co., an electric utility holding company, also has an ownership interest in facility. However, the applicant states that such utility ownership interest does not exceed 50%.

Comment date: Thirty days from publication in the **Federal Register**, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraph

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[OPP-30293; FRL-3495-3]

Certain Companies; Applications to Register Pesticide Products; Griffin Corp. et al.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces receipt of applications to register pesticide products containing active ingredients not included in any previously registered products pursuant to the provisions of section 3(c)(4) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended.

DATE: Comment by January 19, 1989.

ADDRESS: By mail submit comments identified by the document control number [OPP-30293] and the registration/file numbers to:

Public Docket and Freedom of Information Section, Field Operations Programs (TS-757C), Attn: PM 17, Office of Pesticide Programs, Environmental Protection Agency, 401 M St. SW., Washington, DC 20460.

In person, bring comments to:

Environmental Protection Agency, Rm. 246, CM#2, Attn: PM 17, 1921 Jefferson Davis Highway, Arlington, VA.

Information submitted in any comment concerning this notice may be claimed confidential by marking any part or all of that information as "Confidential Business Information" (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR Part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice to the submitter. All written comments will be available for public inspection in Rm. 246 at the address given above, from 8 a.m. to 4 p.m., Monday through Friday, except legal holidays.

FOR FURTHER INFORMATION CONTACT: Phil Hutton, PM 17, Rm. 207, CM#2, (703-557-2690).

SUPPLEMENTARY INFORMATION: EPA received applications as follows to register pesticide products containing active ingredients not included in any previously registered products pursuant to the provisions of section 3(c)(4) of FIFRA. Notice of receipt of these applications does not imply a decision by the Agency on the applications.

I. Products Containing Active Ingredients Not Included in Any Previously Registered Product

1. File Symbol: 1812-GGN. Applicant: Griffin Corporation, PO Box 1847, Valdosta, GA 31601. Product name: Raid Ant Controller II. Insecticide. Active ingredient: *N*-ethyl perfluorooctanesulfonamide 0.5%. Proposed classification/Use: General. For indoor use on ants. (PM 17)

2. File Symbol: 1812-GEO. Applicant: Griffin Corporation. Product name: Raid Roach Controller II. Insecticide. Active ingredient: *N*-ethyl perfluorooctanesulfonamide 1.00%. Proposed classification/Use: General. For the control of roaches indoors. (PM 17)

3. File Symbol: 1812-GET. Applicant: Griffin Corporation. Product name: GX-071 Technical. Insecticide. Active ingredient: *N*-ethyl perfluorooctanesulfonamide 98.5%. Proposed classification/Use: General. For formulating use indoors. (PM 17)

4. File Symbol: 524-UNR. Applicant: Monsanto Chemical Co., 800 No. Lindbergh Blvd., St. Louis, MO 63167. Product name: Tricalcium Phosphate. Insecticide. Active ingredient: Calcium hydroxyapatite 94.4%. Proposed classification/Use: General. For the control of cockroaches, ants, flies, ticks, and fleas in food handling establishments and other uses indoors. (PM 17)

Notice of approval or denial of an application to register a pesticide product will be announced in the **Federal Register**. The procedure for requesting data will be given in the **Federal Register** if an application is approved.

Comments received within the specified time period will be considered before a final decision is made; comments received after the time specified will be considered only to the extent possible without delaying processing of the application.

Written comments filed pursuant to this notice, will be available in the Program Management and Support Division (PMSD) office at the address provided from 8 a.m. to 4 p.m., Monday through Friday, except legal holidays. It is suggested that persons interested in reviewing the application file, telephone the PMSD office (703-557-3262), to ensure that the file is available on the date of intended visit.

Authority: 7 U.S.C. 136.

Dated: December 6, 1988.

Anne E. Lindsay,

Acting Director, Registration Division, Office of Pesticide Programs.

BILLING CODE 6560-50-M

[OPTS-44521; FRL-3495-1]

TSCA Chemcial Testing; Receipt of Test Data

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the receipt of test data on meta-cresol (CAS No. 108-39-4), submitted pursuant to a final test rule, and 3,4-dichlorobenzotrifluoride (DCBTF; (CAS No. 328-84-7), submitted pursuant to a consent order, under the TOXIC Substances Control Act (TSCA). Publication of this notice is in compliance with section 4(d) of TSCA.

FOR FURTHER INFORMATION CONTACT: Michael M. Stahl, Director, TSCA Assistance Office (TS-799), Office of Toxic Substances, Environmental Protection Agency, Rm. EB-44, 401 M St., SW., Washington, DC 20460, (202) 554-1404, TDD (202) 554-0551.

SUPPLEMENTARY INFORMATION: Section 4(d) of TSCA requires EPA to publish a notice in the **Federal Register** reporting the receipt of test data submitted pursuant to test rules promulgated under section 4(a) within 15 days after it is received. Under 40 CFR 790.60, all TSCA section 4 consent orders must contain a statement that results of testing conducted pursuant to these testing consent orders will be announced to the public in accordance with section 4(d).

I. Test Data Submissions

Test data for meta-cresol was submitted by the Chemical Manufacturers Association pursuant to a test rule for cresols at 40 CFR 799.1250. It was received by EPA on November 28, 1988. The submission describes a mutagenicity test on meta-cresol in the *in vitro* transformation of BALB/C-3T3 cells assay in the presence of a rat liver cell activation system. Mutagenicity testing is required by this test rule.

Cresols are used as wire enamel solvents, automotive cleaners, and organic intermediates in manufacturing phenolic resins and phosphate esters. Additional uses of either individual isomers or mixtures are: In the production of several herbicides and disinfectants; as cleaning compounds,

degreasers and antioxidants; and in ore flotation.

Test data for DCBTF was submitted by Occidental Chemical Corporation pursuant to a consent order at 40 CFR 799.5000. It was received by EPA on December 6, 1988. The submission describes the trout early life stage study with rainbow trout. Environmental effects testing is required by this test rule.

DCBTF is used as an herbicide intermediate.

EPA has initiated its review and evaluation process for these data submissions. At this time, the Agency is unable to provide any determination as to their completeness.

II. Public Record

EPA has established a public record for this TSCA section 4(d) receipt of data notice (docket number OPTS–44521). This record includes copies of all studies reported in this notice. The record is available for inspection from 8 a.m. to 4 p.m., Monday through Friday, except legal holidays, in the TSCA Public Docket Office, Rm. NE–G004, 401 M St., SW., Washington, DC 20460.

Authority: 15 U.S.C. 2603.

Dated: December 13, 1988.

Joseph J. Merenda,

Director, Existing Chemical Assessment Division, Office of Toxic Substances.

[OPTS–140110; FRL–3495–4]

Access to Confidential Business Information by American Scientific International, Inc.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has authorized its contractor, American Scientific International, Incorporated, (ASI) of McLean, VA, for access to information which has been submitted to EPA under all sections of the Toxic Substances Control Act (TSCA). Some of the information may be claimed or determined to be confidential business information (CBI).

DATE: Access to the confidential data submitted to EPA will occur no sooner than January 5, 1989.

FOR FURTHER INFORMATION CONTACT: Michael M. Stahl, Director TSCA Assistance Office (TS–799), Office of Toxic Substances, Environmental Protection Agency, Rm. EB–44, 401 M St., SW., Washington, DC 20460, (202) 554–1404, TDD: (202) 554–0551.

SUPPLEMENTARY INFORMATION: In accordance with 40 CFR 2.306(j), EPA has determined that ASI will require access to CBI submitted to EPA under all sections of TSCA to perform successfully work specified under the contract. ASI personnel will be given access to information submitted under all sections of TSCA. Some of the information may be claimed or determined to be CBI.

Under contract no. 68–D9005, contractor ASI, 6888 Elm Street, McLean, VA will assist the Office of Toxic Substances by providing typing, editing, proofreading, photocopying, and graphic support for all phases of operations pertaining to TSCA.

EPA is issuing this notice to inform all submitters of information under all sections of TSCA that EPA may provide ASI access to these CBI materials on a need-to-know basis. All access to TSCA CBI under this contract will take place at EPA Headquarters.

Clearance for access to TSCA CBI under this contract is scheduled to expire on September 30, 1989.

ASI personnel will be required to sign non-disclosure agreements and will be briefed on appropriate security procedures before they are permitted access to TSCA CBI.

Dated: December 11, 1988.

Charles L. Elkins,

Director, Office of Toxic Substances.

[OPTS–51722; FRL–3495–2]

Toxic and Hazardous Substances; Certain Chemicals Premanufacture Notices

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(a)(1) of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture or import a new chemical substance to submit a premanufacture notice (PMN) to EPA at least 90 days before manufacture or import commences. Statutory requirements for section 5(a)(1) premanufacture notices are discussed in the final rule published in the **Federal Register** of May 13, 1983 (48 FR 21722). This notice announces receipt of eight such PMNs and provides a summary of each.

DATES: Close of Review Periods:

P 89–115, February 19, 1989.
P 89–129, January 22, 1989.
P 89–130, 89–131, 89–132, 89–133, February 26, 1989.
P 89–134, 89–135, February 27, 1989.

Written comments by:

P 89–115, January 20, 1989.
P 89–129, December 23, 1989.
P 89–130, 89–131, 89–132, 89–133, January 27, 1989.
P 89–134, 89–135, January 28, 1989.

ADDRESS: Written comments, identified by the document control number "[OPTS–51722]" and the specific PMN number should be sent to:

Document Control Office (TS–790), Office of Toxic Substances, Environmental Protection Agency, 401 M Street SW., Room 201 East Tower, Washington, DC 20460 (202) 382–3532.

FOR FURTHER INFORMATION CONTACT: Lawrence Culleen, Premanufacture Notice Management Branch, Chemical Control Division (TS–794), Office of Toxic Substances, Environmental Protection Agency, Rm. E–611, 401 M Street SW., Washington, DC 20460 (202) 382–3725.

SUPPLEMENTARY INFORMATION: The following notice contains information extracted from the nonconfidential version of the submission provided by the manufacturer on the PMNs received by EPA. The complete nonconfidential document is available in the Public Reading Room NE–G004 at the above address between 8:00 a.m. and 4:00 p.m., Monday through Friday, excluding legal holidays.

P 89–115

Manufacturer. Werner G. Smith, Inc.

Chemical. (G) Mixed dibasic acid esters of mono and dihydric alcohols; mixed esters of mono and dihydric alcohols.

Use/Production. (S) Metal working lubricant. Prod. range: 2,000–300,000 kg/yr.

P 89–129

Manufacturer. Confidential.

Chemical. (G) Organo silane.

Use/Production. (G) Coating for plastic films. Prod. range: Confidential.

P 89–130

Importer. (DNP (America), Inc.

Chemical. (G) Indophenol derivative.

Use/Import. (S) Dye for heat transfer recording material. Import range: 50–200 kg/yr.

Toxicity Data. Acute oral toxicity: LD50 >5 g/kg species (Rat). Acute dermal toxicity: LD50 >2 g/kg species (Rat). Eye irritation: None species (Rabbit). Skin irritation: negligible species (Rabbit). Mutagenicity: negative.

P 89–131

Importer. DNP (America), Inc.

Chemical. (G) Indophenol derivative.
Use/Import. (S) Dye for heat transfer recording material. Import range: 50–200 kg/yr.
Toxicity Data. Acute oral toxicity: LD50 > 5 g/kg species(Rat). Acute dermal toxicity: LD50 > 2 g/kg species(Rat). Eye irritation: None species(Rabbit). Skin irritation: negligible species(Rabbit). Mutagenicity: Negative.

P 89–132

Importer. DNP (America), Inc.
Chemical. (G) Indophenol derivative.
Use/Import. (S) Dye for heat transfer recording material. Import range: 50–200 kg/yr.
Toxicity Data. Acute oral toxicity: LD50 > 5 g/kg species(Rat). Acute dermal toxicity: LD50 > 2 g/kg species(Rat). Eye irritation: None species(Rabbit). Skin irritation: Negligible species(Rabbit). Mutagenicity: Negative.

P 89–133

Manufacturer. Confidential.
Chemical. (G) Modified hydrocarbon polymer.
Use/Production. (G) Minor additive for the binder used in publication gravure printing inks. Prod. range: Confidential.

P 89–134

Manufacturer. Novo Biochemical Industries, Inc.
Microorganism: (G)*Aspergillus oryzae* was modified using recombinant DNA techniques to contain an intergeneric lipase gene. Fragments of intergeneric vectors were also introduced into this strain.
Use/Production: This microorganism will be used for the biosynthesis of an enzyme: triacylglycerol lipase. Production range: Confidential.
Test Data: Pathogenicity study by intravenous administration to mice showed no pathogenic potential in the 21 day test. Survival tests in soil showed a poorer viability than the host strain and the Southern blot studies show the lipase gene is stable on *Aspergillus oryzae.* Tests showed decreased sporulation proficiency in the modified strain relative to the host strain.
Exposure: Workers in laboratory and production areas.
Environmental release/Disposal: During production, live cells are maintained in closed vessels. At the end of the production cycle, the cells are inactivated. Disposal of cell waste: Solid waste is used as a fertilizer on company property, liquid waste is collected in two aerated storage lagoons on company property to be used to irrigate crops on company property, and air emissions are ozone treated and discharged to the atmosphere through the fermenter exhaust stack.

P 89–135

Manufacturer. Tennant Company.
Chemical. (G) Urethane resin.
Use/Production. (G) Open, nondispersive. Prod. range: Confidential.

Date: December 13, 1988.

FEDERAL EMERGENCY MANAGEMENT AGENCY

Individual and Family Grant Program

AGENCY: Federal Emergency Management Agency.
ACTION: Notice.

SUMMARY: On November 23, 1988, the President declared the State of Arkansas eligible for Federal disaster assistance due to severe storms and tornadoes (FEMA–DR–817). This notice advises the public of two minor procedural changes FEMA is implementing on a test basis.
In this disaster relief operation, a field test of registering applications for assistance program by telephone will be conducted. These telephone registration procedures will be implemented in place of the usual Disaster Application Centers. Outreach efforts will continue and the disaster assistance registration telephone number will be widely publicized to ensure that all those eligible for assistance who wish to apply may do so.
Under the test, applicants will not be required to obtain a formal decision on a loan application from the Small Business Administration if the applicant would not qualify for a loan based on the income information provided to FEMA during the registration process. The normal procedure, typically performed in the Disaster Application Centers, consists of SBA representatives issuing loan declines if registrants meet certain income criteria. In the test, FEMA will review the income information given by the registrants and, if they would not qualify for the loan, transfer the application directly to the Individual and Family Grant program staff. Individual and family grants made by the State on the basis of Federally sponsored loan qualification information are not subject to recovery by the State, i.e., FEMA will not hold the State responsible for repaying to FEMA the Federal share of those grants. The State is responsible for its 25 percent share of those grants. This suspension applies only to the FEMA–DR–817 declaration in Arkansas.

FOR FURTHER INFORMATION CONTACT: Donna M. Dannels, Individual Assistance Division, Disaster Assistance Programs, Federal Emergency Management Agency, Washington, DC 20472, (202) 646–3662.

Date: December 12, 1988.

Grant C. Peterson,
Associate Director, State and Local Programs and Support.

BILLING CODE 6718–02–M

FEDERAL HOME LOAN BANK BOARD

[No. 88–1289]

Prices for Federal Home Loan Bank Services

Date: December 12, 1988.

AGENCY: Federal Home Loan Bank Board.
ACTION: Notice of prices for Federal Home Loan Bank Services.

SUMMARY: The Office of District Banks and the Office of Policy And Economic Research of the Federal Home Loan Bank Board ("Board") are publishing, pursuant to delegated authority, the prices charged by the Federal Home Loan Banks ("FHLBanks") for (1) processing and settlement of items ("negotiable order of withdrawal or NOW") and; (2) demand deposit accounting ("DDA") and other services offered to member institutions.

EFFECTIVE DATE: December 20, 1988.

FOR FURTHER INFORMATION CONTACT: Amy R. Maxwell (202) 377–7865, or William J. Carey, (202) 377–6656, Office of District Banks, Federal Home Loan Bank Board, 1700 G Street, NW., Washington, DC 20552.

SUPPLEMENTARY INFORMATION: Section 11(e) of the Federal Home Loan Bank Act ("Bank Act") (12 U.S.C. 1431(e)) authorizes the Federal Home Loan Banks (1) to accept demand deposits from member institutions, (2) to be drawees of payment instruments, (3) to engage in collection and settlement of payment instruments drawn on or issued by members and eligible institutions, and (4) to engage in such incidental activities as are necessary to the exercise of such authority. Section 11(e)(2)(B) of the Bank Act (12 U.S.C. 1431(e)(2)(B)) requires the Federal Home

Loan Banks to charge fees for services authorized in that section, which fees are "to be determined and regulated by the Board consistent with the principles set forth in section 11A(c) of the Federal Reserve Act." Board regulations at 12 CFR 534.6 require that the Director of the Office of District Banks and the Director of the Office of Policy and Economic Research (or their designees) review, approve and publish these fees at least annually. The fees for 1988 will be published at this time, but compliance for 1988 will be determined in 1989 when data for the entire year is available. The regulations require the FHLBanks to follow four basic pricing principles as follows:

(1) Services must be priced explicitly.

(2) Services must be available to member and nonmember depository institutions on an equal basis.

(3) Over the long run, fees must cover direct and indirect costs and must also cover an imputed cost that includes taxes paid and the return on capital that would have been provided if the services had been furnished by a private firm.

(4) Interest on float must be charged at the Federal Funds rate. In 1980, the Board developed a methodology to determine compliance with these four principles, which is based on discounted cash flows from the NOW and DDA services. Since the FHLBanks had very few assets employed in the provision of these services and only projections of future income from NOW services, the methodology adopted at that time was appropriate. Compliance with the pricing principles focused on a five-year time span to recover all direct and indirect costs of these services.

At the end of 1985, the FHLBanks completed five years of NOW processing services. Both NOW services and DDA type services are mature activities with an asset base and normal income flows. In recognition of this evolution, the Board developed an up-to-date methodology substantially similar to that adopted by the Federal Reserve Board to monitor pricing of these services.

The following section summarizes the adopted methodology, which will continue to ensure that FHLBank NOW and DDA services are not priced in a manner that would provide unfair competition to private firms.

Methodology

Two major issues arise in determining appropriate pricing methodology. First, competitor firms must be identified. Second, adjustment must be made for the taxes and return on capital that prices of competitor firms must cover. This adjustment is sometimes referred to as a Private Sector Adjustment Factor ("PSAF").

The methodology was developed based on bank holding companies as competitor firms. Although firms in other industries could be chosen as competitors, commercial banks are generally the most frequent competitors in item processing and related services. Similarly, the Federal Reserve Bank also has chosen bank holding companies as competitors for development of adjustments for taxes and the imputed cost of capital.

Adjustment for Taxes and Return on Capital

In order to compare competitor data to the FHLBanks, several broad assumptions were established as follows:

(A) NOW and DDA services may be combined under the Board's pricing approval methodology.

(B) Compliance with NOW/DDA pricing guidelines is on an individual FHLBank basis.

(C) One set of bank holding company data will be applied to FHLBanks, rather than applying regional competitor data to regional FHLBanks.

(D) Federal Home Loan Bank data, which is required for the NOW/DDA pricing methodology, may be determined on an individual FHLBank basis as follows: (1) NOW/DDA prices; (2) earnings on balances generated from item processing; (3) direct and indirect costs; and (4) assets employed in NOW/DDA services.

Based on the previous assumptions, appropriate bank holding company data and FHLBank data can be incorporated into the pricing methodology. The pricing methodology is as follows:

(A) Federal Home Loan Bank NOW/DDA costs are adjusted (increased) for the cost of financing the assets (primarily plant and equipment) employed in the provision of NOW/DDA services.

(B) NOW/DDA costs are increased for sales taxes that would have been paid if subject to such tax.

(C) NOW/DDA costs are adjusted for the cost of float at the Federal Funds rate.

(D) Imputed income taxes are applied to pre-tax NOW/DDA income using a three-year average from bank holding company data (36.16% rate).

(E) The after tax rate of return on capital from NOW/DDA services is compared to the after tax return on capital of bank holding companies (13.59% rate).

These adjustment factors ensure that the NOW/DDA services are priced in a competitive manner. Also, the factors are similar to the adjustments made by the Federal Reserve Board and represent a conservative approach consistent with the intent of Congress that pricing encourage competition and efficiency in the provision of these services.

In accordance with these principles, the Director of the Office of District Banks and the Director of the Office of Policy and Economic Research have reviewed the 1988 prices for Federal Home Loan Bank services which are published herewith. In early 1988, compliance with the pricing principles was tested based upon projected levels of service for each FHLBank. Final compliance and approval for 1988 will be determined in early 1989 when data for the entire year is available. At that time, 1989 prices will be published and preliminary compliance tests for 1989 will be performed so that the Board's monitoring of the pricing policy is continuous. The services and their prices which are published herewith are divided into two categories: (1) NOW Services involved in the processing and settlement of items drawn on or issued by member institutions ("Schedule A"); and (2) services relating to demand deposit accounts and other services maintained by member institutions with the FHLBanks ("Schedule B").

The services described in the attached schedules are not identical for any two FHLBanks, as each FHLBank's program is tailored to meet the needs of the member institutions in the FHLBank's district. Furthermore, the volume of services rendered varies significantly among the districts, with the result that the costs of providing the services also vary from district to district. In light of these considerations, the Board continues its practice of approving separate district fee structures rather than adopting a uniform pricing scheme. This policy is consistent with the congressional intent that pricing encourage competition.

It is not required that each processing step or transaction performed by a FHLBank be specifically priced. This policy permits the FHLBanks to establish fee schedules that are in line with the marketing practices of providers of correspondent services in each district.

The directors of the Office of District Banks and the Office of Policy and Economic Research of the Federal Home Loan Bank Board hereby give notice of the following fee schedules for Federal Home Loan Bank services:

Schedule A: Item Processing and Settlement Services (1988 NOW Services)

DISTRICT 1.—FEDERAL HOME LOAN BANK OF BOSTON

[Services not provided]

DISTRICT 2.—FEDERAL HOME LOAN BANK OF NEW YORK (1988 NOW SERVICES)

Services	Fee
Standard Intercept (per item)	$.050

Returned items (per item)	7.50
Food coupons (per item)	.15

[1] A mixed presentment is defined as a cash letter for which 33 percent of the total number of items repreeents end points other than the five direct send banks. If desired, the nondirect send portion of the group can be presented on a separate cash letter for processing against a more favorably priced deadline (i.e., 8:30). This definition of "mixed" presentment will cause the deposits of two institutions to be reclassified to the higher priced "group" presentment for the 5:30 deadline.
[2] All Canadian items over $500 and all non-Canadian foreign items must be submitted as a foreign collection.

BILLING CODE 6720-01-M

FEDERAL RESERVE SYSTEM

Bank Maryland Corp. et al.; Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied for the Board's approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842) and § 225.14 of the Board's Regulation Y (12 CFR 225.14) to become a bank holding company or to acquire a bank or bank holding company. The factors that are considered in acting on the applications are set forth in section 3(c) of the act (12 U.S.C. 1842(c)).

Each application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank or to the offices of the Board of Governors. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Unless otherwise noted, comments regarding each of these applications must be received not later than January 9, 1989.

A. **Federal Reserve Bank of Richmond** (Lloyd W. Bostian, Jr., Vice President) 701 East Byrd Street, Richmond, Virginia 23261:

1. *Bank Maryland Corp.*, Towson, Maryland; to acquire 100 percent of the voting shares of Bank of Maryland—Carroll County, in organization, Westminster, Maryland, a *de novo* bank.

B. **Federal Reserve Bank of Atlanta** (Robert E. Heck, Vice President) 104 Marietta Street, NW., Atlanta, Georgia 30303:

1. *Alabama National Bancorporation*, Shoal Greek, Alabama; to acquire 98.14

percent of the voting shares of Bank of Alabama, Fultondale, Alabama.

2. *FBT Bancshares, Inc.*, Fayetteville, Georgia; to become a bank holding company by acquiring 100 percent of the voting shares of First Bank & Trust Company, Fayetteville, Georgia.

3. *First Commercial Bancshares, Inc.*, Jasper, Alabama; to acquire 100 percent of the voting shares of Sterling Bank, Montgomery, Alabama, a *de novo* bank.

C. **Federal Reserve Bank of Chicago** (David S. Epstein, Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

1. *Chandlerville Bancshares*, Chandlerville, Illinois; to become a bank holding company by acquiring 100 percent of the voting shares of Peoples State Bank of Chandlerville, Chandlerville, Illinois.

2. *Marshall & Ilsely Corporation*, Milwaukee, Wisconsin; to acquire 100 percent of the voting shares of M & I Greater Waukesha Bank, Pewaukee, Wisconsin, a *de novo* bank.

Board of Governors of the Federal Reserve System, December 14, 1988.

James McAfee,

Associate Secretary of the Board.

[FR Doc. 88-29127 Filed 12-19-88; 8:45 am]

BILLING CODE 6210-01-M

Barnett Banks, Inc.; Proposal to Underwrite and Deal in Certain Securities to a Limited Extent and To Engage in Full-Service Brokerage for Institutional and Retail Customers

Barnett Banks, Inc., Jacksonville, Florida ("Applicant"), has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.23(a), of the Board's Regulation Y (12 CFR 225.23(a)), for permission to engage through Barnett Brokerage Service, Inc., West Palm Beach, Florida ("Company"), in the activities of underwriting and dealing in, to a limited degree, commercial paper, municipal revenue bonds (including "public ownership" industrial development bonds), 1–4 family mortgage-related securities and consumer-receivable-related securities ("ineligible securities"). These securities are eligible for purchase by banks for their own account but not eligible for banks to underwrite and deal in.

Applicant has also applied to engage through Company in the offering of securities brokerage services and investment advisory services to retail and institutional customers. The Board has previously approved the provision of these services in *Bank of New England Corporation*, 74 Federal Reserve Bulletin 700 (1988). *See also Signet Banking Corporation*, 75 Federal Reserve Bulletin (Order dated November 28, 1988).

In addition, Applicant has applied to underwrite and deal in securities that state member banks are permitted to underwrite and deal in under the Glass-Steagall Act ("eligible securities") (U.S. government securities, general obligations of states and municipalities and certain money market instruments), as permitted by § 225.25(b)(16) of Regulation Y (12 CFR 225.25(b)(16)), and to provide investment or financial advice as permitted by § 225.25(b)(4) of Regulation Y (12 CFR 225.25(b)(4)).

Company would conduct the proposed activities on a nationwide basis. Company is currently authorized under section 4(c)(8) of the BHC Act to provide discount securities brokerage services.

Section 4(c)(8) of the BHC Act provides that a bank holding company may, with Board approval, engage in any activity "which the Board after due notice and opportunity for hearing has determined (by order or regulation) to be so closely related to banking or managing or controlling banks as to be a proper incident thereto." Applicant has applied to underwrite and deal in ineligible securities in accordance with the limitations set forth in the Board's Orders approving those activities for a number of bank holding companies. *See, e.g., Citicorp, J.P. Morgan & Co. Incorporated and Bankers Trust New York Corporation*, 73 Federal Reserve Bulletin 473 (1987); and *First Chicago Corporation*, 74 Federal Reserve Bulletin 706 (1988). However, Applicant has requested one modification of the limitations set forth in previous Board Orders. Applicant has committed that all underwriting activities of Company will be conducted in offices separate from those of its affiliated banks, but requests that Company be permitted to retain its securities brokerages offices currently located in the offices of Applicant's banking affiliates. Applicant states that these offices are clearly identified, distinct and separate from the banks' functional areas.

Applicant contends that approval of the application would not be barred by section 20 of the Glass-Steagall Act (12 U.S.C. 377). Section 20 of the Glass-Steagall Act prohibits the affiliation of a member bank, such as Barnett Bank of Jacksonville, N.A., Jacksonville, Florida, with a firm that is "engaged principally" in the "underwriting, public sale or distribution" of securities. Applicant states that it would not be "engaged principally" in such activities on the basis of the restriction on the amount of the proposed activity relative to the total business conducted by the underwriting subsidiary previously approved by the Board.

Any request for a hearing on this application must comply with § 262.3(e) of the Board's Rules of Procedure (12 CFR 262.3(e)).

The application may be inspected at the offices of the Board of Governors of the Federal Reserve Bank of Atlanta.

Any comments or requests for hearing should be submitted in writing and received by William W. Wiles, Secretary, Board of Governors of the Federal Reserve System, Washington, DC 20551, not later than January 14, 1989.

Board of Governors of the Federal Reserve System December 14, 1988.

James McAfee,

Associate Secretary of the Board.

Fleet/Norstar Financial Group, Inc., et al.; Acquisition of Company Engaged in Permissible Nonbanking Activities

The organization listed in this notice has applied under § 225.23(a)(2) or (f) of

the Board's Regulation Y (12 CFR § 225.23(a)(2) or (f)) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.21(a) of Regulation Y (12 CFR § 225.21(a)) to acquire or control voting securities or assets of a company engaged in a nonbanking activity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies. Unless otherwise noted, such activities will be conducted throughout the United States.

The application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficieny, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Comments regarding the application must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than January 4, 1989.

A. **Federal Reserve Bank of Boston** (Robert M. Brady, Vice President) 600 Atlantic Avenue, Boston, Massachusetts 02106.

1. *Fleet/Norstar Financial Group, Inc.*, Providence, Rhode Island, to acquire Fleet Real Estate Funding Corp., Columbus, South Carolina, and thereby engage in mortgage and commercial finance activities pursuant to § 225.25(b)(1)(iii) and (b)(1)(iv); the sale of credit life insurance in connection with mortgage loans pursuant to § 225.25(b)(8)(i); and real estate equity financing pursuant to § 225.25(b)(14) of the Board's Regulation Y.

Board of Governors of the Federal Reserve System, December 13, 1988.

James McAfee,

Associate Secretary of the Board.

KeyCorp, et al.; Applications to Engage de Novo in Permissible Nonbanking Activities

The companies listed in this notice have filed an application under § 225.23(a)(1) for the Board's Regulation Y (12 CFR 225.23(a)(1)) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to commence or to engage *de novo*, either directly or through a subsidiary, in a nonbanking activity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies. Unless otherwise noted, such activities will be conducted throughout the United States.

Each application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Unless otherwise noted, comments regarding the applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than January 6, 1989.

A. **Federal Reserve Bank of New York** (William L. Rutledge, Vice President) 33 Liberty Street, New York, New York 10045:

1. *KeyCorp*, Albany, New York; Key Atlantic Bancorp, Albany, New York; and Key Bancshares of New York Inc., Albany, New York; to engage *de novo* through their subsidiary, Key Bank Life Insurance, Ltd., Phoenix, Arizona, in underwriting, as reinsurer of credit accident and health insurance directly related to extensions of credit by their subsidiaries pursuant to § 225.25(b)(8)(i) of the Board's Regulation Y.

2. *The Long-Term Credit Bank of Japan*, Tokyo, Japan; to engage *de novo* through its subsidiary, Greenwich Capital Markets, Inc., Greenwich, Connecticut, in (1) underwriting and dealing in obligations of the United States, general obligations of states and their political subdivisions, and other obligations that state member banks of the Federal Reserve System may be authorized to underwrite and deal in pursuant to § 225.25(b)(16); (2) engaging in repurchase and reverse repurchase transactions on bank-eligible securities, collateralized borrowing and lending of bank-eligible securities and providing custodial, accounting and record keeping and ancillary services; (3) providing portfolio investment advice and research and furnishing general economic information and advice, general economic statistical forecasting services and industry studies on a nonfee basis in connection with and as an incident to the proposed bank-eligible securities activities pursuant to § 225.25(b)(4); acting as a futures commission merchant for nonaffiliated persons in the execution and clearance on major commodity exchanges of futures contracts and options on futures contracts for bullion, foreign exchange, government securities, certificates of deposit and other money market instruments that a bank may buy or sell in the cash markets for its own account; and providing investment advice as a futures commission merchant with respect to the purchase and sale of futures contracts and options on futures contracts for the commodities and instruments referred to above pursuant to § 225.25(b)(19); and engaging in futures, forward and options contracts on bank-eligible securities for hedging purposes pursuant to Board Order (74 Fed. Res. Bull. 573 (1988). These activities will be conducted on a worldwide basis.

3. *Swiss Bank Corporation*, Basle, Switzerland; to engage *de novo* through its subsidiary, SBC Government Securities, Inc., in underwriting and dealing in obligations of the United States, general obligations of states and their political subdivisions, and other obligations that state member banks of the Federal Reserve System may be authorized to underwrite and deal in pursuant to § 225.25(b)(16); (2) providing investment advice in respect of such obligations pursuant to § 225.25(b)(4); (3) engaging in repurchase and reverse repurchase transactions in such obligations, collateralized borrowing and lending of such obligations, clearing and settling bank-eligible securities transactions and providing custodial,

accounting and record keeping and ancillary services pursuant to §§ 225.25(b)(3) and 225.25(b)(15) of the Board's Regulation Y. *Comments on this application must be received by January 4, 1989.*

B. **Federal Reserve Bank of San Francisco** (Harry W. Green, Vice President) 101 Market Street, San Francisco, California 94105:

1. *The Dai-Ichi Kangyo Bank*, Tokyo, Japan; to engage *de novo* through its subsidiary, DKB Securities Corporation, New York, New York, in securities brokerage and underwriting and dealing in obligations of the United States, general obligations of states and political subdivisions and any other obligations which state member banks may be authorized to underwrite and deal pursuant to § 225.25(b)(15) and (b)(16) of the Board's Regulation Y.

Board of Governors of the Federal Reserve System, December 14, 1988.

James McAfee,

Associate Secretary of the Board.

BILLING CODE 6210-01-M

FEDERAL TRADE COMMISSION

Granting of Request for Early Termination of the Waiting Period Under the Premerger Notification Rules

Section 7A of the Clayton Act, 15 U.S.C. 18a, as added by Title II of the Hart-Scott-Rodino Antitrust Improvements Act of 1976, requires persons contemplating certain mergers or acquisitions to give the Federal Trade Commission and the Assistant Attorney General advance notice and to wait designated periods before consummation of such plans. Section 7A(b)(2) of the Act permits the agencies, in individual cases, to terminate this waiting period prior to its expiration and requires that notice of this action be published in the **Federal Register**.

The following transactions were granted early termination of the waiting period provided by law and the premerger notification rules. The grants were made by the Federal Trade Commission and the Assistant Attorney General for the Antitrust Division of the Department of Justice. Neither agency intends to take any action with respect to these proposed acquisitions during the applicable waiting period:

BILLING CODE 6750-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Special Project Grants-Maternal and Child Health Services; Federal Set-Aside Program

AGENCY: Health Resources and Services Administration, PHS, DHHS.

ACTION: Notice of availability of funds.

SUMMARY: The Bureau of Maternal and Child Health and Resources Development (BMCHRD), Health Resources and Services Administration (HRSA), that Fiscal Year (FY) 1989 funds are available for grants for the following activities: Special Maternal and Child Health (MCH) projects of regional and national significance (SPRANS) which contribute to the health of mothers, children, and children with special health needs; MCH research; training in MCH; genetic disease testing, counseling and information services; and hemophilia diagnostic and treatment centers. Awards will be made under the program authority of section 502(a) of the Social Security Act (42 U.S.C. 702(a)), which is known as the MCH Federal set-aside program. HRSA, through this notice, invites potential applicants to request application packages for the particular grant category in which they are interested and then to submit their application for funding consideration. Approximately $25 million is available to support new

and competing renewal projects under the MCH Federal set-aside program.

Funds were appropriated for this purpose by Pub. L. 100–436.

DATE: Deadlines for receipt of applications differ for the several categories of grants; these deadlines are as follows:

(1) Research:
  (a) Cycle One: March 1, 1989
  (b) Cycle Two: August 1, 1989
(2) Training:
  (a) Long term training: March 29, 1989
  (b) Continuing education: July 5, 1989
(3) Genetic disease testing, counseling and information: May 17, 1989;
(4) National hemophilia resource center: March 22, 1989; Public and private non-profit organizations may submit applications for a cooperative agreement to serve as a national resource to hemophilia treatment centers, patients and families.
(5) Special MCH improvement projects of regional and national significance (i.e., those which test or demonstrate the effectiveness of a given approach or technique) relevant to MCH care in three areas:
  (a) Children with special health care needs: March 14, 1989;
  (b) Maternal and infant health: April 3, 1989;
  (c) Child and adolescent health: March 21, 1989.

To receive consideration, applications must be sent to the Grants Management Officer at the address below, and must be received by the close of business on the dates indicated. Applications shall be considered as meeting the deadline if they are either (1) received on or before the deadline date; or (2) postmarked on or before the deadline date and received in time for submission to the review committee. A legibly dated receipt from a commercial carrier or the U.S. Postal Service will be accepted in lieu of a postmark. Private metered postmarks will not be accepted as proof of timely mailing. Grant applications received after the deadline date will be returned.

FOR FURTHER INFORMATION CONTACT: Requests for technical or programmatic information should be directed to the Director, Office of Maternal and Child Health, BMCHRD, HRSA, Room 9–11, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857. Requests for grant application materials should be made in writing to the Grants Management Officer, Office of Support, BMCHRD, Room 11A–18, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland. Requests should specify the grant category or categories for which an application is requested so that the appropriate materials may be provided. Applicants for research projects will use Form PHS 398, approved by the Office of Management and Budget (OMB) under control number 0925–0001. Applicants for training projects will use Form PHS 6025–1, approved by OMB under control number 0915–0060. Applicants for all other projects will use application Form PHS 5161–1 with revised facesheet DHHS Form 424, approved by OMB under control number 0348–0006.

SUPPLEMENTARY INFORMATION: Under section 502(a) of the Social Security Act, between 10 and 15 percent of the funds appropriated for Title V of the Act in each fiscal year are to be retained by the Secretary for the award of grants for the purposes specified above. Historically, the Secretary has set aside the full 15 percent each year. Support for projects covered by this announcement will come from these funds. Consistent with the statutory purpose of improving maternal and child health, the Department will review applications for funds under the above mentioned categories as competing applications and will fund those which, in the Department's view, best promote improvements in maternal and child health care (for example, applications which enhance efforts to reduce the unacceptably high rates of infant mortality, which increase the availability of and access to services for handicapped and chronically ill children and young adults, and which enhance the health and development of adolescents).

Eligible Applicants

The statute at section 502(a)(2) provides that training grants may be made only to public or nonprofit private institutions of higher learning and that research grants may be made only to public or nonprofit private agencies and organizations engaged in research in maternal and child health or programs for children with special health care needs. Any public or private entity, including an Indian tribe or tribal organization (as defined at 25 U.S.C. 450b), is eligible to apply for grants for genetic disease testing, counseling and information; hemophilia diagnostic and treatment centers; and SPRANS.

The regulation implementing the Federal set-aside program was published in the March 5, 1986 issue of the **Federal Register** at 51 FR 7726 (42 CFR Part 51a).

Review Criteria

Applications for grants will be reviewed and evaluated according to:

1. The quality of the project plan or methodology.
2. Documentation of the need for the training and technical assistance.
3. The cost-effectiveness of the proposed project relative to the number of persons proposed to be benefited, served or trained.
4. The extent to which the project will contribute to service system improvement for children and adolescents with special health needs and their families, including children with physical and/or mental disabilities, children with chronic illnesses, children with serious emotional distrubances, and children at risk for developing these or related disabilities as a result of homelessness or exposure to AIDS infection.
5. Extent to which project will serve all regions of the country including urban and rural settings and any special circumstances associated with providing training in various areas.
6. The effectiveness of procedures to collect the cost of care and services from third-party payment sources (including government agencies) which are authorized or under legal obligation to make such payment for any service (including diagnostic, preventive and treatment services).

7. The extent to which the project will be integrated with the administration of the Maternal and Child Health Services block grants and other block grants made to the appropriate State(s).

8. The soundness of the project's management, considering the qualifications of the staff of the proposed project and the applicant's facilities and resources.

Executive Order 12372

The MCH Federal set-aside program has been determined to be a program which is not subject to the provisions of Executive Order 12372 concerning intergovernmental review of Federal programs. The OMB Catalog of Federal Domestic Assistance number is 13.110.

Date: December 14, 1988.

John H. Kelso,

Acting Administrator.

BILLING CODE 4160-15-M

DEPARTMENT OF THE INTERIOR

Minerals Management Service

Georgia Offshore Minerals Assessment

AGENCY: Minerals Management Service, Interior.

ACTION: Notice; request for comments.

SUMMARY: The purpose of this Request for Comments (Request) is to obtain data and information and to solicit public comment on an assessment of mineral resources located in Federal waters offshore Georgia.

DATES: Written comments must be hand-delivered or postmarked on or before March 20, 1989.

ADDRESSES: Respondents are requested to submit all comments, opinions, data, and information to Dr. William McLemore, State Geologist, Georgia Geologic Survey, 19 Martin Luther King, Jr. Drive, SW., Atlanta, Georgia 30334. A copy of the assessment entitled *Georgia Offshore Minerals Assessment* may be obtained from Dr. McLemore at the above address or requested by telephoning (404) 656-3214.

FOR FURTHER INFORMATION CONTACT: Mr. Don Hill, Office of Strategic and International Minerals, Minerals Management Service, 1951 Kidwell Drive, Suite 601, Vienna, Virginia 22180. Telephone (703) 285-2220.

SUPPLEMENTARY INFORMATION: The comments, opinions, data and informational submittals received from all sources will be reviewed and analyzed by the Federal/State of Georgia Task Force supervising the assessment.

Background Information

Subsequent to a formal exchange of letters between Governor Joe Frank Harris and Secretary of the Interior Donald P. Hodel in mid 1986, a joint cooperative agreement was signed establishing a Federal/State of Georgia Task Force. The Task Force was directed to study deposits of potential mineral resources, including heavy mineral placers and phosphorites located in Federal waters off the coast of Georgia.

In April 1987, the Task Force developed a proposal to assess potentially economic mineral resources from the Outer Continental Shelf (OCS) offshore Georgia. A contract to conduct an assessment of mineral resources was awarded by the Department of Natural Resources, State of Georgia, in August 1987.

In August 1988, the contractor, Zellars-Williams Company, division of Jacobs Engineering Group Inc., presented its findings and conclusions to the Task Force in a single volume entitled *Georgia Offshore Minerals Assessment* (GOMA). After review, analysis, and discussion of the assessment by the Task Force at meetings held in Atlanta, Georgia, on September 15, 1988 it was agreed to solicit comment from firms, organizations, public groups, and any individuals who may wish to comment on the GOMA and on potential marine minerals development offshore Georgia.

It is noted that during the present phase of data gathering there is no State or Federal action to lease, or offer for public lease sale, any nonenergy marine minerals in any offshore area contiguous to Georgia. Further, there are no present plans to prepare any Environmental Impact Statement or other environmental evalaution on this area. The current Request comprises only data gathering and solicitation of comment related to the assessment.

As cited in the GOMA, that study and current data gathering tasks are being conducted in order to assist the State of Georgia and the Department of the Interior in reaching an informed decision regarding whether to proceed with other activities related to mining marine minerals on the OCS. (43 U.S.C. 1331 *et seq.*)

Guidelines

Comments, opinions, data, and any supporting information are requested.

General

1. Are there any other sources of data or information—published or unpublished—related to potential mineral resources offshore Georgia overlooked in this assessment (see GOMA section 2.2)?

2. Please express your opinion regarding the usefulness of the results of this preliminary resource assessment given the cited limitations of the data.

3. Please provide opinions regarding the assessment conclusions about the location of possible phosphate and heavy mineral deposits and the selection of specific study areas for determining the economic feasibility of development.

Specific

1. Please express your opinion on the market evaluation used in the GOMA.

2. Please express your opinion on the current United States phosphate and/or heavy mineral supply, and your opinion on current phosphate and/or heavy mineral supplies imported into the United States and the effect of these imports on the United States economy. Also, please provide your opinion on demand for phosphate and/or heavy minerals within the United States both now and within the coming 5- to 10-year period.

3. In the GOMA, certain economic assumptions were made concerning the future feasibility of mining offshore phosphate and heavy mineral deposits. Please express your opinion on the GOMA assumptions used regarding operating factors, development design criteria and economic conditions if one were to assume that sufficient mineral resources exist for a substantial reserve offshore. If you believe these assumptions are unrealistic or too optimistic, please give your opinion on future 5- and 10-year phosphate rock and heavy mineral prices, estimated date(s) for startup of operations, and necessary rates of return that would be required.

4. The GOMA stated that one assumption necessary for the analysis was that the sand and clay wastes generated from the mining and beneficiation of the phosphate and heavy minerals could be disposed of at sea, or alternatively at a landsite. Please express your opinion on the technological, economic, and environmental feasibility of both ocean and landsite disposal of sand and clay wastes after mining and beneficiation.

5. Please provide information on the rates of return industry would be using to assess the economic potential of

ventures such as described in this study for phosphates or heavy mineral production. Describe the expected rates of return for a project ("hurdle rates") which firms would require to justify proceeding with offshore minerals development as described in this assessment; and under what conditions these hurdle rates could change.

6. Please provide any additional information which you feel should be taken into account by the Task Force, including (but not limited to):

a. Current and projected phosphate and/or heavy mineral resource market data;

b. Current and projected technology available for phosphate and/or heavy mineral extraction, either offshore or onshore;

c. Specific geological, environmental, biological, and/or socioeconomic conditions which may affect (either positively or adversely) marine mineral extraction offshore Georgia; and

d. The financial analysis methodology used in the GOMA to evaluate the development potential; and the selected sensitivity analyses.

Future

1. Provide any suggestions for future study and work in this area of offshore hard minerals development.

2. Provide descriptions of institutional constraints or barriers which may serve to prevent the development of offshore minerals in this area.

Date: December 13, 1988.

Thomas Gernhofer,

Acting Director, Minerals Management Service.

BILLING CODE 4310-70-M

INTERSTATE COMMERCE COMMISSION

[Finance Docket No. 31373]

CSX Transportation, Inc., Renewal of Lease Exemption, Strouds Creek and Muddlety Railroad Co.

CSX Transportation, Inc. (CSXT) has leased and operated the properties of Strouds Creek and Muddlety Railroad Company (Strouds Creek) consisting of 20.58 miles of railroad line from Allingdale to Summersville, WV, by virtue of a 1943 lease, and amended in 1973. The lease is due to expire on March 31, 1989. The parties have agreed to renew and extend the lease for an additional term of 15 years to commence April 1, 1989.

This notice is filed under 49 CFR 1180.2(d)(4), which exempts renewal of leases and any other matters where the Commission has previously authorized the transactions and only an extension in time is involved. Petitions to revoke the exemption under 49 U.S.C. 10505(d) may be filed at any time. The filing of a petition to revoke will not stay the transaction.

As a condition to use of this exemption any employees affected by the lease transaction will be protected pursuant to *Mendocino Coast Ry., Inc.—Lease and Operate,* 354 I.C.C. 732 (1978) and 360 I.C.C. 653 (1980).

Dated: December 14, 1988.

By the Commission, Jane F. Mackall, Director, Office of Proceedings.

Noreta R. McGee,

Secretary.

[FR Doc. 88-29168 Filed 12-19-88; 8:45 am]

BILLING CODE 7035-01-M

[Docket No. AB-290 (Sub-No. 31X)]

Central of Georgia Railroad Co.; Abandonment Exemption Between Krannert Junction and Lyerly, GA

Applicant has filed a notice of exemption under 49 CFR 1152 Subpart F—*Exempt Abandonments* to abandon its 15.2-mile line of railroad between milepost C-382.0 at Krannert Junction, GA, and milepost C-397.2 at Lyerly, GA.

Applicant has certified that: (1) No local traffic has moved over the line for at least 2 years; (2) any overhead traffic on the line can be rerouted over other lines; and (3) no formal complaint filed by a user of rail service on the line (or a State or local government entity acting on behalf of such user) regarding cessation of service over the line either is pending with the Commission or with any U.S. District Court or has been decided in favor of the complainant within the 2-year period. The appropriate State agency has been notified in writing at least 10 days prior to the filing of this notice.

As a condition to use of this exemption, any employee affected by the abandonment shall be protected under *Oregon Short Line R. Co.—Abandonment—Goshen,* 360 I.C.C. 91 (1979). To address whether this condition adequately protects affected employees, a petition for partial revocation under 49 U.S.C. 10505(d) must be filed.

Provided no formal expression of intent to file an offer of financial assistance has been received, this exemption will be effective January 20, 1989 (unless stayed pending reconsideration). Petitions to stay that do not involve enviornmmental issues,[1] formal expressions of intent to file an offer of financial assistance under 49 CFR 1152.27(c)(2),[2] and trail use/rail banking statements under 49 CFR 1152.29 must be filed by January 3, 1989.[3] Petitions for reconsideration and requests for public use conditions under 49 CFR 1152.28 must be filed by January 13, 1989 with: Office of the Secretary, Case Control Branch, Interstate Commerce Commission, Washington, DC 20423.

A copy of any petition filed with the Commission should be sent to applicant's representative: Virginia K. Young, Norfolk Southern Corporation, One Commercial Place, Norfolk, VA 23510.

If the notice of exemption contains false or misleading information, use of the exemption is void *ab initio.*

Applicant has filed an environmental report which addresses environmental or energy impacts, if any, from this abandonment.

The Section of Energy and Environment (SEE) will prepare an environmental assessment (EA). SEE will issue the EA by December 27, 1988. Interested persons may obtain a copy of the EA from SEE by writing to it (Room 3115, Interstate Commerce Commission, Washington, DC 20423) or by calling Carl Bausch, Chief, SEE at (202) 275-7316. Comments on environmental and energy concerns must be filed within 15 days after the EA becomes available to the public.

Environmental, public use, or trail use/rail banking conditions will be imposed, where appropriate, in a subsequent decision.

Decided: December 13, 1988.

By the Commission, Jane F. Mackall, Director, Office of Proceedings.

Noreta R. McGee,

Secretary.

BILLING CODE 7035-01-M

[Docket No. AB-290 (Sub-No. 30X)]

Central of Georgia Railroad Co.; Abandonment Exemption Between Covington and Porterdale, GA

Applicant has filed a notice of exemption under 49 CFR 1152 Subpart F—*Exempt Abandonments* to abandon its E-80.7 at Covington, GA and milepost E-83.5, at Porterdale, GA.

Applicant has certified that: (1) No local traffic has moved over the line for at least 2 years; (2) any overhead traffic on the line can be rerouted over other lines; and (3) no formal complaint filed by a user of rail service on the line (or a State or local government entity acting on behalf of such user) regarding cessation of service over the line either is pending with the Commission or with any U.S. District Court or has been decided in favor of the complainant within the 2-year period. The appropriate State agency has been notified in writing at least 10 days prior to the filing of this notice.

As a condition to use of this exemption, any employee affected by the abandonment shall be protected under *Oregon Short Line R. Co.—Abandonment—Goshen,* 360 I.C.C. 91 (1979). To address whether this condition adequately protects affected employees, a petition for partial revocation under 49 U.S.C. 10505(d) must be filed.

Provided no formal expression of intent to file an offer of financial assistance has been received, this exemption will be effective on January 20, 1989 (unless stayed pending reconsideration). Petitions to stay that do not involve environmental issues,[1]

---

[1] A stay will be routinely issued by the Commission in those proceedings where an informed decision on environmental issues (whether raised by a party or by the Section of Energy and Environment in its independent investigation) cannot be made prior to the effective date of the notice of exemption. *See Exemption of Out-of-Service Rail Lines,* 4 I.C.C.2d 400 (1988). Any entity seeking a stay involving environmental concerns is encouraged to file its request as soon as possible in order to permit this Commission to review and act on the request before the effective date of this decision.

[2] *See Exempt. of Rail Abandonment—Offers of Finan. Assist.,* 4 I.C.C.2d 164(1987), and final rules published in the **Federal Register** on December 22, 1987 (52 FedRed 48440-48446).

[3] The Commission will accept a late-filed trail use statement so long as it retains jurisdiction to do so.

[3] The Commission will accept a late-filed trail use statement so long as it retains jurisdiction to do so.

[Docket No. AB–43 (Sub-No. 150X)]

Illinois Central Railroad Co.; Abandonment Exemption In Franklin and Williamson Counties, IL

Applicant has filed a notice of exemption under 49 CFR 1152 Subpart F—*Exempt Abandonments* to abandon its 7.88-mile line of railroad between Christopher, IL (milepost 82.00) and the Franklin-Williamson County, IL line (milepost 89.88), along with approximately 8.5 miles of side track (mine lead), located in Franklin and Williamson Counties, IL.

Applicant has certified that: (1) No local overhead traffic has moved over the line for at least 2 years; (2) any overhead traffic on the line can be rerouted over other lines; and (3) no formal complaint filed by a user of rail service on the line (or by a State or local governmental entity acting on behalf of such user) regarding cessation of service over the line either is pending with the Commission or with any U.S. District Court, or has been decided in favor of the complainant within the 2-year period. The appropriate State agency has been notified in writing at least 10 days prior to the filing of this notice.

As a condition to use of this exemption, any employee affected by the abandonment shall be protected under *Oregon Short Line R. Co.—Abandonment—Goshen*, 360 I.C.C. 91 (1979). To address whether this condition adequately protects affected employees, a petition for partial revocation under 49 U.S.C. 10505(d) must be filed.

Provided no formal expression of intent to file an offer of financial assistance has been received, this exemption will be effective January 21, 1989 (unless stayed pending reconsideration). Petitions to stay that do not involve environmental issues,[1] formal expressions of intent to file an offer of financial assistance under 49 CFR 1152.27(c)(2),[2] and trail use/rail banking statements under 49 CFR 1152.29 must be filed by January 3, 1989.[3] Petitions for reconsideration and requests for public use conditions under 49 CFR 1152.28 must be filed by January 11, 1989, with: Office of the Secretary, Case Control Branch, Interstate Commerce Commission, Washington, DC 20423.

A copy of any petition filed with the Commission should be sent to applicant's representative: John H. Doeringer, 20180 Governors Highway, Olympia Fields, IL 60461.

If the notice of exemption contains false or misleading information, use of the exemption is void *ab initio*.

Applicant has filed an environmental report which addreses environmental or energy impacts, if any, resulting from this abandonment. The Section of Energy and Environment (SEE) will prepare an environmental assessment (EA). SEE will issue the EA by December 27, 1988. Interested persons may obtain a copy of the EA from SEE by writing to it (Room 3115, Interstate Commerce Commission, Washington, DC 20423) or by calling Carl Bausch, Chief, SEE at (202) 275–7316.

A notice to the parties will be issued if use of the exemption is conditioned upon environmental or public use conditions.

Decided: December 13, 1988.

By the Commission, Jane F. Mackall, Director, Office of Proceedings.

Noreta R. McGee,

Secretary.

DEPARTMENT OF JUSTICE (DOJ)

Information Collection(s) Under Review

December 15, 1988.

The Office of Management and Budget (OMB) has been sent the following proposals for the collection of information for review under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35) and the Paperwork Reduction Reauthorization Act since the last list was published. Entries are grouped into submission categories. Each entry contains the following information: (1) The title of the form or collection; (2) the agency form number, if any, and the applicable component of the Department sponsoring the collection; (3) how often the form must be filled out or the

information is collected; (4) who will be asked or required to respond, as well as a brief abstract; (5) an estimate of the total number of respondents and the amount of time estimated for an average respondent to respond; (6) an estimate of the total public burden (in hours) associated with the collection; and, (7) an indication as to whether section 3504(h) of Pub. L. 96–511 applies.

Comments and/or suggestions regarding the item(s) contained in this notice, especially those regarding the estimated response time, should be directed to the OMB reviewer, Mr. Sam Fairchild, on (202) 395–7340 and to the Department of Justice's Clearance Officer, Mr. Larry E. Miesse, on (202) 633–4312. If you anticipate commenting on a form/collection, but find that time to prepare such comments will prevent you from prompt submission, you should so notify the OMB reviewer and the DOJ Clearance Officer of your intent as soon as possible. Written comments regarding the burden estimate or any other aspect of the collection may be submitted to Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503, and to Mr. Larry E. Miesse, DOJ Clearance Officer, SPS/JMD/5031 CAB, Department of Justice, Washington, DC 20530.

Revision of a Currently Approved Collection

(1) 1988 Probation Data Survey and 1988 Parole Data Survey.
(2) CJ–7 (Parole), CJ–8 (Probation); Bureau of Justice Statistics, Department of Justice.
(3) Annually.
(4) State or local governments, Federal agencies or employees. Summary data on the probation and parole populations are collected from State, local and Federal agencies and are used by officials, administrators, and researchers to evaluate current conditions and trends nationwide.
(5) 328 respondents at 1.3 hours per response.
(6) 424 estimated annual burden hours.
(7) Not applicable under section 3504(h).

New Collections

(1) Judicial Recommendations Against Deportation; Controlled Substance Violations.
(2) None; Immigration and Naturalization Service (INS), Department of Justice.
(3) On occasion.
(4) Individuals or households. Receipt of a judicial recommendation against deportation (JRAD) aids the INS in ascertaining if an alien is deportable. When a JRAD is granted, the crime may not be used as a basis for deportation. Affected will be aliens convicted of crimes involving moral turpitude making motions per 8 U.S.C. 1251(b)(2).
(5) 3,000 respondents at .25 hours per response.
(6) 750 estimated annual public burden hours.
(7) Not applicable under section 3504(h).

(1) National Judicial Reporting Program, Felony Sentence Report.
(2) NJRP–1; Bureau of Justice Statistics (BJS), Department of Justice.
(3) Biennially.
(4) State or local governments. Used to conduct a continuing survey to enumerate and describe sentences of adult felons in general jurisdiction courts. Respondents are personnel in state and local general jurisdiction courts selected for the sample.
(5) 165,000 respondents at .02 hours each.
(6) 3,690 estimated annual public burden hours.
(7) Not applicable under section 3504(h).

Extension of the Expiration Date of a Currently Approved Collection Without Any Change in the Substance or in the Method of Collection

(1) Application for advance permission to return to unrelinquished domicile.
(2) I–191; Immigration and Naturalization Service, Department of Justice.
(3) On occasion.
(4) Individuals or households. Information is used by INS to determine whether applicant is eligible for status under section 212(c) of the Immigration and Nationality Act.
(5) 300 respondents at .25 hours each.
(6) 75 estimated annual public burden hours.
(7) Not applicable under section 3504(h).

(1) Application for waiver of passport and/or visa.
(2) I–193; Immigration and Naturalization Service, Department of Justice.
(3) On occasion.
(4) Individuals or households. Information is needed to determine whether an applicant is eligible for entry into the United States under 8 CFR 212.1(g) and 211.1(b)(3).
(5) 25,000 respondents at .166 hours each.
(6) 4,150 estimated annual burden hours.
(7) Not applicable under section 3504(h).

Larry E. Miesse,

Department Clearance Officer, Department of Justice.

BILLING CODE 4410–18–M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–285]

Omaha Public Power District, Fort Calhoun Station, Unit 1; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of an exemption from the requirements of Appendix R to 10 CFR Part 50 to Omaha Public Power District (the licensee) for the Fort Calhoun Station, Unit 1, located in Washington County, Nebraska.

Environmental Assessment

Identification of Proposed Action

The proposed action would grant an exemption from certain requirements of Section III.0 of Appendix R to 10 CFR Part 50, which relate to the provision for the oil collection system for the reactor coolant pumps (RCPs). The exemption is technical since the licensee must demonstrate that the oil collection configuration meets the specific requirements of section III.0 or that an alternative configuration can be justified by an acceptable analysis.

The Need for Proposed Action

The proposed exemption is needed because the existing oil collection system at the plant described in the licensee's exemption request was not designed to hold the oil inventory from all four of the reactor coolant pumps.

Environmental Impacts of the Proposed Action

The proposed exemption will provide a sufficient degree of fire protection such that there is no increase in the risk of fire at Fort Calhoun Station. Consequently, the probability of fires has not been increased and the post-fire radiological releases will not be greater than previously determined nor does the proposed exemption otherwise affect radiological plant effluents. Therefore, the Commission concludes that there are no significant radiological environmental impacts associated with the proposed exemption.

With regard to potential non-radiological impacts, the proposed exemption involves systems located entirely within the restricted area, as defined in 10 CFR Part 20. They do not affect non-radiological plant effluents and have no other environmental impact. Therefore, the Commission concludes that there are no significant non-radiological environmental impacts associated with the proposed exemption.

Alternative to the Proposed Action

Since the Commission concluded that there are no significant environmental effects that would result from the proposed action, any alternatives with equal or greater environmental impacts need not be evaluated.

The principal alternative would be to deny the requested amendment. This would not reduce environmental impacts of plant operation.

Alternative Use of Resources

This action does not involve the use of any resources not previously considered in the "Final Environmental Statement Related to the Operation of the Fort Calhoun Unit 1", dated August 1972.

Agencies and Persons Consulted

The NRC staff reviewed the licensee's request and did not consult other agencies or persons.

Finding of No Significant Impact

The Commission has determined not to prepare an environmental impact statement for the proposed license amendment.

Based upon the foregoing environmental assessment, we conclude that the proposed action will not have a significant effect on the quality of the human environment.

For further details with respect to this action, see the application for amendment dated November 28, 1988, which are available for public inspection at the Commission's Public Document Room, 2120 L Street, NW., Washington, DC and at the W. Dale Clark Library, 215 South 15th Street, Omaha, NE 68102.

Dated at Rockville, Maryland, this 13th day of December 1988.

For the Nuclear Regulatory Commission.

Jose A. Calvo,

Director, Project Directorate IV, Division of Reactor Projects—III, IV, V and Special Projects, Office of Nuclear Reactor Regulation.

BILLING CODE 7590–01–M

[Docket No. 50–458]

Gulf States Utilities Company; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 32 to Facility Operating License No. NPF–47, issued to Gulf States Utilities Company (the licensee), which revised the Technical Specifications for operation of the River Bend Station, Unit 1 located in West Feliciana Parish, Louisiana.

The amendment was effective as of the date of its issuance.

The amendment revised the Technical Specifications to reduce the minimum water coverage above a spent fuel assembly in the storage pool and above an irradiated control rod during spent fuel and irradiated control rod handling. The reduced minimum water coverage for irradiated control rods also permits placing these rods on hangers provided for their storage in the fuel building pool.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

The Notice of Consideration of Issuance of Amendment was published in the **Federal Register** on August 25, 1988 (53 FR 32484) and a correction was published in the **Federal Register** on October 24, 1988 (53 FR 41634). No request for a hearing or petition for leave to intervene was filed following the notices.

The Commission has prepared an Environmental Assessment related to the action and has determined not to prepare an environmental impact statement. Based upon the environmental assessment, the Commission has concluded that the issuance of this amendment will not have a significant effect on the quality of the human environment.

For further details with respect to the action, see: (1) The application for amendment dated August 12, 1988; (2) Amendment No. 32 to Facility Operating License No. NPF–47; and (3) the Commission's related Safety Evaluation and Environmental Assessment. All of these items are available for public inspection at the Commission's Public Document Room, 2120 L Street, NW., Washington, DC 20555; at Government Documents Department, Louisiana State University, Baton Rouge, Louisiana 70803. A copy of items (3) and (4) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Director, Division of Reactor Projects—III, IV, V and Special Projects.

Dated at Rockville, Maryland this 13th day of December, 1988.

For the Nuclear Regulatory Commission.

Walter A. Paulson,

Project Manager, Project Director—IV, Division of Reactor Projects—III, IV, V and Special Projects, Office of Nuclear Reactor Regulation.

BILLING CODE 7590–01–M

OFFICE OF MANAGEMENT AND BUDGET

Metropolitan Statistical Areas

AGENCY: Statistical Policy Office, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB).

ACTION: Notice of intent to revise the standards used to define metropolitan statistical areas.

SUMMARY: Metropolitan Statistical Areas (MSAs) are defined for statistical purposes by OMB, following specific standards, under the authority of the Paperwork Reduction Act of 1980 (44 U.S.C. 3504). MSAs are used by Federal agencies for collecting, tabulating, and publishing data by geographic areas. The last major revision of the MSA standards was issued in 1980. The standards now need review for possible updating. Revised standards will be issued before April 1, 1990.

DATE: This notice explains the MSA standards revision process and requests proposals for specific changes in the standards. The existing MSA standards, published in this notice, are the basis for the proposed revisions for the 1990s. In evaluating the proposed MSA standards emphasis will be given to the need for continuity and consistency of statistical series.

DATES: Comments must be received on or before February 21, 1989.

ADDRESS: Comments should be submitted to the Statistical Policy Office, Office of Information and Regulatory Affairs, New Executive Office Building, Room 3228, Office of Management and Budget, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Maria E. Gonzalez, Statistical Policy Office, Office of Information and Regulatory Affairs, New Executive

VOL 53 ISS 244 DE 20 1988 UMI

Office Building, Room 3228, Office of Management and Budget, Washington, DC 20503, (202) 395–7313.

SUPPLEMENTARY INFORMATION:

Part I. Background

The present MSA standards were published in the **Federal Register** on January 3, 1980, after two rounds of review and public comment. After the 1980 census data became available the MSA definitions were updated, with revised definitions issued in June 1983. The MSA standards will be updated before the 1990 census; the next redefinition of MSA boundaries will be issued after the 1990 census data become available.

Shortly before the 1950 census, a decision was made to define a set of "standard metropolitan areas" (SMAs) for presenting Federal statistics. The Bureau of the Budget (later named the Office of Management and Budget) was assigned to task of defining the SMAs, acting with the advice of an interagency committee.

From their inception, the official SMAs (renamed standard metropolitan statistical areas (SMSAs) in 1959, and metropolitan statistical areas (MSAs) in 1983), were defined according to specific published standards. Changes in the official standards have been announced at the time of each census since 1950. Similarly, OMB intends to issue revised MSA standards before the 1990 census.

Part II. The Current Standards

The present MSA standards are published in Part IX of this Notice. However, section 9 and section 15 incorporate certain specific steps that previously appeared in the Procedures supplement to the standards. Federal agencies and the public are asked to review these standards and comment on any aspect they would like to change within 60 days of publication of this Notice.

Part III. Purpose and Scope of Review

The MSA standards are reviewed and revised every 10 years to reflect the evolving distribution of metropolitan population in the country as documented in the decennial census. The review and revision of the MSA standards are the responsibility of the Statistical Policy Office, Office of Information and Regulatory Affairs, Office of Management and Budget, which has developed this classification with the advice of the interagency Federal Committee on Metropolitan Statistical Areas. Committee members include the following agencies: Office of Management and Budget, Bureau of the Census (Commerce), Bureau of Economic Analysis (Commerce), Bureau of Labor Statistics (Labor), Economic Research Service (USDA), Department of Housing and Urban Development, Health Care Financing Administration (HHS), National Center for Health Statistics (HHS), Federal Highway Administration (DOT), Federal Communications Commission, Equal Employment Opportunity Commission, and Federal Reserve Board.

Any proposals for revisions received within 60 days of issuance of this Notice will be reviewed by the interagency Federal Committee on MSAs. This Committee will make recommendations to OMB on the standards. Final decisions on the MSA standards will be made by OMB and will be published in the **Federal Register** before April 1, 1990.

Part IV. Guidelines for Reviewing Proposed Changes in the Standards

The Federal Committee on Metropolitan Statistical Areas will review all proposed changes in the standards. The evaluation of the standards will emphasize maintaining the historical consistency of the metropolitan area concept as presented in the standards over the past 40 years.

The central counties of each metropolitan statistical area are generally identified by using the boundaries of Census Bureau-defined urbanized areas. To qualify outlying counties as parts of a metropolitan statistical area, the standards include a number of specific thresholds of percentage commuting to the central counties, population density, percentage urban, and similar measures. These thresholds will be reviewed to ensure that qualifying counties are metropolitan in character.

Central cities of MSAs are also identified based on statistical measures, and their names are then used in determining the title for the MSA. The specific measures used will be reviewed to ensure they are appropriate.

A metropolitan statistical area of more than 1 million population is eligible to be designated a consolidated metropolitan statistical area (CMSA) if at least two primary metropolitan statistical areas (PMSAs) qualify. A PMSA is defined using certain statistical thresholds, and local opinion, as expressed through the congressional delegation for the area, must strongly support its recognition. The statistical thresholds will be reviewed to ensure that they are appropriate for defining PMSAs. The standards include guidance on titling CMSAs and PMSAs; local opinion is a factor in making the final titling decision for these areas.

Part V. Uses of Metropolitan Statistical Area Data

All agencies that collect and publish data for MSAs should use the most recent definitions established by OMB.

OMB establishes and maintains the definitions of metropolitan statistical areas solely for statistical purposes. In periodically reviewing and revising the MSA definitions, OMB does not take into account or attempt to anticipate any nonstatistical uses that may be made of the definitions, nor will OMB modify the definitions to meet the requirements of any nonstatistical program.

Therefore, if an agency uses the MSA definitions in a nonstatistical program, it is the agency's responsibility to ensure that the definitions are appropriate for such use. In cases where an agency is publishing for comment a proposed regulation that would use the MSA definitions for nonstatistical purpose, the agency should seek public comment on the proposed use of the MSA definitions. Agencies that use the MSA definitions in a nonstatistical program are urged to consider appropriate modifications of the MSA definitions, exclusively for the purposes of that program. However, all such modifications should be clearly identified to avoid confusion with the OMB standard statistical definitions of Metropolitan Statistical Areas.

Part VI. Proposals

Proposals for changes in the standards made by either private organizations or government agencies must be in writing and should include the following:

(1) Specific details about the variables to be used and how they should be used in defining MSAs.

(2) As complete as possible a discussion of how the proposed change is expected to affect the existing definitions of MSAs.

(3) Data proposed for use in the standards should be available for all counties of the United States from a governmental source. The frequency of release and accuracy of the data should be discussed.

Part VII. Time Schedule

All proposed amendments to the standards used to define MSAs should be submitted to the Statistical Policy Office, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503, as soon as possible, but no later than 60 days from the issuance of this Notice. The revised standards will become effective by April 1, 1990.

Part VIII. Public Review Procedure

The standards used at present to define MSAs are given in Part IX. OMB requests comments on any section of the standards, but is particularly interested in comments on:

- Section 8A(2)
- Section 9B
- Section 9C
- Appendix definition of "Percentages, Densities, and Ratios"

The proposed revised standards for the MSA definitions in the 1990s will be published in the **Federal Register** for review and comment prior to final action by the Office of Management and Budget. Those making proposals will be notified directly of actions taken by the Federal Committee on MSAs; others will be advised through the **Federal Register.**

Part IX. Official Standards Followed in Establishing Metropolitan Statistical Areas (Federal Register, January 3, 1980, pp. 959–963)

Basic Standards

Sections 1 through 8 apply to all States exept the six New England States. They also apply to Puerto Rico.[1]

Section 1. Populations Size Requirements for Qualification

A. Each metropolitan statistical area must include a city which, with contiguous, densely settled territory, constitutes a Census Bureau-defined urbanized area with at least 50,000 population.[2]

B. If a metropolitan statistical area's largest city has less than 50,000 population, the area must have a total population of at least 100,000.[3]

Section 2. Central Counties

A county is designated as a central county of the metropolitan statistical area if:

A. At least 50 percent of its population lives in the urbanized area that resulted in qualification under Section 1A; *or*

B. At least 2,500 of its population lives in a central city of the metropolitan statistical area.[4]

[1] Those provisions of Sections 1 through 8 which are applicable to New England are specified in the standards relating to New England (sections 12 through 16).

[2] A metropolitan statistical area designated according to standards in effect at the time of designation will not be disqualified on the basis of lacking an urbanized area of at least 50,000 population.

[3] A metropolitan statistical area designated on the basis of census data according to standards in effect at the time of designation will not be disqualified on the basis of lacking a total population of at least 100,000.

[4] See Section 4 for the standards for identifying central cities.

Section 3. Outlying Counties

A. An outlying county is included in a metropolitan statistical area if any one of the four following conditions is met:

(1) At least 50 percent of the employed workers residing in the county commute to the central county(ies) and the population density of the county is at least 25 per square mile.

(2) From 40 to 50 percent of the employed workers commute to the central county(ies), and the population density is at least 35 persons per square mile.

(3) From 25 to 40 percent of the employed workers commute to the central county(ies), the population density is at least 35 persons per square mile, and one of the following conditions also exists:

(a) Population density is at least 50 persons per square mile;

(b) At least 35 percent of the population is urban;

(c) At least 10 percent, or at least 5,000, of the population lives in the urbanized area that resulted in qualification under Section 1A.

(4) From 15 to 25 percent of the employed workers commute to the central county(ies),[5] the population density is at least 50 persons per square mile, and any two of the following conditions also exist:

(a) Population density is at least 60 persons per square mile;

(b) At least 35 percent of the population is urban;

(c) Population growth between the last two decennial censuses is at least 20 percent;

(d) At least 10 percent, or at least 5,000, of the population lives in the urbanized area that resulted in qualification under Section 1A.

B. If a county qualifies on the basis of commuting to the central county(ies) of two different metropolitan statistical areas, it is assigned to the area to which commuting is greatest, unless the relevant commuting percentages are within 5 points of each other, in which case local opinion about the most appropriate assignment will be considered.

Section 4. Central Cities

Recognized as the central city(ies) of the metropolitan statistical area are:

[5] Also accepted as meeting this commuting requirement are:

(a) The number of persons working in the county who live in the central county(ies) is equal to at least 15 percent of the number of employed workers living in the county; *or*

(b) The sum of the number of workers commuting to and from the central county(ies) is equal to at least 20 percent of the number of employed workers living in the county.

A. The city with the largest population in the metropolitan statistical area.

B. Each additional city with a population of at least 250,000 or with at least 100,000 persons working within its limits.

C. Each additional city with a population of at least 25,000, an employment/residence ratio of at least 0.75, and outcommuting of less than 60 percent of its resident employed workers.

D. Each city of 15,000 to 25,000 population which is at least one-third as large as the largest central city, has an employment/residence ratio of at least 0.75, and has outcommuting of less than 60 percent of its resident employed workers.

Section 5. Consolidating Adjacent Metropolitan Statistical Areas

Two adjacent metropolitan statistical areas defined by Sections 1 through 4 are consolidated as a single metropolitan statistical area provided all of the following conditions are met:

A. The commuting interchange between the two metropolitan statistical areas is equal to:

(1) At least 15 percent of the employed workers residing in the smaller metropolitan statistical area, *or*

(2) At least 10 percent of the employed workers residing in the smaller metropolitan statistical area, *and*

(a) The urbanized area of a central city of one metropolitan statistical area is contiguous with the urbanized area of a central city of the other metropolitan statistical area, *or*

(b) A central city in one metropolitan statistical area is included in the same urbanized area of a central city in the other metropolitan statistical area.

B. At least 60 percent of the population of each metropolitan statistical area is urban.

C. The total population is at least 1 million.

Section 6. Combining Adjacent Metropolitan Statistical Areas

Two adjacent metropolitan statistical areas defined by Sections 1 through 4 and not included in a consolidation by Section 5 will be combined as a single metropolitan statistical area if:

A. Their largest central cities are within 25 miles of one another, or their urbanized areas are contiguous; *and*

B. There is definite evidence that the two areas are closely integrated with each other economically and socially; *and*

C. Local opinion in both areas supports the combination.

VOL 53 ISS 244 DE 20 1988 UMI

Section 7. Levels

A. Each metropolitan statistical area defined by Sections 1 through 6 is categorized in one of the following levels based on total population:

Level A—Metropolitan statistical areas of 1 million or more.

Level B—Metropolitan statistical areas of 250,000 to 1 million.

Level C—Metropolitan statistical areas of 100,000 to 250,000.

Level D—Metropolitan statistical areas of less than 100,000.

B. Areas assigned to Levels B, C, or D are designated as metropolitan statistical areas. Areas assigned to Level A are not finally designated or titled until they have been reviewed under Sections 9 and 10.

Section 8. Titles of Metropolitan Statistical Areas

A. The title of a metropolitan statistical area assigned to Level B, C, and D includes the name of the largest central city, and up to two additional names:

(1) The name of each additional city with a population of at least 250,000 or with at least 100,000 persons working within its limits;

(2) The names of the additional cities qualified as central cities by Section 4, provided each is at least one-third as large as the largest central city;

(3) The name of the largest city of any separate area that qualified as a metropolitan statistical area under Sections 1 through 4, but was combined by Section 6 with the area being titled.

B. An area title that includes the names of more than one city begins with the name of the largest city and lists the other cities in order of their population according to the most recent national census.[6]

C. In addition to city names, the title contains the name of each State in which the metropolitan statistical area is located.

Standards for Primary and Consolidated Metropolitan Statistical Areas

Sections 9 through 11 apply to Level A metropolitan statistical areas outside New England.

Section 9. Qualifications as a Primary Metropolitan Statistical Area

Within a Level A metropolitan statistical area:

A. Any county or group of countries that was recognized as a separate metropolitan statistical area on January 1, 1980, will be recognized as a primary metropolitan statistical area, unless local opinion does not support its continued separate recognition for statistical purposes.

B. Any additional county for which local opinion strongly supports separate recognition will be considered for identification as a primary metropolitan statistical area, provided a county is included which has:

(1) At least 100,000 population;

(2) At least 60 percent of its population urban; *and*

(3) Less than 35 percent of its resident workers working outside the county.

C. A pair of contiguous counties for which local opinion strongly supports separate recognition also will be considered for identification as a primary metropolitan statistical area, provided:

(1) Each county meets requirements (1) and (2) of Section 9B, and has less than 50 percent of its resident workers working outside the county;

(2) The two counties have a commuting interchange of at least 20 percent; *and*

(3) The pair of counties has less than 35 percent of its resident workers working outside the pair. (*Note*: A pair of counties may comprise three or more counties, and may include a county that also could qualify as a primary metropolitan statistical area under Section 9B.)

D. Each county in the interim Level A MSA, not included within a central core under Sections 9A through C, is assigned to the contiguous PMSA to whose central core commuting is greatest, provided this commuting is:

(1) At least 15 percent of the county's resident workers;

(2) At least 5 percentage points higher than the commuting flow to any other PMSA that exceeds 15 percent; *and*

(3) Larger than the flow to the county containing the Level A MSA's largest city.

E. If a county has qualifying commuting ties to two or more PMSA central cores and the relevant values are within 5 percentage points of each other, local opinion is considered before the county is assigned to any PMSA.

F. The interim PMSA definitions resulting from these procedures (including possible alternative definitions where appropriate) are submitted to local opinion. Final definitions of PMSAs are made based on these standards, and a review of local opinion.

G. If any primary metropolitan statistical area or areas have been recognized under Sections 9A through F, the balance of the Level A metropolitan statistical area is also recognized as a primary metropolitan statistical area.[7]

Section 10. Levels and Titles of Primary Metropolitan Statistical Areas

A. Primary metropolitan statistical areas are categorized in one of four levels according to total population, following the standards of Section 7A.

B. Primary metropolitan statistical areas area titled in either of two ways:

(1) Using the names of up to three cities in the primary metropolitan statistical area that have qualified as central cities of the Level A metropolitan statistical area under Section 4, following the standards of Section 8 for selection and sequencing; *or*

(2) Using the names of up to three counties in the primary metropolitan statistical area, sequenced in order from largest to smallest population.

C. Local opinion on the most appropriate title will be considered.

Section 11. Designation and Titles of Consolidated Metropolitan Statistical Areas

A. Each Level A metropolitan statistical area in which primary metropolitan statistical areas have been defined by Section 9 is designated a consolidated metropolitan statistical area. A Level A metropolitan statistical area in which no primary metropolitan statistical areas have been defined is designated a metropolitan statistical area, and is titled according to Section 8.

B. Consolidated metropolitan statistical areas are titled according to the following guidelines. Local opinion is always sought before determining the title of a consolidated metropolitan statistical area.

(1) The title of each area includes up to three names, the first of which is always the name of the largest central city in the area. A change in the first-named city in the title will not be made until both its population and the number of persons working within its limits are exceeded by those of another city in the consolidated area.

(2) The preferred basis for determining the two remaining names is:

(a) The first city (or county) name that appears in the title of the remaining

[6] If a city qualifies as a central city under Section 4, and is included in an existing metropolitan statistical area title, it will not be resequenced in or displaced from that title until both its population and the number of persons working within its limits are exceeded by those of another city qualifying for the area title.

[7] If Section 9C would result in the balance of the Level A metropolitan statistical area including a noncontiguous county, this county will be added to the contiguous primary metropolitan statistical area to which it has the greatest commuting.

primary metropolitan statistical area with the largest total population; *and*

(b) The first city (or county) name that appears in the title of the primary metropolitan statistical area with the next largest total population.

(3) A regional designation may be substituted for the second and/or third names in the title if there is strong local support and the proposed designation is unambiguous and suitable for inclusion in a national standard.

Standards for New England

In the six New England States, the cities and towns are administratively more important than the counties, and a wide range of data is complied locally for these entities. Therefore, the cities and towns are the units used to define metropolitan statistical areas in these States. The New England standards are based primarily on population density and commuting. Sections 12 and 13 constitute the basic standards for New England metropolitan statistical areas. As a basis for measuring commuting, a central core is first defined for each New England urbanized area, corresponding to the central counties that are identified in the States outside New England.

Section 12. New England Central Cores

A central core is determined in each New England urbanized area through the definition of two zones.

A. Zone A comprises:

(1) The largest city in the urbanized area.

(2) Each other place in the urbanized area or in a contiguous urbanized area that qualifies as a central city under Section 4, provided at least 15 percent of its resident employed workers work in the largest city in the urbanized area.[8]

(3) Each other city or town at least 50 percent of whose population lives in the urbanized area or a contiguous urbanized area, provided at least 15 percent of its resident employed workers work in the largest city in the urbanized area plus any additional central cities qualified by Section 12A(2).[8]

B. Zone B comprises each city or town which:

(1) Has at least 50 percent of its population living in the urbanized area or in a contiguous urbanized area; *and*

(2) Has at least 15 percent of its resident employed workers working in Zone A.

C. The central core comprises Zone A, Zone B, and any city or town that is physically surrounded by Zones A or B, except that cities or towns that are not contiguous with the main portion of the central core are not included.

D. If a city or town qualified under Sections 12A through C for more than one central core, it is assigned to the core to which commuting is greatest, unless the relevant commuting percentages are within 5 points of each other, in which case local opinion as to the most appropriate assignment will also be considered.

Section 13. Outlying Cities and Towns

A. A city or town contiguous to a central core as defined by section 12 is included in its metropolitan statistical area if:

(1) It has a population density of at least 60 persons per square mile and at least 30 percent of its resident employed workers work in the central core; *or*

(2) It has a population density of at least 100 persons per square mile and at least 15 percent of the employed workers living in the city or town work in the central core.[9]

B. If a city or town has the qualifying amount of commuting to two different central cores, it is assigned to the metropolitan statistical area to which commuting is greatest, unless the relevant commuting percentages are within 5 points of each other, in which case local opinion as to the most appropriate assignment will also be considered.

C. If a city or town has the qualifying level of commuting to a central core, but has greater commuting to a nonmetropolitan city or town, it will not be assigned to any metropolitan statistical area unless the relevant commuting percentages are within 5 points of each other, in which case local opinion as to the most appropriate assignment will also be considered.

Section 14. Applicability of Basic Standards to New England Metropolitan Statistical Areas

A. An area defined by Sections 12 and 13 qualifies as a metropolitan statistical area provided it contains a city of at least 50,000 population or has a total population of at least 75,000.[10]

B. The area's central cities are determined according to the standards of Section 4.

C. Two adjacent New England metropolitan statistical areas are consolidated as a single metropolitan statistical area provided the conditions of Section 5 are met. Section 6 is not applied in New England.

D. Each New England metropolitan statistical area defined by Sections 14A through C is categorized in one of the four levels specified in Section 7A. Areas assigned to Levels B, C, or D are designated as metropolitan statistical areas. Areas assigned to Level A are not finally designated until they have been reviewed under Section 15 and 16.

E. New England metropolitan statistical areas are titled according to the standards of Section 8.

Section 15. Qualification as a Primary Metropolitan Statistical Area

Within a Level A metropolitan statistical area in New England.

A. Any group of cities and towns that was recognized as a separate metropolitan statistical area on January 1, 1980, will be recognized as a primary metropolitan statistical area, unless local opinion does not support its continued separate recognition for statistical purposes.

B. Any additional group of cities and/or towns for which local opinion strongly supports separate recognition will be considered for identification as a primary metropolitan statistical area, provided:

(1) The total population of the group is at least 75,000;

(2) It includes at least one city with a population of 15,000 or more, an employment/residence ratio of at least 0.75, and outcommuting of less than 60 percent of its resident employed workers;

(3) It contains a core of communities, each of which has at least 50 percent of its population living in the urbanized area, and which together have less than 40 percent of their resident workers commuting to jobs outside the core; *and*

---

[8] Also accepted as meeting this commuting requirement are:

(a) The number of persons working in the subject city or town who live in the specified city or area is equal to at least 15 percent of the employed workers living in the subject city or town; *or*

(b) The sum of the number of workers commuting to and from the specified city or area is equal to at least 20 percent of the employed workers living in the subject city or town.

[9] Also accepted as meeting this commuting requirment are:

(a) The number of persons working in the city or town who live in the central core is equal to at least 15 percent of the employed workers living in the city or town; *or*

(b) The sum of the number of workers commuting to and from the central core is equal to at least 20 percent of the employed workers living in the city or town.

[10] A New England metropolitan statistical area designated on the basis of census data according to standards in effect at the time of designation will not be disqualified on the basis of lacking a total population of at least 75,000.

(4) Each community in the core also must have

(a) At least 5 percent of its resident workers working in the component core city identified in Section 15B(2), or at least 10 percent working in the component core city or in places already qualified for this core; this percentage also must be greater than that to any other core or to the largest city of the Level A MSA; *and*

(b) At least 20 percent commuting interchange with the component core city together with other cities and towns already qualified for the core; this interchange also must be greater than with any other core or with the largest city of the Level A MSA.

C. Contiguous component central cores may be merged as a single core provided:

(1) Section 15B would qualify the component core city of one core for inclusion in the other core; *and*

(2) There is substantial local support for treating the two as a single core.

D. Each city or town in the interim Level A MSA not included in a core under Section 15A through C is assigned to the contiguous PMSA to whose core its commuting is greatest, provided

(1) This commuting is at least 15 percent of the place's resident workers; *and*

(2) The commuting interchange with the core is greater than with the Level A MSA's largest city.

E. If a city or town has qualifying commuting ties to two or more cores and the relevant values are within 5 percentage points of each other, local opinion is considered before the place is assigned to any PMSA.

F. The interim PMSA definitions resulting from these procedures (including possible alternative definitions, where appropriate) are submitted to local opinion. Final definitions of PMSAs are made based on these standards, and a review of local opinion.

G. If any primary metropolitan statistical area of areas have been recognized under Section 15A through F, the balance of the Level A metropolitan statistical area is also recognized as a primary metropolitan statistical area.[11]

Section 16. Levels and Titles of New England Primary and Consolidated Areas

A. New England primary metropolitan statistical areas are categorized in one of four levels according to total population, following Section 7A.

B. New England primary metropolitan statistical areas are titled using the names of up to three cities in the primary area that have qualified as central cities under Section 4, following the standards of Section 8 for selection and sequencing.

C. Each Level A metropolitan statistical area in New England in which primary metropolitan statistical areas have been defined by Section 15 is designated a consolidated metropolitan statistical area. Titles of New England consolidated metropolitan statistical areas are determined following the standards of Section 11. A Level A metropolitan statistical area in which no primary metropolitan statistical areas have been defined is designated a metropolitan statistical area, and is titled according to the rules of Section 8.

Appendix—General Procedures and Definitions

This appendix specifies certain important guidelines regarding the data and procedures used in implementing the standards. It also gives definitions for "city," "urbanized area," and other key terms.

General Procedures

Percentages, Densities, and Ratios

These are computed to the nearest one-hundredth (two decimals), and comparisons between them are made on that basis.

Populations

In general, the population data required by the standards are taken from the most recent national census. However, in certain exceptional situations either (1) the results of a special census taken by the Bureau of the Census, or (2) a population estimate published by the Bureau of the Census and accepted for use in the distribution of Federal benefits may be used to meet the requirements of the standards.

Local Opinion

Where local opinion is called for in the standards, for example as an aid in determining primary or consolidated metropolitan statistical areas titles or in assigning counties or places that qualify for two different areas, it is always obtained through the appropriate congressional delegation. After a decision has been made on a particular matter, local opinion on the same question will not be requested again until after the next national census.

Review of Cutoffs and Values

The Federal Committee on Metropolitan Statistical Areas has developed the official standards and determined their various statistical cuttoffs and values on the basis of an extensive examination of the current data for individual counties and cities. If data from 1980 or a subsequent national census show that shifts in national commuting patterns or other long-term trends have seriously altered the makeup of the group defined by a value now specified in the standards, the Federal Committee will review this value and determine whether any changes should be made before the standards are implemented.

Definitions of Key Terms

City—The term "city" includes:

(a) Any place incorporated under the laws of its State as a city, village, borough (except in Alaska), or town (except in the New England States, New York, and Wisconsin). These comprise the category of "incorporated places" recognized in census publications.

(b) In Hawaii, any place recognized as a census designated place by the Bureau of the Census in consultation with the State government; in Puerto Rico, any place recognized as a *zona urbana* or *aldea* by the Bureau of the Census in consultation with the Commonwealth government. (Hawaii and Puerto Rico do not have legally defined cities corresponding to those of most States.)

(c) Any township in Michigan, New Jerey, or Pennsylvania, and any town in the New England States, New York, or Wisconsin, that is recognized by the Bureau of the Census as a census designated place. Under Census guidelines, such as town or township must not contain any part of a dependent incorporated place and must have a population density of at least 1,000 persons per square mile over essentially all its territory.

Urbanized Area—An area defined by the Bureau of the Census according to specific criteria, designed to include the entire densely settled area around each large city. An urbanized area must have a total population of at least 50,000. The urbanized area criteria define a boundary based primarily on a population density of at least 1,000 persons per square mile, but also include some less densely settled areas within corporate limits, and such areas as industrial parks, railroad yards, golf courses, and so forth, if they are adjacent to dense urban development.

Contiguous Urbanized Areas—They are those urbanized areas with a

[11] If Section 15G results in the balance of the Level A metropolitan statistical area including a noncontiguous city or town, this place will be added to the contiguous primary metropolitan statistical area to which it has the greatest commuting.

VOL 53 ISS 244 DE 20 1988 UMI

common boundary of at least 1 mile on land or following a waterway crossed by a bridge.

Urban—The Bureau of the Census classifies as urban:

(a) The population living in urbanized areas; plus

(b) The population in other incorporated or census designated places of at least 2,500 population at the most recent national census.

County—For purposes of the standards, the term "county" includes county equivalents, such as parishes in Louisiana and boroughs and census areas (formerly census divisions) in Alaska. Certain States contain cities that are independent of any county; such independent cities in Georgia, Maryland, Missouri, and Nevada are treated as county equivalents for purposes of the standards.

In Virginia, where most places of more than 15,000 are independent, the standards usually regard each such city as included in the county from which it was originally formed, or primarily formed. In certain exceptional cases, the city itself is treated as a county equivalent, as follows:

(a) An independent city that has absorbed its parent county (Chesapeake, Hampton, Newport News, Suffolk, Virginia Beach);

(b) An independent city associated with an urbanized area other than the one with which its parent county is primarily associated (for example, Colonial Heights); and

(c) An independent city that is contiguous with a county in addition to its parent county, if including it with its parent county would result including it in a metropolitan statistical area with which it would otherwise not be included.

A county included in a metropolitan statistical area is either a *central* (Section 2), or an *outlying* (Section 3) county. An outlying county must be contiguous with a central county or with an outlying county that has already qualified for inclusion.

Employment/Residence Ratio—This ratio is computed by dividing the number of persons working in the city by the number of resident workers with place of work reported. (Both these data items are taken from the most recent national census.) For example, a city with an equal number of jobs and working residents has an employment/residence ratio of 1.00.

Outcommuting—The number (or percent) or workers living in a specified area, such as a city or a county, whose place of work is located outside that area.

Commuting Interchange—The commuting interchange between two areas is the sum of the number of workers who live in either of the areas but work in the other.

BILLING CODE 3110-01-M

SECURITIES AND EXCHANGE COMMISSION

[Rel. No. 34-26355; File No. SR-Amex-88-10, Amendment No. 3]

Self-Regulatory Organizations; Proposed Rule Change by American Stock Exchange, Inc., Relating to Equity Index Participations

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on November 28, 1988, the American Stock Exchange, Inc. ("Amex") filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Amex. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Amex is amending its proposed rule change relating to Equity Index Participations based on the S&P 500 Index and the Major Market Index to provide specific procedures under proposed Rule 912F relating to physical delivery facilitators.

The text of the proposed rule change is available at the Office of the Secretary, Amex and at the Commission.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Amex included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Amex has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

(1) Purpose

The Amex has proposed specific rules applicable to two Equity Index Participation ("EIP") securities based on the Major Market Index ("MMI") and the S&P 500 Index. (See Securities Exchange Act Release No. 25664, May 5, 1988; Securities Exchange Act Release No. 25942, July 25, 1988 (Amendment No. 1); Securities Exchange Act Release No. 26243, November 2, 1988 (Amendment No. 2)).

In Amendment No. 2, the Amex proposed rules that would permit EIP holders to receive physical delivery of shares of the component stocks of the S&P 500 or MMI upon exercise of a specified minimum number of EIPs. Pursuant to proposed Rule 912F, an Exchange-designated "physical delivery facilitator", who may be the specialist for a specific class of EIPs, would assume responsibility for making physical delivery of shares to EIP holders if the number of delivery units for which holders have requested physical delivery exceeds the number of units made available by persons with short positions.

The Exchange is amending its filing to supplement the description of facilitator activities in Amendment No. 2 to add specific procedures to be followed by the facilitator in the event that he is required to make physical delivery under Rule 912F. The procedures clarify that the facilitator can deliver to holders only shares purchased at the opening on Exercise Friday. Thus, the procedures specify that, in making physical delivery under Rule 912F, following reporting by the Exchange of an imbalance in the number of delivery units for which holders have requested delivery over units offered by short positions, the facilitator will enter market orders in each component stock for execution at the opening on Exercise Friday sufficient to satisfy the imbalance. The facilitator will deliver such shares in accordance with rules of the Exchange and the Options Clearing Corporation.

(2) Basis

The proposed rule change is consistent with section 6(b) of the Act in general and furthers the objectives of section 6(b)5 in particular in that the proposed rule change is designed to prevent fraudulent and manipulative acts and practices, to facilitate transactions in securities, to remove impediments to and perfect the

mechanism of a free and open market and to protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The proposed rule change will impose no burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the Amex consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC 20549. Copies of such filing will also be available for inspection and copying at the principal office of the Amex. All submissions should refer to the file number in the caption above and should be submitted by January 10, 1989.

For the Commission by the Divison of Market Regulation, pursuant to delegated authority.

Jonathan G. Katz,

Secretary.

Dated: December 13, 1988.

Exhibit A—Procedures for Physical Delivery of EIP Units Upon Exercise

1. The Exchange will announce with regard to the S&P 500 Index and the Major Market Index ("MMI") the number of shares of each component stock required to be delivered in satisfaction of an exercise of the delivery privilege, after the close of the market on the Exchange business day preceding the third Friday of March, June, September, and December ("Exercise Friday"). The number of shares of each stock to be delivered will be rounded down to the nearest whole share.

2. S&P 500 component stocks requiring delivery of fewer than ten shares will be settled for cash. Partial shares of S&P 500 or MMI stocks remaining after rounding down of shares also will be settled for cash. In addition, any stock, including those which would require delivery of less than 10 shares, failing to open on Exercise Friday will be settled for cash. The prices of all such shares to be settled for cash will be determined in the same manner as the prices used for determining the liquidating index value of EIPs that are exercised for cash.

3. After the close on the business day preceding Exercise Friday and prior to the opening of trading on Exercise Friday, the Options Clearing Corporation ("OCC") will notify the Exchange of the number of EIP delivery units for which EIP holders have submitted notice of exercise of the delivery privilege in accordance with rules of the OCC and the Exchange, and the number of delivery units offered for physical delivery by persons having short EIP positions and who have provided timely notice of the desire to make physical delivery, if assigned.

If the number of EIP delivery units offered for physical delivery by persons having short positions is less than the number of delivery units for which holders have requested physical delivery, the Exchange shall cause to be publicly reported, at or prior to 9:00 A.M. on Exercise Friday, the amount of any such imbalance.

4. To the extent of any imbalance of delivery units for which physical delivery has been requested by EIP holders over units offered for delivery, the facilitator shall enter market orders in each component stock, for execution at the opening on Exercise Friday, sufficient to satisfy imbalances, and shall make delivery of such shares in accordance with OCC and Exchange Rules.

BILLING CODE 8010-01-M

[Rel. No. 34-26357; File No. SR-BSE-88-4]

Self-Regulatory Organizations; Boston Stock Exchange, Inc.; Filing and Order Granting Temporary Accelerated Approval to Proposed Rule Change Relating to Market Circuit Breaker Proposal

Pursuant to section 19(b)(1) of the Securities and Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that, on November 21, 1988, the Boston Stock Exchange, Inc. ("BSE" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule change adds the following new rule that will be effective for a pilot period ending on October 31, 1989.[1] The text of the rule change is as follows:

Trading Halts Due to Extraordinary Market Volatility

If the Dow Jones Industrial Average SM [2] reaches a value 250 or more points below its closing value on the previous trading day, trading in stocks shall halt on the Exchange and may not reopen for one hour. If, on the same day, the average subsequently reaches a value 400 or more points below that closing value, trading in stocks shall halt on the Exchange and may not reopen for two hours.

* * * *Supplementary Material:*

.10 The restrictions in this Rule shall apply whenever the Dow Jones

[1] The BSE originally stated that the rule would not become effective until all other U.S. stock and options exchanges, the National Association of Securities Dealers, and U.S. futures exchanges that trade futures contracts on stock indexes and options on such futures contracts adopted corresponding rules. The BSE subsequently amended its filing to eliminate this contingency. The BSE also originally proposed that its rule be effective for a one-year pilot period. The BSE subsequently amended its filing to provide for a pilot period ending on October 31, 1989 in order to be consistent with the effectiveness of similar circuit breaker rules of other self-regulatory organizations (*See, e.g.*, the rules approved in Securities Exchange Act Release No. 26198 (October 19, 1988), 53 FR 41637). Letter from Joseph P. Carmichael, Vice President, BSE, to Mary Revell, Attorney, Commission, dated November 23, 1988.

[2] "Dow Jones Industrial Average" is a service mark of Dow Jones & Company, Inc.

Industrial Average reaches the trigger values notwithstanding the fact that, at any given time, the calculation of the value of the average may be based on the prices of less than all of the stocks included in the average.

.20 The reopening of trading following a trading halt under this Rule shall be conducted pursuant to procedures adopted by the Exchange.

.30 If the 250-point trigger is reached within one hour of the scheduled close of trading for a day, or if the 400-point trigger is reached within two hours of the scheduled close of trading for a day, trading in stocks shall halt for the remainder of the day; *provided, however,* that if the 250-point trigger is reached between one hour and one-half hour before the scheduled closing, or the 400-point trigger is reached between two hours and one hour before the scheduled closings, the Exchange may use abbreviated reopening procedures either to permit trading to reopen before the scheduled closing or to establish closing prices.

.40 Nothing in this Rule should be construed to limit the ability of the Exchange to otherwise halt or suspend the trading in any stock or stocks traded on the Exchange pursuant to any other Exchange rule or policy.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule changes and discussed any comments it received on the proposed rule changes. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in Sections (A), (B), and (C) below, of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

Over the last year, the securities markets have experienced unprecedented volatility. This volatility has been the subject of a number of market studies and reports.[3]

The most recent of these reports was the Interim Report ("Report") of the Working Group on Financial Markets ("Working Group") issued by the Under Secretary for Finance of the Department of the Treasury and the Chairman of the Commission, the Commodity Futures Trading Commission, and the Board of Governors of the Federal Reserve System in May, 1988. In its Report, the Working Group recommends "coordinated trading halts and reopenings for large, rapid market declines that threaten to create panic conditions." The Working Group specifically recommended that all U.S. markets for equity and equity-related products—stocks, individual stock options, stock index options, futures and options on futures—halt trading for one hour if the Dow Jones Industrial Average ("DJIA") declines 250 or more points from its previous day's closing level and for two hours if the DJIA declines 400 points from the previous day's close.

In light of the Working Group Report, as well as in keeping with its continued desire to decrease market volatility and increase investor confidence in the stock market, the BSE has adopted a Rule that will provide for temporary halts in the trading of all stocks on the Exchange when the DJIA reaches the trigger values discussed in the Working Group's Report. The BSE asserts that the halts will promote stability in the stock market by allowing market participants time to reestablish an equilibrium between buying and selling interest and will help ensure that all market participants have a reasonable opportunity to become aware of and respond to significant market price movements.

In order to coordinate the Rule's effectiveness with the effective dates of other exchanges' corresponding rules, this Rule is proposed for a pilot period ending on October 31, 1989. During this time the Exchange will analyze its experience with the proposed Rule and will determine in conjunction with the Commission and other market places whether to continue the pilot beyond the pilot period.

Statutory Basis—The basis under the Act for this proposed rule change is the requirement under section 6(b)(5) that an exchange have rules that are designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.

(B) Self-Regulatory Organization's Statement on Burden on Competition

This proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange has not solicited, and does not intend to solicit, comments regarding this proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange requests that the Commission grant accelerated effectiveness to the proposed rule change pursuant to section 19(b)(2) of the Act.[4] The Exchange's request is based on its desire to have the proposed rule change take effect concurrently with similar rule changes adopted by the New York Stock Exchange and other self-regulatory organizations. The Commission finds that the proposed rule change filed by the BSE is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange, and, in particular, the requirements of section 6[5] and the rules and regulations thereunder. The proposal will permit the Exchange to coordinate with the other securities self-regulatory organizations and futures exchanges in providing a mechanism to address periods of extreme downward volatility in the stock market. The Commission finds good cause for approving the BSE proposed rule change prior to the thirtieth day after the date of publication of the proposal in the **Federal Register**. The proposal is substantially identical to the NYSE circuit breaker proposal contained in File No. SR–NYSE–88–23 that was published for the full thirty-day period and was approved by the Commission in Securities Exchange Act Release No. 26198 (October 19, 1988), 53 FR 41637. In light of the absence of any adverse comments on the NYSE's filing and the Commission's view of the benefits that may accrue from adoption of coordinated circuit breakers that respond to stock market volatility and that may increase investor confidence in the markets, the Commission believes a good cause finding is justified.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC. Copies of such filing also will be available for inspection and copying at the principal office of the above-referenced self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted by January 10, 1989.

It is therefore ordered, pursuant to section 19(b)(2) of the Act,[6] that the proposed rule change is approved for a pilot period ending October 31, 1989.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[7]

Dated: December 14, 1988.

Jonathan G. Katz,

Secretary.

BILLING CODE 8010-01-M

[Rel. No. 34-26356; File No. SR-CBOE-88-16]

Self-Regulatory Organizations; Chicago Board Options Exchange, Inc.; Order Approving Proposed Rule Change Relating to Underlying Treasury Securities Options

On September 20, 1988, the Chicago Board Options Exchange, Inc. ("CBOE" or "Exchange"), submitted to the Securities and Exchange Commission ("SEC" or "Commission"), pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act") [1] and Rule 19b-4 [2] thereunder, a proposed rule change to amend CBOE Rules 21.7 and 21.8 to extend the initial trading period for treasury securities beyond 15 months in certain circumstances and to provide for a .5 point strike price integral in treasury security options.

The proposed rule change was notified in Securities Exchange Act Release No. 26227 (October 28, 1988), 53 FR 44543 (November 3, 1988). No comments were received on the proposed rule change.

Currently, in order to limit underlying treasury securities for specific coupon options to the most recently issued and actively traded issues, the CBOE ordinarily approves such underlying securities for a period of no more than 15 months, and options series opened thereafter will relate to more recently issued treasury securities. Pursuant to this system the Exchange may extend approval of an underlying security only if such underlying security is reopened by the Treasury. Moreover, pursuant to current Exchange rules the strike price of each series of treasury security options is set at a one point integral. Further, therse may be up to five expiration months for these treasury security options, but none further out than nine months.

The proposed rule change will revise the current system for extending approval of underlying treasury securities such that the CBOE may extend approval of an underlying treasury security beyond the original 15 month period for issues which have a reasonably active secondary market. In addition, the proposed rule change will change the 1 point strike price integral to a half-point strike price integral. The proposed rule change also will provide: (1) The Exchange the opportunity to list more than one treasury security that has not been recently issued; (2) for sequential rather than consecutive monthly expirations; and (3) for five expiration months, none further out than fifteen rather than nine months.

The CBOE states that the proposed modifications to Rule 21.7 (regarding extension of underlying treasury securities approval and multiple listing of treasury securities not recently issued) are designed to conform the Exchange's treasury security option contracts to the standards and current practices of the industry. The CBOE also states that the proposed modification to Rule 21.8(b) (providing for sequential monthly expirations and five expiration months, none further out than fifteen months) is intended to standardize the language of that rule so that it conforms to language contained elsewhere in the rules regarding sequential monthly expirations and other Exchange treasury security option expirations. In addition, the CBOE notes that the move from a one point strike price integral to a half-point strike price integral is designed to provide investors with exchange-listed contracts similar to those traded in the over-the-counter ("OTC") market. The Exchange suggests that such a move in the strike price integral will not result in a proliferation of strike prices because the Exchange intends to drop series in which no open interest exists, thus limiting the number of series outstanding.

The Commission finds that the proposed rule change is consistent with the Act and the rules and regulations thereunder applicable to a national securities exchange, and, in particular, the requirements of Section 6 and the rules and regulations thereunder. More specifically, the Commission believes that the move from a one point strike price integral to a half-point strike price integral will ensure the continuous availability of a strike price close to the money. In this regard, the Commission believes that by providing investors with exchange-listed contracts similar to those traded in the OTC market, the half-point strike will help provide additional depth and liquidity to certain treasury options by increasing institutional and individual investor participation in the trading of those options. In addition, the Commission believes that modifying the rule concerning strike prices so as to conform with existing exchange policy and trading practices regarding such strikes should ameliorate any possible investor confusion. To the extent that the amendment could increase the number of treasury options series, the CBOE has committed to remove from listing the series with no open interest. The Commission believes that the CBOE should undertake this pruning on a consistent basis so that the reduced strike prices do not result in undue series proliferation.

The Commission believes further that because the purpose of Interpretation and Policy .02 to CBOE Rule 21.7 is to limit underlying treasury securities for specific coupon options to the most actively traded issues it is logical to allow the Exchange to extend approval of underlying treasury securities where a reasonably active secondary market exists for such securities. The Commission also believes that that portion of the rule change amending Interpretation and Policy .02 to CBOE Rule 21.7 should be approved because the amendment simply conforms the Exchange's treasury security option

[2] 17 CFR 240.19b-4 (1988).

contracts to the standards and current practices of the industry.

Finally, the Commission believes that those portions of the rule change modifying Rule 21.8(b) to provide for sequential monthly expirations and five expiration months, none further out that fifteen months, should be approved because the modifications simply conform the language of that Rule to language contained elsewhere in the Rules regarding sequential monthly expirations and other Exchange treasury security option expirations. [3]

It is therefore ordered, pursuant to section 19(b)(2) of the Act,[4] that the proposed rule change be, and hereby is, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[5]

Self-Regulatory Organizations; Pacific Stock Exchange, Inc.; Order Approving Proposed Rule Change Relating to the Appearance of Witnesses and the Production of Documentary Materials at PSE Disciplinary Hearings

On September 26, 1988, the Pacific Stock Exchange, Inc. ("PSE" or "Exchange") submitted to the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act") [1] and Rule 19b-4 thereunder,[2] a proposed rule change to amend PSE Rule XX, Section 4 to provide PSE disciplinary hearing panels, complainants, and respondents with the power to compel members or persons associated with a member to testify or provide documentary materials at Exchange disciplinary proceedings.

The proposed rule change was noticed in Securities Exchange Act Release No. 26157 (October 5, 1988) 53 FR 40152 (October 13, 1988). No comments were received on the proposed rule change.

The PSE states that the proposed rule change is designed to assure that members and persons associated with members cooperate with one another and with the Exchange in PSE disciplinary hearings with respect to possible violations of Exchange rules. In addition, the PSE notes that the proposed rule change will enhance the Hearing Panel's fact finding responsibilities in regards to adjudicating disciplinary hearings.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange, and, in particular, the requirements of section 6.[3] More specifically, by making noncompliance with a hearing panel request for documents or testimony a violation of PSE Rules, PSE members will comply fully with PSE hearing panel requests for information. The Commission believes that PSE hearing panels must have the ability to obtain such information so that the panel has access to all relevant facts necessary for the hearing panel to act on a fully informed basis when making decisions concerning the disciplining of members. At the same time, the Commission believes the proposal is not inconsistent with the Exchange's maintenance of a fair disciplinary process for its members. The Commission notes that all existing due process safeguards relating to PSE disciplinary procedures remain in place. Finally, the Commission previously has approved rules of other exchanges that give their disciplinary committees the express power to compel the production of documentary evidence and witnesses.[4]

It is therefore ordered, pursuant to section 19(b)(2) of the Act,[5] that the proposed rule change be, and hereby is, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[6]

Dated: December 13, 1988.

Jonathan G. Katz,

Secretary.

[Rel. No. 34-26354; File No. SR-PHLX-88-33]

Self-Regulatory Organizations; Philadelphia Stock Exchange, Inc.; Order Granting Temporary Approval to Proposed Rule Change; Automated Options Market System

On October 3, 1988, the Philadelphia Stock Exchange, Inc. ("PHLX" or "Exchange") submitted to the Securities and Exchange Commission ("Commission"), pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")[1] and Rule 19b-4 thereunder,[2] a proposed rule change to expand and extend the Exchange's Automated Options Market ("AUTOM") system pilot program through June 30, 1989.

The proposed rule change was noticed in Securities Exchange Act Release No. 26193 (October 18, 1988), 53 FR 43088 (October 25, 1988). No comments were received on the proposal.

AUTOM is an on-line system that allows electronic delivery of options orders from member firms directly to the appropriate specialist on the PHLX options trading floor, with electronic confirmation of order executions. Because all orders received through AUTOM are exposed to the specialist's limit order book, the trading crowd, and to at least one registered options trader ("ROT"),[3] the Exchange believes best execution of AUTOM orders is assured.

All orders entered into the system are executed manually by the specialist, who, upon execution of the order, enters the relevant trade information (*e.g.*, the number of contracts executed, the price, and the identity of the contra-broker(s)) into the system. An execution report then is sent automatically to the firm that placed the order.

In its rule filing seeking implementation of the AUTOM system, the PHLX noted that the AUTOM system, including hardware as well as software, is completely separate from and independent of the hardware and software for PHLX's Philadelphia Stock Exchange Automated Communication and Execution ("PACE") system for routing and executing stock orders. The Exchange stated that because the systems are independent, one system cannot have an adverse impact on the other during volume surges in terms of volume handling capabilities or queuing.[4]

In Securities Exchange Act Release No. 25540 (March 31, 1988), 53 FR 11390, the Commission approved implementation of the AUTOM system on a 90-day pilot basis. The Commission approved the Exchange's request that the pilot include up to 12 equity options,

[1] 15 U.S.C. 78s(b)(1) (1982).

[2] 17 C.F.R. 240.19b-4 (1988).

[3] PHLX Rule 1063(a) requires an Options Floor Broker to ascertain that at least one ROT is present at the trading post prior to representing an order for execution.

[4] Letter from Michael A. Finnegan, Senior Vice President, PHLX, to Howard L. Kramer, Assistant Director, Commission, dated March 22, 1988.

up to five order entry firms, and up to six specialist units. During the pilot phase, only market orders of five or fewer contracts in the near-term expiration month were made eligible for delivery through the system for manual execution. At the same time, the Commission granted the PHLX authority to terminate the program prior to the 90th day and to extend the pilot beyond the 90th day upon notice and approval of the Commission.

In Securities Exchange Act Release No. 25868 (June 30, 1988), 53 FR 25563, the Commission approved a six-month extension of the pilot period, as well as the expansion of the pilot to include an additional 25 equity options, bringing to 37 the total number of equity options eligible for execution through the AUTOM system. The Commission also granted the PHLX authority to terminate the program prior to the end of the six-month pilot extension and to extend the pilot beyond this period upon due notice and approval of the Commission.

The Exchange now proposes to modify the existing 37-options pilot to make all pilots options' strikes and expiration months eligible to be handled by AUTOM and to increase the eligible order size for AUTOM to 10 contracts. The Exchange believes that this modification will make AUTOM more competitive vis-a-vis similar systems currently being operated by other options exchanges. In all other respects, the Exchange commits to operating the pilot as represented in its prior rule filings. The PHLX also requests an extension of the modified AUTOM pilot until June 30, 1989 in order to assess adequately the impact of these modifications on the pilot.

To date, the Exchange has received insignificant order flow through AUTOM.[5] The Exchange asserts that expanding and extending the AUTOM pilot will enable it to gain additional trading experience before making a final determination as to permanent approval of the AUTOM system.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange, and, in particular, the requirements of section 6[6] and section 11A[7] and the rules and regulations thereunder. The Commission continues to believe that the development and implementation of AUTOM will provide for more efficient handling and reporting of orders in PHLX equity options through the use of new data processing and communications techniques, thereby improving order processing and turnaround time. The Commission also believes that the AUTOM system, by offering increased order routing efficiencies, should benefit public customers and PHLX member firms and customers.

Expanding the existing 37 options AUTOM pilot to make all pilot options' strikes and expiration months eligible to be handled by AUTOM and to increase the eligible order size for AUTOM to 10 contracts and extending the pilot period for six months (*i.e.*, through June 30, 1989) should enable the Exchange to better assess the effectiveness of the AUTOM system. The PHLX believes that the AUTOM system will be able to handle the increased volume that should accompany expansion of the pilot to 37 equity options.[8] As noted above, the AUTOM system is completely independent from the Exchange's PACE system. Therefore, neither AUTOM nor the PACE system should impact on the other during periods of high volume. Moreover, as noted in the original order approving implementation of the AUTOM pilot,[9] the PHLX asserts that the AUTOM system has significant excess order handling and disc capacity.[10]

It therefore is ordered, pursuant to section 19(b)(2) of the Act,[11] that the proposed rule change is approved for a pilot period ending June 30, 1989.[12]

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[13]

Dated: December 13, 1988.

Jonathan G. Katz,

Secretary.

[FR Doc. 88-29197 Filed 12-19-88; 8:45 am]

BILLING CODE 8010-01-M

[5] In this regard, the Exchange does not foresee any significant taxing of the Exchange's computer systems if the Commission approves the expansion of the pilot as proposed herein. Letter from Michael A. Finnegan, Senior Vice President, PHLX, to Howard L. Kramer, Assistant Director, Division of Market Regulation, Commission, dated November 30, 1988. In all other respects, the Exchange stands by its representations conveyed in letters to Howard Kramer, Assistant Director, Division of Market Regulation, Commission, from Michael A. Finnegan, Senior Vice President, PHLX, dated March 22 and 30, 1988.

[6] 15 U.S.C. 78f (1982).

[7] 15 U.S.C. 78k-1 (1982).

[8] Letter from Michael A. Finnegan, Senior Vice President, PHLX, to Howard L. Kramer, Assistant Director, Division of market Regulation, Commission, dated November 30, 1988.

[9] 53 FR 11390-91.

[10] In particular, the PHLX informed the Commission that the AUTOM system's order handling and disc capacity was five times the estimated daily order flow for the original pilot, and that the AUTOM system capacity could be increased up to five times that capacity if needed. *See* letter from Michael A. Finnegan, Senior Vice President, PHLX, to Howard L. Kramer, Assistant Director, Division of market Regulation, Commission, dated March 30, 1988. Based on the Exchange's experience to date under the pilot program, the Commission believes that increasing the number of strikes and expiration months eligible to be handled by AUTOM and increasing the eligible order size should not impact adversely the ability of AUTOM to handle the necessary volume levels.

[11] 15 U.S.C. 78s(b)(2) (1982).

[12] The Commission expects that at the conclusion of the additional six-month pilot period, the PHLX will be able to evaluate the pilot and submit a rule change for final approval with any appropriate modifications, or that the PHLX will submit a rule change extending the pilot beyond the six-month period. The PHLX is authorized to terminate the program prior to the end of the six-month period upon due notice and approval by the Commission.

DEPARTMENT OF TRANSPORTATION

Applications for Certificates of Public Convenience and Necessity and Foreign Air Carrier Permits Filed Under Subpart Q During the Week Ended December 9, 1988

The following applications for certificates of public convenience and necessity and foreign air carrier permits were filed under Subpart Q of the Department of Transportation's Procedural Regulations (See 14 CFR 302.1701 et seq.). The due date for answers, conforming application, or motion to modify scope are set forth below for each application. Following the answer period DOT may process the application by expedited procedures. Such procedures may consist of the adoption of a show-cause order, a tentative order, or in appropriate cases a final order without further proceedings.

Docket No.: 45990.

Date Filed: December 6, 1988.

Due Date for Answers, Conforming Applications, or Motion to Modify Scope: January 3, 1989.

Description: Application of Bradley Air Service Limited d/b/a First Air, pursuant to Section 402 of the Act and Subpart of the Regulations requests a foreign air carrier permit authorizing it to provide scheduled foreign air transportation of persons, property, and mail between Ottawa, Ontario, and Boston, Massachusetts.

Docket No.: 4600.

Date Filed: December 8, 1988.

Due Date for Answers, Conforming Applications, or Motions to Modify Scope: January 5, 1989.

Description: Application of Air China International Corporation, d/b/a Air China, pursuant to Section 402 of the

Act and Subpart Q of the Regulations applies for transfer and amendment of the foreign air carrier permit to add authority to serve Route 2, as set forth in the Protocol dated August 19, 1982 to the Civil Air Transport Agreement signed by the Government of the United States of America and the Government of the People's Republic of China on September 17, 1980.

Docket No.: 46004.

Date Filed: December 9, 1988.

Due Date for Answers, Conforming Applications, or Motions to Modify Scope: January 6, 1989.

Description: Application of Sector Airlines Inc./Lignes Aeriennes Sector Inc., pursuant to section 402 of the Act and Subpart Q of the Regulations, requests a foreign air carrier permit authorizing it to operate nonscheduled all-cargo services between the coterminal points Montreal, P.Q. (to be served through Mirabel Airport) and Quebec City, P.Q., on the the one hand, and Burlington, Vermont, on the other hand. In addition, Sector requests authority to operate charter services (a) between all points in the U.S. and points not in either the U.S. or Canada subject to Part 212 of DOT's Economic Regulations.

Phyllis T. Kaylor,

Chief, Documentary Services Division.

Federal Aviation Administration

Air Traffic Procedures Advisory Committee; Meeting

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of Air Traffic Procedures Advisory Committee meeting.

SUMMARY: The FAA is issuing this notice to advise the public that a meeting of the Federal Aviation Administration Air Traffic Procedures Advisory Committee (ATPAC) will be held to review present air traffic control procedures and practices for standardization, clarification, and upgrading of terminology and procedures.

DATE: The meeting will be held from January 24, at 9 a.m., through January 26, 1989, at 5 p.m.

ADDRESS: The meeting will be held at the Embassy Suites Hotel, San Diego-La Jolla, CA.

FOR FURTHER INFORMATION CONTACT: Mr. Paul H. Strybing, Executive Director, ATPAC, Air Traffic Operations Service, 800 Independence Avenue, SW., Washington, DC 20591, telephone (202) 267-3725.

SUPPLEMENTARY INFORMATION: Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. 1), notice is hereby given of a meeting of the ATPAC to be held from January 24, at 9 a.m., through January 26, 1989, at 5 p.m., at the Embassy Suites Hotel, San Diego-La Jolla, CA. The agenda for this meeting is as follows: a continuation of the Committee's review of present air traffic control procedures and practices for standardization, clarification, and upgrading of terminology and procedures. It will also include:

1. Approval of minutes.
2. Discussion of agenda items.
3. Discussion of urgent priority items.
4. Report from Executive Director.
5. Old Business.
6. New Business.
7. Discussion and agreement of location and dates for subsequent meetings.

Attendance is open to the interested public but limited to the space available. With the approval of the Chairperson, members of the public may present oral statements at the meeting. Persons desiring to attend and persons desiring to present oral statements should notify the persons listed above not later than January 19, 1989. The next quarterly meeting of the FAA ATPAC is planned to be held from April 17 through April 21, 1989, in Washington, DC. Any member of the public may present a written statement to the Committee at any time.

Issued in Washington, DC, on December 14, 1988.

Paul H. Strybing,

Executive Director, Air Traffic Procedures Advisory Committee.

DEPARTMENT OF THE TREASURY

Public Information Collection Requirements Submitted to OMB for Review

Date: December 15, 1988.

The Department of Treasury has submitted the following public information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1980, Pub.L. 96-511. Copies of the submission(s) may be obtained by calling the Treasury Bureau Clearance Officer listed. Comments regarding this information collection should be addressed to the OMB reviewer listed and to the Treasury Department Clearance Officer, Department of the Treasury, Room 2224, 15th and Pennsylvania Avenue, NW., Washington, DC 20220.

Alcohol, Tobacco and Firearms

OMB Number: 1512-0089.

Form Number: ATF F 5100.24 (1637).

Type of Review: Extension.

Title: Application for a Basic Permit Under the Federal Alcohol Administration Act.

Description: ATF F 5100.24 (1637) is an application for a basic permit for beverage distilled spirits plants and bonded wineries. The issuance of basic permits to distillers, and wine producers is required by the Federal Alcohol Administration Act. The permit identifies persons entitled to engage in operations and the location and extent of operations.

Respondents: Businesses and other for-profit, Small businesses or organizations.

Estimated Number of Respondents: 150.

Estimated Burden Hours Per Response: 3 hours.

Frequency of Response: On occasion.

Estimated Total Reporting Burden: 450 hours.

Clearance Officer: Robert Masarsky (202) 566-7077, Bureau of Alcohol, Tobacco and Firearms, Room 7011, 1200 Pennsylvania Avenue, NW., Washington, DC 20226.

OMB Reviewer: Milo Sunderhauf (202) 395-6880, Office of Management and Budget, Room 3001, New Executive Office Building, Washington, DC 20503.

Public Information Collection Requirements Submitted to OMB for Review

Date: December 14, 1988.

The Department of Treasury has submitted the following public information collection requirment(s) to OMB for review and clearance under the Paperwork Reduction Act of 1980, Pub. L. 96-511. Copies of the submission(s) may be obtained by calling the Treasury Bureau Clearance Officer listed. Comments regarding this information collection should be addressed to the OMB reviewer listed and to the Treasury Department Clearance Officer, Department of the Treasury, Room 2224, 15th and

Pennsylvania Avenue, NW., Washington, DC 20220.

Alcohol, Tobacco and Firearms

OMB Number: 1512–0216.
Form Number: ATF F 5120.17 (702).
Type of Review: Extension.
Title: Monthly Report of Wine Cellar Operations.
Description: This report is used to monitor winery operations to insure the collection of wine tax revenues. It further issures that wine is produced in accordance with the rules established in law and regulations. ATF F 5120.17 provides the raw data for ATF's Monthly Statistical Release on Wine, which is used by both ATF and other federal agencies as well as regulated industry for trend analysis and planning.
Respondents: Businesses and other for-profit, Small businesses or organizations.
Estimated Number of Respondents: 1,367.
Estimated Burden Hours Per Response: 1 hour 6 minutes.
Frequency of Response: Monthly.
Estimated Total Reporting Burden: 18,044 hours.
Clearance Officer: Robert Masarsky (202) 566–7077, Bureau of Alcohol, Tobacco and Firearms, Room 7011, 1200 Pennsylvania Avenue, NW., Washington, DC 20226.
OMB Reviewer: Milo Sunderhauf (202) 395–6880, Office of Management and Budget, Room 3001, New Executive Office Building, Washington, DC 20503.

VETERANS ADMINISTRATION

Scientific Review and Evaluation Board for Rehabilitation Research and Development; Meeting

In accordance with Pub. L. 92–463, the Veterans Administration gives notice of a meeting of the Scientific Review and Evaluation Board for Rehabilitation Research and Development. This meeting will convene at the Vista International Hotel, 1400 "M" Street NW., Washington, DC, January 10 through January 13, 1989. The session on January 10, 1989, is scheduled to begin at 6:30 p.m. and end at 10:30 p.m. The sessions on January 11, 12, and 13, 1989, are scheduled to begin at 8 a.m. and end at 5 p.m. The purpose of the meeting is to review rehabilitation research and development applications for scientific and technical merit and to make recommendations to the Director, Rehabilitation Research and Development Service, regarding their funding.

The meeting will be open to the public (to the seating capacity of the room) for the January 10 session for the discussion of administrative matters, the general status of the program, and the administrative details of the review process. On January 11–13, 1989, the meeting is closed during which the Board will be reviewing research and development applications.

This review involves oral comments, discussion of site visits, staff and consultant critiques of proposed research protocols, and similar analytical documents that necessitate the consideration of the personal qualifications, performance and competence of individual research investigators. Disclosure of such information would constitute a clearly unwarranted invasion of personal privacy. Disclosure would also reveal research proposals and research underway which could lead to the loss of these projects to third parties and thereby frustrate future agency research efforts.

Thus, the closing is in accordance with 5 U.S.C. 522b(c)(6), and (c)(9)(B) and the determination of the Administrator of Veterans Affairs Under Sections 10(d) of Pub. L. 92–463 as amended by section 5(c) of Pub. L. 94–409.

Due to the limited seating capacity of the room, those who plan to attend the open session should contact Mr. Jon Peters, Program Manager, Rehabilitation Research and Development Service, Veterans Administration Central Office, 810 Vermont Avenue, NW., Washington, DC 20420, (Phone: 202–233–5177) at least five days before the meeting.

Dated: December 8, 1988.

By direction of the Administrator:

Rosa Maria Fontanez,
Committee Management Officer.

PLACE: Commissioners' Conference Room, 11555 Rockville Pike, Rockville, Maryland.

STATUS: Open and Closed.

MATTERS TO BE CONSIDERED:

Week of December 19

Monday, December 19

10:00 a.m.
Briefing on Peer Review and Interim Use of NUREG–1150 (Public Meeting)

Tuesday, December 20

10:00 a.m.
Briefing on Current Status of Possible Use of Substandard Components in Nuclear Power Plants (Public Meeting)
2:00 p.m.
Briefing by DOE on High Level Waste Program (Public Meeting)

Wednesday, December 21

11:30 a.m.
Affirmation/Discussion and Vote (Public Meeting)
a. Proposed Commission Policy Statement on the Professional Conduct of Nuclear Power Plant Operators
b. Petition for Leave to Intervene in the Comanche Peak Operating License and Construction Permit Amendment Proceedings (Tentative)
2:00 p.m.
Periodic Briefing on Operating Reactors and Fuel Facilities (Public Meeting)

Week of December 26—Tentative

There are no commission meetings scheduled for the week of December 26.

Week of January 2—Tentative

Thursday, January 5

2:00 p.m.
Briefing on Regulatory Responsibilities and Schedules for the HLW Repository Program (Public Meeting)
3:30 p.m.
Affirmation/Discussion and Vote (Public Meeting) (if needed)

Friday, January 6

10:00 a.m.
Briefing on Staff Actions to Reduce Testing at Power (Public Meeting)

Week of January 9—Tentative

Thursday, January 12

3:30 p.m.
Affirmation/Discussion and Vote (Public Meeting) (if needed)

Note: Affirmation sessions are initially scheduled and announced to the public on a time-reserved basis. Supplementary notice is provided in accordance with the Sunshine Act as specific items are identified and added to the meeting agenda. If there is no specific subject listed for affirmation, this means that no item has as yet been identified as requiring any Commission vote on this date.

Agency for Toxic Substances and Disease Registry

Availability of Toxicological Profiles; Notice

VOL 53 ISS 244 DE 20 1988 UMI

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency For Toxic Substances and Disease Registry

[ATSDR-7]

Availability of Toxicological Profiles

AGENCY: Agency for Toxic Substances and Disease Registry (ATSDR); Public Health Service (PHS); Department of Health and Human Services (DHHS).

ACTION: Notice.

SUMMARY: This notice announces the expected availability of the second 25 draft toxicological profiles, prepared by ATSDR, for review and comment.

The Superfund Amendments and Reauthorization Act (SARA) (Pub. L. 99–499) amends the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or Superfund) (42 U.S.C. 9601 *et seq.*) by establishing certain requirements for the ATSDR and the Environmental Protection Agency (EPA) with regard to hazardous substances which are most commonly found at facilities on the CERCLA National Priorities List (NPL). Among these statutory requirements is a mandate for the Administrator of ATSDR to prepare toxicological profiles for each substance previously included on the first priority list of 100 chemicals. The list identified the first 100 chemicals which both Agencies determined are posing the most significant potential threat to human health. This list was published in the **Federal Register** on April 17, 1987 (52 FR 12866).

Availability

The following draft toxicological profiles are expected to be publicly available on or about December 20, 1988.

Profile	CAS Number
1,1-Dichloroethene	75–35–4
Alpha-, beta-, gamma-, and delta-Hexachlorocyclohexane	319–84–6, 58–89–9, 319–85–7, 319–86–8
Chloroethane	75–00–3
Isophorone	78–59–1
Toluene	108–88–3

A 90-day public comment period will be provided for each profile, starting from the actual release date. The close of the comment period for each draft profile will be indicated on the front of each profile.

Requests for draft toxicological profiles should be sent to Mr. Edward J. Skowronski, Assistant Branch Chief, Research Analysis Branch, Agency for Toxic Substances and Disease Registry, Chamblee 28 South, 1600 Clifton Road, Atlanta, GA 30333.

Specify the profiles you wish to receive. One copy of each profile requested will be forwarded free of charge, as they become available. In the case of extended delays, requestors will be notified.

Send one copy of all comments and five copies of all supporting documents to Mr. Skowronski at the above address by the end of the comment period. All written comments and draft profiles will be available for public inspection at the ATSDR, Trailer 11, 4770 Buford Highway NE, Chamblee, GA, from 8:00 a.m. to 4:30 p.m., Monday through Friday, except legal holidays. Written comments and other data submitted in response to this notice and the draft toxicological profiles should bear the docket control number ATSDR–7.

SUPPLEMENTARY INFORMATION:

I. Background

On October 17, 1986, the President signed the Superfund Amendments and Reauthorization Act of 1986 (Pub. L. 99–499), which extends and amends the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA or Superfund, 42 U.S.C. 9601 et seq.).

Section 110 of SARA amends section 104(i) of CERCLA by establishing requirements for the preparation of: (1) Lists of hazardous substances in order of priority, (2) toxicological profiles of those substances, and (3) a research program to fill data gaps associated with the substances.

In compliance with section 104(i)(2)(A) of CERCLA, ATSDR and EPA published on April 17, 1987 (52 FR 12866) the first priority list of 100 hazardous substances. This priority list of 100 was further broken down into four groups of 25 chemicals. The first group of 25 was the subject of the development of the first set of toxicological profiles. Section 104(i)(3) of CERCLA spells out the content of these profiles and the timetable by which they must be developed. Profiles on at least 25 substances on the first priority list were to be completed within one year of the enactment of SARA (by October 17, 1987). The remaining seventy-five are to be completed at a rate of at least twenty-five per year with the total 100 completed within four years after the enactment of the SARA amendments. Revision and republication is mandated as necessary but no less often than once every three years.

Each profile is required to include an examination, summary and interpretation of available toxicological information and epidemiologic evaluations. This information and data are to be used to ascertain the levels of significant human exposure for the substance and the associated health effects. The profiles must also include a determination of whether adequate information on the health effects of each substance is available or in the process of development. When adequate information is not available, ATSDR, in cooperation with the National Toxicology Program (NTP), is required to assure the initiation of a program of research designed to determine these health effects.

The toxicological profiles are to be provided to the States and made available to the public. The profiles are to be prepared in accordance with the guidelines developed by ATSDR and EPA.

This current notice announces the projected availability of the second 25 draft toxicological profiles. The documents have undergone extensive internal review and have been subjected to scientific and technical peer review by outside experts. We are now announcing their availability and encouraging public participation and comment on the further development of these profiles.

Although we are reasonably confident that the key studies for each of the 25 substances were considered during the profile development process, this **Federal Register** notice solicits any significant studies, including unpublished data, which may aid in the revision of the draft profiles.

II. Levels of Significant Human Exposure

Setting specific levels of significant human exposure presented a unique set

of problems. The significance of a specific level of a hazardous substance depends on the context in which that level is evaluated. For example, a low level that may be insignificant with respect to causing acute, immediately debilitating symptoms may be highly significant with respect to causing gradual, chronic effects over a longer term. Since these profiles are intended for use by a diverse group of people who have different situations in which to interpret the significance of specific levels, it was considered appropriate at this time to describe the range of exposures over which effects may occur (where data are available) and to allow the user to make determinations as to which type of effect is significant to any particular instance. A format for graphically displaying the levels of significant human exposure has been developed and is used in the profiles to present the ranges over which effects may be observed.

We encourage public comment and recommendations on this specific issue.

Dated: December 13, 1988.

James O. Mason,

Administrator, Agency for Toxic Substances and Disease Registry.

Recommendations of the Fire Management Policy Review Team

AGENCIES: United States Forest Service, Agriculture, National Park Service, Interior, United States Fish & Wildlife Service, Interior, Bureau of Land Management, Interior, Bureau of Indian Affairs, Interior.

ACTION: Notice of availability of final report and proposed recommendations of the Fire Management Policy Review Team concerning Federal fire management policy for national parks and Federally designated wilderness areas. Notice of public meetings.

SUMMARY: On September 28, 1988 the Secretaries of the Department of Agriculture and the Department of the Interior appointed the interagency Fire Management Policy Review Team to investigate and recommend modifications to agencies' current fire management policies for national parks and federally designated wilderness areas. The Team's complete report and recommendations are herewith published for public review and comment and concurrent agency review. The compiled record will be used by agencies in modifying their fire management policies. Public meetings will be conducted in Washington, DC and several additional communities. The schedule of the location, date and time will be announced through placement in the **Federal Register**.

DATES: Written comments will be accepted until February 21, 1989. Public meetings will be scheduled through announcement in the **Federal Register**.

ADDRESS: Comments should be directed to: Chief, Forest Service–USDA, P.O. Box 96090, Washington, DC 20090–6090; or Director, National Park Service, P.O. Box 37127, Washington, DC 20013–7127.

Copies are available from: Director, Public Affairs Office, Forest Service–USDA, P.O. Box 96090, Washington, DC 20090–6090; or Chief, Office of Public Affairs, National Park Service, P.O. Box 37127, Main Interior Building–Mail Stop 3043, Washington, DC 20013–7127.

From: Fire Management Policy Review Team

Re: Report concerning Fire Management Policy for National Parks and Wilderness

As requested, we are submitting the enclosed report of the Fire Management Policy Review Team appointed by you on September 28, 1988.

The team was established to review current U.S. Department of Agriculture and U.S. Department of the Interior policies on fire management in light of the extreme fire situation experienced in the Greater Yellowstone Area during the summer of 1988. The team conducted a thorough review of fire policies for national parks and wilderness areas. Much useful information was obtained during consultations with various elected officials, private citizens, representaties from academia, concessioners and outfitters, environmental groups, businesses, and other knowledgeable parties.

Our recommendations include a number of significant changes in fire policy and its application to national parks and wilderness areas. While recognizing the important role of fire in natural ecosystems, we believe that these suggested improvements in fire management policy will reduce the risk of repeating the experience of this past summer.

We further recommend that the enclosed report be reviewed by the individual land management agencies concurrently with the public review. This concurrent review will ensure that approved policy changes can be implemented prior to the 1989 fire season.

We would be remiss if we did not recognize the contributions of our staff directors, John Chamber and David Behler, and many others who made it possible to complete this report in a short period. In particular, John Gerard of the National Fire Protection Association, Paul Cunningham, Executive Director of the Western Governors Assocation, Dr. Robert Lee of the University of Washington, and Dr. Ron Wakimoto of the University of Montana were helpful in facilitating the supply of information about fire management policies and their applications from outside organizations and academia.

We thank you for the opportunity to serve in this important endeavor and hope that our efforts will lead to improved fire management policies and programs and increased public support for them.

Charles Philpot,
Co-Chair, Special Assistant to the Deputy Secretary, Department of Agriculture.
Brad Leonard,
Co-Chair, Deputy Director, Office of Program Analysis, Department of the Interior.
Gary E. Cargill,
Regional Forester, Rocky Mountain Region, U.S. Forest Service.
Blaine L. Cornell,
Forest Supervisor, Stanislaus National Forest, U.S. Forest Service.
Boyd Evison,
Regional Director, Alaska Region, National Park Service.
Thomas F. Follrath,
Deputy Division Chief, Division of Wildlife Refuges, U.S. Fish and Wildlife Service.
Dean E. Stepanek,
Assistant Director for Lands and Renewable Resources, Bureau of Land Management.
Charles W. Tandy,
BIA Director, Boise Interagency Fire Center, Bureau of Indian Affairs.
Bruce M. Kilgore,
Regional Chief Scientist, Western Region, National Park Service.

Summary

The Fire Management Policy Review Team was established on September 28th to review national policies and their application for fire management in national parks and wilderness and to recommend actions to address the problems experienced during the 1988 fire season. The Team report is due December 15th, with a minimum of a 60 day public review and comment period to follow. The goal is to have improved fire management policies and plans in effect by the end of May 1989.

The Fire Management Policy Review Team finds that:

- The objectives of policies governing prescribed natural fire programs in national parks and wildernesses are sound, but the policies themselves need to be refined, strengthened, and reaffirmed. These policies permit fires to burn under predetermined conditions.
- Many current fire management plans do not meet current policies; the prescriptions in them are inadequate; and decision-making needs to be tightened.
- There are risks inherent in trying to manage fire, but they can be reduced by careful planning and preparation. Use of planned burning and other efforts to reduce hazard fuels near high value structures and to create fire breaks along boundaries help to reduce risks from both prescribed natural fires and wildfires.
- The ecological effects of prescribed natural fire support resource objectives in parks and wilderness, but in some cases the social and economic effects may be unacceptable. Prescribed natural fires may affect permitted uses of parks and wilderness, such as recreation, and impact outside areas through such phenomena as smoke and steam sedimentation.
- Dissemination of information before and during prescribed natural fires needs to be improved. There needs to be greater public participation in the development of fire management plans.
- Internal management processes, such as training more personnel, developing uniform terminology, and utilizing similar budget structures, would significantly improve fire management.
- Claims were heard that some managers support "naturalness" above all else, allowing fires to burn outside of prescription requirements without appropriate suppression actions.

The Team recommends that:

- Prescribed natural fire policies in the agencies be reaffirmed and strengthened.
- Fire management plans be reviewed to assure that current policy requirements are met and expanded to include interagency planning, stronger prescriptions, and additional decision criteria.
- Line officers certify daily that adequate resources are available to ensure that prescribed fires will remain within prescription, given reasonably foreseeable weather conditions and fire behavior.
- Agencies develop regional and national contingency plans to constrain prescribed fires under extreme conditions.
- Agencies consider opportunities to use planned ignitions to complement prescribed natural fire programs and to reduce hazard fuels.
- Agencies utilize the National Environmental Policy Act requirements in fire management planning to increase opportunities for public involvement and coordination with state and local government.
- Agencies provide more and better training to assure an adequate supply of knowledgeable personnel for fire management programs.
- Agencies review funding methods for prescribed fire programs and fire suppression to improve interagency program effectiveness.
- Additional research and analysis relating to weather, fire behavior, fire history, fire information integration, and other topics be carried out so that future fire management programs can be carried out more effectively and with less risk.
- Allegations of misuse of policy be promptly investigated and acted upon as may be appropriate.

Report of the Fire Management Policy Review Team

December 14, 1988

Background

The 1988 fire season was severe in many parts of the western United States. Near record acreages were burned over, and more than one-half billion dollars were expended on suppression efforts. Additional resources will be required for rehabilitation and other follow-up needs.

Although the western United States experienced wildland fires exceeding recent history, the extraordinary fire situation in 1988 in the Greater Yellowstone Area was the focal point for public concern and agency criticism. Yellowstone National Park enjoys a special place in the hearts of Americans and, indeed, people worldwide. Vivid accounts of the Yellowstone fires appeared daily on television and in the newspapers from July through September. Visitor use was interrupted; smoke episodes disturbed local communities; and some summer businesses were hurt. A total of 249 separate fires were counted during the summer in the Greater Yellowstone Area, burning over a million acres. Twenty-eight of the 249 fires began as prescribed natural fires as permitted under current Department of the Interior (USDI) and Department of Agriculture (USDA) policy. Controversy arose over the adequacy of fire suppression. We have to ask ourselves:

- Is the policy allowing fire to play its natural ecological role in parks and wilderness under certain conditions flawed or inappropriate? What are the alternatives, and what are their effects?
- Should more of the fires have been declared wildfires and suppressed earlier, particularly given the drought? Should early suppression action have been more vigorous?
- Are surrounding communities being put at risks unacceptable to them by natural prescribed fire programs or from policies that restrict fire suppression tactics? Or do prescribed burns and prescribed natural fires result in an appreciable net reduction in risks?
- Are offsite effects, such as smoke and air and water pollution, acceptable, and are they adequately assessed in planning for these programs? How do they compare to offsite effects to that which would occur without such programs?
- Is the public aware of the ramifications of current policy and alternatives, such as immediate suppression of all fires or letting all fires burn unchecked?
- Did Federal and State agencies spend too much money on suppressing the fires? Would they have spent less if prescribed natural fire programs had not been implemented or if there had been better public understanding of and support for natural fires?
- Are agencies perceived as incompetent when large, numerous fires occur that partially result from natural prescribed fire programs or from policies that restrict fire suppression tactics?
- To what extent has a long-term credibility and communication problem been created between the public and agencies, and, if so, how can it be corrected?
- Is the large array of successful fire management programs across the nation now at risk?

Activity in the Greater Yellowstone Area in 1988 has triggered public debate and professional concern about current fire policies in Federal land management agencies nationwide. Wildland fire

VOL 53 ISS 244 DE 20 1988 UMI

management is a high risk activity. There are many areas of the United States where similar wildland fire disasters could occur. This risk is increasing in many areas due to the combination of fuel accumulation and the continuing developing of private and commercial interests in flammable, wildland settings. Therefore, it is timely to take a nationl look at current wildland fire policies, their application, and implementation plans to ensure that the risks and costs to society are acceptable, in light of the alternatives.

Establishment of National Fire Management Policy Review Team

The Secretaries of Interior and Agriculture established a Fire Management Policy Review Team on September 28, 1988. This multi-agency team, co-chaired by Interior and Agriculture representatives, was assigned the task of reviewing the current national park and wilderness fire management policies and action plans of all agencies within both Departments and recommending changes needed to address the problems experienced during the 1988 fire season. The Team met regularly with representatives of the National Fire Protection Assocation, the Western Governors Association, and the academic community. The Team was also directed to consult with representatives of knowledgeable organizations and individuals to arrive at proposed changes. The Team report is due on December 15, 1988. A public comment phase will then begin with publication of the Team's report in the **Federal Register**. Revised policy and application requirements will be implemented prior to the 1989 western fire season.

The goals of the Fire Management Policy Review Team are:

- To identify issues and concerns which arose during the 1988 fire season related to fire management policy and its application;
- To gather information from a cross-section of knowledgeable parties about current fire policy and its application;
- To develop recommendations for appropriate changes in fire policy and improvements in application; and
- To identify areas of needed additional study and analyses.

The Team began with the premise that its charter did not include detailed evaluation of the overall management direction for national parks and wildernesses and therefore focussed just on fire management policies. For example, wilderness areas and, to a more varied degree, national parks have been designated as special areas where "natural" processes can occur in perpetuity with minimum influence of human activities. This basis direction, arising from the National Park Service Organic Act of 1916 and the Wilderness Act of 1964, is usually interpreted to allow natural disturbances, such as insect infestations, disease, blowdowns, and fire, to occur without human intervention. Examining other policies that define and guide "natural" processes was not part of the Team's assignment.

Concerns And Views

As stated in the Team's charter, "the objective of the review process is to determine the appropriate fire policies for national parks and wilderness which addresses the concerns expressed by citizens and public officials about the management of fires on these lands as a result of the Yellowstone fire situation."

To gather information about those concerns, individual members of the team, assisted by representatives of the National Fire Protection Association, the Western Governors Association, and the academic community, met with or called a number of knowledgeable persons, including governors, local government officials, concessioners and outfitters, individuals with businesses in nearby communities, organizations with an interest in parks and wildernesses, academicians, and others. The Team also reviewed letters, summaries of correspondence, and many newspaper and journal articles related to fire management policy.

The concerns can be summarized as follows:

- Definition of prescribed fire conditions and limitations was inadequate.
- There was little opportunity for citizen participation in the development of fire management plans.
- The interdependence of park/wilderness and nearby communities was ignored in the implementation of fire management programs.
- Adequate communication and information before and during fires, whether wildfires or prescribed, was lacking.
- There appeared to be waste in the application of fire management policies, in natural resources that might have been utilized rather than burned, in the on- and off-site effects of fire on available recreation sites, wildlife habitat and forage, soil erosion, and damage to watershed, and in the costs of firefighting.
- An inadequate number of planned prescribed fires have been conducted to reduce the amount of hazard fuels.
- There were unnecessary interagency conflicts.
- Authority for action in fire management needed to remain with line officials in the field, not centralized in Washington.

There are also concerns with strongly held conflicting views. The three principal areas are:

- The definition of "naturalness" and its application in driving fire management policy;
- The extent to which planned prescribed burning (fires set by management) is used in reduction of hazard fuel in the Northern Rockies; and
- Whether the fires in 1988 were allowed to burn more extensively than they should have before suppression actions were taken.

Not all comments were critical of Federal efforts to manage fire:

- The role of fire in managing vegetation and wildlife habitat was noted by many.
- The bravery and competence of fire suppression personnel were frequently extolled.
- Examples were mentioned of individual and agency actions to inform the public, to protect life and property, and to minimize disruptions during and after the fires.
- There are many positive effects from prescribed natural fires. Overreaction to the events of 1988 should not be used to justify severe curtailment of their use.

Policy Options

Fire management policy options range from immediate control of all fires to allowing all wildland fires to burn. The team considered the full range following its discussion with interested parties and agency personnel.

The great majority of comment from knowledgeable people indicated support for the careful use of prescribed burns and prescribed natural fires, in accordance with publicly reviewed management plans. There was also general agreement that such policy must be executed in ways that give the fullest possible assurance that human lives and property or special resources will not be lost or seriously impaired.

Federal Fire Policies

Traditionally, the fire policies of Federal land management agencies were to control all wildland fires as promptly as possible. When initial attack failed in controlling a fire the first day, personnel and equipment were organized to control the fire by 10:00 a.m. the succeeding day.

Current fire management policies among the Federal agencies reflect similar evolutions and are similar in scope and intent. Fire management programs and activities are conducted in support of land and resource management plans and objectives. Two kinds of wildland fires are recognized: prescribed fires and wildfires. Prescribed fires may be ignited, or allowed to burn, under specified conditions to achieve established management objectives. Any other fire is considered a wildfire, and appropriate suppression action is taken on all wildfires. Suppression strategies considered in determining the appropriate action range from prompt control, minimizing acreage burned, to more indirect suppression action to contain or confine wildfires when these alternatives are less costly than control in terms of suppression cost, damage from fire, and other adverse impacts.

These policies as applied to parks and wildernesses, implemented in 1968–85, allow for the prescribed use of fire, either by natural or human-caused, in support of land management objectives. The suppression of all wildfires is required, using economically efficient and environmentally compatible methods. All prescribed fires require pre-planning and decision criteria addressing expected fire behavior and effects.

Prescribed fires may be used to achieve agency land or resource management objectives defined in fire management plans. The following considerations are to be addressed in such plans: management objectives for the area, historic fire occurrence, natural role of fire, proposed degree of suppression, expected fire behavior, acceptable suppression techniques, adequate buffer zones, smoke management, and effects on adjacent land owners.

Prescribed fires are to be conducted only when the following conditions are met:

- They are conducted by qualified personnel under written prescriptions (prescribed fire plan).
- They are monitored to assure they remain within prescription.

Prescribed fires that exceed the limits of an approved fire plan will be reclassified as a wildfire. Once classified as a wildfire, the fire will be suppressed and will not be returned to prescribed fire status.

The important implications of these policies for parks and wilderness areas are:

- It allows managers to restore and maintain the natural role of fire on land when the land management objective is to perpetuate natural processes and values.
- Fire can be used as an important management tool to reduce fuel accumulation, control fire hazard around developments and along boundaries, and to meet other management needs.
- All fires are treated as wildfires, subject to appropriate suppression action, unless a plan is in place that describes the conditions under which prescribed fire will be allowed to burn. Both natural and management-caused ignitions are allowed.
- A prescribed fire must be declared a wildfire when it exceeds prescribed conditions.
- There is flexibility for fire management plans to address the unique characteristics and objectives of specific parks and wildernesses.

Fire management plans for national parks and wilderness areas are subject to National Environmental Policy Act (NEPA) compliance.

History And Experience With Natural Fire Programs

Following prescribed burning experience in the Everglades in the 1950's, the National Park Service began to change its fire suppression and prescribed burning policies in 1968 to accept a more natural role of fire in park ecosystems. Lightning-caused fires were allowed to burn under specified conditions in Sequoia-Kings Canyon National Parks that year, followed by a similar program in another 7 parks between 1968 and 1972. In the decade that followed, another 26 parks began some parts of the prescribed fire program (Appendix, Table 1).

The purpose for this policy change was to restore fire to a more natural ecological role. "Naturalness" is defined as those dynamic processes and components which would likely exist today, and go on functioning, if technological humankind had not altered them. (For those concerned about "exclusion of man from nature," the term "wildness' may be more satisfactory; but it is not likely to displace the word "naturalness" in the common vernacular.)

No ecosystem today is totally unaltered by technological humankind. However, extensive areas in which the achievement and maintenance of naturalness is a basic purpose are increasingly important to humankind. These areas are found primarily in national parks and wildernesses. They serve as invaluable scientific benchmarks; and the uniqueness imparted by their natural qualities is irreplaceable as a source of human inspiration and enjoyment. Those natural qualities differ in each area. They are compromised by the effects of necessary and appropriate provisions for enjoyment of parks, the impacts of other uses under legislative mandates governing non-park wilderness and by potential adverse impacts outside of unit boundaries. Each unit in its management plan describes how it will attain the objective of naturalness.

In those parks and wildernesses where fire has been a historic component of the environment, it is critical to management objectives to continue that influence. An attempt to exclude fire from these lands leads to major unnatural changes in vegetation and wildlife from that which would occur without fire suppression, as well as creating fuel accumulation that can lead to uncontrollable, sometimes very damaging, wildfire. Current fire management policy allows for inclusion of naturally occurring fire on these lands, to the extent possible, as well as the use of prescribed burns to bring these areas back into a more natural condition of fire hazard and occurrence, and to reduce the risk of damage from fire to improvements within these areas and to improvements and resources on adjacent lands.

Lightning fires are permitted to burn in designated zones within 46 areas managed by the National Park Service. Nearly 58 million acres of national parks are classified natural fire zones, including 50 million acres in Alaska alone. A total of 58 national park areas use human-ignited prescribed burns to simulate the role of natural fire in certain ecosystems.

The USDA Forest Service also began allowing lightning-caused fires to play a more natural role in wilderness in 1972, when exceptions to the policy of suppressing all fires were approved by the Chief. By 1976, policy exceptions allowing lightning-caused fires to burn under carefully prescribed conditions had been put into effect in parts of the Selway-Bitterroot, Gila, and Teton wildernesses of Idaho, New Mexico and Wyoming.

In 1978, authority to approve wilderness fire management plans was delegated to Regional Foresters as part of a revised policy that called for "fire management programs" as contrasted with previous "fire control programs." This revision—which is current policy—provided for "well-planned and executed fire protection and fire use programs that are cost effective and responsive to land and resource management goals and objectives".

Forest Service wilderness fire management policy was again revised in 1985, following public review and comment, clarifying wilderness fire management objectives and the use of prescribed fire within wilderness. Forest Service ignited prescribed fires were authorized when necessary to meet the objectives of (1) allowing lighting fires to play their natural role to the extent possible and (2) reducing the risk of wildfire within wilderness to life and property, and to life, property, and resources outside of wilderness to an acceptable level.

The Bureau of Land Management uses prescribed fire extensively to meet resource and fire management objectives. However, the use is almost exclusively through planned ignitions. Prescribed natural fire is generally not used due to the predominance of fuel types having a high rate of spread (i.e. grass and brush) commonly found on Bureau-administered lands. Those few fire management plans that identify prescribed natural fire as a management strategy do so for lands located adjacent to wilderness managed by other agencies. The operational plans for these prescribed natural fire areas were developed through coordinated fire planning efforts with the adjacent federal wilderness management agency.

The Bureau of Land Management issued its first policy for the management of lands designated as wilderness study areas in 1979. This policy, which addressed fire management practices, was revised in 1987. Fire management policy for designated wilderness areas was issued in 1981.

The Fish and Wildlife Service manages seventy designated wilderness areas containing approximately 19 million acres; 97 percent of this acreage is in refuges located in Alaska. Prescribed natural fires are accommodated on these refuge wilderness areas through provisions in the Alaska Fire Plans in which Federal, state, Alaska Native Corporations, and general publics have participated. The experience of the period 1982–1988 demonstrates that prescribed natural fires occurring within these wilderness areas can be managed to meet the objectives of these coordinated plans.

Although the Bureau of Indian Affairs has only one Federally designated wilderness area, several tribes have designated areas within their reservations as tribal wilderness. Management of these tribal wilderness areas are based on tribally developed or approved plan and, in most instances, follow closely that outlined in the Wilderness Act of 1964. Lightning-caused fires occurring within these designated areas may be allowed to burn provided they meet *all* requirements and constraints outlined in the area specific fire management plans. In addition, the use of planned prescribed fire to reduce natural fuel buildup has been widely practiced since the early 1940's. Records indicate that only one lightning-caused fire has occurred within the single Federally designated wilderness area on Indian lands, burning an area of approximately 350 acres. No attempt has been made, to date, to separate data on fires occurring on tribally designated wilderness areas from other fires occurring within reservation boundaries.

Results in National Parks:

Since the beginning of these programs in 1968 until 1987, more than 1600 lightning-caused fires have been permitted to burn more than 320,000 acres of national park land. Only one serious problem had developed—the Ouzel Fire on the Rocky Mountain National Park which threatened the adjacent community of Allens Park, Colorado. At the same time, more than 1400 prescribed burns were ignited by the park staff in 46 national park areas that covered more than 325,000 acres.

The burns were designed mainly to manage vegetation by simulating the natural role of fire in reducing fuel accumulations in order to modify plant succession and to help maintain ecosystem processes. Some of the benchmark fire management programs in national parks are those found in Sequoia-Kings Canyon and Yosemite National Parks in the Sierra Nevada, the Everglades National Park in Florida and Yellowstone and Grand Teton National Parks in the Rockies.

Results in National Forest wilderness:

Since 1972 when the USDA Forest Service began permitting lightning caused fires to play a more natural role in wilderness, 503 prescribed natural fires have burned nearly 210,000 acres within wilderness areas in the Northern and Intermountain Regions, the Forest Service Regions having the most active prescribed natural fire management programs. Of these fires, 23 became wildfires burning an additional 544,000 acres (14 of these escaped prescribed natural fires occurred in 1988). Four prescribed fires, burning 4,424 acres, have been ignited by the Forest Service in three different wilderness areas since management ignitions were permitted in 1985. (Appendix, Table 2 and 3.)

Findings

After review of policies, guidelines, fire management plans, draft fire reviews of the 1988 Greater Yellowstone fires, and information obtained from written and oral communication with both Federal personnel and knowledgeable citizens, the Team has determined the following:

1. The prescribed natural fire policy in Federal agencies was designed to allow fires to play a more natural role in national parks and wilderness areas. There have been many notable successes in application of this policy. However, in some cases this policy has been interpreted to allow managers to manage prescribed natural fires with essentially no prescriptions.

- Restoration and maintenance of naturalness and natural processes are used as primary objectives of wilderness and national park prescribed fire programs. Exclusive focus on these objectives can lead to inadequate consideration for the positive and negative impacts of fire on uses such as recreation, wildlife habitat, grazing, and water quality.
- Current fire policy or guidelines are subject to abuse in that plans are developed and implemented that don't meet the literal requirements of policy.
- Some park and wilderness managers are reluctant to define size limits and specific prescriptions limiting prescribed natural fires.
- Misuses of the prescribed natural fire program could eliminate the program itself—and lose the benefits that derive from it.

2. The Team heard from agency employees who would welcome an expansion of policy to allow for fires to burn free of prescriptions and without being declared wildfires as long as such fires are not expected to cross administrative boundaries of a park or wilderness or endanger human life and property.

3. Although there are many outstanding examples of fire management plans in all agencies, the team found that some plans do not meet current agency or departmental policy and contain inadequate prescriptions.

- Some plans do not include the required set of prescription criteria for prescribed natural fire programs.
- Some plans do not adequately address suppression resource availability, values at risk outside of parks and wilderness, and the number of fires that can be managed at one time.
- Plans do not address cumulative effects of drought and other potentially important considerations.

4. Some fire management prescriptions do not place adequate limits on fire management decisions.

- Some prescribed fires that were ultimately declared wildfires were

interpreted to be within prescription until they reached an arbitrary limitation of a boundary of a park or wilderness boundary.

- Insufficient attention has been given to values at risk, both inside and outside parks and wilderness boundaries.
- There was insufficent consideration of the cumulative risks associated with multiple fires, large fires, or fires with especially active perimeters.
- Insufficent attention was given to the potential cost and damage associated with a prescribed fire later becoming a wildfire requiring suppression action.

5. Beyond being brought up to current standards, fire management programs would be strengthened by a combination of improved decision criteria in plans, additional fire expertise, and more direct line officer involvement.

- Critial decision points (e.g. decision trees) are often not identified in plans.
- Lack of resident fire expertise in some locations is critical.
- Lack of coordination of policy application for prescribed natural fire programs among and within agencies results in disparate treatment of fires and inconsistent decisions.
- Documentation of decisions is often lacking and does not demonstrate the involvement of some agency line officers.
- Some fire management plans do not include the latest technology.
- Plans are not complete in terms of indicators of long-term drought and impact on shared suppression resources.
- Variations in planning and decision processes result in decisions that appear illogical, create political and public concern for competence of the agencies, and render decisions to limit fire size ineffective.
- Prescribed natural fire programs do not adequately consider the impact on other interagency programs and resources.

6. The severity of the 1988 fire season in some areas of the West (the most severe on record in the Greater Yellowstone Area) revealed the risks inherent in managing wildland fires. These risks can include high fire suppression costs as well as unacceptable social, environmental and economic impacts, and natural resource losses.

7. Prescribed fire using planned ignitions (prescribed burning) complements the use of, and reduces the risk from, prescribed natural fires to achieve management objectives. However, there are factors constraining the use of planned ignitions in some areas.

- Planned ignitions have been used successfully in some national parks and wilderness to meet management objectives, reduce hazard fuel build-up, and establish fuel breaks.
- Planned ignitions have not been used in some cases due to the perceived risks from the results of high intensity crowning fires. Also, up-front budgetary costs have limited the use of planned ignitions. Planned ignitions have rarely been used in wilderness.
- Some people strongly support planned ignitions as a substitute for prescribed natural fires; others believe strongly that appropriate objectives cannot be achieved without prescribed natural fire.

8. The reduction of hazard fuels around structural developments, parks/wilderness boundaries, and private inholdings enhances the ability to protect these values at risk and reduces costs of wildfire suppression and prescribed natural fire.

9. Agency personnel development and training programs are not maintaining the number of personnel and levels of knowledge required to ensure proper and consistent application of policies and procedures.

- There is an inadequate number of professional managers in field locations with an understanding of fire management and fire management policies and practices.
- Some line officers are not requiring adherence to standards contained in fire management plans.
- Inconsistent application of required processes, such as the Escaped Fire Situation Analysis, leads to poor decisions.
- Some incident management teams, fire professionals, and line officers lack knowledge of suppression tactics necessary under extreme conditions.
- Consideration of suppression costs and potential damage related to fire suppression alternatives and decisions is not adequately documented in Escaped Fire Situation Analyses.
- Some agency fires staffs are not able to maintain expertise in fire management because of infrequent fire occurrences at their location and lack of career mobility or opportunity to gain experience in other locations.

10. The environmental effects of prescribed natural fire within wilderness and park boundaries are usually consistent with natural resource objectives for these lands. However, in some cases the social and economic impacts outside these boundaries may be unacceptable due to smoke, threats to public safety, reduced tourism, loss of income and jobs, and reduced water quality.

11. Inconsistent dissemination of information, inadequate public participation, and a perception of failure to consider some social, environmental, and economic impacts on local businesses and communities are strong issues with the public and political leaders.

- There is a great diversity of views within and outside agencies regarding the basis and the primary objectives of natural fire programs.
- Adequate public involvement may not have occurred in the development of some prescribed natural fire management plans.
- The primary message communicated by agencies continued to be the biological value of prescribed natural fire to vegetation and wildlife even after the fires had been declared to be wildfires.
- There was a lack of uniform, consistent, adequate information on the location of the fires, planned fire management actions, and their implications for the public in terms of road closures, smoke, and other effects on local populations and visitors.

12. Budget structure and funding in the Departments of Agriculture and Interior create the following effects:

- The level of expertise and professionalism needed for the broad spectrum of fire management and use program may not be available to support management objectives in all agencies.
- Dissimilarities between the two departments in the ways in which programs are funded and differences in agencies' terminology inhibit the ability to cooperate and coordinate in prescribed fire program on mutual boundaries.
- These also cause disparate treatment of naturally occurring fires in determining whether they are designated as prescribed fires or wildfires. Forest Service and Bureau of Land Management policies require that prescribed fires be managed with appropriated funds from the benefiting program. The National Park Service manages prescribed natural fires with emergency funds.
- Hazard fuel reduction programs have not been adequately funded in some cases.
- Very limited appropriated funds are allocated to develop expertise and apply prescribed fire in parks and wildernesses.
- There is an inadequate number of professionals in Federal agencies in fire management programs. Fire management planning and application is a collateral duty at some major parks.

VOL 53 ISS 244 DE 20 1988 UMI

• Agency budgets for presuppression activities have declined in real dollars in recent years.

• National Park Service is completing an analysis of normal fire year operations, FIREPRO III, in order to define essential minimum wildland fire program needs.

13. Lack of clear definition and inconsistent implementation of "light hand on the land" suppression tactics raise serious questions over the management of fires in 1988.

• The public, employees, and cooperators became confused by mixed messages about the intensity of suppression efforts and the objectives to be achieved.

• Incident commanders received unclear direction about the use of certain suppression tactics, which were sometimes in conflict with the selected suppression alternative.

14. Research and analysis are needed to provide tools for management of fire management programs.

• Normal climatic patterns are ordinarily used for projections, yet prolonged drought periods may result in changes in weather patterns that have an abnormal effect on fires and cause an inability to project fire behavior accurately.

• There is little agreement on whether management objectives can be achieved through planned ignitions when they result in high intensity crown fire.

• Analyses of fire history, occurrence, size, and effects are insufficient for many areas.

• Reliable methods for long-term weather prediction do not exist.

• There are a number of issues concerning the natural fire regime and fire management in subalpine ecosystems vegetated predominantly by lodgepole pine. These include such topics as whether fire behavior and effects from the 1988 fires were as predicted from pre-1988 research and modelling, whether prescribed burning in these ecosystems can be implemented to establish mosaics that would inhibit large scale, uncontrollable fires, and whether conservatiion of biotic diversity on a shorter scale (less than 300 to 400 years) is feasible and/or desirable.

15. The Team heard claims that some managers with philosophies advocating naturalness above all else intentionally allow fires to burn outside of prescriptions and do not take the appropriate suppression actions required on a wildlife—allegations that these fires are allowed to burn freely as long as the fire is not expected to leave the boundary of a park or wilderness. These allegations were not supported by anything in the draft fire reviews received to date. The team did not have the mandate to investigate and verify or disprove the allegations.

Recommendations

The Team recommends that the Secretaries of Agriculture and the Interior implement the following policy and direction:

1. Existing USDI and USDA fire management policies governing wilderness and parks must be strengthened and reaffirmed to limit their application to legitimate prescribed fire programs. Clarification is needed to prevent inappropriate use of fundamentally sound policies.

2. The agencies reaffirm their policies that fires are either prescribed fires or wildfires. The agencies reject as impractical and unprofessional the practice that fires can be allowed to burn free of prescriptions or appropriate suppression action.

3. USDA and USDI agencies will review fire management plans for parks and wilderness for compliance with current policy, direction, and the additional requirements recommended by this report. No prescribed natural fires are to be allowed until fire management plans meet these standards.

4. Current fire management plans must be strengthened by:

a. Developing joint agency fire management plans, agreements, or addendums to existing plans for those areas where fires could cross administrative boundaries. These will include agreement on processes and criteria to be used to make decisions on prescribed vs. wildfire and suppression strategies and tactics.

b. Including a comprehensive set of criteria which will be used in deciding whether or not to allow natural ignitions to burn as prescribed fires. In addition to those criteria currently required and commonly used, the following factors will be considered:

(1) Energy release component.

(2) 1000-hour fuel or duff moisture content.

(3) Appropriate consideration of the national and regional fire situation, including the numbers of fires and amount of available resources to suppress them.

(4) Limits on numbers of fires burning in the planning unit at one time.

(5) Limits on projected length of active perimeter and acreage burned.

(6) Indicators of cumulative drought effects on fire behavior.

(7) Potential impacts upon visitors, users, and local communities, both on and off site.

c. Clearly describing the decision process and factors to be addressed before a fire is declared a prescribed natural fire.

d. Including criteria to be used in declaring a prescribed fire a wildfire. There must be interagency agreement on these factors in areas where fire may move across administrative boundaries and shared suppression resources may be required.

e. Clearly identifying areas that need protection from fire, such as developments within or adjacent to wilderness and park boundaries. Fire management plans should also include actions that are to be taken, such as hazard fuel reduction or installing fuel breaks, to protect such developments or areas.

f. Clearly stating the management objectives being addressed by the prescribed natural fire program.

g. Clearly describing the process to be used to ensure adequate public involvement and coordination with local governments.

5. Agencies will develop regional and national contingency plans and procedures and provide the appropriate program monitoring and direction, including curtailment of prescribed fire activities when necessary.

6. The responsible line officer or designee shall certify in writing daily that adequate resources are available to ensure that each prescribed natural fire will remain within prescription, given reasonably foreseeable weather conditions and fire behavior. If the fire exceeds or threatens to exceed prescription and cannot be kept within or returned to prescription with available forces and funds, it shall be declared a wildfire and appropriate suppression action initiated.

7. Agencies must re-evaluate the opportunities to use prescribed burning (by planned ignitions) to achieve management objectives and to complement prescribed natural fire programs. Additionally, hazard fuels must be reduced to protect selected areas, particularly developments within and adjacent to boundaries, from prescribed natural fire and high wildfire risk. Fuels will be treated along park and wilderness boundaries or internally where there are high values at risk.

8. Prescribed fire program management will be improved by establishing properly staffed regional as well as unit level prescribed fire program management organizations.

a. Agencies will ensure the availability of qualified staff and knowledgeable line officers for

developing, implementing, and managing prescribed fire programs.

b. National Park Service regional offices will establish a full-time regional fire coordinator to develop and oversee park programs in accordance with FIREPRO III, where appropriate.

c. Agencies will implement the concept of highly trained, well-equipped and mobile tactical teams to provide on-the-ground monitoring and management of national park and wilderness fires.

d. Agencies will ensure the strengthened policy is understood and implemented by all appropriate personnel.

e. Agency managers will assure that personnel develop a thorough understanding of the management objectives for the lands they are managing.

f. The National Park Service is to complete an analysis of normal fire year operations, FIREPRO III, in order to define essential minimum wildland fire program needs and to take action to meet those needs.

9. Additional interagency emphasis will be given to addressing opportunities for improving fire management programs.

a. The National Wildfire Coordinating Group (NWCG) charter should be expanded specifically to include prescribed fire program coordination.

b. The NWCG should take the lead in developing common terminology for prescribed burning programs and describing wildfire suppression alternatives.

c. Agencies will develop joint criteria for selecting appropriate suppression tactics in wilderness and parks. Preplanning should include these tactics.

d. Agencies will improve the understanding and acceptance of using appropriate suppression tactics that meet fire management objectives and minimize the adverse impact on wilderness values and park resources.

10. Agencies will ensure that the NEPA process is followed for fire management plans. Agencies will increase opportunities for public involvement and coordination with state and local government when revising or developing fire management plans.

11. Interpretation and public information before and during fires will be improved.

a. Agencies will ensure that timely, accurate, and consistent information is provided for the public on the purpose, presence, and status of prescribed natural fires, as well as impacts on the community due to closed roads, trails, smoke, back country restrictions, and other effects.

b. Interpretive and fire status messages are for different purposes, and agencies should strive to keep them separate and distinct.

c. Agencies will develop a common terminology for prescribed natural fire programs.

12. USDI and USDA will review the methods of funding prescribed fire and fire protection programs with the objective of improving interagency program effectiveness. Planning and presuppression activities should be financed by program funds rather than through emergency fund transfers and supplementals.

13. There is a need for additional research related to fire management programs.

a. USDI and USDA will develop coordinated research programs utilizing the unique capabilities of both organizations.

b. The feasibility of prescribed burning forests using stand replacement fire will be investigated and tested by implementing an appropriate interagency field research program.

c. Research will be increased to improve the ability to predict severe fire behavior, conduct long-term weather forecasting, and identify past abnormal events.

d. Efforts will be undertaken to develop and implement an expert system that integrates a wide array of fuel, topographic, weather, climatological, fire behavior, and other information and readily displays such information in an interactive mode for the user at a computer terminal. This expert system would help to assure that important variables are not overlooked as decisions are made regarding long duration fires.

e. Efforts will also be undertaken to develop comprehensive data bases for park and wilderness resources and provide for state of the art analyses and display as well as an efficient, continuous monitoring system to insure timely update of information.

f. Development of additional emission factors for wildland fuels and better methods for projecting air quality impacts of prescribed and wildfires are needed, since smoke and air pollution are major considerations in deciding when to terminate prescribed natural fires and in scheduling prescribed burns.

14. The agencies will cooperate fully in determining whether allegations of misuse of policy are true and take measures to ensure that any such practices not occur in the future.

Issues Needing Further Analyses

Following are fire management policy issues that would require more time than the team had available to work out suitable solutions. Resolution of these issues is not critical to fire management readiness for the 1989 fire season, but they should be pursued during the further evolution and improvement of Federal fire management policy and application. They are:

1. Validation of the relationship between current fire management information system components (i.e., drought index, energy release component, 1000 hour fuel moisture, etc.) with actual fire occurrence, severity and size is needed.

2. Development of compatible interagency fire planning methods.

3. Determination of the effect of budgetary constraints and funding sources on fire management programs.

4. Determination of the current and future effects of residential and commercial development on the ability to design and implement prescribed fire programs, including examination of the interrelationship between fire management plans and local planning and zoning functions.

5. Inventory of forest types and locations subject to infrequent but intense large fires, their historic occurrence in terms of drought cycles, and definition of policies to be applied in each case relative to desired results to be achieved.

6. Examination of the adequacy and consistency of application of current fire suppression and prescribed fire cost analysis and risk assessment procedures.

7. Development of interagency guidelines for "light hand on the land" suppression tactics by the National Wildfire Coordinating Group.

8. Development of a better understanding of agency objectives as they relate to fire planning standards and decision criteria.

9. Reexamination as to whether human-caused fires (not ignited by management) should be managed as prescribed natural fires in certain well-defined circumstances.

10. Additional studies of fire history, occurrence, and size in parks and wildernesses.

Office of Management and Budget

Cumulative Report on Rescissions and Deferrals; Notice

VOL 53 ISS 244 DE 20 1988 UMI

OFFICE OF MANAGEMENT AND BUDGET

Cumulative Report on Rescissions and Deferrals

December 1, 1988.

This report is submitted in fulfillment of the requirement of section 1014(e) of the Impoundment Control Act of 1974 (Pub. L. 93–344). Section 1014(e) provides for a monthly report listing all budget authority for this fiscal year for which, as of the first day of the month, a special message has been transmitted to the Congress.

This report gives the status as of December 1, 1988, of 14 deferrals contained in the first two special messages of FY 1989. There have been no rescissions proposed. These messages were transmitted to the Congress on September 30, and November 29, 1988.

Rescissions (Table A and Attachment A)

As of December 1, 1988, there were no rescission proposals pending before the Congress.

Deferrals (Table B and Attachment B)

As of December 1, 1988, $8,686.6 million in budget authority was being deferred from obligation. Attachment B shows the history and status of each deferral reported during FY 1989.

Information from Special Messages

The special messages containing information on the deferrals covered by this cumulative report are printed in the **Federal Register** as listed below:

Vol. 53, FR p. 39879, Wednesday, October 12, 1988

Vol. 53, FR p. 49530, Wednesday, December 7, 1988

Joseph R. Wright, Jr.,

Director.

Title 3—

The President

Executive Order 12660 of December 16, 1988

National Microgravity Research Board

By virtue of the authority vested in me as President by the Constitution and laws of the United States of America, and in the pursuance of assuring and coordinating a broader range of opportunities for research in microgravity conditions, I hereby order as follows:

Section 1. *Establishment.* (a) There is hereby established the National Microgravity Research Board (hereinafter, "the Board").

(b) The Board shall be composed of the following members, or their designees:

(1) the Administrator of the National Aeronautics and Space Administration, who shall serve as Chairman;

(2) the Secretary of State;

(3) the Secretary of Defense;

(4) the Secretary of Commerce;

(5) the Secretary of Health and Human Services;

(6) the Secretary of Transportation;

(7) the Secretary of Energy;

(8) the Director of the National Science Foundation; and

(9) the Secretary or Director of other agencies, and officials of the Executive Office of the President, as the President may from time to time designate.

(c) The Board shall report to the President through the Economic Policy Council as necessary.

Sec. 2. *Functions.* (a) The Board will consult with academia and private industry and other Federal agencies as appropriate in carrying out its functions.

(b) In furtherance of its responsibilities, the Board shall:

(1) stimulate research in microgravity environments and the application thereof to commercial uses;

(2) advise Federal agencies on microgravity research priorities and opportunities;

(3) develop policy recommendations relating to the conduct and nature of microgravity research, including types of research; government, industry, and academic cooperation; and increased access to space, including a potential launch voucher program for microgravity research purposes; and

(4) provide advice on coordinating the microgravity programs of Federal agencies by:

(i) reviewing agency plans for microgravity research and recommending priorities for the use of federally owned or leased space on microgravity facilities;

(ii) ensuring that agencies establish merit review processes for evaluating microgravity research proposals;

(iii) promoting transfer of federally funded microgravity research in furtherance of Executive Order No. 12591; and

(iv) providing oversight of Federal agency participation in international microgravity research programs.

(c) The Board shall meet as requested by the President, the Chairman, or the membership.

Sec. 3. *Board Termination Date.* Unless extended by the President, the Board shall terminate 5 years after the date of this Order.

Ronald Reagan

THE WHITE HOUSE,
December 16, 1988.

LIST OF PUBLIC LAWS

Note: The list of public laws enacted during the second session of the 100th Congress has been completed.

Last List November 30, 1988

The list will be resumed when bills are enacted into public law during the first session of the 101st Congress, which convenes on January 3, 1989. It may be used in conjunction with "P L U S" (Public Laws Update Service) on 523–6641. The text of laws is not published in the **Federal Register** but may be ordered in individual pamphlet form (referred to as "slip laws") from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 (phone 202–275–3030).

Briefings on How To Use the Federal Register—
For information on briefings in Washington, DC, and Los Angeles, CA, see announcement on the inside cover of this issue.

BEST COPY AVAILABLE

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers for $340 per year in paper form; $195 per year in microfiche form; or $37,500 per year for the magnetic tape. Six-month subscriptions are also available at one-half the annual rate. The charge for individual copies in paper or microfiche form is $1.50 for each issue, or $1.50 for each group of pages as actually bound, or $175.00 per magnetic tape. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, or charge to your GPO Deposit Account or VISA or Mastercard.

There are no restrictions on the republication of material appearing in the **Federal Register.**

How To Cite This Publication: Use the volume number and the page number. Example: 53 FR 12345.

THE FEDERAL REGISTER
WHAT IT IS AND HOW TO USE IT

FOR: Any person who uses the Federal Register and Code of Federal Regulations.

WHO: The Office of the Federal Register.

WHAT: Free public briefings (approximately 3 hours) to present:

1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
2. The relationship between the Federal Register and Code of Federal Regulations.
3. The important elements of typical Federal Register documents.
4. An introduction to the finding aids of the FR/CFR system.

WHY: To provide the public with access to information necessary to research Federal agency regulations which directly affect them. There will be no discussion of specific agency regulations.

WASHINGTON, DC

WHEN: January 26, at 9:00 a.m.
WHERE: Office of the Federal Register,
First Floor Conference Room,
1100 L Street NW., Washington, DC
RESERVATIONS: 202–523–5240

LOS ANGELES, CA

WHEN: January 12, at 9:00 a.m.
WHERE: Room 8544,
Federal Building,
300 N. Los Angeles St.,
Los Angeles, CA
RESERVATIONS: Call the Federal Information Center.
Los Angeles 213–894–3800

The President

Memorandum of December 19, 1988

Renewal of Trade Agreement With the People's Republic of China—Finding and Determination Under Subsection 405(b)(1) of the Trade Act of 1974

Memorandum for the United States Trade Representative

Pursuant to Section 405 of the Trade Act of 1974 (19 U.S.C. 2435), I find that a satisfactory balance of concessions in trade and services has been maintained during the life of the Agreement on Trade Relations between the United States of America and the People's Republic of China. I further determine that actual or foreseeable reductions in United States tariffs and non-tariff barriers to trade resulting from multilateral negotiations have been satisfactorily reciprocated by the People's Republic of China.

This finding and determination shall be published in the **Federal Register.**

Rules and Regulations

Federal Register
Vol. 53, No. 245
Wednesday, December 21, 1988

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

OFFICE OF PERSONNEL MANAGEMENT

5 CFR Part 300

Government Use of Commercial Recruiting Firms and Nonprofit Employment Services

AGENCY: Office of Personnel Management.

ACTION: Final rule.

SUMMARY: The Office of Personnel Management (OPM) is issuing final regulations permitting agencies to use commercial recruiting firms and nonprofit employment services to locate candidates for Federal civil service positions. Candidates identified in this way must then be considered for Federal employment through regular civil service procedures, which include veterans preference where applicable. The effect of this regulation will be to give Federal agencies a recruiting flexibility used by the private sector.

EFFECTIVE DATE: January 23, 1989.

FOR FURTHER INFORMATION CONTACT: Ellen Russell, (202) 632–6817.

SUPPLEMENTARY INFORMATION: The regulations authorizing agency use of commercial recruiting firms and nonprofit employment services give agencies an additional recruiting tool and also set the conditions necessary to protect merit principles. OPM will closely monitor the new authority, and within three years of use, will evaluate it for further continuation.

Proposed regulations were published on August 23, 1988 (53 FR 32053). 14 Federal agencies, 3 unions and associations, 3 veterans groups, and 15 private sector firms and organizations, and a conference of State agencies submitted comments for which the key points are summarized below.

I. General

A union contended that OPM has no authority to issue these regulations. The legal authorities upon which the regulations are based are cited in this **Federal Register** issuance. The union also asserted OPM has no authority to delegate to agencies the authority to set contract requirements. OPM is not delegating such authority but is permitting agencies to use outside recruiting sources in a manner which assures the protection of merit principles.

An association commented that the regulations would permit an agency to contract with more than one commercial recruiting firm, thus significantly increasing recruitment costs. The association, along with a union, suggested that upgrading salary and benefit levels for shortage jobs might be a better recruitment strategy. The association, along with an organization representing executive search consultants, also suggested OPM develop guidelines to assure use of reputable firms and the best service for the fees paid. Each agency will weigh the costs and benefits of using the new authority, which is intended to supplement, not supplant, other efforts to foster a quality workforce. Agencies are required by the contracting process to examine the qualifications of prospective contractors.

A consultant suggested that recruiting firms receive fair compensation and immediate payment, invoiced weekly; a private sector firm suggested that the fees paid by Federal agencies be competitive with private industry. These are matters to be decided through the contracting process.

An agency asked that the regulations clarify the appeal rights of individuals found unqualified by the outside firm or service. Depending on the alleged prohibited action, appeal rights in various laws may apply. There is no need for these regulations to cover provisions already in law. Additionally, applicants have the opportunity to apply directly to the Government since agencies using outside firms must also continue their own recruiting efforts.

A union suggested Federal agencies would be liable if an applicant brought an EEO suit against the commercial recruiting firm. Since there are numerous statutes and judicial decisions defining and interpreting Federal equal employment opportunity law, any further delineation or definition in these regulations is unnecessary.

A union claimed that OPM had incorrectly stated that the proposal was not a major rule under Executive Order 12291 of February 17, 1981. We determined the regulations do not constitute a major rule because there will be no adverse effects on United States-based enterprises; there will not be a major increase in costs for individual industries or Federal agencies, and there will not be an annual effect on the economy of $100 million or more. Federal agencies are permitted to use commercial recruiting firms to provide candidates for vacancies only when the Government's own recruiting effort, including use of State Employment Service offices, has not been successful. Because of budgetary concerns, Federal agencies will generally be willing to pay placement fees only when key jobs are involved. Assuming an average placement fee of $20,000, Federal agencies would have to hire 5,000 candidates referred from commercial recruiting firms in order to reach the $100 million figure. However, in FY 87, there were approximately 1,600 new hires at grades GS–14 and above, the level at which agencies are likely to seek help. We conclude, therefore, that Federal agencies are unlikely to expend $100 million annually on the use of commercial recruiting firms to recruit candidates.

II. Section 300.401 Definitions

In response to an agency comment, we clarified that commerical firms and nonprofit employment services covered by this regulation provide candidates for specific vacancies rather than lists of names in broad categories, for example, graduates in certain academic disciplines. Another agency asked whether a contract was required to cover the kind of recruiting assistance agencies have traditionally received from nonprofit groups and organizations at no charge to the Federal agency or to the applicant. These regulations do not cover such arrangements, e.g., when an agency sends a vacancy announcement to a veterans organization which then publicizes the vacancy among its members.

We did not, as suggested by a private sector firm, distinguish between firms

operating on a retainer or a contingency fee basis. Individual agencies will decide which kind of firm best suits their needs.

In response to an agency suggestion, the final regulations indicate Federal agencies may contract for recruiting assistance with State and local governments.

III. Section 300.402 Coverage

A union questioned the appropriateness of using commerical firms to screen candidates for excepted civil service appointments which do not require impartial testing procedures. Nothing in current law or regulation prohibits Federal agencies from using commerical recruiting firms or nonprofit employment services for the excepted service. These new regulations set conditions which apply to the use of outside recruiting assistance for certain excepted appointments. Many excepted appointments are career-type for which agencies seek the best qualified candidates available. Agencies should, therefore, have the opportunity to use outside recruiting assistance under the terms of these regulations.

IV. Section 300.403 Use of Commercial Recruiting Firms and Nonprofit Employment Services

We have changed the title to this section to make clear that the provisions cover both commercial recruiting firms and nonprofit employment services.

A veterans group suggested that OPM approve each agency use of outside recruitment services. We believe this would be unduly restrictive, but the regulations set criteria for the use of such firms. The final regulations spell out more clearly when an agency may use a commerical recruiting firm and/or a nonprofit employment service. Use is permitted when the agency determines that:

—The firm or nonprofit service is likely to provide well-qualified candidates who would otherwise not be available, e.g., as an affirmative employment technique to locate minorities and/or women for consideration for positions in occupations where these groups are underrepresented, or

—Well-qualified candidates are in short supply, e.g., when a direct hire authority or a special salary rate is in effect for the position or the agency's own recruiting efforts (for the same or a similar position) have not located a sufficient number of well-qualified candidates.

The agency must also continue its own recruiting and, prior to using outside recruiting assistance, must provide a vacancy notice to the appropriate State Employment Service offices, as suggested by two veterans organizations, a Federal agency, and an organization representing State employment security agencies. We will provide any needed clarification on the posting requirement in the Federal Personnel Manual.

A union suggested that the use of commerical firms should be limited to instances where the firm is likely to provide candidates for a specific position who would otherwise not be available. The final regulations make clear agencies may use outside recruiting assistance to provide candidates for consideration for vacancies.

V. Section 300.404 Use of Fee-charging Firms

An agency and an association representing commerical recruiting firms suggested the regulations be revised to permit agencies to contract with firms who accept fees from applicants for private sector referrals so long as no fees are charged for referrals for Federal jobs. The final regulations do not prohibit an agency from contracting with firms which charge fees but require the firm to refer to Federal agencies only those candidates from whom no fees have been accepted. For example, if a firm charges fees to applicants for placement in private sector clerical jobs but does not charge applicant fees for executive placement, a Federal agency could contract with the firm for filling executive, but not clerical, positions. Federal agencies will have to determine that the practices and procedures of potential firms will assure compliance with this requirement. Firms which charge applicant fees should be carefully scrutinized to make sure an agency's use of such firms would not create the impression on the part of applicants or the public that fees had been charged for referral to Federal agencies.

Two private sector firms asked that we make clear that firms selling Federal job vacancy lists are not excluded by these regulations. Instructions in the Federal Personnel Manual will cover this point.

An agency suggested candidates selected for appointment (after referral by a commerical recruiting firm) be required to certify they did not pay fees prohibited by these regulations. We have not adopted this suggestion, but individual agencies may impose such a requirement at their discretion. We note that the Appointment Affidavits (Standard Form 61), Part C, contains the affidavit on purchase and sale of office that 5 U.S.C. 3332 requires officers to complete. (See Federal Personnel Manual Supplement 296–33, Subchapter 5.)

A union commented that the regulations should also prohibit the use of professionally sponsored nonprofit employment firms which charge member registration fees. For some time, Federal Personnel Manual policy has permitted agencies to use nonprofit employment services sponsored by professional organizations. These organizations typically charge a registration fee which covers a wide variety of services and which is assessed regardless of whether an individual is placed or even referred through the organization's employment service. Since there have been no problems with this arrangement to date, we see no reason why the new policy should not continue it.

VI. Section 300.405 Requirement for Contract

A union commented that the proposed regulations side-stepped the requirement in Office of Management and Budget (OMB) Circular A–76 for agencies to conduct a cost comparison before contracting out work to the private sector. That circular requires a cost comparison when the Government seeks to *replace* its employees with more cost-effective services from the private sector. There will be no replacing of Government employees under these part 300 regulations. Instead, the regulations authorize an agency—after determining the Government's own efforts have been unsuccessful—to *expand* its capability by seeking services from the private sector.

A union questioned the legality and ethics of an agency contract with a nonprofit employment service sponsored by a partisan political organization. The final regulations prohibit such an arrangement. Further, to assure adherence to the merit system principles (one of which requires treatment of applicants without regard to political affiliation), contracts under these regulations must contain a provision requiring recruiting firms and nonprofit employment services to recruit and refer applicants in accordance with applicable merit principles.

In response to an agency suggestion and a question on the use of blanket purchasing, this section now includes a reference to the Federal Acquisition Regulations (FAR). This means agencies may use contract types and procedures stipulated in the FAR to acquire contractor services.

We deleted the requirement that the contract contain a written request for the recruitment services (as required by 18 U.S.C. 211) and clarified in paragraph (a) of the section that the contract itself satisfies the written request for services.

An agency suggested § 300.405 unnecessarily required certain terms in the contract between the agency and the commerical recruiting firm. The agency correctly pointed out that contracts under these regulations are subject to the merit principles in Title 5 of the U.S. Code, laws and regulations on equal employment opportunity, and the general procurement laws and acquisition regulations. We have, therefore, included in the list of required contract provisions only those which specifically relate to the new authority.

Along similar lines, a private sector firm suggested the regulations refer to the use of certified minority business enterprises whenever possible. There is no need for these regulations to repeat procedures already in place under general contracting procedures.

Another private sector firm suggested the contract specify the time frame the Federal agency needs to evaluate the qualifications of applicants presented by the commercial recruiting firm. This is a matter to be determined in the contracting process.

Another private sector firm suggested this section clearly state that agencies may enter into a contract with a commercial recruiting firm for the filling of more than one position over a period of time. We believe the regulations, as written, give agencies the flexibility to contract for the filling of individual vacancies or several vacancies during a fixed period.

A private sector firm recommended a simplified contract for small business to use. The procurement laws and regulations already provide for streamlined competitive procedures under certain circumstances.

VII. Section 300.406 Agency Responsibilities

Two veterans groups observed that the regulations are silent on the obligation of recruiting firms to give preference to veterans. Since the application of veterans preference is part of the rating and appointment process rather than the recruitment process, commercial recruiting firms and nonprofit employment services have no role to play in this area; these entities merely refer to the Federal agency the names of potential candidates who meet the agency-set requirements. Once presented with the referrals, the Federal agency or the Office of Personnel Management will apply veterans preference when candidates are ranked for employment eligibility. Further, in response to comments from two veterans groups, we made clear that all appointments must provide for veterans preference, where applicable. Since individuals recruited by commercial firms or nonprofit employment agencies must be appointed through regular civil service procedures (see § 300.406(a), there regulations do not conflict with statutory appointing requirements, as suggested by a veterans group.

An agency asked how OPM intended agencies to carry out the responsibility under this section to publicize the fact that applicants may apply directly to the Government and need not apply through a commercial recruiting firm or a nonprofit employment service. An agency's continued recruiting efforts required under § 300.403(c) will satisfy this requirement.

A union and an organization representing executive search consultants commented that the proposed regulations did not address whether recruiting firms or nonprofit employment services were permitted to conduct initial testing or interviews or whether they were limited to basic prescreening functions. Outside firms and services are not authorized to perform functions which are inherently Governmental in nature and, therefore, may determine only whether the candidate appears to meet the basic qualifications requirements set out in the contract. The ultimate decision on an individual's qualifications will be made by OPM or the agency (under delegated authority) in accordance with all applicable requirements and procedures. Further clarification on what functions can be contracted will be provided in the Federal Personnel Manual.

The union also suggested that paragraph (b)(2) of this section should be reworded to state that no advantage or preferential treatment will be given to candidates referred from a commercial recruiting firm or nonprofit employment service. The regulation as written requires the same treatment for candidates referred from various sources. Any further clarification needed will be made through the Federal Personnel Manual.

A private sector firm suggested selection officials be prohibited from knowing which candidates had applied through regular procedures and which had been referred by a commercial firm. We do not believe this is a matter for OPM regulation.

VII. Section 300.407 Documentation

A union and an agency recommended this section include detailed information on the content or reports agencies must submit to OPM. We believe the Federal Personnel Manual is the appropriate place in which to include the content of these reports.

VIII. Section 300.308 Corrective Action

In response to an agency comment, we modified § 300.407(c) of the proposal—and set it out as a new section § 300.408—to make clear that corrective action taken by OPM would be against an agency, not a contractor. Any corrective action against a contractor would be taken by the agency involved under the terms of the contract.

We did not adopt a suggestion from a veterans group to make mandatory the ordering of corrective action by OPM because the decision whether to order corrective action, as well as the nature of the action, will depend on the circumstances involved in each case.

Executive Order 12291, Federal Regulation

I have determined that this is not a major rule as defined under Section 1(b) of E.O. 12291, Federal Regulation.

Regulatory Flexibility Act

I certify that these regulations will not have a significant economic impact on a substantial number of small entities because the authority will be used under limited circumstances, e.g., when a Federal agency has been unable to fill a position through Government recruiting procedures.

List of Subjects in 5 CFR Part 300

Administrative practice and procedures, Government employees.

U.S. Office of Personnel Management.

Constance Horner,

Director.

Accordingly, OPM is amending 5 CFR Part 300 as follows:

PART 300—EMPLOYMENT (GENERAL)

1. The authority citation for Part 300 is revised as set forth below.

Authority: 5 U.S.C. secs. 552, 3301, 3302; E.O. 10577, 3 CFR 1954–1958 Comp., page 218.

Secs. 300.101 through 300.104 also issued under 5 U.S.C. secs. 7201, 7204; E.O. 11478, 3 CFR 1966–1970 Comp., page 803. § 300.104 also issued under 5 U.S.C. 7701 *et seq.*

Section 300.301 also issued under 5 U.S.C. 3324.

Sections 300.401 through 300.408 also issued under 5 U.S.C. secs. 1302(c), 2301, and 2302.

Section 300.603 also issued under 5 U.S.C. 1104.

2. Subpart D is added to read as follows:

Subpart D—Use of Commercial Recruiting Firms and Nonprofit Employment Services

Sec.

300.401 Definitions.
300.402 Coverage.
300.403 When commercial recruiting firms and nonprofit employment services may be used.
300.404 Use of fee-charging firms.
300.405 Requirement for contract.
300.406 Agency responsibilities.
300.407 Documentation.
300.408 Corrective action.

Subpart D—Use of Commercial Recruiting Firms and Nonprofit Employment Services

§ 300.401 Definitions.

For purposes of this subpart:

(a) A "commercial recruiting firm" is a profit-making entity which, by contract, supplies individual candidates for consideration for specific Federal vacancies, in accordance with the requirements set by the Federal agency.

(b) A "nonprofit employment service" is one legally established as nonprofit under State law. It may be operated, for example, by professional societies, organizations of college graduates, social agencies, or a State or local government. Federal agencies may not, however, use a nonprofit employment service sponsored by a partisan political organization. By contract, a nonprofit employment service supplies individual candidates for consideration for specific Federal vacancies, in accordance with the requirements set by the Federal agency.

§ 300.402 Coverage.

These regulations apply to filling positions in the competitive service; positions in the excepted service under Schedules A, B, and C, or filled by noncareer executive assignment; and positions in the Senior Executive Service.

§ 300.403 When commercial recruiting firms and nonprofit employment services may be used.

An agency may use a commercial recruiting firm and/or a nonprofit employment service in recruiting for vacancies when:

(a) The agency head or designee determines that such use is likely to provide well-qualified candidates who would otherwise not be available or that well-qualified candidates are in short supply;

(b) The agency has provided vacancy notices to appropriate State Employment Service and OPM offices; and

(c) The agency continues its own recruiting efforts.

§ 300.404 Use of fee-charging firms.

(a) Federal agencies are prohibited from using commercial recruiting firms and nonprofit employment services which charge fees to individuals referred to Federal positions. Federal agencies may not consider a candidate referred by a commercial recruiting firm or nonprofit employment service if the individual has paid or is expected to pay any fee to the firm or service.

(b) The prohibition in paragraph (a) of this section does not apply to registration fees paid by individuals to nonprofit employment services operated by professional organizations when the registration fee is imposed regardless of whether the registrant is referred for employment or placed.

§ 300.405 Requirement for contract.

(a) A written contract awarded in accordance with procedures stipulated in the Federal Acquisition Regulations is required between the Federal agency and a commercial recruiting firm or nonprofit employment service. The contract will satisfy the "written request" required by 18 U.S.C. 211. That statute prohibits the acceptance of payment for aiding an individual to obtain Federal employment *except* when an employment agency renders services pursuant to the written request of an executive department or agency.

(b) The contract must include the qualifications requirements for the position(s) to be filled and also provide that the firm or service will:

(1) Screen candidates only against the basic qualifications requirements for the position(s) specified by the Federal agency in the contract and refer to the agency all candidates who appear to meet those requirements;

(2) Refer to the Federal agency only those applicants from whom the firm or service has not accepted fees other than those permitted under § 300.404(b) of this part;

(3) Not imply that it is the sole or primary avenue for employment with the Federal Government or a specific Federal agency; and

(4) Recruit and refer candidates in accordance with applicable merit principles and equal opportunity laws.

§ 300.406 Agency responsibilities.

(a) The purpose of a commercial recruiting firm or nonprofit employment service is to serve as an additional source of applicants. Once recruited, applicants must be evaluated and appointed through regular civil service employment procedures.

(1) For a competitive service position, an individual must be appointed in accordance with the terms of applicable competitive service procedures.

(2) For an excepted service position, an individual must be appointed in accordance with the terms of the applicable appointing authority and the requirements set out in Part 302 of this chapter.

(3) For a Senior Executive Service position filled by career appointment, an individual must be appointed in accordance with the competitive process described in 5 U.S.C. 3393.

(b) In order to use commercial recruiting firms or nonprofit employment services, agencies are required to:

(1) Make known that applicants may apply directly to the Government and thus need not apply through the commercial recruiting firm or nonprofit employment service;

(2) Give the same consideration to candidates who have applied directly and candidates referred from the commercial recruiting firm or nonprofit employment service; and

(3) Follow all requirements for appointment, including veterans preference, where applicable.

§ 300.407 Documentation.

(a) Agencies are required to maintain records necessary to determine that using commercial recruiting firms or nonprofit employment services is cost effective and has not resulted in the violation of merit system principles or the commission of any prohibited personnel practice.

(b) In order for OPM to evaluate the authority granted under this subpart, agencies must submit reports in accordance with its instructions. Reports will be required on at least an annual basis and, as a minimum, will provide information on the kinds of jobs for which recruiting firms were used, the costs to the agency, and the results in terms of candidates referred and selected. Reports will also provide comparative data to show the effect of using a recruiting firm on the agency's ability to locate well-qualified candidates. Specific reporting instructions will be provided through the Federal Personnel Manual.

§ 300.408 Corrective action.

Upon evidence of failure to comply with these regulations, OPM may, pursuant to its authority, order the agency to take appropriate corrective action.

[FR Doc. 88-29241 Filed 12-20-88; 8:45 am]
BILLING CODE 6325-01-M

FEDERAL RETIREMENT THRIFT INVESTMENT BOARD

5 CFR Part 1633

Standards of Conduct

AGENCY: Federal Retirement Thrift Investment Board.

ACTION: Final rule.

SUMMARY: The Executive Director of the Federal Retirement Thrift Investment Board (the Board) is publishing in Part 1633 final regulations governing employee responsibilities and conduct. These regulations are being issued pursuant to Executive Order 11222 of May 8, 1965, as amended, and the Ethics in Government Act of 1978, as amended.

EFFECTIVE DATE: Final rule effective December 21, 1988.

FOR FURTHER INFORMATION CONTACT: John J. O'Meara, (202) 523-6367, Federal Retirement Thrift Investment Board, 805 Fifteenth Street, NW., Washington, DC 20005.

SUPPLEMENTARY INFORMATION: The Federal Retirement Thrift Investment Board was established by Pub. L. No. 99-335 (June 6, 1986), the Federal Employees' Retirement System Act of 1986 (codified principally at 5 U.S.C. 8401-8479), as amended by Pub. L. 99-509, the Omnibus Budget Reconciliation Act of 1986; Pub. L. 99-556, the Federal Employees' Retirement System Technical Corrections Act of 1986; Pub. L. 100-20, 100-43 and 100-202; and Pub. L. 100-238, the Federal Employees' Retirement System Technical Corrections Act of 1988, to administer the Thrift Savings Plan for Federal employees. Regulations of the Board are contained in Title 5, CFR, Chapter VI, Parts 1600-1699. The Board's regulations published in Subparts A and B of this Part 1633 govern the standards of honesty, integrity, impartiality, and conduct of government employees and special government employees who are employed by the Board. Subpart C covers Board Members.

Regulatory Flexibility Act

I certify that these regulations will not have a significant economic impact on a substantial number of small entities. They will affect only persons who work for the Board as government employees, special government employees, and as Board Members.

Paperwork Reduction Act

I certify that these regulations do not require additional reporting under the criteria of the Paperwork Reduction Act of 1980.

Waiver of Notice of Proposed Rulemaking and 30-Day Delay of Effective Date

Under 5 U.S.C. 553 (b)(B) and (d)(3), I find that good cause exists for waiving the general notice of proposed rulemaking and for making these regulations effective in less than 30 days. The Board, as a new agency, has begun operations and it is necessary for these standards of conduct to be in place for the direction and guidance of its personnel.

List of Subjects in 5 CFR Part 1633

Conflicts of interest, Ethical conduct, Financial disclosure, Government employees, Political activities.

Federal Retirement Thrift Investment Board.

Francis X. Cavanaugh,

Executive Director.

Title 5 of the Code of Federal Regulations is amended to add Part 1633 to Chapter VI to read as follows:

PART 1633—STANDARDS OF CONDUCT

Subpart A—Regular Employees

General Provisions

Sec.

1633.1 Purpose.
1633.2 Scope.
1633.3 Policy.
1633.4 Definitions.
1633.5 Assignment of responsibilities.
1633.6 Executive Director.
1633.7 The General Counsel.
1633.8 The Ethics Officer.
1633.9 Supervisor.
1633.10 Employees.

Conflicts of Interest

1633.20 General.
1633.21 Summary of provisions of criminal code.

Rules of Conduct

1633.30 Proscribed actions.
1633.31 Political activity.
1633.32 Gifts or gratuities from Government employees.
1633.33 Gifts or gratuities from outside sources.
1633.34 Gifts or gratuities from foreign governments.
1633.35 Outside financial interests.
1633.36 Using official designation.
1633.37 Outside employment and other outside activities.
1633.38 Teaching, writing, lecturing, and speechmaking.
1633.39 Gambling, betting, and lotteries.
1633.40 Use of intoxicants.
1633.41 Indebtedness.
1633.42 Lending or borrowing money.
1633.43 Use of Federal property.
1633.44 Care of documents.
1633.45 Use of Government cars.
1633.46 Disclosure of information to the public.
1633.47 Personal communications.
1633.48 Soliciting, selling, and canvassing.
1633.49 Influencing legislation or petitioning Congress.
1633.50 Civil Service examination processes.
1633.51 Falsification of official records.
1633.52 Miscellaneous statutory provisions.
1633.53 General conduct prejudicial to the Government.
1633.54 Insurrection.
1633.55 Strikes.
1633.56 Purchase of Government property.

Statements of Employment and Financial Interests

1633.70 Employees required to submit confidential statements.
1633.71 Employee's complaint on filing requirement.
1633.72 Exceptions.
1633.73 Form and content of statements.
1633.74 Time and place for submission of employees' statements.
1633.75 Supplementary statements.
1633.76 Interests of employees' relatives.
1633.77 Information not known by employees.
1633.78 Information excluded.
1633.79 Review of statements.
1633.80 Confidentiality of employees' statements.
1633.81 Employees required to submit public statements.
1633.82 Effect of employees' statements on other requirements.
1633.83 Advisory service.

Subpart B—Preventing Conflicts of Interest on the Part of Special Government Employees of the Board

General Provisions

1633.200 Purpose.
1633.201 Scope.
1633.202 Policy.

General Rules of Conduct Applicable to Special Government Employees

1633.203 Applicability of Subpart A of this Part.
1633.204 Use of Government employment.
1633.205 Use of inside information.
1633.206 Teaching, lecturing, and writing.
1633.207 Coercion.
1633.208 Gifts, entertainment, and favors.
1633.209 Miscellaneous statutory provisions.

Conflict of Interest Statutes

1633.210 Applicability of 18 U.S.C. 203 and 205.

Sec.
1633.211 Applicability of 18 U.S.C. 207.
1633.212 Applicability of 18 U.S.C. 208.

Consultants and Advisers

1633.220 Advice on rules of conduct and conflict of interest statutes.
1633.221 Responsibility of the individual special Government employee.

Procedures To Be Followed Within the Board

1633.230 Information and assistance to special Government employees and their supervisors.
1633.231 Disclosure of financial interests.
1633.232 Service with other Federal agencies.
1633.233 Resolution of cases involving a conflict or apparent conflict of interest.
1633.234 Disciplinary and other remedial action.
1633.235 Legal interpretation.
1633.236 Safeguard of information.

Subpart C—Members of the Federal Retirement Thrift Investment Board

1633.250 Purpose.

Standards of Conduct

1633.251 General.
1633.252 Conflicts of interest—financial.
1633.253 Conflicts of interest—employment.
1633.254 Conflicts of interest—gifts, entertainment, and favors.

Ethical Conduct Advisory Services and Post-Employment Activities

1633.255 Advisory service.
1633.256 Post-employment activities.

Statement of Employment and Financial Interests

1633.257 Financial disclosure.

Authority: 5 U.S.C. 8474; 5 U.S.C. App. 4.

Subpart A—Regular Employees

General Provisions

§ 1633.1 Purpose.

This part describes the standards of conduct required of all employees, special employees, and Board Members of the Federal Retirement Thrift Investment Board. The regulations in this Part implement Office of Personnel Management regulations at 5 CFR Parts 735 and 737. The standards of conduct in this part are not to be considered all-inclusive and may be supplemented to meet specific needs. The absence of a specific published standard of conduct covering an act tending to discredit an employee or the Board does not mean that such an act is condoned, is permissible, or would not call for and result in corrective or disciplinary action.

§ 1633.2 Scope.

This part covers three general types of employment situations as follows:

(a) Subpart A of this Part sets the general policy and defines rules of conduct and procedures for all regular employees excluding Board Members.

(b) Subpart B of this Part applies to special Government employees, primarily advisers and consultants, excluding Board Members.

(c) Subpart C of this Part applies to Board Members.

§ 1633.3 Policy.

(a) Executive Order 11222 of May 8, 1965, 18 U.S.C. 201 note, states the basic philosophy of conduct for those who carry out the public business:

> Where government is based on the consent of the governed, every citizen is entitled to have complete confidence in the integrity of his government. Each individual officer, employee, or adviser of Government must help to earn and must honor that trust by his own integrity and conduct in all official actions.

(b) Personnel of the Federal Retirement Thrift Investment Board are expected to adhere to the above stated principles and to standards of behavior that will reflect credit on the Government. The Board's position is that of having confidence in its employees and of taking a positive and reasonable approach to the matter of maintaining the high standards of conduct necessary in the transaction of Board activities. A violation of the laws or the rules or regulations on conduct in this Part may subject the employee to discipline, or advice regarding other remedial action, in accordance with the gravity of the violation.

(c) Disciplinary action may be in addition to any penalty prescribed by law. Such action may be taken only after consideration of any explanation offered by the employee.

(d)(1) In addition to disciplinary action, remedial action may include, but is not limited to:

(a) Recusal,

(b) Divestiture, resignation, or reassignment,

(c) A Qualified Trust established in consultation with the Office of Government Ethics, pursuant to Subpart D of 5 CFR Part 734.

(2) An employee may avoid a violation of 18 U.S.C. 208(a) if he or she receives a waiver pursuant to 18 U.S.C 208(b).

(e) Remedial action, whether disciplinary or otherwise, shall be effected in accordance with any applicable laws, Executive Orders, and regulations.

§ 1633.4 Definitions.

In this part:

(a) "Board" means the Federal Retirement Thrift Investment Board.

(b) "Executive Director" means the Executive Director of the Federal Retirement Thrift Investment Board, as defined in 5 U.S.C. 8401(13) and as further described in 5 U.S.C. 8474.

(c) "Regular employee" or "employee" means an employee of the Board, but does not include a special Government employee or Board Member.

(d) "Special Government employee" means an employee of the Board who is retained, designated, appointed, or employed to perform, with or without compensation, temporary duties either on a full-time or intermittent basis, for not more than 130 days during any period of 365 consecutive days.

(e) "Person" means an individual, a corporation, a company, an association, a firm, a partnership, a society, a joint stock company, or any other organization or institution.

§ 1633.5 Assignment of responsibilities.

The assignment of responsibilities to carry out the provisions of this Part is described below in §§ 1633.6 to 1633.10 of this Part.

§ 1633.6 Executive Director.

The Executive Director's responsibilities are to (a) issue policy and basic standards of conduct applicable to all Board employees, (b) periodically review the basic standards and initially and periodically review those additional standards issued by the Board, (c) set requirements to ensure that supervisors and employees are aware of the standards of conduct, of their responsibilities in maintaining and adhering to those standards, and of the fact that disciplinary action will be taken in cases of failure to maintain or adhere to them; and (d) establish procedures for furnishing advice to employees on the application of standards of conduct.

§ 1633.7 The General Counsel.

The General Counsel has general oversight responsibility for the administration of the standards of conduct program of the Board.

§ 1633.8 The Ethics Officer.

The Board's Ethics Officer has responsibility for the day to day operation of the standards of conduct program of the Board and is the "designated agency ethics official" under Part 734 of title 5 of the Code of Federal Regulations. The Board's Ethics Officer is the Assistant General Counsel for Administration. The Deputy Ethics Officer shall assist the Board's Ethics Officer and shall act in the latter's absence.

§ 1633.9 Supervisor.

It is the responsibility of each supervisor to:

(a) Know and adhere to the standards of conduct,

(b) Ensure that the employees under his or her supervision know and adhere to the standards of conduct,

(c) Assist employees under his or her supervision, when necessary, to obtain advice on the application of the standards of conduct; and

(d) Take or recommend disciplinary action when appropriate in cases where the employees under his or her supervision violate the standards or the principles upon which they are based.

§ 1633.10 Employees.

Each employee of the Board is required to:

(a) Know the standards of conduct and their application in his or her case,

(b) Seek information from his or her supervisor in case of doubt or misunderstanding on the application of the standards of conduct,

(c) Adhere to the standards of conduct, and

(d) Be aware of the consequences of violation of the laws, rules and regulations regarding conduct.

Conflicts of Interest

§ 1633.20 General.

The elimination of conflicts of interest in the Federal service is one of the most important objectives in establishing general standards of conduct. A conflict of interest situation may be defined as one in which a Federal employee's private interest, usually of an economic nature, conflicts or raises a reasonable question of conflict with his public duties and responsibilities. The potential conflict is of concern whether it is actual or only apparent. The rules of the Board concerning conflicts of interest appear in §§ 1633.33–1633.38.

§ 1633.21 Summary of provisions of criminal code.

The following is a brief summary of the provisions of the criminal conflict of interest statutes at Title 18 of the United States Code that define the conflicts of interest subject to fines and imprisonment. It should be noted that in some situations, different restrictions may apply to special Government employees than to regular employees, as discussed in more detail in Subpart B of this Part.

(a) 18 U.S.C. 203. Section 203 prohibits an employee from receiving, agreeing to receive, or asking for (directly or indirectly) any compensation for services, otherwise than as provided by law for the proper discharge of official duties, rendered by the employee or another in relation to any matter in which the United States is a party or has a direct and substantial interest before any department or agency.

(b) 18 U.S.C. 205. Section 205 prohibits an employee from (1) acting as an agent or attorney in prosecuting any claim against the United States or receiving any share of or interest in such claim for assistance in its prosecution, or (2) acting as agent or attorney for anyone before any department or agency in connection with any particular matter in which the United States is a party or has a direct and substantial interest. Sections 203 and 205 do not prohibit a regular Government employee from acting with official approval and with or without compensation as agent or attorney for his parents, spouse, or child, or for any estate for which he is serving as guardian or other fiduciary, with certain exceptions set forth in that section. Section 205 does not prevent an employee, if not inconsistent with the faithful performance of his duties, from acting without compensation as agent or attorney for any person who is the subject of disciplinary, loyalty, or other personnel administration proceeding in connection with such proceeding.

(c) 18 U.S.C. 207(a). Section 207(a) prohibits a former employee, after his employment has ceased, from knowingly acting as agent or attorney for anyone other than the United States in connection with any particular matter involving a specific party or parties in which the United States has a direct and substantial interest and in which he participated personally and substantially as an employee for the lifetime of this matter.

(d) 18 U.S.C. 207(b). Section 207(b)(i) prohibits any such former Government employee within two years after the termination of his employment or the termination of his responsibility in a particular area (if the two events do not occur simultaneously) from appearing personally before any court, department, or agency as agent or attorney for anyone other than the United States in connection with any particular matter involving a specific party or parties in which the United States is a party directly and substantially interested and which was under his official responsibility within 1 year prior to the termination of such responsibility. Section 207(b)(ii) prevents a former employee who occupied a position designated as a Senior Employee (a position which involves significant decisionmaking or supervisory responsibility) for a period of two years after his or her employment has ceased from appearing personally on behalf of another person before a court, department or agency of the United States or the District of Columbia in any matter that was pending under his official responsibility within a one year period prior to the termination of such responsibility or as to which he or she participated personally and substantially as an officer or employee. Section 207(c) prevents a former employee, who served more than sixty days in a given calendar year, and who occupied a position designated as a Senior Employee within one year after such employment has ceased, from acting as agent or attorney for anyone in any appearance or in any written communication before the agency in which he served as an officer or employee in connection with any proceeding pending before such agency. It should be noted that a consultant or adviser usually does not have "official responsibility."

(e) 18 U.S.C. 208. Section 208 prohibits any employee from participating personally and substantially as a Government employee through decision, approval, disapproval, recommendation, the rendering of advice, investigation, or otherwise, in a judicial proceeding, application, request for a ruling or other determination, contract, claim, controversy, charge, accusation, arrest, or other particular matter, including general rulemaking, in which, to his knowledge, he, his spouse, minor child, partner, or organization in which he is serving as officer, director, trustee, partner or employee or any person or organization with whom he is negotiating or has any arrangement concerning prospective employment or has a financial interest. An employee may be exonerated from the provisions of this section if he makes full disclosure of the financial interest to the official responsible for his appointment and receives in advance a written determination by that official that the interest is not so substantial as to be likely to affect the integrity of his service.

(f) 18 U.S.C. 209. Section 209 prohibits any employee from receiving any salary or any contribution to or supplementation of his salary as compensation for his services as an employee from any source other than the Government. This section does not apply to a special Government employee, and does not prevent participation in any bona fide pension, retirement, profit sharing, or other welfare or benefit plan maintained by a former employer. This section also does not prohibit payment or acceptance of certain contributions, awards, or

expenses in connection with Government employee training programs or attendance at meetings authorized under 5 U.S.C. 4111.

Rules of Conduct

§ 1633.30 Proscribed actions.

An employee shall avoid any action, whether or not specifically prohibited by this Part, which might result in, or create the appearance of:

(a) Using public office for private gain,

(b) Giving preferential treatment to any person,

(c) Impeding Government efficiency or economy,

(d) Losing complete independence or impartiality,

(e) Making a Government decision outside official channels, or

(f) Affecting adversely the confidence of the public in the integrity of the Government.

§ 1633.31 Political activity.

Employees have the right to vote as they may choose and to express their opinions on all political subjects and candidates, but are forbidden to take active part in political management or campaigns (Hatch Act, 5 U.S.C. 7324). Political activity in some local elections is permissible; but before employees engage in such activity, they should familiarize themselves with statutory provisions and the Office of Personnel Management's regulations on this subject (5 U.S.C. 7324–7327 and 5 CFR Part 733). It is unlawful for employees to solicit, receive, or to be concerned with political assessments, subscriptions, or contributions for any political purpose whatever from other employees. (18 U.S.C. 602, 603, 606, 607.) Employees may make voluntary contributions to a regularly constituted political organization for its general expenditures subject to the limitations set forth in 18 U.S.C. 608.

§ 1633.32 Gifts or gratuities from Government employees.

Employees of the Federal Government are prohibited from soliciting contributions from other employees or from making a donation for gifts or presents to persons in superior official positions. Neither may such superiors receive any gift or present offered to them from employees in the Government receiving less salary then themselves (5 U.S.C. 7351). A voluntary gift of nominal value or a donation in a nominal amount may be made for gifts upon retirement or resignation or for expressing condolences in cases of illness or death. Solicitations for such gifts should be limited to employees in the immediate office of the employee concerned and a few close associates with whom he or she has worked. Gifts to recipients should not be in cash, except that small amounts (e.g. under $10) remaining after the purchase of a gift may be included with the gift. Within the foregoing limitations, a cash gift may be made to an employee, with the approval of his/her supervisor, to assist in a catastrophic illness or disaster, provided that these voluntary gifts are limited to co-workers of approximately equal status to the recipient employee, and to his immediate supervisors.

§ 1633.33 Gifts or gratuities from outside sources.

(a) Except as provided in paragraphs (b) and (c) of this section, an employee shall not solicit or accept, directly or indirectly, any gift, gratuity, favor, entertainment, loan, or any other thing of monetary value from a person who:

(1) Has, or is seeking to obtain, contractual or other business or financial relations with the Board;

(2) Conducts operations or activities that are regulated by the Board; or

(3) Has interests that may be substantially affected by the performance or non-performance of the employee's official duty.

(b) General exceptions to the rule in paragraph (a) of this section are as follows unless otherwise precluded by the Board:

(1) Acceptance of gifts, entertainment, and food is acceptable when the circumstances make it clear that obvious family or personal relationships (such as those between the parents, children or spouse of the employee and the employee) rather than the business of the person concerned are the motivating factors.

(2) Acceptance of food and refreshments of nominal value on infrequent occasions is permitted when such action occurs in the ordinary course of a luncheon or dinner meeting or other meeting or on an inspection tour when an employee may properly be in attendance.

(3) Acceptance of food and refreshments at widely-attended functions is permitted to the extent that:

(i) It is in the Board's interest that the employee attend the event;

(ii) Consideration is given to the timing of the event, the reason for the event, and the individual or entity sponsoring the event in order to ensure that attendance will not create an appearance of impropriety;

(iii) The event is a widely-attended gathering of mutual interest to the government and private sector such as a reception, seminar, conference or training session;

(iv) The food and refreshments offered in conjunction with this event are not excessive;

(v) Approval to attend the event is obtained from the Executive Director (or his designee) after consultation with the Board's Ethics Officer.

(4) Employees may accept loans from banks or other financial institutions on customary terms to finance proper and usual activities of employees, such as home mortgage loans, except where prohibited by law.

(5) Employees may accept unsolicited advertising or promotional material, such as pens, pencils, note pads, calendars, and other items of nominal intrinsic value.

(c) The receipt of payment or reimbursement, by outside sources, for the expenses of travel and subsistence for activities related to Government employment is permited only in accordance with § 1633.38(c) (2) and (3) of this Part.

§ 1633.34 Gifts or gratuities from foreign governments.

The Constitution prohibits employees from accepting from foreign governments, except with the consent of the Congress, presents, emoluments, offices, or titles. The Congress has given its consent in 5 U.S.C. 7342 to the acceptance of certain specified gifts and decorations.

§ 1633.35 Outside financial interests.

An employee shall not participate on a private basis, directly or indirectly, in any financial transaction as a result of, or primarily relying on, confidential information obtained through his employment with the Board. An employee shall not have a direct or indirect financial interest that conflicts substantially, or appears to conflict substantially, with his Government duties and responsibilities.

§ 1633.36 Using official designation.

Employees shall not permit their official position, status, or designation to be used in a manner that is intended to further, or gives the appearance of furthering, the private business interests of the user or any other private interest. See also § 1633.30(a).

§ 1633.37 Outside employment and other outside activities.

(a) No employee shall engage in any outside employment or other outside activity, with or without compensation, which would be incompatible with Government employment because it (a) would impair the employee's mental or physical capacity and thereby interfere with his or her efficient performance of

Government duties, (b) might bring discredit on or cause unfavorable and justifiable criticism of the Government, or (c) might otherwise result in a conflict of interest, or an appearance of conflict of interest, with official duties and responsibilities; nor may an employee accept a fee, compensation or a gift or any other thing of monetary value in circumstances in which acceptance might result in, or create the appearance of, a conflict of interest. Before engaging in outside employment or in an outside activity, employees shall submit a written request for approval, through any intermediate supervisors, to the appropriate Office Director or, in the case of persons assigned to the General Counsel's Office, to the General Counsel. The written request shall identify the organization, duties, hours of work, and remuneration pertaining to the outside employment or activity. Other restrictions on misuse of Government property, Government title, and official information are found at §§ 1633.36, 1633.43, and 1633.46.

(b) Employees shall not solicit financial aid from or sell tickets to persons outside the Federal Government for the benefit of any organization or association comprised of Board employees. No publication of any such organization shall contain any commercial advertising, and the costs of such publications must be wholly paid by the organization or association. Employee organizations and associations may, however, accept financial aid for convention purposes from boards of trade, chambers of commerce, convention bureaus, and other such organizations which hold conventions.

§ 1633.38 Teaching, writing, lecturing, and speechmaking.

(a) Employees may teach, write, lecture, or deliver speeches providing such action is not prohibited by law, Executive Order 11222, 5 CFR Part 735, or the regulations in this Part. The requirements prescribed in § 1633.37 of this Part also apply to engagements to teach, write, lecture, or deliver speeches; however, see paragraph (c)(1) below. An employee shall not, either with or without compensation, engage in teaching, writing, lecturing, or speechmaking (including teaching, writing, lecturing, or speechmaking, for the purpose of the special preparation of a person or class of persons for an examination of the Office of Personnel Management or Board of Examiners for the Foreign Service) that depends on information obtained as a result of Government employment, except when the information has been made available on request, or when the Ethics Officer gives written authorization for use of nonpublic information on the basis that the use is in the public interest.

(b) A formal speech, a lecture, or an article relating to Board business shall, prior to its release to the public, be submitted to the Executive Director (or to the person designated by the Executive Director).

(c)(1) Determinations by the Executive Director. If the subject matter of any teaching, writing, lecturing, or speechmaking activity is devoted specifically to the responsibilities, programs, or activities of the Board or draws upon official data or ideas which have not been made public, the Executive Director (or designee), after the requestor consults with the Ethics Officer, will determine whether the activity may be undertaken, and if so, whether as official duty or in a private capacity. In determining whether the activity is an official duty or private undertaking, the Executive Director will consider, among other factors, whether the activity will be performed during official hours, whether Government time or facilities will be utilized, whether the official title of the employee will be used, whether the employee will be perceived as conveying agency policy, and whether the activity would justify the expenditure of public funds.

(2) Activities undertaken as an official duty. If the activity is undertaken as an official duty, all expenses will be borne by the Board and the employee may not accept any honorarium or other compensation or permit payment of his or her expenses. However, under 5 U.S.C. 4111 and 5 CFR 410.701–410.706, an employee on official duty may accept reimbursement for actual travel and reasonable lodging and subsistence expenses from organizations determined by the Secretary of the Treasury to be tax exempt, as described in 26 U.S.C. 501(c)(3), if no Government payment or reimbursement is made for the expense, and the acceptance of the payment is consistent with the Board policy of eliminating any conflict of interest or appearance of a conflict of interest with his or her official duties and responsibilities.

(3) Activities undertaken in a private capacity. (i) The Board discourages employees from receiving honoraria or other compensation for teaching, writing, lecturing, or speechmaking on matters relating to Board business, even though the activity is not performed as an official duty. An employee may not receive any such compensation unless, before engaging in the activity, a written request is submitted to and approved by the Executive Director (or designee), after the requestor consults with the Ethics Officer. The request should set forth the facts relating to the amount of compensation, its reasonableness (taking into account the amount of compensation paid to others under similar circumstances), and reasons why its acceptance would be consistent with the Board's policy to eliminate any conflict of interest or appearance of a conflict of interest with the employee's official duties and responsibilities.

(ii) Pursuant to paragraph (3)(i) above, employees may accept payment for travel, lodging, and subsistence expenses actually incurred from the person or group sponsoring an activity which was determined not to be an official duty, if the payment is reasonable in amount and is otherwise consistent with the Board's policy to eliminate any conflict of interest or appearance of a conflict of interest with the official duties and responsibilities of the employee.

(4) Reporting requirements. All employees receiving compensation or reimbursement for expenses for teaching, writing, lecturing, or speechmaking devoted to the responsibilities, programs of activities of the Board or drawing upon official data or ideas which have not been made public, shall immediately submit a written report to the Executive Director stating the amounts paid and by whom, unless this information was previously provided to that official. In addition, the employee may be required by the Executive Director to furnish other relevant information concerning these payments.

(5) Other restrictions. (i) Under 46 Comp. Gen. 689 (1967), no reimbursement or donation may be made to the Board to cover the expenses of travel and subsistence of an employee on official business, unless specifically authorized by law.

(ii) Under 2 U.S.C. 441i, appointed officials are prohibited from receiving honorariums of more than $2,000 for any appearance, speech, or article, and from receiving honorariums aggregating more than $25,000 in any calendar year.

(e) Board employees are prohibited from official attendance at segregated meetings. They should not participate in conferences or speak before audiences where any racial group has been segregated or excluded from the meeting, any of the facilities, the conferences, or from membership in the group.

§ 1633.39 Gambling, betting and lotteries.

While on Government-owned or leased property or while on duty for the Government, an employee shall not participate in any form of gambling, betting, lotteries, or the sending of chain letters, even if such activities are in support of a worthy cause.

§ 1633.40 Use of intoxicants.

Employees must refrain from using intoxicants habitually to excess or in any way which adversely affects their work performance (5 U.S.C. 7352).

§ 1633.41 Indebtedness.

An employee shall pay each just financial obligation in a proper and timely manner, especially one imposed by law such as Federal, State, or local taxes. A "just financial obligation," as used in this section, means one acknowledged by the employee; reduced to judgment by a court; or, in the case of taxes, a final administrative determination confirmed by notice of a tax lien issued by a governmental agency, Federal, State, or local. "In a proper and timely manner," as used in this section, means in a manner which the Board determines does not under the circumstances, reflect adversely on the Board as his employer. In the event of dispute between an employeee and an alleged creditor, this section does not require the Board to determine the validity or amount of the disputed debt.

§ 1633.42 Lending or borrowing money.

Employees shall neither directly nor indirectly, lend to or borrow from other employees substantial sums of money. In negotiating loans from authorized sources, such as credit unions, welfare associations, commercial or private banking institutions, etc., if the transaction involves the signature of one or more endorsers or comakers, the borrower must not in any instance solicit, or permit to be affixed to any instrument as endorser or comaker, the signature of any Board employee who is under his or her supervision.

§ 1633.43 Use of Federal property.

Employees may not directly or indirectly use or allow the use of Federal property of any kind for other than officially approved activities. They also have a positive responsibility to protect and conserve all Federal property, including equipment and supplies, which is entrusted or issued to them.

§ 1633.44 Care of documents.

The care of Government documents is a Federal requirement which is regulated by legislation. All records and documents in the custody of employees are in their custody for official purposes only. It is unlawful to remove or conceal, alter, mutilate, obliterate, or destroy records or documents or to remove or attempt to remove them from official custody with the intent of performing any of the above actions (18 U.S.C. 2071). Employees must not remove records and documents from official files without approval from proper authority. Working papers, copies of reports and other official records and documents shall be promptly disposed of when no longer needed for official purposes. Disposal or destruction of records and documents is to be made in accordance with established requirements.

§ 1633.45 Use of Government cars.

Employees are prohibited from using Government cars for other than official purposes. Use of such cars for transportation of employees between their domiciles and places of employment can only be justified where affirmatively authorized by statute, as in 31 U.S.C. 1343 and 1344.

§ 1633.46 Disclosure of information to the public.

Employees may not disclose official information which has not been made available to the general public without either appropriate general or specific authority.

§ 1633.47 Personal communications.

Employees may not conduct personal business while on official duty. Personal use of telephones is restricted to reasonable need. See 41 CFR Part 201–38. Employees who receive personal mail at their office will advise addressors to stop sending such mail to the Board's address.

§ 1633.48 Soliciting, selling, and canvassing.

Except when authorized by the Board, and except as provided by § 1633.33 of this Part, employees are prohibited from soliciting, from making collections, from canvassing for the sale of any article, or from distributing literature or advertising matter in any space occupied by the Board.

§ 1633.49 Influencing legislation or petitioning Congress.

Employees are prohibited from using Government time, money, or property (as, for example, through sending telegrams or letters) to influence a Member of Congress to favor or oppose any legislation. This prohibition does not apply to the official handling through proper channels of matters relating to legislation affecting the Board (18 U.S.C. 1913), or to the rights of employees in their private capacities to petition Members of Congress either individually or collectively or to furnish information to any committee or member of either House of Congress (5 U.S.C. 7102).

§ 1633.50 Civil Service examination processes.

Appointment and future advancement in the Federal career service are based on the important principle of individual merit and qualifications. The selection and merit competitive processes are protected by the Civil Service statutory provisions, 5 U.S.C. Chapter 33, and the Office of Personnel Management (OPM) regulations. Employees shall not, either directly or indirectly:

(a) Intentionally make a false statement or practice any deception or fraud in examination or appointment;

(b) Induce persons to withdraw from competition for competitive service positions;

(c) Engage in any improper activity with respect to the taking of Civil Service examinations and examination ratings; or

(d) Obstruct the right of any person to take examinations according to OPM rules and regulations. See 18 U.S.C. 1917 and 5 CFR 735.210(j).

§ 1633.51 Falsification of official records.

Employees shall avoid making false, misleading, or ambiguous statements, deliberately or willfully, whether verbal or written, in connection with any matter of official interest. Some of these matters of official interest are: transactions with the public, other Federal agencies or fellow employees; application forms and other forms which serve as a basis for appointment, reassignment, promotion or other personnel actions; vouchers; leave records; work reports of any nature or accounts of any kind; affidavits; entry or record of any matter relating to or connected with the employee's duties; and report of any moneys or securities received, held or paid to, for or on behalf of the United States. See 18 U.S.C. 1001 and 5 CFR 735.210(k).

§ 1633.52 Miscellaneous statutory provisions.

The attention of every employee is directed to the statutes relating to conduct listed below:

(a) The prohibitions against (1) embezzlement of Government money or property (18 U.S.C. 641); (2) failing to account for public money (18 U.S.C. 643) and (3) embezzlement of the money or property of another person in the

possession of an employee by reason of his employment (18 U.S.C. 654).

(b) House Concurrent Resolution 175, 85th Congress, 2d Session, 72 Stat. B12, the "Code of Ethics for Government Service" (5 U.S.C. 7301 note).

(c) Section 8477 of Title 5, U.S.C. which describes fiduciary responsibilities, liability, and penalties.

(d) Chapter 11 of Title 18, U.S.C. relating to bribery, graft, and conflicts of interest as appropriate to the employees concerned.

(e) The prohibition against the misuse of the franking privilege (18 U.S.C. 1719).

(f) The prohibition against counterfeiting and forging transportation requests (18 U.S.C. 508).

(g) The prohibition against unauthorized use of documents relating to claims from or by the Government (18 U.S.C. 285).

(h) The prohibitions against the employment of a member of a Communist organization (50 U.S.C. 784).

(i) The prohibition against an employee acting as the agent of a foreign principal registered under the Foreign Agents Registration Act (18 U.S.C. 219).

(j) The prohibition against Federal employment of any person convicted of a felony in furtherance of, or while participating in, a riot or civil disorder (5 U.S.C. 7313).

(k) The tax imposed on certain employees (e.g., Presidential appointees, employees excepted under Schedule C, employees whose compensation is equal to or greater than that for GS–16, or executive assistants or secretaries to any of the foregoing) who knowingly engage in self-dealing with a private foundation (26 U.S.C. 4941, 4946). "Self-dealing" is defined in the statute to include certain transactions involving an employee's receipt of compensation or other benefits such as a loan, or reimbursement for travel or other expenses from, or his sale to or purchase of property from, a private foundation.

(l) The prohibition against a public official appointing or promoting a relative, or advocating such an appointment or promotion (5 U.S.C. 3110).

§ 1633.53 General conduct prejudicial to the Government.

An employee shall not engage in criminal, infamous, dishonest, immoral, or notoriously disgraceful conduct, or other conduct prejudicial to the government.

§ 1633.54 Insurrection.

Employees may be disqualified for employment for knowingly supporting or advocating the violent overthrow of our constitutional form of government.

§ 1633.55 Strikes.

Employees shall not strike against the Government (5 U.S.C. 7311).

§ 1633.56 Purchase of Government property.

Employees are prohibited from either directly or indirectly, bidding or purchasing at any sale of Government property under the direction of or incident to the functions of the Board. Government property under the control of the Board shall not be sold to a Government employee, either directly or indirectly, unless a properly authorized representative of the office disposing of the property has determined that the sale is in the best interest of the Government. Before purchasing any Government property from any agency of the Government, either directly or indirectly, employees of the Board shall make known to the disposing agency that they are such employees and shall be governed by the disposing agency's rules relating to sales to Government employees.

Statement of Employment and Financial Interests

§ 1633.70 Employees required to submit confidential statements.

Except as provided in § 1633.72, statements of employment and financial interests will be filed by the following employees:

(a) Those classified at GS/GM–13–15 under 5 U.S.C. 5332, or at a comparable pay level under another authority, who are in positions the incumbents of which are responsible for making a Government decision or taking a Government action in regard to:

(1) Contracting or procurement;

(2) Regulating or auditing private or other non-Federal enterprise; or

(3) Other activities where the decision or action has an economic impact on the interests of any non-Federal enterprise.

(b) All other positions classified at GS/GM–13–15 under 5 U.S.C. 5332, or at a comparable pay level under another authority. The Executive Director has determined that all such positions have duties and responsibilities which require the incumbent to report employment and financial interests in order to avoid involvement in a possible conflict of interest situation and carry out the purpose of law, executive order, 5 CFR Part 735, and this Part.

(c) Those classified below GS–13 under 5 U.S.C. 5332, or at a comparable pay level under other authority, who are in positions which otherwise meet the criteria in paragraphs (b) and (c) of this section, but only when the inclusion of the positions in an appendix to this Part has been specifically justified by the Executive Director in writing to the Office of Personnel Management as an exception that is essential to protect the integrity of the Government and avoid employee involvement in a possible conflict of interest situation.

§ 1633.71 Employee's complaint on filing requirement.

An employee shall have, in conformity with the grievance procedures prescribed by the Board, an opportunity for review of a complaint that his or her position has been improperly determined to be one requiring the submission of a statement of employment and financial interests.

§ 1633.72 Exceptions.

(a) Employees in positions that meet the criteria in paragraph (b) of § 1633.70 may be excluded from the reporting requirement when the Executive Director determines that:

(1) The duties of a position are such that the likelihood of the incumbent's involvement in a conflict of interest situation is remote; or

(2) The duties of a position are at such a level of responsibility that the submission of a statement of employment and financial interests is not necessary because of the degree of supervision and review over the incumbent, or the inconsequential effect on the integrity of the Government.

(b) A statement of employment and financial interests is not required when the employee is required to file a report pursuant to 5 CFR Part 734.

§ 1633.73 Form and content of statements.

The statements of employment and financial interests required under this subpart for use by employees and special Government employees shall contain, as a minimum, the information required by the formats prescribed by the Office of Personnel Management (OPM). Such Board forms shall not include questions that go beyond, or are in greater detail than, those included in OPM formats without the approval of OPM.

§ 1633.74 Time and place for submission of employees' statements.

Each employee required to submit a statement of employment and financial interests shall submit that statement to the Ethics Officer not later than:

(a) Thirty days after the effective date of the regulations in this Part if employed on or before that effective date; or

VOL 53 ISS 245 DE 21 1988 UMI

(b) Thirty days after entrance on duty.

§ 1633.75 Supplementary statements.

Changes in, or additions to, the information contained in an employee's statement of employment and financial interests shall be reported in a supplementary statement as of May 15 each year, except when OPM authorizes a different date. Complete updated statements will be filed annually; reporting a negative or "no change" statement is not allowed. Notwithstanding the filing of the annual report required by this section, each employee shall at all times avoid acquiring a financial interest that could result, or taking an action that would result, in a violation of the conflict of interest provisions of 18 U.S.C. 208, or Subpart B of 5 CFR Part 735 or this part.

§ 1633.76 Interests of employees' relatives.

For purposes of completing the statements of employment and financial interests, the interests of a spouse and dependent children are to be considered interests of the employee.

§ 1633.77 Information not known by employees.

If any information required to be included in a statement of employment and financial interests or a supplementary statement, including holdings placed in trust, is not known to the employee but is known to another person, the employee shall request that other person to submit the information on his or her behalf, unless the trust is a Qualified Trust meeting the requirements of Subpart D of 5 CFR Part 734. If the trust is a Qualified Trust pursuant to Subpart D of 5 CFR Part 734, then those regulations control as to what information must be submitted by the trustee.

§ 1633.78 Information excluded.

The regulations in this Part do not require an employee to submit on a statement of employment and financial interests or supplementary statement any information relating to the employee's connection with, or interest in, a professional society or a charitable, religious, social, fraternal, recreational, public service, civic, or political organization or a similar organization not conducted as a business enterprise. For the purposes of the regulations in this part, educational and other institutions doing research and development or related work involving grants of money from or contracts with the Government are deemed "business enterprises" and are required to be included in an employee's statement of employment and financial interests.

§ 1633.79 Review of statements.

(a) Board employees will file their statements with the Board's Ethics Officer for his review. The Ethics Officer will, in turn, submit the statements to the supervisor of each submitting employee. The supervisor shall sign and date the statement and indicate that he or she has reviewed such statement. The system of review shall be designed to disclose conflicts of interest or apparent conflicts of interest on the part of employees. If information from the statements submitted or from other sources indicates a conflict of interest or an apparent conflict of interest, the employee concerned shall be given an opportunity to explain the conflict or apparent conflict. The Ethics Officer shall report all cases to the Executive Director for decision. The Ethics Officer will file with the Executive Director his statement, which will be reviewed by the Executive Director or his designee.

(b) The Ethics Officer will review the statement of the Executive Director and shall advise the Executive Director of any conflict or appearance of conflict or of any failure to report. If the Executive Director fails to cooperate in the resolution of the conflict or appearance of conflict or continues to fail to file a report after being notified of the failure, the Ethics Officer will report the matter to the Director, Office of Government Ethics.

§ 1633.80 Confidentiality of employees' statements.

Statements of employment and financial interests, and supplementary statements covered by §§ 1633.70–1633.79 are confidential except as to appropriate reviewing officials. Employees reviewing statements in connection with their official duties are responsible for maintaining the statements in confidence and shall not allow access to, or allow information to be disclosed from, a statement except to carry out the purpose of this Part. Information from a statement may not be disclosed except as OPM or the Board may determine for good cause shown.

§ 1633.81 Employees required to submit public statements.

All personnel paid at a level of the Executive Schedule in Subchapter II of Chapter 53 of Title 5, United States Code and all persons paid at a level of the Senior Executive Service set by the President in accordance with Subchapter VIII of Chapter 53 of Title 5, United States Code, must file a statement of financial interests in accordance with section 202 of the Ethics in Government Act of 1978, as amended, and Part 734 of Title 5 of the Code of Federal Regulations. These statements are available to the public.

§ 1633.82 Effect of employees' statements on other requirements.

The statements of employment and financial interests and supplementary statements required of employees under the regulations in this Part are in addition to, and not in substitution for, or in derogation of, any similar requirement imposed by law, order, or regulation. The submission of a statement or supplementary statement by an employee does not permit the employee or any other person to participate in the matter in which the employee's or the other person's participation is prohibited by law, order, or regulation.

§ 1633.83 Advisory service.

(a) An employee may obtain advice and guidance on questions of conflict of interest covered by these regulations from the Ethics Officer.

(b) If the Ethics Officer determines that there is a conflict of interest, or the appearance of a conflict of interest, on the part of an employee, he or she shall bring this to the attention of the employee. If the employee fails to cooperate in the resolution of the conflict, or the appearance of a conflict, the Ethics Officer shall bring the matter to the attention of the Executive Director. If the Ethics Officer determines that there is a conflict of interest, or the appearance of a conflict of interest on the part of the Executive Director, he or she shall bring this to the attention of the Executive Director. If the Executive Director fails to cooperate in the resolution of the conflict, or the appearance of a conflict, the Ethics Officer will report the matter to the attention of the Director, Office of Government Ethics.

Subpart B—Preventing Conflicts of Interest on the Part of Special Government Employees of the Board

General Provisions

§ 1633.200 Purpose.

This subpart implements the provisions of Executive Orders 11222 and 12565 dated May 8, 1965, relating to special Government employees of the Board.

§ 1633.201 Scope.

This subpart relates basically to special Government employees who are consultants and advisers, including experts. Submission of financial statements by special Government

employees other than advisers, consultants, and experts is waived except where statements would otherwise be required under § 1633.70; nevertheless, such special Government employees are subject to the substantive standards of conduct of this Subpart B. Employees who are employed for more than 130 days are treated as regular employees and are subject to the provisions of Subpart A of this Part.

§ 1633.202 Policy.

It is the Board's policy in issuing the instructions in this Part to adhere rigidly to the policy that every citizen is entitled to have complete confidence in the integrity of his Government and that each individual officer, employee, or adviser of the Government must help to earn and must honor that trust by the individual's own integrity and conduct in all official actions.

General Rules of Conduct Applicable to Special Government Employees

§ 1633.203 Applicability of Subpart A of this Part.

In addition to complying with §§ 1633.204–1633.209, special Government employees shall familiarize themselves with the rules of conduct contained in Subpart A of this Part so they can be guided by the principles contained in those rules insofar as their employment with the Board is concerned.

§ 1633.204 Use of Government employment.

A special Government employee shall not use his Government employment for a purpose that is, or gives the appearance of being, motivated by the desire for private gain for himself or another person, particularly one with whom he has family, business, or financial ties.

§ 1633.205 Use of inside information.

A special Government employee shall not use inside information obtained as a result of his Government employment for private gain for himself or another person either by direct action on his part or by counsel, recommendation, or suggestion to another person, particularly one with whom he has family, business, or financial ties. "Inside information" as used in this section means information obtained under Government authority which has not become part of the body of public information.

§ 1633.206 Teaching, lecturing, and writing.

Special Government employees may teach, lecture, or write providing such action is not prohibited by law, Executive Order 11222, or the regulations in this Part. However, a special Government employee shall not, either with or without compensation, engage in teaching, lecturing, or writing that depends upon information obtained as a result of his employment with the Board, except when that information has been made available to the general public or will be made available on request, or when the official to whom he or she reports receives written authorization from the Executive Director for the use of non-public information on the basis that the use is in the public interest.

§ 1633.207 Coercion.

A special Government employee shall not use his or her Government employment to coerce, or give the appearance of coercing, a person to provide financial benefit to himself or another person, particularly one with whom he or she has family, business or financial ties.

§ 1633.208 Gifts, entertainment, and favors.

A special Government employee, while so employed or in connection with employment, shall not receive or solicit from a person having business with the Board anything of value as a gift, gratuity, loan, entertainment, or favor, personally or for another person, particularly one with whom the employee has family, business or financial ties. Exceptions to this are the same exceptions contained in Subpart A of this part for regular employees of the Board.

§ 1633.209 Miscellaneous statutory provisions.

The statutory provisions relating to Board employees referred to in §§ 1633.31, 1633.32, 1633.34, 1633.40, 1633.44, 1633.45, 1633.48, 1633.51, 1633.52, 1633.53, and 1633.55 apply to special Government employees when serving in their official capacities with the Board.

Conflict of Interest Statutes

§ 1633.210 Applicability of 18 U.S.C. 203 and 205.

(a) The prohibitions in 18 U.S.C. 203 and 205 applicable to special Government employees are less stringent than those which affect regular employees, i.e., those who are appointed for more than 130 days a year. These two sections in general operate to preclude a regular Government employee, except in the discharge of his or her official duties, from representing another person before a department, agency or court, whether with or without compensation, in a matter in which the United States is a party or has a direct and substantial interest. However, the same two sections impose only the following major resutrictions upon a special Government employee:

(1) The employee may not, except in the discharge of official duties, represent anyone else before a court or Government agency in a matter involving a specific party or parties in which the United States is a party or has a direct and substantial interest and in which the employee has at any time participated personally and substantially in the course of Government employment.

(2) The employee may not, except in the discharge of official duties, represent anyone else in a matter involving a specific party or parties in which the United States is a party or has a direct and substantial interest and which is pending before the agency he or she serves. However, this restraint is not applicable if the employee has served the agency no more than 60 days during the past 365. The employee is bound by the restraint, if applicable, regardless of whether the matter is one in which he or she has ever participated personally and substantially.

(b) These restrictions prohibit both paid and unpaid representation and apply to a special Government employee on the days when the employee does not serve the Government as well as on the days when the employee does.

(c) The rules to be followed by the Board to determine the duration of employment of special Government employees and other temporary employees in order to ascertain the application of these statutes are set forth in the Federal Personnel Manual.

(d) An employee who undertakes service with the Board and another department or agency shall inform each of the arrangements with the other.

(e) There may be situations where a consultant or adviser has a responsible position with a regular employer which requires personal participation in contract negotiations with the Board. In this situation, the consultant or adviser should participate in the negotiations for the employer only with the knowledge of a responsible Board official, i.e., the full-time official to whom the consultant or adviser reports. Prior to permitting such participation, the responsible Board official shall obtain the approval in writing of the Executive Director. See also paragraph (f)(1) of this section.

(f) Section 205 of title 18 of the United States Code, contains two exemptive provisions, which apply under § 203 as well.

BEST COPY AVAILABLE

VOL 53 ISS 245 DE 21 1988 UMI

(1) The first of these deals with a similar situation which may arise after a Government grant or contract has been negotiated. This provision in certain cases permits both the Government and the private employer of a special Government employee to benefit from performance of work under a grant or contract for which the employee would otherwise be disqualified because of participation in the matter for the Government or it is pending in an agency the employee has served more than 60 days in the past year. More particularly, the provision gives the head of a department or agency the power, notwithstanding any prohibition in either section 203 or section 205 of Title 18 of the United States Code, to allow a special Government employee to represent before such department or agency the regular employer or another person or organization in the performance of work under a grant or contract, if the national interest so requires. A written certification by the head of a department or agency concerned with the grant or contract to exempt the employee must be submitted for publication in the **Federal Register**. Where the Board is the agency concerned with the grant or contract, such written certification will be forwarded, through the General Counsel, to the Executive Director for the latter's signature. The exemption will not take effect until the certification is published in the **Federal Register**.

(2) The other exemptive provision requiring action permits a special Government employee to represent, with or without compensation, a parent, spouse, child, or person or estate for whom or which the employee serves as a fiduciary, but only with the approval of the official responsible for appointments to his or her position, and only if the matter involved is neither one in which the employee has participated personally or substantially nor one under the employee's official responsibility. The term "official responsibility" is defined in 18 U.S.C. 202 to mean, in substance, the direct administrative or operating authority to control Government action. For the Board, the "official responsible for appointments" for these purposes will be the Executive Director.

§ 1633.211 Applicability of 18 U.S.C. 207.

(a) Section 207 of Title 18 of the United States Code applies to individuals who have left Government service, including former special Government employees. Section 207(a) prevents a former employee or special Government employee from representing another person in connection with certain matters in which the employee participated personally and substantially on behalf of the Government. The matters are those particular matters involving a specific party or parties in which the United States is also a party or has a direct and substantial interest. In addition, section 207(b)(i) prevents a former employee or special Government employee, for a period of two years after employment has ceased, or responsibility in a particular area has ceased (if the two do not occur simultaneously) from appearing personally on behalf of another person in such matters before a court, department, or agency of the United States or the District of Columbia if the matters were within the area of his official responsibility at any time during the last year of Government service. Section 207(b)(ii) prevents a former employee who occupied a position designated as a Senior Employee (a position which involves significant decision making or supervisory responsibility) for a period of two years after his or her employment has ceased from appearing personally on behalf of another person before a court, department or agency of the United States or the District of Columbia in any matter that was pending under his official responsibility within a one year period prior to the termination of such responsibility or as to which he or she participated personally and substantially as an officer or employee. Section 207(c) prevents a former employee, who served more than sixty days in a given calendar year, and who occupied a position designated as a Senior Employee within one year after such employment has ceased, from acting as agent or attorney for anyone in any appearance or in any written communication before the agency in which he served as an officer or employee in connection with any proceeding pending before such agency. It should be noted that a consultant or adviser usually does not have "official responsibility."

(b) For the purposes of section 207 of Title 18 of the United States Code, the employment of a special Government employee ceases on the day the employee's appointment expires or is otherwise terminated, as distinguished from the day on which he or she last performs service. Accordingly, the appointment of an adviser or consultant should be terminated promptly as soon as it is determined that the services are no longer required. (See Appendix C of Chapter 735 of the Federal Personnel Manual.)

§ 1633.212 Applicability of 18 U.S.C. 208.

(a) Section 208 of Title 18 of the United States Code, bears on the activities of Government personnel, including special Government employees, in the course of their official duties. In general, it prevents an employee or special Government employee from participating as such in a particular matter in which, to his or her knowledge, the employee's spouse, minor child, partner, or a profit or nonprofit enterprise with which the employee is connected has a financial interest. However, section 208(b)(1) permits such an employee's agency to grant an ad hoc exemption if the interest is not so substantial as to affect the integrity of the services to be rendered. Insignificant interests may also be waived by a general rule or regulation (18 U.S.C. 208(b)(2)).

(b) The matters in which special Government employees are disqualified by section 208 of Title 18 of the United States Code are not limited to those involving a specific party or parties in which the United States is a party or has an interest, as in the case of sections 203, 205, and 207 of Title 18, of the United States Code. Section 208, therefore, undoubtedly extends to matters in addition to contracts, grants, judicial and quasi-judicial proceedings, and other matters of an adversary nature. Accordingly, a special Government employee should in general be disqualified from participating as such in a matter of any type the outcome of which will have a direct and predictable effect upon the financial interests covered by section 208. However, the power of exemption may be exercised in this situation if the special Government employee renders advice of a general nature from which no preference or advantage over others might be gained by any particular person or organization. The power of exemption may, of course, be exercised also when the financial interests involved are minimal in value.

(c) Exemptions under section 208 of Title 18, of the United States Code may be made by general rule or regulation by the Executive Director.

Consultants and Advisers

§ 1633.220 Advice on rules of conduct and conflict of interest statutes.

If a special Government employee who is a consultant or adviser has doubt as to the ethics of any conduct falling within the standards of conduct and conflict of interest statutes, the employee should confer with the Ethics Officer of the Board.

BEST COPY AVAILABLE

§ 1633.221 Responsibility of the individual special Government employee.

Each person appointed as a special Government employee with the Board is responsible for:

(a) Becoming familiar with the contents of this part and the applicability of the conflict of interest statutes in the employee's particular case.

(b) Seeking advice and assistance in interpreting the laws and instructions in case of questions concerning them.

(c) Being alert to the possibility of conflicts of interest.

(d) Furnishing the Board with information concerning financial interests and keeping this information current.

Procedures To Be Followed Within the Board

§ 1633.230 Information and assistance to special Government employees and their supervisors.

Each special Government employee and each supervisor of a special Government employee will be given a copy of this part and will be required to become familiar with the conflict of interest laws and the provisions of the instructions applicable to him or her. If a special Government employee or prospective special Government employee or a supervisor desires assistance in interpreting the instructions or laws, the employee will be referred to the Ethics Officer.

§ 1633.231 Disclosure of financial interests.

(a) In order to carry out its responsibility to avoid the use of the services of special Government employees in situations in which violations of the conflict of interest laws or of the regulations in this part may occur, prior to initial employment and each reappointment thereafter, each special Government employee who is a consultant or adviser will be required to supply a statement of all other employment and the financial interests of the special Government employee which the Executive Director determines are relevant in the light of the duties the employee is to perform, including, but not limited to, the name of companies in which he or she has a significant financial interest, and the nature of such financial interest. Each statement of financial interests will be forwarded to the Board's Ethics Officer along with a statement of the duties which the proposed special Government employee will be assigned.

(b) The Board's Ethics Officer will review the statement of employment and financial interests in relationship to the duties to be performed and initially determine whether a conflict of interest exists. Accordingly, such statements must be kept current during the period the special Government employee is on the Government rolls. In any event, special Government employees who are employed intermittently for more than one calendar year shall file the statement as of May 15 of each year of such employment.

§ 1633.232 Service with other Federal agencies.

If a special Government employee is serving in other Federal agencies, he or she will be required to inform the Board and each of the agencies of his or her arrangements with the others so that appropriate administrative measures may be effected. Information on service with other Federal agencies will be submitted along with the statement of employment and financial interests and must be kept current while employed with the Board.

§ 1633.233 Resolution of cases involving a conflict or apparent conflict of interest.

When a situation arises which indicates a conflict of interest or apparent conflict of interest and the matter is not resolved, information about the situation will be reported by the Ethics Officer to the Executive Director. In any such situation, the special Government employee shall be provided an opportunity to explain the conflict or appearance of conflict.

§ 1633.234 Disciplinary and other remedial action.

A violation of the regulations in this part may be cause for appropriate disciplinary action, which may be in addition to any penalty prescribed by law, or other remedial action. In addition to disciplinary action, remedial action may include, but is not limited to:

(a) Recusal,

(b) Divestiture, resignation, or reassignment,

(c) A Qualified Trust established pursuant to Subpart D of 5 CFR Part 734. A special Government employee may avoid a violation of 18 U.S.C. 208(a) if he or she receives an advance written waiver pursuant to 18 U.S.C. 208(b).

§ 1633.235 Legal interpretation.

Whenever the Ethics Officer believes that a substantial legal question is raised by the employment of a particular special Government employee as a consultant or adviser, the Ethics Officer will consult with the Office of Government Ethics and the General Counsel, Office of Personnel Management, and will refer cases of potential criminal violations to the Department of Justice, Criminal Division, Office of Public Integrity, in order to ensure a consistent and authoritative interpretation of the law.

§ 1633.236 Safeguard of information.

Statements of employment and financial interests, and supplementary statements shall be held in confidence. Employees responsible for maintaining or reviewing the statements shall not allow access to, or allow information to be disclosed from, a statement except to carry out the purpose of this part. Information from a statement may not be disclosed except as OPM or the Executive Director may determine for good cause shown.

Subpart C—Members of the Federal Retirement Thrift Investment Board

§ 1633.250 Purpose.

This subpart implements the provisions of Executive Orders 11222 and 12565 for Board Members.

Standards of Conduct

§ 1633.251 General.

(a) General Principles. A Board Member shall avoid any action, whether or not specifically prohibited by these standards of conduct, which might result in or create the appearance of:

(1) Giving preferential treatment to any person;

(2) Impeding Board efficiency or economy;

(3) Losing complete independence or impartiality;

(4) Making a Board decision outside official channels; or

(5) Affecting adversely the confidence of the public in the integrity of the Federal Retirement Thrift Investment Board.

(b) No Board Member shall use his or her position with the Board to coerce, or give the appearance of coercing, a person to provide financial benefit to him or herself or another person.

(c) No Member shall directly or indirectly use, appear or use, or allow the use of, his or her official position or information obtained as a result of his or her position to further any private interest, whether his or her own or that of another person.

(d) The conduct expected and required of a Member will often depend on the particular facts of each instance. Although detailed regulations that will cover every situation cannot practically be prescribed, the following rules provide guidance and illustrate the manner in which the general principles should be applied.

VOL 53 ISS 245 DEC 21 1988 UMI

§ 1633.252 Conflicts of interest—financial.

(a) General principles. No Member may have a financial interest, direct or indirect, that conflicts substantially, or appears to conflict substantially, with his or her duties and responsibilities to the Federal Retirement Thrift Investment Board. For purposes of this code, a Member's interests include those of his or her spouse, his or her minor child or children, and other individuals related to the Member by blood who are residents of the Member's household.

(b) No Member shall enter into any contract with the Federal Retirement Thrift Investment Board or otherwise have an interest in any contract with the Federal Retirement Thrift Investment Board unless there has been a prior determination by the Ethics Officer that the interest is so minor that no realistic possibility of a conflict of interest, or the appearance of a conflict of interest, exists. No such determination is required, however, if:

(1) The interest results solely from the Member's ownership of publicly-traded securities of a corporation or the Member's service as a fiduciary of a trust or estate that owns such publicly traded securities; and

(2) Neither the contract, nor a transaction of which it is a part, requires action by the Board.

(c) No Member shall engage, directly or indirectly, in a financial transaction as a result of, or primarily relying on, confidential information obtained as a result of his or her position as Board Member.

(d) No Member shall sell or lease property to the Federal Retirement Thrift Investment Board.

(e) No Member shall recommend or suggest the employment of any private person offering services as a consultant, agent, attorney, expeditor or the like for the purpose of assisting a private party in any negotiations, transactions or other business with the Federal Retirement Thrift Investment Board.

(f) Section 203 of title 18, United States Code, prohibits any Member from soliciting or accepting any fee or other compensation for services rendered by him or herself or another person in representing any person other than the United States before any executive department, agency, court martial, officer or commission in relation to any proceeding or other particular matter involving a specific party or parties in which a Member has participated personally and substantially during his or her term.

(g) Section 208(a) of Title 18, United States Code, prohibits participation by any Member in any decision or other matter in which, to the Member's knowledge, he or she, any entity of which he or she is an employee, director, partner, or other fiduciary, or any person or organization with whom he or she is negotiating or has any arrangement concerning prospective employment, has a financial interest. Although this statute applies even though the interest is minimal, section 208(b) permits the application of section 208(a) to be waived, if it is properly determined that the interest is not so substantial as to be deemed likely to affect the integrity of the services which may be expected from a Member. Under Executive Order 11222, Part V, the waiver decision is made by the Chairman of the Board with respect to Members and is made by the President with respect to the Chairman of the Board.

§ 1633.253 Conflicts of interest—employment.

(a) General principles. No Member shall accept employment, compensation, payment of expense, or any other thing of monetary value under circumstances in which acceptance may result in, or create the appearance of, a conflict of interest.

(b) No Member shall engage in any activity for compensation, or accept any outside employment, or receive any salary or other thing of monetary value which is, directly or indirectly, a form of compensation from a private source for his or her services to the Federal Retirement Thrift Investment Board.

(c) Section 205 of Title 18, United States Code, prohibits any Member, as a special Government employee, from acting as agent or attorney in representing a private party before any department, agency, court, court-martial, officer, or commission in connection with any claim, proceeding or other particular matter involving a specific party or parties in which a Member has participated personally and substantially during his or her term.

(d) No Member shall use his or her official title, position, or authority in the endorsement or advertisement of a commercial product or service.

(e) Within the limitations imposed by this section, a Member may engage in teaching, lecturing, and writing. He or she shall not, however, receive compensation or anything of monetary value for any consultation, lecture, discussion, writing, or appearance whose subject matter is devoted substantially to the responsibilities, programs, or operations of the Federal Retirement Thrift Investment Board, or which draws substantially on official data or ideas which have not become part of the body of public information.

(f) This section shall not apply if the Member has been granted a waiver under § 1633.252.

§ 1633.254 Conflicts of interest—gifts, entertainment, and favors.

(a) A Member, even though a special Government employee, while so employed or in connection with employment, shall not receive or solicit from a person having business with the Board anything of value as a gift, gratuity, loan, entertainment, or favor, personally or for another person, particularly one with whom the employee has family, business or financial ties. Exceptions to this are the same exceptions contained in Subpart A of this part for regular employees of the Board.

(b) The Constitution prohibits persons holding Federal office, such as Board Members, from accepting from foreign governments, except with the consent of the Congress, presents, emoluments, offices, or titles. The Congress has given its consent in 5 U.S.C. 7342 to the acceptance of certain specified gifts and decorations.

Ethical Conduct Advisory Services and Post-Employment Activities

§ 1633.255 Advisory service.

(a) A Member may obtain advice and guidance on questions of conflicts on interest covered by this code from the Ethics Officer.

(b) If the Ethics Officer determines that there is a conflict of interest, or the appearance of a conflict of interest, on the part of a Member, he or she shall bring this to the attention of the Member. If the matter is not resolved, the Ethics Officer will report the matter to the Director, Office of Government Ethics.

§ 1633.256 Post-employment activities.

Members of the Federal Retirement Thrift Investment Board are subject to the restrictions on the post-employment activities of special Government employees imposed by section 207 (a) and (b)(i) of Title 18, United States Code. These post-employment restrictions are set out in the Standards of Conduct for Board employees at §§ 1633.21 and 1633.211 of this title.

Statement of Employment and Financial Interests

§ 1633.257 Financial disclosure.

(a) Statement required. All members must annually file a financial disclosure

statement (SF 278) with the Ethics Officer pursuant to the Ethics in Government Act unless:

(1) The Member is beginning his or her first year of service on the Board, reasonably expects to work less than 60 days in the calendar year, and obtains a determination from the Director of the Office of Government Ethics to that effect; or

(2) The Member has completed one year of service on the Board and did not work more than 60 days in the preceding calendar year.

(b) Loss of exemption. Any Member who claimed an exemption from filing a financial disclosure report pursuant to paragraph (a) (1) and (2) of this section and who works more than 60 days in the affected calendar year must file the statement within 15 days of the date on which the Member works his or her 61st day.

(c) Reviewing statements. (1) Financial disclosure statements filed in accordance with the provisions of this section shall, within 60 days after the date of filing, be reviewed by the Ethics Officer who shall either approve the statement, or make an initial determination that a conflict or appearance thereof exists. If the Ethics Officer determines initially that a conflict or the appearance of a conflict exists, he or she shall inform the Member of his determination.

(2) If the Ethics Officer considers that additional information is needed to complete the statement or to allow an adequate review to be conducted, he or she shall request the reporting Member to furnish that information by a specified date.

(3) Whenever the Ethics Officer has reasonable cause to believe that a Member refuses to file a statement or refuses to report required information, he or she will report the matter to the Director, Office of Government Ethics.

(d) Custody of and public access to statements.

(1) Retention of statements. Each statement filed with the Ethics Officer shall be retained by him or her for a period of six years. After the six-year period, the statement shall be destroyed unless needed in connection with an investigation then pending.

(2) The financial disclosure statements filed by Members shall be available to the public.

DEPARTMENT OF AGRICULTURE

Packers and Stockyards Administration

9 CFR Part 202

Rules of Practice Governing Proceedings Under the Packers and Stockyards Act; Rules Applicable to Rate Proceedings

AGENCY: Packers and Stockyards Administration, USDA.

ACTION: Final rule.

SUMMARY: This action establishes procedures for handling rate proceedings under the Packers and Stockyards Act (7 U.S.C. 181, *et seq.*). These new sections, along with the Rules of Practice Governing Formal Adjudicatory Proceedings Instituted by the Secretary Under Various Statutes, 7 CFR Part 1, Subpart H, will be applicable to rate proceedings. Adoption of these rules of practice will provide procedures for conducting rate proceedings, thereby avoiding the necessity for motions adopting special rules of practice for rate proceedings on a case-by-case basis.

EFFECTIVE DATE: January 23, 1989. There is no such proceeding pending at this time and, if any such proceeding is instituted prior to the effective date of these rules, it will be handled in accordance with these rules.

FOR FURTHER INFORMATION CONTACT: Harold W. Davis, Director, Livestock Marketing Division, Packers and Stockyards Administration, U.S. Department of Agriculture, Washington, DC 20250, (202) 447–6951.

SUPPLEMENTARY INFORMATION: In October 1976 the Act was amended to reduce the Department's review of rates and charges at posted stockyards and it did not seem likely that rate proceedings would continue to be needed. Thus, the Rules of Practice Governing Rate Proceedings were revoked on December 14, 1979 (44 FR 72575). However, changing industry practices make it apparent that occasional rate proceedings will be required. Since the revocation, formal rate proceedings have been initiated and it has been necessary to adopt special rules of practice for these cases.

Adoption of these rules of practice will provide procedures for conducting rate proceedings, thereby avoiding the necessity for motions adopting special rules of practice for rate proceedings on a case-by-case basis.

Notice of proposed rulemaking and public participation are not required by law for these rules on the basis that they constitute "rules of agency . . . procedures, or practice" under 5 U.S.C. 553(b)(A).

Executive Order

Regulatory impact analysis is not required for this amendment because it has been determined not to be a "major" rule as defined by section 1(b) of E.O. 12291. It will not have an annual effect on the economy of $100 million or more, will not result in major increases in costs or prices for consumers, individual industries, Government agencies, or geographic regions, and will not have significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of U.S.-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Regulatory Flexibility Act

This amendment has been determined not to have a significant economic impact on a substantial number of small entities.

Paperwork Reduction Act of 1980

No information collection requirements are affected by these rules of practice.

List of Subjects in 9 CFR Part 202

Administrative practices and procedures, rate proceedings, reparation proceedings.

Accordingly 9 CFR Part 202 is amended as set forth below.

Done at Washington, DC, this 16th day of December 1988.

B.H. (Bill) Jones,

Administrator, Packers and Stockyards Administration.

PART 202—RULES OF PRACTICE GOVERNING PROCEEDINGS UNDER THE PACKERS AND STOCKYARDS ACT

1. The table of contents of Part 202 is amended by adding the following immediately after the heading:

Rules of Practice Applicable to Rate Proceedings

Sec.
202.1 Applicability of other rules.
202.2 Definitions.
202.3 Institution of proceedings.
202.4 Answer and reply.
202.5 Hearing.
202.6 Taking no position on the merits.
202.7 Modification or vacation of final order.

2. The authority citation of Part 202 is revised to read as follows:

Authority: 7 U.S.C. 228(a), 7 CFR 2.17(e), 2.56.

3. Part 202 is amended by adding a center heading and §§ 202.1 through 202.7.

Rules of Practice Applicable to Rate Proceedings

§ 202.1 Applicability of other rules.

The Rules of Practice Governing Formal Adjudicatory Proceedings Instituted by the Secretary Under Various Statutes, 7 CFR Part 1, Subpart H, are applicable to all rate proceedings under Sections 304, 305, 306, 307 and 310 of the Packers and Stockyards Act, 1921, as amended, 7 U.S.C. 205, 206, 207, 208 and 211, except insofar as those Rules are in conflict with any provision herein.

202.2 Definitions.

As used in these rules:

(a) "Rate proceeding" means a proceeding involving the determination and prescription of any rate or charge made or proposed to be made for any stockyard service furnished at a stockyard by a stockyard owner or market agency, or a proceeding involving any rule, regulation or practice affecting any such rate or charge; and

(b) "Administrator" means the Administrator of the Packers and Stockyards Administration (P&SA), or any officer or employee of P&SA to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act for the Administrator.

§ 202.3 Institution of proceedings.

(a) *Informal complaint.* Any interested person desiring to complain of the lawfulness of any rate or charge made or proposed to be made for any stockyard service furnished at a stockyard by a stockyard owner or market agency, or rule, regulation or practice affecting any such rate or charge, may file an informal complaint with the Administrator.

(b) *Investigation.* If there appears to be any reasonable ground for doing so, the Administrator will investigate the matter complained of. If the Administrator reasonably believes that there are not sufficient facts to form the basis for further proceeding, the matter may be dropped. If it is dropped, the person filing the informal complaint will be informed.

(c) *Status of person filing.* A person filing an informal complaint will be a party to a rate proceeding if the Administrator files such person's informal complaint as a formal complaint, or if the Judge permits such person to intervene upon written application.

(d) *Formal complaint.* A rate proceeding may be instituted only upon filing of a formal complaint by the Administrator. A formal complaint may be filed on the initiative of the Administrator, or on the basis of an informal complaint, or by filing the informal complaint as a formal complaint. A formal complaint filed by the Administrator, or a summary thereof, will be published in the **Federal Register**, together with notice of the time by which, and the place where, any interested person may file a written request to be heard.

§ 202.4 Answer and reply.

Respondent is not required to file an answer. If an answer is filed, complainant is not required to file a reply.

§ 202.5 Hearing.

The hearing will be oral unless all parties waive oral hearing. It will be written if not oral. Notice of the date, time and place of oral hearing, or of the date and place for filing of written submissions in a written hearing, will be served on the Administrator and the respondent, and on such other persons as have requested in writing to be heard.

§ 202.6 Taking no position on the merits.

The proceeding may be instituted by filing of the informal complaint as a formal complaint, and the Administrator may take no position on the merits of the case.

§ 202.7 Modification or vacation of final order.

(a) *Informal petition.* Any interested person may file an informal petition to modify or vacate a final order at any time. Any such petition must be filed with the Administrator, be based on matters arising after the issuance of the final order, and set forth such matters, and the reasons or conditions relied on, with such particularity as is practicable. Any such informal petition will be handled as otherwise provided for an informal complaint.

(b) *Formal motion.* A final order may be modified or vacated at any time only upon filing of a formal motion by the Administrator. Such a motion may be filed on the initiative of the Administrator, on the basis of an informal petition, or by filing of an informal petition as a formal motion.

(c) *Publication.* If the modification or vacation sought would involve an increase of a rate or charge lawfully prescribed by the Secretary, or involve a rate or charge in addition to what is specified in the final order, or involve a regulation or practice so affecting such a rate or charge, the formal motion, or a summary thereof, will be published in the **Federal Register**, together with notice of the place, and the time by which, any interested person may file a written request to be heard.

(d) *Proceedings.* Proceedings upon such a formal motion will be as otherwise provided for a formal complaint.

BILLING CODE 3410-KD-M

DEPARTMENT OF COMMERCE

Economic Development Administration

13 CFR Part 309

[Docket No. 60969-7158]

Financial Assistance Requirements; Project Modification

AGENCY: Economic Development Administration (EDA), Commerce.

ACTION: Affirmation of interim rule.

SUMMARY: This rule adopts as final the Economic Development Administration's (EDA) interim regulations at 13 CFR 309.26—"*Project Modification.*" This rule provides standards and states that EDA will not allow project modification which would constitute a change of scope.

EFFECTIVE DATE: October 20, 1986.

FOR FURTHER INFORMATION CONTACT: James F. Marten, Deputy Chief Counsel, Economic Development Administration, U.S. Department of Commerce, Herbert C. Hoover Building, 14th Street between Pennsylvania and Constitution Avenues, NW., Room 7001, Washington, DC (202) 377-5441.

SUPPLEMENTARY INFORMATION: EDA published an interim rule for project modification on October 20, 1986 (51 FR 37175) and allowed interested persons 60 days to comment. No comments were received. EDA is adopting as a final rule, 13 CFR Part 309, "*General Requirements for Financial Assistance*", § 309.26 "*Project Modification.*"

Under Executive Order 12291 the Department must judge whether a regulation is "major" within the meaning of section 1 of the Order and therefore subject to the requirement that a Regulatory Impact Analysis be prepared. This regulation is not likely to result in an annual effect on the economy of $100 million or more; a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or

significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Accordingly, neither a preliminary nor final Regulatory Impact Analysis has to be or will be prepared.

This final rule is exempt from all requirements of 5 U.S.C. 553 including notice and opportunity to comment and delayed effective date because it relates to public property, loans, grants, benefits and contracts.

No other law requires that notice and opportunity for comment be given for the rule.

Accordingly, the Department's General Counsel has determined and so certified to the Office of Management and Budget that dispensing with notice and opportunity for comment is consistent with the Administrative Procedure Act (APA) and all other relevant laws.

Since notice and an opportunity for comment are not required to be given for this rule under section 553 of the APA (5 U.S.C. 553) or any other law, under sections 603(a) and 604(a) of the Regulatory Flexibility Act (5 U.S.C. 603(a), 604(a)), no initial or final Regulatory Flexibility Analysis has been or will be prepared.

This rule does not contain a collection of information for purposes of the Paperwork Reduction Act (Pub. L. 96-511).

List of Subjects in 13 CFR Part 309

Community development, Grant programs—community development, Loan programs—community development, Penalties.

PART 309—[AMENDED]

Under authority of section 701, Pub. L. 89-136, 79 Stat. 570 (42 U.S.C. 3211); sec. 1-105, Department of Commerce Organization Order 10-4, as amended (40 FR 56702), as amended, the interim regulation amending 13 CFR Part 309 which was published October 20, 1988 (51 FR 37175) is adopted as final without changes.

Date: December 9, 1988.

Orson G. Swindle, III,

Assistant Secretary for Economic Development.

[FR Doc. 88-29229 Filed 12-20-88; 8:45 am]

BILLING CODE 3510-24-M

13 CFR Part 314

[Docket No. 40333-7161]

Property Management Standards; Real Property

AGENCY: Economic Development Administration (EDA), Commerce.

ACTION: Affirmation of interim rule.

SUMMARY: This rule adopts as final the Economic Development Administration's (EDA) interim regulations at 13 CFR 314.5—*"Mortgages" without change.* This rule provides that funds obtained from loans secured by mortgages on property which has been financed by an EDA grant shall be provided only to the grantee for use on the project which is being mortgaged, or for working capital purposes relating to that project. This is consistent with and clarifies EDA regulations concerning waiver of the prohibition against placing mortgages on property improved by an EDA grant.

EFFECTIVE DATE: May 30, 1984.

FOR FURTHER INFORMATION CONTACT: James F. Marten, Deputy Chief Counsel, Economic Development Administration, U.S. Department of Commerce, Herbert C. Hoover Building, 14th Street, between Pennsylvania and Constitution Avenues, NW., Room 7001, Washington, DC 20230, (202) 377-5441.

SUPPLEMENTARY INFORMATION: EDA published this interim rule regarding mortgage waivers on May 20, 1984 (49 FR 22463) and allowed interested persons 60 days to comment. No comments were received.

Under Executive Order 12291 the Department must judge whether a regulation is "major" within the meaning of section 1 of the Order and therefore subject to the requirement that a Regulatory Impact Analysis be prepared. This regulation is not major because it is not likely to result in an annual effect on the economy of $100 million or more; a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Accordingly, neither a preliminary nor final Regulatory Impact Analysis has to be or will be prepared.

This final rule is exempt from all requirements of 5 U.S.C. 553 including notice and opportunity to comment and delayed effective date because it relates to public property, loans, grants, benefits and contracts.

No other law requires that notice and opportunity for comment be given for the rule.

Accordingly, the Department's General Counsel has determined and so certified to the Office of Management and Budget, that dispensing with notice and opportunity for comment is consistent with the Administrative Procedure Act (APA) and all other relevant laws.

Since notice and an opportunity for comment are not required to be given for this rule under section 553 of the APA (5 U.S.C. 553) or any other law, under sections 603(a) and 604(a) of the Regulatory Flexibility Act (5 U.S.C. 603(a), 604(a)), no initial or final Regulatory Flexibility Analysis has been or will be prepared.

This rule does not contain a collection of information for purposes of the Paperwork Reduction Act (Pub. L. 96-511).

List of Subjects in 13 CFR Part 314

Economic development, Grant programs—economic development, Government property management, Public works grants.

PART 314—[AMENDED]

Under authority of section 701, Pub. L. 89-136, 79 Stat. 570 (42 U.S.C. 3211); sec. 1-105, Department of Commerce Organization Order 10-4, as amended (40 FR 56702, as amended), the interim regulation amending 13 CFR Part 314 which was published May 30, 1984 (49 FR 22463) is adopted as final without changes.

Date: December 9, 1988.

BILLING CODE 3510-24-M

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

14 CFR Part 316

49 CFR Part 89

[OST Docket No. 45431; Amdt 316-1; Amdt 89-1]

Collection of Claims Owed the United States

AGENCY: Department of Transportation, Office of the Secretary.

ACTION: Final rule.

VOL 53 ISS 245 DE 21 1988 UMI

SUMMARY: This rule revises 49 CFR Part 89, Implementation of Federal Claims Collection Act of 1966, by adding procedures that implement the Debt Collection Act of 1982 for the Department of Transportation (DOT). This rule provides DOT with formal procedures for the collection of claims owed the United States arising from activities under the jurisdiction of the Department. No comments were received.

EFFECTIVE DATE: This rule is effective January 23, 1989.

FOR FURTHER INFORMATION CONTACT: Paul B. Larsen, Department of Transportation, Office of the General Counsel, 400 7th Street, SW., Room 10102, Washington, DC 20590, (202) 366–9161.

SUPPLEMENTARY INFORMATION: Congress adopted the Debt Collection Act of 1982 to increase the Government-wide efforts to collect debts owed the United States and to provide additional procedures for the collection of debts. The Act applies to debts owed the Department of Transportation. The Department has previously implemented the Debt Collection Act with regard to those functions previously performed by the Civil Aeronautics Board, see 14 CFR Part 316. The Department now will apply the debt collection procedures under 14 CFR Part 316 (50 FR 2428, January 16, 1985) to the entire Department. Also, a new provision is being added under which debts over 90 days delinquent may be turned over to professional debt collection contractors. The use of debt collection agencys is specifically provided for under section 13 (b) of the Debt Collection Act which added section 3(f) to the Federal Claims Collection Act (see 31 U.S.C. 3718).

The former CAB debt collection rules, 14 CFR Part 316, will be removed. They will be consolidated with existing DOT rules in 49 CFR Part 89. Subject to the qualifications stated in § 89.3 this rule applies to all claims under the Federal Claims Collection Act which are owed the Department. DOT operating elements, may, however, use different procedures for the collection of fines and penalties to the extent that such different procedures are allowed by applicable laws and regulations.

The provisions on interest, late payment penalties and collection charges and on collection by administrative offset will not apply to debts which other United States government agencies, state governments, or units of general local government owe the Department (see 31 U.S.C. 3701(c)) (however other statutory or common law may provide such authority). Neither will they apply to recovery of debts owed by current or former employees of the United States governed by 5 U.S.C. 5514. However they will apply to the debts of former employees not receiving the types of pay listed in that section.

DOT will, whenever feasible, collect claims by means of administrative offset against obligations of the United States to the debtor. DOT can refer claims to the Internal Revenue Service for collection by a reduction of tax refunds.

The notice of proposed rulemaking on the collection of claims owed the United States, 53 FR 4180, did not result in any comments.

Regulatory Process Matters

This regulation is classified as a "non-major" regulation under Executive Order 12291. This regulation has been evaluated under the Department of Transportation's Regulatory Policies and Procedures; the regulation is not significant under those procedures and its economic impact is expected to be so minimal that a regulatory evaluation is not warranted.

Regulatory Flexibility Act Determination

It has been certified that this regulation would not have a significant impact on a substantial number of small entities. The economic impact of the rule is expected to be minimal. In this regard, measures would be triggered only by a failure to pay debts owed the United States and, therefore, are avoidable, This Department has no reason to believe that small entities, in particular, would be seriously affected by this rule Environmental Impact

This regulation does not require an environmental impact statement under the National Environmental Policy Act (42 U.S.C. 4321, *et. seq.*) because it is not a major Federal action significantly affecting the quality of the human environment.

Federalism

The Department has determined that this rule does not involve sufficient Federalism impacts to warrant the preparation of a Federalism assessment.

List of Subjects

14 CFR Part 316

Claims, Penalties, Reporting and Recordkeeping Requirements.

49 CFR Part 89

Administrative practice and procedure, Claims Collection.

Accordingly, the Department of Transportation amends 14 CFR Chapter 11 and 49 CFR Subtitle A as set forth below:

PART 316—[REMOVED]

1. 14 CFR Part 316 is removed.

2. 49 CFR Part 89 is revised to read as follows:

PART 89—IMPLEMENTATION OF THE FEDERAL CLAIMS COLLECTION ACT

Subpart A—General

Sec.

89.1 Purpose.
89.3 Applicability.
89.5 Delegations of authority.
89.7 Exceptions to delegated authority.
89.9 Redelegation.
89.11 Standards for exercise of delegated authority.
89.13 Documentary evidence of compromise.
89.15 Regulations, reports, and supporting documentation.

Subpart B—Collection of Claims Section

89.21 Administrative collection.
89.23 Interest, late payment penalties, and collection charges.
89.25 Collection by administrative offset.
89.27 Referral for litigation.
89.29 Disclosure to commercial credit bureaus and consumer reporting agencies.
89.31 Use of professional debt collection agencies.
89.33 Collection of claims by reduction of tax refunds.

Authority. Pub. L. 89–508, July 19, 1966, 80 Stat. 308 (31 U.S.C. 3701, 3711; Pub. L. 97–365, secs. 3, 10, 11, 13(b), Oct. 25, 1982, 96 Stat. 1749, 1754, 1755, 1757 (31 U.S.C. 3701–3720A); Pub. L. 98–167, Nov. 29, 1983, 97 Stat. 1104 (31 U.S.C. 3718); Pub. L. 99–578, Oct. 28, 1986, 100 Stat. 3305 (31 U.S.C. 3718).

Subpart A—General

§ 89.1 Purpose.

This part implements the Federal Claims Collection Act of 1966, 31 U.S.C. 3701–3720 A, as amended primarily by the Debt Collection Act of 1982 (Pub. L. 97–365, 96 Stat. 1749) and the Debt Collection Amendments of 1986 (Pub. L. 99–578, 100 Stat. 3305). It supplements the Federal Claims Collection Standards (FCCS), 4 CFR Parts 101–105, issued jointly by the Comptroller General of the United States and the Attorney General of the United States under 31 U.S.C. 3711(e)(2). Pursuant to the Federal Claims Collection Act, as amended, and the FCCS, this part sets forth procedures by which the Department of Transportation (DOT) and its operating elements (see 49 CFR 1.3) through designated officials:

(a) Collect claims owed to the United States arising from activities under its jurisdiction;

(b) Determine and collect interest and other charges on those claims;

(c) Compromise claims; and

(d) Refer unpaid claims for litigation.

§ 89.3 Applicability.

(a) The part applies to collection of all claims due the United States under the Federal Claims Collection Act of 1966 as amended by the Debt Collection Act of 1982 and the Debt Collection Amendments of 1986 (Pub. L. 99–578), arising from activities under the jurisdiction of DOT including amounts due the United States from fees, overpayments, fines, civil penalties, loans, damages, interest, and other sources.

(b) This part does not apply to collection, settlement or compromise of debts owed the United States pursuant to authority other than Title 31, Chapter 37, Subchapter II: for example, application of this part to the enforcement of contracts under 46 U.S.C. 1117, delegated to the DOT Maritime Administration, is not required.

(c) Section 89.23 (interest, late payment penalties, and collection charges) and § 89.25 (collection by administrative offset) of this part do not apply to debts which other United States government agencies or state governments or units of general local government owe the Department (see 31 U.S.C. 3701(c)); however, other statutory or common law may provide legal authority. Neither does the proposed rule apply to recovery of debts owed by current or former employees of the United States governed by 5 U.S.C. 5514.

(d) Claims arising out of contracts that contain specific provisions relating to claims are governed by those specific provisions to the extent that those provisions comply with existing law and with 4 CFR Chapter II.

(e) As used in this part, the terms debt and claims are interchangeable and have the meaning defined in 4 CFR 101.2(a). A debtor's liability arising out of a particular incident or adjudication exclusive of interest, administrative costs, and late payment penalties, is a single claim.

(f) Except as provided in paragraphs (b), (c) and (d) of this section the provisions of this part shall apply to the collection of all debts and claims owed to any DOT operating element. A claim arising from the assessment of civil penalty or fine is not subject to the procedures of this subpart until the claim has been reduced to a liquidated debt by a signed settlement agreement, a court order or judgment, or a final administrative determination.

§ 89.5 Delegations of authority.

The functions, powers, and duties of the Secretary of Transportation to attempt collection of claims, to compromise claims of the United States not exceeding $20,000 and to suspend and terminate action to collect such claims are delegated to:

(a) The Assistant Secretary for Administration with respect to claims arising out of the activities of, or referred to, the Office of the Secretary; and

(b) The heads of other DOT operating elements with respect to claims arising out of the activities of, or referred to, their organizations.

§ 89.7 Exceptions to delegated authority.

The authority delegated under § 89.5 does not apply to any claim:

(a) As to which there is an indication of (1) fraud; (2) the presentation of a false claim; or (3) misrepresentation on the part of the debtor or any other party having an interest in the claim;

(b) Based on tax statutes; or

(c) Arising from an exception made by the General Accounting Office in the account of an accountable officer.

§ 89.9 Redelegation.

Each officer to whom authority is delegated under § 89.5 may redelegate and authorize successive redelegations of the authority within the organization under his or her jurisdiction.

§ 89.11 Standards for exercise of delegated authority.

The authority delegated under § 89.5 shall be exercised in accordance with the standards for the collection and compromise of claims and for the suspension and termination of action to collect claims promulgated by the United States General Accounting Office and the United States Department of Justice, and published at 4 CFR Chapter II, as those standards may be amended.

§ 89.13 Documentary evidence of compromise.

A compromise of any claim is not final or binding on the United States unless it is in writing, signed by an officer or employee authorized to compromise that claim.

§ 89.15 Regulations, reports, and supporting documentation.

(a) Each officer to whom authority is delegated under § 89.5 may promulgate regulations for the exercise of that authority within his or her organization. These regulations shall be revised, as necessary, to conform to any amendments to this part.

(b) Each officer to whom authority is delegated under § 89.5 shall furnish the following information to the Assistant Secretary for Administration:

(1) A copy of each redelegation of that authority.

(2) A semiannual report listing those claims compromised or with respect to which collection action has been suspended or terminated, specifying the name of the debtors, the amount of the claim, the nature of the claim, the type of action taken, and the general basis for the action taken.

(3) A copy of any implementing regulations governing the exercise of the authority delegated under § 89.5, and any amendments to those regulations.

(c) Each officer or employee to whom the Secretary's authority has been delegated or redelegated, before exercising such authority, shall acquire sufficient documentation to demonstrate that the action taken is in the best interests of the United States. This documentation will be retained with and treated as part of the file concerning the debt.

(d) The failure of any officer or employee to comply with this section does not limit or impair his or her exercise of authority.

Subpart B—Collection of Claims

§ 89.21 Administrative collection.

Except as provided differently by the DOT operating elements pursuant to § 89.3:

(a) DOT shall send a debtor a total of three progressively stronger written demands at not more than 30-day intervals, unless a response to the first or second demand indicates that a further demand would be futile or the debtor's response does not require rebuttal, or other pertinent information indicates that additional written demands would be unnecessary.

(b) The initial written demand for payment (and the notice of offset under § 89.25) shall inform the debtor of:

(1) The basis for the indebtedness and the debtor's right to obtain review (see § 89.21(f) for details on review).

(2) The amount of the claim;

(3) That domestic and overseas payment in excess of ten thousand dollars or more shall be made by wire transfer through the Federal Reserve communications, commonly known as Fedwire, to the account of the U.S. Treasury in accordance with the instructions provided in the demand letter; payments originating in foreign countries shall be made by wire transfer to the extent practicable.

(4) The delinquency date, or the date by which payment is to be made (30 days from the date of mailing or hand delivery of the initial demand letter);

(5) The standard for interest, penalties, and administrative charges in accordance with 31 U.S.C. 3717, if payment is not received by the due date [see § 89.23 for details regarding interest, collection charges, and late payment penalty charges];

(6) Where a notice of offset is concerned, the right to make voluntary payment before collection by offset begins (see § 89.25).

(7) The possible reporting of the claim to commercial credit bureaus and consumer reporting agencies; however a notice of offset should not include this warning.

(8) The possibility that DOT will forward the claim to a collection agency, the General Accounting Office, the Department of Justice, or private counsel contracting with the Department of Justice for collection; however a notice of offset should not include this warning.

(c) If the debtor fails to respond to the demands for payment by the due date specified in the notice, the Department may take further action under this part or the FCCS under 4 CFR Parts 101 through 105, pursuant to 31 U.S.C. 3701–3720A. These actions may include reports to commercial credit bureaus, consumer reporting agencies, contracts with commercial collection agencies, revocation of licenses, or the use of administrative offset, as authorized in 31 U.S.C. 3701–3720A.

(d) DOT may collect by administrative offset, (see § 89.25, Collection by administrative offset), if the debtor:

(1) Has not made payment by the payment due date;

(2) Has not requested a review of the claim within the agency as set out in paragraph (f) of this section; or

(3) Has not made an arrangement for payment by the payment due date;

(e) Except for information that may properly be withheld under 49 CFR Part 7, the debtor may inspect and copy the records of the agency related to the claim. Any reasonable costs associated with the copying and inspection of the records shall be borne by the debtor. (Payment of cost is governed by 49 CFR Part 7, Subpart I.) The debtor shall give reasonable notice in advance to the agency of the date on which it intends to inspect and copy the records involved;

(f)(1) Except for debts established by settlement agreement, court order or judgment, or final administrative decision, the debtor may request review of the validity or amount of a claim. To do so, the debtor shall make a request in writing for review of the claim prior to it becoming delinquent. (*See* 4 CFR 101.2 for definition of when a debt is considered delinquent.) The debtor's written response shall state the basis for the dispute, and provide all factual information, documents, citation to authority, argument and any other matters to be considered. If only part of the claim is disputed, the undisputed portion shall be paid by the delinquency date stated in the initial demand. During the period that the claim is being reviewed, the amount of the debt is owed, but the accrual of interest and accrual of time to delinquency may be suspended on the disputed portion of the debt.

(2) Review of claims shall be based upon the written record unless an oral hearing is required by 4 CFR 102.3(c). Upon completion of review, within 30 days whenever feasible, the Department shall advise the debtor whether the debt has been found to be valid in any amount, or that collection will be terminated. If the claim is found to be valid in any amount, the accrual of interest and time to delinquency shall commence 15 days after mailing of the notification of the review results. The notification of the review may also include notice of a specific collection action to be undertaken if payment is not received.

(g) The debtor may offer to make a written agreement to pay the amount of the claim. The acceptance of such an agreement is discretionary with DOT. If the debtor requests an installment payment arrangement because a lump sum payment would create a financial hardship, DOT may agree to a written installment payment schedule with the debtor (see 4 CFR 102.11(a)). The debtor shall execute a confess-judgment note which specifies all of the terms of the arrangement and includes a provision accelerating the debt in the event the debtor defaults. The size and frequency of installment payments shall bear a reasonable relation to the size of the debt and the debtor's ability to pay. Interest shall be provided in the note (see § 89.23). The debtor shall be provided with a written explanation of the consequences of signing a confess-judgment note. The debtor shall sign a statement acknowledging receipt of the written explanation, which shall recite that the statement was read and understood before execution of the note and that the note is being signed knowingly and voluntarily. Evidence of these facts shall be maintained in DOT's file on the debtor in accordance with the practice of the DOT operating element.

§ 89.23 Interest, late payment penalties, and collection charges.

(a) DOT shall charge interest on an outstanding debt at the Treasury Current Value of Funds Rate published by the Secretary of the Treasury in accordance with 31 U.S.C. 3717 and 4 CFR 102.13(c), unless DOT determines that a higher rate is necessary to protect the interests of the United States. DOT shall charge a late payment penalty at a rate of six percent a year on any portion of a debt that is more than 90 days past due. DOT shall also assess administrative charges to cover additional cost incurred in processing and handling the debt beyond the payment due date. The imposition of interest, collection charges, and late payment penalty charges shall be made in accordance with 31 U.S.C. 3717, 4 CFR 102.13 (see § 89.3(c) regarding payment of such charges by Federal, state and local government agencies).

(b) Interest on debt shall begin to accrue on the date on which the debtor is mailed or delivered notice of the debt and the interest requirements or, in the case of advance billings, on the calendar day following the specified due date of the debt, provided the advance billing gives notice of the interest requirements for late payment. Interest on the debt shall continue to accrue until payment is received. Interest shall be calculated only on the principal of the debt (simple interest). The rate of interest assessed shall be the rate in effect on the date from which interest begins to accrue, and will remain fixed for the duration of the indebtedness. The rate of interest assessed will generally be the Treasury Current Value of Funds Rate.

(c) The Department shall waive interest on debt that is paid within 30 calendar days after the date on which interest began to accrue.

(d) Collection charges on debt shall be computed to cover the cost of processing and handling the delinquent debt. It shall be either the actual cost to process the particular delinquent debt to which it is applied, or operating elements may set the amount of such monthly charge by cost analysis establishing the average of actual additional costs incurred by the operating element in processing similar debts. Collection charges may also include the expense of obtaining credit reports and of using a professional debt collection contractor.

(e) DOT may waive interest, collection charges, or late payment penalty charges if it finds that:

(1) The debtor would be eligible for compromise under standards set forth in 4 CFR 103.2 with regard to the amount of the debt;

(2) Collection of interest, administrative charges, or penalties will jeopardize collection of the principal of the debt; or

(3) It is otherwise in the best interests of the United States, including the situation in which an offset or installment payment agreement is in effect.

§ 89.25 Collection by administrative offset.

(a) Whenever feasible, after a debtor fails to pay a claim, request a review of a claim, or make an arrangement for payment following a demand made in accordance with § 89.21, DOT shall collect claims under this part by means of administrative offset against obligations of the United States to the debtor pursuant to 31 U.S.C. 3716 and 4 CFR 102.3. Salary offset against present or former employees of the United States is not governed by this Part (see 49 CFR Part 92).

(b) The Department shall notify the debtor in writing in conformance with 31 U.S.C. 3716 and the FCCS of its intent to collect the debt by offset, unless the debtor pays the debt in full, including all interest, administrative charges, and penalties, or executes an agreement to pay the debt by installment at terms acceptable to DOT.

(c) In making collection by administrative offset under 31 U.S.C. 3716, DOT must do so in accordance with the requirements set forth in § 89.21(b)(1–6). (See also procedures for recovery of debts to the United States by salary offset, 49 CFR Part 92.)

§ 89.27 Referral for litigation.

Claims that are not settled or for which collection action is not compromised, suspended or terminated under 4 CFR Parts 103 and 104 or collected by collection agencies shall be referred to the General Accounting Office or the Department of Justice for litigation in accordance with the procedures in 4 CFR Part 105.

§ 89.29 Disclosure to commercial credit bureaus and consumer reporting agencies.

(a) Data on all delinquent commercial and consumer debts may be reported to commercial credit bureaus and consumer reporting agencies (see 31 U.S.C. 3701(a)(3)). Sixty days prior to release of information to a consumer reporting agency, the debtor shall be notified, in writing, of the intent to disclose the existence of the debt to a consumer reporting agency. Such notice of intent may be by separate correspondence or included in correspondence demanding direct payment. The notice shall be in conformance with 31 U.S.C. 3711(f) and the Federal Claims Collection Standards.

(b) The information that may be disclosed is the debtor's name, address, social security number or taxpayer identification number, and any other information to establish the identify and location of the individual, the amount of the claim, status and history of the claim, and the program under which the claim arose.

§ 89.31 Use of professional debt collection agencies.

Debts over 90 days delinquent (see § 89.21(b)(4)) may be turned over to professional debt collection agencies except for those debts owed by State and local governments, other Federal agencies, current employees, and other debts prohibited by statute from being turned over to commercial collection agencies.

§ 89.33 Collection of claims by reduction of tax refunds.

Pursuant to 31 U.S.C. 3720A and regulations issued thereunder and in accordance with 26 CFR 301.6402, the Department may refer claims to the Internal Revenue Service for collection by reduction of tax refunds owed to the debtor by the United States.

Issued in Washington, DC, on this 14th day of December, 1988.

Jim Burnley,

Secretary of Transportation.

BILLING CODE 4910–62–M

FEDERAL TRADE COMMISSION

16 CFR Part 13

[Docket C–3241]

Certain Sioux Falls Obstetricians, et al.; Prohibited Trade Practices, and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.

ACTION: Consent order.

SUMMARY: In settlement of alleged violations of Federal law prohibiting unfair acts and practices and unfair methods of competition, this consent order prohibits, among other things, certain physicians practicing in the Sioux Falls, SD area, from continuing to act in combination to interfere with the operation of the University of South Dakota School of Medicine, obstetrical/gynecological (OB/GYN) program, and from further restricting competition for the provision of OB/GYN care in the Sioux Falls area.

DATE: Complaint and order issued October 11, 1988.[1]

FOR FURTHER INFORMATION CONTACT: Paul J. Nolan, FTC/S–3115, Washington, DC 20580. (202) 326–2770.

SUPPLEMENTARY INFORMATION: On Wednesday, July 20, 1988, there was published in the **Federal Register**, 53 FR 27357, a proposed consent agreement with analysis In the Matter of Thomas L. Looby, M.D./Certain Sioux Falls Obstetricians, et al., for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions or objections regarding the proposed form of order.

No comments having been received, the Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made its jurisdictional findings and entered its order to cease and desist in disposition of this proceeding.

The prohibited trade practices and/or corrective actions, as codified under 16 CFR Part 13, are as follows: Subpart—*Boycotting Seller-Suppliers:* § 13.302 *Boycotting seller-suppliers.* Subpart—*Coercing And Intimidating:* § 13.345 *Competitors;* § 13.355 *Customers or prospective customers of competitors;* § 13.367 *Members.* Subpart—*Combining Or Conspiring:* § 13.384 *Combining or conspiring;* § 13.385 *To boycott seller-suppliers;* § 13.470 *To restrain and monopolize trade;* § 13.497 *To terminate or threaten to terminate contracts, dealings, franchises, etc.* Subpart—*Corrective Actions And/Or Requirements:* § 13.533 *Corrective actions and/or requirements;* § 13.533–20 *Disclosures;* § 13.533–50 *Maintain means of communication;* § 13.533–60 *Release of general, specific, or contractual constrictions, requirements, or restraints.*

Federal Trade Commission Order Modifying Order Issued February 6, 1986

Commissioners: Daniel Oliver, Chairman, Terry Calvani, Mary L. Azcuenaga, Andrew J. Strenio, Jr.

In the matter of MidCon Corporation, a corporation, and United Energy Resources, Inc., a corporation, Docket No. 9198.

On July 8, 1988, MidCon Corporation ("MidCon") filed a Request To Reopen Proceeding and Modify Order ("Request"), pursuant to section 5(b) of the Federal Trade Commission Act, 15 U.S.C. 45(b), and § 2.51 of the Commission's Rules of Practice, 16 CFR 2.51, asking that the Commission reopen and modify the consent order in Docket No. 9198 ("Order"). The Order requires MidGon, among other things, to divest its interest in five natural gas pipelines ("Schedule A Properties") in the area between Baton Rouge and New Orleans, Louisiana ("Baton Rouge-New Orleans Corridor" or "Corridor").

In its Request, MidCon asks that the Commission reopen the Order and set aside the requirement that MidCon divest the Schedule A Properties. MidCon asserts that the sale of the common stock of United Gas Pipeline Company ("United") and UER Marketing Company ("UER Marketing") to LaSalle Energy Corporation ("LaSalle") on June 30, 1987, together with Commission adoption of two additional order provisions that MidCon proposes relating to agreements between MidCon and LaSalle, will accomplish the remedial purposes of the Order in Docket No. 9198. MidCon submits that "these circumstances (*i.e.*, the sale to LaSalle and the proposed order provisions) constitute changed conditions of fact sufficient to warrant reopening this proceeding to modify the Order" to set aside the divestiture requirement. MidCon also claims that the sale to LaSalle, together with the order modifications proposed by MidCon, satisfy the public interest concerns that led the Commission to issue the Order in this matter and that "it would be inequitable" in the circumstances to require MidCon to divest the Schedule A Properties.

Background

On February 6, 1986, the Commission issued the Order in this matter, requiring MidCon to divest the Schedule A Properties within one year from the date the Order became final. The purpose of the divestiture was to remedy the lessening of competition and increase in concentration in the transportation and sale of natural gas in the Baton Rouge-New Orleans Corridor that the Commission believed would result from MidCon's acquisition of United Energy Resources, Inc. ("UER"), as alleged in Count Two of the Commission's complaint. The Order became final on February 26, 1986. MidCon has not divested the Schedule A Properties.[1]

On June 30, 1987, MidCon's subsidiary, UER, sold the common stock of United and UER Marketing to LaSalle, a newly formed corporation. In partial payment of the purchase price, UER accepted a promissory note from LaSalle. The note provides that MidCon will acquire an equity interest in LaSalle in the event that LaSalle fails to meet its payment obligations. In addition to its note indebtedness to MidCon, LaSalle assumed substantial potential liabilities arising from the contract obligations of United.

MidCon and LaSalle also entered into a Master Agreement on Transportation ("Transportation Agreement"), in which MidCon guaranteed certain revenues to LaSalle for a period of years and LaSalle agreed to transport gas for MidCon on the United pipeline system. To ensure that LaSalle would not grant more favorable terms to other shippers than to MidCon, MidCon and LaSalle agreed to a "most-favored-nation" provision that prevents LaSalle from charging a higher price to MidCon than to other shippers for reasonably comparable shipments.

On July 23, 1987, MidCon filed a request to reopen the proceeding and modify the Order to set aside the requirement that MidCon divest the Schedule A Properties. The Commission denied the request on December 11, 1987. The Commission stated that the substantial and continuing financial and contractual commitments between MidCon and LaSalle would reduce the parties' incentives and ability to compete in the corridor, that MidCon had failed to establish that LaSalle would be an independent, viable competitor in the Corridor and that MidCon had failed to establish that the sale of United to LaSalle would achieve the remedial purposes of the Order. *See* Letter to Priscilla Mims, Esq., MidCon Corporation (December 11, 1987) ("MidCon Letter") (unpublished).

In its Request filed on July 8, 1988, MidCon again asks that the Commission reopen and modify the Order to set aside the requirement that MidCon divest the Schedule A Properties. As in its earlier request, MidCon asserts that the sale of United to LaSalle eliminates the horizontal overlap between United and the Schedule A Properties in the relevant market. In addition, MidCon asks that the Commission modify the Order to require MidCon to divest absolutely within nine months from the date of acquisition, subject to the prior approval of the Commission, any LaSalle stock that MidCon may acquire pursuant to the terms of the promissory note. MidCon also asks that the Commission modify the Order to prohibit MidCon from invoking the "most-favored-nation" clause of the Transportation Agreement in the Corridor. Finally, MidCon has supplied information that it claims attests to the financial viability of LaSalle. MidCon asserts that under these circumstances the sale of United to LaSalle restores United as a viable competitor in the

[1] On February 25, 1987, MidCon requested an extension of time to accomplish divestiture under the Order. On April 28, 1987, MidCon supplemented its request for an extension of time, disclosing the proposed sale of the United assets to LaSalle and asserting that the proposed sale would accomplish the remedial purposes of the Order. The Commission denied the request for an extension, noting that the appropriate procedure for proposing a divestiture different from that required by an order is by a request to reopen and modify the order so that the Commission may consider whether the alternative divestiture is sufficient to accomplish the remedial purposes of the order and thereby obviate the need for the remedy provided in the order. Letter to Priscilla Mims, Esq., MidCon Corporation (June 26, 1987) (unpublished).

Corridor and accomplishes the remedial purposes of the Order.

Standards for Reopening a Final Order

Section 5(b) of the Federal Trade Commission Act, 15 U.S.C. 45(b), provides that the Commission shall reopen an order to consider whether it should be modified in the petitioner "makes a satisfactory showing that changed conditions of law or fact require such order to be altered, modified, or set aside in whole or in part." A satisfactory showing sufficient to require reopening is made when a request to reopen identifies significant changes in circumstances and shows that the changes eliminate the need for the order or make continued application of the order inequitable or harmful to competition. *See Louisiana-Pacific Corp.*, Docket No. C–2956, Letter to John C. Hart (June 5, 1986) (unpublished). The burden is on the petitioner to make the satisfactory showing of changed conditions required by the statute. This burden is not a light one, in view of the public interest in repose and the finality of Commission orders. *See Federated Department Stores, Inc.* v. *Moitie*, 425 U.S. 394 (1981) (strong public interest considerations support repose and finality). If the Commission determines that the petitioner has made the necessary showing, the Commission must reopen the order to consider whether modification is required and, if so, the nature and extent of the modification.

Section 5(b) also provides that the Commission may modify an order when the Commission determines that the public interest so requires. Respondents are therefore invited in petitions to reopen to show how the public interest warrants the requested modification. In such a case, a petitioner must demonstrate as a threshold matter some affirmative need to modify the order. Once such a need has been shown, the Commission will weigh the reasons favoring the modification requested against any reasons not to to make the modification. *See Damon Corp.*, Docket No. C–2916, Letter to Joel E. Hoffman, Esq. (March 24, 1984), at 2 (unpublished); *see also Chevron Corp.*, Docket No. C–3147, 105 F.T.C. 228 (1985) (public interest warrants modification where potential harm to respondent's ability to compete outweighs any further need for the order). The Commission also will consider whether the particular modification sought is appropriate to remedy the identified harm.

The Public Interest Warrants Modification of the Order

The Commission has determined that it is in the public interest to reopen and modify the Order to set aside the requirement that MidCon divest the Schedule A Properties.[2] The sale of United to LaSalle, together with the additional order provisions proposed by MidCon to address the Commission's concerns that MidCon and LaSalle would not compete aggressively in the Corridor and that LaSalle would not be an independent, viable competitor in the Corridor, appear to be sufficient to remedy the lessening of competition and increase in concentration alleged in Count Two of the complaint. Divestiture of the Schedule A Properties as required by the Order would result in MidCon's exit from the relevant market, which is no longer necessary in light of MidCon's proposed additions to the Order and the additional information regarding LaSalle's viability.

The Commission was concerned that MidCon could acquire an interest in United as a result of MidCon's retained security interest under the promissory note. Such an interest would be inconsistent with the remedial purpose of the Order to eliminate the horizontal overlap and to reestablish the assets divested by MidCon as an independent competitive entity. A new order provision proposed by MidCon would require MidCon to divest, within nine months from the date of acquisition and subject to the prior approval of the Commission, any stock of LaSalle that it may acquire by operation of the promissory note or any other security interest. The proposed provision would prevent the possibility that MidCon could control or influence LaSalle in the event that MidCon contains LaSalle stock pursuant to the security interest.

The Commission was concerned that LaSalle's incentives to compete aggressively with MidCon for transportation of natural gas might be deterred by the requirement of the Transportation Agreement that LaSalle transport natural gas for MidCon on the same terms that LaSalle offers to any third parties. A new order provision proposed by MidCon would preclude MidCon's use of the "most-favored-nation" clause of the Transportation Agreement in the Corridor and thereby reduce the potential deterrent effect of the Transportation Agreement on competition. As modified, the Transportation Agreement would no longer provide a disincentive for LaSalle to compete aggressively with MidCon in the Corridor.[3]

The Commission also was concerned that the financial viability of LaSalle had not been demonstrated by MidCon, particularly in view of LaSalle's assumption of United's substantial potential liabilities and LaSalle's undertaking considerable debt obligations to finance the acquisition of United, including the promissory note to MidCon. MidCon has submitted financial statements of LaSalle, showing that LaSalle has operated United successfully during the past year. LaSalle has had positive operating revenue and has been able to meet its debt obligations following the acquisition of the United assets. In addition, the changes in the Transportation Agreement that eliminate possible disincentives for LaSalle to compete in the Corridor may enhance LaSalle's ability to compete and, therefore, its viability.

Conclusion

For the reasons described above, the Commission has determined to reopen and modify the Order to set aside the requirement that MidCon divest the Schedule A Properties. Therefore, the Order will be modified to set aside the requirement that MidCon divest the Schedule A Properties and to incorporate the other changes set forth below.[4]

Accordingly, *it is ordered* that this matter be reopened and that the Commission's order in Docket No. 9198, issued on February 6, 1986, be modified, as of the date of service of this Order, as follows:

1. The term "LaSalle stock" shall be substituted in every case for the term "Schedule A Properties" or "Properties" in Paragraphs III through VII.

2. The term "9-month" shall be substituted in every case for the term

---

[2] MidCon has not made a satisfactory showing of changed conditions of fact that require reopening of the Order. Because of the continuing connections between MidCon and LaSalle and the issues relating to LaSalle's viability, the sale of United does not achieve the remedy ordered by the Commission. *See* MidCon Letter at 3–5.

[3] In addition, MidCon and LaSalle have amended the Transportation Agreement to limit the operation of the "most-favored-nation" clause outside the Corridor. MidCon has represented that the amendment, § 7.8 of the Transportation Agreement, becomes effective if the Order is modified as requested by MidCon. In granting MidCon's request to modify the Order, the Commission has relied on this representation by MidCon.

[4] Occidental Petroleum Corporation acquired MidCon on April 1, 1986. Occidental has agreed to be bound as MidCon's parent by the terms of the Order in Docket No. 9198. Letter from Samuel Wolfson, *Esq.*, Assistant General Counsel, Occidental Petroleum Corp., to Elliot Feinberg, Assistant Director, Bureau of Competition, Federal Trade Commission (July 5, 1988).

VOL 53 ISS 245 DE 21 1988 UMI

"12-month" in Paragraphs III through VII.

3. Paragraph I shall be modified by replacing Paragraph I.(c) with the following:

(c) "MidCon" means MidCon Corp., its parent, subsidiaries, divisions, groups and affiliates controlled by MidCon and their respective directors, officers, employees, agents and representatives, and their respective successors and assigns.

4. Paragraph I shall be modified to add the following:

(g) "LaSalle" means LaSalle Energy Corp., its subsidiaries, divisions, groups and affiliates controlled by LaSalle and their respective directors, officers, employees, agents and representatives, and their respective successors and assigns.

5. Paragraph I shall be modified to add the following:

(h) "Transportation Agreement" means the Master Agreement on Transportation executed between MidCon and LaSalle on June 30, 1987.

6. Paragraph II shall be modified by replacing Paragraph II.(A) with the following:

(A) In the event MidCon, as a result of the operation of any promissory note, mortgage, bona fide lien, deed or trust or other form of security interest, executed in connection with the sale of United Gas Pipeline Company and UER Marketing Company to LaSalle, acquires, directly or indirectly, any LaSalle stock, MidCon shall, within ten (10) days, notify the Commission in writing and shall divest the acquired stock, absolutely and in good faith, in accordance with Paragraphs II through VII of this Order within nine (9) months of the acquisition.

7. Paragraph II shall be modified by replacing Paragraph II.(B) with the following:

(B) Divestiture of the LaSalle stock shall be made only to an acquirer or acquirers and only in a manner that receives the prior approval of the Federal Trade Commission. The purpose of the divestiture of the LaSalle stock is to ensure the continuation of the assets, interests and pipelines as ongoing, viable enterprises engaged in the same business in which they are presently employed and to remedy the lessening of competition resulting from the Acquisition as alleged in Count Two of the Commission's complaint.

8. A new Paragraph VIII shall be added:

It Is Further Ordered that MidCon cease and desist from taking any action to implement or otherwise enforce Section 3.5 (regarding rates for comparable natural gas transportation services) of the Transportation Agreement with respect to the shipment or transportation of any natural gas by LaSalle to any delivery point within the New Orleans-Baton Rouge Corridor.

9. Paragraph III shall be modified by replacing Paragraph III.(C) with the following:

(C) MidCon through its ownership of LaSalle stock shall not take any action to impair the viability of LaSalle's business.

10. Paragraph IV shall be modified by replacing Paragraph IV with the following:

It Is Further Ordered that, within sixty (60) days after giving the Commission notice required by Paragraph II of this Order and every sixty (60) days thereafter until MidCon has fully complied with the provisions of Paragraphs II and III of this Order, MidCon shall submit to the Commission a verified written report setting forth in detail the manner and form in which it intends to comply, is complying or has complied with those provisions. MidCon shall include in compliance reports, among other things that are required from time to time, a full description of contacts or negotiations for the divestiture of properties specified in Paragraph II of this Order, including the identity of all parties contacted. MidCon also shall include in its compliance reports copies of all written communications to and from such parties, and all internal memoranda, reports and recommendations concerning divestiture.

11. Paragraph V shall be modified to include the following sentence at the end of the first paragraph:

The provisions of this Paragraph shall not apply to the acquisition by MidCon of any LaSalle stock through the operation of any promissory note, mortgage, bona fide lien, deed or trust or other form of security interest executed in connection with the sale of United Gas Pipeline Company and UER Marketing Company to LaSalle.

By direction of the Commission.

Donald S. Clark,

Secretary.

Concurring Statement of Chairman Daniel Oliver, MidCon Corporation, Docket No. 9198

In September 1985 the Commission issued the complaint in this matter, challenging MidCon's acquisition of the United Gas Pipeline Company ("United").[1] Count II of the complaint alleged that the acquisition might substantially lessen competition in the transmission of natural gas in the area between Baton Rouge and New Orleans (the "Corridor"). In February 1986 the Commission settled Count II by accepting a consent order which permitted MidCon to retain the United pipeline assets in the Corridor, but required MidCon to divest other natural gas pipeline interests in the same market (the "Acadian Partnership" interests).[2]

In June 1987 MidCon sold United to LaSalle Energy Corporation. As a result, MidCon and United are once again competitors in the Corridor. MidCon subsequently filed a petition to modify the consent order to permit it to retain its Acadian Partnership interests. The Commission denied the petition in December of last year. I dissented from that decision because, in my view, MidCon's sale of United effectively eliminated any competitive problems that its earlier acquisition of United might have created.

The Commission staff and MidCon have now been able to negotiate additional modifications that have led a majority of the Commission to agree to delege the divestiture requirement. Although I do not believe that those additional modifications are necessary, I support the Commission decision to relieve MidCon of any additional divestiture obligations.

[T.D. 89-1]

Customs Regulations Amendments To Conform With Harmonized System of Tariff Classification

AGENCY: U.S. Customs Service, Department of the Treasury.

ACTION: Interim regulations; solicitation of comments.

SUMMARY: Classification of imported merchandise for rate of duty and statistical purposes is now determined by reference to the Tariff Schedules of the United States (TSUS). The U.S. intends to replace the TSUS effective

January 1, 1989, by acceding to the International Convention on the Harmonized Commodity Description and Coding System (HS). The new U.S. tariff based on the HS will be known as the Harmonized Tariff Schedule of the United States (HTSUS). The HS is a multipurpose nomenclature, intended to be used to describe and classify goods in international trade for customs purposes, for reporting all import and export trade statistics, and eventually for freight and transport documentation. To implement the HS, this document amends the Customs Regulations on an interim basis by removing all references to the TSUS and, in their stead, by inserting the appropriate HTSUS reference. Comments are solicited regarding the correctness of the HTSUS references being inserted, as well as any other changes that may be necessitated by the U.S. acceding to the HS.

DATES: The interim regulations become effective on January 1, 1989. Comments must be received on or before February 21, 1989.

ADDRESS: Comments (preferably in triplicate) may be addressed to and inspected at the Regulations and Disclosure Law Branch, U.S. Customs Service, 1301 Constitution Avenue, NW., Room 2119, Washington, DC 20229 (202–566–8237).

FOR FURTHER INFORMATION CONTACT: Hubbard L. Volenick, International Nomenclature Staff (202–566–8530).

SUPPLEMENTARY INFORMATION:

Background

The Harmonized System (HS) is the culmination of a 10-year effort by the member states of the Customs Cooperation Council (CCC), particularly the U.S. and its major trading partners, to develop a single modern structure for product classification which can be used for customs, tariff, trade statistics, and transport documentation purposes. Based on the present Customs Cooperation Council Nomenclature (CCCN), the HS is a more detailed classification scheme reflecting changes in technology, trade patterns and user requirements.

In August 1981 the President requested the U.S. International Trade Commission to initiate an investigation for the purpose of preparing a conversion of the Tariff Schedules of the U.S. (TSUS), the current reference source for determining the classification of imported merchandise, into the structure of the HS. The conversion provides numerical coding beyond the 6-digits of the international system, taking into account U.S. tariff and statistical requirements. Thus, each tariff provision is coded in 8-digits and the tariff reporting number in 10-digits.

This conversion, submitted to the President on June 30, 1983, was reviewed and revised by the Trade Policy Staff Committee, Office of U.S. Trade Representative, and republished as TPSC 84–76 on September 30, 1984. A further, more comprehensive, revision published in October 1986 was the basic working document employed in the GATT Article XXVIII negotiations aimed at U.S. adoption of the HS.

The HS Convention was opened for signature July 1, 1983, and thus far has been acceded to by 42 countries and the European Economic Community. The U.S. will deposit the instrument of accession to the Convention in 1988. The U.S. tariff based on the HS will be known as the Harmonized Tariff Schedule of the United States (HTSUS), as provided by the Omnibus Trade and Competitiveness Act of 1988, Pub. L. 100–418.

Purpose of Harmonized System

The HS is a multipurpose nomenclature, intended to be used to describe and classify goods in international trade for customs purposes, for reporting all import and export trade statistics, and eventually for freight and transport documentation. Its use is expected to increase uniformity and predictability of trade data, and promote standardization of trade and transport documentation. Implementation of the HS will impact not only all areas of trade, *i.e.*, imports, exports, transportation of goods, and trade statistics, but all aspects of Customs operations, including classification and appraisement of merchandise, selection for and examination of merchandise data entry into the Automated Commercial System (ACS), and the pre-release and release of goods. Brokers and importers will experience significant changes to their entry procedures.

Purpose of Document

To implement the HS, the Customs Regulations (19 CFR Chapter I), are being amended by removing all references to the TSUS, and, in their stead, inserting the appropriate HTSUS reference. In addition, due to an ongoing change in regulations style, footnotes to some parts are being omitted with references, where appropriate, being incorporated into the body of the section.

Comments

Before adopting the interim regulations as a final rule, consideration will be given to any written comments timely submitted to Customs. Customs is particularly interested in receiving comments regarding the correctness of HTSUS references being inserted, as well as any other changes that may be necessitated by the U.S. acceding to the HS. Comments submitted will be available for public inspection in accordance with the Freedom of Information Act (5 U.S.C. 552), § 1.4, Treasury Department Regulations (31 CFR 1.4), and § 103.11(b), Customs Regulations (19 CFR 103.11(b)), on regular business days between the hours of 9:00 a.m. and 4:30 p.m. at the Regulations and Disclosure Law Branch, Room 2119, U.S. Customs Service Headquarters, 1301 Constitution Avenue, NW., Washington, DC 20229.

Regulatory Flexibility Act

Because no notice of proposed rulemaking is required for interim regulations, the provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) do not apply.

Executive Order 12291

This document does not meet the criteria for a "major rule" as specified by E.O. 12291. Accordingly, no regulatory analysis has been prepared.

Paperwork Reduction Act

Sections of the regulations being amended or revised contain collections of information, subject to the Paperwork Reduction Act.

The regulation in § 134.22(b) is being revised without prior notice and public procedure pursuant to the Administrative Procedure Act (5 U.S.C. 553). For this reason, the collection of information contained in this section has been reviewed and, pending receipt and evaluation of public comments, approved by the Office of Management and Budget (OMB) under control number 1515–0163.

Comments concerning the collections of information and the accuracy of estimated average annual burden, and suggestions for reducing burden should be directed to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503, attention: Desk Officer for U.S. Customs Service.

The collection of information in this regulation is in § 134.22(b), pertaining to country of origin marking on imported containers and holders. This information is required by statute, 19 U.S.C. 304, to inform the public of the origin of certain imported containers and holders and is part of the general requirement that all imported goods be legibly marked showing the country of origin. The

primary potential user of the collected information is the ultimate consumer of the imported goods. The U.S. Customs Service enforces the law through its regulation, but it has no use for and makes no regular record of the information found in the marking. The likely respondents are business or other for-profit institutions and small businesses or organizations.

The reporting burden associated with this information collection is 15 seconds per response.

Estimated average annual burden hours per respondent is 10 minutes.

Estimated number of respondents: 10,000.

The information collection requirements contained in §§ 141.89, 151.63, and 151.82 of the Customs Regulations have been previously reviewed and approved under the Paperwork Reduction Act of 1980 (44 U.S.C. 3501).

Drafting Information

The principal author of this document was John G. Black, Regulations and Disclosure Law Branch, Office of Regulations and Rulings, U.S. Customs Service. However, personnel from other offices participated in its development.

List of Subjects in 19 CFR, Chapter I

Customs Duties and Inspection; Harmonized Tariff Schedule of the United States, Imports.

Amendments to the Regulations

Parts 4, 7, 10, 11, 12, 18, 19, 24, 54, 101, 103, 111, 113, 114, 122, 123, 127, 132, 134, 141, 142, 143, 144, 145, 146, 147, 148, 151, 152, 158, 159, 171, 177, and 191, Customs Regulations (19 CFR Parts 4, 7, 10, 11, 12, 18, 19, 24, 54, 101, 103, 111, 113, 114, 122, 123, 127, 132, 134, 141, 142, 143, 144, 145, 146, 147, 148, 151, 152, 158, 159, 171, 177, 191), are amended as set forth below.

PART 4—VESSELS IN FOREIGN AND DOMESTIC TRADES

1. The authority citation for Part 4 is revised to read as follows:

Authority: 5 U.S.C. 301; 19 U.S.C. 66, 1624; 46 U.S.C. 3.

§ 4.94 [Amended]

2. Section 4.94(d) is amended by removing the last sentence of the form and by adding, in its place, "See Chapter 89, Additional U.S. Note 1, HTSUS, and subheadings 8903.10, 8903.91, 8903.92, 8903.99.10, 8903.99.20, and 8903.99.90, HTSUS."

PART 7—CUSTOMS RELATIONS WITH INSULAR POSSESSIONS AND GUANTANAMO BAY NAVAL STATION

1. The authority citation for Part 7 is revised to read as follows:

Authority: R.S. 251, sec. 624, 46 Stat. 759, sec. 101, 76 Stat. 72; 19 U.S.C. 66, 1624, General Note 9, Harmonized Tariff Schedule of the United States, unless otherwise noted.

§ 7.8 [Amended]

2. Section 7.8 is amended by removing the words "General Headnote 3(a), Tariff Schedules of the United States" in the first sentence of both paragraph (a) and paragraph (b) and by adding, in their place, the words "General Note 3(a)(iv), HTSUS."

PART 10—ARTICLES CONDITIONALLY FREE SUBJECT TO A REDUCED RATE, ETC.

1. The authority citation for Part 10 is revised to read as follows:

Authority: 5 U.S.C. 301, 19 U.S.C. 66, 1202 (General Note 9, Harmonized Tariff Schedule of the United States), 1624. Secs. 10.11 through 10.24 also issued under sec. 502, 46 Stat. 731, as amended, 77A Stat. 14, 19 U.S.C. 1202 (General Note 10, Harmonized Tariff Schedule of the United States), 1502. Additional authority and statutes interpreted or applied are cited in the text or following the sections affected.

§ 10.1 [Amended]

2. Section 10.1 is amended as follows:

(a) Paragraph (a) is amended by removing the words "item 800.00 and item 805.00, Tariff Schedules of the United States" in the introductory paragraph and adding, in their place, "subheading 9801.00.10 and subheading 9802.00.20, Harmonized Tariff Schedule of the United States (HTSUS)."

(b) Paragraph (b) is amended by removing the words "Schedule 8, Part 1, Tariff Schedules of the United States" and adding, in their place, "Chapter 98, Subchapter I, HTSUS."

(c) Paragraph (d) is amended by removing the words "item 800.00 or item 805.00 Tariff Schedules of the United States, and the related headnotes" and adding, in their place, the words "subheadings 9801.00.10 or 9802.00.20, HTSUS; and related section and additional U.S. notes."

(d) Paragraph (e) is revised to read as follows:

(e) No evidence relative to the conditions of subheading 9801.00.10, HTSUS, shall be required in the case of articles the product of the U.S. in use at the time of importation as the usual coverings or containers of merchandise not subject to an ad valorem rate of duty unless such articles would be dutiable if not products of the U.S. under General Rule of Interpretation 5, HTSUS.

(e) Paragraph (f) is amended by removing the words "item 805.00," and adding, in their place, the words "subheading 9802.00.20, HTSUS".

(f) Paragraph (g) is amended by removing the words "item 800.00, Tariff Schedules of the United States" and adding, in their place, the words "subheading 9801.00.10, HTSUS".

(g) Paragraph (h) is amended by removing the words "item 800.00, Tariff Schedules of the United States" from subparagraph (1) and adding, in their place, the words "subheading 9801.00.10, HTSUS"; by removing the words "item 804.20, Tariff Schedules of the United States" from subparagraph (1)(iv) and adding, in their place, the words "subheading 9801.00.80, HTSUS"; by removing the words "item 800.00", from subparagraph (5)(i), and by adding, in their place, the words "subheading 9801.00.10"; by removing the words "item 800.00, Tariff Schedules of the United States", from subparagraph (j)(2), and by adding, in their place, the words "subheading 9801.00.10, HTSUS".

§ 10.3 [Amended]

3. Section 10.3 is amended as follows:

(a) Paragraph (a) is amended by removing the words "schedule 8, part 1, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 98, Subchapter 1, Harmonized Tariff Schedule of the United States (HTSUS)".

(b) The chart in paragraph (b) is revised to read as follows:

Article	Duty assessment
Drums, metal (when not exempted from duty in accordance with sec. 10.3(c))	24 cents each.
Hosiery, nylon	45 cents per dozen.
Lead compound, tetraethyl	$0.003 per kilogram.
Lithopone	$0.00065 per kilogram.
Oxide, zinc	$0.0029 per kilogram.
Piece goods, cotton:	
Bleached	$0.03199 per square meter.

Article	Duty assessment
Dyed	$0.03454 per square meter.
Printed	$0.03226 per square meter.
Piece goods, nylon: Dyed	$0.29086 per square meter.
Piece goods, rayon:	
Printed	$0.04867 per square meter.
Other than printed (white, piece dyed or yarn dyed)	$0.06478 per square meter.
Tallow, refined, inedible	$0.003 per kilogram.

(c) Paragraph (c) is amended by removing the words "Schedule 8, Part 1, Tariff Schedules of the United States" from subparagraph (1), and by adding, in their place, the words "Chapter 98, Subchapter 1, HTSUS"; by removing the words "item 804.10 and 804.20, Tariff Schedules of the United States", and the words "items 804.10 or 804.20", from subparagraph (3), and by adding, in their place, the words "9801.00.70 or 9801.00.80, HTSUS"; by removing footnote 3 from subparagraph (4).

(d) Paragraph (f) is amended by removing the words "item 804.20, Tariff Schedules of the United States," and by adding, in their place, the words "subheading 9801.00.80, HTSUS".

4. Section 10.5(h) is revised to read as follows:

§ 10.5 Shooks and staves; cloth boards; district director's account.

* * * * *

(h) A record of cloth boards of domestic manufacture exported to be wrapped with foreign textiles shall be kept by the district director in a similar manner as for shooks and staves. Cloth boards of domestic manufacture are conditionally free of duty under Chapter 98, subchapter 1, Harmonized Tariff Schedule of the United States (HTSUS). If such boards are advanced in value or improved in condition while aboard, free entry shall be denied on importation.

§ 10.8 [Amended]

5. Section 10.8 is amended as follows:

(a) Paragraph (a) is amended by removing the words "item 806.20, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9802.00.40, Harmonized Tariff Schedule of the United States (HTSUS)".

(b) Paragraph (e) is amended by removing the words "item 806.20" and by adding, in their place, the words "subheading 9802.00.40, HTSUS" and by removing the reference to footnote 1 and footnote 1 to the chart; and by adding in the third column of the chart after the word "alterations", the phrase "(see Chapter 98, Subchapter 2, HTSUS)".

(c) Paragraphs (i) and (j) are amended by removing the words "item 806.20 and related headnotes" and by adding, in their place, the words "subheading 9802.00.40, HTSUS, and related section and additional U.S. notes."

(d) Paragraphs (k) and (l) are amended by removing the words "item 806.20, TSUS" and "item 806.20," and by adding, in their place, the words "subchapter 9802.00.40, HTSUS".

§ 10.8a [Amended]

6. Section 10.8a is amended by removing the words "item 801.10, Tariff Schedules of the United States" from paragraphs (a), (b) and (c) and by adding, in their place, the words "subheading 9801.00.25, Harmonized Tariff Schedule of the United States". Section 10.8a is further amended by removing the word "headnotes" from paragraph (c) and by adding, in its place, the words "section and additional U.S. notes".

§ 10.9 [Amended]

7. Section 10.9 is amended as follows:

(a) Paragraph (a) is amended by removing the words "item 806.30" and adding, in their place, the words "subheading 9802.00.60, Harmonized Tariff Schedule of the United States (HTSUS)".

(b) Paragraph (e) is amended by removing the words "item 806.30" and by adding, in their place, the words "subheading 9802.00.60, HTSUS" and by removing the reference to footnote 1 and footnote 1 to the chart and by adding, in the third column of the chart, after the word "processing", the words "(see Chapter 98, Subchapter II, HTSUS)".

(c) Paragraph (g) is amended by removing the words "item 806.30 and related headnotes" and by adding, in their place, the words "subheading 9802.00.60, HTSUS, and related section and additional U.S. notes."

(d) Paragraph (h) is amended by removing the words "item 806.30, Tariff Schedules of the United States, and related headnotes" and by adding, in their place, the words "subheading 9802.00.60, HTSUS, and related section and additional U.S. notes."

(e) Paragraph (i) is amended by removing the words "item 806.30, TSUS" and adding, in their place, "subheading 9802.00.60, HTSUS".

(f) Paragraph (j) is amended by removing the words "item 806.30" and by adding, in their place, the words "subheading 9802.00.60, HTSUS".

§ 10.11 [Amended]

8. Section 10.11 is amended by removing the words "item 807.00, Tariff Schedules of the United States" wherever they appear and by adding, in their place, the words "subheading 9802.00.80, Harmonized Tariff Schedule of the United States".

§ 10.12 [Amended]

9. Section 10.12 is amended by removing the words "item 807.00, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9802.00.80, Harmonized Tariff Schedule of the United States".

10. Section 10.13 is amended as follows:

(a) The section heading is revised as follows:

§ 10.13 Statutory provision: Subheading 9802.00.80, Harmonized Tariff Schedule of the United States (19 U.S.C. 1202).

(b) The paragraph is amended by removing the words "Item 807.00, Tariff Schedules of the United States" and by adding, in their place, the words "Subheading 9802.00.80, Harmonized Tariff Schedule of the United States (HTSUS)," and by removing the words "Tariff Schedules of the United States" and by adding, in their place, the word "HTSUS".

§ 10.14 [Amended]

11. Section 10.14 is amended as follows:

(a) Paragraph (a) is amended by removing the words "item 807.00, Tariff Schedules of the United States" and adding, in their place, the words "subheading 9802.00.80, Harmonized Tariff Schedule of the United States (HTSUS)".

(b) Paragraph (b) is amended by removing the words "item 807.00, Tariff Schedules of the United States" from Example 3 and by adding, in their place, the words "subheading 9802.00.80, HTSUS".

§ 10.15 [Amended]

12. Section 10.15(d) and the Example are amended by removing the words "item 864.05, Tariff Schedules of the

United States" and by adding, in their place, the words "subheading 9813.00.05, HTSUS".

§ 10.16 [Amended]

13. Section 10.16 is amended as follows:

(a) Paragraph (c) is amended by removing the words "item 807.00, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9802.00.80, Harmonized Tariff Schedule of the United States".

(b) Paragraph (f) is amended by removing the words "General Headnote 6, Tariff Schedules of the United States" and by adding, in their place, the words "General Rule of Interpretation 5, HTSUS".

§ 10.18 [Amended]

14. Section 10.18 is amended by removing the words "item 807.00, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9802.00.80, Harmonized Tariff Schedule of the United States (HTSUS)".

§ 10.24 [Amended]

15. Section 10.24 is amended as follows:

(a) The introductory text of paragraph (a) is amended by removing the words "item 807.00, Tariff Schedules of the United States", and by adding, in their place, the words "subheading 9802.00.80, Harmonized Tariff Schedule of the United States (HTSUS)".

(b) The form appearing in paragraph (a)(1) is amended by removing the words "Headnote 3, part 1B, Schedule 8, Tariff Schedules of the United States", from footnote 1 and by adding, in their place, the words "U.S. Note 4 to Subchapter II of Chapter 98, Harmonized Tariff Schedule of the United States".

(c) The form appearing in paragraph (a)(1) is further amended by removing the words "item 807.00, Tariff Schedules of the United States," and by adding, in their place, the words "subheading 9802.00.80, Harmonized Tariff Schedule of the United States".

(d) The form in paragraph (a)(2) is amended by removing the words "headnotes of the Tariff Schedules of the United States" and by adding, in their place, the words "legal notes to the Harmonized Tariff Schedule of the United States."

(e) Paragraph (d) is amended by removing the words "item 807.00, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9802.00.80, HTSUS".

(f) Paragraph (e) is amended by removing the words "item 807.00, Tariff Schedules of the United States (19 U.S.C. 1202), and related headnotes" and by adding, in their place, the words "subheading 9802.00.80, HTSUS, and related legal notes".

§ 10.31 [Amended]

16. Section 10.31 is amended as follows:

(a) Paragraph (a)(1) is amended by removing the words "Schedule 8, Part 5C, Tariff Schedules of the United States (TSUS)," and by adding, in their place, the words "Chapter 98, Subchapter XIII, Harmonized Tariff Schedule of the United States (HTSUS)" and by removing footnote 34.

(b) Paragraph (a)(2) is amended by removing the words "item 864.05, TSUS", and by adding, in their place, the words "subheading 9813.00.05, HTSUS".

(c) Paragraph (a)(3)(i) is amended by removing the words "TSUS item" and by adding, in their place, the words "HTSUS subheading".

(d) Paragraph (b) is amended by removing the words "item 864.35, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9813.00.35, HTSUS"

(e) Paragraph (e) is amended by removing the words "item 864.05 of the Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9813.00.05, HTSUS", and by removing the words "Schedule 8, Part 5C, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 98, Subchapter XIII, HTSUS".

(f) Paragraph (f) is amended by removing the words "item 864.20, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9813.00.20, HTSUS"; by removing the words "item 864.25" and by adding, in their place, the words "subheading 9813.00.25, HTSUS"; by removing the words "item 864.50" and by adding, in their place, the words "subheading 9813.00.50, HTSUS"; by removing the words "item 864.05, 864.20, or 864.50, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9813.00.05, 9813.00.20, or 9813.00.50, HTSUS"; by removing the words "item of Schedule 8, Part 5C, Tariff Schedules of the United States" and by adding, in their place, the words "subheading of Chapter 98, Subchapter XIII, HTSUS".

(g) Paragraph (g) is amended by removing the words "Schedule 8, Part 5C, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 98, Subchapter XIII, HTSUS".

§ 10.34 [Amended]

17. Section 10.34 is amended by removing the words "item 864.70, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9813.00.70, Harmonized Tariff Schedule of the United States".

§ 10.35 [Amended]

18. Section 10.35 is amended as follows:

(a) Paragraph (a) is amended by removing the words "item 864.10, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9813.00.10, Harmonized Tariff Schedule of the United States (HTSUS)".

(b) Paragraph (b) is amended by removing the words "item 864.10 or 864.25" and by adding, in their place, the words "subheading 9813.00.10 or 9813.00.25, HTSUS".

§ 10.36 [Amended]

19. Section 10.36 is amended as follows:

(a) Paragraph (a) is amended by removing the words "item 864.20 or item 864.50, Tariff Schedules of the United States" and by adding, in their place, the words "subheadings 9813.00.20 or 9813.00.50, Harmonized Tariff Schedule of the United States, (HTSUS)".

(b) Paragraph (b) is amended by removing the words "item 864.65, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9813.00.65, HTSUS" and by removing the words "items in Schedule 8, Part 5c, Tariff Schedules of the United States" and by adding, in their place, the words "subheadings in chapter 98, subchapter XIII, HTSUS".

(c) The concluding text is amended by removing the words "item 864.20 or item 864.50, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9813.00.20 or subheading 9813.00.50, HTSUS".

20. Section 10.36a is amended as follows:

(a) Paragraph (a) is revised to read as follows:

§ 10.36a Vehicles, pleasure boats and aircraft brought in for repair or alteration.

(a) A vehicle (such as an automobile, truck, bus, motorcycle, tractor, trailer), pleasure boat, or aircraft brought into the United States by an operator of such vehicle, pleasure boat, or aircraft for repair or alteration (as defined in paragraph (a) of § 10.8) may be entered on the operator's baggage declaration, in lieu of formal entry and examination, and may be passed under subheading 9813.00.05, Harmonized Tariff Schedule

of the United States (HTSUS), at the place of arrival in the same manner as passengers' baggage. When the vehicle, aircraft, or pleasure boat to be entered is being towed by or transported on another vehicle, the operator of the towing or transporting vehicle may make entry for the vehicle, aircraft or pleasure boat to be repaired or altered. The bond, prescribed by § 10.31(f), filed to support entry under this section shall be without surety or cash deposit except as provided by this paragraph and paragraph (d) of this section. The examination may be made by an inspector who is qualified to determine the amount of such bond to be filed in support of the entry. The privilege accorded by this paragraph shall not apply when two or more vehicles, pleasure boats, or aircraft are to be entered by the same importer under subheading 9813.00.05, HTSUS, at the same time. In that event, the importer must file a formal entry supported by bond with surety or cash deposit in lieu of surety.

§ 10.39 [Amended]

23. Section 10.39 is amended as follows:

(a) Paragraph (a) is amended by removing the words "Schedule 8, Part 5c, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 98, Subchapter XIII, Harmonized Tariff Schedule of the United States, (HTSUS)" and by removing the words "item 864.30, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9813.00.30, HTSUS".

(b) Paragraph (d)(1) and (d)(3) are amended by removing the words "Schedule 8, Part 5C, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 98, subchapter XIII, HTSUS".

(c) Paragraphs (e) and (f) are amended by removing the words "Schedule 8, Part 5C" and by adding, in their place, the words "Chapter 98, subchapter XIII".

§ 10.40 [Amended]

24. Section 10.40(b) is amended by removing the words "Schedule 8, Part 5C, Tariff Schedules of the United States" and by adding, in their place, the words" "Chapter 98, subchapter XIII, Harmonized Tariff Schedule of the United States".

25. The title "International Traffic" that appears immediately before § 10.41, is amended by removing footnote 37.

§ 10.41a [Amended]

26. Section 10.41a is amended by removing footnote 38a.

§ 10.41b [Amended]

27. Section 10.41b is amended as follows:

(a) Paragraph (b) is amended by removing the word "item 800.00, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9801.00.10, Harmonized Tariff Schedule of the United States" and by removing the number "800.00" in paragraphs (b)(1) and (b)(3), and by adding, in its place, the numbers "9801.00.10".

(b) Paragraph (c)(1) introductory text is amended by removing the words "item 808.00, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9803.00.50, HTSUS".

(c) Paragraphs (c)(1)(i) and (c)(1)(iv) are amended by removing the number "808.00" and by adding, in its place, the number "9803.00.50".

(d) Paragraph (c)(2) introductory text is amended by removing the words "40,000 pounds" and adding, in their place, the words "18,120 kilograms" and by removing the words "item 808.00, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9803.00.50, HTSUS".

§ 10.43 [Amended]

28. Section 10.43 is amended by removing the words "items 850.10, 850.40, 850.70, 851.10, 851.20, 851.30, 851.40, 851.50, Tariff Schedules of the United States" and by adding, in their place, the words "subheadings 9810.00.05, 9810.00.15, 9810.00.25, 9810.00.30, 9810.00.40, 9810.00.45, 9810.00.50, 9810.00.55, Harmonize l Tariff Schedule of the United States".

§ 10.46 [Amended]

29. Section 10.46 is amended by removing the words "items 830.00 and 831.00, Tariff Schedules of the United States" and by adding, in their place, the words "subheadings 9808.00.10 and 9808.00.20" and by removing footnote 41.

§ 10.47 [Amended]

30. Section 10.47 is amended by removing the words "item 807.27, Tariff Schedules of the United States" and by adding, in its place, the words "subheading 4705.00.00, Harmonized Tariff Schedule of the United States" and by removing footnote 42.

§ 10.48 [Amended]

31. Section 10.48 is amended as follows:

(a) Paragraph (a) is amended by removing the words "items 765.10, 765.15, 765.20, 765.25, Tariff Schedules of the United States" and by adding, in their place, the words "subheadings 9701.90.00, 9702.00.00, and 9703.00.00, Harmonized Tariff Schedule of the United States (HTSUS)", and by removing footnote 43.

(b) Paragraph (e) is amended by removing the words "item 765.25, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9701.90.00, HTSUS".

§ 10.49 [Amended]

32. Section 10.49 is amended as follows:

(a) Paragraph (a) is amended by removing the words "Schedule 8, Part 5B, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 98, Subchapter XII, Harmonized Tariff Schedule of the United States (HTSUS)"; by removing footnote 44, and by removing the words "Schedule 8, Part 5B" and by adding, in their place, the words "Chapter 98, Subchapter XII".

(b) Paragraph (c) is amended by removing the words "item 862.10, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9812.00.20, HTSUS".

(c) Paragraph (d) is amended by removing the words "Schedule 8, Part 5B" and by adding, in their place, the words "Chapter 98, Subchapter XII".

VOL 53 ISS 245 DE 21 1988 UMI

§ 10.52 [Amended]

33. Section 10.52 is amended by removing the words "item 850.30, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9810.00.10, Harmonized Tariff Schedule of the United States".

§ 10.53 [Amended]

34. Section 10.53 is amended as follows:

(a) Paragraphs (a) and (c) are amended by removing the words "item 766.20 or 766.25, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9705.00.00 or 9706.00.00, Harmonized Tariff Schedule of the United States (HTSUS)".

(b) Paragraphs (b), (d) and (f) are amended by removing the words "items 766.20 and 766.25, Tariff Schedules of the United States" wherever they appear and by adding, in their place, the words "subheadings 9705.00.00 and 9706.00.00, HTSUS".

(c) Paragraph (c) is further amended by adding the following new sentences at the end of the paragraph: "Furniture as used in this section of the regulations is defined as 'movable articles of convenience or decoration for use in furnishing a house, apartment, place of business or accommodation'. This definition embraces most articles claimed to be free of duty as antiques."

(d) Paragraphs (f) and (g) are amended by removing the words "item 766.30, Tariff Schedules of the United States" and by adding, in their place, the words "additional U.S. Note 2, Chapter 96, HTSUS".

§ 10.54 [Amended]

35. Section 10.54 is amended by removing the words "item 364.05, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 5805.00.10, Harmonized Tariff Schedule of the United States", and is further amended by removing the words "$20 per square foot" and by adding, in their place, the words "$215 per square meter".

§ 10.56 [Amended]

36. Section 10.56(a) is amended by removing the words "item 176.28, 176.32, 176.44, 176.45, 176.49, or 176.54, Tariff Schedules of the United States" and by adding, in their place, the words "subheadings 1509.10.20, 1509.10.40, 1509.90.20, 1509.90.40, 1510.00.20, 1512.19.20, 1513.29.00, 1514.90.10, 1514.90.50, 1515.50.00, Harmonized Tariff Schedule of the United States".

§ 10.57 [Amended]

37. Section 10.57 is amended by removing the words "item 137.20, Tariff Schedules of the United States, or as seed corn or maize under item 130.30, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 0701.10.00, as seed corn (maize) under subheading 1005.10., HTSUS".

§ 10.58 [Amended]

38. Section 10.58(a) is amended by removing the words "item 357.25, Tariff Schedules of the United States"; by adding, in their place, the words "subheading 5911.20.20, Harmonized Tariff Schedule of the United States"; and by removing the phrases "4 inches" and "3 inches" and by adding, in their place, "10.16 centimeters" and "7.62 centimeters", respectively.

§ 10.59 [Amended]

39. Section 10.59 is amended as follows:

(a) Footnote 56 referred to in the section heading is removed.

(b) Paragraph (c) is amended by removing the words "general headnote 6, Tariff Schedules of the United States" and by adding, in their place, the words "General Rule of Interpretation 5".

(c) Paragraph (e) is amended by removing the reference to footnote 57 and by adding the text of the footnote at the end of paragraph.

(d) Paragraph (f) is amended by removing footnote 57a.

§ 10.63 [Amended]

40. Section 10.63 is amended by removing footnote 58.

§ 10.65 [Amended]

41. Section 10.65 (a) and (c)(2) are amended by removing footnote 59 and the reference to footnote 60, and by adding the text of footnote 60 at the end of paragraph (c)(2).

§ 10.66 [Amended]

42. Section 10.66 (a) and (c) are amended by removing the words "item 802.20 or item 802.30, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9801.00.50 or 9801.00.60, Harmonized Tariff Schedule of the United States (HTSUS)".

§ 10.67 [Amended]

43. Section 10.67 is amended as follows:

(a) Paragraphs (a) and (c) are amended by removing the words "item 802.10, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9801.00.40, Harmonized Tariff Schedule of the United States (HTSUS)".

(b) Footnote 63 to § 10.67 is removed.

§ 10.70 [Amended]

44. Section 10.70 (a) is amended by removing the words "item 100.01, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 0101.11.00, Harmonized Tariff Schedule of the United States (HTSUS)".

§ 10.71 [Amended]

45. Section 10.71 (e) is amended by removing the words "item 100.01, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 0101.11.00, Harmonized Tariff Schedule of the United States (HTSUS)".

§ 10.74 [Amended]

46. Section 10.74 is amended by removing the words "item 100.03, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9801.00.90, Harmonized Tariff Schedule of the United States".

§ 10.75 [Amended]

47. Section 10.75 is amended by removing the words "item 852.20, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9810.00.70, Harmonized Tariff Schedule of the United States (HTSUS), (19 U.S.C. 1202)"; and by removing the words "item 852.20" and by adding, in their place, the words "subheading 9810.00.70, HTSUS".

§ 10.76 [Amended]

48. Section 10.76 is amended as follows:

(a) Paragraphs (a) and (b) are amended by removing the words "item 100.05, Tariff Schedules of the United States," and by adding, in their place, the words "subheading 9817.70, Harmonized Tariff Schedule of the United States (HTSUS),".

(b) Paragraph (a) is further amended by removing the reference to footnote 70.

§ 10.77 [Removed and Reserved]

49. Part 10 is amended to removing § 10.77 and marking it "reserved" and by removing footnote 71 to § 10.77.

§ 10.78 [Amended]

50. Section 10.78 is amended as follows:

(a) Paragraph (b) is amended by removing the words "schedule 1, Part 15A, Tariff Schedules of the United States" and by adding, in their place, the words "Subchapter XV of Chapter 98, Harmonized Tariff Schedule of the United States".

(b) The section is further amended by removing footnote 72.

51. Section 10.80 is revised to read as follows (footnote 74 is consequently removed):

§ 10.80 Remission of duty; withdrawal; bond.

Imported salt in bond may be used in curing fish taken by vessels licensed to engage in the fisheries, and in curing fish in the shores of the navigable waters of the U.S., whether such fish are taken by licensed or unlicensed vessels, and upon proof that the sale has been used for either of such purposes, the duties on the same shall be remitted. (Section 313(e), Tariff Act of 1930, 19 U.S.C. 1313(e)). Imported salt entered for warehouse may be withdrawn under bond for use in curing fish. Upon proof that the salt has been so used, the duties thereon shall be remitted. In no case shall the quantity of salt withdrawn exceed the reasonable requirements of the case. Withdrawal shall be made on Customs Form 7506. Each withdrawal shall contain the statement prescribed for withdrawals in § 144.32 of this chapter. When the withdrawal is made by a person other than the importer of record, a bond on Customs Form 301, containing the bond conditions set forth in § 113.62 of this chapter for the production of proof of proper use shall be filed. Upon acceptance of the bond, a withdrawal permit shall be issued on Customs Form 7506.

§ 10.84 [Amended]

52. Section 10.84 is amended as follows:

(a) Paragraphs (a) and (b)(4) are amended by removing the words "General Headnote 3(d), Tariff Schedules of the United States" and by adding, in their place, the words "General Note 3(c)(iii)(A)(1), Harmonized Tariff Schedule of the United States (HTSUS)".

(b) Paragraph (c) is amended by removing the words "Schedule 6, Part 6, Subpart B, Headnote 2(a), Tariff Schedules of the United States" and by adding, in their place, the words "General Note 3(c)(iii)(A)(2)".

(c) Paragraph (d) is amended by removing the words "Schedule 6, Part 6, Subpart B, Headnote 2(d)(ii)" and by adding, in their place, the words "General Note 3(c)(iii)(B).".

§ 10.90 [Amended]

53. Section 10.90(a) is amended by removing the words "item 724.30, Tariff Schedules of the United States" and by adding in their place, the words "subheading 8524.20, HTSUS".

§§ 10.91 through 10.97 [Removed and Reserved]

54. Part 10 is further amended by removing the heading "Wools and Hair of the Camel for Use in Manufacturing Floor Coverings and Other Articles" that precedes § 10.91 and by removing §§ 10.91, 10.92, 10.93, 10.94, 10.95, 10.96, 10.97, and by marking them "Reserved."

§ 10.98 [Amended]

55. Section 10.98 is amended as follows:

(a) By removing the words "item 602.25, Tariff Schedules of the United States," from paragraph (a) and by adding, in their place, the words "subheading 2603.00.00, Harmonized Tariff Schedule of the United States".

(b) By removing footnote 89 from paragraph (a).

§ 10.99 [Amended]

56. Section 10.99 is amended as follows:

(a) Footnote 90, referred to in the section heading, is removed.

(b) The introductory text of paragraph (a) is amended by removing the words "item 427.88, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 2207.10.60, Harmonized Tariff Schedule of the United States".

(c) Paragraph (a) is further amended by removing footnotes 91 and 92.

§ 10.100 [Amended]

57. Section 10.100 is amended by removing the words "item 830.00, 831.00, 832.00, 833.00, 834.00, 835.00, 836.00, or other items in the Tariff Schedules of the United States" and by adding, in their place, "subheadings 9808.00.10, 9808.00.20, 9808.00.30, 9808.00.40, 9808.00.50, 9808.00.60, 9808.00.70, or other subheadings in the Harmonized Tariff Schedule of the United States".

§ 10.102 [Amended]

58. Section 10.102 is amended as follows:

(a) Paragraph (a) is amended by removing the words "item 830.00, 831.00, 832.00, 833.00, 834.00, 835.00, 836.00, or other items in the Tariff Schedules of the United States" and by adding, in their place, the words "subheadings 9808.00.10, 9808.00.20, 9808.00.30, 9808.00.40, 9808.00.50, 9808.00.60, 9808.00.70, or other subheadings in the Harmonized Tariff Schedule of the United States (HTSUS)" and by removing the words "item 832.00, 833.00, or 834.00, Tariff Schedules of the United States" and by adding, in their place, the words "subheadings 9808.00.30, 9808.00.40, 9808.00.50, HTSUS".

(b) The introductory text of paragraph (b) is amended by removing the words "item 832.00, 833.00, or 834.00, Tariff Schedules of the U.S." and by adding, in their place, the words "subheadings 9808.00.30, 9808.00.40, or 9808.00.50, HTSUS".

(c) Paragraph (b)(1) is amended by removing the words "*item 832.00, TSUS*" from the section heading and by adding, in their place, the words "subheading 9808.00.30, HTSUS" and by removing the words "item 832.00, Tariff Schedules of the United States" from the text and by adding, in their place, the words "subheading 9808.00.30, HTSUS".

(d) Paragraph (b)(2) is amended by removing the words "*item 833.00, TSUS.*" from the section heading and the words "Pursuant to item 833.00, Tariff Schedules of the United States" from the text and by adding, in their place, the words "*subheading 9808.00.40, HTSUS.* Pursuant to subheading 9808.00.40, HTSUS".

(e) Paragraph (b)(3) is amended by removing the words "*item 834.00, TSUS*", from the section heading and by adding, in their place, the words "*subheading 9808.00.50, HTSUS*" and by removing the words "item 834.00, Tariff Schedules of the United States" from the text and by adding, in their place, the words "subheading 9808.00.50, HTSUS".

(f) Paragraphs (c) and (d) are amended by removing the words "item 832.00, 833.00, or 834.00 of the Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9808.00.30, 9808.00.40, 9808.00.50, HTSUS".

§ 10.103 [Amended]

59. Section 10.103 is amended as follows:

(a) Paragraph (a) and number 3 on the certification form are amended by removing the words "item 800.00, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9801.00.10, Harmonized Tariff Schedule of the United States (HTSUS)".

(b) Paragraph (b) is amended by removing the words "item 800.00 and other articles claimed to be free under item 832.00, 833.00, or 834.00 of the Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9801.00.10 and other articles claimed to be free under subheadings 9808.00.30, 9808.00.40, 9808.00.50, HTSUS".

10.104 [Amended]

60. Section 10.104 is amended by removing the words "Schedule 8, Part 5C, Tariff Schedules of the United States

BEST COPY AVAILABLE

VOL 53 ISS 245 DEC 21 1988 UMI

(19 U.S.C. 1202)" and by adding, in their place, the words "Chapter 98, Subchapter XIII, Heading 9813, Harmonized Tariff Schedule of the United States (HTSUS)" and by removing the words "Schedule 8, Part 5C, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 98, Subchapter XIII, HTSUS".

§ 10.107 [Amended]

61. The introductory text to § 10.107(a) is amended by removing footnote 99.

§ 10.108 [Amended]

62. Section 10.108 is amended by removing the words "item 801.00, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9801.00.20, Harmonized Tariff Schedule of the United States".

§ 10.121 [Amended]

63. Section 10.121 is amended as follows:

(a) Paragraphs (a) and (b) are amended by removing the words "item 870.30, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9817.00.40, Harmonized Tariff Schedule of the United States (HTSUS)", and by removing the words "item 870.30" and by adding, in their place, the words "subheading 9817.00.40, HTSUS".

(b) Paragraph (a) is further amended by removing the words "headnote 1, Part 6, schedule 8, Tariff Schedules of the United States" and by adding, in their place, the words "U.S. Note 1, Subchapter XVII, Chapter 98, HTSUS".

§ 10.132 [Removed and Reserved]

64. Part 10 is amended by removing § 10.132 and by marking it "Reserved."

10.133 [Amended]

65. Section 10.133 is amended by removing the words "item of the Tariff Schedules of the United States" and by adding, in their place, the words "subheading of the Harmonized Tariff Schedule of the United States".

§ 10.134 [Amended]

66. Section 10.134 is amended by removing the words "item number" and by adding, in their place, the word "subheading"; by removing the words "Tariff Schedules of the United States" where they first appear and by adding, in their place, the words "Harmonized Tariff Schedule of the United States (HTSUS)"; by removing the words "Tariff Schedules of the United States" where they next appear and by adding, in their place, the word "HTSUS", and by removing the word "schedules" wherever it appears and by adding, in its place, the word "HTSUS".

§ 10.139 [Amended]

67. Section 10.139 is amended as follows:

(a) Paragraph (a) is amended by removing the words "item of the Tariff Schedules of the United States" and by adding, in their place, the words "subheading of the Harmonized Tariff Schedule of the United States".

(b) Paragraph (b) is amended by removing the number "10.128" and by adding, in its place, the number "10.138".

§ 10.172 [Amended]

68. Section 10.172 is amended by removing the words "Tariff Schedules of the United States Annotated item number" and by adding, in their place, the words "subheading of the Harmonized Tariff Schedule of the United States".

§ 10.179 [Amended]

69. The introductory text of § 10.179 (a) is amended by removing the words "Schedule 4, Part 10, Headnote 4(a), Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 27, Additional U.S. Note 1, Harmonized Tariff Schedule of the United States".

§ 10.180 [Amended]

70. Section 10.180 is amended by removing the words "item 107.61, Tariff Schedules of the United States (TSUS)" and by adding, in their place, the words "subheadings 0201.20.20, 0201.30.20, 0202.20.20, 0202.30.20, Harmonized Tariff Schedule of the United States (HTSUS)" and by removing the words "item 107.61, TSUS" and by adding, in their place, "subheadings 0201.20.20, 0201.30.20, 0202.20.20, 0202.30.20, HTSUS".

§ 10.181 [Amended]

71. Section 10.181 is amended by removing the words "Tariff Schedules of the United States" in paragraph (a) and by adding, in their place, the words "Harmonized Tariff Schedule of the United States".

§ 10.182 [Removed and Reserved]

72. Part 10 is further amended by removing § 10.182 and the preceding center heading and by marking it "reserved."

§ 10.183 [Amended]

73. Section 10.183 is amended as follows:

(a) Paragraph (b) is amended by removing the words "headnote 3, subpart C, part 6, schedule 6, Tariff Schedules of the United States" and by adding, in their place, the words "General Note 3(c)(iv), Harmonized Tariff Schedule of the United States (HTSUS)."

(b) Paragraph (c)(1) is amended by removing the words "subpart C, part 6, schedule 6, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 88, HTSUS".

(c) Paragraph (c)(2) is amended by removing the words "headnote 3, subpart C, part 6, schedule 6, Tariff Schedules of the United States" and adding, in their place, the words "General Note 3(c)(iv), HTSUS".

(d) Paragraph (d)(2) is amended by removing from the form the words "TSUS item number" and by adding, in their place, the words "HTSUS subheading number"; by removing the words "item number" and by adding, in their place, the words "subheading number" and by removing "subpart C, part 6, schedule 6, TSUS" and by adding, in their place, the words "Chapter 88, HTSUS".

§ 10.191 [Amended]

74. Section 10.191 is amended as follows:

(a) Paragraph (b)(2)(iv) is amended by removing the words "Part 10, Schedule 4, Tariff Schedules of the United States (TSUS)" and by adding, in their place, the words "Chapter 27, Harmonized Tariff Schedule of the United States (HTSUS)".

(b) Paragraph (b)(2)(v) is amended by removing the word "TSUS" and by adding, in its place, the word "HTSUS".

(c) Paragraph (b)(2)(vi) is amended by removing the words "item 155.20 or item 155.30, TSUS" and by adding, in their place, the words "subheadings 1701.11.00 and 1701.12.00, HTSUS" and by removing the words "Headnote 4, Schedule A [should read "Subpart"], Part 10, Schedule 1, TSUS" and by adding, in their place, the words "Additional U.S. Note 4, Chapter 17, HTSUS".

(d) Paragraph (b)(2)(vii) is amended by removing the words "Subpart A, Part 2, Appendix, TSUS" and by adding in their place the words "the subheadings of Subchapter III, from the beginning through 9903.85.21, Chapter 99, HTSUS".

§ 10.192 [Amended]

75. Section 10.192 is amended by removing the words " 'C' as a prefix to the TSUS item" and by adding, in their place, the words " 'E' as a prefix to the HTSUS subheading".

PART 11—PACKING AND STAMPING; MARKING

1. The authority citation is revised to read as follows:

Authority: 5 U.S.C. 301, 19 U.S.C. 66, 1624, General Note 9, Harmonized Tariff Schedule of the United States, except as otherwised noted.

§ 11.3 [Amended]

2. Section 11.3 is amended by removing the words "schedule 8, part 2A, Tariff Schedules of the United States" and by adding, in their place, the words "Subchapter IV, Chapter 98, Harmonized Tariff Schedule of the United States".

§ 11.6 [Amended]

3. Section 11.6 is amended by removing footnote 3.

§ 11.9 [Amended]

4. Section 11.9 (a) and (b) are amended by removing the words "schedule 7, part 2E, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 91, Harmonized Tariff Schedule of the United States (HTSUS)" and by removing the words "headnote 4 of that subpart" and by adding, in their place, the words "Additional U.S. Note 4, Chapter 91".

5. Section 11.13(a) is revised to read as follows:

§ 11.13 False designation of origin and false descriptions; false marking of articles of gold or silver.

(a) Articles which bear, or the containers which bear, false designations of origin, or false descriptions or representations, including words or other symbols tending falsely to describe or represent the articles, are prohibited importation under 15 U.S.C. 294, 295, 296, 1124, 1125 or 48 U.S.C. 1405q, and shall be detained.

* * * * *

6. Part 11 is further amended by removing footnote 14 to § 11.13.

PART 12—SPECIAL CLASSES OF MERCHANDISE

1. The authority citation is revised to read as follows:

Authority: 5 U.S.C. 301, 19 U.S.C. 66, 1624, General Note 9, Harmonized Tariff Schedule of the United States, unless otherwise noted. Sections 12.105 through 12.109 also issued under 19 U.S.C. 2094. Sections 12.110 through 12.117 also issued under § 17(e), Federal Insecticide, Fungicide and Rodenticide Act, as amended by the Federal Environmental Pesticide Control Act of 1972; Pub. L. 92–516 (7 U.S.C. 1360(e)). Sections 12.118 through 12.127 also issued under § 13, 90 Stat. 2034 (15 U.S.C. 2621).

§ 12.7 [Amended]

2. Section 12.7(b) is amended by removing footnote 6.

§ 12.8 [Amended]

3. Section 12.8(a) is amended by removing the references to footnote 7; by adding the text of footnote 7 between the first and second sentences; and by removing footnote 8.

§ 12.16 [Amended]

4. Section 12.16(a) is amended by removing footnote 9.

§ 12.17 [Amended]

5. Section 12.17 is amended by removing footnote 10.

§ 12.24 [Amended]

6. Section 12.24(a) is amended by removing footnote 11.

§ 12.26 [Amended]

7. Section 12.26 (b) and (d) are amended by removing footnotes 13, 13a, and 13b.

8. Section 12.27 is revised to read as follows:

§ 12.27 Importation or exportation of wild animals or birds, or the dead bodies thereof illegally captured or killed, etc.

Customs officers shall perform all duties required of them under statutory provisions that prohibit or restrict the importation or exportation of wild animals or birds, or the dead bodies thereof, or the eggs of such birds, killed, captured, taken, transported, etc., contrary to law. Such laws and statutory provisions include 18 U.S.C. 43, 44, 3054, 3112.

§ 12.29 [Amended]

9. Section 12.29 is amended as follows:

(a) Paragraph (a) is amended by removing the words "schedule 1, part 15D, headnote 2, Tariff Schedules of the United States"; by adding, in their place, the words "Chapter 5, Additional U.S. Note 1"; by removing footnote 16; and by removing the words "said headnote 2" and by adding, in their place, the words "Additional U.S. Note 1 to Chapter 5, Harmonized Tariff Schedule of the United States (HTSUS)".

(b) Paragraph (b) is amended by removing footnote 16; by removing the words "schedule 1, part 15D, headnote 2, Tariff Schedules of the United States" and by adding, in their place, the words "Additional U.S. Note 1, Chapter 5, HTSUS".

(c) Paragraph (c) is amended by removing footnotes 16a and 16b.

(d) Paragraph (d) is amended by removing the words "schedule 1, part 4E, headnote 1, Tariff Schedules of the United States, 17" and by adding, in their place, the words "Chapter 4, additional U.S. Note 2" and by removing the footnote 17.

10. Section 12.30 is revised to read as follows:

§ 12.30 Whaling.

The importation and exportation of whales or whale products taken or processed in violation of the International Convention for the Regulation of Whaling signed at Washington under date of December 2, 1946 (Publication No. 3383, Department of State, Whaling Convention), or of the Whaling Convention Act of 1949 (16 U.S.C. 916–916(1)), or of any regulation issued under the Act (50 CFR Part 351) is unlawful. Customs officers and employees shall perform all functions required of them by the above-mentioned convention, law and regulation.

§ 12.31 [Amended]

11. Section 12.31 is amended by removing footnote 18.

§ 12.32 [Amended]

12. Section 12.32 is amended by removing footnote 19.

§ 12.33 [Amended]

13. Section 12.33 is amended by removing footnote 20.

§ 12.34 [Amended]

14. Section 12.34 is amended by removing footnote 21.

§ 12.36 [Amended]

15. Section 12.36 is amended by removing footnote 23.

§ 12.37 [Amended]

16. Section 12.37 is amended by removing footnote 24.

§ 12.38 [Amended]

17. Section 12.38 is amended by removing footnote 25.

§ 12.42 [Amended]

18. Section 12.42 is amended by removing footnote 29.

§ 12.45 [Amended]

19. Section 12.45 is amended by removing footnote 30.

§ 12.48 [Amended]

20. Section 12.48 is amended by removing footnote 31.

§ 12.60 [Amended]

21. Section 12.60 is amended by removing footnotes 36 and 37.

§ 12.61 [Amended]

22. Section 12.61 is amended by removing footnotes 38, 39, and 40.

VOL 53 ISS 245 DEC 21 1988 UMI

§ 12.62 [Amended]

23. Section 12.62 is amended by removing footnote 41.

§ 12.130 [Amended]

24. Section 12.130 is amended as follows:

(a) The introductory text to paragraph (a) is revised to read as follows:

(a) *General.* Textile or textile products subject to section 204, Agricultural Act of 1956, as amended (7 U.S.C. 1854), include merchandise which is subject to the provisions of the International Arrangement Regarding Trade in Textiles (The Multi-Fiber Arrangement).

(b) Paragraph (c) is amended by removing the words "Headnote 2, Part 1, Schedule 8, TSUS," wherever they appear and adding, in their place, the words "Chapter 98, Subchapter II, Note 2, Harmonized Tariff Schedule of the United States,".

PART 18—TRANSPORTATION IN BOND AND MERCHANDISE IN TRANSIT

1. The authority citation for Part 18 is revised to read as follows:

Authority: 5 U.S.C. 301, 19 U.S.C. 66, 1624, General Note 9, Harmonized Tariff Schedule of the United States, unless otherwise noted.

§ 18.1 [Amended]

2. Section 18.1 (a) and (b) are amended by removing footnotes 1 and 2, and by adding in (b), following the date "1936," the words "(19 U.S.C. 1551, 1551a)".

§ 18.3 [Amended]

3. Section 18.3 is amended by removing the footnote 3.

§ 18.4a [Amended]

4. Section 18.4a is amended by removing footnotes 3a, 3b, and 3c.

§ 18.10 [Amended]

5. Section 18.10 is amended by removing footnote 4, and by adding a new sentence immediately following the words "Virgin Islands (U.S.)", as follows:

Before shipping merchandise in bond to another port for the purpose of warehousing or rewarehousing, the shipper should ascertain whether warehouse facilities are available at the intended port of destination.

§ 18.11 [Amended]

6. Section 18.11, paragraphs (a), (c), and (e), are amended by removing footnotes 5, 6, and 7.

§ 18.20 [Amended]

7. Section 18.20 is amended by removing footnote 8.

8. The heading immediately preceding § 18.25 is amended by removing footnote 10.

PART 19—CUSTOMS WAREHOUSES, CONTAINER STATIONS AND CONTROL OF MERCHANDISE

1. The authority citation for Part 19 is revised to read as follows:

Authority: 5 U.S.C. 301, 19 U.S.C. 66, 1624, General Note 9, Harmonized Tariff Schedule of the United States, unless otherwise noted.

§ 19.1 [Amended]

2. Section 19.1 is amended by removing footnotes 1, 2, 3, 4, 5, and 6.

§ 19.11 [Amended]

3. Section 19.11 is amended by removing footnotes 14 and 15.

§ 19.13 [Amended]

4. Section 19.13(a) and (d) are amended by removing footnotes 16 and 17.

§ 19.15 [Amended]

5. Section 19.15(a) and (f) are amended by removing footnotes 18 and 19.

§ 19.17 [Amended]

6. Section 19.17(a) is amended by removing footnote 22 and by removing the words "Schedule 6, Part 1 or 2, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 26, 71, 72, and 73, Harmonized Tariff Schedule of the United States".

§ 19.18 [Amended]

7. Section 19.18(a) is amended by removing the words "Schedule 6, Part 1, headnote 4(b), Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 26, Additional U.S. Note 1, Harmonized Tariff Schedule of the United States."

§ 19.19 [Amended]

8. Section 19.19 is amended as follows:

(a) Paragraph (a) is amended by removing the words "schedule 6, part 1, headnote 4, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 26, Additional U.S. Note 1, Harmonized Tariff Schedule of the United States".

(b) Paragraph (b) is amended by removing footnote 23.

§ 19.23 [Amended]

9. Section 19.23 is amended by removing footnote 24.

PART 24—CUSTOMS FINANCIAL AND ACCOUNTING PROCEDURE

1. The authority citation for Part 24 is revised to read as follows:

Authority: 5 U.S.C. 301, 19 U.S.C. 66, 1624, 31 U.S.C. 9701, General Note 9, Harmonized Tariff Schedule of the United States, unless otherwise noted.

§ 24.16 [Amended]

2. Section 24.16 is amended as follows:

(a) The section is amended by removing the footnotes number 3, 4, 5, and 5a.

(b) Paragraph (b) is amended and by adding a new last sentence as follows: "For example: At a port where the regular hours of business have been fixed at 8 a.m. to 5 p.m. for the inside force and 7 a.m. to 4 p.m. for the outside force, a clerk whose regular working hours are 8 a.m. to 5 p.m. is not entitled to reimbursable extra compensation if assigned to inspectional work from 7 a.m. to 8 a.m. on a week day, since he works within the regular hours for the service to which he is assigned."

§ 24.17 [Amended]

3. Section 24.17(a)(8) is amended by removing the footnote 5aa; and by adding a new sentence at the end of paragraph (a)(8), as follows: "A customs officer so assigned is not acting as a customs warehouse officer, since the services have no connection with a customs bonded warehouse."

§ 24.36 [Amended]

4. Section 24.36 is amended as follows:

(a) The heading to § 24.36 is amended by removing footnote 6.

(b) Paragraph (d) is amended by removing footnote 7.

PART 54—CERTAIN IMPORTATIONS TEMPORARILY FREE OF DUTY

1. The authority citation for Part 54 is revised to read as follows:

Authority: 19 U.S.C. 66, 1624, General Note 9, Harmonized Tariff Schedule of the United States (HTSUS), (sec. 101, 76 Stat. 72; Subheadings 9817.00.80 and 9817.00.90, HTSUS; Section XV, Note 5, HTSUS.

§ 54.5 [Amended]

2. Section 54.5 is amended as follows:

(a) The introductory text of paragraph (a) is amended by removing the words "in chief value of metal" and by adding, in their place, the words "predominating by weight of metal".

(b) The introductory text of paragraph (a) is further amended by removing the words "item 870.50, 870.55, and 870.60, Tariff Schedules of the United States (TSUS)" and by adding in their place, the words "subheadings 9817.00.80 and 9817.00.90, Harmonized Tariff Schedule of the United States (HTSUS)".

(c) Paragraphs (a)(1–3) are revised to read as follows:

(a) * * *

(1) Articles of lead, zinc, or tungsten;

(2) Metal-bearing materials provided for in Chapter 26, HTSUS; or

(3) Unwrought metal provided for in Section XV, HTSUS."

§ 54.6 [Amended]

3. Section 54.6 is amended as follows:

(a) The introductory text is amended by removing the words "in chief value" and by adding, in their place, the words "predominating by weight".

(b) Paragraph (a) is amended by removing footnote 1.

(c) Paragraph (d) is amended by removing the words "items 870.50, 870.55 or 870.60, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9817.00.80 or 9817.00.90, HTSUS."

(d) Concluding text is added to read as follows: As used in this section, the phrase "in connection with the entry" means any time before liquidation of the entry or within the period during which a reliquidation may be completed (§ 113.43(c)). Therefore, a claim for free entry under subheading 9817.00.80 or 9817.00.90, HTSUS, supported by a statement of intent may be filed at any time before liquidation of the entry or within the period during which a valid reliquidation may be completed."

PART 101—GENERAL PROVISIONS

1. The authority citation for Part 101 is revised to read as follows:

Authority: 5 U.S.C. 301, 19 U.S.C. 66, 1202 (General Note 9, Harmonized Tariff Schedule of the United States), 1624, Reorganization Plan 1 of 1965; 3 CFR 1965 Supp. Additional authority and statutes interpreted or applied are cited in the text or following the section affected.

PART 103—AVAILABILITY OF INFORMATION

1. The authority citation for Part 103 is revised to read as follows:

Authority: 5 U.S.C. 301, 552, 19 U.S.C. 66, 1624, 31 U.S.C. 483a.

§ 103.11 [Amended]

2. Section 103.11 is amended as follows:

(a) Paragraph (b)(2)(i) is amended by adding the words "and the Harmonized Tariff Schedule of the United States" immediately following the words "Tariff Schedules of the United States".

(b) Paragraph (b)(2)(xii) is amended by adding the words "and Chapter 98, Subchapter XIII, HTSUS" immediately following the words "Tariff Schedules of the United States".

PART 111—CUSTOMS BROKERS

1. The authority citation for Part 111 is revised to read as follows:

Authority: 5 U.S.C. 301, 19 U.S.C. 66, 1202 (General Note 9, Harmonized Tariff Schedule of the United States), 1624, 1641.

§ 111.11 [Amended]

2. Section 111.11 (d) is amended by removing the words "Tariff Schedules of the United States" and by adding, in their place, the words "Harmonized Tariff Schedule of the United States".

PART 113—CUSTOMS BONDS

1. The authority citation for Part 113 is revised to read as follows:

Authority: 19 U.S.C. 66, 1551, 1565, 1624.

§ 113.66 [Amended]

2. Section 113.66 is amended as follows:

(a) The introductory text to paragraph (b) is amended by removing the words "Items 800.00 or 808.00, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9801.00.10, or 9803.00.50 Harmonized Tariff Schedule of the United States (HTSUS)" and by removing the words "item 800.00 or 808.00, TSUS" and by adding, in their place, the words "subheading 9801.00.10 or 9803.00.50, HTSUS".

(b) Paragraph (b)(1) is amended by removing the words "item 800.00, TSUS" and by adding, in their place, the words "subheading 9801.00.10, HTSUS".

(c) Paragraph (b)(2) is amended by removing the words "item 808.00, TSUS" and by adding, in their place, the words "subheading 9803.00.50, HTSUS".

PART 114—CARNETS

1. The authority citation to Part 114 is revised to read as follows:

Authority: 19 U.S.C. 66, 1202 (General Note 9, Harmonized Tariff Schedule of the United States), 1623, 1624.

PART 122—AIR COMMERCE REGULATIONS

1. The authority citation for Part 122 is revised to read as follows:

Authority: 5 U.S.C. 301; 19 U.S.C. 66, 1433, 1436, 1459, 1590, 1594, 1624, 1644; 49 U.S.C. 1474, App. 1509.

§ 122.48 [Amended]

2. Section 122.48(d) is amended by removing the words, "Schedule 8, Tariff Schedules of the United States" in the second sentence and by adding, in their place, "Chapter 98, HTSUS".

PART 123—CUSTOMS RELATIONS WITH CANADA AND MEXICO

The general authority citation for Part 123 is revised to read as follows:

Authority: 5 U.S.C. 301, 19 U.S.C. 66, 1202 (General Note 9, Harmonized Tariff Schedule of the United States), 1624, unless otherwise noted.

PART 127—GENERAL ORDER, UNCLAIMED, AND ABANDONED MERCHANDISE

1. The general authority citation for Part 127 is revised to read as follows:

Authority: 5 U.S.C. 301, 19 U.S.C. 66, 1624.

§ 127.33 [Amended]

2. Section 127.33 is amended by removing the words "schedule 8, part 2A, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 98, Subchapter XV, Harmonized Tariff Schedule of the United States".

PART 132—QUOTAS

1. The authority citation for Part 132 is revised to read as follows:

Authority: 19 U.S.C. 66, 1202 (General Note 9, Harmonized Tariff Schedule of the United States), and 1624.

§ 132.6 [Amended]

2. Section 132.6 is amended by removing the words "General Headnote 3(e), Tariff Schedules of the United States, as amended" and by adding, in their place, the words "General Note 3(c), Harmonized Tariff Schedule of the United States".

PART 134—COUNTRY OF ORIGIN MARKING

1. The authority citation for Part 134 is revised to read as follows:

Authority: 5 U.S.C. 301, 19 U.S.C. 66, 1202 (General Note 9, Harmonized Tariff Schedule of the United States), 1304, 1624.

§ 134.0 [Amended]

2. Section 134.0 is amended by removing the words "Tariff Schedules of the United States" and by adding, in their place, the words "Harmonized Tariff Schedule of the United States".

§ 134.22 [Amended]

3. Section 134.22, paragraph (b) is revised as follows:

(b) *Containers or holders treated as imported articles.* Containers or holders for imported merchandise which are subject to treatment as imported articles under the Harmonized Tariff Schedule of the United States (19 U.S.C. 1202), shall be marked to indicate clearly the country of their own origin in addition to any marking which may be required to show the country of origin of their contents.

VOL 53 ISS 245 DE 21 1988 UMI

§ 134.23 [Amended]

4. Section 134.23 is amended as follows:

(a) Paragraph (a) is amended by removing the words "headnote 6(b)(ii), Tariff Schedules of the United States" and by adding, in their place, the words "General Rule of Interpretation 5(b), Harmonized Tariff Schedule of the United States".

(b) Paragraph (b) is amended by removing the words "within the purview of headnote 6(b)(iii), Tariff Schedules of the United States" and by adding, in their place, the words "which give the whole importation its essential character, as described in General Rule of Interpretation 5(a)".

§ 134.24 [Amended]

5. Section 134.24(b) is amended by removing the words "general headnote 6(a), Tariff Schedules of the United States" and by adding, in their place, the words "the Harmonized Tariff Schedule of the United States".

§ 134.33 [Amended]

6. The list in § 134.33 is amended as follows:

(a) The entry "Articles classifiable under items 850.40, 850.70, 851.30, and 853.30, Tariff Schedules of the United States" is removed and the words "Articles classified under subheadings 9810.00.15, 9810.00.25, 9810.00.40 and 9810.00.45, Harmonized Tariff Schedule of the United States" are added in their place.

(b) The entry "Rails, joint bars, and tie plates covered by item 610.20 through 610.26, Tariff Schedules of the United States" is removed and the words "Rails, joint bars, and tie plates covered by subheadings 7302.90.00, Harmonized Tariff Schedule of the United States" are added in their place.

(c) The entry "Stamps, postage and revenue, and other articles covered in item 247.40, Tariff Schedules of the United States" is removed and the words "Stamps, postage and revenue, and other articles covered in subheadings 9704.00.00 and 4807.00.00, Harmonized Tariff Schedule of the United States" are added in their place.

§ 134.43 [Amended]

7. Section 134.43(a), is revised to read as follows:

(a) *Marking previously required by certain provisions of the Tariff Act of 1930.* Articles of a class or kind listed below shall be marked legibly and conspicuously by die stamping, cast-in-the-mold lettering, etching (acid or electrolytic), engraving, or by means of metal plates which bear the prescribed marking and which are securely attached to the article in a conspicuous place by welding, screws, or rivets: knives, forks, steels, cleavers, clippers, shears, scissors, safety razors, blades for safety razors, surgical instruments, pliers, pincers, nippers and hinged hand tools for holding and splicing wire, vacuum containers, and parts of the above articles.

8. Section 134.43(b) is amended by removing the words "schedule 7, part 2, subpart E, headnotes 4 and 5 of the Tariff Schedules of the United States" and by adding in their place the words "Chapter 91, Additional U.S. Note 4".

PART 141—ENTRY OF MERCHANDISE

1. The general authority citation for Part 141 continues to read as follows:

Authority: 19 U.S.C. 66, 1448, 1484, 1624.

§ 141.4 [Amended]

2. Section 141.4 is amended as follows:

(a) Paragraph (a) is revised to read as follows:

(a) The exemptions listed in General Note 5 to the Harmonized Tariff Schedule of the United States (HTSUS); and.

(b) Paragraph (b) is revised to read to follows:

(b) Vessels (not including vessels classified in heading 8903 or in Chapter 98, HTSUS, such as under subheadings 9804.00.35 or 9813.00.35). See also Chapter 89, Additional U.S. Note.

(c) A new paragraph is added, designated paragraph "c" as follows:

(c) Articles specifically exempted by law or regulations from the requirement for entry. (19 U.S.C. 1498.)

§ 141.53 [Amended]

3. Section 141.53(c) is amended by removing the words "schedule 8, part 5C, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 98, Subchapter XIII, Harmonized Tariff Schedule of the United States".

§ 141.61 [Amended]

4. Section 141.61 is amended as follows:

(a) Paragraph (e)(1)(i)(A) is amended by removing the words "General Statistical Headnotes, Tariff Schedules of the United States Annotated ("TSUSA")" and by adding, in their place, the words "General Statistical Notes, Harmonized Tariff Schedule of the United States (HTSUS)".

(b) Paragraph (e)(1)(i)(B) (1) is amended by removing the words "Headnotes, Tariff Schedules of the United States Annotated (TSUSA)" and by adding, in their place, the words "Notes, HTSUS".

(c) Paragraph (e)(1)(ii)(A) is amended by removing the words "Annex 8, TSUSA" and by adding, in their place, the words "Annex B, HTSUS".

(d) Paragraph (e)(1)(ii)(C) is amended by removing the word "TSUSA" and by adding in its place "HTSUS".

(e) The introductory text to paragraph (e)(2) is amended by removing the words "(xiv), (xv), and (xvi) General Statistical Headnote 1(a), TSUSA" and by adding, in their place, the words "General Statistical Note 1(a)(xiv)(xvii), HTSUS".

(f) Paragraph (e)(3) is amended by removing the words "subparagraph (v), General Statistical Headnote 1(b), TSUSA" and by adding, in their place, the words "General Statistical Note 1(b)(V), HTSUS".

(g) Paragraph (e)(5) is amended by removing the words "General Statistical Headnotes, TSUSA" and by adding, in their place, the words "General Statistical Note, HTSUS".

§ 141.82 [Amended]

5. Section 141.82, paragraph (d), is amended by removing the words "Schedule 3; Parts 1, 4A, 7B, 12A, 12D and 13B of Schedule 7; items 772.30 and 772.35; and Parts 2 and 3 of the Appendix of the Tariff Schedules of the United States Annotated)" and by adding, in their place, the words "Sections VII, VIII, XI, and XII; Chapter 94; and Chapter 99, Subchapters III and IV. Harmonized Tariff Schedule of the United States".

§ 141.83 [Amended]

6. Section 141.83, paragraph (d)(5), is amended by removing the words "item 806.20 or 806.30, Tariff Schedules of the United States" and by adding, in their place, the words "subheadings 9802.00.40 and 9802.00.60, Harmonized Tariff Schedule of the United States".

7. Section 141.89, paragraphs (a) and (b) are revised to read as follows:

§ 141.89 Additional information for certain classes of merchandise.

(a) Invoices for the following classes of merchandise, classifiable under the Harmonized Tariff Schedule of the United States (HTSUS), shell set forth the additional information specified: [75–42, 75–239, 78–53, 83–251, 84–149.]

Aluminum and alloys of aluminum classifiable under subheadings 7601.10.60, 7601.20.60, 7601.20.90, or 7602.00.00, HTSUS (T.D. 53092, 55977, 56143)—Statement of the percentages by weight of any metallic element contained in the article.

Articles manufactured of textile materials. Coated or laminated with

plastics or rubber, classifiable in Chapter(s) 39, 40, and 42—Include a description indicating whether the fabric is coated or laminated on both sides, on the exterior surface or on the interior surface.

Bags manufactured of plastic sheeting and not of a reinforced or laminated construction, classified in Chapter 39 or in heading 4202—Indicate the gauge of the plastic sheeting.

Ball or roller bearings classifiable under subheading 8482.10.50 through 8482.80.00, HTSUS (T.D. 68–306)—(1) Type of bearing (i.e. whether a ball or roller bearing); (2) If a roller bearing, whether a spherical, tapered, cylindrical, needled or other type; (3) Whether a combination bearing (i.e. a bearing containing both ball and roller bearings, etc.); and (4) If a ball bearing (not including ball bearing with integral shafts or parts of ball bearings), whether or not radial, the following: (a) outside diameter of each bearing; and (b) whether or not a radial bearing (the definition of radial bearing is, for Customs purposes, an antifriction bearing primarily designed to support a load perpendicular to shaft axis).

Beads (T.D. 50088, 55977)—(1) The length of the string, if strung; (2) The size of the beads expressed in millimeters; (3) The material of which the beads are composed, i.e. ivory, glass, imitation pearl, etc.

Bed linen and Bedspreads—Statement as to whether or not the article contains any embroidery, lace, braid, edging, trimming, piping or applique work.

Chemicals—Furnish the use and Chemical Abstracts Service number of chemical compounds classified in Chapters 27, 28 and 29, HTSUS.

Colors, dyes, stains and related products provided for under heading 3204, HTSUS—The following information is required: (1) Invoice name of product; (2) Trade name of product; (3) Identity and percent by weight of each component; (4) Color Index number (if none, so state); (5) Color Index generic name (if none so state); (6) Chemical Abstracts Service number of the active ingredient; (7) Class of merchandise (state whether acid type dye, basic dye, disperse dye, fluorescent brightener, soluble dye, vat dye, toner or other (describe); (8) Material to which applied (name the material for which the color, dye, or toner is primarily designed).

Copper (T.D. 45878, 50158, 55977) articles classifiable under the provisions of Chapter 74, HTSUS—A statement of the weight of articles of copper, and a statement of percentage of copper content and all other elements—by weight—to articles classifiable according to copper content.

Copper ores and concentrates (T.D. 45878, 50158, 55977) classifiable in heading 2603, and subheadings 2620.19.60, 2620.20.00, 2620.30.00, and heading 7401—Statement of the percentages by weight of the copper content and any other metallic elements.

Cotton fabrics classifiable under the following HTSUS headings: 5208, 5209, 5210, 5211, and 5212—(1) Marks on shipping packages; (2) Numbers on shipping packages; (3) Customer's call number, if any; (4) Exact width of the merchandise; (5) Detailed description of the merchandise; trade name, if any; whether bleached, unbleached, printed, composed of yarns of different color, or dyed; if composed of cotton and other materials, state the percentage of each component material by weight; (6) Number of single threads per square centimeter (All ply yarns must be counted in accordance with the number of single threads contained in the yarn; to illustrate: a cloth containing 100 two-ply yarns in one square centimeter must be reported as 200 single threads); (7) Exact weight per square meter in grams; (8) Average yarn number use this formula:

$$\frac{100 \times \text{(Total Single Yarns Per Square Centimeter)}}{\text{(Number of Grams Per Square Meter)}}$$

(9) Yarn size or sizes in the warp; (10) Yarn size or sizes in the filling; (11) Specify whether the yarns are combed or carded; (12) Number of colors or kinds (different yarn sizes or materials) in the filling; (13) Specify whether the fabric is napped or not napped; and (14) Specify the type of weave, for example, plain, twill, sateen, oxford, etc., and (15) Specify the type of machine on which woven: if with Jacquard (Jacq), if with Swivel (Swiv), if with Lappet (Lpt.), if with Dobby (Dobby).

Cotton raw See § 151.82 of this chapter for additional information required on invoices.

Cotton waste (T.D. 5044)—(1) The name by which the cotton waste is known, such as "cotton card strips"; "cotton comber waste"; "cotton lap waste"; "cotton sliver waste"; "cotton roving waste"; "cotton fly waste"; etc.; (2) Whether the length of the cotton staple forming any cotton card strips covered by the invoice were made is less than 3.016 centimeters (1 3/16 inches) or is 3.016 centimeters (1 3/16 inches) or more.

Earthenware or crockeryware composed of a nonvitrified absorbent body (including white granite and semiporcelain earthenware and cream-colored ware, stoneware, and terra cotta, but not including common brown, gray, red, or yellow earthenware), embossed or plain; common salt-glazed stoneware; stoneware or earthenware crucibles; Rockingham earthenware; china, porcelain, or other vitrified wares, composed of a vitrified nonabsorbent body which, when broken, shows a vitrified, vitreous, semi-vitrified, or semivitreous fracture; and bisque or parian ware (T.D. 53236)—(1) If in sets, the kinds of articles in each set in the shipment and the quantity of each kind of article in each set in the shipment; (2) The exact maximum diameter, expressed in centimeters, of each size of all plates in the shipment; (3) The unit value for each style and size of plate, cup, saucer, or other separate piece in the shipment.

Fish or fish livers (T.D. 50725, 49640, 55977) imported in airtight containers classifiable under Chapter 3, HTSUS—(1) Statement whether the articles contain an oil, fat, or grease which has had a separate existence as an oil, fat, or grease, (2) The name and quantity of any such oil, fat, or grease.

Footwear, classifiable in headings 6401 through 6405 of the HTSUS—

1. Manufacturer's style number.
2. Importer's style and/or stock number.
3. Percent by area of external surface area of upper (excluding reinforcements and accessories) which is:

Leather a. _____%
Composition Leather b. _____%
Rubber and/or plastics c. _____%
Textile materials d. _____%
Other (give separate e. _____%
Percent for each f. _____%
Type of material)

4. Percent by area of external Surface area of outersole (excluding reinforcements and accessories) which is:

Leather a. _____%
Composition Leather b. _____%
Rubber and/or plastics c. _____%
Textile materials d. _____%
Other (give separate e. _____%
Percent for each f. _____%
Type of material)

You may skip this section if you choose to answer *all* questions A through Z below.

I. If 3(a) is larger than any other percent in 3 and if 4(a) is larger than any other percent in 4, answer questions F, G, L, M, O, Q, R, S, and X.

II. If 3(a) is larger than any other percent in 3 and if 4(c) is larger than any other percent in 4, answer questions F, G, L, M, N, O, Q, S and X.

III. If 3(a) plus 3(b) is larger than any single percent in 3 and if 4(d), 4(e) or 4(f) is larger than any other percent in 4, stop.

IV. If 3(c) is larger than any other percent in 3 and if 4(a) or 4(b) is larger than any other percent in 4, stop.

V. If 3(c) is larger than any other percent in 3 and if 4(c) is larger than any other percent in 4, answer questions B, E, F, G, H, J, K, L, M, N, O, P, T and W.

VI. If 3(d) is larger than any other percent in 3 and if 4(a) plus 4(b) is larger than any single percent in 4, answer questions C and D.

VII. If 3(d) is larger than any other percent in 3 and if 4(c) is larger than any other percent in 4, answer questions A, C, J, K, M, N, P and T.

VIII. If 3(d) is larger than any other percent in 3 and if 4(d) is larger than any other percent in 4, answer questions U, Y and Z.

IX. If the article is made of paper, answer questions V and Z.

If the article does not meet any of conditions I through IX above, answer all questions A through Z, below.

A Percent of external surface area of upper (including leather reinforcements and accessories) Which is leather _____%
B Percent by area of external surface area of upper (*including* all reinforcements and accessories). Which is rubber and/or plastics _____%
C Percent by weight of rubber and/or plastics is _____%
D Percent by weight of textile materials plus rubber and/or plastics is _____%
E Is it waterproof?
F Does it have a protective metal toe cap?
G Will it cover the wearer's ankle bone?
H Will it cover the wearer's knee cap?
I [Reserved.]
J Is it designed to protect against water, oil, grease, or chemicals, or cold or inclement weather?
K Is it a slip-on?
L Is it a downhill or cross-country skiboot?
M Is it serious sports footwear other than skiboots? (Chapter 64 subheading note defines sports footwear.)
N Is it a tennis, basketball, gym, or training shoe or the like?
O Is it made on a base or platform of wood?
P Does it have open toes or open heels?
Q Is it made by the (lipped insole) welt construction?
R Is it made by the turned construction?
S Is it worn exclusively by men, boys or youths?
T Is it made by an exclusively adhesive construction?
U Are the fibers of the upper, by weight, predominately vegetable fibers?
V Is it disposable, i.e., intended for one-time use?
W Is it a "Zori"?
X Is the leather in the upper pigskin?
Y Are the sole and upper made of woolfelt?
Z Is there a line of demarcation between the outer sole and upper?

The information requested above may be furnished on CF 5523 or other appropriate format by the exporter, manufacturer or shipper.

Also, the following information must be furnished by the importer or his authorized agent if classification is claimed under one of the subheadings below:

If subheading 6401.99.80, 6402.19.10, 6402.30.30, 6402.91.40, 6402.99.15, 6402.99.30, 6406.11.40, 6404.11.60, 6404.19.35, 6404.19.40, or 6404.19.60 is claimed:

Does the shoe have a foxing or foxing-like band? If so, state its materials(s).

Does the sole overlap the upper other than just at the front of the toe and/or at the back of the heel?

Definitions for some of the terms used in questions A to Z above: For the purpose of this section, the following terms have the approximate definitions below. If either a more complete definition or a decision as to its application to a particular article is needed, the maker or importer of record (or the agent of either) should contact Customs prior to entry of the article.

a. In an *exclusively adhesive construction*, all of the piece(s) of the bottom would separate from the upper or from each other if all adhesives, cements, and glues were dissolved. It includes shoes in which the pieces of the upper are stitched to each other, but not to any part of the bottom. Examples include:

1. Vulcanized construction footwear;

2. Simultaneous molded construction footwear;

3. Molded footwear in which the upper and the bottom are one piece of molded rubber or plastic, and

4. Footwear in which staples, rivets, stitching, or any of the methods above are either primary or just extra or auxiliary, even through adhesive is a major part of the reason to bottom will not separate from the upper.

b. *Composition leather* is made by binding together leather fibers or small pieces of natural leather. It does not include imitation leathers not based on natural leather.

c. *Leather* is the tanned skin of any animal from which the fur or hair has been removed. Tanned skins coated or laminated with rubber and/or plastics are "leather" only if the leather gives the material its essentail character.

d. A *line of demarcation* exists if one can indicate where the sole ends and the upper begins. For example, knit booties do not nrmally have a line of demarcation.

e. *Men's, boys' and youths'* sizes cover footwear of American youths sizes 11½ and larger for males, and do not include footwear commonly worn by both sexes. If more than 4% of the shoes sold in a given size will be worn by females, that size is "commonly worn by both sexes."

f. Footwear is designed to *protect* against water, oil or cold or inclement weather only if it is substantially more of a protection against those item than the usual shoes of that type. For example, leather oxfords will clearly keep one's feet warmer and drier than going barefoot, but they are not a protection in this sense. On the other hand the snow-jobber is the protective version of the nonprotective jogging shoe.

g. *Rubber and/or plastics* includes any textile material visibly coated (or covered) externally with one or both of those materials.

h. *Slip-on* includes:

1. A boot which must be pulled on.

2. Footwear with elastic cores which must be stretched to get it on, but not bootwear having a separate piece of elasticized fabric which forms a full circle around the foot or ankle.

i. *Sports footwear* includes only:

(1) Footwear which is designed for a sporting activity and has, or has provision for, the attachment of spikes, sprigs, cleats, stops, clips, bars or the like;

(2) Skating boots (without skates attached), ski boots and cross-country

ski footwear, wrestling boots, boxing boots and cycling shoes.

j. *Tennis shoes, basketball shoes, gym shoes, training shoes and the like* covers athletic footwear other than sports footwear, whether or not principally used for such athletic games or purposes.

k. *Textile materials* are made from cotton, other vegetable fibers, wool, hair, silk or man-made fibers. Note: Cork, wood carboard and leather are not textile materials.

l. In *turned* construction, the upper is stitched to the leather sole wrong side out and the shoe is then turned right side out.

m. *Vegetable fibers* include cotton, flax and ramie, but do not include either rayon or plaiting materials such as rattan or wood strips.

n. *Waterproof footwear* includes footwear designed to protect against penetration by water or other liquids, whether or not such footwear is primarily designed for such purposes.

o. *Welt footwear* means footwear constructed with a welt, which extends around the edge of the outer sole, and in which the welt and shoe upper are sewed to a lip on the surface of the insole, and the outer sole is sewed or cemented to the welt.

p. A *zori* has an upper consisting only of straps or thongs of molded rubber or plastic. This upper is assembled to a foamed rubber or plastic sole by means of plugs.

Fur products and furs (T.D. 53064)—(1) Name or names (as set forth in the Fur Products Name Guide (16 CFR 301.0) of the animal or animals that produced the fur, and such qualifying statements as may be required pursuant to § 7(c) of the Fur Products Labeling Act (15 U.S.C. 69e(c)); (2) A statement that the fur product contains or is composed of used fur, when such is the fact; (3) A statement that fur product contains or is composed of bleached, dyed, or otherwise artificially colored fur, when such is the fact; (4) A statement that the fur product is composed wholly or in substantial part of paws, tails, bellies, or waste fur, when such is the fact; (5) Name and address of the manufacturer of the fur product; (6) Name of the country of origin of the furs or those contained in the fur product.

Glassware and other glass products (T.D. 53079, 55977)—Classifiable under Heading 7013 HTSUS—Statement of the separate value of each component article in the set.

Gloves—State if the merchandise has a plastics or a rubber exterior. (See Chapter 59, Note 2(a)(3)).

Grain or grain and screenings (T.D. 51284)—Statement on Customs invoices for cultivated grain or grain and screenings that no screenings are included with the grain, or, if there are screenings included, the percentage of the shipment which consists of screenings commingled with the principal grain.

Handkerchiefs—(1) State the exact dimensions (length and width) of the merchandise; (2) If of cotton indicate whether the handkerchief is hemmed and whether it contains lace or embroidery.

Hats or headgear—(1) If classifiable under subheading 6502.00.40 or 6502.00.60, HTSUS—Statement as to whether or not the article has been bleached or colored; (2) If classifiable under subheadings 6502.00.20 through 6502.00.60 or 6504.00.30 through 6504.00.90, HTSUS—Statement as to whether or not the article is sewed or not sewed, exclusive of any ornamentation or trimming.

Hosiery—(1) Indicate whether a single yarn measures less than 67 decitex. (2) Indicate whether the hosiery is full length, knee length, or less than knee length. (3) Indicate whether it contains lace or net.

Iron or steel classifiable in Chapter 72 or headings 7301 to 7307, HTSUS (T.D. 53092, 55977)—Statement of the percentages by weight or carbon and any metallic elements contained in the articles, in the form of a mill analysis or mill test certificate.

Iron oxide (T.D. 49989, 50107)—For iron oxide to which a reduced rate of duty is applicable, a statement of the method of preparation of the oxide, together with the patent number, if any.

Machines, equipment and apparatus—Chapters 84 and 85, HTSUS—A statement as to the use or method of operation of each type of machine.

Machine parts (T.D. 51616)—Statement specifying the kind of machine for which the parts are intended, or if this is not known to the shipper, the kinds of machines for which the parts are suitable.

Machine tools: (1) Headings 8456 through 8462—machine tools covered by these headings equipped with a CNC (Computer Numerical Control) or the facings (electrical interface) for a CNC must state so; (2) Headings 8456 through 8463—machine tools covered by these headings if used or rebuilt must state so; (3) Subheading 8456.30.10—EDM: (Electical Discharge Machines) if a Traveling Wire (Wire Cut) type must state so. Wire EDM's use a copper or brass wire for the electrode; (4) Subheading 8457.10.0010 through 8457.10.0050—Machining Centers. Must state whether or not they have an ATC (Automatic Tool Changer). Vertical spindle maching centers with an ATC must also indicate the Y-travel; (5) Subheading 8458.11.0030 through 8458.11.0090—horizontal lathes: numerically controlled. Must indicate the rated HP (or KW rating) of the main spindle motor. Use the continuous rather than the 30 minute rating.

Madeira embroideries (T.D. 49988)—(1) With respect to the materials used, furnish: (a) country of production; (b) width of the material in the piece; (c) name of the manufacturer; (d) kind of material, indicating manufacturer's quality number; (e) landed cost of the material used in each item; (f) date of the order; (g) date of the invoice; (h) invoice unit value in the currency of the purchase; (i) discount from purchase price allowed, if any; (2) With respect to the finished embroidered articles, furnish: (a) manufacturers's name, design number, and quality number; (b) importer's design number, if any; (c) finished size; (d) number of embroidery points per unit of quantity; (e) total for overhead and profit added in arriving at the price or value of the merchandise covered by the invoice.

Motion-picture films—(1) Statement of footage, title, and subject matter of each film; (2) Declaration of shipper, cameraman, or other person with knowledge of the facts identifying the films with the invoice and stating that the basic films were to the best of his knowledge and belief exposed abroad and returned for use as newsreel; (3) Declaration of importer that he believes the films entered by him are the ones covered by the preceding declaration and that the films are intended for use as newsreel.

Paper classifiable in Chapter 48—Invoices covering paper shall contain the following information, or will be accompanied by specification sheets containing such information:

(1) Weight of paper in grams per square meter; (2) Thickness, in micrometers (microns); (3) If imported in rectangular sheets, length and width of sheets, in cm; (4) if imported in strips, or rolls, the width, in cm. In the case of rolls, the diameter of rolls in cm; (5) Whether the paper is coated or impregnated, and with what materials; (6) Weight of coating, in grams per square meter; (7) Percentage by weight of the total fiber content consisting of wood fibers obtained by a mechanical process, chemical sulfate or soda process, chemical sulfite process, or semi-chemical process, as appropriate; (8) Commercial designation, as "Writing", "Cover", "Drawing", "Bristol", "Newsprint", etc.; (9) Ash

content; (10) Color; (11) Glaze, or finish; (12) Mullen bursting strength, and Mullen index; (13) Stretch factor, in machine direction and in cross direction; (14) Tear and tensile readings; in machine direction, in cross direction, and in machine direction plus cross direction; (15) Identification of fibers as "hardwood" where appropriate; (16) Crush resistance; (17) Brightness; (18) Smoothness; (19) If bleached, whether bleached uniformly throughout the mass; (20) Whether embossed, perforated, creped or crinkled.

Plastic plates, sheets, film, foil and strip of headings 3920 and 3921—(1) Statement as to whether the plastic is cellular or noncellular; (2) Specification of the type of plastic; (3) Indication of whether or not flexible and whether combined with textile or other material.

Printed matter classifiable in Chapter 49—Printed matter entered in the following headings shall have, on or with the invoices covering such matter, the following information: (1) *Heading 4901*—(a) Whether the books are: dictionaries, encyclopedias, textbooks, bound newspapers or journals or periodicals, directories, bibles or other prayer books, technical, scientific or professional books, art or pictorial books, or "other" books; (b) if "other" books, whether hardbound or paperbound; (c) if "other" books, paperbound, other than "rack size": number of pages (excluding covers). (2) *Heading 4902*—(a) Whether the journal or periodical appears at least four times a week. If the journal or periodical appears other than at least four times a week, whether it is a newspaper supplement printed by a gravure process, is it a newspaper, business or professional journal or periodical, or other than these; (3) *Heading 4904*—Whether the printed or manuscript music is sheet music, not bound (except by stapling or folding); (4) *Heading 4905*—(a) Whether globes or not; (b) if not globes, whether in book form or not; (c) in any case, whether or not in relief; (5) *Heading 4908*—Whether or not vitrifiable; (6) *Heading 4904*—Whether post cards, greeting cards, or other; (7) *Heading 4910*—(a) Whether or not printed on paper by a lithographic process; (b) if printed on paper by a lithographic process, the thickness of the paper, in mm; (8) *Subheading 4911.91*—(a) Whether or not printed over 20 years at time of importation; (b) if printed not over 20 years at time of importation, whether suitable for use in the production of articles of heading 4901; (c) if not printed over 20 years at time of importation, and not suitable for use in the production of articles of heading 4901, whether the merchandise is lithographs on paper or paperboard; (d) if lithographs on paper or paperboard, under the terms of the immediately preceding description, thickness of the paper or paperboard, and whether or not posters; (e) in any case, whether or not posters; (f) in any case, whether or not photographic negatives or positives on transparent bases; (g) *Subheading 4911.99*—If not carnets, or parts thereof, in English or French, whether or not printed on paper in whole or in part by a lithographic process.

Pulp classifiable in Chapter 47—(1) Invoices covering chemical woodpulp, dissolving grades, in *Heading 4702* shall state the insoluble fraction (as a percentage) after 1 hour in a caustic soda solution containing 18% sodium hydroxide (NaOH) at 20 °C; (2) *Subheading 4702.00.0020*—Pulp entered under this subheading shall in addition contain on or with the invoice the ash content as a percentage to the third decimal point, by weight.

Refrigeration equipment (1) Refrigerator-freezers classifiable under subheading 8418.10.00 and (2) refrigerators classifiable under subheading 8418.21.00—(a) Statement as to whether they are compression or absorption type; (b) Statement of their refrigerated volume in liters. (3) Freezers classifiable under subheading 8418.30.00 and 8418.40.00—Statement as to whether they are chest or upright type. (4) Liquid chilling refrigerating units classifiable under subheadings 8418.69.0045 through 8418.69.0060—Statement as to whether they are centrifugal open-type, centrifugal hermetic-type, absorption-type or reciprocating type.

Rolling mills—Subheadings 8455.30.0005 through 8455.30.0085. Rolls for rolling mills: Indicate the composition of the roll—gray iron, cast steel or other—and the weight of each roll.

Rubber products of Chapter 40—(1) Statement as to whether combined with textile or other material; (2) Statement whether the rubber is cellular or noncellular, unvulcanized or vulcanized, and if vulcanized, whether hard rubber or other than hard rubber.

Screenings or scalpings of grains or seeds (T.D. 51096)—(1) Whether the commodity is the product of a screening process; (2) If so, whether any cultivated grains have been added to such commodity; (3) If any such grains have been added, the kind and percentage of each.

Textile fiber products (T.D. 55095)—(1) The constituent fiber or combination of fibers in the textile fiber product, designating with equal prominence each natural or manufactured fiber in the textile fiber product by its generic name in the order of predominance by the weight thereof if the weight of such fiber is 5 per centum or more of the total fiber weight of the product; (2) The percentage of each fiber present, by weight, in the total fiber content of the textile fiber product; (3) The name, or other identification issued and registered by the Federal Trade Commission, of the manufacturer of the product or one or more persons subject to § 3 of the Textile Fiber Products Identification Act (15 U.S.C. 70a) with respect to such product; (4) The name of the country where processed or manufactured. *See also* "Wearing Apparel" below.

Tires and tubes for tires, of rubber or plastics—(1) Specify the kind of vehicle for which the tire is intended, i.e. airplane, bicycle, passenger car, on-the-highway light or heavy truck or bus, motorcycle; (2) If designed for tractors provided for in subheading 8701.90.10 or for agricultural or horticultural machinery or implements provided for in Chapter 84 or in subheading 8716.80.10, designate whether the tire is new, recapped, or used; pneumatic or solid; (3) Indicate whether the tube is designed for tires provided for in subheading 4011.91.10, 4011.99.10, 4012.10.20, or 4012.20.20.

Tobacco (including tobacco in its natural state) (T.D. 44854, 45871)—(1) Specify in detail the character of the tobacco in each bale by giving (a) country and province of origin, (b) year of production, (c) grade or grades in each bale, (d) number of carrots or pounds of each grade if more than one grade is packed in a bale, (e) the time when, place where, and person from whom purchased, (f) price paid or to be paid for each bale or package, or price for the vega or lot if purchased in bulk, or if obtained otherwise than by purchase, state the actual market value per bale; (2) If an invoice covers or includes bales of tobacco which are part of a vega or lot purchased in bulk, the invoice must contain or be accompanied by a full description of the vega or lot purchased; or if such description has been furnished with a previous importation, the date and identity of such shipment; (3) Packages or bales containing only filler leaf shall be invoiced as filler; when containing filler and wrapper but not more than 35 percent of wrapper, they shall be invoiced as mixed; and when containing more than 35 percent of wrapper, they shall be invoiced as wrapper.

Watches and watch movements classifiable in Chapter 91 of the

HTSUS—For all commercial shipments of such articles, there shall be required to be shown on the invoice, or on a separate sheet attached to and constituting a part of the invoice, such information as will reflect with respect to each group, type, or model, the following:

(A) For watches, a thorough description of the composition of the watch cases, the bracelets, bands or straps; the commercial description (ebauche caliber number, ligne size and number of jewels) of the movements contained in the watches; and the type of battery (manufacturer's name and reference number), if the watch is battery-operated;

(B) For watch movements, the commercial description (ebauche caliber number, ligne size and number of jewels). If battery-operated, the type of battery (manufacturer's name and reference number);

(C) The name of the manufacturer of the exported watch movements and the name of the country in which the movements were manufactured.

Wearing apparel—(1) All invoices for textile wearing apparel should indicate a component material breakdown in percentages by weight for all component fibers present in the entire garment, as well as separate breakdowns of the fibers in the (outer) shell (exclusive of linings, cuffs, waistbands, collars and other trimmings) and in the lining. (2) For garments which are constructed of more than one component or material (combinations of knit and not knit fabric or combinations of knit and/or not knit fabric with leather, fur, plastic including vinyl, etc.), the invoice must show a fiber breakdown in percentages by weight for each separate textile material in the garment and a breakdown in percentages by weight for each nontextile material for the entire garment; (3) For woven garments—Indicate whether the fabric is yarn dyed and whether there are "two or more colors in the warp and/or filling"; (4) For all-white T-shirts and singlets—Indicate whether or not the garment contains pockets, trim, or embroidery; (5) For mufflers—State the exact dimensions (length and width) of the merchandise.

Wood products—(1) Wood sawn or chipped lengthwise, sliced or peeled, whether or not planed, sanded or finger-jointed, of a thickness exceeding 6 mm (lumber), classifiable under Chapter 44, heading 4407, HTSUS, and wood continuously shaped along any of its edges or faces, whether or not planed, sanded or finger-jointed: Coniferous: Subheading 4409.10.90 and Nonconiferous: Subheading 4409.20.90, HTSUS, and dutiable on the basis of cubic meters—

Quantity in cubic meters (m) before dressing; (2) Fiberboard of wood or other ligneous materials whether or not bonded with resins or other organic substances, under Chapter 44, Heading 4411, HTSUS, and classifiable according to its density—Density in grams per cubic centimeter (cm); (3) Plywood consisting solely of sheets of wood, classifiable under Chapter 44, Subheading 4412.11, 4412.12, and 4412.19, HTSUS, and classifiable according to the thickness of the wood sheets—Thickness of each ply in millimeter (mm).

Wool and hair—See § 151.62 of this chapter for additional information required on invoices.

Wool products, except carpets, rugs, mats, and upholsteries, and wool products made more than 20 years before importation (T.D. 50388, 51019)—(1) The percentage of the total fiber weight of the wool product, exclusive of ornamentation not exceeding 5 per centum of said total fiber weight, of (a) wool; (b) reprocessed wool; (c) reused wool; (d) each fiber other than wool if said percentage by weight of such fiber is 5 per centum or more; and (e) the aggregate of all other fibers; (2) the maximum percentage of the total weight of the wool product, of any nonfibrous loading, filling, or adulterating matter; and (3) the name of the manufacturer of the wool product, except when such product consists of mixed wastes, residues, and similar merchandise obtained from several suppliers or unknown sources.

Woven fabric of man-made fibers in headings 5407, 5408, 5512, 5513, 5514, 5515, 5516—

(1) State the exact width of the fabric;

(2) Provide a detailed description of the merchandise, (trade name, if any);

(3) Indicate whether bleached, unbleached, dyed, of yarns of different colors and/or printed;

(4) If composed of more than one material, list percentage by weight in each;

(5) Identify the man-made fibers as artificial or synthetic, filament or staple, and state whether the yarns are high tenacity. Specify the number of turns per meter in each yarn;

(6) Specify yarn sizes in warp and filling;

(7) Specify how the fabric is woven (plain weave, twill, sateen, dobby, jacquard, swivel, lappet, etc.);

(8) Indicate the number of single threads per square centimeter in both warp and filling;

(9) Supply the weight per square meter in grams;

(10) Provide the average yarn number using this formula:

$$\frac{100 \times \text{number of single threads per square centimeter}}{\text{(number of grams per square meter)}};$$

(11) For spun yarns, specify whether combed or carded.

(12) For filament yarns, specify whether textured or not textured.

Yarns—(1) All yarn invoices should show: (a) Fiber content by weight; (b) whether single or plied; (c) whether or not put up for retail sale (*See* Section XI, Note 4, HTSUS); (d) whether or not intended for use as sewing thread;

(2) If chief weight of silk—show whether spun or filament;

(3) If chief weight of cotton—show:

(a) Whether combed or uncombed

(b) Metric number (mn)

(c) Whether bleached and/or mercerized;

(4) If chief weight of man-made fiber—show:

(a) Whether filament, or spun, or a combination of filament and spun

(b) If a combination of filament and spun—give percentage of filament and spun by weight.

(5) If chief weight of filament man-made fiber—show:

(a) Whether high tenacity (See Section XI, note 6 HTSUS).

(b) Whether monofilament, multifilament or strip

(c) Whether texturized

(d) Yarn number in decitex

(e) Number of turns per meter

(f) For monofilaments—show cross sectional dimension in millimeters

(g) For strips—show the width of the strip in millimeters (measure in folded or twisted condition if so imported).

(b) *Special Summary Steel Invoice* (1) A Special Summary Steel Invoice (Customs Form 5520) shall be filed in duplicate at the time of filing the entry

summary for each shipment determined by the District Director to have an aggregate purchase price of $10,000 or over or, if from a contiguous country, of $5,000 or over (including all expenses incident to placing the merchandise in condition packed ready for shipment to the United States), and containing any of the articles of steel listed in paragraph (b)(2) of this section. In addition to the information required by § 141.86, the Special Summary Steel Invoice shall set forth the following: (T.D.'s 78–53, 79–79, 79–221, 81–291.)

(A) The date of agreement on the final sales price for the shipment.

(B) A description of, and the additional price charged for, extras, other than width and length, with extras described in terms understood in the U.S. market.

(C) American Iron and Steel Institute (AISI) category.

(D) The base price for each steel category on which the total sales price was based.

(E) The name of the producer, the importer, and the price paid by the first unrelated purchaser in the United States, if that price is available at the time of filing the entry summary. One or more continuation sheets may be used to supply this information, if necessary. (T.D. 79–221.)

(2) The following articles of steel, listed by AISI category and product name, are subject to the special invoice requirements of § 141.89(b)(1):

(1) Ingots, blooms, billets, slabs, etc.
(2) Wire rods.
(3) Structural shapes, plain 76 mm and over.
(4) Sheet piling.
(5) Plates.
(6) Rail and track accessories.
(7) Wheels and axles.
(8) Concrete reinforcing bars.
(9) Bar shapes under 76 mm.
(10) Bars, hot rolled, carbon.
(11) Bars, hot rolled, alloy.
(12) Bars, cold finished.
(13) Hollow drill steel.
(14) Welded pipe and tubing.
(15) Other pipe and tubing.
(16) Round and shaped wire.
(17) Flat wire.
(18) Bale ties.
(19) Galvanized wire fencing.
(20) Wire nails.
(21) Barbed wire.
(22) Black plate.
(23) Tin plate.
(24) Terne plate.
(25) Sheets, hot rolled.
(26) Sheets, cold rolled.
(27) Sheets, coated including galvanized.
(28) Sheets, coated, alloy.
(29) Sheets, hot rolled.
(30) Strip, cold rolled.
(31) Strip, hot and cold rolled-alloy.
(32) Sheets, other, electric coated.
(38) Fabricated structurals.
(43) Wire rope.
(44) Wire strand.
(51) Rigid conduit.

Note.—Although not in sequence with existing numbers in § 141.89(b)(2), the numbers listed are those assigned to these articles by the American Iron and Steel Institute. [TD 87–43.]

§ 141.90 [Amended]

8. Section 141.90, paragraph (b), is amended by removing the words "item number of the Tariff Schedules of the United States" and by adding, in their place, the words "subheading of the Harmonized Tariff Schedule of the United States".

§ 141.113 [Amended]

9. Section 141.113 is amended as follows:

(a) Paragraph (a)(5) is amended by removing the words "Schedule 7, part 2E, headnote 4, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 91, Additional U.S. Note 4, United States Tariff Schedule (HTSUS)".

(b) Paragraph (g) is amended by removing the words "Schedule 8, part 5C, Tariff Schedules of the United States" in each place that they appear and by adding, in their place, the words "Chapter 98, Subchapter XII, HTSUS".

PART 142—ENTRY PROCESS

§ 142.17 [Amended]

3. Section 142.17, paragraph (b)(5), is amended by removing the words "Tariff Schedules of the United States item number" and by adding, in their place, the words "Harmonized Tariff Schedule of the United States subheading number, to the eight-digit level".

§ 142.17a [Amended]

4. Section 142.17a(a)(2) is amended by removing the words "Tariff Schedules of the United States Annotated statistical reporting number" and by adding in their place the words "Harmonized Tariff Schedule of the United States Annotated subheading to the ten-digit level".

PART 143—CONSUMPTION, APPRAISEMENT, AND INFORMAL ENTRIES

1. The authority citation for Part 143 continues to read as follows:

Authority: 19 U.S.C. 66, 1481, 1484, 1498, 1624.

§ 143.21 [Amended]

2. Section 143.21 is amended as follows:

(a) Paragraph (a) is amended by removing the words "Schedule 3; Parts 1, 4A, 7B, 12A, 12D, and 13B of Schedule 7; items 772.30 and 772.35; and Parts 2 and 3 of the Appendix to the Tariff Schedules of the United States Annotated" and by adding, in their place, the words "Sections VII, VIII, XI, and XII; Chapter 94 and Chapter 99, Subchapters III and IV, HTSUS".

(b) Paragraph (c) is amended by removing the words "in items from Schedule 3; Parts 1, 4A, 7B, 12A, 12D, and 13B of Schedule 7; items 772.30 and 772.35; and Parts 2 and 3 of the Appendix of the Tariff Schedules of the United States Annotated;" and by adding, in their place, the words "under subheadings from Sections VII, VIII, XI, and XII; or in Chapter 94 and Chapter 99, Subchapters III and IV, HTSUS".

(c) Paragraph (d) is amended by removing the words "schedule 8, part 2A, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 98, Subchapter IV, HTSUS".

(d) Paragraph (f) is amended by removing the words "item 806.20, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9802.00.40, HTSUS".

(e) Paragraph (h) is amended by removing the words "item 270.25, 273.10, 273.35, 765.03, 850.10 or 851.10, Tariff Schedules of the United States" and by adding, in their place, the words "subheadings 4903.00.00, 4904.00.00, 4905.91.00, 4905.99.00, 9701.10.00, 9701.90.00, 9810.00.05, HTSUS".

(f) Paragraph (h) is further amended by removing the words "item 850.10 or 851.10, Tariff Schedules of the United States" and by adding, in their place, the words "subheadings 9810.00.05 and 9810.00.30, HTSUS".

§ 143.23 [Amended]

3. Section 143.23, paragraph (d), is amended by removing the words "Schedule 3; Parts 1, 4A, 7B, 12A, 12D, and 13B of Schedule 7; items 772.30 and

772.35; and Parts 2 and 3 of the Appendix the Tariff Schedules of the United States Annotated" and by adding, in their place, the words "Sections VII, VIII, XI, and XII; Chapter 94; and Chapter 99, Subchapter III and IV, Harmonized Tariff Schedule of the United States".

§ 143.25 [Amended]

4. Section 143.25 is amended by removing the words "Tariff Schedules of the United States" and by adding, in their place, the words "Harmonized Tariff Schedule of the United States".

§ 143.29 [Amended]

5. Section 143.29, paragraph (b), is amended by removing the words "Tariff Schedules of the United States (TSUS; 19 U.S.C. 1202)" and by adding, in their place, the words "Harmonized Tariff Schedule of the United States".

PART 144—WAREHOUSE AND REWAREHOUSE ENTRIES AND WITHDRAWALS

1. The general authority citation for Part 144 is revised to read as follows:

Authority: 9 U.S.C. 66, 1484, 1557, 1559, 1624.

§ 144.15 [Amended]

2. In § 144.15, paragraph (a)(2), is amended by removing the words "item 804.20, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9801.00.80, Harmonized Tariff Schedule of the United States".

PART 145—MAIL IMPORTATIONS

1. The general authority citation for Part 145 is revised as follows:

Authority— 19 U.S.C. 66, 1202 (General Note 9, Harmonized Tariff Schedule of the United States), 1624.

§ 145.12 [Amended]

2. Section 145.12, paragraph (e)(1), is amended by removing the words "item 869.10, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9816.00.40, Harmonized Tariff Schedule of the United States".

§ 145.34 [Amended]

3. Section 145.34, paragraph (a), is amended by removing the words "item 817.00, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9805.00.50, Harmonized Tariff Schedule of the United States".

§ 145.35 [Amended]

4. Section 145.35, is amended by removing the words "item 800.00, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9801.00.10, Harmonized Tariff Schedule of the United States".

§ 145.36 [Amended]

5. Section 145.36 is amended by removing the words "items 270.25, 273.10, 273,35, 765.03, 850.10, or 851.10, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 4903.00.00, 4904.00.00, 4905.91.00, 4905.99.00, 9701.10.00, 9701.90.00, 9810.00.05, Harmonized Tariff Schedule of the United States (HTSUS" and by removing the words "item 850.10 or 851.10" and by adding, in their place, the words "subheading 9810.00.05 or 9101.30, HTSUS".

§ 145.37 [Amended]

6. Section 145.37(b) is amended by removing the words "item 270.25, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 4903.00.00, Harmonized Tariff Schedule of the United States (HTSUS)" and by removing the words "item 830.00" and by adding, in their place, the words "subheading 9808.00.10, HTSUS".

§ 145.43 [Amended]

7. Section 145.43 is amended by removing the words "item 813.31, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9804.00.70, Harmonized Tariff Schedule of the United States".

PART 146—FOREIGN TRADE ZONES

1. The authority citation for Part 146 is revised to read as follows:

Authority: 19 U.S.C. 66, 81a—81u, 1202 (General Note 9, Harmonized Tariff Schedule of the United States), 1623, 1624. Section 146.5 also issued under 31 U.S.C. 9701.

§ 146.1 [Amended]

2. Section 146.1, paragraph (b)(5), is amended by removing the worlds "General Headnote 2, Tariff Schedules of the United States" and by adding, in their place, the words "General Note 2, Harmonized Tariff Schedule of the United States".

§ 146.67 [Amended]

3. Section 146.67, paragraph (e), is amended by removing the words "Schedule 8, Part 1, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 98, Subchapter I, Harmonized Tariff Schedule of the United States".

§ 146.70 [Amended]

4. Section 146.70, paragraph (b), is amended by removing the words "Schedule 8, Part 1, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 98, Subchapter I, Harmonized Tariff Schedule of the United States".

PART 147—TRADE FAIRS

1. The authority citation for Part 147 is revised to read as follows:

Authority: 19 U.S.C. 66, 1623, 1624, 1751–1756, unless otherwise noted.

§ 147.2 [Amended]

2. Section 147.2 is amended as follows:

(a) Paragraph (a)(2) is amended by removing the words "Schedule 8, Part 5B, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 98, Subchapter XII, Harmonized Tariff Schedule of the United States (HTSUS)".

(b) Paragraph (b) is amended by removing the words "Schedule 8, Part 5C, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 98, Subchapter XIII, HTSUS".

§ 147.45 [Amended]

3. Section 147.45 is amended by removing the words "item 804.10, if aircraft, or item 804.20, if not aircraft, unless excluded by headnote 1(c), Subpart A, Part 1, Schedule 8, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9801.00.70, if aircraft, or subheading 9801.00.80, if not aircraft, unless excluded by U.S. Note 1(c), Chapter 98, Subchapter I, Harmonized Tariff Schedule of the United States".

PART 148—PERSONAL DECLARATIONS AND EXEMPTIONS

1. The general authority citation for Part 148 is revised to read as follows:

Authority: 19 U.S.C 66, 1496, 1624. The provisions of this part, except for Subpart C, are also issued under General Note 9, Harmonized Tariff Schedule of the United States, 19 U.S.C. 1202. Additional authority and statutes interpreted or applied are cited in the text or following the section affected.

§ 148.2 [Amended]

2. Section 148.2, paragraph (b), is amended by removing the words "schedule 8, part 2A, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 98, Subchapter IV, Harmonized Tariff Schedule of the United States".

§ 148.5 [Amended]

3. Section 148.5 is amended by removing the words "item 810.20 or 813.10, Tariff Schedules of the United States" and by adding, in their place, the

words "subheadings 9804.00.10, or 9804.00.45, Harmonized Tariff Schedule of the United States".

§ 148.6 [Amended]

4. Section 148.6 paragraph (a), is amended by removing from the first sentence the words "items 810.20, 812.10, 812.30, or 313.10, Tariff Schedules of the United States" and by adding, in their place, the words "subheadings 9804.00.10, 9804.00.20, 9804.00.25, 9804.00.35 or 9804.00.45, Harmonized Tariff Schedule of the United States (HTSUS)"; and by removing from the second sentence the words "item 810.20 for tools of trade taken abroad or unless item 813.10 for personal and household effects taken abroad"; and by removing from the third sentence the words "item 810.20 or item 813.10" and by adding in the second and third sentences, in their place, the words "subheadings 9804.00.10 or 9804.00.45".

§ 148.8 [Amended]

5. Section 148.8 is amended as follows:

(a) The introductory text is amended by removing the words "items 812.10, 812.20, 812.25, 812.30, Tariff Schedules of the United States" and by adding, in their place, the words "subheadings 9804.00.20, 9804.00.25, 9804.00.30, 9804.00.35, Harmonized Tariff Schedule of the United States".

(b) Paragraph (a) is amended by removing the words "item 812.25" and by adding, in their place, the words "subheading 9804.00.30".

§ 148.13 [Amended]

6. Section 148.13 is amended as follows:

(a) Paragraph (c)(1) is amended by removing the words "item 810.20, Tariff Schedules of the United States (19 U.S.C. 1202), for tools of trade taken abroad, or under item 813.10, for personal and household effects taken abroad" and by adding in their place the words "subheading 9804.00.10, Harmonized Tariff Schedule of the United States (HTSUS) (19 U.S.C. 1202), for tools of trade taken abroad, or under subheading, 9804.00.45, HTSUS, for personal or household effects taken abroad."

(b) Paragraph (c)(2) is amended by removing the words "item 812.10, Tariff Schedule of the United States (19 U.S.C. 1202), for wearing apparel and other similar personal effects; item 812.20, for tobacco products and alcoholic beverages; item 812.25, for articles to be disposed of as bona fide gifts; or item 812.40, for articles accompanying a person in transit to a place outside U.S. Customs territory" and by adding, in their place, the words "subheading 9804.00.20, HTSUS (19 U.S.C. 1202), for wearing apparel and other similar personal effects; subheading 9804.00.25, HTSUS, for tobacco products and alcoholic beverages; subheading 9804.00.30, HTSUS, for articles to be disposed of as bona fide gifts; or subheading 9804.00.40, HTSUS, for articles accompanying a person in transit to a place outside U.S. customs territory."

(c) Paragraph (c)(3) is revised to read as follows:

(c) * * *

(3) Books, libraries, furniture, and similar household effects entitled to free entry under subheading 9804.00.05, HTSUS.

§ 148.23 [Amended]

7. Section 148.23 is amended as follows:

(a) Paragraph (a)(1) is amended by removing the words "schedule 8, part 2A, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 98, Subchapter IV, Harmonized Tariff Schedule of the United States (HTSUS)".

(b) Paragraph (a)(2) is revised as follows:

(a) * * *

(2) Work of art classifiable under subheadings 9701.10.00 or 9701.90.00, HTSUS.

(c) Paragraph (a)(3) is revised as follows:

(a) * * *

(3) Works of art classifiable under subheadings 9702.00.00 or 9703.00.00, HTSUS, upon compliance with § 10.48 of this chapter.

(d) Paragraph (a)(4) is removed.

(e) Paragraph (c) is amended by removing the words "Schedule 3; Parts 1, 4A, 7B, 12A, 12D, and 13B of Schedule 7; items 772.30 and 772.35; and Parts 2 and 3 of the Appendix of the Tariff Schedules of the United States Annotated" and by adding in their place the words "Sections VII, VIII, XI, and XII; Chapter 94, and Chapter 99, Subchapter III and IV, HTSUS".

(f) Paragraph (c)(2) is amended by removing the words "Schedule 3; Part 1, 4A, 7B, 12A, 12D, and 13B of Schedule 7; items 772.30 and 772.35; and Parts 2 and 3 of the Appendix to the Tariff Schedules of the United States Annotated" and by adding, in their place, the words "Sections VII, VIII, XI, and XII; Chapter 94 and Chapter 99, Subchapters III and IV, HTSUS".

§ 148.26 [Amended]

8. Section 148.26(b) is amended by removing the second sentence, beginning with the words "Alcoholic beverages found * * *", in its entirety.

§ 148.31 [Amended]

9. Section 148.31 is amended by removing the words "item 813.10 and schedule 8, part 2, headnote 1, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9804.00.45, and Chapter 98, U.S. Note 3, Harmonized Tariff Schedule of the United States".

§ 148.33 [Amended]

10. Section 148.33 (a) is amended by removing the words "item 813.30 and 813.31 and schedule 8, part 2, headnote 1, Tariff Schedules of the United States" and by adding, in their place, the words "subheadings 9804.00.65 and 9804.00.70, and Chapter 98, U.S. Note 3, Harmonized Tariff Schedule of the United States".

§ 148.37 [Amended]

11. Section 148.37(b) is amended by removing the words "item 813.40, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9804.00.75, Harmonized Tariff Schedule of the United States."

§ 148.39 [Amended]

12. Section 148.39 is amended as follows:

(a) Paragraph (a) is amended by removing the words "item 813.25, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9804.00.60, Harmonized Tariff Schedule of the United States (HTSUS)".

(b) Paragraph (b) is amended by removing the words "item 813.25, Tariff Schedules of the United States (19 U.S.C. 1202)" and by adding, in their place, the words "subheading 9804.00.60, HTSUS".

§ 148.41 [Amended]

13. Section 148.41 is amended by removing the words "item 812.40, and schedule 8, part 2, headnote 1, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9804.00.40 and Chapter 98, U.S. Note 3, Harmonized Tariff Schedule of the United States".

§ 148.42 [Amended]

14. Section 148.42(a) is amended by removing the words "item 812.10, and schedule 8, part 2, headnote 1, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9804.00.20, and Chapter 98, U.S. Note 3, Harmonized Tariff Schedule of the United States".

§ 148.43 [Amended]

15. Section 148.43(a) is amended by removing the words "item 812.20, and

schedule 8, part 2, headnote 1, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9804.00.25 and Chapter 98, U.S. Note 3, Harmonized Tariff Schedule of the United States (HTSUS)".

§ 148.44 [Amended]

16. Section 148.44(a) is amended by removing the words "item 812.25, and schedule 8, part 2, headnote 1, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9804.00.30 and Chapter 98, U.S. Note 3, Harmonized Tariff Schedule of the United States".

§ 148.45 [Amended]

17. Section 148.45 is amended by removing the words "item 812.30, and schedule 8, part 2, headnote 1, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9804.00.35 and Chapter 98, U.S. Note 3, Harmonized Tariff Schedule of the United States".

§ 148.46 [Amended]

18. Section 148.46(a) by removing the words "schedule 8, part 2A, headnote 1, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 98, Subchapter IV, U.S. Note 1, HTSUS"

§ 148.51 [Amended]

19. Section 148.51 is amended as follows:

(a) Paragraph (a)(1) is amended by removing the words "item 812.25, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9804.00.39, Harmonized Tariff Schedule of the United States (HTSUS)".

(b) Paragraph (a)(2) is amended by removing the words "item 813.31, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9804.00.70, HTSUS".

§ 148.52 [Amended]

20. Section 148.52(a) is amended by removing the words "item 810.10, and schedule 8, part 2, headnote 1, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9804.00.05, Harmonized Tariff Schedule of the United States".

§ 148.53 [Amended]

21. Section 148.53 is amended as follows:

(a) Paragraph (a) is amended by removing the words "schedule 8, part 2, headnote 1, and item 811.10, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9804.00.15, Harmonized Tariff Schedule of the United States (HTSUS)"; by removing the words "item 810.20" and by adding, in their place, the words "subheading 9804.00.10"; and by removing the words "item 811.10" and by adding, in their place, the words "subheading 9804.00.15".

(b) Paragraph (b) is amended by removing the words "item 810.20, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9804.00.10, HTSUS".

§ 148.54 [Amended]

22. Section 148.54(a) is amended by removing the words "item 815.00, and schedule 8, part 2, headnote 1, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9804.00.85 and Chapter 98, U.S. Note 3, Harmonized Tariff Schedule of the United States."

§ 148.63 [Amended]

23. In § 148.63, the introductory text to paragraph (a) is amended by removing the words "item 814.00, and schedule 8, part 2, headnote 1, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9804.00.80, Harmonized Tariff Schedule of the United States (HTSUS)".

§ 148.64 [Amended]

24. Section 148.64 is amended as follows:

(a) Paragraph (a) is amended by removing the words "item 812.25 or 813.31, Tariff Schedules of the United States" and by adding, in their place, the words "subheadings 9804.00.30 or 9804.00.70, Harmonized Tariff Schedule of the United States (HTSUS)"; and by removing the words "item 814.00, Tariff Schedules of the United States (19 U.S.C. 1202)" and by adding, in their place, the words "subheading 9804.00.80, HTSUS".

(b) Paragraph (b)(2) is amended by removing the words "item 814.00, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9804.00.80, HTSUS"; and by adding, following the words, "Alcoholic perfumery not in excess of 150 milliliters", the words "(Subheading 9805.00.50, HTSUS (19 U.S.C. 1202, 1321)). [TD 80–179.]"

§ 148.65 [Amended]

25. Section 148.65(a) is amended by removing the words "schedule 8, Part 2A, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 98, Subchapter IV, Harmonized Tariff Schedule of the United States".

§ 148.66 [Amended]

26. Section 148.66 is amended as follows:

(a) Paragraph (a) is amended by removing the words "schedule 8, part 2A, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 98, Subchapter IV, Harmonized Tariff Schedule of the United States (HTSUS)".

(b) Paragraph (b)(2) is amended by removing the words "item 812.40, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9808.00.40, HTSUS".

(c) Paragraph (c) is amended by removing the words "item 812.25, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9804.00.30, HTSUS".

§ 148.71 [Amended]

27. Section 148.71 introductory text is amended by removing the words "schedule 8, part 2A, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 98, Subchapter IV, Harmonized Tariff Schedule of the United States".

§ 148.73 [Amended]

28. Section 148.73(b) is amended by removing the words "schedule 8, part 2A, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 98, Subchapter IV, Harmonized Tariff Schedule of the United States".

§ 148.74 [Amended]

29. Section 148.74 is amended as follows:

(a) The introductory text to paragraph (a) is amended by removing the words "item 817.00, and schedule 8, part 2, headnote 1, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9805 00.50, Harmonized Tariff Schedule of the United States (HTSUS)".

(b) The introductory text to paragraph (b) is revised as follows:

(b) The term "personal effects" as used in subheading 9805.00.50, HTSUS is not confined to that class of articles described in subheading 9804.00.20, HTSUS, nor is any period of use, such as prescribed by subheading 9804.00.05, HTSUS, applicable to household effects entered under subheading 9805.00.50, HTSUS. The privilege of free entry under subheading 9805.00.50, HTSUS does not apply to:.

(c) Paragraph (b)(1) is amended by removing the words "item 817.00, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9805.00.50, HTSUS

(d) Paragraph (c) is revised to read as follows:

(c) *Limitation on alcoholic beverages and tobacco products.* A total of not more than 4 liters of alcoholic beverages and not more than 100 cigars shall be accorded free entry under subheading 9805.00.50, HTSUS, subject to the conditions that:

(1) These articles accompany the person making the claim for free entry upon his arrival in the U.S.;

(2) Not more than 1 liter of any such alcoholic beverages shall have been distilled or otherwise manufactured and bottled in any place other than the United States or its possessions;

(3) Such individual has not concurrently claimed exemption as a returning resident under subheading 9804.00.65 and 9804.00.70, HTSUS; and

(4) Such person, if other than one in the service of the U.S., shall have attained the age of 21.

(e) The introductory text to paragraph (d) is amended by removing the words "item 817.00" and by adding in their place the words "subheading 9805.00.50, HTSUS,".

§ 148.75 [Amended]

30. Section 148.75 is amended as follows:

(a) Paragraph (a) is amended by removing the words "item 817.00, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9805.00.50, Harmonized Tariff Schedule of the United States (HTSUS)".

(b) Paragraph (b) is amended by removing the words "item 817.00, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9805.00.50, HTSUS".

(c) Paragraph (c) is amended by removing the words "item 817.00, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9805.00.50, HTSUS".

§ 148.77 [Amended]

31. Section 148.77 is amended as follows:

(a) Paragraph (a) is amended by removing the words "item 817.00, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9805.00.50, Harmonized Tariff Schedule of the United States" and by removing the words "item 817.00, Tariff Schedules of the United States" and the words "item 817.00" and by adding, in their place, the words "subheading 9805.00.50, HTSUS".

(b) Paragraph (b)(1) is amended by removing the words "item 817.00, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9805.00.50, HTSUS".

(c) The form in paragraph (b)(2) is amended by removing the words "item 817.00, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9805.00.50, Harmonized Tariff Schedule of the United States".

(d) Paragraph (c)(1) is amended by removing the words "item 817.00" and by adding, in their place, the words "subheading 9805.00.50".

§ 148.82 [Amended]

32. Section 148.82 is amended as follows:

(a) Paragraph (b)(1) is amended by removing the words "item 820.10, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9806.00.05, Harmonized Tariff Schedule of the United States (HTSUS),",

(b) Paragraph (b)(2) is amended by removing the words "item 820.10, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9806.00.05, Harmonized Tariff Schedule of the United States (HTSUS)".

(c) Paragraph (b)(4) is amended by removing the words "item 820.50, Tariff Schedules of the United States (19 U.S.C. 1202)" and by adding, in their place, the words "subheading 9806.00.25, HTSUS".

(d) Paragraph (b)(5) is amended by removing the words "item 820.60, Tariff Schedules of the United States (19 U.S.C. 1202)" and by adding, in their place, the words "subheading 9806.00.30, HTSUS".

§ 148.85 [Amended]

33. Section 148.85 is amended as follows:

(a) Paragraph (a) is amended by removing the words "item 822.10, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9806.00.40, Harmonized Tariff Schedule of the United States (HTSUS)".

(b) Paragraph (b) is amended by removing the words "item 822.30, Tariff Schedules of the United States (19 U.S.C. 1202)" and by adding, in their place, the words "subheading 9806.00.50, HTSUS".

(c) Paragraph (c) is amended by removing the words "item 822.40, Tariff Schedules of the United States (19 U.S.C. 1202)" and by adding, in their place, the words "subheading 9806.00.55, HTSUS".

§ 148.86 [Amended]

34. Section 148.86 is amended by removing the words "item 841.10, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9809.00.20, Harmonized Tariff Schedule of the United States".

§ 148.87 [Amended]

35. Section 148.87 (a) is amended by removing the words "item 820.30, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9806.00.15, Harmonized Tariff Schedule of the United States".

§ 148.88 [Amended]

36. Section 148.88(c) is amended by removing the words "item 822.40, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9806.00.55, Harmonized Tariff Schedule of the United States".

§ 148.90 [Amended]

37. Section 148.90 is amended as follows:

(a) Paragraph (a)(1) is amended by removing the words "item 820.40, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9806.00.20, Harmonized Tariff Schedule of the United States (HTSUS)".

(b) Paragraph (a)(2) is amended by removing the words "item 822.20, Tariff Schedules of the United States (19 U.S.C. 1202)" and by adding, in their place, the words "subheading 9806.00.45, HTSUS".

(c) Paragraph (a)(3) is amended by removing the words "item 841.20, Tariff Schedules of the United States (19 U.S.C. 1202)" and by adding, in their place, the words "subheading 9809.00.30, HTSUS".

(d) Paragraph (c) is amended by removing the words "item 820.40, 822.20, or 841.20, Tariff Schedules of the United States (19 U.S.C. 1202)" and by adding, in their place, the words "subheadings 9806.00.20, 9806.00.45 and 9809.00.30, HTSUS".

(e) Paragraph (d)(1)(i) is amended by removing the words "item 822.20, Tariff Schedules of the United States (19 U.S.C. 1202)" and by adding, in their place, the words "subheading 9806.00.45, HTSUS".

(f) Paragraph (d)(3) is amended by removing the words "item 822.20, Tariff Schedules of the United States (19 U.S.C. 1202)" and by adding, in their place, the words "subheading 9806.00.45, HTSUS".

(g) Paragraph (e) is amended by removing the words "item 820.40, 822.20, or 841.20, Tariff Schedules of the United States (19 U.S.C. 1202)" and by adding, in their place, the words "subheadings 9806.00.20, 9806.00.45, 9809.00.30, HTSUS".

§ 148.101 [Amended]

38. Section 148.101 is amended by removing the words "item 869.00 or

869.10, Tariff Schedules of the United States" and by adding, in their place, the words "subheadings 9816.00.20 or 9816.00.40, Harmonized Tariff Schedule of the United States".

§ 148.105 [Amended]

39. Section 148.105(a) is amended by removing the words "item 869.00 or 869.10, Tariff Schedules of the United States" and by adding, in their place, the words "subheadings 9816.00.20 or 9816.00.40, Harmonized Tariff Schedule of the United States".

§ 148.111 [Amended]

40. Section 148.111 is amended as follows:

(a) Paragraph (a) is amended by removing the words "item 813.31, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9804.00.70, Harmonized Tariff Schedule of the United States (HTSUS)".

(b) Paragraph (b) is amended by removing the words "item 869.10 of the Tariff Schedules" and by adding, in their place, the words "subheading 9816.00.40, HTSUS".

§ 148.113 [Amended]

41. Section 148.113(a)(1) is amended by removing the words "item 813.31, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9804.00.70, Harmonized Tariff Schedule of the United States (HTSUS)" and by removing the words "item 869.10 of the tariff schedules" and by adding, in their place, the words "subheading 9816.00.40, HTSUS".

§ 148.115 [Amended]

42. Section 148.115 is amended as follows:

(a) Paragraph (a)(1) is amended by removing the words "item 813.31, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9804.00.70, Harmonized Tariff Schedule of the United States (HTSUS)".

(b) The introductory text to paragraph (a)(2) is amended by removing the words "item 869.10 of the tariff schedules" and by adding, in their place, the words "subheading 9816.00.40, HTSUS".

(c) Paragraph (a)(2)(iv) is amended by removing the words "item 869.10" and by adding, in their place, the words "subheading 9816.00.40, HTSUS".

(d) Paragraph (d) is amended by removing the words "item 813.31 of the Tariff Schedules of the United States (19 U.S.C. 1202)" and by adding, in their place the words "subheading 9804.00.70, HTSUS" and by removing the words "item 869.10 of the tariff schedules" and by adding, in their place, the words "subheading 9816.00.40, HTSUS".

(e) Paragraph (e) is amended by removing the words "item 813.31, Tariff Schedules of the United States (19 U.S.C. 1202)" and by adding, in their place, the words "subheading 9804.00.70, HTSUS" and by removing the words "item 869.10 of the tariff schedules" and by adding, in their place, the words "subheading 9816.00.40, HTSUS".

PART 151—EXAMINATION, SAMPLING, AND TESTING OF MERCHANDISE

1. The authority citation for Part 151 is revised to read as follows:

Authority: 19 U.S.C. 66, 1202 (General Notes 9 and 10, Harmonized Tariff Schedule of the United States (HTSUS)), 1624. Subpart A also issued under 19 U.S.C. 1499. Subpart D also issued under additional U.S. Notes to Chapter 28, HTSUS; 19 U.S.C. 1202. Subpart E also issued under Additional U.S. Note 2(f) to Chapter 51, HTSUS. Subpart F also issued under Additional U.S. Notes to Chapter 52, HTSUS; 19 U.S.C. 1202. Additional authority and statutes interpreted or applied are cited in the text or following the sections affected.

§ 151.13 [Amended]

2. Section 151.13 is amended as follows:

(a) By changing the title "Director, Technical Services Division" to read "Director, Office of Laboratories and Scientific Services", wherever it appears.

(b) By revising paragraph (a) to read as follows:

(a) *Acceptance of reports.* Provided that the commercial gauger or laboratory has complied with the appropriate provisions of the Customs Regulations, and in the absence of clear evidence that District Director should not do so, the District Director shall accept the reports as described in the following paragraphs.

(1) Customs shall accept, from Customs-approved commercial gaugers, gauging reports of the net landed quantity of the products described below, except that in the case of crude petroleum of Heading 2709, the gross quantity may be accepted; see § 151.47. Reports shall be given in the appropriate Harmonized Tariff Schedule units of quantity, e.g., liters, barrels, and kilograms.

HTSUS	Product	Unit of quantity
1501 through 1515.	Animal and vegetable oils.	—Kilogram
2707.10 through 2707.30 and 2902.20 through 2902.44.	Benzene, toluene, and xylene.	—Liter
2709	Crude petroleum	—Barrel
2710 (various sub-headings).	Such as fuel oil, motor fuel, kerosene, naptha, and lubricating oils.	—Barrel
Chapter 29 (various).	Organic compounds in bulk and in liquid form.	—Kilogram, liter, etc.

(2) Customs shall accept, from Customs-accredited commercial laboratories, laboratory analysis reports giving the characteristics of the products described below when determined according to the analysis methods indicated. In cases where neither a published commercial method such as an ASTM procedure nor an Official Customs Laboratory Method (OCLM) is indicated, the commercial laboratory shall use a method of analysis which has been approved for use in Customs-related transactions by the Director, Office of Laboratories and Scientific Services. OCLM's and approved methods will be made available to the public under the Freedom of Information Act (5 U.S.C. 552) and 19 CFR, Part 103. Methods published by organizations such as ASTM, API, TAPPI, ICUMSA, and similar organizations, are not available from Customs.

HTSUS	Product	Characteristic (analysis method)
1701	Sugar (sucrose, raw sugar).	—Polarization of sugar in sugar degrees (ICUMSA method entitled "Polarization of Raw Sugar").
1703	Molasses	—Percent soluble nonsugar solids. —Percent total sugars. —Weight per gallon in air at 60 °F.

HTSUS	Product	Characteristic (analysis method)
2707.10 through 2707.30 and 2902.20 through 2902.44.	Benzene, toluene and xylene.	—Distillation characteristics (ASTM D 86).
		—Xylene isomer content (ASTM D 2306 or equivalent).
		—Percent composition by weight (ASTM D 2360, D 3797, D 3798, D 4492 or equivalents).
2709	Crude petroleum	—Water by distillation (ASTM D 4006).
		—Sediment and water (ASTM D 96).
		—API gravity (ASTM D 287).
		—Sediment by extraction (ASTM D 473).
2710 (various subheadings).	Such as, fuel oil, motor fuel, kerosene, naptha, and lubricating oils.	—Distillation characteristics (ASTM D 86).
		—Water by distillation (ASTM D 95).
		—Sediment and water (ASTM D 96).
		—API gravity (ASTM D 287).
		—Reid vapor pressure (ASTM D 323).
		—Saybolt universal viscosity (ASTM D 445 and D 2161).
		—Sediment by extraction (ASTM D 473).
		—Percent by weight sulfur (ASTM D 1266, ASTM D 2622, or ASTM D 3120).
		—Percent by weight lead (ASTM D 2547, ASTM D 2599, or ASTM D 3341).
		—Antiknock index (ASTM D 2699 (RON) and ASTM D 2700 (MON); see ASTM D 439).
Chapter 29 (various subheadings).	Organic compounds in bulk and in liquid form.	—Identity using HTSUS descriptions or common or IUPAC nomenclature.
		—Composition, giving percent by weight of each component. (Various methods published by ASTM, API, AOAC, USP, and similar organizations, may be used for identity and composition, e.g., ASTM D 2593 for butadiene, D 2192 for aldehydes, ketones, and similar substances. Approved methods involving gas or liquid chromatography, infrared spectroscopy, mass spectrometry, nuclear magnetic resonance spectrometry, and various "wet" chemical procedures and physical tests, e.g., refractive index, and melting point, may also be used.)
4801	Standard newsprint.	—Weight per area (grammage) in g/m^2 (TAPPI T 410).
		—Thickness in mm (TAPPI T 411).
		—Ash (TAPPI T 413).
		—Sizing by water transudation via ground glass method (TAPPI T 432).
		—Bekk smoothness (TAPPI T 479).

§ 151.14 [Amended]

3. Section 151.14 is amended by removing the table and by adding, in its place, the following table:

Analysis method	Characteristic	Difference between customs value and commercial laboratory's value
ASTM D 96	Sediment & water.	0.11 percent.
ICUMSA	Polarization	0.4 sugar degree.
ICUMSA or AOAC.	Total sugars	2.0 percent total.

§ 151.21 [Amended]

4. Section 151.21 is amended as follows:

(a) The introductory text is amended by removing the words "schedule 1, part 10, Tariff Schedules of the United States" and by adding, in their place, the words "the provisions of Chapters 17 and 18, Harmonized Tariff Schedule of the United States".

(b) Paragraph (a) is revised to read as follows:

(a) *Degree.* "Degree" or "sugar degree" means an International Sugar Degree as determined by polarimetric test performed in accordance with procedures recognized by the International Commission for Uniform Methods of Sugar Analysis. This test discloses the percentage of sucrose contained in the sugar.

§ 151.22 [Amended]

5. Section 151.22 is amended by adding the words and punctuation after the words "raw sugar" as follows: ", as defined in Subheading Note 1 to Chapter 17, Harmonized Tariff Schedule of the United States,".

§ 151.28 [Amended]

6. Section 151.28(a) is amended by removing the words "United States Gallons per inch" and by adding, in their place, the words "liters per centimeter".

§ 151.41 [Amended]

7. Section 151.41 is amended by removing the words "United States gallons" and by adding, in their place, the word "barrels" and by adding a new sentence after the word "unladen.", as follows: "The term 'barrels' is defined in Chapter 27, Additional U.S. Note 7, Harmonized Tariff Schedule of the United States."

§ 151.42 [Amended]

8. Section 151.42(b) is amended by removing the words "public gauger" or "public gaugers" wherever they appear and by adding, in their place, the words "commercial gauger" or "commercial gaugers".

§ 151.44 [Amended]

9. Section 151.44(a) is amended by removing the word "gallon" and by adding, in its place, the word "barrel" and by removing the words "United States gallons per inch or fraction of an inch" and by adding, in their place, the words "barrels per centimeter or tenth of a centimeter."

10. Section 151.46 is revised to read as follows:

§ 151.46 Allowance for excessive water and sediment.

Application for an allowance in duties for all detectable water and sediment in imported petroleum and petroleum products shall be made on Customs Form 4315. The application shall be filed with the district director within 10 days of the district director's receipt of the

gauging report or within 10 days of Customs acceptance of the entry's invoice gauge. If the district director is satisfied that the application for an allowance in duties is acceptable, he shall liquidate the entry accordingly.

§ 151.47 [Amended]

11. Section 151.47 is amended by removing the words and punctuation ", which shall be determined in accordance with §§ 151.46 and 158.13 of this chapter".

§ 151.51 [Amended]

12. Section 151.51 is amended as follows:

(a) Paragraph (a) is amended by removing the words "schedule 6, part 1, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 26, Harmonized Tariff Schedule of the United States (HTSUS)".

(b) Paragraph (b) is amended by removing the words "item 601.66, Tariff Schedules of the United States (19 U.S.C. 1202), as containing less than 1 percent of metals dutiable under item 602.10, 602.20, 602.28, or 602.30, Tariff Schedules of the United States (19 U.S.C. 1202)" and by adding, in their place, the words "heading 2617, HTSUS, as containing less than 1 percent of metals dutiable under headings 2603, 2607, and 2608, HTSUS".

§ 151.55 [Amended]

13. Section 151.55 is amended by removing the words "schedule 6, part 1, headnote 4, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 26, Additional U.S. Note 1, Harmonized Tariff Schedule of the United States".

§ 151.61 [Amended]

14. Section 151.61 is amended as follows:

(a) Paragraph (a) is revised to read as follows:

"(a) *Clean kg.* 'Clean kg' means kilograms of clean yield as defined in paragraph (b) of this section."

(b) Paragraph (b) is amended by adding, following the heading "*Clean yield.*", the words, "Except for the purposes of carbonized fibers,".

(c) The section is amended by redesignating paragraphs (c) and (d) as (d) and (e), respectively, and adding new paragraph (c) to read as follows:

"(c) For the purposes of carbonized fibers, the term clean yield means the condition as entered."

15. The introductory text of § 151.62 is amended by removing the words "pound under schedule 3, part 1C, Tariff Schedules of the United States" and by adding, in their place, the words "kilogram under Chapter 51, Harmonized Tariff Schedule of the United States".

16. Section 151.63 is revised to read as follows:

§ 151.63 Information on entry summary.

Each entry summary covering wool or hair subject to duty at a rate per clean kilogram under Chapter 51, Harmonized Tariff Schedule of the United States (19 U.S.C. 1202), shall show as to each lot of wool or hair covered thereby, in addition to other information required, the total estimated or actual net weight of the wool or hair in its condition as imported, its total estimated clean yield in kilograms, and the estimated percentage clean yield. (19 U.S.C. 1484.)

§ 151.64 [Amended]

17. Section 151.64(b) is amended by removing the word "pound" and adding, in its place, the word "kilogram".

§ 151.65 [Amended]

18. Section 151.65 is amended by removing the word "pound" and by adding, in its place, the word "kilogram".

§ 151.68 [Amended]

19. Section 151.68 is amended by removing the word "pound" from paragraphs (a) and (b) and by adding, in its place, the word "kilogram".

§ 151.76 [Amended]

20. Section 151.76(a) is amended by removing the word "pound" and by adding, in its place, the word "kilogram" and by removing the words "schedule 3, part 1C, headnote 2, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 51, Additional U.S. Note 2, Harmonized Tariff Schedule of the United States".

§ 151.81 [Amended]

21. Section 151.81 is amended by removing the word "inch" and by adding in its place the word "millimeter".

22. Section 151.82 is revised to read as follows:

§ 151.82 Information on invoices.

Invoices of cotton provided for in subheading 5201.00.10, 5201.00.20, 5201.00.50, Harmonized Tariff Schedule of the United States (19 U.S.C. 1202), shall show the following detailed information in addition to other required information:

(a) One of the following statements regarding each lot of cotton covered by the invoice:

(1) This is harsh or rough cotton under 19.05 millimeters in staple length;

(2) The staple length of this cotton is under 28.58 millimeters. (This statement is not to be used if paragraph (a)(1) of this section is applicable);

(3) The staple length of this cotton is 28.58 millimeters or more and under 34.93 millimeters;

(4) This cotton is harsh or rough cotton (other than cotton of perished staple, and cotton pickings), white in color, and has a staple length of 29.37 millimeters or more and under 44.45 millimeters;

(5) The staple length of this cotton is 34.93 millimeters or more and under 42.86 millimeters; or

(6) The staple length of this cotton is 42.86 millimeters or more.

(b) The name of the country of origin and, if practicable, the name of the province or other subdivision of the country of origin in which the cotton was grown.

(c) The variety of the cotton, such as Karnak, Gisha, Pima, Tanguis, etc.

§ 151.91 [Amended]

23. Section 151.91 is amended by removing the words "schedule 1, part 12A, headnote 3, Tariff Schedules of the United States" and by adding in their place the words "the Additional U.S. Notes to Chapter 20, Harmonized Tariff Schedule of the United States (HTSUS)" and by removing the words "headnote 4 of part 12A" and by adding in their place the words "Additional U.S. Note 2, Chapter 20, HTSUS"

Subpart H—[Removed and Reserved]

24. Subpart H is removed and marked "Reserved."

PART 152—CLASSIFICATION AND APPRAISEMENT OF MERCHANDISE

1. The authority citation for Part 152 is revised to read as follows:

Authority: 19 U.S.C. 66, 1401a, 1500, 1502, 1624. Subpart B is also issued under 19 U.S.C. 1315. Additional authority and statutes interpreted or applied are cited in the text or following the sections affected.

§ 152.1 [Amended]

2. Section 152.1(d) is amended by removing the words "Schedule 8, Tariff Schedules of the United States" and by adding, in their place, the words "Section XXII, Harmonized Tariff Schedule of the United States".

§ 152.11 [Amended]

3. Section 152.11 is amended by removing the words "Tariff Schedules of the United States" in the heading and in the text and by adding, in both places, the words "Harmonized Tariff Schedule of the United States".

VOL 53 ISS 245 DE 21 1988 UMI

§ 152.13 [Amended]

4. Section 152.13 is amended as follows:

(a) Paragraph (b)(1) is amended by removing the words "general headnote 7(a) Tariff Schedules of the United States" and by adding, in their place, the words "General Note 5, Harmonized Tariff Schedule of the United States (HTSUS)".

(b) Paragraph (b)(2) is amended by removing the words "general headnote 7 (b), (c), or (d), Tariff Schedules of the United States (19 U.S.C. 1202)" and by adding, in their place, the words "General Note 5 (b), (c), or (d), HTSUS".

(c) The introductory text to paragraph (c) is amended by removing the words "general headnote 7 (a)(iii), (b), (c), or (d), Tariff Schedules of the United States (19 U.S.C. 1202)" and by adding, in their place, the words "General Note 5 (a)(iii), (b), (c), or (d), HTSUS".

(d) Paragraph (c)(1) is amended by removing the words "general headnote 7(a)(iii), Tariff Schedules of the United States (19 U.S.C. 1202)" and by adding, in their place, the words "General Note 5(a)(iii), HTSUS".

(e) Paragraph (c)(2) is amended by removing the words "general headnote 7 (b), Tariff Schedules of the United States (19 U.S.C. 1202)" and by adding, in their place, the words "General Note 5(b), HTSUS".

(f) Paragraph (c)(3) is amended by removing the words "general headnote 7(c) or (d), Tariff Schedules of the United States (19 U.S.C. 1202)" and by adding, in their place, the words "General Note 5 (c) or (d), HTSUS".

(g) Paragraph (d) is amended by removing the words "general headnote 7(a)(iii) or for performing the segregation specified in general headnote 7(b), Tariff Schedules of the United States (19 U.S.C. 1202)" and by adding, in their place, the words "General Note 5(a)(iii) or for performing the segregation specified in General Note 5(b), Harmonized Tariff Schedule of the United States".

§ 152.101 [Amended]

5. Section 152.101(a) is amended by removing the words "item 700.60, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 6401.10.00, Harmonized Tariff Schedule of the United States".

PART 158—RELIEF FROM DUTIES ON MERCHANDISE LOST, DAMAGED, ABANDONED, OR EXPORTED

1. The authority citation for Part 158 is revised to read as follows:

Authority: 19 U.S.C. 66, 1624. Subpart C also issued under 19 U.S.C. 1563, unless otherwise noted.

§ 158.12 [Amended]

2. Section 158.12(a) is amended by removing the words "schedule 6, part 2, headnote 4, Tariff Schedules of the United States" and by adding, in their place, the words "Chapter 72, Additional U.S. Note 3, Harmonized Tariff Schedule of the United States".

§ 158.13 [Amended]

3. Sections 158.13, paragraph (b) is amended by adding at the end of paragraph (b) the citation "(19 U.S.C. 1507)", and paragraph (c) and the authority citation following it are removed.

PART 159—LIQUIDATION OF DUTIES

1. The authority citation for Part 159 is revised to read as follows:

Authority: 19 U.S.C. 66, 1500, 1624. Subpart C also issued under 31 U.S.C. 372. Additional authority and statutes interpreted or applied are cited in the text or following the sections affected.

§ 159.4 [Amended]

2. Section 159.4 is amended as follows:

(a) Paragraph (a) is amended by removing the words "schedule 1, part 12, Tariff Schedules of the United States" and by adding in their place the words "headings 2207 and 2208, Harmonized Tariff Schedule of the United States (HTSUS),"; and by removing the words "items 167.20 and 167.90, Tariff Schedules of the United States (19 U.S.C. 1202) and distilled spirits provided for in schedule 1, part 12, Tariff Schedules of the United States" and by adding in their place the words "subheadings 2206.00.30 and 2206.00.90, HTSUS, and distilled spirits provided for in headings 2207 and 2208".

(b) The introductory text to paragraph (b) is amended by removing the words "schedule 1, part 12, Tariff Schedules of the United States" and by adding, in their place, the words "headings 2207 and 2208".

§ 159.7 [Amended]

3. Section 159.7 is amended as follows:

(a) Paragraph (a)(1) is amended by removing the words "schedule 1, part 12, Tariff Schedules of the United States" and by adding, in their place, the words "headings 2207 and 2208, Harmonized Tariff Schedule of the United States (HTSUS)".

(b) Paragraph (a)(4) is amended by removing the words "clean pound under schedule 3, part 1, subpart C, Tariff Schedules of the United States (19 U.S.C. 1202)" and by adding, in their place, the words "clean kilogram under Chapter 51, HTSUS."

§ 159.22 [Amended]

4. Section 159.22, paragraph (c) is amended by converting the weights associated with the scheduled tares to their metric equivalents as follows:

* * * * *

Apple boxes. 2.984 kilograms per box. This schedule tare includes the paper wrappers, if any, on the apples.

China clay in so-called half-ton casks: 26.856 kilograms per cask.

* * * * *

Fresh tomatoes: 113 grams per 100 paper wrappings.

Lemons and oranges: 283 grams per box and 142 grams per half box for paper wrappings, and actual tare for outer containers.

* * * * *

Pimientos in tins imported from Spain: The following schedule drained weight shall be used as the Customs dutiable weight in the liquidation of entries, the difference between the weight of the new contents of pimientos in tins and such drained weight being the allowance made in liquidation for tare for water:

Size can	Drained weight
3 kilo	13.6 kilograms-case of 6 tins.
794 grams	16.7 kilograms-case of 24 tins.
425 grams	8.0 kilograms-case of 24 tins.
198 grams	3.9 kilograms-case of 24 tins.
113 grams	2.4 kilograms-case of 24 tins.

Tobacco, leaf not stemmed: 5.9 kilograms per bale: Sumatra: actual tare for outside coverings, plus 1.9 kilograms for the inside matting and, if a certificate is attached to the invoice certifying that the bales contain paper wrapping and specifying whether light or heavy paper has been used, either 113 grams or 227 grams for the paper wrapping according to the thickness of paper used.

§ 159.43 [Amended]

5. Section 159.43 is amended by removing the words "Schedule 2, part 4, headnote 4, Tariff Schedules of the United States" and by adding, in their place, the words "additional U.S. Note 1 to Section X, Harmonized Tariff Schedule of the United States".

PART 171—FINES, PENALTIES, AND FORFEITURES

1. The authority citation for Part 171 is revised to read as follows:

Authority: 19 U.S.C. 66, 1592, 1618, 1624. The provisions of subpart C also issued under 22 U.S.C. 401; 46 U.S.C. App. 320 unless otherwise noted.

Appendix A—[Amended]

2. Appendix A to Part 171 is amended as follows:

(a) Part II. (Violations Involving Absolutely or Conditionally Free Articles) is amended by removing the words "Schedules 1–7, Tariff Schedules of the United States (TSUS)" and by adding in their place the words "Chapters 1–97, Harmonized Tariff Schedule of the United States (HTSUS)"; and by removing the words "Schedule 8, TSUS" and by adding, in their place, the words "Chapter 98, HTSUS".

(b) The text of Part II, 1., a., is amended by removing the words "Schedule 8, TSUS" and by adding, in their place, the words "Chapter 98, HTSUS".

(c) Part III, 4., is amended by removing the words "Schedule 1–7, TSUS" and by adding, in their place, the words "Chapters 1–97, HTSUS"; and by removing the words "Schedule 8, TSUS" and by adding, in their place, the words "Chapter 98, HTSUS".

Appendix B—[Amended]

3. Appendix B, section H(1)(c), to Part 171 is amended by removing the words "item 807, Tariff Schedules of the United States" and by adding, in their place, the words "subheading 9802.00.80, Harmonized Tariff Schedule of the United States."

PART 177—ADMINISTRATIVE RULINGS

1. The authority citation for Part 177 is revised to read as follows:

Authority: 19 U.S.C. 66, 1624.

§ 177.1 [Amended]

2. Section 177.1(d)(5) is amended by removing the words "Tariff Schedules of the United States" and by adding, in their place, the words "Harmonized Tariff Schedule of the United States".

§ 177.2 [Amended]

3. Section 177.2(b)([2)(ii)(A) is amended by removing the words "Tariff Schedules of the United States" and by adding, in their place, the words "Harmonized Tariff Schedule of the United States".

§ 177.9 [Amended]

4. Section 177.9(b)(2) is amended by removing the words "Tariff Schedules of the United States" and by adding, in its place, the words "Harmonized Tariff Schedule of the United States".

PART 191—DRAWBACK

1. The authority citation for Part 191 is revised to read as follows:

Authority: 5 U.S.C. 301, 19 U.S.C. 66, 1202 (General Note 9, Harmonized Tariff Schedule of the United States), 1313, 1624. Additional authority and statutes interpreted or applied are cited in the text or following the section affected.

§ 191.133 [Amended]

2. Section 191.133(b) is revised to read as follows:

(b) *Merchandise released under Chapter 98, Subchapter XIII, Harmonized Tariff Schedule of the United States (HTSUS).* Merchandise released as provided for in Chapter 98, Subchapter XIII, HTSUS (19 U.S.C. 1202), shall not be deemed to be in the continuous custody of Customs officers. [T.D. 84–213].

Michael H. Lane,
Acting Commissioner of Customs.

Approved: October 19, 1988.

Salvatore R. Martoche,
Assistant Secretary of the Treasury.

BILLING CODE 4820–02–M

19 CFR Part 122

[T.D. 89–2]

Customs Regulations Amendment Designating Tamiami Airport, Miami, FL, for Private Aircraft Reporting

AGENCY: U.S. Customs Service, Treasury.

ACTION: Final rule.

SUMMARY: This document amends the Customs Regulations by adding Tamiami Airport, Miami, Florida, to the list of designated airports at which private aircraft arriving in the U.S. from the southern portion of the Western Hemisphere via the U.S./Mexican border, or via the Atlantic, Pacific or Gulf of Mexico coasts must land for Customs inspection. This addition is being made to help relieve the congestion at the seven other designated airports in south Florida, a condition which makes it difficult to effectively conduct the Customs private airport enforcement program.

The amendment was originally proposed as an amendment to 19 CFR Part 6, and comments were solicited from the public on the proposal. In the interval between the publication of the proposal and this announcement, Customs has deleted Part 6 and redesignated the subject matter of that part as a new Part 122. (T.D. 88–12 (53 FR 9285)). This action required redesignation of the proposed action as an amendment to Part 122 rather than Part 6, but it does not affect its substance in any manner.

EFFECTIVE DATE: January 23, 1989.

FOR FURTHER INFORMATION CONTACT: Glenn Ross, Office of Inspection and Control (202–566–5607).

SUPPLEMENTARY INFORMATION: Customs efforts to combat the problem of drug smuggling by air resulted in the amendment of the Customs Regulations, in 1975, by adding a new § 6.14 (19 CFR 6.14), that provides in part that private aircraft arriving in the U.S. via the U.S./Mexican border must provide a notice of intended arrival with Customs (T.D. 75–201; 40 FR 33203). The section further provides that these private aircraft must land at any one of the designated airports near the U.S./Mexican border. The purpose of this regulation was to provide Customs with increased enforcement efficiency by providing tight control over air traffic arriving from the direction of countries that are major sources of illegal drugs destined for the U.S.

Customs has amended § 6.14 several times since it was initially issued in 1975, as part of the continuing effort to fight the national epidemic of illegal drugs. Amendments have included extending coverage to private aircraft arriving via the Pacific, Gulf of Mexico, or Atlantic coasts (T.D. 83–192; 48 FR 41381), expanding the coverage by modifying the definition of private aircraft (T.D. 84–236; 49 FR 46885); extending the coverage to include some flights arriving from Puerto Rico and all flights arriving from the U.S. Virgin Islands, increasing from 15 minutes to one hour the miminum time required for notice to be given prior to penetrating U.S. Airspace, and requiring aircraft seeking exemption from landing requirements to be equipped with functioning transponders (T.D. 86–72; 51 FR 11004); and removing San Diego International Airport (Lindberg Field) from the list of designated airports in § 6.14 because Lindberg Field's distance from the U.S./Mexican border was permitting smugglers to operate in the area (T.D. 86–146; 51 FR 27836.

For a variety of reasons, the airspace over southern Florida has become increasingly congested in recent years. With this heavy volume of traffic, the workload at the seven airports in the area which have already been designated for private aircraft reporting has greatly increased. This places undue burdens on both the Customs inspectors

BEST COPY AVAILABLE

and the members of the public. In order to provide some relief from the congested situations at these other airports, Customs proposed adding Tamiami Airport, Miami, Florida to the list of designated airports. The airports which are already on the list are: Fort Lauderdale Executive Airport and Fort Lauderdale-Hollywood International Airport, in Fort Lauderdale; St. Lucie County Airport, in Fort Pierce; Key West International Airport, in Key West; Miami International Airport and Opa-Locka Airport, in Miami, and Palm Beach International Airport, in West Palm Beach.

Analysis of Comments

In announcing the proposed addition of Tamiami Airport to the list of designated airports, Customs invited members of the public to comment on the proposal. Three comments on the proposed addition of Tamiami Airport to the list of designated airports were received during the comment period. All three comments strongly supported the proposal. After reviewing the comments, Customs has concluded that the addition of Tamiami Airport would indeed improve the efficiency of the private aircraft enforcement program and reduce the congestion at the already existing airports in the southern Florida area. As a result, the addition, as proposed, should be adopted as a final rule.

Redesignation of Part 6 as Part 122

During the interval between the publication of the proposal and this action, the Customs Service has amended the underlying Air Commerce Regulations. As part of the general revision of the Customs Regulations, by T.D. 88–12, published in the **Federal Register** on March 22, 1988 (53 FR 9285), the air commerce regulations formerly in Part 6, Customs Regulations (19 CFR Part 6), were deleted and revised air commerce regulations were set forth in Part 122 in a new format. Accordingly, in order to conform to the amended Regulations, the designation of the proposed regulation has been changed from § 6.14 to § 122.24(b). This redesignation does not affect the substantive content of the regulation in any way.

Executive Order 12291

These amendments do not constitute a "major rule" as defined by § 1(b) of E.O. 12291. Accordingly, a regulatory impact analysis is not required.

Regulatory Flexibility Act

It is certified that the provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), are not applicable to this amendment because the rule will not have a significant economic impact on a substantial number of small entities

Drafting Information

The principal author of this document was Peter T. Lynch, Regulations and Disclosure Law Branch, Office of Regulations and Rulings, U.S. Customs Service. However, personnel from other offices participated in its development.

List of Subjects in 19 CFR Part 122

Air carriers, Air transportation, Aircraft, Airports.

Amendment To The Regulations

Part 122, Customs Regulations (19 CFR Part 122), is amended as set forth below:

PART 122—AIR COMMERCE REGULATIONS

1. The authority citation for Part 122, Customs Regulations (19 CFR Part 122), continues to read as follows:

Authority: 5 U.S.C. 301, 19 U.S.C. 58b, 66, 1433, 1436, 1459, 1590, 1624, 1644, 49 U.S.C. 1509.

§ 122.24 [Amended]

2. Section 122.24(b), Customs Regulations (19 CFR 122.24(b)), is amended by inserting, in the appropriate alphabetical order, "Miami, Fl." in the column headed "Location", and, on the same line, "Tamiami airport" in the column headed "Name".

Approved: November 28, 1988.

William von Raab,

Commissioner of Customs.

Salvatore R. Martoche,

Assistant Secretary of the Treasury.

BILLING CODE 4820-02-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 172

[Docket No. 88N–0085]

Aspartame; Food Chemicals Codex

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending its regulations to adopt the Food Chemicals Codex (FCC) specifications for aspartame. This action is based on the agency's practice of adopting FCC specifications for food ingredients if FCC has developed acceptable specifications. This action will amend 21 CFR 172.804(b) by removing the extant specifications and by adding the FCC specifications for aspartame

DATES: Effective December 21, 1988; written objections and requests for a hearing by January 23, 1989. The Office of the **Federal Register** approved the incorporation by reference of certain publications in 21 CFR 172.804(b), effective December 21, 1988.

ADDRESS: Written objections to the Dockets Management Branch (HFA–305), Food and Drug Administration, Room 4–62, 5600 Fishers Lane, Rockville MD 20857.

FOR FURTHER INFORMATION CONTACT: Carl L. Giannetta, Center for Food Safety and Applied Nutrition (HFF–334), Food and Drug Administration, 200 C Street SW., Washington, DC 20204, 202–426–5487.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of April 21, 1988 (53 FR 13134), the agency proposed to adopt the FCC specifications for aspartame. The agency did not receive any comments to the proposal. Therefore, the agency is now issuing a final order to remove the current specifications from 21 CFR 172.804(b) and add the requirement that the additive meet FCC specifications for aspartame.

The agency has previously considered the environmental effects of this rule as announced in the proposed rule (April 21, 1988; 53 FR 13134). No new information or comments have been received that would affect the agency's previous determination that there is no significant impact on the human environment and that an environmental impact statement is not required.

In accordance with the Regulatory Flexibility Act, the agency previously considered the potential effects that this rule would have on small entities, including small businesses. In accordance with section 605(b) of the Regulatory Flexibility Act, the agency has determined that no significant impact on a substantial number of small entities would derive from this action FDA has not received any new information or comments that would alter its previous determination.

In accordance with Executive Order 12291, FDA has previously analyzed the potential economic effects of this final rule. As announced in the proposal, the agency has determined that the rule is not a major rule as defined by the Order. The agency has not received any new information or comments that would alter its previous determination.

List of Subjects in 21 CFR Part 172

Food additives, Incorporation by reference, Reporting and recordkeeping requirements.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs and redelegated to the Director, Center for Food Safety and Applied Nutrition, Part 172 is amended as follows:

PART 172—FOOD ADDITIVES PERMITTED FOR DIRECT ADDITION TO FOOD FOR HUMAN CONSUMPTION

1. The authority citation for 21 CFR Part 172 continues to read as follows:

Authority: Secs. 201(s), 409, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348); 21 CFR 5.10 and 5.61.

2. Section 172.804 is amended by revising paragraph (b) to read as follows:

§ 172.804 Aspartame.

* * * * *

(b) The additive meets the specifications of the "Food Chemicals Codex," 3d Ed. (1981) pp. 28–29 and First Supplement p. 5, which is incorporated by reference in accordance with 5 U.S.C. 552(a). Copies are available from the National Academy Press, 2101 Constitution Avenue NW., Washington, DC 20418, or for inspection at the Office of the Federal Register, 1100 L Street NW., Washington, DC 20408.

* * * * *

Dated: December 6, 1988.

Richard J. Ronk,

Acting Director, Center for Food Safety and Applied Nutrition.

BILLING CODE 4160–01–M

21 CFR Part 520

Oral Dosage Form New Animal Drugs Not Subject to Certification; Ivermectin Paste and Liquid

AGENCY: Food and Drug Administration

ACTION: Final rule

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval of two supplemental new animal drug applications (NADA's) filed by Merck Sharp & Dohme Research Laboratories. The NADA's provide for an additional use of Eqvalan® (ivermectin) paste and liquid for treating and controlling certain parasites in horses and for deletion of a caution statement.

EFFECTIVE DATE: December 21, 1988.

FOR FURTHER INFORMATION CONTACT: Sandra K. Woods, Center for Veterinary Medicine (HFV–114), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–3420.

SUPPLEMENTARY INFORMATION: Merck Sharp & Dohme Research Laboratories, Division of Merck & Co., Inc., P.O. Box 2000, Rahway, NJ 07065–0914, has filed supplements to NADA's 134–314 for Eqvalan® (ivermectin) paste and 140–439 for Eqvalan® liquid. The supplements provide for an additional use of the products for the control and treatment of third- and fourth-stage larvae as well as adults of *Parascaris equorum* in horses and removal of the caution statement concerning use in horses under 4 months of age. The supplements are approved and the regulations in 21 CFR 520.1192(c)(1)(ii) and (iii) and 520.1195(c)(2) and (3) are amended to reflect the approvals. The basis for approval is discussed in the freedom of information summary.

In accordance with the freedom of information provisions of Part 20 (21 CFR Part 20) and § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)), a summary of safety and effectiveness data and information submitted to support approval of this application may be seen in the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, from 9 a.m. to 4 p.m., Monday through Friday.

The agency has determined under 21 CFR 25.24(d)(1)(i) that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

List of Subjects in 21 CFR Part 520

Animal drugs.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs and redelegated to the Center for Veterinary Medicine, Part 520 is amended as follows:

PART 520–ORAL DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

1. The authority citation for 21 CFR Part 520 continues to read as follows:

Authority: Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)); 21 CFR 5.10 and 5.83.

§ 520.1192 [Amended]

2. Section 520.1192 *Ivermectin paste* is amended in paragraph (c)(1)(ii) by removing the phrase "ascarids (adult) (*Parascaris equorum*)" and replacing it with" ascarids (third- and fourth-stage larvae and adults) (*Parascaris equorum*)" and in paragraph (c)(1)(iii) by removing the statements "Safety has not been demonstrated in horses under 4 months old. Do not administer to foals of this age class."

§ 520.1195 [Amended]

3. Section 520.1195 *Ivermectin liquid* is amended in paragraph (c)(2) by removing the phrase "ascarids (adult) (*Parascaris equorum*)" and replacing it with "ascarids (third- and fourth-stage larvae and adults) (*Parascaris equorum*)" and in paragraph (c)(3) by removing the statements "Safety has not been demonstrated in horses under 4 months old. Do not administer to foals of this age class."

Dated: December 13, 1988.

Gerald B. Guest,

Director, Center for Veterinary Medicine.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Parts 280 and 281

[FRL–UST–3; 3494–9]

Underground Storage Tanks Containing Petroleum—Financial Responsibility Requirements and State Program Approval Objective; Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; correction.

SUMMARY: EPA is correcting errors in the financial responsibility requirements and state program approval objective for underground storage tanks containing petroleum which appeared in the **Federal Register** on October 26, 1988 (53 FR 43322).

EFFECTIVE DATE: January 24, 1989.

FOR FURTHER INFORMATION CONTACT: The RCRA/Superfund Hotline at (800) 424–9346 (toll free) or (202) 382–3000 in Washington, DC.

SUPPLEMENTARY INFORMATION: On October 26, 1988, EPA promulgated financial responsibility requirements and, for the purposes of state program approval, a federal technical objective applicable to owners and operators of underground storage tanks containing petroleum. The final rule (53 FR 43322) contained errors which are corrected by this notice.

Dated: November 28, 1988.

Jonathan Z. Cannon,

Acting Assistant Administrator, Office of Solid Waste and Emergency Response.

The following corrections are made in FRL–UST–3; 3419–3, Underground Storage Tanks Containing Petroleum—Financial Responsibility Requirements and State Program Approval Objective published in the **Federal Register** on October 26, 1988 (53 FR 43322).

§ 280.100 [Amended]

1. In § 280.100(c), in the last sentence, on page 43378, first column, line 55, change "petition" to "petitioner".

§ 280.103 [Amended]

2. In § 280.103(b)(1) introductory text, on page 43379, first column, line one, insert ", or trust agreement," after "The standby trust agreement".

3. In § 280.103(b)(1), in the trust agreement, on page 43379, first column, line 15, delete "[" before "Whereas".

4. In § 280.103(b)(1), in the trust agreement, on page 43379, first column, line 26, insert". The attached Schedule A lists the number of tanks at each facility and the name(s) and address(es) of the facility(ies) where the tanks are located that are covered by the standby trust agreement." after "the underground storage tank".

5. In § 280.103(b)(1), in the trust agreement, on page 43379, first column, lines 26–28, delete "(This paragraph is only applicable to the standby trust agreement.)];" after "the underground storage tank".

6. In § 280.103(b)(1), in the trust agreement, on page 43379, first column, line 38, delete "[" before "Whereas".

7. In § 280.103(b)(1), in the trust agreement, on page 43380, third column, line 26, insert ", or trust agreement." after "The standby trust agreement."

§ 280.37 [Amended]

8. In § 280.37(b), on page 43383, second column, line 11, change "18 months" to "21 months".

[FR Doc. 88–29162 Filed 12–20–88; 8:45 am]

BILLING CODE 6560–50–M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 64

[Docket No. FEMA 6820]

Suspension of Community Eligibility; Connecticut et al.

AGENCY: Federal Emergency Management Agency, FEMA.

ACTION: Final rule.

SUMMARY: This rule lists communities, where the sale of flood insurance has been authorized under the National Flood Insurance Program (NFIP), that are suspended on the effective dates listed within this rule because of noncompliance with the floodplain management requirements of the program. If FEMA receives documentation that the community has adopted the required floodplain management measures prior to the effective suspension date given in this rule, the suspension will be withdrawn by publication in the **Federal Register.**

EFFECTIVE DATES:

The third date ("Susp.") listed in the fourth column.

FOR FURTHER INFORMATION CONTACT: Frank H. Thomas, Assistant Administrator, Office of Loss Reduction, Federal Insurance Administration, (202) 646–2717, Federal Center Plaza, 500 C Street, Southwest, Room 416, Washington, DC 20472.

SUPPLEMENTARY INFORMATION: The National Flood Insurance Program (NFIP), enables property owners to purchase flood insurance at rates made reasonable through a Federal subsidy. In return, communities agree to adopt and administer local floodplain management measures aimed at protecting lives and new construction from future flooding. Section 1315 of the National Flood Insurance Act of 1968, as amended (42 U.S.C. 4022), prohibits flood insurance coverage as authorized under the National Flood Insurance Program (42 U.S.C. 4001 through 4128) unless an appropriate public body shall have adopted adequate floodplain management measures with effective enforcement measures. The communities listed in this notice no longer meet that statutory requirement for compliance with program regulations (44 CFR Part 59 *et. seq.*). Accordingly, the communities will be suspended on the effective date in the fourth column. As of that date, flood insurance will no longer be available in the community. However, some of these communities may adopt and submit the required documentation of legally enforceable floodplain management measures after this rule is published but prior to the actual suspension date. These communities will not be suspended and will continue their eligibility for the sale of insurance. A notice withdrawing the suspension of the communities will be published in the **Federal Register.** In the interim, if you wish to determine if a particular community was suspended on the suspension date, contact the appropriate FEMA Regional Office or the NFIP servicing contractor.

In addition, the Federal Emergency Management Agency has identified the special flood hazard areas in these communities by publishing a Flood Hazard Boundary Map. The date of the flood map, if one has been published, is indicated in the fifth column of the table. No direct Federal financial assistance (except assistance pursuant to the Disaster Relief Act of 1974 not in connection with a flood) may legally be provided for construction or acquisition of buildings in the identified special flood hazard area of communities not participating in the NFIP and identified for more than a year, on the Federal Emergency Management Agency's initial flood insurance map of the community as having flood-prone areas. (Section 202(a) of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), as amended). This prohibition against certain types of Federal assistance becomes effective for the communities listed on the date shown in the last column.

The Administrator finds that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary because communities listed in this final rule have been adequately notified. Each community receives a 6-month, 90-day, and 30-day notification addressed to the Chief Executive Officer that the community will be suspended unless the required floodplain management measures are met prior to the effective suspension date. For the same reasons, this final rule may take effect within less than 30 days.

Pursuant to the provision of 5 U.S.C. 605(b), the Administrator, Federal Insurance Administration, FEMA, hereby certifies that this rule if promulgated will not have a significant economic impact on a substantial number of small entities. As stated in section 2 of the Flood Disaster Protection Act of 1973, the establishment of local floodplain management together with the availability of flood insurance decreases the economic impact of future flood losses to both the particular community and the nation as a whole. This rule in and of itself does not have a significant economic impact. Any economic impact results from the community's decision not to (adopt) (enforce) adequate floodplain management, thus placing itself in noncompliance of the Federal standards required for community participation. In each entry, a complete chronology of effective dates appears for each listed community.

BILLING CODE 6718-21-M

DEPARTMENT OF ENERGY

48 CFR Part 927

Acquisition Regulation, Patents, Data and Copyrights

AGENCY: Department of Energy.

ACTION: Final rule.

SUMMARY: This final rule amends the Department of Energy Acquisition Regulation (DEAR) as it relates to Patents, Data and Copyrights. The revisions amend the DEAR to provide that requests for waiver of Government patent rights to inventions and discoveries under contracts or subcontracts of the Naval Nuclear Propulsion Program or nuclear weapons programs or other atomic energy defense activities of the Department of Energy (DOE) be decided within 150 days after the date of submission of a "complete request" for waiver. This amendment specifies the elements of a "complete request" for such a waiver.

EFFECTIVE DATE: This rule will be effective January 23, 1989.

FOR FURTHER INFORMATION CONTACT: Robert J. Marchick, Office of the Assistant General Counsel for Patents (GC-42), U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585, (202) 586-4792. Robert M. Webb, Procurement and Assistance Management Office of Policy, (MA-421), U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585 (202)-586-8264.

SUPPLEMENTARY INFORMATION:

I. Background and Discussion

The purpose of this rulemaking is to adopt, as a final rule, the proposed amendments to 48 CFR Part 927 implementing section 3135 of Pub. L. 100-180, which provide that a decision on a complete request for waiver of Government patent rights to inventions and discoveries under contracts or subcontracts of the Naval Nuclear Propulsion Program or nuclear weapons programs or other atomic energy defense activities of DOE be made within 150 days after receipt thereof. This amendment specifies the elements of a "complete request" for such a waiver.

The proposed rule on this matter was published August 5, 1988 (53 FR 29494), and provided an opportunity for a public hearing, and a public comment period which ended September 23, 1988. No requests to speak at a public hearing were received, and the hearing was cancelled. (53 FR 35281, September 12, 1988.) No public comments were received. This final rule consists of the proposed rule with insignificant or clarifying editorial changes. Of these changes, the only one which should be discussed is the distillation of proposed section 927.370 (e) (1) and (2) into a single paragraph. The new section 927.370 (e)(1) restates the proposed provisions much more succinctly and eliminates any unintended implications that DOE requires submission of proprietary information on the details of commercialization budgets.

This rule amends Part 927 by adding a section 927.370 entitled "Waiver of title to certain sensitive inventions."

II. Procedural Requirements

A. Review Under Executive Order 12291

Section 3 of Executive Order (E.O.) 12291 (46 FR 13193, February 19, 1981) requires that DOE determine whether a rule is a "major rule," as defined by section 1(b) of E.O. 12291, and prepare a regulatory impact analysis for each major rule. DOE has determined that the proposed rule does not meet the E.O. 12291 definition of a major rule as one likely to result in: (1) An annual effect on the economy of $100 million or more; (2) a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or (3) significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States based enterprises to compete with foreign-based enterprises in domestic or export markets. Accordingly, a regulatory impact analysis is not required.

Pursuant to section 3(c)(3) of E.O. 12291 this rule was submitted to the Director of OMB for a ten-day review. The Director has concluded his review under that Executive Order.

B. Review Under Regulatory Flexibility Act

This amended rule was reviewed under the Regulatory Flexibility Act of 1980, Pub. L. 96-354, 94 Stat. 1164, which requires preparation of a regulatory flexibility analysis for any regulation that will have a significant economic impact on a substantial number of small entities. This amendment concerns policy and procedures for patent waivers affecting entities that are generally not small businesses since there is separate statutory authority (35 U.S.C. 202) governing disposition of invention rights of Government contractors that are small businesses. The amended rule imposes no significant burdens or impact on small entities. Therefore, DOE certifies that the amendment will not have significant economic impact on a substantial number of small entities.

C. Review Under the Paperwork Reduction Act

The information collection and reporting requirements contained herein were approved by OMB and assigned Control No. 1910-0800.

D. Review Under National Environmental Policy Act

DOE has determined that the amendment is not a major Federal action with significant environmental impact and does not affect the quality of the environment. Consequently, the amendment does not require preparation of an Environmental Assessment or Environmental Impact Statement under National Environmental Policy Act of 1969, 42 U.S.C. 4321 *et.seq.* (1982).

E. Federalism

Executive Order (EO) 12612 requires that regulations or rules be reviewed for any substantial direct effects on States, on the relationship between the national government and States, or the distribution of power and responsibilities among various levels of government. If there are sufficient substantial direct effects, then E.O. 12612 requires preparation of a federalism assessment to be used in all decisions involved in promulgating and implementing a regulation or a rule.

The principal impact of today's regulation will be more efficient processing of waivers of government patent rights to private entities. The regulation will not have any effect on the States, the relationship between the States and Federal government, or the distribution of power and responsibilities among various levels of government.

List of Subjects in 48 CFR Part 927

Inventions, patents and waivers.

In consideration of the foregoing, Part 927 of Title 48 of the Code of Federal Regulations is amended, as set forth below.

Issued in Washington, D.C. December 15, 1988.

Berton J. Roth,

Deputy Assistant Secretary for Procurement and Assistance Management.

PART 927—PATENTS, DATA, AND COPYRIGHTS

1. The citation of authority for Part 927 is revised as follows:

Authority: Sec. 644 of the Department of Energy Organization Act, Pub. L. 95-91 (42 U.S.C. 7254); Sec. 148 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2168); Federal Nonnuclear Energy Research and Development Act of 1974, Sec. 9, (42 U.S.C. 5908); Atomic Energy Act of 1954, as amended, Sec. 152, (42 U.S.C. 2182); Department of Energy National Security and Military Applications of Nuclear Energy Authorization Act of 1987, as amended, Sec. 3131(a), (42 U.S.C. 7261a.)

2. Section 927.370 is added as follows:

§ 927.370 Waiver of title to certain sensitive inventions.

(a) Whenever any contractor makes an invention or discovery to which the title vests in the Department of Energy pursuant to exercise of section 202(a) (ii) or (iv) of title 35, United States Code, or pursuant to section 152 of the Atomic Energy Act of 1954 (42 U.S.C. 2182) or section 9 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5908), in the course of or under any Government contract or subcontract of the Naval Nuclear Propulsion Program or the nuclear weapons programs or other atomic energy defense activities of the Department of Energy, and the contractor requests waiver of any or all of the Government's property rights, the Secretary of Energy may decide to waive the Government's rights and assign the rights in such invention or discovery.

(b) In making a decision under this Section, the Secretary or his designee shall:

(1) Apply the stated general objectives for patent waivers under sec. 92.300(a) of this subpart;

(2) Take into account the specific considerations applicable to advance waivers and identified invention waivers, respectively, under sec. 927.300(a) of this subpart;

(3) Consider whether national security will be compromised;

(4) Consider whether sensitive technical information (whether classified or unclassified) under the Naval Nuclear Propulsion Program or the nuclear weapons programs or other atomic energy defense activities of the Department of Energy for which dissemination is controlled under Federal statutes and regulations will be released to unauthorized persons;

(5) Consider whether an organizational conflict of interest contemplated by Federal statutes and regulations will result; and

(6) Consider whether waiving such rights will adversely affect the operation of the Naval Nuclear Propulsion Program or the nuclear weapons programs or other atomic energy defense activities of the Department of Energy.

(c) A decision under this section shall be made within 150 days after the date on which a complete request for waiver, as described by paragraph (d) of this section, has been submitted to the Patent Counsel by the contractor.

(d) In addition to the requirements for content which apply generally to all waiver requests under sec. 927.300(a) of this subpart, a requestor must include a full and detailed statement of facts, to the extent known by or available to the requestor, directed to the considerations set forth in paragraphs (b)(3) through (6) of this section, as applicable. To be considered complete, a waiver request must contain sufficient information, in addition to the content requirements under sec. 927.300(a) of this subpart, to allow the Secretary or his designee to make a decision under this section. Such information shall include, at a minimum, for advance waiver requests:

(1) An identification of all of the petitioner's contractual arrangements involving the Government (including contracts, subcontracts, grants, or other arrangements) in which the technology involved in the contract was developed or used and any other funding of the technology by the Government, whether direct or indirect, involving any other party, of which the petitioner is aware;

(2) A description of the petitioner's past, current, and future private investment in and development of the technology which is the subject of the contract. This includes expenditures not reimbursed by the Government on research and development which will directly benefit the work to be performed under the instant contract, the amount and percentage of contract costs to be shared by the petitioner, the out-of-pocket costs of facilities or equipment to be made available by the petitioner for performance of the contract work which are not charged directly or indirectly to the Government under contract, and the contractor's plans and intentions to further develop and commercialize the technology at private expense;

(3) A description of competitive technologies or other factors which would ameliorate any anticompetitive effect of granting the waiver.

(4) Identification of whether the contract pertains to work that is classified, or sensitive, i.e., unclassified but controlled pursuant to section 148 of the Atomic Energy Action of 1954, as amended (42 U.S.C. 2168) (1982), or subject to export control under Chapter 17 of the Military Critical Technology List (MCTL) contained in Department of Defense Directive 5230.25, including identification of all principal uses of the subject matter of the contract, whether inside or outside the contractor program, and an indication of whether any such uses involve classified or sensitive technologies.

(5) Identification of all DOE and DOD programs and projects in the same general technology as the contract for which the petitioner intends to be providing program planning advice or has provided program planning advice within the last three years.

(e) For identified invention requests, such requests shall include at a minimum:

(1) A brief description of the intentions of the petitioner (or its present or intended licensee) to commercialize the invention. This description should include: (i) estimated expenditures, (ii) anticipated steps, (iii) the associated time periods to bring the invention to commercialization, and (iv) a statement that petitioner (or its present or intended licensee) has the capability to carry out its stated intentions.

(2) A description of any continuing Government funding of the development of the invention (including investigation of materials or processes for use therewith), from whatever Government source, whether direct or indirect, and, to the extent known by the petitioner, any anticipated future Government funding to further develop the invention.

(3) A description of competitive technologies or other factors which would ameliorate any anticompetitive effects of granting the waiver.

(4) A statement that petitioner will reimburse the Department of Energy for any and all costs and fees incurred by the Department in the preparation and prosecution of the patent applications covering the invention that is the subject of the waiver petition.

(5) Where applicable, a statement of reasons why the petition was not timely filed in accordance with the applicable patent rights clause of the contract, or why a request for an extension of time to file the petition was not filed in a timely manner.

VOL 53 ISS 245 DEC 21 1988 UMI

(6) Identification of whether the invention pertains to work that is classified, or sensitive, i.e., unclassified but controlled pursuant to section 148 of the Atomic Energy Action of 1954, as amended, (42 U.S.C. 2168) (1982), or subject to export control under Chapter 17 of the Military Critical Technology List (MCTL) contained in Department of Defense Directive 5230.25, including identification of all principal uses of the invention inside or outside the contractor program, and an indication of whether any such uses involve classified or sensitive technologies.

(7) Identification of all DOE and DOD programs and projects in the same general technology as the invention for which the petitioner intends to be providing program planning advice or has provided program planning advice within the last three years.

(8) A statement of whether a classification review of the invention disclosure, any resulting patent application(s), and/or any reports and other documents disclosing a substantial portion of the invention has been made, together with any determinations on the existence of classified or sensitive information in either the invention disclosure, the patent application(s), or reports or other documents disclosing a substantial portion of the invention; and

(9) Identification of any and all proposals, work for others activities, or other arrangements submitted by the petitioner, DOE, or a third party, of which petitioner is aware, which may involve further funding of the work on the invention at either the contractor facility where the invention arose or another facility owned by the Government.

(f) Patent Counsel will notify the petitioner promptly if the waiver request is found not to be a complete request and, in that event, will provide the petitioner with a reasonable period, not to exceed 60 days, to correct any such incompleteness. If petitioner does not respond within the allotted time period, the waiver request will be considered to be withdrawn. If petitioner responds within the allotted time period, but the submittal is still deemed incomplete or insufficient, the waiver request may be denied.

(g) For waiver requests as described in this section, waiver decisions shall be made within 150 days after the date on which a complete request for waiver of such rights, as specified herein, has been submitted by the petitioner to the DOE Patent Counsel. If the original waiver request does not result in a communication from DOE Patent Counsel indicating that the request is incomplete, the 150-day period for decision commences on the date of receipt of the waiver petition. If the original waiver request results in a communication from DOE Patent Counsel indicating that the request is incomplete, the 150-day period for decision commences on the date on which supplementary information is received by Patent Counsel sufficient to make the waiver request complete. For advance waiver requests, if petitioner is not notified that the request is incomplete, the 150-day period for decision commences on the date of receipt of the petition, or on the date on which negotiation of contract terms is completed, whichever is later.

(h) Failure of DOE to make a patent waiver decision within the prescribed 150-day period shall in no way be construed as a grant of the waiver.

BILLING CODE 6450-01-M

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

49 CFR Part 92

[OST Docket No. 45432; Amdt. 92-1]

Recovering Debts to the United States by Salary Offset

AGENCY: Office of the Secretary, DOT.

ACTION: Final rule.

SUMMARY: In the February 12, 1988, **Federal Register** (53 FR 4170) the Department of Transportation (DOT) issued a final rule (49 CFR Part 92), with a request for comments. This rule established procedures enabling DOT to offset a debt against the Federal pay of a current or former Federal employee who is indebted to the United States under a program administered by DOT. DOT is amending 49 CFR Part 92 by revising § 92.9 (Exceptions to notice, hearings, written response, and final decision). The amendment reflects a change requested by the Office of Personnel Management which is to eliminate a general exception for notice, hearing, written response and final decision in administrative adjustments apart from those associated with Federal benefits programs.

EFFECTIVE DATE: This rule was effective March 14, 1988.

FOR FURTHER INFORMATION CONTACT: Paul B. Larsen, (202) 366-9161, Department of Transportation, Office of the General Counsel, 400 7th Street SW., Room 10102, Washington, DC 20590 or Rolf O. Wold, (202) 366-9874, Department of Transportation, Office of Financial Management, 400 7th Street SW., Room 9114, Washington, DC 20590.

SUPPLEMENTARY INFORMATION:

Regulatory Process Matters

This regulation is classified as a "non-major" regulation under Executive Order 12291. This regulation has also been evaluated under the Department of Transportation's Regulatory Policies and Procedures; the regulation is not significant under those procedures and its economic impact is expected to be so minimal that a full economic evaluation is not warranted. This regulation does not require an environmental impact statement under the National Environmental Policy Act (42 U.S.C. 4321, *et seq.*) because it is not a major Federal action significantly affecting the quality of the human environment.

PART 92—RECOVERING DEBTS TO THE UNITED STATES BY SALARY OFFSET

Authority: 5 U.S.C. 5514, as amended; 5 CFR Part 550, Subpart K; 4 CFR Parts 101-105.

49 CFR Part 92 is amended by revising § 92.9(a) to read as follows:

§ 92.9 [Amended]

* * * * *

(a) *Exceptions.* The procedural requirements of 5 U.S.C. 5514 do not apply to recovery by way of retroactive deductions for administrative adjustments associated with the Federal benefits program. In such cases the content of the notification to employees is stated in § 92.9(b).

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 642

[Docket No. 81126-8226]

Coastal Migratory Pelagic Resources of the Gulf of Mexico and South Atlantic

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of bag limit reductions.

SUMMARY: The Secretary of Commerce (Secretary) reduces to zero the bag limits in the exclusive economic zone (EEZ) for king mackerel from the Gulf of Mexico migratory group. The Secretary has determined that the recreational allocation for the Gulf migratory group of king mackerel will be reached on December 16, 1988. This reduction of the bag limits is necessary to protect the overfished Gulf king mackerel resource.

EFFECTIVE DATE: Reduction of the bag limits is effective at 12:01 a.m., local time, December 17, 1988 until 12:00 p.m. (midnight), local time, June 30, 1989.

FOR FURTHER INFORMATION CONTACT: Mark F. Godcharles, 813-893-3722.

SUPPLEMENTARY INFORMATION: The Fishery Management Plan for Coastal Migratory Pelagic Resources of the Gulf of Mexico and the South Atlantic, as amended, was developed by the South Atlantic and Gulf of Mexico Fishery Management Councils (Councils) under authority of the Magnuson Fishery Conservation and Management Act, and is implemented by regulations at 50 CFR Part 642. Regulations effective July 1, 1988, implemented catch limits recommended by the Councils for the Gulf of Mexico migratory group of king mackerel for the current fishing year (July 1, 1988, through June 30, 1989). Those regulations set the recreational allocation for Gulf migratory group king mackerel at 2.31 million pounds (53 FR 25611, July 8, 1988). The Gulf migratory group of king mackerel extends from the Mexico/United States border to, (1) November 1 through March 31, a line extending directly east from the Volusia/Flagler County, Florida, boundary (29°25'N. latitude) to the outer boundary of the EEZ, and (2) from April 1 through October 31, a line extending directly west from the Monroe/Collier County, Florida, boundary (25°48'N. latitude) to the outer limit of the EEZ.

Under § 642.22(b), after consulting with the Councils, the Secretary is required to reduce to zero the bag limits for a king mackerel migratory group when the appropriate recreational allocation for that group is reached, or is projected to be reached, and when that group is overfished, by publishing a notice in the **Federal Register**. The Secretary, based on current catch statistics, has determined that the recreational allocation of 2.31 million pounds for the Gulf migratory group of king mackerel will be reached on December 16, 1988. He also finds, based upon the most recent stock assessment, that the Gulf migratory group king mackerel resource remains overfished. Further, he has consulted with the Councils and they agree with this finding and concur in this action. Hence, the bag limits for king mackerel from the Gulf migratory group are reduced to zero effective 12:01 a.m., December 17, 1988, through the end of the current fishing year. During this period, king mackerel from the Gulf migratory group caught in the EEZ in the recreational fishery or by any person fishing under the bag limit must be returned immediately to the sea with a minimum of harm.

Other Matters

This action is required by 50 CFR 642.22(b) and complies with E.O. 12291.

Proposed Rules

Federal Register
Vol. 53, No. 245
Wednesday, December 21, 1988

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

NUCLEAR REGULATORY COMMISSION

10 CFR Part 71

Transportation Regulations; Compatibility With the International Atomic Energy Agency (IAEA): Second Extension of Comment Period

AGENCY: Nuclear Regulatory Commission.

ACTION: Proposed rule; extension of comment period.

SUMMARY: On June 8, 1988 (53 FR 21550), the NRC published for public comment a proposed rule to make its transportation regulations in 10 CFR Part 71 compatible with those of the International Atomic Energy Agency (IAEA) as contained in IAEA Safety Series No. 6, Regulations for the Safe Transport of Radioactive Material, 1985 Edition. This rulemaking action, combined with a parallel action by the Department of Transportation (DOT), would make United States regulations for the safe transportation of radioactive material internationally compatible. Because it is important that the public have the opportunity to review and comment on the DOT and NRC proposed rules concurrently, NRC set its initial public comment period to expire on October 6, 1988, expecting the DOT rule to be available for publication by the end of June 1988. Availability of the DOT proposed rule was delayed to early October 1988. To achieve its goal of having some portion of the public comment period common for both rules, the NRC extended the comment period for an additional two months, to December 6, 1988. Now that the expected time for publication of the DOT proposed rule has been delayed to mid-February 1989, NRC has decided to extent its comment period to March 6, 1989. This extension is being held to 3 months to give NRC the opportunity to judge the need for more public comment time as we approach the DOT's expected publication date.

DATES: The comment period has been extended and now expires March 6, 1989. Comments received after this date will be considered if it is practical to do so, but the Commission is able to assure consideration only for comments received before this date.

ADDRESSES: Send written comments or suggestions to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Service Branch. Hand deliver comments to 11555 Rockville Pike, Rockville, MD, between 7:30 a.m. and 4:15 p.m. Examine comments received at the NRC Public Document Room, 2120 L Street, NW., lower level, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Donald R. Hopkins, Office of Nuclear Regulatory Research, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Telephone (301–492–3784).

Dated at Rockville, Maryland, this 14th day of December, 1988.

For the Nuclear Regulatory Commission.

Victor Stello, Jr.,

Executive Director for Operations.

[FR Doc. 88–29273 Filed 12–20–88; 8:45 am]
BILLING CODE 7590–01–M

INTERNATIONAL TRADE COMMISSION

19 CFR Part 213

Proposed Rules Governing Trade Remedy Assistance

AGENCY: International Trade Commission.

ACTION: Proposed rules and request for comments.

SUMMARY: The Commission is proposing to revise Part 213 of the Commission's Rules of Practice and Procedure. Part 213 sets forth the rules governing trade remedy assistance provided by the Commission through the Trade Remedy Assistance Office.

These proposed revisions to Part 213 will conform the rules to the changes made in section 339 of the Tariff Act of 1930 (19 U.S.C. 1339) by section 1614 of the Omnibus Trade and Competitiveness Act of 1988 ("the Omnibus Trade Act"). The amendments provide, in particular, that an office to be known as the Trade Remedy Assistance Office ("Office") is established in the Commission; that the Office shall provide advice and assistance concerning remedies and procedures under the trade laws identified in section 339 of the Tariff Act of 1930; and that the Office, in coordination with other agencies administering trade laws, shall provide technical assistance to eligible small businesses up through administrative review or appeals to the administering agency.

DATE: Comments on the proposed rules will be considered if received by February 6, 1989.

ADDRESS: Comments concerning the proposed amended rules should be submitted to the Secretary, U.S. International Trade Commission, 500 E Street, SW., Washington, DC 20436.

FOR FURTHER INFORMATION CONTACT: Jeffrey R. Whieldon, Esq., U.S. International Trade Commission, telephone (202) 252–1580. Hearing impaired individuals may obtain further information on this matter by contacting the Commission's TDD terminal at (202) 252–1810.

SUPPLEMENTARY INFORMATION: Section 335 of the tariff Act of 1930 (19 U.S.C. 1335) authorizes the Commission to adopt such reasonable procedures and rules and regulations as it deems necessary to carry out its functions and duties. The Commission has determined that the proposed revisions do not constitute a major rule for the purposes of Executive Order 12291 because they do not fall within the categories described in section 1(b) of that Excutive Order. The Commission has also determined that since the proposed revisions merely implement the amendments required by the Omnibus Trade Act, the Regulatory Flexibility Act (5 U.S.C. 601 et seq.) does not apply.

Explanation of Proposed Revisions to 19 CFR Part 213

Section 213.1

Section 213.1 is amended to refer to the new statutory provisions in the Omnibus Trade Act, to identify the Trade Remedy Assistance Office, to expressly incorporate the statutory requirement of assisting and advising interested parties concerning remedies and procedures under the trade laws listed in § 213.2(b) of this Part, and to indicate that the Trade Remedy

Assistance Office, in coordination with the other agencies responsible for administering those trade laws, shall provide technical assistance to eligible small businesses up through administrative review or appeals to the administering agency.

Section 213.2

Existing § 213.2 has been deleted as duplicative and unnecessary in view of the requirements for assistance set forth in existing § 213.4, renumbered as § 213.3.

Section 213.3

Section 213.3 is renumbered § 213.2. Section 213.3(a) is renumbered § 213.2(a) and amended to reflect the replacement of the "Trade Remedy Assistance Center" by the "Trade Remedy Assistance Office," to include and to correct the Office's address which appears in existing § 213.4, to expressly incorporate the new statutory requirement of advising and assisting interested parties concerning remedies and procedures, to provide that technical assistance to eligible small businesses is to be coordinated with the other agencies responsible for administering the trade laws listed in § 213.2(b), and to extend the provision of technical assistance up through administrative review or appeals to the administering agency. Under prior law and the existing rule, the Trade Remedy Assistance Center only provided technical assistance to eligible small buisnesses with respect to certain laws administered by the Commission, which the existing rule refers to as "Trade Remedy Laws."

Section 213.3(b) is renumbered § 213.2(b) and amended to replace the words "Trade Remedy Laws" with the term "Trade Laws," which appears in section 339 of the Tariff Act of 1930, and to list each of the trade laws specified in the statute since the Office is now required to provide technical assistance to eligible small businesses regarding all of these laws. Prior to passage of the Omnibus Trade Act, the Trade Remedy Assistance Center was responsible for providing technical assistance only with regard to those trade remedy laws administered by the Commission. Section 406 of the Trade Act of 1974 (19 U.S.C. 2436, relating to market disruption) is also included in the list of trade laws in § 213.2(b); section 406, which is administered by the Commission, provides for relief similar to that which may be obtained under section 201 of the Trade Act of 1974 (19 U.S.C. 2251) and is included in the list of "Trade Remedy Laws" appearing in existing section 213.3(b).

A new § 213.2(c) is added to define the term "administering agency" as used in these proposed rules and to identify the agency or agencies responsible for administering each of the trade laws listed in § 213.2(b).

Existing § 213.3(c) is renumbered § 213.2(d) and has been revised to reflect amendments to section 339 of the Tariff Act of 1930. Specifically, language has been added to indicate that technical assistance is available up through administrative review or appeals to the administering agency. Under the prior law and the existing rule, such assistance was limited to the period "up to the date of the filing of a petition or complaint at the Commission." Language has also been added to make clear that technical assistance, which includes informal legal advice and assistance, does not include legal representation of an eligible small business or advocacy on its behalf, and that receipt of such assistance does not ensure that the recipient will prevail in any trade remedy proceeding. *See* H.R. Rep. No. 40, 100th Cong., 1st Sess. 172–173 (1987). Language also has been added to this section to indicate that, as had been the practice of the Trade Remedy Assistance Center, the staff of the Office may consult with other Commission personnel when providing technical assistance.

Existing § 213.3(d) is renumbered § 213.2(e), but is not substantively changed from existing § 213.3(d). Existing § 213.3(e) is renumbered § 213.2(f), but is not substantively changed from existing § 213.3(e).

Section 213.4

Section 213.4 is renumbered § 213.3. Section 213.4(a) is renumbered § 213.3(a), retitled more appropriately "Application for Technical Assistance from Small Businesses," and amended to delete the Office's address and to add language that an application for assistance is available from the Office. Otherwise this section is substantively the same as existing § 213.4(a). Section 213.4(b) is renumbered § 213.3(b) and retitled more appropriately "Application for Technical Assistance from Business Concerns, Joint Applicants, Trade Associations and Unions," but is otherwise substantively unchanged from existing § 213.4(b). Section 213.4(c) is renumbered § 213.3(c), retitled more appropriately "Determination of Eligibility and Notification of Determination," and amended to specifically recite that the Office will make a determination of eligibility. Section 213.4(d) is renumbered § 213.3(d), but is not substantively changed from existing § 213.4(d).

Section 213..5

Section 213.5 is renumbered § 213.4 and amended to add the requirement that an applicant that has received technical assistance from the Office must disclose that fact in any petition, application or complaint filed with any agency which administers the trade law under which remedies or benefits are sought. In the existing rule, such disclosure was only required for petitions or complaints filed with the Commission. This change is consistent with the requirement in section 1614 of the Omnibus Trade Act that the Office shall now provide technical assistance regarding all the trade laws.

Section 213.6

Section 213.6 is renumbered § 213.5, but is not substantively changed from existing § 213.6.

Section 213.7

Section 213.7 is renumbered § 213.6, but is not substantively changed from existing § 213.7.

Appendix A

The application form in Appendix A has been revised to include acknowledgements by the applicant regarding trechnical assistance available from the Trade Remedy Assistance Office. The revised form includes acknowledgements that technical assistance is provided as required by section 339 of the Tariff Act of 1930 and Part 213 of the Commission's Rules, that Trade Remedy Assistance Office personnel and other Commission personnel that work with the Office to provide trade remedy assistance will not serve as legal representatives of the applicant or a substitute for private counsel, and that the receipt of assistance does not ensure that the recipient will prevail in any trade remedy proceeding. Language has also been added to advise applicants that they should contact the Trade Remedy Assistance Office before signing the form if they have questions relating to the certification or acknowledgements.

Sec.

213.1 Purpose and applicability of part.
213.2 Definitions.

Sec.
213.3 Determination of small business eligibility.
213.4 Disclosure of receipt of technical assistance.
213.5 Access to Commission resources.
213.6 Information concerning assistance.

Appendix A—Application for Technical Assistance from the Trade Remedy Assistance Office of the U.S. International Trade Commission.

Authority: Sec. 339 of the Tariff Act of 1930 (19 U.S.C. 1339), as added by sec. 221, Trade and Tariff Act of 1984 (Pub. L. 98–573, approved Oct. 30, 1984; 98 Stat. 2989), and as amended by sec. 1614, Omnibus Trade and Competitiveness Act of 1988 (Pub. L. 100–418, approved Aug. 23, 1988; 102 Stat. 110); sec. 335, Tariff Act of 1930 (72 Stat. 680; 19 U.S.C. 1335).

§ 213.1 Purpose and applicability of part.

Section 339 of the Tariff Act of 1930, as amended, establishes in the Commission an office known as the Trade Remedy Assistance Office and directs the Commission to provide general information to the public, upon request, and, to the extent feasible, assistance and advice to interested parties concerning the remedies and benefits available under the trade laws identified in § 213.2(b) and the procedures to be followed and appropriate filing dates in investigations under the trade laws. In coordination with other agencies administering the trade laws, the Trade Remedy Assistance Office also shall provide technical assistance to eligible small businesses to enable them to prepare and file petitions and complaints, and to seek to obtain the remedies and benefits available under the trade laws up through administrative review or appeals to the administering agency. The rules in this Part reflect the establishment of the Trade Remedy Assistance Office, describe its function, and govern small business eligibility for technical assistance and procedures for obtaining such assistance. Members of the public seeking general information from the Trade Remedy Assistance Office are not subject to the application procedures set forth in this Part.

§ 213.2 Definitions.

(a) *Office.* The Trade Remedy Assistance Office shall be referred to as the Office. The Office provides general information to the public, upon request, and, to the extent feasible, assistance and advice to interested parties concerning the remedies and benefits available under the trade laws identified in § 213.2(b) and the procedures to be followed and appropriate filing dates in investigations under those trade laws. In coordination with other agencies responsible for administering the trade laws listed in § 213.2(b), the Office also provides technical assistance to eligible small businesses to enable them to prepare and file petitions and complaints, and to seek to obtain the remedies and benefits available under the trade laws up through administrative review or appeals to the administering agency. The Office's address is Trade Remedy Assistance Office, U.S. International Trade Commission, 500 E Street, SW., Washington, DC 20436.

(b) *Trade Laws.* The trade laws (with respect to which general information and technical assistance is available) are defined as: (1) Chapter 1 of title II of the Trade Act of 1974 (19 U.S.C. 2251 et seq., relating to injury caused by import competition); (2) chapters 2 and 3 of such title II (relating to adjustment assistance for workers and firms); (3) chapter 1 of title III of the Trade Act of 1974 (19 U.S.C. 2411 et seq., relating to relief from foreign import restrictions and export subsidies); (4) title VII of the Tariff Act of 1930 (19 U.S.C. 1671 et seq., relating to the imposition of countervailing duties and antidumping duties); (5) section 232 of the Trade Expansion Act of 1962 (19 U.S.C. 1862, relating to the safeguarding of national security); (6) section 337 of the Tariff Act of 1930 (19 U.S.C. 1337, relating to unfair practices in import trade); and (7) section 406 of the Trade Act of 1974 (19 U.S.C. 2436, relating to market disruption).

(c) *Administering Agency.* Administering agency refers to the agency or agencies responsible for administering a particular trade law. The trade laws relating to injury caused by import competition, unfair practices in import trade and market disruption are administered by the Commission. The trade laws relating to countervailing and antidumping duties are jointly administered by the Commission and the Department of Commerce. The trade laws relating to adjustment assistance for firms and safeguarding national security are administered by the Department of Commerce. The trade law relating to adjustment assistance for workers is administered by the Department of Labor. The trade law relating to relief from foreign import restrictions and export subsidies is administered by the United States Trade Representative.

(d) *Technical Assistance.* Technical assistance is informal advice and assistance, including informal legal advice and assistance, to enable eligible small businesses to determine the appropriateness of pursing particular trade remedies, to prepare petitions and complaints (other than those which are frivolous in the opinion of the agency) and to seek to obtain the remedies and benefits available under the trade laws identified in § 213.2(b). Technical assistance is available to eligible small businesses at any time up through administrative review or appeals to the administering agency regarding proceedings under the trade laws listed in § 213.2(b). Technical assistance does not include legal representation of an eligible small business or advocacy on its behalf, and receipt of such assistance does not ensure that the recipient will prevail in any trade remedy proceeding. The Office provides technical assistance independently of other Commission staff but may consult with other staff as appropriate.

(e) *Applicant.* An applicant is an individual, partnership, corporation, joint venture, trade or other association, cooperative, group of workers, or certified or recognized union, or other entity which applies for technical assistance under this Part.

(f) *Eligible Small Business.* An eligible small business is an applicant that the Office has determined to be entitled to technical assistance in accordance with the SBA size standards and the procedures set forth in this Part.

(g) *SBA Size Standards.* SBA size standards are the small business size standards of the Small Business Administration set forth in 13 CFR 121.2. The SBA size standards categorize business concerns according to the Standard Industrial Classification ("SIC") code of the Bureau of the Census and base the size determination upon the number of employees or annual receipts of the business concern in the appropriate SIC category.

§ 213.3 Determination of small business eligibility.

(a) *Application for Technical Assistance from Small Businesses.* An applicant for technical assistance must qualify under the SBA size standards as an eligible small business. In order to apply, an applicant must certify to the Commision that it meets the appropriate SBA size standards. An application for technical assistance is available from the Office. The application, which is reproduced in Appendix A of this Part, must be signed under oath by an office or principal of the applicant. The completed application should be submitted to the Office at the address set forth in § 213.2(a).

(b) *Application for Technical Assistance from Business Concerns, Joint Applicants, Trade Associations and Unions.* A business concern applying for technical assistance must certify that it is independently owned

and operated. If several business concerns jointly or simultaneously from the same industry apply for technical assistance, each business concern must meet the appropriate SBA size standard(s) and so certify. If a trade association applies for technical assistance, an officer of the trade association must certify that eighty (80) percent of the trade association's members meet the appropriate size standard(s). If a union applies for technical assistance, an officer of the union must certify that the union has less than ten thousand (10,000) members within the industry for which trade relief is being sought.

(c) *Determination of Eligibility and Notification of Determination.* The Office shall determine whether the applicant is eligible for technical assistance and notify the applicant of the determination within ten (10) days of receipt of a properly completed application. Pursuant to 19 U.S.C. 1339(c)(1), the determination of eligibility is not reviewable by any other agency or by any court.

(d) *Notification to Administering Agencies.* When an applicant seeks technical assistance on matters involving the trade laws, and the Office determines that the applicant is eligible for technical assistance, the Office shall: (1) promptly notify the appropriate administering agency or agencies of the Office's determination that the applicant is eligible to receive technical assistance; and (2) consult with that administering agency or agencies as to the provision of technical assistance to that applicant.

§ 213.4 Disclosure of receipt of technical assistance.

An applicant which has received technical assistance from the Office must state that it has received technical assistance from the Trade Remedy Assistance Office in any resulting petition, complaint or application which is filed with the Commission or any other agency which administers the trade law under which remedies or benefits are sought.

§ 213.5 Access to Commission resources.

Commission resources, in addition to the Office's resources, are available to an eligible small business to the same extent as those resources are available to members of the general public. No special rights of access to Commission resources shall be accorded to an eligible small business.

§ 213.6 Information concerning assistance.

Any person may contact the Office with questions regarding eligibility for technical assistance. Summaries of the trade laws and the SBA size standards can be obtained by writing to the Trade Remedy Assistance Office, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436.

Appendix A—Application for Technical Assistance from the Trade Remedy Assistance Office of the U.S. International Trade Commission

Certification of Applicant

The undersigned certifies that applicant (Name of business entity) _____ (hereinafter referred to as "applicant") is independently owned and operated and qualifies as a small business under the Small Business Size Standards set forth in 13 CFR 121.2. The undersigned further certifies that:

(1) The Standard Industrial Classification ("SIC") code for applicant's line of business is (4-digit SIC code) _____; and

(2) Applicant employs "Number of employees) [1] _____; or, if a service industry,

(3) Applicant has (Annual receipts in dollars) [2] _____ in annual receipts.

Acknowledgements

The applicant acknowledges that it has received copies of section 339 of the Tariff Act, as amended, 19 U.S.C. 1339, and Part 213 of the U.S. International Trade Commission's Rules concerning trade remedy assistance. The statute and rules provide for the provision of technical assistance, which includes informal legal advice, to eligible persons seeking remedies and benefits under certain trade remedy laws. The personnel of the Trade Remedy Assistance Office, and other Commission personnel that work with the Office, provide such technical assistance in their official capacity as required by section 339 of the Tariff Act and Part 13 of the Commission's Rules. These personnel will not serve as legal representatives of the applicant or a substitute for private counsel, and the receipt of technical assistance from the Trade Remedy Assistance Office does not ensure that the recipient will prevail in any trade remedy proceeding.

If the applicant has any questions relating to the certification or acknowledgements required by this form, it should contact the Trade Remedy Assistance Office before signing this form. Of course, the applicant may also wish to consult with private counsel to discuss these and other related matters.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 270

[Docket No. 80860-8160]

Fish and Seafood Promotion

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Proposed rule.

SUMMARY: NOAA issues this proposed rule to implement the Fish and Seafood Promotion Act of 1986 (FSPA), as it pertains to seafood marketing councils for one or more species of fish or fish products. This action describes the conditions under which the councils may be established and operated. This rule is intended to implement the Act and provide a vehicle to strengthen the competitiveness of the United States fishing industry in the domestic and international marketplace; encourage development and utilization of all species of fish available for harvest by the United States fishing industry; encourage the utilization of domestically-produced fish through enhancement of markets, promotion and public relations; help the United States fishing industry develop methods to improve product quality and efficiency

in the marketplace; develop better coordination of fisheries marketing and promotion activities with commercial fisheries research and development programs; and inform and educate the public about the nutritional value of fish in the diet.

DATES: Public comments must be received on or before February 21, 1989.

ADDRESSES: Comments on the proposed rule should be addressed to Thomas J. Billy, Acting Director, Office of Trade and Industry Services, National Marine Fisheries Service, NOAA, 1335 East-West Highway, Silver Spring, MD 20910. Comments on the information requirements in this proposed rule should be addressed both to NMFS, as above, and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Shirley V. Smith, Office of Trade and Industry Services, 301–427–2358.

SUPPLEMENTARY INFORMATION: The Fish and Seafood Promotion Act of 1986 (FSPA), enacted November 14, 1986, authorizes a National Fish and Seafood Promotional Council and seafood marketing councils for one or more species of fish or fish products. The National Council has been established. It is authorized by the Act to fund referenda to establish seafood marketing councils, coordinate their activities, and enter into agreements with one or more of them.

Seafood marketing councils established under the Act will be funded through self-assessment by segments of the industry represented on the council. The councils will be established through (1) application of particular sector(s) of industry to the Secretary of Commerce (Secretary) for a council; (2) favorable review of the application by the Secretary, and (3) passage of a referendum conducted by the Secretary among sector participants on the proposed charter. Appointment of members to the seafood marketing councils will be made by the Secretary from lists of nominees supplied by the industry. The councils will submit annual plans and budgets for species-specific marketing and promotion, including consumer education, research, and other activities of the councils. The councils may also develop quality standards for the fish or fish products being promoted.

Interested persons should read the Act along with this document. In a few cases, portions of the Act are repeated for contextual clarity, particularly with regard to the application and review process.

Classification

The Under Secretary, NOAA, reviewed this rule in accordance with Executive Order 12291 and determined that it is not a "major rule" requiring a regulatory impact analysis. This determination was made because this action is not likely to result in (1) an annual effect on the economy of $100 million or more; (2) a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or (3) significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of the United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The General Counsel of the Department of Commerce certified to the Small Business Administration that this proposed rule, if adopted, will not have a significant economic impact on a substantial number of small entities. This is because the proposed rule will not have a direct regulatory impact on the general public, industry, or small business since it only establishes procedures and requirements for preparing an application for a council charter and for conducting activities necessary to establish and operate species-specific seafood marketing councils. The rule itself does not require industry action and does not impose significant direct costs on small entities. Therefore, a regulatory flexibility analysis has not been prepared. If individuals do decide to take action under the Act, it would be done on a voluntary basis and any costs for consulting with members of the industry on the application would likely be minor. It is unlikely that the costs would be so great as to affect a firm's financial condition, cash flow position, liquidity position, or its ability to remain in the industry.

Individual councils, once established, may have an impact on small entities, but this cannot be determined prior to receipt of an application for a proposed charter with ranges of assessments based on volume, income, etc., of sector participants to be involved in a council. Specifically, the imposition of assessments on certain members of the industry could have an effect on a firm's financial situation. Any other costs or requirements which would impose a cost on industry would also have to be considered and analyzed. Since these parameters will vary with each application, a determination of impact will be made on a case-by-case basis as applications for council charters are received. Prior to conducting a referendum on a proposed charter, the charter will be published in the **Federal Register** with opportunity for comment. This notice would act as a proposed rule and would trigger the Regulatory Flexibility Act requirements.

This proposed rule contains several different information requirements subject to the Paperwork Reduction Act (PRA). A request to collect this information has been submitted to the Office of Management and Budget (OMB) for review under section 3504(h) of the PRA. The general public may respond to the information requirements in § 270.3 of the proposed rule. The estimated reporting time for this collection is 320 hours, with an average of 320 hours per response. All other information requirements in the proposed rule are imposed on the councils, once they are established. The estimated reporting time for these information requirements vary from 1 to 160 hours per response, with an average reporting time of 6.9 hours per response. These estimated reporting times include the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Comments regarding this information collection and estimate of reporting time, including suggestions for reductions, should be sent to both NMFS and OMB (see **ADDRESSES** section).

This rule does not have the potential for a significant effect on the environment and is therefore exempt from the preparation of either an environmental impact statement or environmental assessment under the National Environmental Policy Act of 1969.

This proposed rule does not contain policies with federalism implications sufficient to warrant preparation of a federalism assessment under Executive Order 12612.

List of Subjects in 50 CFR Part 270

Administrative practice and procedure, Fish, Marketing and seafood.

For the reasons set out in the preamble, Title 50 CFR Chapter II is amended as follows:

1. Subchapter H consisting of Parts 280, 281, and 285; Subchapter I consisting of Part 290, and Subchapter J consisting of Part 296 are redesignated as Subchapter I, J, and K, respectively.

2. A new Subchapter H, consisting at this time of Part 270, is added to read as follows:

Subchapter H—Fish and Seafood Promotion

PART 270—SPECIES-SPECIFIC SEAFOOD MARKETING COUNCILS

Sec.

270.1 Scope.

270.3 Submission of application.
270.4 Review of application.
270.5 Conduct of referendum.
270.6 Sector participants eligible to vote.
270.7 Results of referendum.
270.8 Nomination of council members.
270.9 Removal of a council member.
270.10 Notice of council meetings.
270.11 Books, records and reports.
270.11 Books, records and reports.
270.12 Update of sector participant data.
270.13 Quality standards.
270.14 Deposit of funds.
270.15 Notice of assessment.
270.16 Petition of objection.
270.17 Refunds.
270.18 Dissolution of councils.

Authority: 16 U.S.C. 4001–4017.

§ 270.1 Scope.

This part describes matters pertaining to the establishment, representation, organization, practices, and procedures of seafood marketing councils.

§ 270.2 Definitions.

The following terms and definitions are in addition to or amplify those contained in the Act:

Act means the Fish and Seafood Promotion Act of 1986 (Pub. L. 99–659) and any subsequent amendments.

Council means a seafood marketing council for one or more species of fish and fish products of that species established under section 210 of the Act.

Fiscal year means any 12-month period as shall be recommended by a council and approved by the Secretary.

Harvester means any individual who is in the business of catching or growing fish for purposes of sale in domestic or foreign markets.

Importer means any person in the business of importing fish or fish products from another country, into the United States and its territories, as defined by the Act for commercial purposes or who acts as an agent, broker, or consignee for any person or nation that produces, processes or markets fish or fish products outside of the United States for sale or other commercial purposes in the United States.

Marketer means any person who is in the business of selling fish or fish products in the wholesale, export, retail or restaurant trade, but whose primary business function is not the processing or packaging of fish or fish products in preparation for sale.

Marketing and promotion means any activity aimed at encouraging the consumption of fish or fish products and for expanding or maintaining commercial markets for fish or fish products.

National Council means the National Fish and Seafood Promotional Council established under section 205 of the Act.

Processor means any person who is in the business of preparing or packaging fish or fish products (including fish of the processor's own harvesting) for sale in domestic or export markets.

Secretary means the Secretary of Commerce, or the Secretary's designee.

Sector Participant means any individual, group of individuals, association, proprietorship, partnership, corporation, cooperative, or any private entity of the U.S. fishing industry organized or existing under the laws of the United States or any State, commonwealth, territory or possession of the United States.

Species means a fundamental category of taxonomic classification, ranking after genus, and consisting of animals which possess common characteristic(s) distinguishing them from other similar groups.

§ 270.3 Submission of application

(a) The Secretary will by order establish a species-specific seafood marketing council upon passage of a referendum conducted by the Secretary under the terms specified in § 270.5 of this part if the application for such council meets the criteria as set forth in this section, and is consistent with the provisions of the Act and any other applicable law.

(b) The application may be filed with the Secretary by persons who meet the minimum requirements for sector participants as described in the proposed charter.

(c) The application consists of three parts:

(1) The proposed charter under which the council will operate;

(2) The petition (or requesting document); and

(3) The list of eligible referendum participants.

(d) *Content of application*—(1) *Text of proposed charter*—A proposed charter must contain, at a minimum, the following information:

(i) The name of the council and a provision proclaiming its establishment;

(ii) A declaration of the purposes and objectives of the council;

(iii) A description of the species of fish and fish products including the scientific and common name(s), for which the council will implement marketing and promotion plans under the Act. The American Fisheries Society's *List of Common and Scientific Names of Fishes from the United States and Canada* or where available, an appropriate volume of its *List of Common and Scientific Names of Aquatic Invertebrates of the United States and Canada* (latest edition) will be used as the authority for all scientific and common names. For species or products of non-U.S. origin, the American Fisheries Society's *Annotated List of Selected Fishes of the World* (scheduled for publication in 1988) will be used as the authority for the scientific and common names.

(iv) A description of the geographic area (State(s)) within the United States covered by this council;

(v) The identification of each sector within the geographic area as defined in the proposed charter and the number and terms of representatives for each sector that will be voting members on the council. The number of council members should be manageable, while ensuring equitable geographic representation. The term for members is three years. Initially, to ensure continuity, half of the members' terms will be two years and half will be three years. Reappointments are permissible.

(vi) The identification of those sectors as defined in § 270.3(d)(1)(v) of this part, but which must include harvesters, receivers, and if subject to assessment, importers, eligible to vote in a referendum to establish a council;

(vii) A threshold level for each sector participant described under § 270.3(d)(1)(v) of this part specifying the minimum requirements, as measured by income, volume of sales, or other relevant factors, that a person engaging in business in the sector must meet in order to participate in a referendum;

(viii) A description of the rationale and procedures for determining assessment rates under section 213 of the Act;

(ix) The proposed rate or rates that will be imposed by the council on receivers and, if subject to assessment, importers during its first year of operation;

(x) The maximum amount by which an assessment rate for any period may be raised above the rate applicable for the immediately preceding period;

(xi) The maximum rate or rates that can be imposed by a council on receivers or importers during operation of the council;

(xii) The maximum limit on the amount any one sector participant may be required to pay under an assessment for any period;

(xiii) The procedures for providing refunds, including interest earned, to sector participants subject to assessment who request the same in accordance with time limits specified in the Act;

(xiv) A provision setting forth the voting procedures by which votes may be cast by proxy;

(xv) A provision that the council will have voting members representing the harvesting, receiving and, if subject to assessment, importing sectors;

(xvi) A provision setting forth the definition of a quorum for making decisions on council business and the procedures for selecting a chairperson of the council; and

(xvii) A provision that members of the council will serve without compensation, but will be reimbursed for reasonable expenses incurred in performing their duties as members of the council.

(2) *Petition (requesting document).* The petition is a document submitted by the applicants to the Secretary requesting that the council be established. To the extent practicable, the petition will include the signatures or corporate certifications, as the case may be, of no less than three sector participants representing each sector identified in accordance with § 270.3 (d)(1)(v) of this part and who, according to the best available data, collectively accounted for, in the 12-month period immediately preceding the month in which the application was filed, not less than 10 percent of the value of the fish or fish products specified in the charter that were handled by each such sector during that period. The petition also must include a statement that, if established, sufficient resources will be available to the council for initial administrative expenditures pending collection of assessments.

(3) *List of referendum participants.* A list identifying, to the extent practicable, by address of place(s) of business, those sectors participants that are considered by the applicants to meet the requirements for eligibility to vote in the referendum on the adoption of the proposed charter. The business addresses for each sector participant should include addresses for all of his/her businesses in all locations covered by the geographic area of the council. If more than one address is submitted, a primary address should be designated. This will provide the Secretary with a basis for planning the nomination and council appointment process to ensure that all geographic areas are represented on the council in accordance with the Act.

(4) *Where to submit applications.* Applicants must submit one signed original and two copies of the completed application to the Assistant Administrator for Fisheries, National Marine Fisheries Service, NOAA, Silver Spring, MD 20910. Applications must not be bound in any manner.

§ 270.4 Review of application.

Within 180 days of receipt of the application to establish a council, the Secretary will render a final determination on the acceptability of the application. To make this decision, the Secretary will do the following:

(a) Determine if the application is complete and complies with all of the requirements set out in § 270.3(d) of this part and complies with all provisions of the Act and other applicable laws.

(b) Verify, to the extent practicable, if the list of sector participants, submitted by the applicants, meets the requirements for eligibility to participate in the referendum to establish the council. The Secretary will use various sources to verify eligibility of sector participants to participate in referenda. Therefore, additional information may be required from the applicants or proposed participants in order to carry out this responsibility. The Secretary is authorized under the Act to request such information as necessary. The verification process may result in the Secretary adding or deleting names of sector participants.

(c) If any negative determination is made regarding a proposed charter, the Secretary will advise in writing the sector participants who submitted the application of the reasons for such determination. A corrected application may be submitted thereafter to the Secretary for approval.

§ 270.5 Conduct of referendum.

(a) The Secretary will estimate the cost of conducting the referendum, notify the applicants, and request that applicants post a bond or provide other applicable security such as a cashier's check to cover costs of the referendum. The Secretary will initially pay all costs of a referendum to establish a council. Within two years after a council is established, the council must reimburse the Secretary for the total actual costs from assessments collected by the council. If a referendum fails to result in establishment of a council, the Secretary will immediatley recover all expenses incurred for conducting the referendum from the bond or security posted by applicants. In either case, such expenses will not include salaries of Government employees or other administrative overhead, but will be limited to those additional direct costs incurred in connection with conducting the referendum. Costs associated with each referendum may vary according to the number of sector participants and locations, and whether a public meeting is requested.

(b) No less than thirty (30) days prior to holding a referendum, the Secretary will—

(1) Publish (by such means that will result in wide publicity in regions affected by the proposed charter) the text of the proposed charter, and the most complete list available of sector participants eligible to vote in the referendum; and

(2) Provide for public comment, including the opportunity for a public meeting. Additional names may be added to the list of eligible sector participants until the time of the referendum based on additional information received.

§ 270.6 Sector participants eligible to vote.

(a) Any participant who meets the minimum requirements as measured by income, volume of sales or other relevant factors specified in the approved charter may vote in a referendum.

(b) Only one vote may be cast by each participant who is eligible to vote, regardless of the number of individuals that make up such "participant" and how many sectors the participant is engaged in. The vote may be made by any responsible officer, owner, or employee representing a participant.

§ 270.7 Results of referendum.

(a) *Favorable vote to establish council.* The Secretary will by order establish the council, if the referendum votes which are cast in favor of the proposed charter constitute a majority of the sector participants voting in each and every sector. Further, according to the best available data, the majority must collectively account for, in the 12-month period immediately preceding the month in which the proposed charter was filed, at least 66 percent of the value of the fish and fish products described in the proposed charter handled by that sector during such period. The Secretary will publish the results of the referendum in the **Federal Register** and local media of the geographic area of the new council.

(b) *Unfavorable vote to establish council.* If a referendum fails to pass, the Secretary will notify the applicants immediately and recover costs of conducting the referendum according to § 270.5(a) of this part. The Secretary will also publish a notice in the **Federal**

Register and in local media of the geographic area of the proposed council of the failure of the referendum to result in the establishment of a council.

§ 270.8 Nomination of council members.

Within 30 days after a council is established, the Secretary will solicit nominations for council members from the sectors represented on the council in accordance with the approved charter. If the harvesters and receivers represented on the council are engaged in business in two or more States, but within the geographic boundary of the council, the nominations made under this section must, to the extent practicable, result in equitable representation for those States. Nominees must be knowledgeable and experienced with regard to the activities of, and be or have been actively engaged in the business of, the sector which such person will represent on the council. Therefore, a resume will be required for each nominee.

§ 270.9 Removal of a council member.

Any person appointed under this Act who consistently fails or refuses to perform his or her duties properly and/or participates in acts of dishonesty or willful misconduct with respect to responsibilities under the Act will be removed from the council by the Secretary if two-thirds of the members of the council recommend action. All requests from a council to the Secretary for removal of a council member must be in writing and accompanied by a statement of the reasons upon which the recommendation is based.

§ 270.10 Notice of council meetings.

The council must give the Secretary the same notice of its meetings as it gives to its members in order that the Secretary or a representative of the Secretary may attend the meetings.

§ 270.11 Books, records and reports.

The council must maintain books and records, prepare and submit to the Secretary semi-annually a progress report on implementation of the marketing and promotion plan and a financial report with respect to the receipt and disbursement of funds entrusted to it, and cause a complete audit report to be conducted by an independent public accountant and submitted to the Secretary at the end of each fiscal year. The books and records of the council must be maintained for a minimum of three years.

§ 270.12 Update of sector participant data.

The council must submit to the Secretary at the end of each fiscal year an updated list of sector participants who meet the minimum requirements for eligibility to participate in a referendum as stated in the approved charter.

§ 270.13 Quality standards.

Each council may—

(a) Develop and submit to the Secretary for approval, or upon the request of a council the Secretary will develop, quality standards for the species of fish or fish products described in the approved charter. Any quality standard developed under this paragraph must be consistent with the purposes of the Act.

(b) A quality standard developed under § 270.13(a) of this part may be adopted by a council by a majority of its members following a referendum conducted by the council among sector participants of the concerned sector(s). In order for a quality standard to be brought before council members for adoption, the majority of the sector participants of the concerned sector(s) must vote for the standard. Further, according to the best available data, the majority must collectively account for, in the 12-month period immediately preceding the month in which the referendum is held, not less than 66 percent of the value of the fish or fish products described in the charter that were handled by that sector during such period.

(c) The council must submit a plan to conduct the referendum on the quality standards to the Secretary for approval at least 60 days in advance of such referendum date. The plan must consist of the following:

(1) Date(s) for conducting the referendum;

(2) Method [by mail or in person);

(3) Copy of the proposed notification to sector participants informing them of the referendum;

(4) List of sector participants eligible to vote;

(5) Name of individuals responsible for conducting the referendum;

(6) Copy of proposed ballot package to be used in the referendum; and

(7) Dates(s) and location of ballot counting.

(d) An official observer appointed by the Secretary may be present at the ballot counting and any other phases of the referendum process, and may take whatever steps as the Secretary deems appropriate to verify the validity of the process and results of the referendum.

(e) Quality standards developed under this section of the regulations must at least meet Food and Drug Administration (FDA) minimum requirements for fish and fish products for human consumption.

(f) Quality standards must be consistent with existing approved Department of Commerce (National Oceanic and Atmospheric Administration) standards for fish and fish products.

(g) No quality standard adopted by a council may be used in the advertising or promotion of fish or fish products as being inspected by the United States Government unless the standard requires sector participants to be in the National Seafood Inspection Program (NSIP) and the product has been inspected or is under an NSIP approved inspection program.

(h) The intent of quality standards may not be to discriminate against importers who are not members of the council.

(i) Quality standards may not be developed for the purpose of creating non-tariff barriers. Such standards must be compatible with U.S. obligations under the General Agreement on Tariffs and Trade.

(j) The procedures applicable to the adoption and the operation of quality standards developed under this subsection also apply to subsequent amendments or the termination of such standards.

(k) With respect to a quality standard adopted under this section, the council must develop and file with the Secretary an official identifier in the form of a symbol, stamp, label or seal that will be used to indicate that a fish or fish product meets the quality standard at the time the official identification is affixed to the fish or fish product, or is affixed to or printed on the packaging material of the fish or fish product.

(l) The Secretary will establish by regulation procedures for the use of an official identification filed with the Secretary under § 270.13(k) of this part.

§ 270.14 Deposit of funds.

All funds collected or received by a council under this section must be deposited in a appropriate account in the name of the council specified in its charter. Funds eligible to be collected or received by a council must be limited to those authorized under the Act.

(a) Pending disbursement, under an approved marketing plan and budget, funds collected through assessments authorized by the Act must be deposited in any interest-bearing account or certificate of deposit of a bank that is a member of the Federal Reserve System, or in obligations fully guaranteed as to principal and interest by the United States Government.

(b) The council may, however, pending disbursement of these funds,

invest in risk free, short-term, interest-bearing instruments.

(1) *Risk-free.* All investments must be insured or fully collateralized with Federal Government securities. In the absence of collateral, accounts established at financial institutions should, in aggregate, total less than $100,000 to assure both principal and interest are fully insured. Accounts must be insured by FDIC or FSLIC.

(2) *Short-term.* Generally, all investments should be for a relatively short period (one year or less) to assure that the principal is maintained and readily convertible to cash.

(3) *Collateralization.* Investments exceeding the $100,000 insurance coverage level must be fully collateralized by the financial institution.

(i) Collateral must be pledged at face value and must be pledged prior to sending funds to the institution.

(ii) Government securities are acceptable collateral. Declining balance, mortgage backed securities such as Government National Mortgage Association (GNMA) and Federal National Mortgage Association (FNMA) are not acceptable as collateral.

(iii) If an account has been established, collateral may be held at the local Federal Reserve bank. Otherwise another depository must hold the collateral.

§ 270.15 Notice of assessment.

(a) The council must serve each person subject to assessment with notice that the assessment is due. The notice of assessment must contain:

(1) A specific reference to the provisions of the Act, regulations, charter and referendum that authorize the assessment;

(2) The amount of the assessment;

(3) The date the assessment is due and payable, which shall not be earlier than 30 days from the date of the notice;

(4) The form(s) of payment; and

(5) To who and where the payment must be made.

(6) The notice will advice such person of his or her right to seek review of the assessment by filing a written petition of objection with the Secretary of Commerce at any time during the time period to which the assessment (or the marketing and promotion plan) applies, including the right to request a hearing on the petition. The notice will state that the petition must be filed in accordance with the procedures in § 270.16 of this part.

(7) The notice will also advise such persons of his or her right to a refund of the assessment as provided in § 270.17 of this part. The notice will state that refunds may only be requested for a period covering 90 days or more from the date the assessment is collected and the council will make the refund within 60 days from the date of the demand.

(b) Persons subject to assessment must pay the assessment on the date due, whether or not they have demanded a refund or filed a petition of objection with the Secretary under § 270.16 of this part.

§ 270.16 Petition of objection.

(a) *Filing a petition.* Any person issued a notice of assessment under § 270.15 of this part may seek review of the assessment by filing a written petition with the Secretary. Petitions of objection may be filed only upon one or more of the following grounds:

(1) The assessment;

(2) The marketing and promotion plan on which the assessment was based; or

(3) Any obligation imposed on the petitioner under the plan, is not in accordance with law.

Filing a petition does not relieve the petitioner of the obligation to pay the assessment when it is due. A petition may only be filed during the time period to which the assessment, or the marketing and promotion plan, applies.

(b) *Contents of petition.* A petition must be addressed to the Secretary, U.S. Department of Commerce, Washington, DC, 20230, and must contain the following:

(1) The petitioner's correct name, address, and principal place of business. If the petitioner is a corporation, this must be stated, together with the date and state of incorporation, and the names, addresses and respective positions of its officers; if a partnership, the date and place of formation and the name and address of each partner;

(2) The grounds upon which the petition is based, including the specific terms or provisions of the assessment, the marketing and promotion plan, or obligation imposed by the plan, to which the petitioner objects;

(3) A full statement of the facts upon which the petition is based, set forth clearly and concisely, accompanied by any supporting documentation;

(4) The specific relief requested; and

(5) A statement as to whether or not the petitioner requests a hearing.

(c) *Notice to council.* The Secretary will promptly furnish the appropriate council with a copy of the petition.

(d) *Opportunity for informal hearing.* (1) Any person filing a petition may request and informal hearing on the petition. The hearing request must be submitted with the petition.

(2) If a request for a hearing is timely filed, or if the Secretary determines that a hearing is advisable, the Secretary will so notify the petitioner and the council. The petitioner, the council, and any other interested party, may appear at the hearing in person or through a representative, and may submit any relevant materials, data, comments, arguments, or exhibits. The Secretary may consolidate two or more hearing requests into a single proceeding.

(3) Final Decision. Following the hearing, or if no hearing is requested, as soon as practicable, the Secretary will decide the matter and serve written notice of the decision on the petitioner and the council. The Secretary's decision will be based on a consideration of all relevant documentation and other evidence submitted, and will constitute the final administrative decision and order of the agency.

§ 270.17 Refunds.

(a) Notwithstanding any other provision of the Act, any person who pays an assessment under the Act may demand and will promptly receive from the council a refund of such assessment, including interest earned. A demand for refund must be made in accordance with procedures in the approved charter and within such time, as will be prescribed by the council and approved by the Secretary. Procedures to provide such a refund must be established before any such assessment may be collected. Such procedures must allow any person to request a refund 90 days or more from such collection, and provide that such refund must be made within 60 days after demand for such refund is made.

(b) Once a refund has been requested by a sector participant and paid by the council, that sector participant may no longer participate in a referendum or other business of the council during the remainder of the assessment rate period. However, if assessments are paid during a future assessment rate period and no refund is requested, that sector participant may again participate in a referendum or other business of the council.

§ 270.18 Dissolution of councils.

If the referendum conducted under section 216 of the Act results in the termination of the council, the council will be dissolved only in accordance with such terms and conditions as approved by the Secretary to ensure that all remaining affairs of the council are concluded on an orderly basis.

Date: December 8, 1988.

James W. Brennan,

Assistant Administrator for Fisheries.

Federal Register
Vol. 53, No. 245
Wednesday, December 21, 1988

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Soil Conservation Service

Finding of No Significant Impact; Choccolocco Creek Watershed, AL

AGENCY: Soil Conservation Service, USDA.

ACTION: Notice of a finding of no significant impact.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Choccolocco Creek Watershed, Calhoun, Clay, Cleburne and Talladega Counties, Alabama.

FOR FURTHER INFORMATION CONTACT: Ernest V. Todd, State Conservationist, Soil Conservation Service, 665 Opelika Road, Auburn, Alabama, 36830, telephone (205) 821–8070.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Ernest V. Todd, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The project concerns a plan for flood control, municipal and industrial water supply and watershed protection. The planned works of improvement included fifteen floodwater retarding dams, 52.5 miles of channel work and accelerated technical assistance for land treatment. Ten floodwater retarding structures and 2.1 miles of channel work have been completed. A supplement has been prepared to delete five dams (sites 4, 8, 10, 12 and 18) and 50.4 miles of channel work form the plan. In lieu of the deleted dams and channel work, thirty miles of clearing, snagging and limited sediment removal have been included in the supplemented plan.

The Notice of a Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various Federal, State, and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single copy requests at the above address. Basic data developed during the environmental assessment are on file and may be reviewed by contacting Ernest V. Todd.

No administrative action implementation of the proposal will be taken until 30 days after the date of this publication in the **Federal Register**.

(This activity is listed in the Catalog of Federal Domestic Assistance under No. 10.904—Watershed Protection and Flood Prevention—and is subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials.)

Date: December 14, 1988.

Ernest V. Todd,

State Conservationist.

BILLING CODE 3410–16–M

DEPARTMENT OF COMMERCE

Bureau of the Census

Motor Freight Transportation and Warehousing Survey; Determination

In accordance with Title 13, United States Code, sections 131, 182, 224, and 225, we have determined the Census Bureau needs to collect data covering annual operating revenues and expenses for the for-hire trucking and warehousing industries to provide a sound statistical basis for the formation of policy by various governmental agencies. These data also apply to a variety of public and business needs. This annual survey is a continuation of similar motor freight transportation and warehousing surveys conducted since 1985.

The Census Bureau will require a selected sample of trucking and warehousing firms in the United States (with payroll size determining the probability of selection) to report in the 1988 Motor Freight Transportation and Warehousing Survey. The sample will provide, with measurable reliability, national level statistics on operating revenues and expenses for these industries.

We will furnish report forms to the firms covered by this survey and will require their submission within 30 days after receipt. We will provide copies of the forms upon written request to the Director, Bureau of the Census, Washington, DC 20233.

We have directed, therefore, that an annual survey be conducted for the purpose of collecting these data.

Dated: December 15, 1988.

John G. Keane,

Director, Bureau of the Census.

BILLING CODE 3510–07–M

Annual Survey of Retail Sales and Inventories; Determination

In accordance with Title 13, United States Code, sections 182, 224, and 225, I have determined that various government agencies need the 1988 annual trade data to provide a sound statistical basis for the formation of policy and that these data also serve a variety of public and business needs. This annual survey is a continuation of similar surveys that we have conducted each year since 1951 (except 1954). It provides, on a comparable classification basis, annual sales, purchases of merchandise, accounts receivable balances, and year-end inventories for 1987 and 1988. These data are not available publicly on a timely basis from nongovernmental or other governmental sources.

The Census Bureau will require a selected sample of firms operating retail establishments in the United States (with sales size determining the probability of selection) to report in the 1988 Annual Retail Trade statistics on the specified subjects.

We will furnish report forms to the firms covered by this survey and will require their submission within 30 days after receipt. Copies of the forms are available upon written request to the Director, Bureau of the Census, Washington, DC 20233.

We have directed, therefore, that an annual survey be conducted for the purpose of collecting these data.

Dated: December 15, 1988.

John G. Keane,

Director, Bureau of the Census

BILLING CODE 3510-07-M

Bureau of Export Administration

[Docket Nos. 8112-01, 8112-02, 8112-03, 8112-04]

Actions Affecting Export Privileges: Man Chung Tong et al.

Summary

Pursuant to the November 16, 1988 recommended Decision and Order of the Administrative Law Judge (ALJ), which Decision and Order is attached hereto and affirmed in principle part by me, Man Chung Tong individually and doing business as Stillwell Development Company, Ltd., Scientific Data Systems, Ltd., and Equipment Rental Company, Ltd. (hereinafter Respondents) all with an address of Flat 2B, Cheers Court, 15 Dianthus Road, Yan Yat Cheuen, Kowloon, Hong Kong, is, and the Respondents are collectively, denied for a period of 20 years all privileges of participating, directly or indirectly, in any manner or capacity, in any transaction involving commodities or technical data exported from the United States in whole or in part, or to be exported, or that are otherwise subject to the regulations.

Discussion

Although I find that the ALJ has correctly decided the instant case, one technical modification and one comment are in order. The technical modification is one to impart clarity to the Order. One page 17 of the ALJ's Order he states that "Such denial of export privileges shall extend to matters which are subject to the Act and Regulations." For reason of clarity, the denial should "extend only to those commodities and technical data which are subject to the Act and Regulations."

The comment pertains to the ALJ's footnote 10. In that footnote the ALJ opines that the instant case is somehow stale, should have been adjudicated with a prior, related case, and that the failure to consolidate somehow relates to an alleged desire on the part of the Department to exaggerate the number of cases it prosecutes. This *dicta* of the ALJ has absolutely nothing to do with his jurisdiction regarding export control violation cases. If anything the *dicta* relates to an obvious bias the ALJ has with respect to the provisions of the Export Administration Act and the Regulations. Although it is always desirable that cases be adjudicated as quickly as possible, so long as a case is brought within the period provided by the applicable statute of limitations (as was the instant case) neither the ALJ nor the Respondent should be heard to complain. If the ALJ is of the personal opinion that the statute of limitations is wrong, he should petition the legislature to change the same. So too, there is no legal premise requiring consolidation of this case with a prior, related one. Finally, the suggestion that the separation of related cases is an effort to exaggerate the number of cases prosecuted by the Department is a direct and unjustified insult to Departmental counsel. Violations of the Export Administration Act and the Regulation are not treated as piecework. The ALJ would be well advised to restrict his comments to matters appropriately within his jurisdiction.

Order

On November 16, 1988, the Administrative Law Judge (ALJ) entered his recommended Decision and Order in the above referenced matter. That Decision and Order, a copy of which is attached hereto and made a part hereof, has been referred to me for final action. Having examined the record, and based on the facts of this case, subject to the technical modification below and my rejection of the *dicta* in footnote 10, I affirm the Decision and Order of the ALJ. The modification the the ALJ's Decision and Order is as follows: on page 17, the last sentence of paragraph II should read, "Such denial of export privileges shall extend only to those commodities and technical data which are subject to the Act and Regulations."

This constitutes final agency action in this matter.

Date: December 16, 1988.

Paul Freedenberg,

Under Secretary for Export Administration.

Decision and Order on Default

Preliminary statement

Appearance for Respondent: Man Chung Tong (pro se), Flat 2B, Cheers Court, 15 Dianthus Road, Yan Yat Cheuen, Kowloon, Hong Kong.

Appearance for Agency: Anthony Hicks, Esq., Office of Chief Counsel for Export Administration, U.S. Department of Commerce, Room H-3329, 14th and Constitution Avenue NW., Washington, DC 20030.

On May 16, 1988, the Office of Export Enforcement, Bureau of Export Administration, United States Department of Commerce (Agency), issued a Charging Letter to Man Chung Tong, individually and doing business as Stillwell Development Company, Ltd., Scientific Data Systems, Ltd., and Equipment Rental Company, Ltd. (Respondent), alleging that the Respondent violated the Export Administration Act of 1979 (50 U.S.C. App. 2401-2420), as amended, (the Act), and the Export Administration Regulations (the Regulations) promulgated thereunder.[1] The Charging Letter alleged that the Respondent committed one violation of former § 387.3, eleven violations of former § 387.4 and eleven violations of former § 387.6, for a total of twenty three violations of the Regulations.

On August 17, 1988, three months after the data of the Charging Letter, the undersigned Administrative Law Judge directed Agency Counsel to make a default submission, pursuant to § 388.8 of the Regulations, for failure of the Respondent to answer the Charging Letter.

DEFAULT (a) General

If a timely answer is not filed, the department shall file with the Administrative Law Judge a proposed Order together with the supporting evidence for the allegations in the charging letter. The Administrative Law Judge may require further submissions and shall issue any Order he deems justified by the evidence of record, any Order so issued shall have the same force and effect as an Order issued following the disposition of contested charges.

In accordance with this section, Agency Counsel filed a Motion for Default Judgment, with supporting documentary evidence, on September 16, 1988. A copy of the Motion was also sent to the Respondent and on September 27, 1988 the undersigned issued an Order to Show Cause why a default order should not be entered was sent to the Respondent. No response to the order or answer to the Charging Letter has been filed.

On April 5, 1984, Respondent and William T. Newkirk were charged in a Grand Jury Indictment, entered in the United States District Court for the

---

[1] The Act was reauthorized and amended by the Export Administration Amendments Act of 1985, Pub. L. 99-64, 99 Stat. 120, (July 12, 1985), and amended by the Omnibus Trade and Competitiveness Act of 1988, Pub. L. 100-418, 102 Stat. 1107 (Aug. 23, 1988).

The Regulations, formerly codified at 15 CFR Parts 368-399, were redesignated as 15 CFR Parts 768-799, effective October 1, 1988 (53 FR 37781, September 28, 1988).

BEST COPY AVAILABLE

Central District of California, with seventeen counts of conspiring to knowingly export electronic testing and calibration equipment from the United States to the Republic of Hong Kong without first obtaining the required validated export licenses from the Department of Commerce, and with knowingly submitting false statements to the Department (Agency Exh. 2). On or about June 21, 1984, the Respondent pled guilty to one count of conspiracy and one count of illegal export (Agency Exh. 3). On or about August 20, 1984, the Respondent failed to appear for sentencing and is currently a fugitive.[2]

On February 15, 1984, the Respondent was also charged in a Grand Jury Indictment in the Western District of Washington. The Indictment alleged multiple violations of the Act. A Superseding Indictment was subsequently filed on May 9, 1984 (Agency Exh. 27). On July 24, 1984, the Respondent pled guilty to Count II of the Superseding Indictment. On or about September 7, 1984, the Respondent again failed to appear for sentencing.[3]

Facts

The Respondent is alleged to have conspired with William T. Newkirk to bring about acts that violated the Act and the Regulations. The Charging Letter alleges that Respondent placed orders with Newkirk for U.S.-origin electronic equipment wanted by the Respondent's customers in the People's Republic of China and elsewhere. Newkirk purchased the equipment from U.S. manufacturers, took delivery of it, and exported the equipment to Respondent in Hong Kong, either directly from the United States or indirectly through Mexico, knowing that he did not have the requisite export authorization from the Agency. Newkirk effected these exports by knowingly submitting false statements to the Agency on the export documents. After the equipment arrived in Hong Kong, the Respondent resold it to his customers.

The Respondent has admitted that he conspired with Newkirk in this manner by pleading guilty to Count I of the Indictment (Agency Exh. 2, 3). Respondent thus committed one violation of § 387.3 of the Regulations, by conspiring and acting in concert with Newkirk to bring about the following overt acts.

On or about October 14, 1982, Newkirk unlawfully exported a computer system from the United States through Mexico to the Respondent in Hong Kong without obtaining from the Agency the validated export license that Newkirk and Respondent knew or had reason to know was required by § 372.1(b) of the Regulations. Newkirk obtained the goods by representing to the manufacturer that he had a customer in Mexico, and by preparing a false invoice showing such a sale. Respondent has admitted these facts by pleading guilty to Count I of the Indictment (Agency Exh. 2, 3).

Newkirk exported this computer equipment in furtherance of the conspiracy, therefore these acts are attributable to the Respondent. Therefore Respondent violated § 387.6 of the Regulations for exporting the equipment in violation of § 387.2 of the Regulations.

In pleading guilty to Count I of the Indictment, Respondent admitted that he knew or had reason to know that an export license was required to lawfully ship the computer to Hong Kong and that one had not been obtained. Accordingly, Respondent committed one violation of § 387.4 of the Regulations in that he received the computer in Hong Kong knowing or having reason to know that it had been shipped without an export license and that a violation of the Regulations had thus occurred.

On November 17, 1982, Respondent, doing business as Stillwell Development Company, Ltd., submitted Purchase Order No. ST00051 to Newkirk for the purchase of two spectrum analyzers with options (Agency Exh. 5). On or about November 22, 1982, Newkirk submitted an export license application (A659962) to the Agency to export these spectrum analyzers to Respondent's company, Stillwell Development, in Hong Kong (Agency Exh. 6). On or about January 17, 1983, while the license application was still pending,[4] Newkirk exported two spectrum analyzers from the United States to the Respondent in Hong Kong, without obtaining from the Agency the validated export license Newkirk and Respondent knew or had reason to know was required by § 372.1(b) of the Regulations (Agency Exh. 7). On the Shipper's Export Declaration (SED) filed in connection with this shipment, Newkirk falsely stated that the shipment was authorized under "G–DEST" (Agency Exh. 8).

Newkirk exported these spectrum analyzers contrary to the terms of the Regulations because he exported them without the export license required by § 372.1(b) of the Regulations. This export was made in furtherance of the conspiracy. Thus, Newkirk's acts are attributable to Respondent. Accordingly, Respondent committed one violation of § 387.6 of the Regulations.

Because Newkirk applied for an individual validated license, he knew or had reason to know that an export license was required to lawfully ship the computer to Hong Kong and that one had not been obtained. Newkirk knew or had reason to know that a violation occurred when he forwarded the computer to Respondent without the required validated export license. This export was made in furtherance of the conspiracy. As a co-conspirator, Newkirk's acts are attributable to the Respondent. Thus, in connection with this export, Respondent committed one violation of § 387.4 of the Regulations.

On or about November 11, 1982, Respondent, doing business as Scientific Data Systems, Ltd., submitted Purchase Order No. SDS037 to Newkirk for electronic computer equipment (Agency Exh. 10). On or about November 16, 1982, Newkirk submitted two export license applications (A659118 and A6959955) to the Agency to export that electronic computer equipment to Respondent's company, Scientific Data, in Hong Kong (Agency Exh. 11). While these license applications were still pending,[5] on or about February 26, 1983, Newkirk exported the electronic computer equipment from the United States to Respondent in Hong Kong, without obtaining the validated export license Newkirk and Respondent knew or had reason to know was required by § 372.1(b) of the Regulations (Agency Exh. 12). On the SED filed in connection with the shipment, Newkirk again stated that the shipment was authorized under "G–DEST".

Newkirk exported the computer equipment contrary to the terms of the Regulations because he exported it without the export license required by § 372.1(b) of the Regulations. The export was made in furtherance of the conspiracy. Newkirk's actions are therefore attributable to the Respondent. In connection with this export, the Respondent committed one violation of § 387.6 of the Regulations.

---

[2] On or about August 21, 1984, William T. Newkirk pled guilty to five of the seventeen counts and was sentenced to two years' imprisonment and fined $50,000 (Agency Exh. 4).

[3] The Charging Letters issued to Newkirk and Respondent by the Agency allege the same violations as the counts to which Newkirk and Respondent pled guilty. Newkirk's guilty plea supports the Agency's version of events (Agency Exh. 4). Newkirk was charged in a separate administrative civil penalty proceeding and was found to have violated the Act and the Regulations (ALJ Decision, July 28, 1988, Order of Under Secretary, August 26, 1988).

[4] This license application was denied by the Agency on May 26, 1983 (Agency Exh. 9).

[5] The license applications were denied by the Agency on May 19, 1983 (Agency Exh. 13).

Because Newkirk applied for individual validated licenses, he knew or had reason to know that an export license was required to lawfully ship the computer equipment to Hong Kong and that it had not been obtained. Accordingly, Newkirk knew or had reason to know that a violation occurred when he forwarded the computer to Respondent without the required validated export license. This export was made in furtherance of the conspiracy. As a co-conspirator, Newkirk's actions are attributable to the Respondent. Accordingly, Respondent violated § 387.4 of the Regulations.

On or about December 13, 1982, Respondent, doing business as Equipment Rental Company, Ltd., submitted Purchase Order No. ER001 to Newkirk for electronic equipment, including oscilloscopes and spectrum analyzers (Agency Exh. 14). On or about January 3, 1983, Newkirk submitted two export license applications (A669213 and A669214) to the Agency to export this equipment to Respondent's company, Equipment Rental, in Hong Kong (Agency Exh. 15). While these license applications were still pending,[6] Newkirk exported the equipment in two shipments from the United States to Hong Kong on or about April 9, 1983 and on or about June 4, 1983, without obtaining from the Agency the validated export licenses Newkirk and Respondent knew or had reason to know were required by § 372.1(b) of the Regulations (Agency Exh. 16, 17) Newkirk effected these exports by stating on the SED's that accompanied each shipment that these shipments were authorized by validated export license A663561, an export license unrelated to these exports (Agency Exh. 18).

In these two separate shipments, Newkirk exported the electronic equipment contrary to the terms of the Regulations because he exported it without the export licenses required by § 372.1(b) of the Regulations. The two exports were made in furtherance of the conspiracy, thus Newkirk's acts are attributable to Respondent. Accordingly, Respondent committed two violations of § 387.6 of the Regulations, one for each unauthorized export.

In addition, because Newkirk applied for validated export licenses, he knew that export licenses were required to lawfully ship the electronic equipment to Hong Kong and they had not been obtained. Newkirk knew or had reason to know that a violation occurred when he forwarded the electronic equipment to Tong without the required validated export licenses. These exports were made in furtherance of the conspiracy, thus Newkirk's acts are attributable to the Respondent. Accordingly, Respondent committed two violations of § 387.4 of the Regulations.

On February 4, 1983, Respondent, doing business as Scientific Data Systems, Ltd., submitted Purchase Order No. SD063 to Newkirk for electronic equipment, including cathode ray oscilloscopes (Agency Exh. 20). On or about February 14, 1983, Newkirk submitted an export license application (A677421) to the Agency to export that electronic equipment to Respondent's company, Scientific Data Systems, in Hong Kong (Agency Exh. 21).[7] While the application was still pending, and after it was denied by the Agency, Newkirk exported the equipment in four shipments, on May 7, May 28, June 25 and July 3, 1983, from the United States to the Respondent in Hong Kong, (Agency Exh. 22–25), wihtout obtaining from the Agency the validated export licenses Newkirk and Respondent knew or had reason to know were required by § 372.1(b) of the Regulations. Newkirk effected these exports by falsely stating on the SED filed in connection with each shipment that validated export license application number A663561 authorized the shipments.[8]

In these four shipments Newkirk exported the electronic equipment contrary to the terms of the Regulations because he exported each shipment without the export licenses required by § 372.1(b) of the Regulations. Each export was made in furtherance of the conspiracy, thus Newkirk's acts are attributable to Respondent. Accordingly, Respondent committed four violations of § 387.6 of the Regulations.

Because Newkirk applied for individual validated licenses he knew or had reason to know that export licenses were required to lawfully ship the electronic equipment to Hong Kong and that they had not been obtained. Accordingly, Newkirk knew or had reason to know that a violation occurred when he forwarded the electronic equipment to Respondent without the required validated licenses. These exports were made in furtherance of the conspiracy and as a co-conspirator Newkirk's acts are attributable to the Respondent. In connection with these exports, Respondent committed four violations of § 387.4 of the Regulations.

On or about October 7, 1982, Newkirk submitted a validated export license application (A648884) to the Agency to ship twenty cathode ray oscilloscopes to a customer in Mexico. On or about June 22, 1983, Newkirk exported from the United States through Mexico to Respondent in Hong Kong two oscilloscopes and two plug-in units on the false representation that export license A648884 authorized the export.[9] The export was made without obtaining the validated export license from the Agency which Newkirk and Respondent knew or had reason to know was required by § 372.1(b) of the Regulations. Respondent has admitted these facts by pleading guilty to Count I of the indictment (Agency Exh. 2).

Newkirk exported the oscilloscopes and plug-in units contrary to the terms of the Regulations because he exported them without the export license required by § 372.1(b) of the regulations. The export was made in furtherance of the conspiracy, thus, Newkirk's acts are attributable to Respondent. Accordingly, Respondent committed one violation of § 387.6 of the Regulations.

Because Newkirk applied for an individual validated license, he clearly knew that an export license was required to lawfully ship the computer to Hong Kong and that one had not been obtained. Newkirk knew or had reason to know that a violation occurred when he forwarded the computer to Respondent without the required validated export license. Moreover, this export was made in furtherance of the conspiracy. As a co-conspirator, Newkirk's acts are attributable to Respondent. Accordingly, Respondent committed one violation of § 387.4 of the Regulations.

On or about August 16, 1983, in a shipment unrelated to the conspiracy, Respondent exported four U.S.-origin cathode ray tubes from the United States through Canada to Hong Kong, without obtaining from the Agency the validated export licenses which Respondent knew or had reason to know were required by § 372.1(b) of the Regulations. Respondent admitted these facts by pleading guilty to Count II of the Superceding Indictment (Agency Exh. 28).

Respondent exported the cathode ray tubes contrary to the terms of the Regulations because he exported them without the export license required by § 372.1(b) of the Regulations.

[6] License application numbers A669213 and A669214 were denied by the Agency on July 29, 1983 (Agency Exh. 19).

[7] License application A677421 was denied by the Agency on May 19, 1983 (Agency Exh. 21).

[8] License application number A663561 does not cover the equipment shipped in these exports (Agency Exh. 26).

[9] License application A648884 related to a different export to Mexico.

Respondent, thus, committed one violation of § 387.6 of the Regulations.

In pleading guilty to Court II of the Superceding Indictment, Respondent admitted that he knew or had reason to know that an export license was required and he exported the cathode ray tubes to Hong Kong from the United States without obtaining that license. Thus, Respondent committed one violation of § 387.4 of the Regulation in that, by exporting the cathode ray tubes to Hong Kong, without the required license, Respondent transported them knowing or having reason to know that a violation of Regulations had occurred.

Conclusion

The exhibits and representations by Agency Counsel and the Respondent, as well as his co-conspirator's guilty pleas fully support the charges made by the Agency in the May 16, 1988 Charging Letter, which alleged that the Respondent knowingly exported electronic testing and calibration equipment from the United States to the Republic of Hong Kong without first obtaining the required validated export licenses from the Agency and knowingly submitted false statements to the Agency.[10] By doing so, the Respondent committed the charged violations of former §§ 387.4, 387.5 and 387.6 of the Regulations.

The pattern of conduct demonstrated by the violations shows a deliberate and willful intent to violate United States export laws and regulations. I find that an Order denying export privileges for 20 years from the date that a final order is entered in this proceeding is warranted and is reasonably necessary to protect the public interest, and to achieve effective enforcement of the Act and the Regulations.

Order

I. For a period of 20 years from the date of the final Agency action, Respondent.

Man Chung Tong, individually and doing business as Stillwell Development Company, Ltd., Scientific Data Systems, Ltd., Equipment Rental Company, Ltd., Flat 2B, Cheers Court, 15 Dianthus Road, Yan Yat Cheuen, Kowloon, Hong Kong.

and all successors, assignees, officers, partners, representatives, agents, and employees hereby are denied all privileges of participating, directly or indirectly, in any manner or capacity, in any transaction involving commodities or technical data exported from the United States in whole or in part, or to be exported, or that are otherwise subject to the Regulations.

II. Participation prohibited in any such transaction, either in the United States or abroad, shall include, but not be limited to, participation.

(i) As a party or as a representative of a party to a validated export license application;

(ii) In preparing or filing any export license application or reexport authorization, or any document to be submitted therewith;

(iii) In obtaining or using any validated or general export license or other export control document;

(iv) In carrying on negotiations with respect to, or in receiving, ordering, buying, selling, delivering, storing, using, or disposing of, in whole or in part, any commodities or technical data exported from the United States, or to be exported; and

(v) In the financing, forwarding, transporting, or other servicing of such commodities or technical data. Such denial of export privileges shall extend to matters which are subject to the Act and the Regulations.

III. After notice and opportunity for comment, such denial of export privileges may be made applicable to any person, firm, corporation, or business organization with which the Respondent is now or hereafter may be related by affiliation, ownership, control, position of responsibility, or other connection in the conduct of export trade or related services.

IV. All outstanding individual validated export licenses in which Respondents appears or participates, in any manner or capacity, are hereby revoked and shall be returned forthwith to the Office of Export Licensing for cancellation. Further, all of Respondents' privileges of participating, in any manner or capacity, in any special licensing procedure, including, but not limited to, distribution licenses, are hereby revoked.

V. No person, firm, corporation, partnership, or other business organization, whether in the United States or elsewhere, without prior disclosure and specific authorization from the Office of Export Licensing, shall, with respect to U.S.-origin commodities and technical data, do any of the following acts, directly or indirectly, or carry on negotiations with respect thereto, in any manner or capacity, on behalf of or in any association with any Respondent or any related person, or whereby any Respondent or any related person may obtain any benefit therefrom or have any interest or participation therein, directly or indirectly.

(a) Apply for, obtain, transfer, or use any license, Shipper's Export Declaration, bill of lading, or other export control document relating to any export, reexport, transshipment, or diversion of any commodity or technical data exported in whole or in part, or to be exported by, to, or for any Respondent or related person denied export privileges, or

(b) Order, buy, receive, use, sell, deliver, store, dispose of, forward, transport, finance or otherwise service or participate in any export, reexport, transshipment or diversion of any commodity or technical data exported or to be exported from the United States.

VI. This Order as affirmed or modified shall become effective upon entry of the Secretary's final action in this proceeding pursuant to the Act (50 U.S.C. App. 2412(c)(1)).

Hugh J. Dolan,

Administrative Law Judge.

Date: November 16, 1988.

To be considered in the 30 day statutory review process which is mandated by section 13(c) of the Act, submissions must be received in the Office of the Under Secretary for Export Administration, U.S. Department of Commerce, 14th & Constitution Avenue NW., Room 3898B, Washington, DC, 20230, within 12 days. Replies to the other party's submission are to be made within the following 8 days. 15 CFR 388.23(b), 50 FR 53134 (1985).

[FR Doc. 88-29267 Filed 12-20-88; 8:45 am]
BILLING CODE 3510-DT-M

[10] The Charging Letter in this proceeding was issued almost three months after that directed to William T. Newkirk, et al., Docket No. 81-8104, 81-8105. The Secretarial action in that matter is dated August 26, 1988 and was published at 53 FR 3,3833 (Sept. 1, 1988). There is no explanation for the separation of these two related cases. The two referenced indictments were in 1983 and 1984. From those and other exhibits it appears that the facts were known and evidence gathered over four years ago. I continue to lament the stale status of too many of these proceedings and now add a concern for the exaggeration of the numbers of the few cases presented for adjudication.

International Trade Administration

Export Trade Certificate of Review

AGENCY: International Trade Administration, Department of Commerce.

ACTION: Notice of Issuance of an Export Trade Certificate of Review, Application #88-00015.

SUMMARY: The Department of Commerce has issued an Export Trade Certificate of Review to the Ferrous Scrap Export Association. This notice

summarizes the conduct for which certification has been granted.

FOR FURTHER INFORMATION CONTACT: Thomas H. Stillman, Director, Office of Export Trading Company Affairs, International Trade Administration, 202/377-5131. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: Title III of the Export Trading Company Act of 1982 ("the Act") (Pub. L. No. 97-290) authorizes the Secretary of Commerce to issue Export Trade Certificates of Review. The regulations implementing Title III are found at 15, CFR Part 325 (50 FR 1804, January 11, 1985).

The Office of Export Trading Company Affairs is issuing this notice pursuant to 15 CFR 325.6(b), which requires the Department of Commerce to publish a summary of a Certificate in the **Federal Register**. Under section 305(a) of the Act and 15 CFR 325.11(a), any person aggrieved by the Secretary's determinaion may, within 30 days of the date of this notice, bring an action in any appropriate district court of the United States to set aside the determination on the ground that the determination is erroneous.

Description of Certified Conduct:

Export Trade.

1. Products

Carbon steel and iron scrap (currently identified at U.S. Department of Commerce Schedule B numbers 607.0180 through 607.0846 (to be identified at Schedule B numbers 7204.10 and 7204.30 through 7204.50)) ("ferrous scrap").

2. Export Trade Facilitation Services (as they relate to the export of Products)

Consulting, management, international market research, marketing and trade promotion, sales of goods and services, insurance, legal assistance, inspection services, quality surveys, draft surveys, packing, transportation, wharfing and handling, steamship agency services, trade documentation, freight forwarding, storage, foreign exchange, taking title to goods and customs clearance.

Export Markets

The Export Markets include all parts of the world except the United States (the fifty states of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and the Trust Territory of the Pacific Islands).

Export Trade Activities and Methods of Operation

1. FSEA and/or one or more of its Members may:

a. Engage in joint negotiation, joint offering, or other joint selling arrangements for the sale of ferrous scrap in Export Markets and allocate sales resulting from such arrangements among the Members;

b. Establish and operate jointly owned subsidiaries or other joint ventures, owned exclusively by Members, to purchase, process and export ferrous scrap to Export Markets and to provide Export Trade Facilitation Service to Members;

c. Establish export prices and terms for the sale of ferrous scrap in Export Markets, and allocate export markets and/or customers among themselves;

d. Jointly refuse to quote prices for ferrous scrap, or to market or sell ferrous scrap, in Export Markets;

e. On a country-by-country basis for the Export Markets, jointly establish and/or negotiate with purchasers regarding specifications for grades of ferrous scrap to be sold in each country;

f. Jointly negotiate for and purchase ferrous scrap or raw materials for ferrous scrap for export from either Members or non-Member Suppliers for resale in Export Markets;

g. Jointly provide and/or jointly negotiate with Suppliers for Export Trade Facilitation Services;

h. Jointly establish, or arrange to have FSEA, one or more of its Members, or Suppliers to act as, exclusive or non-exclusive Export Intermediaries in Export Markets. Any such exclusive Export Intermediary may agree not to represent any other Supplier of ferrous scrap in the relevant country or market, and Members may agree that they will not export independently, either directly or through any other Export Intermediary or other party;

i. Agree that they will export for sale in one or more Export Markets only directly, through other Members, and/or through designated Export Intermediaries;

j. Cooperate in responding to attempted boycotts, refusals to deal, or other unfair trade practices by buyers of ferrous scrap in Export Markets against any Member, including cooperation in seeking relief before the U.S. Departments of Commerce or Justice, the Federal Trade Commission, the Office of the United States Trade Representative, and/or the courts in the United States and/or the courts and administrative agencies of other countries;

k. Meet and exchange information on any of the above subjects, as well as on market strategies and economic and business conditions in Export Markets; on export prices, terms, quality, quantity, source and delivery dates of ferrous scrap available from Members or non-Members for export; on U.S. and foreign legislation and regulations affecting the sale of ferrous scrap in Export Markets; and on FSEA's organization, governance, financial condition, and membership; and

l. Agree that any information obtained pursuant to the Certificate from another Member shall not be provided to any other Supplier of ferrous scrap.

2. FSEA and its Members may prescribe the following conditions with respect to voting rights, membership in, and withdrawal and expulsion from, FSEA:

a. Voting need not be on a one-member/one-vote basis. Initial voting rights shall be: Camden Iron & Metal, Inc., LMC Metals, Michael Schiavone & Sons, Inc., Schiavone-Bonomo Corp., Schnitzer Steel Products Co., Southern Scrap Material Co., Ltd., and Witte-Chase Corporation shall have one vote each; Hugo Neu & Sons, Inc. and Proler International Corp. shall have one vote jointly to be voted by Hugo Neu & Sons, Inc.; Naporano Iron & Metal Co. and NIMCO Shredding Co. shall have one vote jointly to be voted by Naporano Iron & Metal Co. Thereafter, any change in voting rights, shall be conducted under the voting rules then in effect.

b. Additional parties may be admitted to membership upon receiving:

(1) An affirmative vote of two-thirds of FSEA's existing members, and

(2) Unanimous approval of those members conducting export operations from the same Customs Clearance district as the proposed new member. In the event that no member has export operations in the same Customs Clearnace district as the proposed new member. In the event that no member has export operations in the same Customs Clearance district as the proposed new member, unanimous approval must be obtained from those members operating from the adjacent Customs Clearance districts.

Inclusion of each new member under the Certificate shall be subject to the successful application to the Secretary of Commerce to amend the Certificate to

VOL 53 ISS 245 DE 21 1988 UMI

add the proposed new member as a Member.

c. In the event of a change in the control of a member, such member may continue as a member of FSEA only upon receiving the affirmative votes of two-thirds of the other members. This paragraph shall not apply to a family-controlled company in the case of a change in ownership within the family.

d. Any member may be expelled, without cause or notice, by a majority vote of the other members.

e. Any member may withdraw from membership in FSEA by giving thirty (30) days' written notice to the remainiung members. However, the withdrawing member shall remain responsible for commitments made by such member and by FSEA on behalf of such member prior to the effective date of such member's withdrawal.

Members (within the meaning of § 325.2(1) of the Regulations)

Camden Iron & Metal Inc.; Hugo Neu & Sons, Inc.; LMC Meals; Michael Schiavone & Sons, Inc.; Naporano Iron & Metal Co.; NIMCO Shredding Co.; Proler International Corp.; Schiavone-Bonomo Corp.; Schnitzer Steel Products Co.; Southern Scrap Material Co., Ltd.; and Witte-Chase Corporation.

Definitions

For purposes of the Certificate:

1. "Export Intermediary" means a person who acts as a distributor, sales representative, sales or marketing agent, or broker for the sale of goods or services to Export Markets, or who performs similar functions, including providing or arranging for the provision of Export Trade Facilitation Services;

2. "Supplier" means a person who produces, provides, or sells ferrous scrap and/or Export Trade Facilitation Services, whether a Member or non-Member; and

3. "Member" means a person who has membership in FSEA.

A copy of the certificate will be kept in the International Trade Administration's Freedom of Information Records Inspection Facility, Room 4102, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230.

Date: December 16, 1988.

Thomas H. Stillman,

Director, Office of Export Trading Company Affairs.

[FR Doc. 88-29279 Filed 12-20-88; 8:45 am]

BILLING CODE 3510-DR-M

National Oceanic and Atmospheric Administration

Preliminary Approval of the Proposed Amendment To Incorporate the 1988 Beach Management Act into the South Carolina Coastal Management Program

AGENCY: National Oceanic and Atmospheric Administration, National Ocean Service, Office of Ocean and Coastal Resource Management, Commerce.

ACTION: Notice of preliminary approval of amendment.

SUMMARY: The Office of Ocean and Coastal Resource Management (OCRM), National Ocean Service, National Oceanic and Atmospheric Administration (NOAA) received a request from the South Carolina Coastal Council to amend the South Carolina Coastal Management Program (SCCMP) by incorporating the South Carolina Beach Management Act which became law in June 1988. The State's request was made pursuant to section 306(g) of the Coastal Zone Management Act of 1972, as amended (CZMA), 16 U.S.C. 1455(g) and the regulations implementing the CZMA at 15 CFR 923.81. The Beach Management Act enlarges the beach/dune critical area, establishes a setback line based on erosion of the shoreline, places strict limits on what may be constructed seaward of that line, requires long-range comprehensive shorefront management plans at the State and local level, and requires disclosure statements regarding erosion conditions in all contracts of sale and deeds of transfer of affected properties.

The Director, OCRM, has reviewed the amendment request and has made the preliminary determination that, if the amendment is approved, the SCCMP will still constitute an approvable program and that the procedural requirements of section 306(c) of the CZMA have been met. The Director has also determined that approval of the proposed change does not constitute a major Federal action having a significant effect on the human environment. Therefore, this action does not require an environmental impact statement pursuant to the National Environmental Policy Act of 1969, as amended.

Copies of the Finding of No Significant Impact, including the supporting Environmental Assessment, and the Preliminary Findings of Approvability can be obtained from the address below. Comments on these documents should be made by January 17, 1989. Address comments to: Mr. William Millhouser, Regional Manager, South Atlantic and Gulf Regions, Office of Ocean and Coastal Resource Management, 1825 Connecticut Avenue, NW., Washington, DC 20235, (202) 673-5138.

BILLING CODE 3510-08-M

National Telecommunications and Information Administration

[Docket No. 81257-8257]

Inquiry on Production Standards for High Definition Television (HDTV)

AGENCY: National Telecommunications and Information Administration (NTIA), U.S. Department of Commerce.

ACTION: Notice of inquiry.

SUMMARY: In 1985 the United States Government decided to support the NHK HDTV production standard in an effort to achieve a single, worldwide standard. Due to the opposition of a number of other governments, however, it is unlikely that a single, worldwide HDTV production standard will be agreed to. In addition, other production standards are now under development and certain questions have been raised concerning the technical feasibility of a single standard. In light of these changed circumstances, NTIA seeks comments on these developments and whether the U.S. Government should continue to support a production standard or standards.

DATES: Interested persons are invited to submit comments on this Notice of Inquiry to: Office of the Chief Counsel, National Telecommunications and Information Administration, U.S. Department of Commerce, Room H4717, 14th and Constitution Avenue, NW., Washington, DC 20230. Comments are due at the above address by 5:00 p.m. on March 1, 1989.

FOR FURTHER INFORMATION CONTACT: Richard M. Firestone, Chief Counsel, National Telecommunications and Information Administration, Department of Commerce, Room H4717, 14th & Constitution Avenue, NW., Washington, DC 20230; (202) 377-1816.

SUPPLEMENTARY INFORMATION: High Definition Television or HDTV is a generic term referring to a new generation of video receivers and production equipment that will provide superior picture clarity as compared to that currently available. HDTV

technology yields video images comparable in quality to images produced using 35 millimeter film and, as such, offers substantial potential for improved efficiency and flexibility in the production and distribution of all types of programming.

The potential for video images to serve as a substitute for film has long been recognized, but until recently, video technology had not been considered an acceptable substitute production medium. Laboratories throughout the world have sought to address this issue, but it was the laboratories of NHK, the Japanese Broadcasting Corporation, that first successfully developed a system. The NHK system uses 1125 lines per frame, 60 fields per second, 2:1 interlaced scanning and a 16 to 9 aspect ratio.

The current television technology used in the United States, known as NTSC, was originally developed by the National Television System Committee for monochrome (black-and-white) transmission around 1940, and has been subsequently enhanced to include color and stereo sound.

In May 1986 the Plenary Assembly of the International Radio Consultative Committee (CCIR)—the organ of the International Telecommunication Union responsible for recommending voluntary technical standards for radiocommunications—met in Dubrovnik, Yugoslavia. Among the things considered at the Plenary Assembly was a recommendation by the Government of Japan to adopt the NHK production standard for HDTV as a worldwide standard.

The U.S. Government supported the adoption of the NHK system as the worldwide HDTV production standard at the Dubrovnik Plenary. A primary reason for taking this position was the desire of the United States to have a single, worldwide production standard. It was hoped that a worldwide HDTV standard, like the internationally accepted 35 millimeter standard for film production, could be established so that there would be compatibility of systems between nations which would ease the transfer of HDTV programming. The Plenary Assembly did not reach agreement on the recommendation, however, and instead agreed to study the matter further and to reconsider the issue at its next plenary session, scheduled for 1990.

Since the Dubrovnik Plenary, it has become evident that a single, worldwide HDTV production standard will not be agreed upon. First, the governments of Western Europe have rejected the NHK system and have sponsored the development of a different system for Europe through the EUREKA 95 Project. While still in the development stage, this system has been demonstrated and appears viable.

Second, other production standards have been proposed recently, including one developed in the United States. At the time that the United States agreed to support the NHK standard, it was the only HDTV production standard that had been proposed.

Finally, questions have been raised about the technical compatibility of HDTV production standards with the electric power supply available in various countries. This concern is based in the cycle rates of the production equipment and the power supply in the locales where production is undertaken. Apparently, when 60 cycle production equipment is used to film with lighting running off a 50 cycle power source, it produces a strobing effect on the video image being recorded. The same should also hold true for any 50 cycle camera shooting in a 60 cycle electric power environment. Attempts can be made to address this problem by rewiring a particular locale to provide a power source with a compatible cycle rate and, conceivably, there could be a software or hardware solution. Until clarified, however, it would seem that this might present an unacceptable limit on the universal acceptance of any one system as a worldwide production standard.

In light of the economic significance of this issue and the upcoming CCIR Plenary meeting, scheduled for May 1990, NTIA seeks information on the significance of these changes and what the U.S. Government position should be on the adoption of an HDTV production standard or standards. Specifically, NTIA seeks comments on the implications of multiple video production standards, the merits of other HDTV production standards under development, whether the U.S. Government should continue to support a production standard or standards, the criteria that should be used in deciding to support a production standard, the relationship between the production standard and the transmission standard for HDTV, and the relationship between production standards and the equipment producers attempting to serve end user markets.

NTIA seeks public comment on these questions and any other information which would assist the Department of Commerce in assessing the United States Government position on this issue for the 1990 meeting of the CCIR. Comments should be submitted to: Office of the Chief Counsel, National Telecommunications and Information Administration, Room H4717, 14th and Constitution Avenue, NW., Washington, DC 20230, by March 1, 1989.

Date: December 16, 1988.

Alfred C. Sikes,

Assistant Secretary for Communications and Information.

BILLING CODE 3510-60-M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Announcement of Import Limits for Certain Cotton, Wool, Man-Made Fiber, Silk Blend and Other Vegetable Fiber Textiles and Textile Products Produced or Manufactured in Macau

December 16, 1988.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs establishing limits for the new agreement year.

EFFECTIVE DATE: January 1, 1989.

Authority: Executive Order 11651 of March 3, 1972, as amended; section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854).

FOR FURTHER INFORMATION CONTACT: Diana Solkoff, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 377-4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port or call (202) 343-6495. For information on embargoes and quota re-openings, call (202) 377-3715.

SUPPLEMENTARY INFORMATION: A copy of the current bilateral textile agreement between the Governments of the United States and Macau is available from the Textiles Division, Bureau of Economic and Business Affairs, U.S. Department of State, (202) 647-1998.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States Annotated (see **Federal Register** notice 53 FR 44937, published on November 7, 1988).

The letter to the Commissioner of Customs and the actions taken pursuant to it are not designed to implement all of the provisons of the bilateral agreement, but are designed to assist only in the

implementation of certain of its provisions.

James H. Babb,

Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

December 16, 1988.

Commissioner of Customs
Department of the Treasury, Washington, D.C. 20229

Dear Mr. Commissioner: Under the terms of Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854), and the Arrangement Regarding International Trade in Textile done at Geneva on December 20, 1973, as further amended on July 31, 1986; pursuant to the Bilateral Cotton, Wool, Man-Made Fiber, Silk Blend and Other Vegetable Fiber Textile Agreement, effectd by exchange of notes dated December 28, 1983 and January 9, 1984, as amended and extended, between the Governments of the United States and Macau; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended, you are directed to prohibit, effective on January 1, 1989, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton, wool, man-made fiber, silk blend and other vegetable fiber textiles and textile products in the following categories, produced or manufactured in Macau and exported during the twelve-month period beginning on January 1, 1989 and extending through December 31, 1989, in excess of the following restraint limits:

Category	Twelve-month restraint limit
200–239, 300–369, 400–469, 600–670 and 800–899, as a group.	76,510,312 square meters equivalent.
Group I	
200–239, 300–369, 600–670 and 800–899, as a group.	73,673,165 square meters equivalent.
Sublevels within Group I	
237	61,000 dozen.
331/831	300,000 dozen pairs.
333/334/335/833/834/835.	155,789 dozen of which not more than 82,063 dozen shall be in Categories 333/335/833/835.
336/836	23,000 dozen.
338	200,553 dozen.
339	840,048 dozen.
340	189,824 dozen.
341	122,433 dozen.
342	39,326 dozen.
345	33,867 dozen.
347/348/847	474,705 dozen.
350/850	18,000 dozen.
351/851	27,000 dozen.
359/859	137,892 kilograms.
631	200,000 dozen pairs.
633/634/635	329,897 dozen.
636	15,453 dozen.
638/639/838	1,027,305 dozen.
640	73,042 dozen.
641/840	125,540 dozen.
642/842	73,140 dozen.
645/646	171,217 dozen.
647/648	345,399 dozen.
649	145,833 dozen.
652,852	160,000 dozen.
659	89,762 kilograms.
670	340,194 kilograms.
845/846	202,005 dozen.
Group II	
400–469, as a group	1,377,743 square meters equivalent.
Sublevels within Group II	
434	1,852 dozen.
442	5,556 dozen.
445/446	74,276 dozen.

Imports charged to these category limits, except categories 439 and 839, for the period January 1, 1988 through December 31, 1988 shall be charged against those levels of restraint to the extent of any unfilled balances. In the event the limits established for that period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this directive.

The limits set forth above are subject to adjustment in the future according to the provisions of the current bilateral agreement between the Governments of the United States and Macau.

The conversion factors are listed below:

Category	Conversion factor
333/334/335/833/834/835	34.2
333/335,833/835	34.2
359/859	8.5
633/634/635	34.5
638/639,838	12.9
641/840	12.1
652/852	13.4

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The Committee for the Implementaion of Textile Agreements has determined that these actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 533(a)(1).

Sincerely,

James H. Babb,

Chairman, Committee for the Implementation of Textile Agreements.

[FR Doc. 88–29275 Filed 12–20–88; 8:45 am]

BILLING CODE 3510-DR-M

Announcement of an Import Limit for Certain Wool Textile Products Produced or Manufactured in Uruguay

December 16, 1988.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs establishing a limit.

EFFECTIVE DATE: February 1, 1989.

Authority: Executive Order 11651 of March 3, 1972, as amended; section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854).

FOR FURTHER INFORMATION CONTACT: Naomi Freeman, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 377–4212. For information on the quota status of this limit, refer to the Quota Status Reports posted on the bulletin boards of each Customs port. For information on embargoes and quota re-openings, call (202) 377–3715.

SUPPLEMENTARY INFORMATION: Under the terms of a Memorandum of Understanding dated October 17, 1988, the Governments of the United States and the Republic of Uruguay agreed to establish a limit for wool textile products is Category 410. A formal exchange of diplomatic notes will follow.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States Annotated (see **Federal Register** notice 53 FR 44937, published on November 7, 1988).

James H. Babb,

Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

December 16, 1988.

Commissioner of Customs,
Department of the Treasury, Washington, D.C. 20229

Dear Mr. Commissioner: Under the terms of Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854) and the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as further amended on July 31, 1986; pursuant to the Memorandum of Understanding of October 17, 1988 between the Governments of the United States and the Republic of Uruguay; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended, you are directed to prohibit, effective on February 1, 1989, entry into the United States for consumption and withdrawal from warehouse for consumption of wool apparel products in Category 410, produced or manufactured in Uruguay and exported during the seventeen-month period which begins on February 1, 1989 and extends through June 30, 1990, in excess of the following limit:

Category	Seventeen-month limit
410	3,731,218 square meters of which not more than 2,132,125 square meters shall be in Category 410–A (carded) [1] and not more than 3,435,090 square meters shall be in Category 410–B (combed) [2].

[1] In Category 410–A, only tariff numbers 5111.11.10.00, 5111.11.60.30, 5111.11.60.60, 5111.19.20.00, 5111.19.60.20, 5111.19.60.40, 5111.19.60.60, 5111.19.60 80, 5111.20.60.00, 5111.30.60.00, 5111.90.30.00, 5111.90.60.00, 5212.11.10.10, 5212.12.10.10, 5212.13.10.10, 5212.14.10.10, 5212.15.10.10, 5212.21.10.10, 5212.22.10.10, 5212.23.10.10, 5212.24.10.10, 5212.25.10.10, 5311.00.20.00, 5407.91.05.10, 5407.92.05.10, 5407.93.05.10, 5407.94.05.10, 5408.31.05.10, 5408.32.05.10, 5408.33.05.10, 5408.34.05.10, 5515.13.05.10, 5515.22.05.10, 5515.92.05.10, 5516.31 05.10, 5516.32.05.10, 5516.33.05.10, 5516.34.05.10 and 6301.20.00.20.

[2] In Category 410–B, only tariff numbers 5007.10.60.30, 5007.90.60.30, 5112.11.00.30, 5112.11.00.60, 5112.19 60.10, 5112.19 60.20, 5112.19.60.30, 5112.19.60 40, 5112.19.60.50, 5112.19.60.60, 5112.20.00.00, 5112.30.00.00, 5112.90 80.00, 5112.90.60.10, 5112.90.60 90, 5212.11.10.20, 5212.12.10.20, 5212.13.10.20, 5212.14.10.20, 5212.15.10.20, 5212.21.10.20, 5212.22 10.20, 5212.23.10.20, 5212.24.10.20, 5212.25.10.20, 5309.21 20.00, 5309.29.20.00, 5407.91.05.20, 5407 92.05.20, 5407.93.05.20, 5407.94 05.20, 5408 31.05.20, 5408.32.05.20, 5408.33.05.20, 5408.34.05.20, 5515.13.05.20, 5515.22.05.20, 5515.92.05.20, 5516.31.05.20, 5516.32.05.20, 5516.33.05.20 and 5516.34.05.20

Imports charged to the category limit for the period February 1, 1988 through January 31, 1989 shall be charged against the level of restraint to the extent of any unfilled balance. In the event the limit established for that period has been exhausted by previous entries, such goods shall be subject to the level set forth in this directive.

The level set forth above is subject to adjustment in the future according to the provisions of the current bilateral agreement between the Governments of the United States and the Republic of Uruguay.

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

James H. Babb,

Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510–DR–M

Announcement of an Import Limit for Certain Wool Textile Products Produced or Manufactured in Uruguay

December 16, 1988.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner on Customs establishing a limit.

EFFECTIVE DATE: January 1, 1989.

AUTHORITY: Executive Order 11651 of March 3, 1972, as amended; section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854)

FOR FURTHER INFORMATION CONTACT: Naomi Freeman, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 377–4212. For information on the quota status of this limit, refer to the Quota Status Reports posted on the bulletin boards of each Customs port. For information on embargoes and quota re-openings, call (202) 3715.

SUPPLEMENTARY INFORMATION: Under the terms of a Memorandum of Understanding dated October 17, 1988, the Governments of the United States and the Republic of Uruguay agreed to establish a limit for cotton textile products in Category 334. A formal exchange of diplomatic notes will follow.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States Annotated (see **Federal Register** notice 53 FR 44937, published on November 7, 1988).

James H. Babb,

Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

December 16, 1988.

Commissioner of Customs,
Department of the Treasury,
Washington, DC 20229

Dear Mr. Commissioner: Under the terms of Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854); pursuant to the Memorandum of Understanding of October 17, 1988 between the Governments of the United States and the Republic of Uruguay; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended, you are directed to prohibit, effective on January 1, 1989, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton apparel products in Category 334, produced or manufactured in Uruguay and exported during the six-month period which begins on January 1, 1989 and extends through June 30, 1989, in excess of 41,250 dozen.

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The Committee for the Implementation of Textile Agreements has determined that this action falls within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

James H. Babb,

Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510–DR–M

Announcement of Import Limits for Certain Cotton, Wool and Man-Made Fiber Textile Products Produced or Manufactured in the Socialist Federal Republic of Yugoslavia

December 16, 1988.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs establishing limits for the new agreement year.

EFFECTIVE DATE: January 1, 1989.

Authority: Executive Order 11651 of March 3, 1972, as amended; section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854).

FOR FURTHER INFORMATION CONTACT: Jerome Turtola, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 377–4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port. For information on embargoes and quota re-openings, call (202) 377–3715.

SUPPLEMENTARY INFORMATION: A copy of the current bilateral textile agreement between the Governments of the United States and the Socialist Federal Republic of Yugoslavia is available from the Textiles Division, Bureau of Economic and Business Affairs, U.S. Department of State, (202) 647–1998.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States Annotated (see **Federal Register** notice 53 FR 44937, published on November 7, 1988).

The letter to the Commissioner of Customs and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist

only in the implementation of certain of its provisions.

James H. Babb,

Chairman, Committee for the Implementation of Textile Agreements.

Committee For the Implementation of Textile Agreements

December 16, 1988.

Commissioner of Customs,
Department of the Treasury, Washington, DC 20229

Dear Mr. Commissioner: Under the terms of Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854), and the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as further amended on July 31, 1986; pursuant to the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of October 26 and 27, 1978, as amended and extended, between the Governments of the United States and the Socialist Federal Republic of Yugoslavia; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended, you are directed to prohibit, effective on January 1, 1989, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton, wool and man-made fiber textile products in the following categories, produced or manufactured in Yugoslavia and exported during the twelve-month period beginning on January 1, 1989, and extending through December 31, 1989, in excess of the following limits:

Category	12-Mo. restraint limit
340/640	404,954 dozen.
341/641	264,046 dozen.
433	7,978 dozen.
434	8,846 dozen.
435	39,023 dozen.
442	10,967 dozen.
443/643	305,112 numbers of which not more than 104,052 numbers shall be in Category 443.
444	92,064 numbers.
447/448	48,908 dozen of which not more than 29,137 dozen shall be in Category 447 and not more than 29,137 dozen shall be in Category 448.
604-A [1]	305,794 kilograms.
645/646	123,596 dozen.
666	968,347 kilograms.

[1] In Category 604-A, only tariff number 5509.32.00.00.

Imports charged to these category limits for the period January 1, 1988, through December 31, 1988, shall be charged against the levels of restraint to the extent of any unfilled balances. In the event the limits established for that period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this directive.

The levels set forth above are subject to adjustment in the future according to provisions of the bilateral agreement of October 26 and 27, 1978, as amended and extended, between the Governments of the United States and the Socialist Federal Republic of Yugoslavia.

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

James H. Babb,

Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-DR-M

DEPARTMENT OF DEFENSE

Office of the Secretary

DOD Advisory Group on Electron Devices; Advisory Committee Meeting

SUMMARY: The DoD Advisory Group on Electron Devices (AGED) announces a closed session meeting.

DATE: The meeting will be held at 0900, Thursday, 5 January 1989.

ADDRESS: The meeting will be held at Palisades Institute for Research Services, Inc., 2011 Crystal Drive, Suite 307, Arlington, VA 22202.

FOR FURTHER INFORMATION CONTACT: David Slater, AGED Secretariat, 201 Varick Street, New York, 10014.

SUPPLEMENTARY INFORMATION: The mission of the Advisory Group is to provide the Under Secretary of Defense for Acquisition, the Director, Defense Advanced Research Projects Agency and the Military Departments with technical advice on the conduct of economical and effective research and development programs in the area of electron devices.

The AGED meeting will be limited to review of research and development programs which the Military Departments propose to initiate with industry, universities or in their laboratories. The agenda for this meeting will include programs on Radiation Hardened Devices, Microwave Tubes, Displays and Lasers. The review will include details of classified defense programs throughout.

In accordance with Section 10(d) of Pub. L. No. 92-463, as amended, (5 U.S.C. App. II 10(d) (1982)), it has been determined that this Advisory Group meeting concerns matters listed in 5 U.S.C. 552b(c)(1) (1982), and that accordingly, this meeting will be closed to the public.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

Defense Science Board Task Force on Low Observable Technology; Advisory Committee Meeting

ACTION: Notice of advisory committee meetings.

SUMMARY: The Defense Science Board Task Force on Low Observable Technology will meet in closed session on January 12-13, 1989 at the Pentagon, Arlington, Virginia.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition on scientific and technical matters as they affect the perceived needs of the Department of Defense. At this meeting the Task Force will evaluate low observable technology.

In accordance with section 10(d) of the Federal Advisory Committee Act, Pub. L. No. 92-463, as amended (5 U.S.C. App. II, (1982)), it has been determined that this DSB Task Force meeting, concerns matters listed in 5 U.S.C. 552b(c)(1) (1982), and that accordingly this meeting will be closed to the public.

Linda M. Bynum,

Alternative OSD Federal Register Liaison Officer, Department of Defense.

FR Doc. 88–28603 (53 FR 50072) December 13, 1988

The Air Force submitted new system reports, as required by 5 U.S.C. 552a(0) of the Privacy Act on December 2, 1988, pursuant to paragraph 4b of Appendix to OMB Circular No. A–130, "Federal Agency Responsibilities for Maintaining Records About Individuals," dated December 12, 1985.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

December 15, 1988.

F060 AF B

System name: F060 AF B—Contractor Flight Operations.

System location: All Army, Navy, Air Force and Defense Logistics Agency activities who approve contractor aircraft flight and ground operations procedures or utilize contractor personnel who operate aircraft for the government.

Categories of individuals covered by the system: All contractor personnel who operate aircraft for the Army, Navy, Air Force, or Defense Logistic Agency for which the government assumes some risk of loss or damage. It covers both flight crewmember and noncrewmember personnel designated by a contractor to conduct flights, perform functions while the Aircraft is in flight, or perform ground operations in support of such flights.

Categories of records in the system: Name; SSN; home address and telephone number; DOB security clearance data; education; military service data; flight qualification, proficiency, training, and experience records; standardization and evaluation data; safety and mishap records; medical and physiological data; and, similar data.

Authority for maintaining the system: 10 U.S.C. 8013, 44 U.S.C. 3101, and joint regulation AFR 55–22/AR 95–20/NAVAIRINST 3710. 1C/DLAR 8210.1 and Executive Order 9397.

Purpose(s): Used to monitor and manage individual contractor flight and ground personnel records.

Routine uses of records maintained in the system, including categories of users and the purpose of such uses: Records from this system may be used for any of the blanket routine uses published by the Air Force.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the systems:

Storage: Maintained in file folders, notebooks, computers and computer output products.

Retrievability: Filed by name or SSN.

Safeguards: Records are accessed by custodian of the records or by persons responsible for servicing the record system in performance of their actual duties who are properly screened and cleared for need to know. Records are stored in locked cabinets, and rooms are controlled by personnel screening and computer software.

Retention and disposal: Records are maintained in the system until contract termination, at which time they will be destroyed if no longer needed.

SYSTEM MANAGER(S) AND ADDRESS:

Air Force: HQ AFSC/TEO, Andrews AFB DC 20334–5000. Army: DALO–AV, Washington, DC 20330–0505. Navy: NAVAIRSYSCOM (Air 119), Washington, DC 20361. DLA: HQ DLA–DQSO–S, 805 Walker Street, Marietta GA 30060–2789.

NOTIFICATION PROCEDURE:

Request from individuals should be addressed to the system manager or the system location where the flight certification is recorded. Individuals will be asked to provide name, social security number, or both, to facilitate access.

RECORD ACCESS PROCEDURES:

Written requests should be notarized and addressed to the system manager or

to the system location where the flight certification is recorded. For personal visists, the individual may be asked to show a valid identification card, a driver's license, or some similar proof of identity.

CONTESTING RECORDS PROCEDURES:

The rules for access to records and for contesting and appealing initial determinations by the individual concerned may be obtained from the system manager and are published in Air Force Regulation 12–35 (32 CFR 806b).

RECORD SOURCE CATEGORIES:

Information is provided by the individual or from training, evaluation, and examination records.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

F110 JA E

SYSTEM NAME:

F110 JA E—Air Force Reserve Judge Advocate Personal Data

SYSTEM LOCATION:

Headquarters United States Air Force, Office of the Judge Advocate General, Washington, DC 20330; at the office of the staff judge advocate at major commands and subordinate units, down to and including Air Force installations.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Air Force Reserve Judge Advocates (JAGs).

CATEGORIES OF RECORDS IN THE SYSTEM:

Personal and professional background information pertaining to individual JAGs.

AUTHORITY FOR MAINTAINING THE SYSTEM:

10 USC 8013, Secretary of the Air Force.

PURPOSE(S):

To verify training completion dates and personal and professional data used to prepare the JAG's Officer Effectiveness Report.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

Records from this system of records may be disclosed for any of the blanket routine uses published by the Air Force.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEMS:

STORAGE:

Maintained in file folders.

RETRIEVABILITY:

Filed by name.

SAFEGUARDS:

Records are accessed by the custodian of the record system and by persons responsible for servicing the record system in performance of their official duties.

RETENTION AND DISPOSAL:

Retained in office files until reassignment or separation, then destroyed by tearing into pieces, shredding, pulping, macerating, or burning.

SYSTEM MANAGER(S) AND ADDRESS:

The Judge Advocate General, Headquarters United States Air Force, Washington, D.C. 20330–5120.

NOTIFICATION PROCEDURE:

Request from individuals should be addressed to the system manager.

RECORD ACCESS PROCEDURES:

Individuals can obtain assistance in gaining access from the System Manager.

CONTESTING RECORDS PROCEDURES:

The Air Force rules for access to records and for contesting and appealing initial determinations by the individual concerned may be obtained from the System Manager and are located in Air Force Regulation 12–35 (32 CFR 806b).

RECORD SOURCE CATEGORIES:

Information supplied by the individual.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

BILLING CODE 3810–01–M

DEPARTMENT OF ENERGY

[Docket Nos. CP89–373–000, et al.]

Federal Energy Regulatory Commission

Questar Pipeline Co., et al.; Natural Gas Certificate Filings

Take notice that the following filings have been made with the Commission:

1. Questar Pipeline Company

December 14, 1988.

[Docket No. CP89–373–000]

Take notice that on December 12, 1988, Questar Pipeline Company (Questar Pipeline), 79 South State Street, Salt Lake City, Utah 84111, filed in Docket No. CP89–373–000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to provide an interruptible transportation service for Ampolex (Texas) Inc. (Ampolex), under the blanket certificate issued in Docket No. CP88–650–000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

Questar Pipeline states that pursuant to a transportation agreement dated November 17, 1988, under its Rate Schedule T–2, it proposes to transport up to 600 MMBtu per day equivalent of natural gas for Ampolex from the Dove Creek Plant Outlet to an interconnection with Northwest Pipeline Corporation, both delivery points being located in Dolores County, Colorado.

Questar Pipeline further states that the average daily and annual quantities would be equivalent to 600 MMBtu and 219,000 MMBtu, respectively. Service commenced December 4, 1988, under the provisions of § 284.223(a) as reported in Docket No. ST89–1223 (filed December 12, 1988).

Comment date: January 30, 1988, in accordance with Standard Paragraph G at the end of the notice.

2. Tennessee Gas Pipeline Company

[Docket No. CP89–390–000]

December 14, 1988.

Take notice that on December 13, 1988, Tennessee Gas Pipeline Company, (Tennessee), P.O. Box 2511, Houston, Texas 77252, filed in Docket No. CP89–390–000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to provide a transportation service for PSI, Inc. (PSI), a marketer, under the blanket certificate issued in Docket No. CP87–115–000 on June 18, 1987, pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

Tennessee states that pursuant to a transportation agreement dated October 24, 1988, under its Rate Schedule IT, it proposes to transport up to 50,000 dekatherms (dt) per day equivalent of natural gas for PSI from points of receipt listed in Exhibit "A" of the agreement to delivery points also listed in Exhibit "A". Tennessee states that it would receive the gas at an existing point on its system located in the State of Louisiana, and that it would transport and redeliver the gas to various delivery points off Tennessee's system interconnecting with National Fuel Gas

Supply, located in the states of New York and Pennsylvania. Tennessee states that deliveries would also be made to storage facilities located at Hamburg, Erie County, New York, and at Hebron, Potter County, Pennsylvania.

Tennessee advises that service under § 284.223(a) commenced November 1, 1988, as reported in Docket No. ST89-1079 (filed December 1, 1988). Tennessee further advises that it would transport 50,000 dt on an average day and 18,250,000 dt annually.

Comment date: January 30, 1988, in accordance with Standard Paragraph G at the end of this notice.

3. Natural Gas Pipeline Company of America

[Docket No. CP89-384-000]

December 14, 1988.

Take notice that on December 12, 1988, Natural Gas Pipeline Company of America (Natural), 701 East 22nd Street, Lombard, Illinois 60148, filed in Docket No. CP89-384-000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to provide an interruptible transportation service for Cabot Energy Marketing Company (Cabot), a marketer, under the blanket certificate issued in Docket No. CP86-582-000, pursuant to section 7(c) of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

Natural states that pursuant to a transportation agreement dated July 19, 1988, under its Rate Schedule ITS, it proposes to transport for Cabot up to 50,000 MMBtu per day equivalent of natural gas (plus any additional volumes accepted pursuant to the overrun provisions of Natural's Rate Schedule ITS). Natural states that it would receive the gas at various existing points in Texas and New Mexico and that it would transport and redeliver the gas at a Cabot Pipeline Corporation interconnection in Lea County, New Mexico. Natural advises that the gas ultimately would be consumed in the states of Texas, New Mexico, and California.

Natural advises that service under § 284.223(a) commenced October 21, 1988, as reported in Docket No. ST89-1239 (filed on December 12, 1988). Natural further advises that it would transport 5,000 MMBtu on an average day and 1,825,000 MMBtu annually.

Comment date: January 30, 1989, in accordance with Standard Paragraph G at the end of this notice.

4. Texas Gas Transmission Corporation

[Docket No. CP89-383-000]

December 15, 1988.

Take notice that on December 12, 1988, Texas Gas Transmission Corporation (Texas Gas), 3800 Frederica Street, Owensboro, Kentucky 42301, filed in Docket No. CP89-383-000 a request pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205 and 284.223) for authorization to provide an interruptible transportation service for Total Minatome Corporation (Total Minatome) under Texas Gas' blanket certificate issued in Docket No. CP88-686-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

Texas Gas proposes, pursuant to a gas transportation agreement dated October 10, 1988, to transport on a peak day up to 50,000 MMBtu per day equivalent of natural gas for Total Minatome, with an estimated average daily quantity of 10,000 MMBtu equivalent of natural gas. Texas Gas states that, on an annual basis, it could transport up to 18,250,000 MMBtu equivalent of natural gas. It is stated that the ultimate consumer of the gas is Providence Gas Company. It is stated further that transportation service for Total Minatome commenced October 19, 1988, under the 120-day automatic provisions of § 284.223(a) of the Commission's Regulations, as reported in Docket No. ST89-751. Texas Gas states that the transportation service is being rendered through the use of Texas Gas' existing facilities.

Comment date: January 30, 1989, in accordance with Standard Paragraph G at the end of this notice.

5. Tennessee Gas Pipeline Company

[Docket No. CP89-355-000]

December 15, 1988.

Take notice that on December 8, 1988, Tennessee Gas Pipeline Company (Applicant), P.O. Box 2511, Houston, Texas 77252, filed in Docket No. CP89-355-000 a request pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205 and 284.223) for authorization to provide a transportation service for Western Massachusetts Electric Company (Western Mass), an end-user, under Applicant's blanket certificate issued in Docket No. CP87-115-000 on June 18, 1987, pursuant to section 7 of the Natural Gas Act, all as more fully set out in the request on file with the Commission and open to public inspection.

Applicant proposes, pursuant to a transportation agreement dated October 20, 1988, to transport natural gas for Western Mass from points of receipt located in offshore Louisiana and the States of Louisiana, Texas, New York and New Jersey. Applicant states that the various locations of the ultimate delivery points for the gas are the States of Connecticut, Massachusetts, New Hampshire, New Jersey and Pennsylvania. The Applicant states further that the maximum daily quantity is 250,000 dekatherms (dt) equivalent of natural gas and the annual quantity is 30,000,000 dt equivalent of natural gas. Applicant states that service under § 284.223(a) commenced October 25, 1988, as reported in Docket No. ST89-810 (filed November 18, 1988).

Comment date: January 30, 1989, in accordance with Standard Paragraph G at the end of this notice.

6. Trunkline Gas Company

[Docket No. CP89-376-000]

December 15, 1988.

Take notice that on December 12, 1988, Trunkline Gas Company (Trunkline), P.O. Box 1642, Houston, Texas 77251-1642, filed in Docket No. CP89-376-000 a request pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act for authorization to transport natural gas under its blanket certificate issued in Docket No. CP86-586-000 pursuant to section 7 of the Natural Gas Act, all as more fully set out in the request on file with the Commission and open to public inspection.

Trunkline proposes to transport natural gas for Conoco, Inc. (Conoco), a shipper and marketer of natural gas and Agent for E.I. du Pont de Nemours & Company, Inc. (du Pont) pursuant to a transportation agreement dated October 12, 1988. Trunkline explains that service commenced November 1, 1988, under § 284.223(a) of the Commission's Regulations, as reported in Docket No. ST89-0924. Trunkline further explains that the peak day quantity would be 1,500 dekatherms, the average daily quantity would be 500 dekatherms, and that the annual quantity would be 182,500 dekatherms. Trunkline explains that it would receive natural gas for Conoco's account at various existing points of receipt on its system. Trunkline states that it would transport and redeliver the natural gas to Northern Indiana Public Service Company in Marshall, Pulaski, Elkhart, and Jasper Counties, Indiana.

Comment date: January 30, 1989, in accordance with Standard Paragraph G at the end of this notice.

7. Northern Natural Gas Company, Division of Enron Corp.

[Docket No. CP89-349-000]

December 15, 1988.

Take notice that on December 7, 1988, Northern Natural Gas Company, Division of Enron Corp., (Northern), 1400 Smith Street, P.O. Box 1188, Houston, Texas 77251-1188, filed in Docket No. CP89-349-000 a request pursuant to §§ 157.205 and 284.223 of the Commission's Regulations to transport natural gas on behalf of Tejas Power Corporation, a marketer of natural gas, under Northern's blanket certificate issued in Docket No. CP86-435-000, all as more fully set forth in the application on file with the Commission and open to public inspection.

Pursuant to a Transportation Service Agreement dated October 11, 1988, Northern proposes to transport up to 20,000 MMBtu per day for Tejas Power Corporation, through existing facilities. Construction of facilities will not be required to provide the proposed service.

Nothern states that service commenced on October 11, 1988, under the 120-day automatic authorization provisions of § 284.223(a), as reported in Docket No. ST89-372.

Comment date: January 30, 1989, in accordance with Standard Paragraph G at the end of this notice.

8. Trunkline Gas Company

[Docket No. CP89-375-000]

December 15, 1988.

Take notice that on December 12, 1988, Trunkline Gas Company (Trunkline), P.O. Box 1642, Houston, Texas 77251-1642 filed in Docket No. CP89-375-000 a request pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act for authorization to transport natural gas under its blanket certificate issued in Docket No. CP86-586-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

Trunkline proposes to transport natural gas for American Central Gas Marketing Company (American Central), a marketer, pursuant to a transportation agreement dated September 14, 1988. Trunkline explains that service commenced November 1, 1988, under § 284.223(a) of the Commission's Regulations, as reported in Docket No. ST89-925. Trunkline further explains that the peak day quantity would be 150,000 dekatherms, the average daily quantity would be 20,000 dekatherms, and that the annual quantity would be 7,300,000 dekatherms. Trunkline explains that it would receive natural gas for American Central's account at points of receipt in Illinois, Tennesseee, Louisiana, Texas, and offshore Louisiana. Trunkline states that it would transport and redeliver the natural gas to Consumers Power Company in Elkhart, Indiana.

Comment date: January 30, 1989, in accordance with Standard Paragraph G at the end of this notice.

5. Texas Gas Transmission Corporation

[Docket No. CP89-379-000]

December 15, 1988.

Take notice that on December 12, 1988, Texas Gas Transmission Corporation (Texas Gas), 3800 Frederica Street, Owensboro, Kentucky 42301, filed in Docket No. CP89-379-000 a request pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act for authorization to provide an interruptible transportation service for Total Minatome Corporation (Total Minatome), under the blanket certificate issued in Docket No. CP88-686-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

Texas Gas requests authorization to transport on a peak day up to 200,000 MMBtu of natural gas for Total Minatome, with an estimated average daily quantity of 40,000 MMBtu. On an annual basis, Texas Gas could transport up to 73,000,000 MMBtu. The ultimate consumer of the gas has been identified by Total Minatome as Wisconsin Natural Gas Company.

Transportation service for Total Minatome commenced October 19, 1988, under the 120-day automatic provisions of § 284.223(a) of the Commission's Regulations, as reported in Docket No. ST89-743.

Comment date: January 30, 1989, in accordance with Standard Paragraph G at the end of this notice.

10. Trunkline Gas Company

[Docket No. CP89-374-000]

December 15, 1988.

Take notice that on December 12, 1988, Trunkline Gas Company (Trunkline), P.O. Box 1642, Houston, Texas, 77251-1642, filed in Docket No. CP89-374-000 a request pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act [18 CFR 157.205 and 284.223) for authorization to transport natural gas for Transtate Gas Service Company (Transtate), a marketer, pursuant to Trunkline's blanket certificate issued in Docket No. CP86-586-000 and section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Specifically, Trunkline requests authority to transport up to 30,000 dt equivalent of natural gas per day on an interruptible basis on behalf of Transtate pursuant to a transportation agreement dated August 25, 1988, between Trunkline and Transtate. Trunkline states that the transportation agreement provides for Trunkline to receive gas from various existing points of receipt on its system in Illinois, Offshore Louisiana, onshore Louisiana, and Texas and to redeliver the gas less fuel and unaccounted for line loss, to Northern Indiana Public Service Company in Marshall, Pulaski, Elkhart, and Jasper Counties in Indiana.

Trunkline indicates it would provide the service for a primary term of one month from the date of initial transportation and continue to provide the service on a month-to-month basis until terminated by either party upon at least 30 days prior notice to the other. Trunkline states that it would charge the rates and abide by the terms and conditions of its Rate Schedule PT.

It is indicated that the estimated maximum daily volume, average volume, and annual volumes would be 30,000 dt equivalent of natural gas, 30,000 dt equivalent of natural gas, 10,950,000 dt equivalent of natural gas, respectively. Trunkline states it commenced a 120-day transportation service for Transtate on November 1, 1988, as reported in Docket No. ST89-940. It is also indicated that Trunkline would use existing facilities to implement the service.

Comment date: January 30, 1989, in accordance with Standard Paragraph G at the end of this notice.

11. Tennessee Gas Pipeline Company

[Docket No. CP89-391-000]

December 15, 1988.

Take notice that on December 13, 1988, Tennessee Gas Pipeline Company (Tennessee) P.O. Box 2511, Houston, Texas 77252 filed in Docket No. CP89-391-000 a request pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act for authorization to transport natural gas under its blanket certificate issued in Docket No. CP87-115-000 pursuant to section 7 of the Natural Gas Act for

Reliance Gas Marketing Company (Reliance), all as more fully set forth in the request on file with the Commission and open to public inspection.

Tennessee proposes to transport natural gas on an interruptible basis for Reliance, a marketer. Tennessee explains that service commenced November 1, 1988, under § 284.223(a) of the Commission's Regulations, as reported in Docket No. ST89–1070. Tennessee further explains that the peak day quantity would be 50,000 dekatherms, the average daily quantity would be 50,000 dekatherms, and the annual quantity would be 18,250,000 dekatherms. Tennessee explains that it would receive natural gas for Reliance's account at various points in offshore Louisiana and the states of Louisiana, Alabama, Mississippi, and Texas. Tennessee further explains that, it would redeliver natural gas for Reliance's account to CNG Transmission Company at: (1) Broadrun-Cornwell, Kanawha County, West Virginia, (2) Harrison Potter County, Pennsylvania, and (3) Ellisburg, Potter County, Pennsylvania, and also to Delta Natural Gas Company in Madison County, Kentucky. Tennessee states that the ultimate delivery points of the gas are located in Kentucky, West Virginia, and Pennsylvania.

Comment date: January 30, 1989, in accordance with Standard Paragraph G at the end of this notice.

12. Williams Natural Gas Company

[Docket No. CP89–388–000]

December 15, 1988.

Take notice that on December 12, 1988, Williams Natural Gas Company (Williams) P.O. Box 3288, Tulsa, Oklahoma 74101, filed in Docket No. CP89–388–000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas on behalf of Kansas Power & Light Company (KPL), under its blanket authorization issued in Docket No. CP89–388–000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Williams would perform the proposed interruptible transportation service for KPL, a local distribution company, pursuant to an FTS transportation service agreement dated November 1, 1988 (Reference No. TR–A0022). The term of the transportation agreement is from the date of execution and shall continue in full force and effect until January 1, 1993 and shall be considered as renewed and extended beyond such original term for additional periods of one year each unless either party gives the other written notice at least ninety days prior to the expiration date of the original or any succeeding or extended term of its intention to terminate the service agreement on that date. Williams proposes to transport on a peak day up to 16,490 MMBtu per day; on an average day up to 16,490 MMBtu; and on an annual basis 6,018,850 MMBtu of natural gas for KPL. It is stated that KPL would pay Williams for all service rendered under the transportation agreement in accordance with Williams' Rate Schedule FTS, and/or any other applicable or superseding rate schedule(s) as filed with the FERC. Williams would receive the volumes from various receipt points in Kansas, Oklahoma, Texas and Wyoming for transportation to various delivery points on Williams' pipeline system located in Kansas.

It is explained that the proposed service is currently being performed pursuant to the 120-day self implementing provision of § 284.223(a)(1) of the Commission's Regulations. Williams commenced such self-implementing service on November 1, 1988, as reported in Docket No. ST89–1102–000.

Comment date: January 30, 1989, in accordance with Standard Paragraph G at the end of this notice.

13. Texas Gas Transmission Corporation

[Docket No. CP89–393–000]

December 15, 1988.

Take notice that on December 13, 1988, Texas Gas Transmission Corporation (Texas Gas), 3800 Frederica Street, Owensboro, Kentucky 42301, filed in Docket No. CP89–393–000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to provide an interruptible transportation service for Ford Motor Company—Lorain Assembly Plant (Ford Motor-Lorain), under the blanket certificate issued in Docket No. CP89–686–000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

Texas Gas states that pursuant to a transportation agreement dated October 6, 1988, under its Rate Schedule T, it proposes to transport up to 6,000 MMBtu per day equivalent of natural gas for Ford Motor-Lorain from points of receipt listed in Exhibit "B" of the agreement to delivery points listed in Exhibit "C", which transportation service involves interconnections between Texas Gas and various transporters.

Texas Gas advises that service under § 284.223(a) commenced October 21, 1988, as reported in Docket No. ST89–768. Texas Gas further advises that it would transport 5,000 MMBtu on an average day and 2,190,000 MMBtu annually.

Comment date: January 30, 1989, in accordance with Standard Paragraph G at the end of this notice.

14. Texas Gas Transmission Corporation

[Docket No. CP89–397–000]

December 15, 1988.
